Located 4½ miles west of LeRoy on Hwy 58 (Note: Hwy 58 was named Hwy 57 prior to 2005).  
 Or 7 miles south of Burlington on Hwy 75 and 1¼ miles east on Hwy 58.  
 Or 14 miles north of Yates Center on Hwy 75 and 1¼ miles east on Hwy 58.

**GARDEN CENTER HOURS:**

Monday through Saturday, 9am until 7pm in March, April, and May.  
 Monday through Saturday, 9am until 5pm in June, July, August, September, and October.  
 Monday through Saturday, open by appointment in November through February.  
 Always Closed on Sundays!

Openhouse: A Gardening Salebration: March 27th through April 1st, 2017

\*\*Please note: Because of cool spring temperatures, we aim to have most of our annuals ready around the first to mid part of April. Most annuals grown in 4.5 round pots and larger will be available during Openhouse, but varieties grown in 4 packs and jumbo 6 packs and heat loving annuals may not be ready yet. Most trees, shrubs, roses, and perennials should be available by early March. Thank you for your understanding!

**SPRING 2017  
 RETAIL PLANT LIST**

**2017 Prices**

Prices listed are our planned prices for this year. Prices are subject to change.

- |  |  |  |
|--|--|--|
| 4 pack \$2.99                            | 4.5 Arnold's Logo white round pot \$4.99 | Clematis in a #1 round pot w/ trellis \$16.99      |

# 2017 Schedule of Events

Please e-mail [retail@arnoldsgreenhouse.com](mailto:retail@arnoldsgreenhouse.com) and ask to be added to our e-mail newsletter mailing list to receive notice of more Events!

## *Magic Money*

Earn Magic Money from March 1st through June 30th, 2017

We will begin issuing Magic Money on March 1st. You can accumulate Magic Money until June 30th. This is how Magic Money works: when you sign up to be in our Garden Club, we also enroll you into our Magic Money Loyalty Program! At the bottom of your receipts you will notice a "Magic Points Earned Today" and a "Magic Points Balance". For every 10 cents you spend from March through June, we give you one loyalty point. One hundred points equals one dollar in Magic Money. You can move the decimal point two places to the left on the "Magic Point Balance" total to see how many Magic Dollars you have accumulated. During Magic Days, you can match one Magic Dollar with one US Dollar to pay for your regular price purchases (essentially getting up to 50% off!). Additional Magic Money points cannot be earned during Magic Days. We will email you in July, August, and September, letting you know how many points you have to spend and when you can spend them! Please make sure we have your current email address so you receive notice of Magic Days!!

## *Openhouse: A Gardening Salebration*

Monday, March 27th through Saturday, April 1st, 2017!

During Openhouse: A Gardening Salebration, all in-stock merchandise is 10% off! We'll also have cookies, coffee, and iced tea all week! Enter our drawing to win Arnold's Greenhouse gift cards!

\*\*Please note: Because of cool spring temperatures, we aim to have most of our annuals ready around the first to mid part of April. There is a chance that not all of our annual plants will be available during Openhouse. Most all annuals grown in 4.5 round pots and larger will be available, but varieties grown in 4 packs and jumbo 6 packs and heat loving annuals may not be ready yet. Thank you for your understanding!

## *Magic Days- A wonderfully long redemption period!!*

July 1st through September 30th, 2017

Again this year, there's three whole months to spend your Magic Money!

Redeem your Magic Money during Magic Days! \*\*We will e-mail you, letting you know how many Magic Points you have to spend, the first part of July, August, and September! Please note, Magic Money accumulated in 2017 is redeemable only during Magic Days in 2017. Any unredeemed Magic Money left after Magic Days is over is void. Magic Money can be redeemed on any instock, regular priced merchandise. (Magic Money may not be used for services, sale priced merchandise, or fresh produce.) Please make sure we have your current e-mail address so you receive notice of Magic Days!!

# *Together, We Can Help the Environment*

## *Recycling Plastic Pots and Flats*

We have always reused what pots and flats we can- washing them and disinfecting them before they are filled with new potting soil and replanted. And, many of our customers have kindly joined us in our recycling efforts by bringing in their empty pots. Previously we have only been able to reuse pots and flats that came from us. While we would prefer you do all your garden shopping with us :-), we can now accept any and all plastic pots and flats. Please empty your containers of excess soil (they do not need to be washed out), and then bring them in the next time you visit us. What we can't reuse we will donate to our local recycling center. Let's do our part to help the environment!

