

Annuals Catalog 2016

Annual Flower/Foliage

Acalypha (Copper Leaf) 'Tiki Jungle Cloak'

Copper Leaf

2'-3' tall

Rich, moist, well-drained soil.

Part to full sun

18"-24" wide

This tropical beauty boasts shades of bronze, red, yellow, and green in an irregular blend. Its foliage is a beautiful and striking contrast that glows in the garden. Best coloration is in full sun, though it can be grown in part sun and is very suitable for containers as well as the landscape.

Ageratum 'Cloud Nine Blue'

Floss Flower

Mid blue

4"-5" tall

NEW Rich, moist, well-drained soil.

Part to Full sun

SP-F

10"-12" wide

Smaller green leaves form a neat backdrop to the 1" wide clusters of mid blue flowers. Wonderful in containers as well as in flower beds.

Ageratum 'Artist Blue'

Floss Flower

True blue

8"-12" tall

Rich, moist, well-drained soil.

Part to Full sun

SP-F

10"-14" wide

Prairie Star

Tight clusters of true blue flowers; compact, vigorous plants are great for containers and flower beds; Prairie Star Award Winner!

Ageratum 'High Tide Blue'

Floss Flower

Sky blue

1'-2' tall

Rich, moist, well-drained soil.

Part to Full sun

SP-F

12"-18" wide

Prairie Star

Creates a dense, mounded hedge of clear sky blue flowers; grows taller and more vigorously than other varieties; very well-branched, self-cleaning, and easy to grow; Prairie Star Award Winner.

Albuca spiralis 'Frizzle Sizzle'

Green and pale yellow

7" to 12" tall

NEW Moist, well-drained to dry

Part to full sun

LW-MSP

Are you looking for an unusual plant to bring enjoyment and whimsy to your gardening endeavors? Albuca 'Frizzle Sizzle' has thick, tightly curled, narrow leaves on short stems that arise from an underground bulb. Some leaves are more wavy, like a snake. The degree of spiral depends on the clone and the amount of sunlight the plant receives when the leaves start growing. The flowers are green with pale yellow margins, nodding, sweetly scented, reportedly of butter and vanilla! The fragrance can be quite strong on a warm sunny day! The flower spikes are adorned with 10 to 20 blooms per spike. The blossoms have a light vanilla fragrance. Grow in part to full sun and allow the soil to dry out between waterings. Plants are winter growing and summer dormant. There are no pest or disease problems with 'Frizzle Sizzle' so it makes an ideal home garden plant that's distinctive and eye-catching. Over time, the bulb will multiply, resulting in a full, very wild and wacky clump.

Alcea 'Spring Celebrities Rose'

Hollyhock

Bright rose

24"-28" tall

Moist, well-drained soil.

Full sun

LSP-LSU

16"-18" wide

Incredibly well-branched and dwarf - these semi-double to double beauties are 2 1/2" to 3" wide with an outer layer of wide, flat petals topped by a ruffled frilly center. The petals are slightly notched, creating a pleated look in the center of the flower. Fade-proof and utterly beautiful, the flowers are to be enjoyed up-close. Very nice cut flower. Wonderful in containers and in the garden! Incredibly long blooming- beginning in late spring in most climates, and continuing freely into midsummer (when we visited the KSU Olathe trial garden in August, they were still in bloom!).

Alocasia macrorrhiza

Upright Elephant Ears

4'-6' tall

Rich, moist soil.

Part shade

3' wide

Large, deep green upright leaves will provide a dramatic effect in a container or in the tropical garden.

Annual Flower/Foliage

Alternanthera dentata 'Purple Knight'	Bloodleaf, Joyweed, Calico Plant, Christmas Clover, Joseph's Coat		16"-18" tall
Moist, well-drained soil.	Full sun to Full shade		18"-24" wide

Christmas Clover; Dark purple foliage on vigorous, upright and spreading plants; very heat and humidity tolerant; great for containers.

Alternanthera ficoidea 'Burgundy Thread'	Bloodleaf, Joyweed, Calico Plant, Christmas Clover, Joseph's Coat; Parrot Leaf	Buff	8"-14" tall
Moist, well-drained soil.	Part to full sun	SP-W	8"-14" wide

A compact and tidy foliage plant with very narrow, rippled leaves of dark burgundy. The plants make compact, tidy balls of foliage! It blooms on and off all year, but you may never notice as the small, pale flower buttons are held in the leaf axils, where they are nearly indistinguishable from the foliage unless you are paying close attention. Use 'Burgundy Thread' at the base of taller plants in the border to provide vibrant color echoes or contrasts.

Amaranthus 'Illumination'	Summer Poinsettia		28" tall
Rich, moist soil.	Full sun		12"-18" wide

Tricolored leaves of yellow, green, and red.

Angelonia angustifolia 'AngelMist Spreading Dark Purple'	Summer Snapdragon	Dark purple	6"-15" tall
Rich, moist, well-drained soil.	Full sun	LSP-F	8"-24" wide

Numerous loose spikes of dark purple flowers; its short, wide stature makes it great in the garden or in containers.

Angelonia angustifolia 'Archangel Dark Purple'	Summer Snapdragon	Dark purple	12"-14" tall
Rich, moist, well-drained soil.	Full sun	SP-F	10"-12" wide

Spikes of large, dark purple flowers on well-branched plants. Thrives in extreme heat, humidity, and drought!

Angelonia angustifolia 'Archangel Raspberry Imp.'	Summer Snapdragon	Intense rose-pink	12"-21" tall
Rich, moist, well-drained soil.	Full sun	LSP-F	10"-14" wide

Prairie Star

Sturdy, well-branched plants with glossy, dark green foliage. Large intense, bright rose-pink flowers make for a big visual impact, even from a distance! 'Archangel' has larger flowers, packed full on well-branched stems. Thrives in extreme heat, humidity, and drought!

Angelonia angustifolia 'Archangel Raspberry Imp.'	Summer Snapdragon	Intense rose-pink	12"-21" tall
Rich, moist, well-drained soil.	Full sun	LSP-F	10"-14" wide

Prairie Star

Sturdy, well-branched plants with glossy, dark green foliage. Large intense, bright rose-pink flowers make for a big visual impact, even from a distance! 'Archangel' has larger flowers, packed full on well-branched stems. Thrives in extreme heat, humidity, and drought!

Annual Flower/Foliage

Angelonia angustifolia 'Serena Blue'

Summer Snapdragon

Clear true blue and white

16"-20" tall

Rich, moist, well-drained soil.

Full sun

LSP-F

12"-15" wide

Prairie Star

Well-branched plants are compact and full and topped by numerous spikes of flowers. The short height makes them perfect for containers and hanging baskets. Clear true blue flowers with white centers.

Angelonia angustifolia 'Serenita Pink'

Summer Snapdragon

Rich pink

9"-14" tall

Rich, moist, well-drained soil.

Full sun

SP-F

12"-14" wide

Prairie Star

Produces a magnificent splash of color on compact plants! Bountiful, rich pink flowers with darker throats and a white lip on the bottom opening of the throats. Tough plants are a fine choice for our hot and humid summers! A beauty for beastly conditions!

Angelonia angustifolia 'Serenita Purple'

Summer Snapdragon

Vibrant purple

9"-14" tall

Rich, moist, well-drained soil.

Full sun

SP-F

12"-14" wide

Prairie Star

rabbit resistant

deer resistant

Produces a magnificent splash of color on compact plants! Bountiful, vibrant plum-purple flowers with darker throats and a white lip on the bottom opening of the throats. Tough plants are a fine choice for our hot and humid summers! A beauty for beastly conditions! K-State fans should try this one for its rich purple color!

Angelonia angustifolia 'Serenita Sky Blue'

Summer Snapdragon

Light lavender-blue

9"-14" tall

NEW Rich, moist, well-drained soil.

Full sun

SP-F

12"-14" wide

Prairie Star

Produces a magnificent splash of color on compact plants! Bountiful, light lavender-blue flowers with darker throats and a white lip on the bottom opening of the throats. Tough plants are a fine choice for our hot and humid summers! A beauty for beastly conditions!

Angelonia angustifolia 'Serenita White'

Summer Snapdragon

Pure white

9"-14" tall

Rich, moist, well-drained soil.

Full sun

SP-F

12"-14" wide

Prairie Star

rabbit resistant

deer resistant

Produces a bright splash of color on compact plants! Bountiful, beautiful pure white flowers with chartreuse throats. Tough plants are a fine choice for our hot and humid summers! A beauty for beastly conditions!

Angelonia angustifolia 'Zebra'

Summer Snapdragon

Rose and mauve

16"-20" tall

Rich, moist, well-drained soil.

Full sun

SP-F

8"-12" wide

Rich rose blooms are accented with clear mauve stripes on the petals, and a burgundy throat. Thrives in the heat and humidity and is very drought tolerant!

Anigozanthos 'Cape Red Lead'

Kangaroo Paw

Dark coppery red

12"-20" tall

Very well-drained to dry soil.

Full sun

LSP-LSU

16"-20" wide

This unique cut flower is not just for high-end florists anymore! The green, strap-like foliage gives way to architectural spikes of fuzzy dark coppery red flowers. Because the fuzz is on the outside of the calyx, it remains showy for weeks after the flowers pass. The fuzzy, curved blooms resemble the fuzzy paws of kangaroos, hence the common name! The flower only once, so cut the finished flower spike down as close to the ground as possible to encourage rebloom. Hummingbirds are attracted to the unique flowers. This Australian native is drought-tolerant and must have very well-drained soil. Needs very little or no fertilizer, but you can improve its growth with a slow release fertilizer applied around the plant.

Annual Flower/Foliage

Argyranthemum 'Butterfly'	Marguerite Daisy; Boston Daisy	Bright yellow	14"-18" tall
Well-drained soil.	Full sun	SP-F	12"-14" wide

Extremely large single bright yellow blooms; arguably the longest blooming *Argyranthemum*.

Asclepias 'Monarch Promise'	Bloodflower	Orange and red	24"-30" tall
NEW Rich, well-drained soil; water sparingly.	Full sun	SU-F	15" wide

A milkweed that Monarchs love, plus it provides some very unique variegated foliage! The leaves have a pinkish tint to the creamy leaf margins, making them quite beautiful! A fun plant for the gardener who has it all and is looking for something a little new- and wants to provide some pollinator habitat in the process! An attractive addition to containers as well!

Asclepias 'Silky Gold'	Bloodflower	Gold	28"-36" tall
Rich, well-drained soil; water sparingly.	Full sun	SU-F	12"-18" wide

Luminous golden yellow blooms all summer and up to frost.

Asclepias 'Silky Scarlet'	Bloodflower	Red and orange	28"-36" tall
Rich, well-drained soil; water sparingly.	Full sun	SU-F	12"-18" wide

Brilliant electric red and orange bicolored blooms all summer and up to frost.

Asparagus Fern densiflorus 'Myersii'	Foxtail Fern; Bottle Brush Fern	White	1'-2' tall
Rich, moist, well-drained soil.	Part to Full shade	SU	1'-2' wide

The upright to arching, lime-green stems with fern-like foliage give the appearance of foxtails. Insignificant, small, white flowers along the main stems occur in summer, but rarely ever yield bright red berries. Wonderful as a houseplant in bright light, or outdoors in large containers!

Asparagus Fern densiflorus 'Sprengeri'	Emerald Fern, Sprengeri, Protasparagus		18"-24" tall
Rich, moist, well-drained soil.	Part to Full shade		1' wide

Emerald Fern; Long graceful sprays of green foliage.

Bacopa 'Abunda Colossal White'	<i>Sutera cordata</i>	Pure white	3"-10" tall
Moist, well-drained soil.	Part to full shade	SP-F	12"-16" wide

Hundreds of beautiful flowers cover these trailing plants all summer long, even when other varieties quit blooming. Large white flowers contrast nicely with the dark green foliage.

Bacopa 'Snowstorm Blue'	<i>Sutera cordata</i>	Lavender-blue	4"-8" tall
Moist, well-drained soil.	Part to full shade	SP-F	8"-10" wide

Dime-size lavender-blue flowers on plants that trail up to 3'!

Annual Flower/Foliage

Begonia boliviensis 'Bossa Nova Ivory'	Bolivian Begonia	Ivory	18"-30" tall
NEW Rich, moist, well-drained soil.	Part to full shade	LSP-F	16"-20" wide

A fantastic option for use in dramatic hanging baskets and colorful combination planters, where continuous color-power is needed all season long. Exhibits excellent branching on a tidy, yet abundant habit. Nonstop, bell-shaped, ivory blooms are 2" wide and appear from late spring to frost on impressive, cascading plants. The blooms contrast beautifully against the dark foliage. Self cleaning and tough.

Begonia boliviensis 'Bossa Nova Orange'	Bolivian Begonia	Bright orange	18"-30" tall
Rich, moist, well-drained soil.	Part to full shade	LSP-F	16"-20" wide

A fantastic option for use in dramatic hanging baskets and colorful combination planters, where continuous color-power is needed all season long. Exhibits excellent branching on a tidy, yet abundant habit. Nonstop, bell-shaped, bright orange blooms are 2" wide and appear from late spring to frost on impressive, cascading plants. Self cleaning and tough.

Begonia boliviensis 'Bossa Nova Pink Glow'	Bolivian Begonia	Glowing salmon-pink	18"-30" tall
NEW Rich, moist, well-drained soil.	Part to full shade	LSP-F	16"-20" wide

A fantastic option for use in dramatic hanging baskets and colorful combination planters, where continuous color-power is needed all season long. Exhibits excellent branching on a tidy, yet abundant habit. Nonstop, bell-shaped, glowing salmon-pink blooms are 2" wide and appear from late spring to frost on impressive, cascading plants. The flowers really "pop" against the green foliage! Self cleaning and tough.

Begonia boliviensis 'Bossa Nova Red'	Bolivian Begonia	Rosy red	18"-30" tall
Rich, moist, well-drained soil.	Part to full shade	LSP-F	16"-20" wide

A fantastic option for use in dramatic hanging baskets and colorful combination planters, where continuous color-power is needed all season long. Exhibits excellent branching on a tidy, yet abundant habit. Nonstop, bell-shaped, rosy red blooms are 2" wide and appear from late spring to frost on impressive, cascading plants. Self cleaning and tough.

Begonia boliviensis 'Bossa Nova Rose'	Bolivian Begonia	Bright rose	18"-30" tall
Rich, moist, well-drained soil.	Part to full shade	LSP-F	16"-20" wide

A fantastic option for use in dramatic hanging baskets and colorful combination planters, where continuous color-power is needed all season long. Exhibits excellent branching on a tidy, yet abundant habit. Nonstop, bell-shaped, bright rose blooms are 2" wide and appear from late spring to frost on impressive, cascading plants. Self cleaning and tough.

Begonia boliviensis 'Bossa Nova Salmon Shades'	Bolivian Begonia	Salmon-orange	18"-30" tall
NEW Rich, moist, well-drained soil.	Part to full shade	LSP-F	16"-20" wide

A fantastic option for use in dramatic hanging baskets and colorful combination planters, where continuous color-power is needed all season long. Exhibits excellent branching on a tidy, yet abundant habit. Nonstop, bell-shaped, luscious salmon-orange blooms are 2" wide and appear from late spring to frost on impressive, cascading plants. Self cleaning and tough.

Begonia boliviensis 'Breezy Pink'	Bolivian Begonia	Bright rose-pink	7"-10" tall
Rich, moist, well-drained soil.	Full shade	LSP-F	10"-18" wide

Naturally branching, mounding, and trailing series makes a great container and basket crop - it's 'Easy Breezy'! A great shade loving plant, Breezy boasts large, bright, and fringed double blooms. They have the trailing habit of the tuberous begonia 'Illumination' series, but much better habit--more mounding, so less breakage. They form tubers at the end of the growing season, so harvest the tubers & keep in damp peat moss thru the winter, at 50 degrees; replant the tubers indoors in late winter.

Begonia boliviensis 'Breezy Red'	Bolivian Begonia	Brilliant red	7"-10" tall
Rich, moist, well-drained soil.	Full shade	LSP-F	10"-18" wide

Naturally branching, mounding, and trailing series makes a great container and basket crop - it's 'Easy Breezy'! A great shade loving plant, Breezy boasts large, bright, and fringed double blooms. They have the trailing habit of the tuberous begonia 'Illumination' series, but much better habit--more mounding, so less breakage. They form tubers at the end of the growing season, so harvest the tubers & keep in damp peat moss thru the winter, at 50 degrees; replant the tubers indoors in late winter.

Annual Flower/Foliage

Begonia boliviensis 'Breezy Yellow'

Bolivian Begonia

Bright lemon yellow

7"-10" tall

Rich, moist, well-drained soil.

Full shade

LSP-F

10"-18" wide

Naturally branching, mounding, and trailing series makes a great container and basket crop - it's 'Easy Breezy'! A great shade loving plant, Breezy boasts large, bright, and fringed double blooms. They have the trailing habit of the tuberous begonia 'Illumination' series, but much better habit---more mounding, so less breakage. They form tubers at the end of the growing season, so harvest the tubers & keep in damp peat moss thru the winter, at 50 degrees; replant the tubers indoors in late winter.

Begonia boliviensis 'Unbelievable First Kiss'

Bolivian Begonia

Deep rose

10"-24" tall

NEW Rich, moist, well-drained soil.

Part to full shade

LSP-F

10"-16" wide

Big, bright blooms are what make this begonia unbelievable! Deep rose, semi-double, 1 1/2" wide flowers are set off against dark green, heavily serrated foliage. A great selection for adding texture and color to containers and flowerbeds. Very heat tolerant.

Begonia boliviensis 'Unstoppable Lucky Strike'

Bolivian Begonia

Clear lemon and peach

10"-14" tall

Rich, moist, well-drained soil.

Part to full shade

LSP-F

10"-14" wide

The foliage is what sets this begonia apart- dark blue-green leaves are narrow and pointed, framing the single clear lemon and peach hued flowers nicely! It is a very pretty and very tidy plant, perfect for containers.

Begonia boliviensis 'Unstoppable Upright Fire'

Bolivian Begonia

Intense scarlet flowers

10"-12" tall

Rich, moist, well-drained soil.

Full shade

SP-F

3"-36" wide

Dark serrated foliage. A beautiful new plant with a more upright habit and stronger branching than the species (although still more spreading than upright). Outstanding texture and rich, dark, serrated foliage with large blooms held out and above the leaves. The contrast of the dark colored foliage to the flower color really sets this B. boliviensis apart from other selections!

Begonia semperflorens cultorum 'Cocktail Gin'

Wax Begonia

Pink

6"-11" tall

Rich, moist, well-drained soil.

Full sun to Full shade

SP-F

6"-11" wide

Pink flowers atop bronze foliage.

Begonia semperflorens cultorum 'Cocktail Mix'

Wax Begonia

Mix

6"-11" tall

Rich, moist, well-drained soil.

Full sun to Full shade

SP-F

6"-11" wide

Bronze foliage plants in a mix of red, pink, pink and white bicolor, and white flowers.

Begonia semperflorens cultorum 'Cocktail Mix'

Wax Begonia

Mix

6"-11" tall

Rich, moist, well-drained soil.

Full sun to Full shade

SP-F

6"-11" wide

Bronze foliage plants in a mix of red, pink, pink and white bicolor, and white flowers.

Begonia semperflorens cultorum 'Cocktail Tequila'

Wax Begonia

Deep rose

6"-11" tall

NEW Rich, moist, well-drained soil.

Full sun to Full shade

SP-F

6"-11" wide

Deep rose flowers atop bronze foliage; Prairie Star.

Annual Flower/Foliage**Begonia semperflorens cultorum 'Cocktail Vodka'**

Wax Begonia

Red

6"-11" tall

Rich, moist, well-drained soil.

Full sun to Full shade

SP-F

6"-11" wide

Prairie Star

Red flowers atop bronze foliage; Prairie Star.

Begonia semperflorens cultorum 'Cocktail Whiskey'

Wax Begonia

White

6"-11" tall

Rich, moist, well-drained soil.

Full sun to Full shade

SP-F

6"-11" wide

Prairie Star

White flowers atop bronze foliage; Prairie Star.

Begonia semperflorens cultorum 'Cocktail Whiskey'

Wax Begonia

White

6"-11" tall

Rich, moist, well-drained soil.

Full sun to Full shade

SP-F

6"-11" wide

Prairie Star

White flowers atop bronze foliage; Prairie Star.

Begonia semperflorens cultorum 'Super Olympia Mix'

Wax Begonia

Mix

6"-8" tall

Rich, moist, well-drained soil.

Full sun to Full shade

SP-F

8"-10" wide

Compact, uniform plants are early to bloom with ¾" blooms in a mix of coral, light pink, pink, red, rose, and white; green foliage.

Begonia semperflorens cultorum 'Super Olympia Red'

Wax Begonia

Red

6"-8" tall

Rich, moist, well-drained soil.

Full sun to Full shade

SP-F

8"-10" wide

Compact, uniform plants are early to bloom with ¾" red blooms atop green foliage.

Begonia semperflorens cultorum 'Super Olympia Rose'

Wax Begonia

Rose

6"-8" tall

Rich, moist, well-drained soil.

Full sun to Full shade

SP-F

8"-10" wide

Prairie Star

Compact, uniform plants are early to bloom with ¾" rose blooms atop green foliage.

Begonia semperflorens cultorum 'Super Olympia White'

Wax Begonia

Pure white

6"-8" tall

Rich, moist, well-drained soil.

Full sun to Full shade

SP-F

8"-10" wide

Prairie Star

Compact, uniform plants are early to bloom with ¾" pure white blooms atop green foliage.

Annual Flower/Foliage

Begonia x benariensis 'Whopper Red w/ Green Leaf'

Wax Begonia

Bright red

34" tall

Rich, moist, well-drained soil.

Part sun to shade

LSP-F

Prairie Star

These monster plants garner attention every where they are planted, thanks to their extra large red blooms (up to 3" across), bold color, shiny green foliage, and ability to stand tough through the blazing heat. They are loved for the super-sized shows Whopper puts on in mass plantings and containers.

Begonia x benariensis 'Big Pink w/ Green Leaf'

Wax Begonia

Rose-pink

1'-2' tall

Rich, moist, well-drained soil.

Part to full shade

SP-F

12"-15" wide

Prairie Star

This revolutionary landscape begonia takes sun or shade! Robust plants cover themselves in 2 1/2" wide rose-pink flowers above the glossy green foliage. The plants have an upright, arching habit with a dense flower canopy. Self-cleaning- spent flowers fall to the ground. These begonias make a stately presentation in park settings, large landscape plantings, and in combination planters.

Begonia x benariensis 'Big Red w/ Bronze Leaf'

Wax Begonia

Bright red

12"-18" tall

Rich, moist, well-drained soil.

Part to full shade

SP-F

16"-18" wide

Prairie Star

This revolutionary landscape begonia takes sun or shade! Robust plants cover themselves in 2 1/2" wide bright red flowers above the glossy bronze foliage. The plants have an upright, arching habit. These begonias make a stately presentation in park settings, large landscape plantings, and in combination planters.

Begonia x benariensis 'Big Rose w/ Bronze Leaf'

Wax Begonia

Vibrant rose

12"-18" tall

Rich, moist, well-drained soil.

Part to full shade

SP-F

16"-18" wide

Prairie Star

This revolutionary landscape begonia takes sun or shade! Robust plants cover themselves in 2 1/2" wide vibrant, bright rose flowers above the glossy bronze foliage. The plants have an upright, arching habit. These begonias make a stately presentation in park settings, large landscape plantings, and in combination planters.

Begonia, Angel Wing 'Lana'

Angel Wing Begonia

Deep pink

2'-4' tall

Rich, moist, well-drained soil.

Part to Full shade

SP-W

2' wide

Very dark green angel-wing leaves are accented with almost white veins; clusters of deep pink flowers set against the bicolored foliage makes for a wonderful composition!

Begonia, Angel Wing withlacoochee 'Brazilian Lady'

Bridal Veil Begonia

Pure white

12"-15" tall

Rich, moist, well-drained soil.

Part to full shade

SP-W

2'-4' wide

A profusion of pearly white lacy flowers are borne in winter above elongated dark bronzy green leaves that have light green veins and maroon undersides. Possesses a very attractive, delicate appearance, yet it is very easy to grow indoors or out. Has a spreading and trailing habit, making it lovely cascading out of window boxes and containers!

Begonia, Fibrous 'Doublet Pink'

Fibrous Begonia

Pink

8"-11" tall

Rich, moist, well-drained soil.

Part to Full shade

SP-F

12"-14" wide

Prairie Star

Double pink flowers atop bronze leaves; long blooming; Prairie Star.

Annual Flower/Foliage

Begonia, Fibrous 'Doublet Red'	Fibrous Begonia	Scarlet-red	8"-11" tall
Rich, moist, well-drained soil.	Part to Full shade	SP-F	12"-14" wide

Prairie Star

Double scarlet-red flowers atop bronze leaves; long blooming; Prairie Star.

Begonia, Fibrous 'Doublet Rose'	Fibrous Begonia	Deep rose	8"-11" tall
Rich, moist, well-drained soil.	Part to Full shade	SP-F	12"-14" wide

Prairie Star

Double deep rose flowers atop bronze leaves; long blooming; Prairie Star.

Begonia, Fibrous 'Doublet White'	Fibrous Begonia	White	8"-11" tall
Rich, moist, well-drained soil.	Part to Full shade	SP-F	12"-14" wide

Prairie Star

Double white flowers atop bronze leaves; long blooming; Prairie Star.

Begonia, Fibrous 'Dragon Wing Pink'	Fibrous Begonia	Medium pink	12"-15" tall
Rich, moist, well-drained soil.	Full sun to Full shade	SP-F	12"-18" wide

Bright green leaves are paired like wings; medium pink 1½" flowers; vigorous and very heat tolerant. **Dr. Alan Stevens' research at the K-State trial garden locations has shown that the 'Dragon Wing' Begonias can be grown successfully in full sun IF they are planted early (after chance of frost is over, but well before the weather turns hot) and if they are spaced a little closer together (to help the plants shade the soil and keep the soil temperature cooler).**

Begonia, Fibrous 'Dragon Wing Red'	Fibrous Begonia	Scarlet	12"-15" tall
Rich, moist, well-drained soil.	Full sun to Full shade	SP-F	12"-18" wide

Prairie Star

Bright green leaves are paired like wings; scarlet 1½" flowers; vigorous and very heat tolerant. **Dr. Alan Stevens' research at the K-State trial garden locations has shown that the 'Dragon Wing' Begonias can be grown successfully in full sun IF they are planted early (after chance of frost is over, but well before the weather turns hot) and if they are spaced a little closer together (to help the plants shade the soil and keep the soil temperature cooler).**

Begonia, Rex 'Autumn Embers'	Rex Begonia		10"-12" tall
NEW Rich, moist, well-drained soil.	Full shade	W	6"-10" wide

Medium-sized, slightly puckered foliage glows in a bright, warm cinnamon-orange tone with red undersides. Amazing in its colors, evoking the changing colors of tree leaves in the fall months! Performs best in bright shade. Water around the base of the plant, so the foliage stays as dry as possible. A wonderful focal point in containers!

Begonia, Rex 'Black Satin'	Rex Begonia		6"-12" tall
Rich, moist, well-drained soil.	Full shade	W	6"-12" wide

Glossy black foliage with some green variegation and spotting.

Begonia, Rex 'Escargot'	Rex Begonia	Pink	12"-15" tall
Rich, moist, well-drained soil.	Full shade	W	1' wide

Unique leaves have deep green centers, then silver-green, then dark green again, all thinly edged in chocolate-maroon; as a double bonus, the leaf forms a pinwheel at the leaf petiole; Escargot is the gourmet name for "snail"!

Annual Flower/Foliage

Begonia, Rex 'Fireworks'	Rex Begonia			6"-14" tall
Rich, moist, well-drained soil.		Full shade	W	10"-12" wide

A Rex Begonia of infinite beauty, 'Fireworks' casts its ruby red veins outwardly over its silvery leaves, finding completion at its beautiful plum-toned edges.

Begonia, Rex 'Northern Lights'	Rex Begonia		Pure white	6"-12" tall
Rich, moist, well-drained soil.		Full shade	W	6"-12" wide

Unique leaves change color with seasonal light, always creating an eye-catching display! In spring and summer, the foliage is silver with deep burgundy veining. In fall and winter, there is a beautiful rosy-red overlay to the silvery! Sprays of white blooms arise over the compact, mounding plants in winter.

Begonia, Rex 'Red Robin'	Rex Begonia			6"-8" tall
Rich, moist, well-drained soil.		Full shade	W	10"-12" wide

Stunning, small leaves are bright red, with deep chocolatey purple centers and edges. Compact habit.

Begonia, Rex 'Rum Painkiller'	Rex Begonia			6"-12" tall
Rich, moist, well-drained soil.		Full shade	W	6"-12" wide

Bright pink centers are hidden underneath thick dark green venation that appears to be painted on, edged with thick bands of minty green.

Begonia, Rex 'Superstar'	Rex Begonia			6"-12" tall
Rich, moist, well-drained soil.		Full shade	W	6"-12" wide

Ruffled, deep burgundy leaves, with a heavy silver overlay and burgundy veining. The leaves form a pinwheel at the base of the petiole.

Begonia, Tuberous 'Evi Pink'	Tuberous Begonia		Rose-pink	8" tall ,8" wide
NEW Rich, moist, well-drained soil.		Full shade	SP-F	

Prairie Star

x x x

This variety was trialed at the K-State gardens and found to be impressive in the shade containers. One of the most prolific blooming begonias, it is not as affected as some of the other cultivars by temperature swings from cool to hot. Large single and semi-double, intensely colored, bright rose-pink flowers atop beautiful dark foliage. Plant in moist, well-drained soil in full shade.

Begonia, Tuberous 'Non Stop Joy Yellow'	Tuberous Begonia		Golden yellow	8"-12" tall
NEW Rich, moist, well-drained soil.		Full shade	SP-F	12"-16" wide

The first semi-trailing begonia in the 'Non Stop' family. Vigorous, mounding plants show off large, golden yellow double blooms.

Begonia, Tuberous 'Non Stop Mocca Bright Orange'	Tuberous Begonia		Bright orange	10"-12" tall
NEW Rich, moist, well-drained soil.		Full shade	SP-F	12"-14" wide

Free flowering with large 3"-4" wide bright orange blooms against dark chocolate leaves. Uniform, well-branched, compact habit makes it great for pots, hanging baskets, and in beds.

Annual Flower/Foliage

Begonia, Tuberous 'Non Stop Mocca Pink Shades'	Tuberous Begonia	Pink shades	10"-12" tall
Rich, moist, well-drained soil.	Full shade	SP-F	12"-14" wide

Free flowering with large 3"-4" wide blooms in shades of medium to dark pink, held against dark chocolate leaves. Uniform, well-branched, compact habit makes it great for pots, hanging baskets, and in beds.

Begonia, Tuberous 'Non Stop Mocca Scarlet'	Tuberous Begonia	Scarlet-red	10"-12" tall
Rich, moist, well-drained soil.	Full shade	SP-F	12"-14" wide

Free flowering with large 3"-4" wide scarlet-red blooms against dark chocolate leaves. Uniform, well-branched, compact habit makes it great for pots, hanging baskets, and in beds.

Begonia, Tuberous 'Non Stop Mocca Yellow'	Tuberous Begonia	Bright yellow	10"-12" tall
Rich, moist, well-drained soil.	Full shade	SP-F	12"-14" wide

Free flowering with large 3"-4" wide bright yellow blooms against dark chocolate leaves. Uniform, well-branched, compact habit makes it great for pots, hanging baskets, and in beds.

Bidens 'Yellow Sunshine'	Golden Showers, Apache Beggarticks, Bur-marigolds, Stickseeds	Bright yellow	1' tall
Moist, well-drained soil.	Full sun	LSP-MF	16" wide

Beautiful single yellow daisies atop mounding stems of tiny, deeply cut, ferny green foliage. Brings an extremely fine and delicate texture to the garden composition! The foliage tends to remain dense right to the ground-perfect for combo containers!

Bougainvillea 'Barbara Karst'	Paper Flower	Brilliant red	1'+ tall
Rich, well-drained soil.	Full sun	MF-MSU	1'-2' wide

Large brilliant red flowers; excellent in baskets and pots.

Bougainvillea 'Fire Opal'	Paper Flower	Fiery pumpkin orange	1'+ tall
NEW Rich, well-drained soil.	Full sun	MF-MSU	1'-2' wide

Fiery pumpkin orange bracts with green foliage.

Bougainvillea 'Flame'	Paper Flower	Brick red	1'+ tall
Rich, well-drained soil.	Full sun	MF-MSU	1'-2' wide

Cascading masses of brick red flower bracts are borne on arching stems with rich green leaves.

Bougainvillea 'Juanita Hatten'	Paper Flower	Fuchsia-red	1'+ tall
Rich, well-drained soil.	Full sun	MF-MSU	1'-2' wide

Profusions of rich fuchsia-red flowers. Slightly variegated foliage in two shades of green. Compact, spreading habit. Branches freely, making it excellent for baskets.

Annual Flower/Foliage

Bougainvillea 'Raspberry Ice'	Paper Flower	Fuchsia	1'+ tall
Rich, well-drained soil.	Full sun	MF-MSU	1'-2' wide

Fuchsia flowers. Green leaves are broadly margined in cream and creamy yellow.

Bougainvillea 'Royal Purple'	Paper Flower	Brilliant violet-purple	1'+ tall
Rich, well-drained soil.	Full sun	MF-MSU	1'-2' wide

Large, dark, brilliant violet-purple bracts literally cover the rich, deep green leaves; very good branching, bush-type habit.

Brugmansia 'Cherub'	Angel's Trumpet	Deep apricot-pink with peach	3'-4' in year 1, 6' to 8' in year 2 tall
Rich, moist, well-drained soil.	Part to full sun	SU	3' wide in year 1, 6' wide in year 2

Unbelievably floriferous, this variety sets a new standard of performance. The 9" long trumpets are a deep apricot-pink with a peach overtone. The long chartreuse buds turn cream and a faint pink, darkening as they open. They bloom in waves about every 3 weeks. The plants are bushy and well-branched. Delightfully fragrant in the early mornings and evenings.

Brugmansia 'Kyles Sunray'	Angel's Trumpet	Sunny yellow	3'-4' in year 1, 6' to 8' in year 2 tall
Rich, moist, well-drained soil.	Part to full sun	SU	3' wide in year 1, 6' wide in year 2

3' to 4' tall, 3' wide in the first year, to 6' to 8' tall, 6' wide in subsequent years; 5" wide by 12" long, hanging lemon yellow trumpets are highly fragrant. Rays of light and dark yellow appear in the corolla. Its fragrance is especially noticeable in the early evening. A vigorous, large growing plant.

Brugmansia 'Snowbank'	Angel's Trumpet	Peach	5' tall
Rich, moist, well-drained soil.	Part to full sun	SU	3' wide in year 1, 6' wide in year 2

Fragrant peach colored blooms of immense proportions, emerging from some of the most brilliant and broadly margined foliage you have ever seen- blue green foliage is splashed with blue-gray and widely margined in creamy white!

Caladium 'Candidum'	Angel Wings; Elephant Ear's; Mother-in-law Plant	Greenish white	12"-18" tall
Rich, moist, well-drained soil.	Full shade	SP	1'-2' wide

Large white leaves with green netted venation and a thin green margin.

Caladium 'FM Joyner'	Angel Wings; Elephant Ear's; Mother-in-law Plant	Greenish white	12"-18" tall
Rich, moist, well-drained soil.	Full shade	SP	1'-2' wide

Creamy leaves have green netted venation with light pink spots and blotches and the dark red central veins.

Caladium 'Freida Hempel'	Angel Wings; Elephant Ear's; Mother-in-law Plant	Greenish white	15"-17" tall
Rich, moist, well-drained soil.	Full shade	SP	

Has large heart-shaped foliage with bold red centers edged in bright green. Will brighten any shady spot!

Annual Flower/Foliage

Caladium 'Miss Muffett'

Angel Wings; Elephant Ear's; Mother-in-law Plant

Greenish white

8"-16" tall

Rich, moist, well-drained soil.

Full shade

SP

1'-2' wide

Small straw yellow to lime-green leaves with burgundy-red speckles and bright red to pink veins and blush. Leaves are smaller than most other Caladiums.

Caladium 'Mrs. W.B. Haldeman'

Angel Wings; Elephant Ear's; Mother-in-law Plant

Greenish white

1'-2' tall

Rich, moist, well-drained soil.

Full shade

SP

12"-20" wide

Heart-shaped leaves of bright pink with a green edge.

Caladium 'Rosebud'

Angel Wings; Elephant Ear's; Mother-in-law Plant

Greenish white

8"-16" tall

Rich, moist, well-drained soil.

Full shade

SP

1' wide

Medium sized heart-shaped leaves have a frosty raspberry center surrounded by creamy lime with dark rose veins bursting out of the leaf center, all widely edged in dark green. Very classic looking!

Calendula 'Calypso Mix'

Pot Marigold; English Marigold

Orange and Yellow

8"-12" tall

Moist, well-drained soil.

Full sun

MSP-EF

10" wide

Bright, large double flowers of pumpkin orange and bright yellow, both with attractive black centers. An interesting note- farmers have been known to feed the flowers to hens to deepen the yolk color of their eggs!

Calibrachoa Aloha Canary Yellow

Mini Petunia

Canary yellow

8"-14" tall

NEW Light, well-drained, acidic soil.

Part to full sun

SP-F

10"-18" wide

Very large canary yellow flowers atop semi-upright plants.

Calibrachoa 'Aloha Hula Cherry'

Mini Petunia

Black cherry

8"-14" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

10"-18" wide

Luscious black cherry flowers with a large, darker "hula-hoop" (eye zone) and a yellow center! Beautiful two-toned flowers! Match the dark "hoop" color to another flower's color, to create a smashing combination! Very large flowers atop semi-upright plants.

Calibrachoa 'Aloha Hula Godiva'

Mini Petunia

Chocolate-rose

8"-14" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

10"-18" wide

Lovely chocolate-rose flowers with a large, dark chocolate "hula-hoop" eyezone and yellow throat! Match the dark "hoop" color to another flower's color or to the foliage color in a sun coleus for a smashing combination! Very large flowers atop semi-upright, mounding plants.

Calibrachoa 'Aloha Hula Orange'

Mini Petunia

Orange and burgundy

8"-12" tall

NEW Light, well-drained, acidic soil.

Part to full sun

SP-F

12"-16" wide

Lovely tropical orange flowers with a large, dark rose-burgundy "hula-hoop" (eye zone) and a yellow center! Beautiful two-toned flowers! Match the dark "hoop" color to another flower's color, to create a smashing combination! Very large flowers atop semi-upright plants.

Annual Flower/Foliage

Calibrachoa 'Aloha Red Cartwheel'

Mini Petunia

Vibrant red and gold

6"-10" tall

NEW Light, well-drained, acidic soil.

Part to full sun

SP-F

12"-16" wide

A clearly delineated gold star radiates from the vibrant red flowers! The star pattern is stable, even during the heat. Large flowers atop semi-upright plants.

Calibrachoa 'Cabaret Bright Red'

Mini Petunia

Bright red

6"-10" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

10"-12" wide

An abundance of bright red blooms cover the well-branched, trailing plants. A great performer that's always in bloom with a very tidy habit that trails up to 10".

Calibrachoa 'Cabaret Deep Yellow'

Mini Petunia

Deep yellow

6"-10" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

10"-12" wide

Deep yellow blooms. A great performer that's always in bloom with a very tidy habit that trails up to 10".

Calibrachoa 'Cabaret Hot Pink'

Mini Petunia

Iridescent hot pink

6"-10" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

9"-11" wide

The hottest pink flowering Calibrachoa on the market. An abundance of iridescent hot pink flowers with yellow throats cover these well-branched, trailing plants. The plants are self-cleaning, so they stay neat and tidy all season long!

Calibrachoa 'Cabaret Purple Improved'

Mini Petunia

Deep purple

6"-10" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

10"-12" wide

Prairie Star

Deep purple flowers with bright lemon throats. A great performer that's always in bloom with a very tidy habit that trails up to 10".

Calibrachoa 'Cabaret White'

Mini Petunia

Pure white

6"-10" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

10"-12" wide

Prairie Star

An abundance of pure white blooms with golden throats cover the well-branched, trailing plants. The plants are self-cleaning, so they stay neat and tidy all season long!

Calibrachoa 'Can Can Red Splash'

Mini Petunia

Red and orange

10"-15" tall

NEW Light, well-drained, acidic soil.

Part to full sun

SP-F

10"-15" wide

Vigorous plants have dark green foliage, tip-to-top flower coverage and season-long performance. Bright red flowers are splashed and streaked in terracotta. One of a kind flowers!

Calibrachoa 'Can-Can Peach'

Mini Petunia

Apricot-peach and orange

10"-15" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

10"-15" wide

Prairie Star

Grows more vigorously than Cabaret', yet the plants are still pH tolerant, and have eye-catching dark green foliage. Plants are covered from top to tip with flowers in shades of apricot and peach, with orange eyezones and yellow throats.

Annual Flower/Foliage

Calibrachoa 'Can-Can Terracotta'

Mini Petunia

Shades of yellow, orange, and dark peach

10"-15" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

10"-15" wide

Grows more vigorously than Cabaret', yet the plants are still pH tolerant, and have eye-catching dark green foliage. Plants are covered from top to tip with flowers in shades of yellow, orange, and dark peach.

Calibrachoa 'MiniFamous Orange'

Mini Petunia

Brilliant orange

10"-15" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

10"-15" wide

Uniformity in habit and flowering is what this series is all about. This one WOWs and is a great combo element. Large brilliant orange blooms, early flowering, semi-trailing habit, and medium vigor.

Calibrachoa 'Superbells Cherry Star'

Mini Petunia

Cherry pink and bright yellow

6"-10" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

8"-10" wide

A clearly delineated bright yellow star radiates across the iridescent cherry pink flowers! The star pattern is stable, even during the heat. Trailing habit. Less vigorous than most in the 'Superbells' series.

Calibrachoa 'Superbells Coralberry Punch'

Mini Petunia

Coral-red and burgundy

8"-12" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

8"-15" wide

Prairie Star

Covered with cheerful 1" to 1 1/4" wide coral-red flowers with rich burgundy throats, this new member of the 'Superbells' collection of Calibrachoa is quickly becoming a favorite. The bright flowers are eye-catching all day long! Trailing plants are perfect for containers and hanging baskets. Less vigorous than most in the 'Superbells' series.

Calibrachoa 'Superbells Dreamsicle'

Mini Petunia

Orange shades

6"-10" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

16"-18" wide

Prairie Star

With abundant shimmery orange blooms, this strong performer is a garden treat. The color truly is a "dreamsicle orange"! Less vigorous than most in the 'Superbells' series.

Calibrachoa 'Superbells Evening Star'

Mini Petunia

Lavender-blue

6"-10" tall

NEW

Light, well-drained, acidic soil.

Part to full sun

SP-F

8"-10" wide

Trailing plants are covered in cool lavender-blue blossoms, each featuring a perfectly shaped gold star throat and deep blackish purple eye! The star pattern is stable, even during the heat. Vigorous trailing habit.

Calibrachoa 'Superbells Grape Punch'

Mini Petunia

Grape and velvety purple

6"-10" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

8"-10" wide

Prairie Star

Large, luscious grape blooms feature a deep velvety purple throat and veining and bright yellow eye. Flowers cover the vigorous plants.

Calibrachoa 'Superbells Holy Moly!'

Mini Petunia

Yellow and dark pink

6"-10" tall

NEW

Light, well-drained, acidic soil.

Part to full sun

SP-F

8"-10" wide

Do you believe in love at first sight? If you like 'Superbells Cherry Star', you may enjoy this new sport, 'Holy Moly!' With its creamy yellow base color, 'Holy Moly!' is splashed with dark pink on its petals. A funky, fun Superbells! Less vigorous than most in the 'Superbells' series.

Annual Flower/Foliage

Calibrachoa 'Superbells Lemon Slice'

Mini Petunia

Bright yellow and pure white

6"-10" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

10"-12" wide

Prairie Star

Have a slice of the tropics in your containers! Pure white flowers have a wide, zesty, bright yellow star or pinwheel pattern, causing the flowers to be more yellow than white. Mounding and trailing habit to 24". Vigorous plants are prolific bloomers! A lively showstopper on its own, or as a stylish accent trimming white or yellow companions.

Calibrachoa 'Superbells Pomegranate Punch'

Mini Petunia

Rosy red and black

10"-12" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

10"-18" wide

Prairie Star

Blooming a magnificent deep rosy red with a prominent black eye and yellow centers; the flowers are sure to catch the eye! The flowers densely cover the cascading plants all season long! Easy to work with, the trailing stems weave their way through their neighbors in container collections, creating a fabulous display! Looks beautiful in a container or by itself, or in a combo. Trails to 24" long.

Calibrachoa 'Superbells Strawberry Punch'

Mini Petunia

Pink and burgundy

10"-12" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

10"-18" wide

The medium pink flowers have an eyezone band of dark red-burgundy that then scatters outward into the pink in a matrix of thin veins! Yellow throats complete the cute blooms! Extra-large blooms atop the vigorous, trailing plants. Wonderful color for baskets, containers, and flower beds!

Calla Lily 'Coastal Fire'

Calla Lily

Apricot and fire red-plum

14"-20" tall

Rich, moist soil.

Part sun

MSP-ESU

12"-16" wide

Apricot flowers are tipped in fire red-plum. The flowers have very nice form. Green leaves are spotted with white.

Calla Lily 'Coastal Flame'

Calla Lily

Yellow to orange-red

14"-22" tall

Rich, moist soil.

Part sun

MSP-ESU

12"-16" wide

Very vibrant flowers on tall stems atop waxy, spotted, arrow-shaped leaves. The flowers are flame orange-red at maturity, but begin yellow edged with orange-red.

Calla Lily 'Coastal Glow'

Calla Lily

Hot pink

9"-17" tall

NEW Rich, moist soil.

Part sun

MSP-ESU

12"-16" wide

Numerous hot pink flowers are held on short stems amongst the plain dark green leaves. Compact habit.

Calla Lily 'Coastal Gold'

Calla Lily

Bright golden

16"-22" tall

Rich, moist soil.

Part sun

MSP-ESU

12"-16" wide

Very productive bloomer of bright golden flowers on tall stems atop spotted dark green leaves.

Calla Lily 'Coastal Parfait'

Calla Lily

Soft pink to red

16"-22" tall

Rich, moist soil.

Part sun

MSP-ESU

12"-16" wide

Bicolor flowers vary between soft pink and red. Flowers are held on tall stems atop highly spotted dark green leaves.

Annual Flower/Foliage

Calla Lily 'Coastal Purple'

Calla Lily

Plum purple

14"-18" tall

Rich, moist soil.

Part sun

MSP-ESU

12"-16" wide

Deep plum purple flowers atop bright green, narrow, arrow-shaped leaves.

Calla Lily 'Flame'

Calla Lily

Yellow to red

14"-22" tall

Rich, moist soil.

Part sun

MSP-ESU

12"-16" wide

Large showy blooms are flame red at maturity, but begin yellow edged with red; spotted green leaves; vigorous plants.

Calla Lily 'Garnet Glow'

Calla Lily

16"-20" tall

Rich, moist soil.

Part sun

MSP-ESU

12"-16" wide

A knockout bright pink calla, with a slightly darker eye highlighting each shapely bloom. Green foliage.

Calla Lily 'Majestic Red'

Calla Lily

16"-20" tall

Rich, moist soil.

Part sun

MSP-ESU

12"-16" wide

Majestic burgundy-red flowers rise above spotted leaves.

Calla Lily 'Millenium Gold'

Calla Lily

16"-20" tall

Rich, moist soil.

Part sun

MSP-ESU

12"-16" wide

Very large deep golden yellow blooms rise above the spotted green foliage.

Calla Lily 'Picasso'

Calla Lily

Purple and cream

10"-22" tall

Rich, moist soil.

Part sun

MSP-ESU

12"-16" wide

Beautiful, large purple blooms with a lovely cream edge. The impressive green foliage is attractively speckled, providing an interesting contrast to the long-lasting flowers.

Calla Lily 'Purple Sensation'

Calla Lily

14"-22" tall

Rich, moist soil.

Part sun

MSP-ESU

12"-16" wide

A compact and vigorous Calla whose flowers slowly evolve through varying shades of purple from a dark royal purple to lavender pink and all shades in between. The result is an incredible show of different coloured blooms all on one plant!

Calla Lily 'Rose Sensation'

Calla Lily

14"-22" tall

Rich, moist soil.

Part sun

MSP-ESU

12"-16" wide

Striking bicolor blooms are classically shaped and a deep orchid pink and cream, changing to ruby rose as they mature. Lush spotted green leaves.

Annual Flower/Foliage

Canna 'Cannova Lemon'

Indian Shot

Lemon yellow

30"-48" tall

NEW Rich soil, preferably moist to damp.

Part to full sun

SU-F

16"-24" wide

Prairie Star

An excellent choice for adding height to the landscape or as a "thriller" in containers! Lemon yellow blooms atop the lustrous green foliage. Seed grown, so it's virus free. Early, uniform, and compact habit.

Canna 'Cannova Red Shades'

Indian Shot

Red shades

30"-48" tall

Rich soil, preferably moist to damp.

Part to full sun

SU-F

16"-24" wide

Prairie Star

An excellent choice for adding height to the landscape or as a "thriller" in containers! Blooms in red shades atop the dark green foliage. Seed grown, so it's virus free. Early, uniform, and compact habit.

Canna 'Cannova Rose'

Indian Shot

Rose

30"-48" tall

Rich soil, preferably moist to damp.

Prairie Star

An excellent choice for adding height to the landscape or as a "thriller" in containers! Bright yellow blooms atop the lustrous green foliage. Seed grown, so it's virus free. Early, uniform, and compact habit.

Canna 'South Pacific Scarlet'

Indian Shot

Scarlet

4'-5' tall

Rich soil, preferably moist to damp.

Part to full sun

ESU-EF

18"-24" wide

Prairie Star

Big, 4" wide flowers of orangey-red atop compact, very well-branched, dark green leaved plants. The large, handsome, leaves are paddle-shaped and are held almost straight up, creating a lovely look in any setting! The flowers begin blooming when temperatures top about 77 degrees F and continue well into autumn. The flashy flowers combine scarlet and orange tones with flames of gold and cream at the base. Like all cannas, it needs consistently moist, even damp soil. All-America Selections Winner 2013!

Canna 'Tropicanna'

Indian Shot

Orange

6'-7' tall

Rich, moist or dry soil.

Full sun

SU-F

18"-24" wide

Prairie Star

Bronze foliage with dramatic stripes of yellow and vibrant red-coral; shocking orange flowers; Prairie Star Award Winner; syn. 'Phasion'.

6'-7' tall

Rich soil, preferably moist to damp.

Part to full sun

SU-F

18"-24" wide

Prairie Star

Bronze foliage with dramatic stripes of yellow and vibrant red-coral; shocking orange flowers; Prairie Star Award Winner; syn. 'Phasion'.