## *10 cents back for Cardboard Boxes*

As mentioned above, we try to recycle when we can. When we receive shipments in cardboard boxes, we cut off the top and bottom of the box to use to put your plant purchase in at the checkout. However, we typically run out of these boxes early in the spring. Which means we must resort to buying cardboard boxes. We sincerely appreciate any boxes or flats you can bring with you for us to put your plant purchases in... it helps the environment, and helps us keep our costs down. As our thanks to you, we will deduct \$ .10 from your purchase total for every cardboard box or container you bring to transport your plants home in (each box or container needs to measure 10" x 16" or larger to receive the reimbursement).

# *A Taste of the Tall Grass Prairie*

We are once again offering a prairie plant selection of native grasses and wildflowers for you! Native plants thrive in their native environment, and they provide wildlife habitats, food, and nectar and pollen for pollinators.

Please ask us for more information, including plant pictures and garden plans featuring the plants in the "Taste of the Tall Grass Prairie" collection!

# Bump Up Pots

Do you want fabulously beautiful containers, but don't know which plants to combine to create a smashing success? Let us take the guess work out of creating cool plant combos... with the Bump Up Pot!

Bump Up Pots are already planted up with appealing combinations of plants- all you have to do is take them home, fill your patio container with potting soil, pop the rooted plant combination out of the Bump Up Pot, place the plant combination on top of the soil in your patio container, and then fill in around the inside edge of your patio container with more soil... and just like magic... You have a beautiful container that is stunningly beautiful AND looks like it has been planted for weeks!

Bump Up Pots are the perfect solution for sprucing up your front entrance in a matter of minutes or decorating your patio for a party! Feed the plants in your patio containers with Nature's Source Plant Food to keep them looking their finest all season long!

## Feed Your Plants with Nature's Source Plant Food

**Nature's Source is our fertilizer of choice.** All of your plants at Arnold's Greenhouse have been fertilized every day with Nature's Source. We have selected Nature's Source because it is organic based, non-toxic, environmentally friendly, and it does not have excess salts (salts are hard on plant roots). Nature's Source is derived from soybean seeds (with a small amount of added nitrogen). Seeds contain everything a seedling needs in order to grow before it develops roots to take in nutrients. Therefore, Nature's Source contains just about everything your plants need to grow- all the macro nutrients (nitrogen-phosphorous-potassium, with a 10-4-3 analysis) as well as numerous micro nutrients, trace elements, and vitamins (Nature's Source does lack in Calcium, unfortunately). Nature's Source can be used on everything you grow- houseplants, flowers, vegetables, and fruits! Nature's Source is a foliar feed as well as a root feed, so when you water your plants and get the fertilizer solution on the foliage, your plants can take Nature's Source in through the foliage and immediately begin using the fertilizer. Nature's Source is very easy to mix and use. We recommend using 1 Tablespoon of Nature's Source per gallon of water at least once a week, or every time you water your plants (your plants have been fed every day with Nature's Source while here at Arnold's Greenhouse). If your plants are needing an extra boost, you can use it at double the rate (2 Tablespoons per gallon of water), to in effect make it a 20-8-6 analysis. To easily apply Nature's Source, purchase a Fertilo-me/Gilmour Hose End Sprayer- just pour undiluted Nature's Source into the bottle, set the calibration at 1 Tablespoon per gallon of water, attach the sprayer to your garden hose, and start watering your plants! All of our plants have been fed with Nature's Source since they were tiny plants, so if you want your plants to continue to look as good as they do now, please continue to fertilize your plants with Nature's Source!

## Plant Availability

This plant list lists all of the plants we plan to have available this spring, along with the price(s) of each. Please note, not all plants will be available at the same time, but we believe all will be available sometime during the spring. We do not maintain an on-line availability list; however, if you would like to know if a certain item is available, please call us! We grow our plants in limited numbers, attempting to match availability to the demand. Inevitably, we fail. To get the best selection, we suggest you shop for your plants early in their availability season.