Annual Flower/Foliage

Carnivorous Plant Venus Fly Trap

4"-10" tall

Moist, peaty soil.

Part sun

MSP

6"-10" wide

This plant fascinates children of all ages (even the adult kind!); the bright green traps have "trigger hairs" inside; an unwary insect that is attracted by the plant's nectar will brush against the trigger hairs, causing the traps to shut; the trap then literally squeezes the body fluids out of the insect and digests it, opening back up in about 4 days with just a carcass left inside! Each trap only closes about 4 times (the reason you don't want to stick your finger in the traps, causing them to close), then turns black and dies; new growth replaces the dead traps; each plant will consume 2 to 3 flies each month; the plants go dormant in the winter; it is a bog plant that grows best in nutrient-deficient soils- a soil mix of 70% peat moss or sphagnum moss and 30% perlite or coarse pumice is great; needs to be placed in bright light, out of the direct, hot sun; likes it warm, humid, and constantly moist (place your pot ontop of a tray holding a layer of pea gravel and water); water only with distilled water or rain water.

Cassia alata (Candletree)

Candletree; Empress Candle Plant

Bright yellow

5'-6' tall

Deep, well-drained soil.

Full sun

LSU-F

3'-6' wide

Broadly oblong to obovate, pinnate leaves to 30" long have 14 to 28 oblong, bright green leaflets; bright yellow candelabra-like flowers to 6" to 24" tall appear from late summer til frost; very tropical looking!; used extensively in the gardens of Botanica, The Wichita Gardens.

Celosia 'Dragon's Breath'

Deep red

20"-24" tall

NEW Well-drained to dry soil.

Full sun

SP-F

16" wide

Has there ever been such a radiantly beautiful Celosia? Large deep red, feathery plumes above olive-green leaves that are edged in and shot with red accents! It is an obligate short day plant, meaning in order to flower, the plants must have less than 11 hours of sunlight per day. Therefore, it is a late-flowering variety and it holds beautifully, thriving in heat and humidity, and it doesn't mind drying out a bit between waterings. It's the answer to the large container gardener's biggest late summer dilemma, and a boon for any sunny setting! Grows quickly and flowers over a long, late season, extending the glory of the Celosias into fall. There is simply nothing like it in terms of eye-popping, irresistible color! 'Dragon's Breath' is a magnificent presence in the annual bed, patio pot, and fresh cut arrangement!

Celosia, Cristata 'Amigo Mahogany Red'

Cockscomb

Deep red

6" tall

Well-drained to dry soil.

Full sun

SP-F

6" wide

The velvety deep red flowers grow to 8" to 10" across! Dark burgundy-green foliage.

Celosia, Cristata 'Amigo Mix'

Cockscomb

Mix

6" tall

Well-drained to dry soil.

Full sun

SP-F

6" wide

A mix of magenta, mahogany red, neon rose, scarlet and yellow; the velvety flowers grow to 8" to 10" across!

Celosia, Cristata 'Chief Mix'

Cockscomb

Mix

30"-40" tall

Well-drained to dry soil.

Full sun

MSU-F

This crested cockscomb dazzles with huge, 4" to 7" wide heads in vibrant colors- rose, gold, carmine, dark red, persimmon, and red and yellow bicolor. The flowers look a bit like a head of cauliflower or a piece of sea coral! Each densely-packed flowerhead appears on its own sturdy stem, well above the thick, long fresh green foliage. Unforgettable for the garden or vase. An excellent dried flower as well.

Celosia, Cristata 'Kelos Fire Purple'

Cockscomb

Bright rosy purple

8"-10" tall

NEW Well-drained to dry soil.

Full sun

MSU-F

8"-10" wide

Large, wide bright rosy purple plumes appear atop the dark foliage all summer long. Perfect for planting in groups with other Celosias in a large pot on the patio, but equally suitable for growing indoors in a very sunny window.

Annual Flower/Foliage

Celosia, Cristata 'Tornado Red'

Cockscomb

Magenta

16"-24" tall

Well-drained to dry soil.

Full sun

LSP-F

6"-10" wide

This celosia is one of those drama plants used to showcase how fun and interesting the garden can be! Bold, vibrant magenta blooms offers great 55mph impact on high standing stems. Also an interesting flower to see upclose because of the intense, complicated folding going on inside the 6" to 9" wide combs. Great texture up close and great color from a distance- everything you want in a great drama plant! Plant with a silver leaved plant like Dusty Miller to see how the vibrant flowers are offset by silver foliage! Great as a fresh cut or dried flower, too!

Celosia, Cristata 'WATCH'

Cockscomb

Hot reddish pink

12"-13" tall

Well-drained to dry soil.

Full sun

SP-F

10"-15" wide

Prairie Star

Huge hot reddish pink crests; great color; selected by Wichita Area Technical College; Prairie Star Award Winner!

Celosia, Plumosa 'Arrabona'

Woolflower; Plumed or Feathered Celosia

Red-orange

10"-14" tall

Well-drained to dry soil.

Full sun

LSP-F

10"-15" wide

Striking red-orange blooms have an exceptionally long flowering season. Unique color on a compact, sturdy plants that love heat, and tolerates drought. 'Arrabona' is named for an ancient Hungarian city. A Fleuroselect Gold Medal award winner, the judges were particularly impressed with its vivid color, superior garden performance, and overall uniformity.

Celosia, Plumosa 'Castle Mix'

Woolflower; Plumed or Feathered Celosia

Mix

1' tall

Well-drained to dry soil.

Full sun

SP-F

1' wide

A mix of orange, pink, scarlet, and yellow plumes atop green foliage.

Celosia, Plumosa 'Century Mix'

Woolflower; Plumed or Feathered Celosia

Mix

2' tall

Well-drained to dry soil.

Full sun

SP-F

18" wide

A mix of red, rose, yellow, cream, and fire red plumes; excellent!

Celosia, Plumosa 'Century Red'

Woolflower; Plumed or Feathered Celosia

Deep red

2' tall

Well-drained to dry soil.

Full sun

SP-F

18" wide

Large 10"-12" deep red plumes atop bronze foliage; excellent!

Celosia, Plumosa 'First Flame Mix'

Woolflower; Plumed or Feathered Celosia

Orange, red & yellow

14"-25" tall

Well-drained to dry soil.

Full sun

SP-F

10"-16" wide

Uniform heights across all colors equals fuller-looking containers. Makes an ideal order plant, though it is also great in larger containers. Well-branched plants produce lots of full blooms in orange, red, and yellow.

Celosia, Plumosa 'Freshlook Orange'

Woolflower; Plumed or Feathered Celosia

Tangerine

12"-18" tall

Well-drained to dry soil.

Full sun

SP-F

12"-15" wide

Branching plants are topped by plumes up to 10" high of vibrant tangerine. The new leaves cover the old plumes so plants keep their "fresh look" all season long. Fleuroselect Quality Mark Winner.

Annual Flower/Foliage

Celosia, Plumosa 'Freshlook Red'

Woolflower; Plumed or Feathered Celosia Rosy red

12"-18" tall

Well-drained to dry soil.

Full sun

SP-F

12"-15" wide

Prairie Star

This plant always looks fresh with its large, cheery rosy red plumes; performs like a fresh floral arrangement all summer- spent plumes are covered up with new foliage and new blooms; the central plume can be 8" to 10" tall and 5" wide; thrives in the summer heat and humidity and drought or rainy conditions. Pest-free and requires minimal maintenance. Prairie Star Award Winner. AAS Winner!

Celosia, Plumosa 'Freshlook Yellow'

Woolflower; Plumed or Feathered Celosia Golden yellow

12"-18" tall

Well-drained to dry soil.

Full sun

SP-F

12"-15" wide

Care-free plants send up numerous silky golden yellow plumes all summer, thriving in heat, humidity, and severe weather; the central plume can be 9" tall and 6" wide; the numerous side shoots will cover spent blooms, eliminating the need for deadheading. AAS Winner!

Celosia, Plumosa 'Kimono Mix'

Woolflower; Plumed or Feathered Celosia Mix

6" tall

Well-drained to dry soil.

Full sun

SP-F

8" wide

Very uniform, dwarf plants; plumes in a mix of colors appear even when the plants are quite small.

Celosia, Plumosa 'New Look Red'

Woolflower; Plumed or Feathered Celosia Red

10"-19" tall

Well-drained to dry soil.

Full sun

SP-F

12"-13" wide

Prairie Star

Red flowers atop bronze foliage; AAS Winner; Prairie Star Award Winner!

Centaurea gymnocarpa

Velvet Centaurea; Silver Bachelor's Buttons Rose-lavender

18"-30" tall

Well-drained soil.

Full sun

LSP

18"-30" wide

Dramatic pinnately dissected felty white foliage arches gracefully from the central stem; superb in containers or in the garden; rose-lavender bachelor-button flowers appear in late spring; cut the flowers for bouquets to keep the foliage looking nice; wonderful for Moon Gardens as the foliage "glows" in the dark; does great in heat and in dry areas.

Cestrum nocturnum (Night Blooming Jasmine)

Lady of the Night; Queen of the Night; Night Blooming Jasmine; Night Blooming Jessamine; Night Blooming Cestrum

3'-13' tall

Moist, well-drained soil.

Part to full sun

MSU-W

2'-6' wide

Inflorescences of numerous narrow greenish white flowers which open at night. The flowers have a very strong fragrance at night, with a much lighter fragrance during the day. Its sweet, pleasant, intoxicating fragrance is so strong, it can often be smelled over a block away! The flowers are followed by poisonous white berries. Other plant parts are also possibly toxic. The strong fragrance can cause respiratory issues with people with asthma and those sensitive to fragrances. Attractive glossy green foliage. Forms a nicely rounded bush. Very fast growing. Excellent for containers. Consider its strong night fragrance when placing it in your garden (perhaps away from windows that may be open in the night).

Chlorophytum comosum 'Variegated'

Spider Plant; Airplane Plant; Ribbon Plant White

6"-8" tall

Moist, well-drained soil.

Part to full shade

SU

6"-12" wide

The wonderful spider plant with white leaves broadly edged in green! The leaves grow to 2' long. Dime-sized, six-petaled white flowers sprawling, branched scapes that may reach up to 2' long. The flowers are interesting, but insignificant. What makes it unique is its ability to produce "spiders" or offsets; these ready-made plants, complete with roots, form at the ends of the flower stems and assorted branches. These dangling plantlets give rise to the common name as they hang below the parent plant, like so many spiders suspended by a stout web. The often heard name of Airplane Plant supposes that the plantlets look like whirling propellers. While spider plants are almost indestructible as a houseplant, they sometimes look a bit tattered and torn. The most common problem is tip burn on the leaves. This is caused by the accumulation of fluoride ions in the tissue until it reaches toxic levels. Affected plants can be cleaned up by trimming the burned tips off with scissors. Unless preventative steps are taken, the problem will return. To remedy a problem of fluoride toxicity, repot the plants in fresh potting soil (preferably without vermiculite), fertilize with a high grade liquid fertilizer such as Nature's Source, and, if your community fluoridates its water supply, collect rain water for watering your spider plants.

Annual Flower/Foliage

Chrysanthemum 'Snow Land'

Rich, moist, well-drained soil.

Full sun

White

SP-SU

6" tall

6" wide

Abundant 1½" white daisy-like blooms with bright yellow centers.

Citrus limon 'Improved Meyer' (lemon)

Lemon

Moist, well-drained soil.

Part to Full sun

Blush

SP-W

to 8'-10' tall

to 12' wide

Fragrant white blushed pink flowers are borne year round and produce thin skinned, juicy lemons; excellent grown in a container and treated as a houseplant during the cold months.

Cleome 'Pequeno Rosalita'

Spider Flower

Moist, well-drained soil.

Full sun

Soft and medium pink

LSP-EF

18"-36" tall

12"-18" wide

'Pequeno Rosalita' is about 10" shorter than 'Senorita Rosalita' and slightly better branched than 'Senorita Blanca'. Has much more flower power than 'Senorita Rosalita', too. Clusters of medium and soft pink flowers throughout the thornless green foliage. Blooms continuously from late spring to frost, and it's not necessary to deadhead the spent flowers! Very heat tolerant and loved by butterflies!

Cleome 'Senorita Rosalita'

Spider Flower

Moist, well-drained soil.

Full sun

Clear pink

LSP-F

32"-48" tall

20"-24" wide

Prairie Star

Lavish dark green foliage that creates a dramatic backdrop for the clear pink blooms. Does not set seed, so it blooms all summer long! Unlike other Cleome, 'Senorita Rosalita' is resistant to oedema.

Cleome 'Sparkler Lavender'

Spider Flower

Moist, well-drained soil.

Full sun

Lavender-pink

SU-F

3' tall

2' wide

Heat and sun-tolerant plants grow bushy and upright; very free flowering; rich lavender-pink flowers.

Cleome 'Sparkler Rose'

Spider Flower

Moist, well-drained soil.

Full sun

Bright rose

SU-F

3' tall

2' wide

Heat and sun-tolerant plants grow bushy and upright; very free flowering; bright rose flowers.

Cleome 'Sparkler White'

Spider Flower

Moist, well-drained soil.

Full sun

Pure white

SU-F

3' tall

2' wide

Heat and sun-tolerant plants grow bushy and upright; very free flowering; pure white flowers.

Codiaeum 'Petra'

Croton

Moist, well-drained soil.

Part to Full sun

White

W

2'-5' tall

2'-3' wide

Red, black, yellow, orange, and green variegated foliage. Insignificant white star-shaped flowers. Can be grown outside or as a houseplant. Great for containers.

Annual Flower/Foliage

Coleus, Shade 'Black Cherry Ribbons'

Flame Nettle; Painted Nettle;
(Solenostemon scutellarioides)

Insignificant

12"-18" tall

Rich, moist, well-drained soil.

Part to full shade

18"-24" wide

Small, wildly lobed leaves have neon rosy-red centers, margined in deep chocolaty purple-black, and thinly edged with green. Tight, self-branching plants produce hundreds of the brightly colored leaves! Best in part sun or light shade.

Coleus, Shade 'Black Dragon'

Flame Nettle; Painted Nettle;
(Solenostemon scutellarioides)

Insignificant

15" tall

Rich, moist, well-drained soil.

Part to full shade

10"-12" wide

Large red leaves with curled and serrated dark purple edges.

Coleus, Shade 'Carefree Mix'

Flame Nettle; Painted Nettle;
(Solenostemon scutellarioides)

Insignificant

10"-12" tall

Rich, moist, well-drained soil.

Part to full shade

10"-12" wide

Brilliant lobed small leaves in a blend of jade, gold, red, copper, and pastels; compact plants.

Coleus, Shade 'Chocolate Splash'

Flame Nettle; Painted Nettle;
(Solenostemon scutellarioides)

Insignificant

12"-16" tall

Rich, moist, well-drained soil.

Part to full shade

12"-16" wide

Medium sized lime green leaves are highlighted by a chocolate splashed pattern that varies with age and light exposure. Pairs well with 'Dark Chocolate' and 'Chocolate Mint' in mixed containers and landscape plantings (though each variety does grow to a different size).

Coleus, Shade 'Color Clouds Hottie'

Flame Nettle; Painted Nettle;
(Solenostemon scutellarioides)

Insignificant

10" tall ,30" wide

Rich, moist, well-drained soil.

Part to full shade

Lime green leaves are heavily veined with magenta when young. Older leaves become more and more magenta, giving this plant a multicolored look. Pretty, posh, and perfect! Wonderful for hanging baskets and containers, as well as in the landscape. Self-branching, trailing plants are slow to flower.

Coleus, Shade 'Dream Catcher'

Flame Nettle; Painted Nettle;
(Solenostemon scutellarioides)

Insignificant

2'-3' tall

Rich, moist, well-drained soil.

Part to full shade

2' wide

Has a 'precocious gene' with colors ranging from greens to yellows, to chartreuse to burgundy. The scalloped-edged leaves are splattered in all of the colors! Fun!

Coleus, Shade 'Emotions Passionate'

Flame Nettle; Painted Nettle;
(Solenostemon scutellarioides)

Insignificant

24"-30" tall

Rich, moist, well-drained soil.

Part to full shade

24"-28" wide

The unique leaves have a rose center surrounded by a burgundy margin and a thin green edge.

Coleus, Shade 'Flying Carpet Zinger'

Flame Nettle; Painted Nettle;
(Solenostemon scutellarioides)

Insignificant

2' tall

Rich, moist, well-drained soil.

Part to full shade

2' wide

Leaves have a broad, bright lime edge with a scarlet center that fans out over the rippled and rounded-toothed border. Its dense, full, cascading habit is wonderful alone in a basket, or combined with other trailing annuals. Lovely bicolor blue flowers add to the overall effect.

Annual Flower/Foliage

Coleus, Shade 'Giant Exhibition Palisandra'

Flame Nettle; Painted Nettle;
(Solenostemon scutellarioides)

Insignificant

12"-15" tall

Rich, moist, well-drained soil.

Part to full shade

12"-15" wide

Huge velvety nearly black leaves.

Coleus, Shade 'Kaleidoscope Mix'

Flame Nettle; Painted Nettle;
(Solenostemon scutellarioides)

Insignificant

10"-12" tall

Rich, moist, well-drained soil.

Part to full shade

10"-16" wide

Prairie Star

Lightly serrated leaves in a mix of ten vivid colors; Prairie Star.

Coleus, Shade 'Kong Jr Rose'

Flame Nettle; Painted Nettle;
(Solenostemon scutellarioides)

Insignificant

18"-24" tall

Rich, moist, well-drained soil.

Part to full shade

20"-35" wide

Heart-shaped leaves are 30% smaller than 'Kongs'. Well-branched tidy habit. Performs well in landscapes, patio planters, and mixed containers. Remove the flowers to maintain leaf size. Deep pink leaves with green edges.

Coleus, Shade 'Kong Lime Sprite'

Flame Nettle; Painted Nettle;
(Solenostemon scutellarioides)

Insignificant

18"-20" tall

Rich, moist, well-drained soil.

Part to full shade

15"-24" wide

The leaves are a striking half-and-half bicolor of sunny lime green and deep mahogany red. Leaves sometimes show a rose color mid-rib in the deepest shade. Extremely large leaves and unique patterns on branched plants.

Coleus, Shade 'Kong Mosaic'

Flame Nettle; Painted Nettle;
(Solenostemon scutellarioides)

Insignificant

18"-22" tall

Rich, moist, well-drained soil.

Part to full shade

15"-18" wide

HUGE 6" x 9" leaves are a mosaic of bright green with shades of red and creamy yellow- no two leaves are the same! Naturally short, compact, well-branched, and mounded plants make a terrific accent in large containers; it performs best and shows more intense color outdoors in full shade; it can also be used as an indoor potted plant in bright light conditions.

Coleus, Shade 'Marrakesh'

Flame Nettle; Painted Nettle;
(Solenostemon scutellarioides)

Insignificant

16" tall, 30" wide

Rich, moist, well-drained soil.

Part to full shade

This favorite has an impeccable mounding habit, unusual beautifully marked leaves of deep red and yellow, and a very shy flowering tendency. The self-branching plants are always lovely!

Coleus, Shade 'Marrakesh'

Flame Nettle; Painted Nettle;
(Solenostemon scutellarioides)

Insignificant

16" tall, 30" wide

Rich, moist, well-drained soil.

Part to full shade

This favorite has an impeccable mounding habit, unusual beautifully marked leaves of deep red and yellow, and a very shy flowering tendency. The self-branching plants are always lovely!

Coleus, Shade 'Peter Wonder' syn. 'Pink Ruffles'

Flame Nettle; Painted Nettle;
(Solenostemon scutellarioides)

Insignificant

1'-2' tall

Rich, moist, well-drained soil.

Part to full shade

12"-18" wide

Large, ruffy leaves are a colorful blend of medium pink, green, and cream; grows best in part sun.

Annual Flower/Foliage

Coleus, Shade 'Rainbow Mix'

Flame Nettle; Painted Nettle;
(Solenostemon scutellarioides)

Insignificant

15"-30" tall

Rich, moist, well-drained soil.

Part to full shade

1'-2' wide

Prairie Star

Seventeen different rainbow colors; Prairie Star.

Coleus, Shade 'Swinging Linda' (syn. 'Meandering Linda', 'Trailing Plum Brocade', 'Plum Trailing')

Flame Nettle; Painted Nettle;
(Solenostemon scutellarioides)

Insignificant

6"-18" tall

Rich, moist, well-drained soil.

Part to full shade

18"-30" wide

Startling neon rose and purple leaves with a vibrant white edge. A great spreader for baskets and containers. The color bleaches out in full sun. Unique, luminescent plum purple trailer. Extremely popular choice for pots and hanging baskets. Protect from full sun.

Coleus, Shade 'Tidbits Terry'

Flame Nettle; Painted Nettle;
(Solenostemon scutellarioides)

Insignificant

10" tall ,2' wide

Rich, moist, well-drained soil.

Part to full shade

This mini coleus is terrific with rippled and cut foliage, and neat spreading habit, and sophisticated color combo of bright mahogany-red leaves with a green-gold pencil thin edge. Shy to bloom, but not shy to show off! The 'Tidbits' coleus are refined, genetically semi-dwarves that always stay neat, attract attention, and share the spotlight. Dynamos in combination planters and in larger fairy gardens!

Coleus, Shade 'Under the Sea Bone Fish'

Sun Coleus; Flame Nettle; Painted Nettle;
(Solenostemon scutellarioides)

Insignificant

10"-14" tall

Rich, moist, well-drained soil.

Part shade

8"-12" wide

Deeply dissected leaves of bright fuchsia with chartreuse and gold margins. Delicate, feathery appearance. Not a fast grower, so place it where it won't be overwhelmed by more vigorous plants. Morning sun is best, because the afternoon sun may burn the dissected leaves.

Coleus, Shade 'Under the Sea Sunfish'

Flame Nettle; Painted Nettle;
(Solenostemon scutellarioides)

Insignificant

20"-24" tall

Rich, moist, well-drained soil.

Part shade

12"-14" wide

'Sunfish' has rich, warm coral-red undertones on the creamy leaves. The long, narrow leaves have deeply scalloped edges that are thinly margined in seaweed green! Best in morning sun with afternoon shade.

Coleus, Shade 'Versa Crimson Gold'

Flame Nettle; Painted Nettle;
(Solenostemon scutellarioides)

Insignificant

18"-26" tall

Rich, moist, well-drained soil.

Part to full shade

14"-22" wide

Prairie Star

Vigorous, well-branched plants show off attention-getting foliage. Deep red leaves with wide golden green edges. Plants have delayed flowering, meaning you can enjoy the foliage later into the season before having to trim the insignificant flowers off. Can take full sun, but the colors will be washed out and the plants will be shorter (due to shorter internodes).

Coleus, Shade 'Wildfire Ignition'

Sun Coleus; Flame Nettle; Painted Nettle;
(Solenostemon scutellarioides)

Insignificant

8" tall ,16" wide

Rich, moist, well-drained soil.

Full sun to shade

Self-branching, and compactly spreading plants are ablaze with bright red to hot pink leaves, sometimes edged with lime green or charcoal. Showy and distinctive!

Annual Flower/Foliage

Coleus, Shade 'Wizard Pineapple'	Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	12"-14" tall
Rich, moist, well-drained soil.	Part to full shade		1' wide

Green and gold leaves with dark red flecks.

Coleus, Shade 'Wizard Scarlet'	Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	12"-20" tall
Rich, moist, well-drained soil.	Part to full shade		12"-14" wide

Prairie Star

Deep wine-red leaves with crimson veins; Prairie Star.

Coleus, Sun 'Burgundy Wedding Train'	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	12"-18" tall
NEW Rich, moist, well-drained soil.	Full sun to full shade		18"-24" wide

One of the most stylish and versatile of all Coleus, with a habit that can be trained to spread or to mound, in sun or shade (even as a houseplant)! The leaves are nearly heart-shaped, with serrated edges and a perfect scalloped edge of lime green around a rich burgundy-bronze center. There are many uses for this splendidly bright, elegantly compact plant- it is small enough to be tucked into mixed containers as well as shown off solo in flowerpots and baskets. Given the chance, its dense branches will trail over the sides of containers, but can also mound together in a crowded flower bed.

Coleus, Sun 'Campfire'	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	14"-26" tall
NEW Rich, moist, well-drained soil.	Full sun to full shade		2'-3' wide

The search for the perfect rusty orange coleus may have ended with this hot new selection! 'Campfire' is the perfect name, as it takes on the hues of glowing embers! This rusty orange-red coleus is packed with vigor and stands out from a great distance! It is the perfect size to serve as a richly colored backdrop to seasonal flowers or foliage. It is slow to bloom- a little pinching of blooms is a small price to pay for such a rich and wonderfully rare-colored variety! Stays vibrant in full sun or shade.

Coleus, Sun 'Chocolate Drop'	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Light blue	12"-16" tall
Rich, moist, well-drained soil.	Full sun to full shade	SU	12"-18" wide

Dark burgundy chocolate leaves with toothed bright green margins. Its nice trailing habit is perfect for containers. Beautiful 8" to 10" tall blue flower spikes appear early.

Coleus, Sun 'Coleosaurus'	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	2'-3' tall
Rich, moist, well-drained soil.	Full sun to full shade		2'-3' wide

Bright lime green leaves are heavily overlaid with vibrant mahogany-red veins that appear as netting over the green. A standout thriller for sun or shade in containers and in the landscape!

Coleus, Sun 'Dipt in Wine'	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	20"-30" tall
Rich, moist, well-drained soil.	Full sun to full shade		

Prairie Star

The leaves are uniquely colored with yellow and lime in the center, then deeply "dipped" in wine red, then with lime thinly margined on the scalloped edges. Prairie Star Award Winner.

Annual Flower/Foliage

Coleus, Sun 'Flame Thrower Chipotle'

Sun Coleus; Flame Nettle; Painted Nettle; Insignificant
(Solenostemon scutellarioides)

18"-24" tall

NEW Rich, moist, well-drained soil.

Full sun to full shade

16"-18" wide

With tons of texture and color, 'Flame Thrower Chipotle' is so versatile! Narrow, pointed leaves are dark red in the center with lime green outer margins. Its compact habit that makes it well suited for small pots and mixed containers. You're going to have fun with this one! Whether in sun or shade, it makes a big impact!

Coleus, Sun 'Flame Thrower Spiced Curry'

Sun Coleus; Flame Nettle; Painted Nettle; Insignificant
(Solenostemon scutellarioides)

18"-24" tall

NEW Rich, moist, well-drained soil.

Full sun to full shade

16"-18" wide

Energetic, narrow leaves have a maroon base with a broad overlay of warm curry. The leaf edges are deeply serrated. Neatly uniform color pattern and shape. The bold new colors in a compact habit make this striking coleus ideal for small pots and mixed containers. Great garden performance in sun or shade.

Coleus, Sun 'Gay's Delight' ('Happy Line')

Sun Coleus; Flame Nettle; Painted Nettle; Insignificant
(Solenostemon scutellarioides)

12"-20" tall

Rich, moist, well-drained soil.

Full sun to full shade

12"-20" wide

Not even full sun and hot summer temperatures can keep this variety from thriving. Lime green leaves with red to purple veins, this variety is brilliant in mixed containers, especially as part of a purple and yellow color theme.

Coleus, Sun 'Golden Dream'

Sun Coleus; Flame Nettle; Painted Nettle; Insignificant
(Solenostemon scutellarioides)

2'-3' tall

Rich, moist, well-drained soil.

Full sun to shade

2' wide

Golden leaves are veined with crimson, and are a real beauty. Large-sized leaves with a sturdy upright form.

Coleus, Sun 'Henna'

Sun Coleus; Flame Nettle; Painted Nettle; Insignificant
(Solenostemon scutellarioides)

18"-24" tall

Rich, moist, well-drained soil.

Full sun to full shade

14"-16" wide

Nothing beats 'Henna' for exotic appeal! Serrated leaves are a unique chartreuse to copper color, complemented by dark burgundy-rose undersides. Very uniform growth habit.

Coleus, Sun 'Keystone Kopper'

Sun Coleus; Flame Nettle; Painted Nettle; Insignificant
(Solenostemon scutellarioides)

2'-3' tall

Rich, moist, well-drained soil.

Full sun to full shade

18"-24" wide

Prairie Star

This Coleus steals the show! Its deep, rich copper color is vibrant and long-lasting in landscapes and containers! Each leaf is meticulously veined with delicately scalloped margins for a superbly decorative effect. Versatile and easy to grow, it makes an incredible focal point in containers. Was bred at the University of Florida for burn-resistance in full sun. Late to non-flowering to preserve its foliage color throughout the season.

Coleus, Sun 'Keystone Kopper'

Sun Coleus; Flame Nettle; Painted Nettle; Insignificant
(Solenostemon scutellarioides)

2'-3' tall

Rich, moist, well-drained soil.

Full sun to full shade

18"-24" wide

Prairie Star

This Coleus steals the show! Its deep, rich copper color is vibrant and long-lasting in landscapes and containers! Each leaf is meticulously veined with delicately scalloped margins for a superbly decorative effect. Versatile and easy to grow, it makes an incredible focal point in containers. Was bred at the University of Florida for burn-resistance in full sun. Late to non-flowering to preserve its foliage color throughout the season.

Annual Flower/Foliage

Coleus, Sun 'Lava Rose'

Sun Coleus; Flame Nettle; Painted Nettle; Insignificant
(Solenostemon scutellarioides)

8"-10" tall

Rich, moist, well-drained soil.

Full sun to full shade

2'-3' wide

The unique leaves have deep rose centers, edged and veined in dark burgundy and margined in green; will trail to 30"; great for baskets and containers.

Coleus, Sun 'Limon Blush'

Sun Coleus; Flame Nettle; Painted Nettle; Insignificant
(Solenostemon scutellarioides)

2'-3' tall

Rich, moist, well-drained soil.

Full sun to shade

18"-24" wide

Deeply lobed, fantasy-type leaves are stippled a stunning combination of emerald green, rose-pink, coral, and soft gold. Sun tolerant. Makes a great accent in combination pots or in the landscape.

Coleus, Sun 'Luminesce'

Sun Coleus; Flame Nettle; Painted Nettle; Insignificant
(Solenostemon scutellarioides)

12"-16" tall

NEW Rich, moist, well-drained soil.

Part sun to full shade

10"-12" wide

Compact, mounded plants with narrow neon pink leaves scalloped at the leaf edges. The weeping, strappy leaves of this variety just pop with color! Best garden performance in partial sun to bright shade, in moist, fertile soil with good drainage! A dazzling solo performer or highlight of a mixed container planting.

Coleus, Sun 'Main Street Abbey Road'

Sun Coleus; Flame Nettle; Painted Nettle; Insignificant
(Solenostemon scutellarioides)

16" tall, 1' wide

Rich, moist, well-drained soil.

Full sun to shade

Deep purple and red leaves with bright green scalloped edges and with green interspersed in the middle parts of the leaves as well. Excellent branching. Rarely flowers.

Coleus, Sun 'Main Street Dutch Mill Drive'

Sun Coleus; Flame Nettle; Painted Nettle; Insignificant
(Solenostemon scutellarioides)

18"-24" tall

Rich, moist, well-drained soil.

Full sun to full shade

SU

18"-24" wide

Simply stunning! Bright green leaves are thickly edged in creamy lemon on the heavily scalloped leaf edges.

Coleus, Sun 'Main Street Fifth Avenue'

Sun Coleus; Flame Nettle; Painted Nettle; Insignificant
(Solenostemon scutellarioides)

16" tall, 1' wide

Rich, moist, well-drained soil.

Full sun to shade

Attractive pointed leaves emerge green, maturing to mahogany-purple with showy vibrant pink centers and green pencil thin margins on the scalloped edges. Has an upright, spreading habit. Stunning!

Coleus, Sun Main Street Granville Street

Sun Coleus; Flame Nettle; Painted Nettle; Insignificant
(Solenostemon scutellarioides)

16"-24" tall

NEW Rich, moist, well-drained soil.

Full sun to full shade

16"-24" wide

The bright colors in this coleus caught our eyes- large leaves are fairly uniform in their color pattern of dark burgundy, maroon, yellow, and green with soft serrated edges. The leaves have a darker pink center and a thin yellow margin. Great as the centerpiece in combo planters! Blooms very late, making it low maintenance.

Coleus, Sun 'Mighty Mosaic'

Sun Coleus; Flame Nettle; Painted Nettle; Insignificant
(Solenostemon scutellarioides)

18"-26" tall

Rich, moist, well-drained soil.

Full sun to shade

18"-22" wide

Multi-colored foliage for mighty customer appeal! This very late flowering variety is great in the shade and tolerates the sun under high humidity. Well-branched, vigorous plants show off beautiful tricolor with dark red, green, and yellow splashes of color.

Annual Flower/Foliage

Coleus, Sun Pandora	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	20"-24" tall
NEW Rich, moist, well-drained soil.	Full sun to full shade		20"-24" wide
Burgundy-red leaves have narrow lime green edging and veins. Small, broad, irregular leaves are slightly textured.			
Coleus, Sun 'Pineapple Splash'	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	16"-24" tall
Rich, moist, well-drained soil.	Full sun to full shade		16"-20" wide
Narrow yellow leaves are marked with dashes of rosy crimson. The leaf edges are serrated and thinly edged in rosy crimson. Smashing!			
Coleus, Sun 'Razzle Dazzle'	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	2' tall
Rich, moist, well-drained soil.	Full sun to full shade		18"-24" wide
Ruffled deep plum leaves with neon rose centers and a green scalloped edge.			
Coleus, Sun 'Redhead'	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	18"-24" tall
Rich, moist, well-drained soil.	Full sun to full shade		16"-24" wide
This is the truest, boldest red you'll find in any coleus, keeping its bright tones in sun or shade. Bright burgundy-red leaves. Well-branched plants are late to flower.			
Coleus, Sun 'Songbird'	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	24"-30" tall
Rich, moist, well-drained soil.	Full sun to full shade		30"-35" wide
This flawless coleus has classic form! Strong, dark stems carry molten cherry-orange-gold leaves have a ruffled, scalloped, frilly dark purple edge. The leaves are also splashed with deep purple. Dense, rounded plants are perfect for containers.			
Coleus, Sun 'Twist and Twirl'	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	24"-30" tall
Rich, moist, well-drained soil.	Full sun to full shade		12"-14" wide
Uniquely oblong foliage with serrated edges. The foliage screams with wild splashes of reds, yellows, greens, and purples!			
Coleus, Sun 'Vino'	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	18"-30" tall
Rich, moist, well-drained soil.	Full sun to full shade		24"-28" wide
Raise a toast to this easy-going, eye-catching coleus! Deep wine colored leaves darken in the sun. The leaves have a very thin green margin along the serrated edges. A nice complement to 'Honey Crisp' in landscapes or large containers!			
Coleus, Sun 'Vino'	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	18"-30" tall
Rich, moist, well-drained soil.	Full sun to full shade		24"-28" wide
Raise a toast to this easy-going, eye-catching coleus! Deep wine colored leaves darken in the sun. The leaves have a very thin green margin along the serrated edges. A nice complement to 'Honey Crisp' in landscapes or large containers!			

Annual Flower/Foliage

Coleus, Sun 'Wasabi'

Sun Coleus; Flame Nettle; Painted Nettle; Insignificant
(Solenostemon scutellarioides)

18"-30" tall

Rich, moist, well-drained soil.

Full sun to full shade

16"-24" wide

Prairie Star

Durable and rugged for a coleus, 'Wasabi's serrated chartreuse leaves hold their brilliant color without fading or spotting! Pair it with 'Redhead' for a spicy and sizzling combination!

Coleus, Sun 'Wasabi'

Sun Coleus; Flame Nettle; Painted Nettle; Insignificant
(Solenostemon scutellarioides)

18"-30" tall

Rich, moist, well-drained soil.

Full sun to full shade

16"-24" wide

Prairie Star

Durable and rugged for a coleus, 'Wasabi's serrated chartreuse leaves hold their brilliant color without fading or spotting! Pair it with 'Redhead' for a spicy and sizzling combination!

Colocasia esculenta 'Black Coral'

Taro; Elephant Ears; C. esculenta syn. C
antiquorum

4' tall

Prefers rich, moist to boggy soil.

Part to Full shade

2'-3' wide

One of the deepest black-leaved Colocasias available! If you are looking for a focal point for the edge of the water or for contains, you've found it in this dramatic Colocasia! Huge, glossy jet black, corrugated, arrow-shaped leaves with deep blue veins on jet black stems. At full size in the landscape, it will reach 4' tall and short runners will appear close to the mother plant. If you grow this plant in containers, make sure it is a very large container and be sure to give it a consistent supply of moisture. This plant will drink up all the water you can give it and even likes to grow directly in shallow water. Featured on the Martha Stewart Show in March 2012!

Colocasia esculenta 'Black Magic'

Taro; Elephant Ears; C. esculenta syn. C
antiquorum

5'-6' tall

Prefers rich, moist to boggy soil.

Part to Full shade

2'-4' wide

Black Magic Taro; Dusty purple-black leaves to 2' long make this a very spectacular plant; prefers moist to boggy soil, but it will also grow well in regular garden soil or in containers; wonderful marginal plant for the water garden as well!

Colocasia esculenta 'Blue Hawaii'

Taro; Elephant Ears; C. esculenta syn. C
antiquorum

30" tall ,2' wide

Prefers rich, moist to boggy soil.

Part to full shade

The beautiful leaves look like an artist painted them! Medium green leaves with dramatic bluish purple veins and smoky bluish purple margins atop dark burgundy petioles. The veins are equally dramatic on the leaf back, only they are cranberry instead of bluish purple. This is a nice smaller elephant ear, perfect for smaller locations and in containers. Part of the Royal Hawaiian series.

Colocasia esculenta 'Coffee Cups'

Taro; Elephant Ears; C. esculenta syn. C
antiquorum

4'-5' tall

Prefers rich, moist to boggy soil.

Part to full shade

2'-3' wide

Prairie Star

Dramatically cupped green leaves on tall blackish stems. The leaves will collect small amounts of rainwater before they tip over and pour the water out! Very upright growth habit. Prairie Star Award Winner!

Colocasia esculenta 'Diamond Head'

Taro; Elephant Ears; C. esculenta syn. C
antiquorum

4'-5' tall

Prefers rich, moist to boggy soil.

Part to full shade

2'-4' wide

This hybrid combines the color of C. 'Black Magic' with the glossy leaf surface that is usually seen only in Alocasias. 15" long glossy, chocolate-black leaves are lightly ruffled on the edges. Semi-glossy, dark burgundy petioles. Clumping habit.

Annual Flower/Foliage

Colocasia esculenta 'Elena'

Taro; Elephant Ears; C. esculenta syn. C antiquorum

3'-6' tall

Prefers rich, moist to boggy soil.

Part to full shade

3'-6' wide

Creamy white stalks turn purple where they join the leaves and create a purple dot where the stalk attaches to the leaves. 20" long chartreuse leaves have lighter yellow veins. Perfect for some cool color combinations.

Colocasia esculenta 'Hawaiian Punch'

Taro; Elephant Ears; C. esculenta syn. C antiquorum

3' tall

Prefers rich, moist to boggy soil.

Part to full shade

2' wide

Very compact clumps, to only 3' tall, with glossy green leaves and bright red stems and veins underneath the leaves. If you're looking for an Elephant Ear that stays a big smaller than most, while adding great stem color, you've found your plant!

Colocasia esculenta 'Heart of the Jungle'

West Indian Kale

Insignificant

3'-5' tall

Prefers rich, moist to boggy soil.

Part to full shade

3'-4' wide

Prairie Star

Large heart-shaped, black tinted dark green leaves. Similar to 'Black Magic' but with a better branching habit. Prairie Star Award Winner.

Colocasia esculenta 'Maui Gold'

Taro; Elephant Ears; C. esculenta syn. C antiquorum

4' tall

Prefers rich, moist to boggy soil.

Part to full shade

2'-3' wide

Forms a tight clump of stems that arch to 4', each ending in a large golden chartreuse leaf, highlighted by a small purple dot where the petiole connects to the leaf. A great foil to the black elephant ears such as C. 'Black Coral'!

Colocasia esculenta 'Maui Magic'

Taro; Elephant Ears; C. esculenta syn. C antiquorum

Insignificant

3'-5' tall

Prefers rich, moist to boggy soil.

Part to full shade

18"-24" wide

Makes an impressive clump of dark black-purple stems, topped with large leaves that can reach 2' to 3' long and 2' across! The leaves emerge glossy purplish black and then change to a semi-gloss dark olive-green, highlighted by purple veins, which are even more prevalent on the leaf backs. The leaves have an almost magical iridescence radiating from the center of the leaf. The plants produce an abundance of leaves held on sturdy, upright petioles, creating the appearance of a dense, full plant. This is a very robust grower without any sign of runners. The foliage moves in the breeze, and can provide a visual and textural focus in landscapes and large container combos.

Colocasia esculenta 'Mojito'

Taro; Elephant Ears; C. esculenta syn. C antiquorum

5'-6' tall

Prefers rich, moist to boggy soil.

Part to full shade

4' wide

The ultimate patio Colocasia! Named after the popular Cuban mixed drink, the amazing leaves are medium green with dark purple-black splatters and flecks throughout! The stems have the color and pattern of a variegated eggplant (colors of dark purple-black and light lavender). 'Mojito' is pronounced "Mou-hitou".

Colocasia esculenta 'Pineapple Princess'

Taro; Elephant Ears; C. esculenta syn. C antiquorum

Yellow

3' tall

Prefers rich, moist to boggy soil.

Part to full shade

LSU-F

5' wide

18" long dusty yellow-green leaves are highlighted by dramatic light purple veins and margins. The backs of the leaves are equally dramatic with the dark purple veins showing off against the gray-purple back. Flowers well in late summer and fall with spiky yellow flowers, which are fruity smelling as they begin to open... magnificent.

Annual Flower/Foliage

Colocasia esculenta 'Puckered Up'	Taro; Elephant Ears; <i>C. esculenta</i> syn. <i>C. antiquorum</i>		3'-4' tall
Prefers rich, moist to boggy soil.	Part to full sun		3'-4' wide

This beauty has deeply puckered, dark chocolate leaves that are supported by strong, near-black stems on a bushy yet compact plant. This is one hard-working elephant ear- the number of stems and leaves, the leaf sheen, and the amazing puckered foliage is just awesome! It is so neat to observe how the light plays off of each pucker to make the foliage look a lot like a shiny turtle shell! One of the cutest, most attractive *Colocasias* to be introduced in a long time. Its compact habit with so many stems makes it a delightful container plant!

Colocasia gigantea 'Thailand Giant'	Giant Elephant Ear; Super-Sized Elephant Ear	White	7'-9' tall
Prefers rich, moist to boggy soil.	Part to full shade		7'-9' wide

To say that this plant will dwarf nearly any plant you already grow would be putting it mildly! It is larger than the species *C. gigantea*. Glaucous green leaves can measure a whopping 5' long x 4' wide each! Full grown plants typically reach 9' tall, though some grown in tropical climates have reportedly reached 20'! From a young age, this plant produces dramatically large, pleasantly perfumed, white, lily-like flowers, though it really is grown more for its gigantic leaves. Create your own private jungle with this plant! Needs consistently moist soil.

Colocasia 'Noble Gigante'	Giant Elephant Ear; Super-Sized Elephant Ear		5' tall
Prefers rich, moist to boggy soil.	Part to full sun		

Are you an impatient gardener? This plant is for you! The first hybrid of *C. esculenta* and the very distantly related *C. gigantea*. This magnificent breakthrough grows 5' to 8' tall with 2' to 3' long, dark purple-blue leaves similar in form to *C. gigantea*... simply extraordinary! Leaves are purple-blue in part shade (morning sun only), yet softer purple with a green tint in full shade. The veins emerge light green and fade to deep purple. This incredibly bold, colorful selection is perfectly happy in the ground or in large containers. Make a tropical oasis in a shady spot!

Cordyline australis Electric Pink'	Australian Sword; False Dracaena	None	25"-30" tall
Rich, well-drained soil.	9	Part to full sun	15"-18" wide

Bright, spiky leaves are striped in pink, rose, and burgundy! An exotic addition to containers!

Cordyline australis 'Red Sensation'	Australian Sword; False Dracaena		1'-3' tall
Rich, well-drained soil.	8	Part to full sun	2'-3' wide

Arching lance-shaped to linear dusky, red-burgundy leaves; stunning architectural accent for containers and flower beds; adds bold texture with a tropical flair!

Cordyline 'Fairchild Red'	Australian Sword; False Dracaena		1'-3' tall
Rich, well-drained soil.		Part to full sun	18"-24" wide

Narrow, upward and outward arching leaves of dark olive green with red, purple, and vibrant pink striped margins! Adds wonderful drama to container plantings and flower beds! Needs moist soil. Leaf colors intensify with age.

Cosmos (Short) sulphureus 'Cosmic Mix'	Short Cosmos	Red, tangerine, and gold	12"-19" tall
Well-drained to dry soil.	Full sun	LSP-EF	10"-18" wide

Prairie Star

Silky, semi-double flowers in a mixture of intense red, bright tangerine, and golden yellow. The stocky plants are well-branched and very free flowering. Prairie Star and AAS Winner.

Annual Flower/Foliage**Cosmos (Tall) bipinnatus 'Sonata Carmine'**

Tall Cosmos

Dark carmine

20" tall

Well-drained to dry soil.

Full sun

ESU-EF

1' wide

3½" single daisy-like flowers.

Cosmos (Tall) bipinnatus 'Sonata Pink'

Tall Cosmos

Medium pink

20" tall

Well-drained to dry soil.

Full sun

ESU-EF

1' wide

3½" single daisy-like flowers.

Cosmos (Tall) bipinnatus 'Sonata White'

Tall Cosmos

Pure white

20" tall

Well-drained to dry soil.

Full sun

ESU-EF

1' wide

3½" single daisy-like flowers.

Cotton 'Burgundy'

Burgundy Cotton; Black Cotton

Pink

14"-30" tall

Very well-drained soil.

Full sun

SU

1' wide

Burgundy leaf cotton plant with pink hibiscus-like flowers; produces walnut-sized seed pods which open to expose fluffy white balls of cotton fibers.

Cuphea (Mexican Heather) 'Allyson'

Mexican Heather

Dark lavender

5"-8" tall

Moist, well-drained soil.

Full sun

SP-F

1' wide

Fast growing, bushy, densely-branched plants; dainty flowers all summer; extremely heat tolerant.

Cuphea llavea 'Bat Face'

Cigar Plant; Firecracker Plant

Dark red and blue

14"-24" tall

Very well-drained soil.

Full sun

SP-F

1' wide

St. Peter's Plant; Dark red and royal blue flowers; the dark red part of the flower resembles ears, and the royal blue is the 'face' of the bat; great for containers; thin green foliage.

Cuphea 'Matchmaker Scarlet'

Cigar Plant; Firecracker Plant

Scarlet

1' tall

Very well-drained soil.

Full sun

SP-F

1' wide

Vigorous and heat-tolerant plants with large blooms held out above the dark green foliage. The 1" to 1 1/2" long scarlet blooms are tipped in glowing dark violet and a thin greenish white margin.

Cuphea 'Vermillionaire'

Cigar Plant; Firecracker Plant

Bright, deep orange

2' tall

Very well-drained soil.

Full sun

SP-F

2' wide

Dark green leaves are contrasted by loose spikes of bright, deep orange tubular flowers that bloom all along the stems. An interspecific cross between *C. ignea* and *C. micropetala*, displaying the best attributes of both parents. Wonderful branching with a mounded, nice and tidy habit. Has a nice sized habit, perfect for containers or smaller spaces in the border. Hummingbirds are often found swarming all over 'Vermillionaire'- they love the brightly colored tubular flowers! Very floriferous and heat and drought tolerant. Cupheas do not like wet "feet", so do not over-water or leave in standing water.

Annual Flower/Foliage

Cyperus haspan viviparus

Dwarf Papyrus

Green

1'-2' tall

Moist to wet soil.

Part to Full Sun

SU

1' wide

Dense tufts of foliage above stiff stems. Golden green flowers. Prefers moist soil and is often used in water gardens as a bog or marginal water plant (can withstand up to 4" of water being over the top of the pot).

Cyperus involucratus 'Baby Tut'

Umbrella Palm

18"-32" tall

Moist to wet soil.

Part to full sun

20"-36" wide

Prairie Star

This petite Umbrella Palm has proven to be a favorite! Well-behaved and elegant in appearance. Great for boggy or moist conditions in the garden, in containers, or in the water garden. Prairie Star Award Winner!

Cyperus papyrus 'King Tut'

Giant Papyrus

Greenish

4'-6' tall

Moist to wet soil.

Part to Full Sun

SU

2'-3' wide

Prairie Star

Large heads of pendulous green leaves. Greenish flower spikelets measure up to 1' across. Wonderful for large containers or in the water garden.

Dahlberg Daisy 'Golden Fleece'

Golden Fleece; Shooting Star

Golden yellow

14"-16" tall

Well-drained soil.

Full sun

SP-F

8"-12" wide

¾" single daisy-like blooms atop fragrant, very ferny bright green foliage.

Dahlia 'Dahlinova Hypnotica Coral'

Bright coral

1'-2' tall

NEW Moist, well-drained soil.

Full sun

LSP-EF

12"-15" wide

Huge, ultra-bright, coral flowers with dark centers. The plants grow quickly and the flowers keep coming month after month on this exciting Dahlia! Well-branched and tolerant of rain, heat, and mildew, these plants are lush and healthy, setting flowers on short stems that seldom need support. A magnificent cutflower!

Dahlia 'Dahlinova Hypnotica Sangria'

Hot orange and yellow

1'-2' tall

Moist, well-drained soil.

Full sun

ESU-EF

12"-15" wide

Huge, ultra-bright, fully double flowers grow quickly! Well-branched and tolerant of rain, heat, and mildew, these plants are lush and healthy, setting flowers on short stems that seldom need support. Hot bicolored blooms have deep orange petals brightly tipped in bright yellow, and measure 3" to 4" across! The sizzling color will make an audacious statement in your garden!

Datura metel (White Angels' Trumpets)

Angels' Trumpets

Pure white

30" tall

Rich, moist, well-drained soil.

Full sun

ESU-F

30"-36" wide

White Angels' Trumpets; Pure white, upright, fragrant flowers.

Datura metel 'Purple Petticoats' (aka 'Cornucopaea')

Horn of Plenty

Purple and lilac

30"-36" tall

Rich, moist, well-drained soil.

Full sun

ESU-F

30"-36" wide

Double Horn of Plenty; Double frilled flowers of purple and light lilac are fragrant at night; syn. 'Cornucopaea', 'Double Purple'.

Annual Flower/Foliage

Dianthus 'Dash Magician'

China Pinks

White to rose

15"-20" tall

Moist, well-drained soil.

Full sun

SP-F

12"-14" wide

Compact, well-branched plants produce large clusters of small fragrant flowers. The flowers open white and mature to shades of rose, with all colors displayed at the same time in the flower clusters! The flowering stems vary in height, giving the display layers of color!