We open for the spring on March 1st. March is a wonderful time to plant perennials as it gives the perennials a chance to get established before summer weather arrives. Many of our perennials have been hardened off (acclimated to the cold weather) by the time we open in March. Because we grow nearly all of our own perennials, the best selection of perennials is in early March. However, we have a great selection of perennials all spring, although we might be sold out of a few varieties in April and May.

We grow some of our own shrubs, but the majority of our trees and shrubs arrive by mid March. Berries are often available by the first of March. Fruit trees are often available by mid March. Strawberries and Rhubarb are available by mid to late March.

We grow all of our own roses. Roses are available beginning in March, but it is best to wait until at least the very end of March to purchase them, as they will be leafed out by then. Roses purchased in early March (before they are leafed out) will need to be misted several times a day to encourage them to continue to leaf out.

We grow all of our own herbs. Perennial herbs are available by March first. Most annual herbs are available by the first part of April.

We grow all of our own vegetables. Cool season vegetables (Broccoli, Brussels Sprouts, Cabbage, Cauliflower, Leeks, Lettuce, and Swiss Chard) are available the first of March. Asparagus crowns, Seed Potatoes, and Onion Sets are available in early March. Onion Plants are available by mid March. Tomatoes and Peppers are available by mid April, sometimes by early April. Vine Crops (Cantaloupe, Cucumbers, Pumpkins, Squash, and Watermelon) require warm soil, and thus are not available until the end of April. Sweet Potato plants are generally available by the first of May.

We grow all of our own annuals. Most annuals are frost sensitive and should not be planted out until the danger of frost is minimal (the last average frost date in southeast Kansas is mid April). Cool season annuals, such as Pansies and Osteospermums, are ready in March. Annuals that can tolerate a bit of cold and a light frost are usually ready by the first part of April. The rest of the annuals are ready by mid April. Should a frost be predicted after you have planted your annuals, they can usually be protected from the frost by covering them with a sheet or blanket. If frost is predicted and the annuals are planted in a container or hanging basket, bring the container or hanging basket inside for the night.

Hardy aquatic plants, floating plants, and submerged plants are usually available by mid April. Tropical aquatic plants are usually available by the first part of May.

Spring blooming bulbs and fall mums and asters are usually available by Labor Day and until the end of October.

**\*\*The 'available by' dates should be used as a guide only.\*\*** With our huge selection of plants, we will have a nice selection all of the time, but we will not have all 2,500 varieties of plants available on the exact same date. Please use the guidelines above to select the best times to come shop for your favorite plants. Our best selection of plants will always be in the spring, with about 80% to 90% of the varieties of plants also being available in the summer and fall months. If you are coming for a particular plant, please call to make sure we have the plant you are wanting available. Thanks!

# Caring for Your Plants Before You Plant Them

## DURING THE SPRING AND FALL

By early to mid March, most of all of our perennials have been acclimated to the cold temperatures (i.e. "hardened off"). If you are unable to plant your trees, shrubs, and perennials right away and the temperatures are above freezing, please place them outside in a sunny area out of the wind. If the temperatures fall below freezing, please place them indoors in a very sunny window. Even when hardened off, some perennials are sensitive to frost and may show leaf damage if they are frosted; however, in nearly all cases, the plants will put forth new growth from the crown.

Most all annuals are sensitive to frost. The last average frost for southeast Kansas is in mid April. If you have planted your annuals outside and a frost is forecasted, we suggest covering your annual flowers and vegetables with a blanket or sheet- anything to keep the frost off of the plants.

If you purchase your annual plants before the weather is warm enough to plant them, they should be placed indoors near a very sunny window and kept watered and fertilized. They can be placed outside in their pots as long as it is above freezing.

Your plants should be watered when the potting soil is just starting to get dry, generally every day or every other day. We also recommend you fertilize your plants with Daniels Plant Food every time you water, or at least once a week.

## DURING THE SUMMER

Put your plants in a semi-shaded place out of the hot afternoon sun, such as under a shade tree or on the north side of a building. Everyday, water your plants until water runs out the bottom of the pots. Use Daniels Plant Food every time you water, or at least once a week. Plant your plants as soon as possible.

## Traveling with Your Plants

If possible, please use an enclosed vehicle to transport your plants. Plants being transported in an open truck need protection, so please bring an old sheet or tarp to shield your plants from heat, cold, and especially the wind. Please do not leave your plants enclosed in a hot vehicle.

## Our One Year Guarantee for most Trees and Shrubs

We guarantee our trees and shrubs to be true to name and free of disease at the time of purchase. Our responsibility is to provide you with healthy plants that are true to name. Your responsibility is to care for them after purchase. If, after proper planting and care, any guaranteed woody plant that you buy from Arnold's Greenhouse fails to grow, we will refund the purchase price for the period of one year from the date of purchase. We cannot be held liable for any amount greater than the purchase price. Since we have no control over the climatic events and conditions in your area, we cannot be held liable for plants damaged due to animals, vandalism, neglect, frost, freezing temperatures, or any other mechanical or natural event.

Trees, Shrubs, Conifers, and Berries listed in the current Arnold's Greenhouse Plant Wishbook & Garden Guide as being hardy to zone 5 or colder are included in this guarantee. Azaleas, Rhododendrons, Roses, Japanese Maples, Fruiting and Flowering Cherries, and woody plants listed as only being hardy to zone 6 or warmer in the current Arnold's Greenhouse Plant Wishbook & Garden Guide (even if the plant was planted in a zone 6 garden) are not included in this guarantee.

Your gardening success will be greatly enhanced by planting your plants in the desired sunlight and soil conditions, using MYKE at the time of planting, amending your soil beyond the planting hole, mulching, watering, and fertilizing. It is VERY important to not plant trees too deeply (find the root flare), and to not mound up mulch around the tree trunk (2" to 3" of mulch is sufficient, keeping it an inch or two away from the trunk). A tree and shrub planting guide is available at the check out.

To expedite guarantee returns, please present your dated receipt and the plant.

## Our Extended Five Year Guarantee for most Trees & Shrubs

Extend our One Year Guarantee on most trees and shrubs (\*trees and shrubs listed in our catalog as only being hardy to zone 6, Roses, Japanese Maples, Fruiting and Flowering Cherries, Blueberries, Azaleas, and Rhododendrons are not included in our guarantee) to a full five year guarantee with the purchase and use of Tree and Shrub MYKE, a beneficial mycorrhizae! A 20 year world wide study has shown that mycorrhizae enhances root development and doubles the plant's uptake of water and nutrients, thus enhancing plant establishment and causing your plants to grow faster.

\*\*There are a few plants that MYKE will not colonize, such as Blueberries, Azaleas, and Rhododendrons. MYKE will not hurt these plants, but it will not help them either. The Five Year Guarantee does not cover woody plants that are not colonized by MYKE.

To receive your Five Year Guarantee, the appropriate amount of Tree & Shrub MYKE must be purchased on the same receipt as you purchase your trees and shrubs.

To expedite guarantee returns, please present your dated receipt and the plant.

## Our Guarantee for all other plants

We guarantee our plants to be true to name and free of disease at the time of purchase. Our responsibility is to provide you with healthy plants that are true to name. Your responsibility is to care for them after purchase. If we fail in providing healthy plants, please let us know within 1 week of purchase, and we will refund the purchase price. We cannot be held liable for any amount greater than the purchase price. Since we have no control over the climatic events and conditions in your area, we cannot be held liable for plants damaged due to animals, vandalism, neglect, frost, freezing temperatures, or any other mechanical or natural event.

Your gardening success will be greatly enhanced by planting your plants in the desired sunlight and soil conditions, using MYKE at the time of planting, amending your soil, mulching, watering, and fertilizing. We have tip sheets available in the garden center for various plants. K-State also has wonderful planting guides available online.

Southern Star Pink	4.5 Black rnd \$4.99

Plants in 3.5 square pots, 4.5 round pots, and 2 quart pots are also part of our selection of annuals and perennials for the garden. They will need to have the soilless potting mix washed off of their roots and then planted in top soil before they are placed in your water garden. If they are not planted in top soil first, the soilless mix (bark, vermiculite, perlite, and peat) will float to the surface of the water! Top off the pots with washed pea gravel to keep the top soil from clouding your water.