Dianthus 'Diana Crimson'

China Pinks

Crimson

8"-10" tall

Moist, well-drained soil.

Full sun

SP-F

6"-8" wide

Extra large, 2" to 2 1/2" wide deep crimson blooms dominate the basal-branching plants.

Dianthus 'Diana Lavendina Mix'

China Pinks

Purple and white

10"-12" tall

NEW Moist, well-drained soil.

Full sun

SP-F

8" wide

This extraordinary mix of purple and white is a rare treat! A lovely change of pace from the reds and pinks of most Dianthus, it offers unusual colors on extra-large, deeply serrated, twisty petals that release their fabulous clove fragrance nonstop in spring and fall! Compact, early to bloom, and very long-lasting, it is as beautiful as it is durable. This mix includes solid purple, solid white, and two-tone lavender picotee, with lighter purple petal tips and richer lavender centers.

Dianthus 'Diana Mix'

China Pinks

Mix

10"-12" tall

NEW Moist, well-drained soil.

Full sun

SP-F

8" wide

A cross of Sweet Williams with annual dianthus, that has larger, self-cleaning flowers, more free flowering, and better garden performance during summer heat. An award winning selection with large 2" to 2 1/2" blooms, both singles and doubles, in a mix of colors, on low-growing, tightly mounded plants.

Dianthus 'Elation Mix'

China Pinks

Mix

6"-10" tall

Moist, well-drained soil.

Full sun

SP-F

8"-10" wide

One of the earliest Dianthus to flower, it also has outstanding garden vigor! Naturally compact, well-branched, mounded plants have strong heat tolerance, fragrant flowers, and a tidy, low-maintenance look in the garden. Single flowers in bright shades of red, coral, pink, violet, and white. Mulch the plants for the winter- they may surprise you in coming back up in the spring!

Dianthus 'Green Ball'

China Pinks

Vibrant bright green

10"-14" tall

Moist, well-drained soil.

Full sun

SP-F

8"-12" wide

It's a Truffula Tree! Dr. Seuss would have loved this elegant green flower! Now available as a garden plant, you can use this vibrant bright green dianthus to create a stunning contrast no matter where you plant it- by itself or as a mixed combo thriller. Perfectly rounded green flower heads, to 3" in diameter, over very dark and glossy leaves on strong, one foot tall stems. The flowers look like a rounded ball of bright green, long fibered moss! Provides bouquets with a never before-seen texture and look. The cut flowers will last up to two weeks in a vase!

Dianthus 'Jolt Cherry'

China Pinks

Cherry

16"-20" tall

NEW Moist, well-drained soil.

Full sun

SP-F

12"-14" wide

Produces a shocky blaze of super-charged color all summer long. The ultra vivid cherry shade mixes magnificently with Celosia, Rudbeckia, and Echinacea, in front of the sunny border! Downright stunning in containers as well. Well-branching plants are soon ablaze with lightly fragrant, high-saturation blooms- producing bouquet after bouquet of dazzling cutflowers. Easy to grow and care for. Highly durable, withstanding hot summer temperatures!

Annual Flower/Foliage

Dianthus 'Jolt Pink'

China Pinks

Rose-pink

10"-24" tall

Moist, well-drained soil.

Full sun

SP-F

10"-14" wide

Prairie Star

This is an Interspecific dianthus with brightly colored and large, showy flower heads on strong stems that perform extremely well all summer long. 'Jolt' is the most heat tolerant dianthus on the market, sporting very showy, bright rose-pink fringed flowers. AAS Judges called this entry the "Best of the trials! We wish all dianthus performed this well." This is an easy to grow and trouble-free annual for the gardener looking for neat and tidy low-maintenance flowers. 2015 AAS Winner!

Dianthus 'Super Parfait Raspberry'

China Pinks

Blush rose

8"-10" tall

Moist, well-drained soil.

Full sun

SP-F

8" wide

Blush rose flowers with crimson eyes; very compact habit.

Dianthus 'Supra Purple'

China Pinks

Purple-rose

10"-12" tall

Moist, well-drained soil.

Full sun

SP-F

8"-10" wide

Arguably one of the best annuals for flower beds! Compact plants have great heat tolerance and are easy to grow. A prolific producer of large, 1 1/2", purple-rose blooms that are lacy with highly fringed petal edges. Noted for its extremely long bloom period, even during hot weather. AAS Winner!

Dianthus 'Venti Parfait Crimson Eye'

China Pinks

Pink and crimson

6"-8" tall

Moist, well-drained soil.

Full sun

SP-F

8"-10" wide

Extra large pink flowers have large, bold crimson centers! The flowers completely cover the compact, mounded plants!

Dichondra argentea 'Silver Falls'

Aluminum Vine, Silver Nickel Vine, Silver Pony Foot

White, green, or yellow-green

2"-3" tall

Well-drained soil.

Part to Full sun

SU-F

2'-3' wide

Prairie Star

Aluminum Vine; Silver Nickel Vine; Silver Pony Foot; Small, rounded, fan-shaped shimmering silver leaves on silver stems which will trail up to 4'. Very heat and drought tolerant- withstands drought and heat like no other spiller! Great for hanging baskets and containers as a full sun alternative to Helichrysum (Licorice Plant). Complements countless flowering plants with elegant texture and color! Try it in a basket with Scaevola!

Dichondra repens 'Emerald Falls'

White, green, or yellow-green

2"-4" tall

Well-drained soil.

Part to full sun

SU-F

18"-24" wide

Kidney-shaped 1/4" to 1 1/2" green leaves, heat tolerance, and a dense, cascading habit make this an excellent choice for mixed containers and hanging baskets; will cascade to 3' long. Tiny, insignificant white, green, or greenish yellow flowers in the summer and fall. Also excellent as a low-growing ground cover. Withstands foot traffic.

Dicliptera suberecta

Uruguayan Firecracker Plant; Hummingbird Plant; King's Crown

Reddish orange

18"-24" tall

Very well-drained soil.

Part to full sun

MSU-EF

18"-36" wide

A Hummingbird's dream come true! This is one suave "must-have" and super rewarding mid summer to fall bloomer! Refined, ovate, velvety, hairy silvery bluish gray leaves (to 2 1/2" long) and stems that make it a lovely textural and foliar addition to your garden even before the flower show begins. Starting in mid summer and lasting til frost, multitudes of clusters of long-lasting, showy two-lipped, tubular reddish orange flowers up to 1 3/4" long burst out all over, tempting hummingbirds from near and far. Thrives in heat and humidity! Typically grows in a shrubby mound. The flowers are attractive to hummingbirds, hence the common name of hummingbird plant. Excellent in large containers and hanging baskets! Syn. Jacobina suberecta; Justicia suberecta.

Annual Flower/Foliage

Digitalis 'Foxlight Ruby Glow'	Digitalis x Isoplexis	Pink and sunset orange	20"-24" tall
Moist, well-drained soil.	Part to full sun	SU	20" wide

An intergeneric hybrid of Digitalis and Isoplexis. These foxglove-like plants make a bold focal point in the gardens or in containers. Bright spikes of pink tubular flowers with sunset orange and gold insides! The outward facing blooms show off their bold color well!

Dipladenia 'Red Riding Hood'		Hot pink	1'-2' tall
Moist, well-drained soil.	Full sun	SP-F	8"-12" wide

Hot pink trumpet-shaped flowers with yellow throats.

Dracaena indivisa (Spike Grass)	Spike Grass		1'-2' tall
Moist, well-drained soil.	Full sun to Full shade		8"-12" wide

Long sword-shaped leaves; used in mixed plantings and containers.

Duranta repens 'Gold Edge'	Golden Dewdrop; Pigeon Berry; Sky Flower		3'-4' tall
Moist, well-drained soil.			2'-4' wide

Bright green leaves are widely margined in bright gold; rarely shows its lavender flowers; wonderful accent plant in containers

Dusty Miller 'Silver Dust'	Senecio cineraria; Centaurea cineraria		9"-10" tall
Well-drained to dry soil.	Full sun		8" wide

Senecio cineraria; Centaurea cineraria; Finely cut silvery white leaves.

Dusty Miller 'Silver Lace'	Tanacetum ptarmiciflorum		6"-8" tall
Well-drained to dry soil.	Full sun		8" wide

Tanacetum ptarmiciflorum; Finely cut, feather-like lacy silver foliage.

Elephant ears Caladium esculentum	Elephant Ears		3'-5' tall
Rich, moist, well-drained soil.	Part to Full shade		3' wide

Very large green leaves with scalloped edges; a choice plant for lending a tropical look to the garden.

Ensete ventricosum 'Maurelii'	Abyssinian Banana; Ethiopian Banana	White	8' in 1 year; up to 20' tall
Rich, moist, well-drained soil.	Part to full sun	SU	6' wide

Huge, paddle-shaped, bright olive green leaves, to 20' long (5' to 6' in the first year) are tinged with red, especially along the margins; dark red leaf stalks; white flowers, concealed within arching cylinders of bronze-red bracts, are borne in inflorescences 3' to 4' long. In tropical climates, it grows up to 20' tall and 15' wide with 20' long leaves.

Annual Flower/Foliage

Euphorbia cotinifolia 'Burgundy Wine'

Tropical Smoke Bush; Caribbean Copper Plant

White to yellow

2'-5' tall

Well-drained soil.

Part to Full sun

SP

2'-4' wide

Tropical Smoke Bush; Caribbean Copper Plant; Smoky orange-red rounded foliage ages to plum-purple tones; the foliage looks amazingly like *Cotinus coggygria*, hence the common name, Smoke Bush; funky little white to pale yellow flowers in the spring; an outstanding foliage plant that can be confined to a bushy habit if pinched back regularly when young; excellent for large containers; our plant reached 3' tall and 2' wide in a dry sunny spot- in the tropics it can get 10'-16' tall and 6'-8' wide!

Euphorbia hypericifolia 'Breathless Blush'

Blush

8"-12" tall

Well-drained soil.

Part to full sun

SP-F

20"-24" wide

Small white flower bracts are flushed with blush pink atop unique dark green foliage with prominent red tones! These heat and humidity tolerant plants fill in fast, making stocky and mounded plants. Has low water needs and doesn't need deadheading! Stocky and well-mounded, it's fast to fill solo and mixed containers, and thrives as an in-ground plant. Showy masses of self-cleaning flowers from spring to fall.

Euphorbia hypericifolia 'Star Dust Superflash'

White

1'-2' tall

Well-drained soil.

Full sun

LSP-F

1'-2' wide

This Euphorbia is so blitzed by blooms, you'll hardly see the foliage! Euphorbias are great plants- heat tolerant, disliked by deer, they do not require dead-heading, and will bloom all season long, in all kinds of weather! Displays a showy mass of self-cleaning flowers all summer. Stocky and mounded plants. A great choice in white flowers to make any sun combo pop!

Euphorbia hypericifolia 'Star Dust Superflash'

White

1'-2' tall

Well-drained soil.

Full sun

LSP-F

1'-2' wide

This Euphorbia is so blitzed by blooms, you'll hardly see the foliage! Euphorbias are great plants- heat tolerant, disliked by deer, they do not require dead-heading, and will bloom all season long, in all kinds of weather! Displays a showy mass of self-cleaning flowers all summer. Stocky and mounded plants. A great choice in white flowers to make any sun combo pop!

Evolvulus 'Blue Daze'

True blue

8" tall

Well-drained soil.

Part to Full sun

SP-F

18" wide

Soft gray-green trailing foliage and 1" round true blue morning glory-like flowers all summer long; loves the heat!

Fern *Nephrolepis exaltata* 'Massai' (true Boston)

Boston Fern

12"-18" tall

Rich, moist, well-drained soil.

10 Part to full shade

18"-24" wide

A large, impressive, and very beautiful true Boston fern. This vigorous fern has rich green fronds that are very long and broad.

Fern *Nephrolepis obliterated* 'Emerald Queen' (syn. 'Kimberly Queen', Australian Sword Fern)

Australian Sword Fern

1'-3' tall

Rich, moist, well-drained soil.

Full sun to full shade

1'-3' wide

A sterile form of Sword Fern, it is very hardy and strong. Excellent for indoor use and outdoors. Leaflets are a little broader than Sword Fern. Under high light conditions, its habit will be more erect. Can withstand full sun provided it has consistently moist soil.

Annual Flower/Foliage

Fittonia 'White Mini'

6" tall ,6"-12" wide

NEW Constantly moist, well-drained soil.

Part to full shade

A lovely plant deep green leaves delicately veined in white. As beautiful as they are, they require very high, constant humidity (typical to a terrarium), but cannot stand stagnant conditions. They dislike strong, direct sunlight and will quickly suffer from burn- they prefer indirect or dappled sunlight- they also thrive under fluorescent lights. Plants should be kept constantly moist, with high ambient humidity- mist plants frequently or grow in a tray with pebbles and water. Can be easily grown in conventional, peat-based potting soil- just make sure it can retain moisture, but will not remain soggy. Feed during the growing season with a weekly dose of weak liquid plant food or with controlled-release fertilizer.

Flowering Cabbage 'Dynasty Mix'

Brassica oleracea

1' tall

Moist, well-drained soil.

Full sun

15"-18" wide

Tight, compact heads of semi-wavy leaves.

Flowering Kale (Brassica oleracea) 'Emperor Mix'

Brassica oleracea

1' tall

Moist, well-drained soil.

Full sun

15"-18" wide

Heavily fringed, uniform leaves.

Flowering Kale (Brassica oleracea) 'Glamour Red'

Brassica oleracea

1' tall

Moist, well-drained soil.

Full sun

12"-14" wide

The All-America Selections' first winning kale (edible or ornamental) in 78 years of trialing! This variety is an excellent achievement in breeding for its unique shiny leaves. The waxless quality of the leaves makes them shiny, with a more intense, vivid color as compared to other ornamental kales. The leaves are very fringed, and make heads 10" to 12" across. Leaf coloring begins when night temperatures fall below 55 degrees F for approximately two weeks. The leaves will be shiny green, with the inner, new leaves coloring a beautiful rosy purple-red in cool temperatures. Good disease tolerance.

Flowers for Drying Eucalyptus cinerea

Silver Dollar Eucalyptus, Silver Dollar Tree, Gum Tree, Argyle Apple

2'-5' tall

Rich, moist, well-drained soil.

Full sun

8"-12' wide

Silver-dollar shaped blue-green foliage; soil must not be allowed to dry out; great for fresh cut or dried flower arrangements.

Flowers for Drying Helichrysum 'Dreamtime Jumbo Red'

Immortelle, Strawflower

Brick red

7"-8" tall

Well-drained soil.

Full sun

SP-F

10"-12" wide

Huge bright, brick red strawflowers; mounding habit; blooms well in the heat and into the cool days of fall. The flowers have a papery feeling that appeals to kids of all ages.

Flowers for Drying Helichrysum 'Dreamtime Jumbo Rose'

Bright rose

10"-12" tall

NEW Well-drained to dry soil.

Full sun

SP-F

10"-14" wide

Huge, 1 1/2" to 2" wide bright rose strawflowers are held 2" above the foliage. Plants have a nice mounding habit. Blooms well in the heat and into the cool days of fall. Great cut and dried flower! The flowers have a papery feeling that appeals to kids of all ages!

Annual Flower/Foliage

Fuchsia, Trailing 'Angel Earring Double Red'

Lady's Earrings

Red and white

15"-20" tall

NEW Moist, well-drained soil.

Part to Full shade

SP-SU

20"-25" wide

A showy trailing variety of Lady's Earrings, producing masses of flowers with lipstick red sepals and white corollas. The 2" wide blooms cascade from window boxes, containers or hanging baskets, and will continue to bring a smile to your face all throughout the spring and into fall. They offer better heat tolerance, producing higher amounts of flowers during hot weather than other varieties.

Fuchsia, Trailing 'Angel Earring Snow Fire'

Lady's Earrings

White & carmine

10"-12" tall

Moist, well-drained soil.

Part to Full shade

SP-F

12"-16" wide

Single white corollas and carmine-red sepals; semi-trailing, compact habit; great heat and humidity tolerance.

Fuchsia, Trailing 'Blacky' ('Midnight')

Lady's Earrings

Deep purple-black and bright pink

1' tall

Moist, well-drained soil.

Part to Full shade

SP-SU

7"-10" wide

Bright pink buds open to captivating, double, deep black-purple corollas set against bright pink sepals; captivating!

Fuchsia, Trailing 'Eruption'

Lady's Earrings

Hot pink

12"-18" tall

Moist, well-drained soil.

Part to Full shade

SP-SU

18"-24" wide

This incredible new fuchsia creates jaw-dropping gorgeous hanging baskets! It's easy to see why 'Eruption' is so named, as it is literally smothered with wave after wave of hot pink, elongated flowers throughout the summer months. Perfect for adding dense color and impact to hanging baskets and containers. Produces a staggering amount of flowers for a fuchsia plant and they won't stop until the first frosts in autumn.

Fuchsia, Upright 'Koralle'

Honeysuckle Fuchsia

Vivid orange

16"-18" tall

Moist, well-drained soil.

Part to Full shade

SP-SU

12"-14" wide

An improved 'Gartenmeister'. Upright, free flowering plants are quite heat tolerant. It's common name, Honeysuckle Fuchsia, refers to the long, tubular vivid orange flowers that bloom in profusion. Velvety textured bronze-green leaves are the perfect backdrop to the flowers. Heat tolerant.

Gaillardia pulchella

Indian Blanket Flower

Red-violet and yellow

18"-24" tall

Light, well-drained soil.

Full sun

LSP-EF

18"-24" wide

A short-lived annual flower that is native to the central US. The pinwheel-like florets of the flowerhead tend to be more red-violet, with the outer ray florets yellow. Branching stems are hairy and upright. Needs well-drained soil. Drought tolerant.

Gazania rigens 'Daybreak Red Stripe'

Treasure Flower

Yellow and red

8"-10" tall

Well-drained soil.

Full sun

MSP-MF

6"-8" wide

Deep yellow flowers with red stripes in the center of each petal; green foliage.

Gazania rigens 'Kiss Frosty Orange Flame'

Treasure Flower

Orange and bronze

8"-10" tall

NEW Well-drained soil.

Full sun

LSP-F

8"-10" wide

The flowers are a charming combination of orange with reddish bronze striped petals, marked with a darker red ring around the centers. The blooms contrast nicely with the frosty gray-green foliage. An abundance of 3 1/2" wide blooms atop tightly mounded plants that have a uniform habit. An excellent fresh cutflower for bouquets!

Annual Flower/Foliage

Gazania rigens 'New Day Mix'

Treasure Flower

Mix

10"-14" tall

Well-drained soil.

Full sun

MSP-MF

8"-12" wide

Larger flowers on shorter flowering stems, and beefier plants than similar varieties. These drought-tolerant plants are perfect for containers, baskets, and flower beds. A mix of bronze shades, clear orange, pink shades, creamy white, bright yellow, and rose and cream striped daisy-like flowers!

Gazania rigens 'New Day Red Shades'

Treasure Flower

Red shades

10"-14" tall

Well-drained soil.

Full sun

MSP-MF

8"-12" wide

Larger flowers on shorter flowering stems, and beefier plants than similar varieties. These drought-tolerant plants are perfect for containers, baskets, and flower beds. Daisy-like flowers in shades of rich maroon and orange-red!

Gazania rigens 'New Day Rose Stripe'

Treasure Flower

Rose and cream

10"-14" tall

Well-drained soil.

Full sun

MSP-MF

8"-12" wide

Larger flowers on shorter flowering stems, and beefier plants than similar varieties. These drought-tolerant plants are perfect for containers, baskets, and flower beds. Daisy-like, cream colored flowers have a dark rose shaded center stripe on each petal!

Gazania rigens 'New Day Strawberry Shortcake Mixture'

Treasure Flower

Rich rose, pink, and cream

10"-14" tall

Well-drained soil.

Full sun

MSP-MF

8"-12" wide

Larger flowers on shorter flowering stems, and beefier plants than similar varieties. These drought-tolerant plants are perfect for containers, baskets, and flower beds. Daisy-like flowers in a colorful mix of dark, rich rose flowers, creamy flowers, and creamy white flowers with paintbrush rose stripes down the center of the petals.

Gazania rigens 'Tiger Stripe Mix'

Treasure Flower

Mix

6"-8" tall

Well-drained soil.

Full sun

MSP-MF

6"-8" wide

A stunning blend of large flowers in shades of yellow, rose, bronze, and cream, with an attractive contrasting stripe on every petal.

Gazania splendens 'Big Kiss Red'

Treasure Flower

Deep red

8"-10" tall

Well-drained soil.

Full sun

LSP-F

8"-10" wide

Vigorous, full, bushy plants have huge, 4.5" wide blooms on strong stems. Deep mahogany red flowers with orange centers.

Gazania splendens 'Big Kiss Yellow'

Treasure Flower

Bright yellow

8"-10" tall

Well-drained soil.

Full sun

LSP-F

8"-10" wide

Vigorous, full, bushy plants have huge, 4.5" wide blooms on strong stems. Bright clear yellow flowers have a thin chocolate ring around the yellow center.

Gazania splendens 'Big Kiss Yellow Flame'

Treasure Flower

Gold and mahogany

8"-10" tall

Well-drained soil.

Full sun

LSP-F

8"-10" wide

Vigorous, full, bushy plants have huge, 4.5" wide blooms on strong stems. Rich golden petals have a mahogany central stripe.

Annual Flower/Foliage

Geranium, Interspecific 'Calliope Crimson Flame'

Interspecific Geranium

Dark rose and red

10"-12" tall

NEW Rich, moist, well-drained soil.

Part to full sun

MSP-F

12"-20" wide

'Calliope' is truly a revolutionary advance in geraniums! A first-of-its-kind Interspecific (zonal x ivy geranium cross) hybrid, expressing strong zonal characteristics and offering stunning flowers! The bicolor dark rose and red flowers look like they are glowing! Outstanding garden performance and a dense, vigorous spreading habit that is ideal for baskets, large pots, and landscape beds. In addition to excellent heat tolerance and outstanding drought tolerance, 'Calliope' produces large, semi-double blooms that resist burning in full sun. The 'Calliope' series offers twice as many flowers and twice as many branches as traditional zonal geraniums. An absolutely amazing plant!

Geranium, Interspecific 'Calliope Dark Red'

Interspecific Geranium

Dark velvet red

10"-14" tall

Rich, moist, well-drained soil.

Part to full sun

MSP-F

16"-20" wide

'Calliope' is truly a revolutionary advance in geraniums! A first-of-its-kind Interspecific (zonal x ivy geranium cross) hybrid, expressing strong zonal characteristics and offering a stunning dark velvet red color not possible with conventional breeding. Outstanding garden performance and a dense, vigorous spreading habit that is ideal for baskets, large pots, and landscape beds. In addition to excellent heat tolerance and outstanding drought tolerance, 'Calliope' produces large, semi-double blooms that resist burning in full sun. An absolutely amazing plant!

Geranium, Interspecific 'Calliope Hot Pink'

Interspecific Geranium

Hot pink

10"-14" tall

Rich, moist, well-drained soil.

Part to full sun

MSP-F

16"-20" wide

Hot red blooms with random darker red markings. Large flowers, dark green leaves and no shattering of the blossoms. Semi-trailing habit. Sure to be a winner!

Annual Flower/Foliage

Geranium, Ivy Bicolor 'Precision Red Ice'

Red and white

10"-12" tall

Rich, moist, well-drained soil.

Part sun

SP-SU

14"-18" wide

Large, showy blooms mounded above the rich green leaves! The flowers are a beautiful combination of true rich red with pure white striping in the middle of the petals. Well-branched and free-flowering, it quickly fills large containers and baskets. Plants will trail to 20"!

Geranium, Ivy Burgundy 'Precision Dark Burgundy'

Dark velvety burgundy

10"-12" tall

Rich, moist, well-drained soil.

Part sun

SP-SU

14"-18" wide

Large, showy blooms mounded above the rich green leaves! Intense, dark burgundy flowers are lighter on the undersides. Well-branched and free-flowering, it quickly fills large containers and baskets. Plants will trail to 20"!

Geranium, Ivy Lavender/Purple 'Precision Lavender Blue'

Light lavender

10"-12" tall

Rich, moist, well-drained soil.

Part sun

SP-SU

14"-18" wide

Large, showy blooms mounded above the rich green leaves! Very double, light lavender blooms. Well-branched and free-flowering, it quickly fills large containers and baskets. Plants will trail to 20"!

Geranium, Regal 'Candy Flowers Dark Red'

Regal Geranium, Martha Washington Geranium

Dark red

10"-18" tall

NEW Rich, moist, well-drained soil.

Part sun

SP-SU

12"-20" wide

These new geraniums are an interspecific cross between Zonal Geraniums, Regal Geraniums (Martha Washington Geraniums), and Lemon Scented Geraniums. This unique cross has resulted in plants that have the appearance of Regal Geraniums, yet are very well branched, early to flower, much longer blooming, more heat tolerant, and do not require a long cooling period to bloom (unlike traditional Regal Geraniums). They will bloom through summer, though not as much as a Zonal Geranium will bloom, and not as much as they bloom in the spring. Dark red flowers with darker merlot markings. Plant in a spot with morning sun and afternoon shade (or at least filtered afternoon sun).

Geranium, Regal 'Candy Flowers Pink Eye'

Regal Geranium, Martha Washington Geranium

Pink and rosy red-purple

10"-18" tall

NEW Rich, moist, well-drained soil.

Part sun

SP-SU

12"-20" wide

These new geraniums are an interspecific cross between Zonal Geraniums, Regal Geraniums (Martha Washington Geraniums), and Lemon Scented Geraniums. This unique cross has resulted in plants that have the appearance of Regal Geraniums, yet are very well branched, early to flower, much longer blooming, more heat tolerant, and do not require a long cooling period to bloom (unlike traditional Regal Geraniums). They will bloom through summer, though not as much as a Zonal Geranium will bloom, and not as much as they bloom in the spring. The colors are distinctive with dramatic edges and splashes! Lower petals are rich pink with rosy red-purple blotches. Upper petals are rosy red-purple with pink picotee edges. Plant in a spot with morning sun and afternoon shade (or at least filtered afternoon sun).

Geranium, Regal 'Candy Flowers Violet'

Regal Geranium, Martha Washington Geranium

Neon violet and plum

10"-18" tall

NEW Rich, moist, well-drained soil.

Part sun

SP-SU

12"-20" wide

These new geraniums are an interspecific cross between Zonal Geraniums, Regal Geraniums (Martha Washington Geraniums), and Lemon Scented Geraniums. NEW Rich, moist, well-drained soil.

Part to Full sun

SP-F

18"-20" wide

Prairie Star

A combination of the best traits of a red ivy geranium with the sensational foliage of fancy leaved zonal novelties! This results in the first "fancy leaved" geraniums that have great flowers as well! It also has the wonderful form and summer performance of its Ivy parentage. The leaves are almost more white than green, yet unlike many heavily variegated plants, it can take the heat and full sun without scorching. Has superb heat and humidity tolerance. Its stunning bright white and green foliage is a standout on its own. The bright red blooms are the "icing on the cake", or geranium, in this case! Its spreading habit makes it an excellent choice for container gardens, larger hanging baskets and wherever you may need substantial covering in border plantings.

Globe Amaranth

Hot pink

1'-2' tall

Extremely well-drained to dry soil!

Full sun

SU

1' wide

Extremely large (3" plus) bright pink flowers, which change to soft pink as they age. Long-lasting blooms each last 3 to 4 weeks outdoors (2 to 3 months indoors). The flowerheads are actually composed of a series of petal-like bracts that extend, then fork to reveal delicate golden tipped flowers. These flowerheads take the traditional Gomphrena form, and turn it into something new, exciting, and super glam with hot tones of reddish purple color! The plush blanket of silvery fuzz on the green foliage and stems is a unique attribute. A great garden plant, houseplant, cutflower, and dried flower! Heat and drought tolerant- DO NOT overwater (treat 'Pink Zazzle' like a succulent! It must have well-drained soil.)!

Gomphrena 'Strawberry Fields'

Globe Amaranth

Red-orange

2' tall

Well-drained soil.

Full sun

SU-EF

12"-15" wide

1 1/2" red flowers have a tinge of orange. The globe-shaped flowers bloom continuously atop long stems.

Gypsophila 'Gypsy Deep Rose'

Dark rose

6"-10" tall

Deep, light, well-drained soil.

Full sun

SP-SU

12"-14" wide

Dainty single, semi-double, and double dark rose rose-like blooms up to 3/8" across; mounding plants will be covered with blooms; low maintenance; AAS Winner 2004.

Hamelia patens (Texas Fire Bush)

Texas Fire Bush; Mexican Firebush;
Hummingbird Bush

Orange-red

20"-36" tall

Rich, well-drained soil.

Full sun

SP-F

1'-2' wide

This long blooming, easy-care tropical plant has tremendous heat tolerance and pest resistance; showy orange-red tubular flowers attract hummingbirds and butterflies; great for containers.

Annual Flower/Foliage

Hedera canariensis 'Gloire de Marengo'

Algerian Ivy

12"-18" tall

Rich, moist, well-drained soil.

Part to full shade

3' wide

The three-lobed leaves are 4" to 5" long and heart-shaped. Cream to white margins surround the gray-green streaked centers that are also speckled with creamy white. The glossy leaves are held on smooth, deep red trailing stems. A great "filler" in shady hanging baskets and containers.

Hedera helix 'Glacier'

Ivy

2"-6" tall

Rich, moist, well-drained soil.

Part to Full shade

10" wide

Small gray-green five-lobed leaves have silver-gray patches, are edged with cream, and have contrasting purple-red stems; fast growing.

Hedera helix 'Gold Child'

Ivy

2"-6" tall

Rich, moist, well-drained soil.

Part to Full shade

10" wide

Three-lobed gray-green leaves with a gold margin.

Hedera helix 'Needlepoint'

Ivy

2"-6" tall

Rich, moist, well-drained soil.

Part to Full shade

10" wide

Has small, pointed leaves and grows similar to English ivy, but branches better for increased thickness. Great in containers and baskets.

Helenium amarum 'Dakota Gold'

Helen's Flower, Sneezeweed

Bright gold

12"-14" tall

Moist, well-drained soil.

Full sun

MSP-F

8"-16" wide

Prairie Star

Compact, mounded plants with bright golden daisy-like flowers over fine-textured bright green leaves. Absolutely incredible- it blooms and blooms through the intense summer heat and humidity! You will not be disappointed with this one! Very neat!!

Heliotrope (Heliotropium arborescens) 'Marine'

Heliotropium arborescens

Deep blue-purple

10"-14" tall

Rich, moist, well-drained soil.

Part shade

SP-F

15" wide

Masses of dainty deep blue-purple, fragrant flowers up to 10" across.

Heliotrope (Heliotropium arborescens) 'Marine' vegetative

Heliotropium arborescens

Deep royal blue

8"-10" tall

Rich, moist, well-drained soil.

Part shade

SP-F

6"-8" wide

Very fragrant deep royal blue flowers up to 4" across.

Hibiscus rosa-sinensis 'Bonaire Wind'

Tropical Hibiscus, Queen of the Tropics

Pastel yellow

2'-3' tall

Rich, moist, well-drained soil.

Full sun

LSP-F

3'-4' wide

Produces 5" wide, pastel yellow blooms with a white center that creates a regal display against the green foliage.

Annual Flower/Foliage

Hibiscus rosa-sinensis 'Brilliant Red'	Tropical Hibiscus, Queen of the Tropics	Bright red	2'-3' tall
Rich, moist, well-drained soil.	Full sun	SP-EF	12"-18" wide

Bright red flowers.

Hibiscus rosa-sinensis 'Mandarin Wind'	Tropical Hibiscus, Queen of the Tropics	Bright orange	2'-3' tall
Rich, moist, well-drained soil.	Full sun	SP-EF	12"-18" wide

6" wide, bright orange flowers have a bright red star-like eye, surrounded by a narrow light pink band.

Hibiscus rosa-sinensis 'Pink Versicolor'	Tropical Hibiscus; Chinese Hibiscus	Bright and dark pink	2'-3' tall
Rich, moist, well-drained soil.	Full sun	SU-EF	12"-18" wide

5" wide, bright, rich pink flowers with dark pink throats; glossy, dense green foliage

Hibiscus rosa-sinensis 'Starry Wind'	Tropical Hibiscus; Chinese Hibiscus	Vivid red	2'-3' tall
Rich, moist, well-drained soil.	Full sun	LSP-F	36"-48" wide

Adorns itself with vivid red blooms with cream swirled accents near the center of the bloom for a dramatic display against the glossy deep green foliage. Large showy blooms are 6"-7" in diameter!

Hibiscus rosa-sinensis 'Sunny Wind'	Tropical Hibiscus; Chinese Hibiscus	Brilliant yellow and scarlet	2'-3' tall
Rich, moist, well-drained soil.	Full sun	SP-EF	12"-18" wide

Brilliant yellow flowers with scarlet star-like eyes are held atop deep green foliage.

Hibiscus rosa-sinensis 'Tye-Dye Wind'	Tropical Hibiscus; Chinese Hibiscus	Pink and lavender	2'-3' tall
Rich, moist, well-drained soil.	Full sun	SP-EF	12"-18" wide

Pink flowers with splashes of lavender that lend a tye-dyed appearance! Large, 5 1/2" to 6" wide flowers atop glossy green foliage. Compact plant habit, excellent blooming and budding uniformity.

Hibiscus, species acetosella 'Mahogany Splendor'	False Roselle, African Rose Mallow	Burgundy-rose	3'-5' tall
Rich, moist, well-drained soil.	Part to full sun	SP-EF	2'-3' wide

Prairie Star

An attractive accent plant that features deep burgundy, maple-shaped leaves with serrated edges that are similar to a Japanese Maple! Used as a backdrop plant in home landscapes, the dark foliage helps the plants in front of it really pop. Ideal for landscapes, this drought and heat-resistant variety also makes a great "thriller" in mixed containers with other sun-loving plants. Deer resistant. Can also be grown as a bog plant in the water garden! The foliage will have green or rusty red tones in the greenhouse, but it will mature to burgundy in full sun outdoors.

Hypoestes 'Pink Splash'	Polka-Dot Plant		18" tall
Moist, well-drained soil.	Part shade		8" wide

Pink and green variegated foliage.

Annual Flower/Foliage

Impatiens 'Dazzler Orange'

Busy Lizzie; Patience Plant

Orange

8"-11" tall

Rich, moist, well-drained soil.

Part to full shade

SP-F

10"-15" wide

Masses of large orange flowers.

Impatiens 'Dazzler Violet'

Busy Lizzie; Patience Plant

Violet

8"-11" tall

Rich, moist, well-drained soil.

Part to full shade

SP-F

10"-15" wide

Masses of large violet flowers.

Impatiens 'Impreza Blue Pearl'

Busy Lizzie; Patience Plant

Lavender-blue w/ darker eye

6"-8" tall

Rich, moist, well-drained soil.

Part to full shade

SP-F

12"-14" wide

This series features compact, easy-to-manage plants that provide good soil coverage with less upward stretch. They will create a nice, uniform carpet of color in your landscape! Lavender-blue flowers with a darker eye.

Impatiens 'Impreza Cherry Splash'

Busy Lizzie; Patience Plant

Blush with cherry eye

6"-8" tall

Rich, moist, well-drained soil.

Part to full shade

SP-F

12"-14" wide

This series features compact, easy-to-manage plants that provide good soil coverage with less upward stretch. They will create a nice, uniform carpet of color in your landscape! Blush flowers with a cherry eye.

Impatiens 'Impreza Formula Mix'

Busy Lizzie; Patience Plant

Red, rose, salmon, violet, white, pink,
lavender-blue

6"-8" tall

Rich, moist, well-drained soil.

Part to full shade

SP-F

12"-14" wide

This series features compact, easy-to-manage plants that provide good soil coverage with less upward stretch. They will create a nice, uniform carpet of color in your landscape! Mix of red, rose, salmon, violet, white, pink, and lavender-blue.

Impatiens 'Impreza Intense Mixture'

Busy Lizzie; Patience Plant

Punch, red, and violet

6"-8" tall

Rich, moist, well-drained soil.

Part to full shade

SP-F

12"-14" wide

This series features compact, easy-to-manage plants that provide good soil coverage with less upward stretch. They will create a nice, uniform carpet of color in your landscape! Mix of punch, red, and violet.

Impatiens 'Impreza Pink'

Busy Lizzie; Patience Plant

Deep pink

6"-8" tall

Rich, moist, well-drained soil.

Part to full shade

SP-F

12"-14" wide

This series features compact, easy-to-manage plants that provide good soil coverage with less upward stretch. They will create a nice, uniform carpet of color in your landscape! Deep pink flowers.

Impatiens 'Impreza Punch'

Busy Lizzie; Patience Plant

Magenta

6"-8" tall

Rich, moist, well-drained soil.

Part to full shade

SP-F

12"-14" wide

This series features compact, easy-to-manage plants that provide good soil coverage with less upward stretch. They will create a nice, uniform carpet of color in your landscape! Bright magenta flowers.

Busy Lizzie; Patience Plant

Dark salmon

6"-8" tall

Rich, moist, well-drained soil.

Part to full shade

SP-F

12"-14" wide

This series features compact, easy-to-manage plants that provide good soil coverage with less upward stretch. They will create a nice, uniform carpet of color in your landscape! Dark salmon flowers.

Impatiens 'Impreza White'

Busy Lizzie; Patience Plant

Pure white

6"-8" tall

Rich, moist, well-drained soil.

Part to full shade

SP-F

12"-14" wide

This series features compact, easy-to-manage plants that provide good soil coverage with less upward stretch. They will create a nice, uniform carpet of color in your landscape! Pure white flowers.

Impatiens 'Stardust Mix'

Busy Lizzie; Patience Plant

Mix

8"-10" tall

Rich, moist, well-drained soil.

Part to full shade

SP-F

10" wide

Rose, violet, salmon, and raspberry flowers have a stardust pattern.

Impatiens, cross 'Big Bounce Cherry'

Busy Lizzie; Patience Plant

Cherry

20"-30" tall

Rich, moist, well-drained soil.

Part to full sun

SP-F

20"-36" wide

Masses of large blooms atop disease-resistant plants (resistant to downy mildew). Big, bright, flowers are self-cleaning. Plants tolerate heat and humidity! Flowers are borne on strong sturdy stems that "bounce back" big after a missed watering or dry spell! Best flowering is in part to full sun. It will grow in full shade, but the flower quantity will be diminished.

Impatiens, cross 'Big Bounce Lavender'

Busy Lizzie; Patience Plant

Lavender

20"-30" tall

Rich, moist, well-drained soil.

Part to full sun

Impatiens, New Guinea Pink/Rose 'Infinity Electric Cherry'	Busy Lizzie; Patience Plant	Cherry pink	1'-2' tall
Rich, moist, well-drained soil.	Part to full shade	SP-EF	1'-2' wide

Large, cherry pink flowers with a shiny iridescent glow that contrasts beautifully with the bright green foliage. A great thriller for your baskets, containers, and landscapes.

Impatiens, SunPatians 'SunPatians Compact Electric Orange'	Busy Lizzie; Patience Plant	Brilliant orange	18"-24" in containers; 2'-3' in the garden tall
Rich, moist, well-drained soil.	Part to full sun	SP-F	18"-24" wide in containers; 2'-3' wide in the garden

2" to 3" wide brilliant orange flowers. Tried at the Dallas Arboretum, a research site known for its intense heat and humidity, they were planted in a full sun location. According to Jimmy Turner, Director of Research at the Dallas Arboretum, the "SunPatians not only survived the heat, they looked good doing it!" Following are excerpts of Turner's report on SunPatians. SunPatians are a hybrid of Impatiens walleriana (regular Impatiens) and Impatiens hawkeri (New Guinea Impatiens). If you look closely at the plants, you can see traits of each parent: the flower size is somewhere between both and the leaves and flowers are somewhat thicker than normal impatiens. The noticeable improvement are the robust, thick, branching and stems! Grow SunPatians in areas with full sun all day, or at least full sun all afternoon. In shady areas, stick with traditional impatiens (they are more floriferous). Just like other impatiens, they do require quite a bit of watering... but a trick to keep impatiens shorter and flower more is this: let them wilt between waterings (let the branch tips hang down). Since all impatiens are native to the equator, they are used to only two seasons, hot/wet and hot/dry. If you allow them to dry out a bit between waterings, they kick into reproductive mode and will flower much heavier for you! If SunPatians get too tall or big for you, just give them a trim, and they pop right back out.

Annual Flower/Foliage

Annual Flower/Foliage

Isotoma (Laurentia) axillaris 'Starshine Blue'

Star Flower

Lavender-blue

8"-12" tall

Rich, moist, well-drained soil.

Part to full sun

SP-F

12"-18" wide

Uniformly mounded, vigorously flowering plants. Frilly mats of delicate green foliage bursts into color by mid summer with 1" wide star-shaped lavender-blue blooms! The five-petaled flowers resemble fluttering butterflies. The blooms fill the air with a gentle fragrance. A wonderful, much underused plant! One you try it, you will wonder why you have not tried it before! Perfect for hanging baskets and containers, or as a low growing carpet of color!

Jasmine Confederate (Trachelospermum)

Trachelospermum jasminoides,
Confederate or Star Jasmine

Pure white

1'-3' tall

Rich, moist, well-drained soil.

Full sun

SP-W

8"-16" wide

Trachelospermum jasminoides; Confederate or Star Jasmine; Very fragrant blooms all summer long; excellent for baskets and containers.

Jasmine jasminoides 'Madison' (Trachelospermum)

Trachelospermum jasminoides,
Confederate or Star Jasmine

Pure white

1'+ tall

NEW Rich, moist, well-drained soil.

Part to full sun

LSP-W

1"+ wide

A slightly more cold hardy form of the popular climbing or spreading Star Jasmine. Lustrous green leaves are highlighted by clusters of incredibly fragrant white flowers. Performs well in mixed borders, or as a clipped or informal groundcover. Beautifully cloaks a trellis, arbor, or fence if given support.

Jasmine sambac 'Maid of Orleans' (Jasminum)

Jasminum sambac

Pure white

1' tall

Rich, moist, well-drained soil.

Part to full sun

SP-W

1' wide

1" to 2" wide, waxy, snow white double flowers are intensely fragrant and look like miniature roses. The bushy, shrubby plants have large, bright green leaves and are great for containers. Makes an excellent houseplant as well. The flowers are used in perfumes. The dried flowers are used by the Chinese in teas. Hawaiians use the flowers in leis. The flowers are used in garlands in India.

Lantana, Trailing 'Samantha'

Shrub Verbena

Bright yellow

8"-24" tall

Rich, moist, well-drained soil.

Full sun

SP-F

3' wide

Bright yellow flowers; semi-trailing yellow and green variegated foliage.

Lantana, Upright 'Landmark Citrus'

Shrub Verbena

Peachy apricot and lemon

15"-32" tall

Rich, moist, well-drained soil.

Full sun

LSP-LF

18"-36" wide

Prairie Star

This vigorous Lantana forms large mounds covered in bicolored peachy apricot and lemon blooms, attracting butterflies and hummingbirds. Dark green, healthy foliage and a robust, spreading and mounding habit along with continuous flowering. Very drought tolerant and oblivious to heat. Deer resistant, too. A great choice for containers and flower beds.

Lantana, Upright 'Little Lucky Orange'

Shrub Verbena

Tangerine orange and yellow

10"-12" tall

Rich, moist, well-drained soil.

Full sun

SP-F

10"-12" wide

Bright clusters of tangerine orange and yellow flowers atop dark green foliage. Nice small habit, perfect for smaller containers or to use as a filler!

Lantana, Upright 'Lucky Flame Improved'

Shrub Verbena

Red, orange, and yellow

12"-20" tall

Rich, moist, well-drained soil.

Full sun

SP-F

12"-20" wide

A blend of fire engine red, orange, and yellow florets. Uniform, mounding habit. Prairie Star Award Winner.

Annual Flower/Foliage

Lantana, Upright 'Lucky Flame Improved'

Shrub Verbena

Red, orange, and yellow

12"-20" tall

Rich, moist, well-drained soil.

Full sun

SP-F

12"-20" wide

A blend of fire engine red, orange, and yellow florets. Uniform, mounding habit. Prairie Star Award Winner.

Lantana, Upright 'Lucky Lavender'

Shrub Verbena

Creamy yellow to lavender-pink

12"-20" tall

Rich, moist, well-drained soil.

Full sun

SP-F

12"-20" wide

Eye-catching bicolor pattern with bright lemon and creamy lemon florets in the center and creamy lavender-pink florets around the edge! Uniform, mounding habit. Loves the heat!

Lantana, Upright 'Lucky Lemon Glow'

Shrub Verbena

White and bright lemon

12"-20" tall

Rich, moist, well-drained soil.

Full sun

SP-F

12"-20" wide

Eye-catching bicolor pattern with bright lemon florets in the center and creamy yellow-blushed white florets around the edge! Uniform, mounding habit. Loves the heat!

Lantana, Upright 'Lucky Sunrise Rose'

Shrub Verbena

Violet, rose, and yellow

15"-20" tall

Rich, moist, well-drained soil.

Full sun

SP-F

15"-20" wide

The unique flowers have rich violet and deep rose outer florets surrounding yellow center florets; not to be missed! Formerly named 'Landmark Sunrise Rose'. Prairie Star Award Winner.

Lantana, Upright 'Red Butler'

Shrub Verbena

Scarlet-red

2' tall

Rich, moist, well-drained soil.

Full sun

SP-F

18"-24" wide

Scarlet-red flowers; nice spreading habit.

Lisianthus 'ABC 2 Purple' ('Balboa Purple')

Eustoma grandiflorum

Rich purple

36"-45" tall

Well-drained soil.

Full sun

SU

1' wide

Fully double rich purple flowers; excellent cutflower; formerly named 'Balboa Purple'.

Lisianthus 'ABC 2-3 Blue Rim' ('Balboa Blue Rim')

Eustoma grandiflorum

White and purple

36"-45" tall

Well-drained soil.

Full sun

SU

1' wide

Fully double white flowers are broadly margined with rich purple; excellent cutflower; formerly named 'Balboa Blue Rim'.

Lisianthus 'Forever Blue'

Eustoma grandiflorum

Rich blue

10"-12" tall

Well-drained soil.

Full sun

SU

1' wide

Single rich blue flowers on well-branched plants; keeps its great color even in hot, sunny weather; AAS Winner.

Lisianthus 'Mariachi Lime Green'

Eustoma grandiflorum

Lime green

20"-36" tall

Well-drained soil.

Full sun

SU

8"-12" wide

Quadruple lime green flowers are 3" to 3½" across; strong stems; excellent cutflower.

Annual Flower/Foliage

Lisianthus 'Mariachi Pink'

Eustoma grandiflorum

Pink

20"-36" tall

Well-drained soil.

Full sun

SU

8"-12" wide

Quadruple pink flowers are 3" to 3½" across; strong stems; excellent cutflower.

Lisianthus 'Mariachi Pure White'

Eustoma grandiflorum

Pure white

20"-36" tall

Well-drained soil.

Full sun

SU

8"-12" wide

Quadruple pure white flowers are 3" to 3½" across; strong stems; excellent cutflower.

Lobelia 'Bella Acqua'

Lobelia erinus

Aqua blue and white

6" tall ,10" wide

Deep, rich, moist, well-drained soil.

Part to Full shade

MSP-F

Dainty aqua bluish-green flowers with white eyes at the ends of the stems. Tiny narrow green leaves on trailing plants that spill over the edges of baskets and containers. Reported to be quite heat tolerant.

Lobelia 'Bella Bianca'

Lobelia erinus

Pure white

6" tall ,10" wide

Deep, rich, moist, well-drained soil.

Part to Full shade

MSP-F

Dainty pure flowers at the ends of the stems. Tiny narrow green leaves on trailing plants that spill over the edges of baskets and containers. Reported to be quite heat tolerant.

Lobelia 'Bella Donna'

Lobelia erinus

Lavender-blue and white

6" tall ,10" wide

Deep, rich, moist, well-drained soil.

Part to Full shade

MSP-F

Dainty lavender-blue flowers with white eyes at the ends of the stems. Tiny narrow green leaves on trailing plants that spill over the edges of baskets and containers. Reported to be quite heat tolerant.

Lobelia, Trailing 'Regatta Midnight Blue'

Lobelia erinus

Dark blue

4"-6" tall

Deep, rich, moist, well-drained soil.

Part to Full shade

SP-ESU & F

6" wide

Dark blue flowers atop bronze foliage.

Lobelia, Trailing 'Regatta Sapphire'

Lobelia erinus

Sapphire blue

4"-6" tall

Deep, rich, moist, well-drained soil.

Part to Full shade

SP-ESU & F

6" wide

Sapphire blue flowers with white eyes; bronze foliage.

Lobelia, Upright 'Riviera Sky Blue'

Lobelia erinus

Light sky blue

3"-4" tall

Deep, rich, moist, well-drained soil.

Part to Full shade

SP-ESU & F

8"-12" wide

Light sky blue flowers; an early bloomer.

Annual Flower/Foliage

Lobularia 'Clear Crystals Mix'

Alyssum

Mix

6"-10" tall

Moist, well-drained soil.

Part to full sun

SP-F

12"-14" wide

This exciting tetraploid alyssum has more vigorous plants and fragrant, larger size flowers! Very showy, it exhibits more heat tolerance than other seed grown varieties. A mix of lavender shades, purple shades, and white, creating a mix with colors similar to those in 'Easter Bonnet Mix'.

Lobularia 'Clear Crystals Purple Shades'

Alyssum

Purple and violet shades

6"-10" tall

Moist, well-drained soil.

Part to full sun

SP-F

12"-14" wide

This exciting tetraploid alyssum has more vigorous plants and fragrant, larger size flowers! Very showy, it exhibits more heat tolerance than other seed grown varieties. Shades of purple and violet florets. The color will be lighter under warm temperatures, especially warmer nights.

Lobularia 'Giga White'

Alyssum

Pure white

4"-6" tall

Moist, well-drained soil.

Part to full sun

SP-F

12"-14" wide

Prairie Star

This tetraploid alyssum has proven itself in trials across the US! It has incredible heat tolerance, a dense, well-branched, mounded habit, and large, fragrant florets!

Lobularia 'Lavender Stream'

Alyssum

Lavender shades

8"-12" tall

Moist, well-drained soil.

Part to full sun

SP-F

8"-12" wide

This is a very floriferous, ball-shaped plant, with a wonderful honey fragrance! The rich lavender shade of the flowers turns even darker during cooler temperatures. Has a superior growth habit with excellent controlled vigor. It "plays well" with other plants and does not overgrow other plants in a border.

Lobularia 'North Face'

Alyssum

Pure white

5"-6" tall

NEW Moist, well-drained soil.

Part to full sun

SP-F

12"-15" wide

This tetraploid (twice the number of chromosomes) Alyssum has a wonderful cascading habit, making it ideal as a hanging basket or container filler or in the garden border. The larger, pure white flowers, better branching habit, and improved vigor result in a better showing in the landscape.

Lobularia 'Raspberry Stream'

Alyssum

Vivid pink shades

8"-12" tall

NEW Moist, well-drained soil.

Part to full sun

SP-F

8"-12" wide

This is a very floriferous, ball-shaped plant. The 2" to 3" wide clusters have a wonderful honey fragrance! The vivid pink shade of the flowers turns even darker during cooler temperatures. Has a superior growth habit with excellent controlled vigor. It "plays well" with other plants and does not overgrow other plants in a border.

Lobularia 'White Stream'

Alyssum

White

8"-12" tall

Moist, well-drained soil.

Full sun

LSP-F

12"-15" wide

Forms a perfect ball-shaped plant with panicles of fragrant flowers. It is blanketed in stunning, dainty clusters of white flowers with a sweet honey fragrance. This heat lover grows fast and displays profuse clouds of dainty white flower cushions.

Lobularia 'White Stream'

Alyssum

White

8"-12" tall

Moist, well-drained soil.

Full sun

LSP-F

12"-15" wide

Forms a perfect ball-shaped plant with panicles of fragrant flowers. It is blanketed in stunning, dainty clusters of white flowers with a sweet honey fragrance. This heat lover grows fast and displays profuse clouds of dainty white flower cushions.

Annual Flower/Foliage

Lysimachia congestiflora 'Persian Chocolate'

Persian Chocolate Moneywort

Golden yellow

5" tall ,2'-3' wide

Moist, well-drained soil.

Part to full sun

LSP

Beautiful deep purple leaves on spreading plants. 1/2" wide, open golden yellow bells appear in clusters at the tips of the branches in late spring. Ground cover like habit makes it perfect for the edge of borders or in containers. Very heat tolerant. The foliage will be darker in full sun.

Manihot esculenta (Variegated Tapioca Plant)

Variegated Tapioca Plant

3'-6' tall

Moist, well-drained soil.

Part to full sun

2'-4' wide

An stunning tropical with colorful, deeply lobed, palmate leaves of buttery yellow, irregularly margined in bright green. Bright carmine-red petioles and stems provide a nice contrast to the foliage. A great plant for large containers or the landscape. Very heat tolerant.

Marigold, African 'Inca II Gold'

Tagetes erecta

Bright gold

12"-22" tall

Moist, well-drained soil.

Full sun

LSP-F

12"-16" wide

4" to 5" double bright gold flowers; free flowering.

Marigold, African 'Inca II Mix'

Tagetes erecta

Mix

12"-22" tall

Moist, well-drained soil.

Full sun

LSP-F

12"-16" wide

4" to 5" double blooms in a mix of gold, orange, primrose, and yellow.

Marigold, African 'Inca II Orange'

Tagetes erecta

Bright orange

12"-22" tall

Moist, well-drained soil.

Full sun

LSP-F

12"-16" wide

4" to 5" double bright orange flowers; free flowering.

Marigold, African 'Inca II Yellow'

Tagetes erecta

Bright yellow

12"-22" tall

Moist, well-drained soil.

Full sun

LSP-F

12"-16" wide

Prairie Star

4" to 5" double bright yellow flowers; free flowering; Prairie Star.

Marigold, African 'Sweet Cream'

Tagetes erecta

Creamy white

16" tall

Moist, well-drained soil.

Full sun

LSP-F

12"-15" wide

2½" to 3" double creamy white flowers; compact plants.

Marigold, French 'Alumia Deep Orange'

Tagetes patula, tagetes signata pumila,
and tagetes tenuifolia

Bright tangerine

12"-14" tall

Moist, well-drained soil.

Full sun

LSP-F

10"-12" wide

The breeder, David Lemon, invested 50 years of experience in creating this large flowered, strong-stemmed, anemone-flowered marigold! 2" to 2 1/2" wide bright tangerine flowers face straight up, giving you the maximum show of color in the garden and in containers!

Annual Flower/Foliage

Marigold, French 'Alumia Vanilla Cream'

Tagetes patula, tagetes signata pumila, and tagetes tenuifolia

Creamy lemon

12"-14" tall

Moist, well-drained soil.

Full sun

LSP-F

10"-12" wide

The breeder, David Lemon, invested 50 years of experience in creating this large flowered, strong-stemmed, anemone-flowered marigold! 2" to 2 1/2" wide flowers in a never before seen hue of pale primrose-yellow in the central cluster of petals, surrounded by lighter cream petals. The flowers face straight up, giving you the maximum show of color in the garden and in containers!

Marigold, French 'Disco Orange'

Tagetes patula, tagetes signata pumila, and tagetes tenuifolia

Bright orange

12"-21" tall

Moist, well-drained soil.

Full sun

SP-F

10"-16" wide

Prairie Star

2" to 2 1/2" wide single bright orange flowers.

Marigold, French 'Disco Red'

Tagetes patula, tagetes signata pumila, and tagetes tenuifolia

Deep red-bronze

12"-21" tall

Moist, well-drained soil.

Full sun

SP-F

10"-16" wide

Prairie Star

2" to 2 1/2" single deep red-bronze flowers with cheery yellow centers.

Marigold, French 'Disco Yellow'

Tagetes patula, tagetes signata pumila, and tagetes tenuifolia

Bright orange

12"-21" tall

Moist, well-drained soil.

Full sun

LSP-F

10"-16" wide

Prairie Star

2" to 2 1/2" single bright orange flowers.

Marigold, French 'Janie Bright Yellow'

Tagetes patula, tagetes signata pumila, and tagetes tenuifolia

Bright yellow

8"-10" tall

Moist, well-drained soil.

Full sun

LSP-F

1' wide

2" bright yellow double blooms.

Marigold, French 'Janie Deep Orange'

Tagetes patula, tagetes signata pumila, and tagetes tenuifolia

Deep orange

8"-10" tall

Moist, well-drained soil.

Full sun

LSP-F

1' wide

2" deep orange double blooms.

Marigold, French 'Janie Flame'

Tagetes patula, tagetes signata pumila, and tagetes tenuifolia

Red and gold

8"-10" tall

Moist, well-drained soil.

Full sun

LSP-F

1' wide

2" red and gold double blooms.

Marigold, French 'Janie Mix'

Tagetes patula, tagetes signata pumila, and tagetes tenuifolia

Mix

8"-10" tall

Moist, well-drained soil.

Full sun

LSP-F

1' wide

2" flowers in a mix of several colors.

Annual Flower/Foliage

Marigold, French 'Lemon Gem'	Tagetes patula, tagetes signata pumila, and tagetes tenuifolia	Bright yellow	1' tall
Moist, well-drained soil.	Full sun	LSP-F	1' wide

Signet Marigold; Tiny bright yellow flowers atop finely-cut, fragrant foliage.

Marigold, French 'Safari Yellow Fire'	Tagetes patula, tagetes signata pumila, and tagetes tenuifolia	Yel & mahogany	10"-22" tall
Moist, well-drained soil.	Full sun	LSP-F	12"-20" wide

Prairie Star

2½" double flowers have yellow petals with mahogany-red markings; the individual petals look a bit like pieces of candy corn!

Mecardonia 'Magic Carpet'	Axilflower; Baby Jump Up	Bright lemon yellow	4"-6" tall
Moist, well-drained soil.	Part to full sun	LSP-F	14"-18" wide

A tough, durable, low growing plant that is loaded with a continuous supply of bright yellow flowers all season. Semi-mounding habit. Because it is both frost and heat tolerant, it is an ideal season extender, useful for spring, summer, and fall containers! Extremely heat tolerant!

Melampodium 'Golden Globe'	Gold Medallion Flower, Butter Daisy, Star Daisy	Dp golden yellow	6"-10" tall
Moist, well-drained soil.	Full sun	LSP-F	8"-12" wide

An abundance of showy, star-shaped flowers in the deepest golden yellow color atop rich green foliage; blooms all summer long in the heat and humidity; compact, uniform, and globe-shaped plants; great for flower beds and containers.

Melampodium 'Showstar'	Gold Medallion Flower, Butter Daisy, Star Daisy	Yellow	14"-22" tall
Moist, well-drained soil.	Full sun	LSP-F	10"-27" wide

Prairie Star

Star-shaped yellow blooms; bushy plants; grows and blooms very well in our hot, humid summers; Prairie Star.

Melianthus major	Honey Bush; Peanut Butter Plant	Mahogany	6'-10' tall
Moist, well-drained soil.	Full sun	second SU	2'-3' wide

A stunning foliage plant from South Africa with large blue-gray lobed leaves with coarsely serrated edges. Deeply folded down the midrib, these glaucous leaves pick up the morning dew, which creates a jeweled effect. When the leaves are bruised, a faint peanut butter-like fragrance can be smelled. If brought inside for the winter, mahogany flowers may appear the second summer. Great in combination with Verbena bonariensis.

Musa acuminata 'Siam Ruby'	Banana	Yellow	6'-10' tall
Rich, moist, well-drained soil.	Full sun	SU	3'-6' wide

Unlike any other ornamental Banana! Bright ruby red foliage is splattered with tiny flecks of lime green (and occasional pink and white flecks)! As each leaf unfurls from the claret stems, there is a surprising new pattern variation. The more sun, the more intense the color. Loves intense heat and humidity! This standout lends tropical flair to the garden without overwhelming it. Magnificent in large pots underplanted with smaller complementary foliage and flowering plants. Needs moist, rich, very well-drained soil. Dazzling and stunning!

Annual Flower/Foliage

Musa basjoo	Japanese Fiber Banana	Golden yellow	5'-16' tall
NEW Rich, moist, well-drained soil.	Part to full sun	SU	3'-10' wide

Imagine growing tropical bananas in your outdoor garden! With this Hardy Banana, you'll get a defining tropical look. With proper mulching in the fall, it can withstand temperatures below zero! This extremely vigorous banana grows many feet in a season and in time (if over wintered), forms large clumps that can reach up to 16' tall! Once established, it can grow an amazing 2 feet per week! Giant, bright green leaves that measure up to 6' long! Also great in large containers! In summer, small golden yellow blooms are grown in long clusters. Although it does produce bananas, they are inedible. Best grown in part sun and where protected from strong wind.

Nasturtium 'Alaska Mix'	Tropaeolum majus	Mix	10" tall ,10" wide
Lean, moist, well-drained soil.	Full sun	LSP-F	

Green leaves are highly marbled in ivory. Mix of gold, salmon, and scarlet 2" to 2 1/2" wide flowers.

Nasturtium 'Empress of India'	Tropaeolum majus	Vermillion orange	1' tall
Lean, moist, well-drained soil.	Full sun	LSP-F	10" wide

Deep purple, nearly blue foliage contrasts with sizzling vermillion-orange blooms; compact plants.

Nicotiana 'Perfume Deep Purple'	Flowering Tobacco	Dark, velvety purple	16"-20" tall
Moist, well-drained soil.	Part to full sun	LSP-EF	15"-18" wide

Free-flowering and easy to grow, producing masses of color on uniform plants that are a natural for landscaping and containers. Dark, velvety purple, upward-facing 2" blooms are heavily scented and are held well above the foliage for maximum display. AAS Winner!

Nicotiana 'Starmaker Bright Red'	Flowering Tobacco	Bright, deep red	1' tall
Moist, well-drained soil.	Part to full sun	LSP-EF	

1" to 2" wide, star-shaped flowers of bright, deep red. The plants have a uniform, compact habit. These brightly colored heat lovers put on a season long show! Great in the landscape and in containers. Loved by hummingbirds!

Nicotiana 'Starmaker Bright Red'	Flowering Tobacco	Bright, deep red	1' tall
Moist, well-drained soil.	Part to full sun	LSP-EF	

1" to 2" wide, star-shaped flowers of bright, deep red. The plants have a uniform, compact habit. These brightly colored heat lovers put on a season long show! Great in the landscape and in containers. Loved by hummingbirds!

Nicotiana 'Starmaker Mix'	Flowering Tobacco	Mix	1' tall
Moist, well-drained soil.	Part to full sun	LSP-EF	

1" to 2" wide, star-shaped flowers in a mix of appleblossom, red, lime, lime and purple bicolor, pink picotee, rose, and white. The plants have a uniform, compact habit. These brightly colored heat lovers put on a season long show! Great in the landscape and in containers. Loved by hummingbirds!

Nicotiana 'Starmaker Rose Morn'	Flowering Tobacco	Rose and white	1' tall
Moist, well-drained soil.	Part to full sun	LSP-EF	

1" to 2" wide, star-shaped flowers are a bicolor of rose and white. The plants have a uniform, compact habit. These brightly colored heat lovers put on a season long show! Great in the landscape and in containers. Loved by hummingbirds!

Annual Flower/Foliage

Nicotiana glauca	Flowering Tobacco	Pure white	3'-6' tall
Moist, well-drained soil.	Part to full sun	SU-EF	24"-30" wide
Peace Pipe; Only The Lonely; Clusters of 3" long white flowers have a rich, powerful evening fragrance; attracts hummingbirds and hawk moths; great accent plant; reseeds.			

Nierembergia 'Robe Purple'	Cup Flower	Purple to blue	8" tall
Well-drained soil.	Part to Full sun	SP-F	8"-12" wide
Lovely blue-purple flowers gradually lighten to sky blue; needle-like green foliage.			

Opismenus hirtellus 'Variegatus'	Basket Grass; Dragonfly Basket Grass	White	2"-8" tall
Moist, well-drained soil.	Full sun to full shade	SU-W	18"-24" wide
Resembles a mint green Bridal Veil with pink and white stripes, but it is actually a grass from Victorian times! Small white flowers from summer to winter are insignificant. A wonderful trailing plant for containers and baskets. Branches thickly and will trail up to 2'! Syn. O. africanus.			

Osteospermum 'Akila Purple'	African Daisy; Blue Eyed Daisy; Freeway Daisy	Dark purple	16"-20" tall
Light, well-drained soil.	Full sun	ESP-ESU & F	16"-20" wide
Full, well-branched plants are great in containers and in the landscape! Beautiful, dark eyed daisy flowers to 3" wide! Flowers open silver and mature to a vibrant violet-mauve with a dark purple ring around the dark eye. Plants are drought tolerant once established. Blooms from late March through early summer. Flowering slows down in the heat of summer, and may stop completely based on temperature (when temps are consistently over 95 degrees F).			

Osteospermum 'Blue Eyed Beauty'	African Daisy; Blue Eyed Daisy; Freeway Daisy	Butter yellow and violet-blue	10"-14" tall
Light, well-drained soil.	Full sun	ESP-F	14"-20" wide
Buttery yellow blooms with a contrasting violet-blue eye smother this stocky little African Daisy from mid spring to early summer. Its compact, branching habit is perfect for filling beds and containers. Like other Osteos, the blooms will diminish in the heat of the summer, but if the plants are maintained, they will resume blooming in late summer to fall.			

Osteospermum 'Orange Symphony'	African Daisy; Blue Eyed Daisy; Freeway Daisy	Orange-peach	8"-12" tall
Light, well-drained soil.	Full sun	ESP-F	12"-14" wide
Vibrant orange-peach flowers with dark eyes; blooms even in hot weather; compact habit; great in containers.			

Osteospermum 'Voltage White'	African Daisy; Blue Eyed Daisy; Freeway Daisy		12"-18" tall
Light, well-drained soil.	Full sun	ESP-F	14"-20" wide
Grow 'Voltage White' in any climate – it's on par with popular Osteo 'Voltage Yellow'! Strong and weather-tolerant, it tolerates rain and cold and blooms even through the heat of the summer! Cheery white daisy blooms are striking even in bud, with the yellow undersides of the petals!			

Osteospermum 'Voltage Yellow'	African Daisy; Blue Eyed Daisy; Freeway Daisy	Clear, bright yellow	10"-16" tall
Light, well-drained soil.	Full sun	ESP-F	24"-28" wide
Incredibly vibrant, 2" to 3" wide clear, bright yellow daisies. Blooms early and continues to bloom in 90 degree heat! More heat tolerant than other varieties, but it still likely will not bloom all summer long. Well-branched, low, spreading plants are naturally full and compact. Electrifies baskets, containers, and landscapes!			

Annual Flower/Foliage

Osteospermum 'Voltage Yellow'

African Daisy; Blue Eyed Daisy; Freeway Daisy Clear, bright yellow

10"-16" tall

Light, well-drained soil.

Full sun

ESP-F

24"-28" wide

Incredibly vibrant, 2" to 3" wide clear, bright yellow daisies. Blooms early and continues to bloom in 90 degree heat! More heat tolerant than other varieties, but it still likely will not bloom all summer long. Well-branched, low, spreading plants are naturally full and compact. Electrifies baskets, containers, and landscapes!

Oxalis triangularis

Shamrock; Sorrel Pale lilac

4"-10" tall

Rich, moist, well-drained soil.

6 Part to Full shade

SP-F

10" wide

Red Velvet Shamrock; Purple Shamrock; Scrumptious glowing black-purple foliage with a central vivid violet flame on each triangular leaflet; dainty pale lilac flowers shimmer above the foliage; a great houseplant; adds richness of composition in containers, or flair and drama to the border, especially when paired with chartreuse foliaged plants; syn. *O. regnellii* 'Atropurpurea'; if planted in the ground it may winter over as it is marginally hardy in zone 6.

Oxalis vulcanicola 'Molten Lava'

Shamrock; Sorrel Bright yellow

5"-7" tall

Rich, moist, well-drained soil.

Full sun to Full shade

SP-F

8"-10" wide

This vigorous little spreader delights with tiny bright yellow flowers and chartreuse colored foliage tinted with copper; tuck it in containers or at the edges of your garden; great for sunny or shady locations- the foliage will be more chartreuse in shade and more golden yellow in sun.

Oxalis vulcanicola 'Zinfandel'

Bright sunny yellow

6"-10" tall

Rich, moist, well-drained soil.

Part to full sun

ESU-LSU

10"-12" wide

An exotic beauty with extra dark bronzy purple leaves. The summer-long display of tiny, bright sunny yellow sterile blooms makes a bold contrast against the dark foliage. Its spreading habit makes it perfect for tucking into containers, where it will gently spill over the edge!

Palm Cycas revoluta (Sago Palm)

Sago Palm

to 10' tall

Part to full sun

to 8' wide

Not a true palm, this plant is a living fossil that is technically part conifer and part fern! A very desirable tropical plant, displaying a stout trunk and long leaves with many narrow stiff leaflets. The leaves of this palm-like tree form an open rosette. Great for large containers. Extremely slow growing.

Pansy 'Coolwave Berries N Cream Mix'

Purple and white mix

6"-8" tall

Cool, moist, well-drained soil.

Full sun

ESP-ESU & F

The 'Coolwaves' are like a pansy on steroids, trailing more than 2' from baskets, with larger leaves, wider flowers, and a bushier habit than most petunias! Easy to grow, spreading color for spring and fall! 'Coolwave' are spectacular spreading pansies, and are so outstanding that they deserve to carry the Wave brand name (of Petunia 'Wave' fame)! Superior overwintering performance- plant them in the fall, and they'll be among the first pansies to bloom again in the spring! A terrific spreading groundcover and a great spiller for mixed containers. Very well-branched, spreading plants have 1 1/2" to 2" wide flowers in a mix of purple and white shades.

Pansy 'Coolwave Blue Skies'

Sky blue

6"-8" tall

NEW Cool, moist, well-drained soil.

Full sun

SP-ESU & F

24"-30" wide

The 'Coolwaves' are like a pansy on steroids, trailing more than 2' from baskets, with larger leaves, wider flowers, and a bushier habit than most petunias! Easy to grow, spreading color for spring and fall! 'Coolwave' are spectacular spreading pansies, and are so outstanding that they deserve to carry the Wave brand name (of Petunia 'Wave' fame)! Superior over wintering performance- plant them in the fall, and they'll be among the first pansies to bloom again in the spring! A terrific spreading groundcover and a great spiller for mixed containers. Very well-branched, spreading plants have 1 1/2" to 2" wide pure sky blue flowers with golden centers and darker whiskers.

Annual Flower/Foliage

Pansy 'Coolwave Blueberry Swirl'

Blues, purples, and yellows

6"-8" tall

Cool, moist, well-drained soil.

Full sun

SP-ESU & F

24"-30" wide

SP-ESU & F

24"-30" wide

The 'Coolwaves' are like a pansy on steroids, trailing more than 2' from baskets, with larger leaves, wider flowers, and a bushier habit than most petunias! Easy to grow, spreading color for spring and fall! 'Coolwave' are spectacular spreading pansies, and are so outstanding that they deserve to carry the Wave brand name (of Petunia 'Wave' fame)! Superior overwintering performance- plant them in the fall, and they'll be among the first pansies to bloom again in the spring! A terrific spreading groundcover and a great spiller for mixed containers. Very well-branched, spreading plants have 1 1/2" to 2" wide lemony primrose flowers. The "surprise"? 3% of the plants produce flowers with purple caps! Intriguing and beautiful!

Pansy 'Coolwave Purple'

Deep purple

6"-8" tall

Cool, moist, well-drained soil.

Full sun

ESP-ESU & F

Pansy 'Frizzle Sizzle Mix Improved'

Mix

7" tall ,6" wide

Cool, moist, well-drained soil.

Full sun

SP-ESU & F

Delightful, 100% ruffled, 3" blooms on very early, compact and well-branched plants. Flowers come in a variety of colors- purple-blue, lavender, reddish rose, and yellow, all with blotched faces and some with darker veins in the petals.

Annual Flower/Foliage

Pansy 'Spring Matrix Blue'

Icy blue

8" tall ,8" wide

Cool, moist, well-drained soil.

Full sun

SP-ESU & F

The 'Spring Matrix' series features plants with a robust habit, better branching, and shorter flower stems. Flowers well under shorter days and cooler temperatures. The flowers have large, thick petals, which help prevent blooms from flopping over. Large, 3" to 3 1/2" wide icy blue flowers. The plants do not stretch in the heat.

Pansy 'Spring Matrix Daffodil Mix'

Orange, lemon, white, and yellow

8" tall ,8" wide

Cool, moist, well-drained soil.

Full sun

SP-ESU & F

The 'Spring Matrix' series features plants with a robust habit, better branching, and shorter flower stems. Flowers well under shorter days and cooler temperatures. The flowers have large, thick petals, which help prevent blooms from flopping over. Large, 3" to 3 1/2" wide flowers in a mix of orange, lemon, white, and yellow. The plants do not stretch in the heat.

Pansy 'Spring Matrix Deep Orange'

Vibrant orange

8" tall ,8" wide

Cool, moist, well-drained soil.

Full sun

SP-ESU & F

The 'Spring Matrix' series features plants with a robust habit, better branching, and shorter flower stems. Flowers well under shorter days and cooler temperatures. The flowers have large, thick petals, which help prevent blooms from flopping over. Large, 3" to 3 1/2" wide deep, vibrant orange flowers. The plants do not stretch in the heat.

Pansy 'Spring Matrix Midnight Glow'

Midnight, blue, and yellow

8" tall ,8" wide

Cool, moist, well-drained soil.

Full sun

SP-ESU & F

The 'Spring Matrix' series features plants with a robust habit, better branching, and shorter flower stems. Flowers well under shorter days and cooler temperatures. The flowers have large, thick petals, which help prevent blooms from flopping over. Large, 3" to 3 1/2" wide flowers are breathtaking- deep midnight purple flowers have a large sunny yellow blotch in the center, ringed an irregular margin of cobalt blue. Black whiskered faces are brushed on the yellow. The plants do not stretch in the heat.

Pansy 'Spring Matrix Purple'

Deep purple

8" tall ,8" wide

Cool, moist, well-drained soil.

Full sun

SP-ESU & F

The 'Spring Matrix' series features plants with a robust habit, better branching, and shorter flower stems. Flowers well under shorter days and cooler temperatures. Full sun

SP-ESU & F

18"-24" wide

Vigorous trailing pansies have classic, high-quality pansy flowers spilling out of containers and baskets! Deep purple flowers have intriguing paintbrushed blue and creamy blue centers.

Pansy 'Wonderfall Yellow w/ Red Wing'

Mahogany red and deep yellow

8"-10" tall

Cool, moist, well-drained soil.

Full sun

SP-ESU & F

18"-24" wide

Vigorous trailing pansies have classic, high-quality pansy flowers spilling out of containers and baskets! Deep yellow flowers have intriguing paintbrushed mahogany red edges and faces and mahogany red upper petals.

Pechora (Petunia x Calibrachoa) 'SuperCal Light Yellow'

Petunia x Calibrachoa

Pastel yellow

6"-12" tall

NEW Light, well-drained, acidic soil.

Full sun

MSP-MF

14"-20" wide

This cross of Petunia and Calibrachoa has resulted in the best traits of each of its parents: strong vigor, exceptional flower power, lush foliage, dependable performance, and a unique color- pastel yellow! 2" wide flowers have slightly darker veins and throats. SuperCal' has a much better pH tolerance than does Calibrachoa, and the leaves do not have the sticky residue like Petunias! The plants also have excellent disease tolerance and outstanding performance in all types of weather extremes! Great for landscapes, containers, and baskets.

Penstemon hartwegii 'Phoenix Red'

Beardtongue

Cherry red and white

18"-22" tall

Must have well-drained soil.

Part to Full sun

SP-F

12"-14" wide

Spikes of large, cherry red flowers with white throats; vigorous, upright growth habit; excellent heat tolerance, though it can also take near freezing temps!

Pentas 'Butterfly Deep Pink'

Star Cluster

Deep rose-pink

10"-18" tall

Rich, well-drained soil.

Full sun

SP-F

11"-13" wide

Vigorous, well-branched plants with large umbels of star-shaped deep rose-pink flowers with white eyes.

Pentas 'Butterfly Red'

Star Cluster

True dark red and white

12"-22" tall

Rich, well-drained soil.

Full sun

LSP-F

12"-16" wide

Vigorous, well-branched plants with large umbels of star-shaped true dark red flowers with white eyes.

Pentas 'Butterfly White'

Star Cluster

Pure white

12"-22" tall

Rich, well-drained soil.

Full sun

LSP-F

12"-16" wide

Vigorous, well-branched plants with large umbels of star-shaped pure white flowers.

Annual Flower/Foliage

Pentas 'New Look Red'	Star Cluster	True red	12"-14" tall
Rich, well-drained soil.	Full sun	LSP-F	
Self-branching, compact plants with clusters of true red flowers.			

Pentas 'New Look Violet'	Star Cluster	Violet	12"-14" tall
Rich, well-drained soil.	Full sun	LSP-F	
Self-branching, compact plants with clusters of violet flowers.			

Pentas 'Ruby Glow' / 'Ruby Red'	Star Cluster	Deep red	18"-24" tall
Rich, well-drained soil.	Full sun	SP-F	20" wide
Clusters of deep red star-shaped flowers atop deep green foliage; syn. 'Ruby Red'.			

Pentas 'Ruby Glow' / 'Ruby Red'	Star Cluster	Deep red	18"-24" tall
Rich, well-drained soil.	Full sun	SP-F	20" wide
Clusters of deep red star-shaped flowers atop deep green foliage; syn. 'Ruby Red'.			

Pentas 'Variegated Red' (syn. 'Stars and Stripes')	Star Cluster	Brilliant red	18"-24" tall
Rich, well-drained soil.	Full sun	SP-F	1' wide
Beautiful cream and light green variegated foliage with clusters of brilliant red star-shaped blooms; syn. 'Stars and Stripes'.			

Pepper, Ornamental 'Black Pearl'	Ornamental Pepper	White	14"-28" tall
Rich, moist, well-drained soil.	Full sun	SU	12"-16" wide
Prairie Star			

112 to 126 days to fruit. Where can you put a bold, black-leafed, black-fruited ornamental pepper? Everywhere! This unique variety looks marvelous in mixed containers and is the perfect backdrop in garden beds. Bushy, upright plants have a well-branched habit. Thrives in heat, humidity, and drought. The 1" to 1 1/2" long x 3/8" to 1/2" wide, shiny, round, slightly pointed, black fruits mature to dark red and have a fiery kick (they are edible, but very hot, so use with care!)! The young green leaves mature to glossy black with high light and heat- the more sunlight, the darker the leaves will be. Very vigorous plants love heat, humidity, and dry conditions. All America Selections Winner! Prairie Star Award Winner.

Pepper, Ornamental 'Chilly Chili'	Ornamental Pepper	White	9"-14" tall
Rich, moist, well-drained soil.	Full sun	SU	14"-17" wide
Prairie Star			

125 to 145 days to fruit; 2" to 2 1/2" long non-pungent blunt-nosed peppers mature from greenish yellow to orange, and finally to dark red; great for landscapes and containers; bushy plants; AAS Winner; Prairie Star.

Pepper, Ornamental 'Conga'	Ornamental Pepper	White	4"-6" tall
Rich, moist, well-drained soil.	Full sun	SU	10"-12" wide
Dark purple leaves with peppers that start out purple and mature to bright red. The cone-shaped peppers are borne in clusters and point straight up, like little rockets! A fabulous alternative to flowers, 'Conga' makes a great addition to combination planters.			

Annual Flower/Foliage

Pepper, Ornamental 'NuMex Easter'

Ornamental Pepper

White

8"-10" tall

Rich, moist, well-drained soil.

Full sun

SU

10" wide

Compact, well-branched, uniform plants display small clusters of 4 to 6 fruits on top of the plants. The little peppers range in color from lavender to light yellow, and then mature to light orange. The colors of the fruit resemble the pastel colors of Easter Eggs! 2014 AAS Winner!

Pepper, Ornamental 'Purple Flash'

Ornamental Pepper

White

1'-2' tall

Rich, moist, well-drained soil.

Full sun

SU

18"-21" wide

Prairie Star

110 to 140 days to fruit. Add some drama to your patio with 'Purple Flash'! Striking flashes of cream and bright purple foliage amongst the almost-black leaves, contrast with small, glossy and black, hot-to-the-taste fruit (the fruit is edible). Compact, mounded plants have a layered, scaffolding shape. Very heat-tolerant plants are perfect for mixed containers and landscapes.

Pepper, Ornamental Sangria'

Ornamental Pepper

White

10"-12" tall

Rich, moist, well-drained soil.

Full sun

SU

16"-18" wide

85 days to purple stage; 120 days to red. A profusion of decorative "child-safe" (i.e. not hot), upturned and tapered 2" to 3" long fruits make it ideal for flower beds in both public and residential areas. The peppers display every bright shade of orange, red, crimson, scarlet, magenta, lilac, and purple over a long, lovely summer season! The fruits are actually quite mild in flavor- no need to worry if a child gobbles one down impulsively- but boast the peppery scent of its more delectable cousin. Excellent, filling habit for landscapes and containers.

Perilla 'Magilla'

30" tall

Moist, well-drained soil.

Full sun to Full shade

20"-24" wide

Prairie Star

Striking large leaves of green, rosy red, and maroon; looks like a coleus; great for large containers and flower beds; Prairie Star.

Perilla 'Magilla'

30" tall

Moist, well-drained soil.

Full sun to Full shade

20"-24" wide

Prairie Star

Striking large leaves of green, rosy red, and maroon; looks like a coleus; great for large containers and flower beds; Prairie Star.

Petchoa (Petunia x Calibrachoa) 'SuperCal Blue'

Petunia x Calibrachoa

True blue

6"-12" tall

Light, well-drained, acidic soil.

Full sun

MSP-MF

14"-20" wide

This cross of Petunia and Calibrachoa has resulted in the best traits of each of its parents: strong vigor, exceptional flower power, lush foliage, dependable performance, and a unique color- true blue! 2" wide flowers. SuperCal' has a much better pH tolerance than does Calibrachoa, and the leaves do not have the sticky residue like Petunias! The plants also have excellent disease tolerance and outstanding performance in all types of weather extremes! Great for landscapes, containers, and baskets.

Petchoa (Petunia x Calibrachoa) 'SuperCal Grape'

Petunia x Calibrachoa

Vibrant grape

10"-12" tall

Light, well-drained, acidic soil.

Full sun

MSP-MF

10"-15" wide

This cross of Petunia and Calibrachoa has resulted in the best traits of each of its parents: strong vigor, exceptional flower power, lush foliage, dependable performance! 2" wide flowers are a unique velvety grape-purple with yellow throats. 'SuperCal' has a much better pH tolerance than does Calibrachoa, and the leaves do not have the sticky residue like Petunias! The plants also have excellent disease tolerance and outstanding performance in all types of weather extremes! Great for landscapes, containers, and baskets.

Annual Flower/Foliage

Petchoa (Petunia x Calibrachoa) 'SuperCal Neon Rose'

Petunia x Calibrachoa

Bright, hot pink

10"-12" tall

Light, well-drained, acidic soil.

Full sun

MSP-MF

10"-15" wide

This cross of Petunia and Calibrachoa has resulted in the best traits of each of its parents: strong vigor, exceptional flower power, lush foliage, dependable performance, and a unique color- bright hot pink with bright yellow throats! 2" wide flowers. 'SuperCal' has a much better pH tolerance than does Calibrachoa, and the leaves do not have the sticky residue like Petunias! The plants also have excellent disease tolerance and outstanding performance in all types of weather extremes! Great for landscapes, containers, and baskets.

Petunia, Double 'Madness Double Blue'

Deep midnight blue

10"-14" tall

Light, well-drained soil.

Full sun

SP-F

1'-2' wide

Prairie Star

2" to 2 1/2" wide fully double flowers of deep, velvety midnight blue.

Petunia, Double 'Madness Double Burgundy'

Burgundy

10"-14" tall

Light, well-drained soil.

Full sun

SP-F

1'-2' wide

Prairie Star

2" to 2 1/2" wide fully double burgundy flowers.

Petunia, Double 'Madness Double Mix'

Mix

10"-14" tall

Full sun

SP-F

1'-2' wide

Prairie Star

2" to 2 1/2" wide, double flowers in a mix of solid and picotee colors; Prairie Star Award Winner.

Petunia, Double 'Madness Double Red'

Medium red

10"-14" tall

Light, well-drained soil.

Full sun

SP-F

1'-2' wide

Prairie Star

2" to 2 1/2" wide medium red semi-double to double flowers; Prairie Star Award Winner.

Petunia, Double 'Purple Pirouette'

Violet and white

15"-18" tall

Light, well-drained soil.

Full sun

SP-F

12"-15" wide

Double violet-purple ruffled flowers are edged with white.

Petunia, Double 'Rose Pirouette'

Rose and white

15"-18" tall

Light, well-drained soil.

Full sun

SP-F

12"-15" wide

Large, double rose ruffled flowers are edged with white.

Petunia, Single Bicolor 'Candy Picotee Blue'

Blue-purple and white

6"-8" tall

Light, well-drained soil.

Full sun

SP-F

9" wide

3" wide deep blue-purple flowers with wide white margins.

Annual Flower/Foliage

Petunia, Single Bicolor 'Madness Red Picotee'

Red and white

10"-14" tall

Light, well-drained soil.

Full sun

SP-F

1'-2' wide

Prairie Star

Large, 3" wide deep red flowers with clean white margins.

Petunia, Single Bicolor 'Sophistica Lime Bicolor'

Lime and rose shades

8"-15" tall

Light, well-drained soil.

Full sun

SP-F

10"-18" wide

Prairie Star

Talk about FUN! Lime and rose shades in many nuances of color: stars, stripes, solids, all showing the unique variegation that makes this Petunia one you'll not want to miss! The 2 3/4" to 3" wide flowers have frilly edges. There is no stable pattern in the flower coloration, as it exhibits many different variations depending on heat, light, age of the flower, and environment! The flower colors may look "muddy" if grown cool (which should not be an issue in our climate!).

Petunia, Single Black 'Sophistica Blackberry'

Black and reddish purple

10"-15" tall

Light, well-drained soil.

Full sun

SP-F

10"-12" wide

Velvety, rich purple-black flowers have reddish purple undertones. The 2 3/4" to 3" wide blooms with slightly frilly edges, fill out lush, upright plants.

Petunia, Single Blue 'Hurrah Blue Vein'

Blue and orchid

10"-12" tall

Light, well-drained soil.

Full sun

SP-F

12"-15" wide

Prairie Star

2½" to 3" light blue flowers with dark orchid-blue veins; Prairie Star.

Petunia, Single Blue 'Pretty Grand Midnight'

Velvety deep blue-purple

6"-10" tall

Light, well-drained soil.

Full sun

SP-F

8"-12" wide

3 1/4" to 3 1/2" wide, velvety deep blue-purple flowers. Mid green foliage. Well-branched, tidy plants are great in flower beds. The 'Pretty Grand' grandiflora petunias are similar to 'Supercascade' petunias.

Petunia, Single Lime 'Sophistica Lime Green'

Light lime-yellow

10"-15" tall

Light, well-drained soil.

Full sun

SP-F

10"-12" wide

Bring a zing of lime to your garden this summer! The big, splashy yellow blooms have an underlying lime hue. It's a high-impact complement to dark purple, blue, and burgundy flowers. Upright habit.

Petunia, Single Mix 'Total Madness'

Mix

10"-14" tall

Light, well-drained soil.

Full sun

SP-F

1'-2' wide

Prairie Star

A formula mix of 2½" to 3" solid color and bicolored flowers; Prairie Star Award Winner.

Petunia, Single Orange 'African Sunset'

Orange shades

10"-12" tall

Light, well-drained soil.

Full sun

SP-F

20"-22" wide

'African Sunset' wowed the AAS judges with an attractive, "designer color" in shades of orange, 2 1/2" wide flowers that proved itself against other similarly colored petunias currently available. Gardeners are always looking for a petunia that grows evenly and uniformly in the garden while producing a prolific number of blooms all season-long, and this beauty certainly fills that need. Many of the judges want this in plantings for their alma mater, so if your school colors include orange, this one is for you! 2014 AAS Winner!

Annual Flower/Foliage

Petunia, Single Pink/Salmon 'Espresso Frappe Rose'

Deep rose

12"-14" tall

Light, well-drained soil.

Full sun

SP-F

12"-14" wide

Showy flowers have extra frilly, ruffled edges. Deep rose flowers with darker throats, complemented by dark green foliage.

Petunia, Single Pink/Salmon 'Espresso Frappe Ruby'

Ruby red

12"-14" tall

Light, well-drained soil.

Full sun

SP-F

12"-14" wide

Showy flowers have extra frilly, ruffled edges. Ruby red flowers with darker throats, complemented by dark green foliage.

Petunia, Single Pink/Salmon 'Pretty Grand Rose'

Bright rose

6"-10" tall

Light, well-drained soil.

Full sun

SP-F

8"-12" wide

3 1/4" to 3 1/2" wide bright rose flowers. Well-branched, tidy plants are great in flower beds. The 'Pretty Grand' grandiflora petunias are similar to 'Supercascade' petunias.

Petunia, Single Pink/Salmon 'Summer Madness'

Salmon-red

10"-14" tall

Light, well-drained soil.

Full sun

SP-F

1'-2' wide

Prairie Star

Salmon-red flowers with deep rose veins; Prairie Star Award Winner.

Petunia, Single Purple 'Orchid Daddy'

Light & dark orchid

15"-18" tall

Light, well-drained soil.

Full sun

SP-F

12"-15" wide

4" ruffled light orchid flowers with darker veins.

Petunia, Single Purple 'Pretty Grand Violet'

Violet

6"-10" tall

NEW Light, well-drained soil.

Full sun

SP-F

8"-12" wide

3 1/4" to 3 1/2" wide, velvety violet flowers. Mid green foliage. Well-branched, tidy plants are great in flower beds. The 'Pretty Grand' grandiflora petunias are similar to 'Supercascade' petunias.

Petunia, Single Purple 'Sugar Madness'

Light & dark orchid

10"-14" tall

Light, well-drained soil.

Full sun

SP-F

1'-2' wide

Prairie Star

Orchid flowers with darker veins; Prairie Star Award Winner.

Petunia, Single Purple 'Supercascade Burgundy'

Burgundy

15"-18" tall

Light, well-drained soil.

Full sun

SP-F

12"-15" wide

3 1/2" to 5" burgundy flowers.

Annual Flower/Foliage

Petunia, Single Red 'Pretty Grand Red'

Deep red

6"-10" tall

Light, well-drained soil.

Full sun

SP-F

8"-12" wide

3 1/4" to 3 1/2" wide deep red flowers with darker throats. Well-branched, tidy plants are great in flower beds. The 'Pretty Grand' grandiflora petunias are similar to 'Supercascade' petunias.

Petunia, Single White 'Pretty Grand White'

Pure white

6"-10" tall

Light, well-drained soil.

Full sun

SP-F

8"-12" wide

3 1/4" to 3 1/2" wide pure white flowers with sunny yellow throats. Dark green foliage. Well-branched, tidy plants are great in flower beds. The 'Pretty Grand' grandiflora petunias are similar to 'Supercascade' petunias.

Petunia, Single Yellow 'Yellow Madness'

Light & dark yellow

10"-14" tall

Light, well-drained soil.

Full sun

SP-F

1'-2' wide

Prairie Star

Light yellow flowers with darker yellow veins; Prairie Star Award Winner.

Petunia, Spreading 'Easy Wave Berry Velour'

Coral-red

6"-12" tall

Light, well-drained soil.

Full sun

SP-F

30"-40" wide

Prairie Star

2 3/4" to 3" wide flowers of velvety coral-red. The flowers have a unique sheen that portrays a 3-D effect! Amazing color! Mounding, spreading habit. Prairie Star Award Winner.

Petunia, Spreading 'Easy Wave Blue'

Dark blue with some light blue shading

6"-8" tall

Light, well-drained soil.

Full sun

SP-F

30"-36" wide

Prairie Star

The earliest blue spreading petunia. Large, 2.5" flowers are dark blue with some light blue shading. Mounding, spreading habit. Prairie Star Award Winner by K-State.

Petunia, Spreading 'Easy Wave Burgundy Star'

Burgundy and white

6"-12" tall

Light, well-drained soil.

Full sun

SP-F

30"-40" wide

Prairie Star

2 3/4" to 3" wide rich burgundy flowers with a wide white star pattern; some flowers may be more solid or more white in color. Mounding, spreading habit. Prairie Star Award Winner by K-State.

Petunia, Spreading 'Easy Wave Burgundy Velour'

Burgundy-magenta

6"-12" tall

Light, well-drained soil.

Full sun

SP-F

30"-40" wide

Prairie Star

2 3/4" to 3" wide flowers of rich, velvety burgundy-magenta with darker veins radiating from the dark throats. The flowers have a unique sheen that portrays a 3-D effect! Mounding, spreading habit. Prairie Star Award Winner.

Petunia, Spreading 'Easy Wave Coral Reef'

Deep coral and white

30"-40" wide

Prairie Star

The 2 3/4" to 3" wide lavender flowers have plum-violet veining; the veining is less prominent at the petal edges. It has a slightly more upright habit than the other 'Easy Wave' varieties, though it is still mounding and spreading. Prairie Star Award Winner by K-State.

Petunia, Spreading 'Easy Wave Red'

Dark to soft red

8"-10" tall

Light, well-drained soil.

Full sun

SP-F

Prairie Star

2" flowers open dark red, and then lighten to soft red as they mature. Mounding, spreading habit. Prairie Star Award Winner by K-State.

Petunia, Spreading 'Easy Wave Red Velour'

Dark red

6"-12" tall

Light, well-drained soil.

Full sun

SP-F

30"-40" wide

Prairie Star

2 3/4" to 3" wide flowers of velvety dark red. Breath takingly rich color! The flowers have a unique sheen that portrays a 3-D effect! Mounding, spreading habit. Prairie Star Award Winner.

Petunia, Spreading 'Easy Wave Silver'

Pale blue to silvery white

6"-12" tall

NEW Light, well-drained soil.

Full sun

SP-F

30"-40" wide

Prairie Star

An exciting color for the 'Easy Waves', and it's going to make your baskets and planters gleam! 'Silver' offers all the vigor and nonstop flowering of the other 'Easy Waves', with the addition of a more mounding, full, butter-branching habit. Wide open, 2" wide blooms of luminous pale blue to silvery white, quite long-lasting and resistant to fading. The flowers arise by the hundred over a long season. Prairie Star Award Winner.

Annual Flower/Foliage

Petunia, Spreading 'Easy Wave Starfish Mixture' ('EW Burgundy Star' & 'EW White Imp.')

Burgundy and white

6"-12" tall

Light, well-drained soil.

Full sun

SP-F

30"-40" wide

Prairie Star

A mix of 'Easy Wave Burgundy Star' and 'Easy Wave White Improved'. Prairie Star Award Winner by K-State.

Petunia, Spreading 'Easy Wave The Flag Mixture' ('EW Blue', 'EW Red', & 'EW White Imp.')

Red, White, and Blue-purple

6"-12" tall

Light, well-drained soil.

Full sun

SP-F

30"-40" wide

Prairie Star

A mix of 'Easy Wave Blue', 'Easy Wave Red', and 'Easy Wave White Improved'. Prairie Star Award Winner by K-State.

Petunia, Spreading 'Easy Wave Violet'

Rich, deep violet

6"-12" tall

Light, well-drained soil.

Full sun

SP-F

30"-40" wide

Prairie Star

Large, 2 3/4" to 3" wide blooms are a striking rich, deep violet. It has a slightly more upright habit than the other 'Easy Wave' varieties, although it is still mounding and spreading. Prairie Star Award Winner by K-State.

Petunia, Spreading 'Easy Wave White Improved'

Pure white

8"-12" tall

Light, well-drained soil.

Full sun

SP-F

30"-40" wide

Prairie Star

2 1/4" pure white flowers. Mounding, spreading habit. Prairie Star Award Winner by K-State.

Petunia, Spreading 'Easy Wave Yellow'

Yellow

6"-12" tall

Light, well-drained soil.

Full sun

SP-F

30"-40" wide (space 10"-15" apart)

Prairie Star

Large, 2.5" flowers are creamy yellow with saturated, bright yellow throats and bright yellow veining radiating out from the throat! Beautiful!

Petunia, Spreading 'Shock Wave Deep Purple'

Deep purple shades

7"-14" tall

Light, well-drained soil.

Full sun

SP-F

2'-3' wide

Prairie Star

This 'Shock Wave' will send ripples of conversation through your landscape! Petite, 1 1/2" to 2" wide flowers in vibrant deep purple shades with alluring dark eyes!

Petunia, Spreading 'Shock Wave Denim'

Dark blue to silver

7"-14" tall

Light, well-drained soil.

Full sun

SP-F

2'-3' wide

Prairie Star

The 1 3/4" wide flowers are dark blue-purple in cool temperatures and low light conditions. Flowers change to blue-lavender-silver in high light and hot conditions. Very well-branched, mounding and spreading plants. The flowers recover well after a rain. Prairie Star Award Winner by K-State.

Annual Flower/Foliage

Petunia, Spreading 'Shock Wave Red'

Pure velvety red

7"-14" tall

Light, well-drained soil.

Full sun

SP-F

2'-3' wide

Prairie Star

1 3/4" to 2" wide, pure velvety red flowers. Holds its flower color well all season. The flowers blanket very well-branched, mounded and spreading plants. The flowers recover well after a rain.

Petunia, Spreading 'Shock Wave Yellow'

Yellow

7"-14" tall

NEW Light, well-drained soil.

Full sun

SP-F

2'-3' wide

Prairie Star

Numerous 1 1/2" to 2" wide yellow blooms, with darker yellow veining, and lighter yellow on the rims, cover the mounding plants. The flowers blanket very well-branched, mounded and spreading plants. The flowers are self-cleaning, and recover well after a rain.

Petunia, Spreading 'Tidal Wave Red Velour'

Deep red

2' tall

NEW Light, well-drained soil.

Full sun

SP-F

1'-2' wide

Prairie Star

Fabulous and stunning color on a Wave petunia! Gorgeous deep red velvety blooms that don't fade even in the heat of summer. Large, 2" to 2 1/2" wide flowers literally cover the vigorously spreading plants that rarely need deadheading because new blooms continuously pop up and cover the old, spent blooms. A perfect solution for the time-crunched gardener or anyone looking for petunias that are carefree. 'Tidal Wave' petunias are the tallest of the Wave family and bloom over and over all season long and recover quickly, even after hard rains. 'Tidal Wave' is an excellent landscape performer, covering a large area quickly and beautifully. Plant 1' apart for taller plants and a more hedge-like habit, or 2' apart for more of a spreading habit.

Petunia, Spreading 'Trilogy Red'

Vibrant red

10"-24" tall

Light, well-drained soil.

Full sun

SP-F

20"-25" wide

Stunningly rich, vibrant red flowers! 'Trilogy' petunias are known for their compact, dome-shaped habit sporting large, non-fading blooms throughout the season. The plants cover and recover themselves in upright blooms, providing a constant mass of color in flower beds and large baskets and containers. Great heat-tolerance and bounces back well after a rain! 2015 AAS Winner!

Petunia, Spreading 'Wave Misty Lilac'

Light lavender

8"-12" tall

Light, well-drained soil.

Full sun

SP-F

3' wide

Prairie Star

3" wide light lavender blooms fade to pale lavender or white. Blooms all summer atop low, spreading plants. Prairie Star Award Winner by K-State.

Petunia, Spreading 'Wave Purple Improved'

Vibrant purple-magenta

5"-7" tall

Light, well-drained soil.

Full sun

SP-F

3'-4' wide

'Wave' Petunias celebrate their 15th birthday with the release of 'Wave Purple Improved'! It offers the same great flat habit, garden performance, and vibrant purple-magenta flower color, but flowers faster and earlier than the original, with larger blooms, and quicker garden fill, even in cooler and wetter conditions. It blooms 12 to 14 days earlier than 'Wave Purple Classic' (which is what the original purple has been renamed), and its larger bloom size with flowering in the plant center gives it a fuller look. 2" to 3" wide magenta-purple flowers with a dark throat. Blooms all summer atop low, spreading plants. Prairie Star Award Winner by K-State.

Petunia, Super 'Black Magic'

Black

8"-16" tall

Light, well-drained soil.

Full sun

LSP-F

8"-10" wide

Stunning, deep black color! This velvety black Petunia is said to revert less, keeping its deep midnight coloration throughout a long season of bloom. With its mounding habit (like Petunia 'Pinstripe'), it brings high drama and bold contrast to container plantings and beds.

Annual Flower/Foliage

Petunia, Super Cascadias Indian Summer'

Yellow to orange to pink shades

6"-18" tall

Light, well-drained soil.

Full sun

LSP-F

16"-24" wide

Large, lightly ruffled, velvety blossoms are a mixture of summer colors, ranging from yellow to orange to pink shades, and even terracotta. Early flowering, continuing all summer long, with a semi-trailing habit. Excellent in hanging baskets or containers.

Petunia, Super 'Cascadias Rim Magenta'

Dark magenta-purple and cream

10"-16" tall

Light, well-drained soil.

Full sun

SP-F

16"-20" wide

A knock out bicolor- dark magenta-purple blooms sport wide cream edges! Makes a pretty cascading splash in the border, basket, or container. Flowers prolifically atop vigorous, mounding plants.

Petunia, Super 'Cha-Ching Cherry'

Cherry red and creamy yellow

10"-16" tall

Light, well-drained soil.

Full sun

LSP-F

16"-20" wide

Get a thrill looking at this marvel's ravishing cherry red blooms with their amazing creamy yellow star pattern! Blazing, boldly colored blooms on spreading/mounding plants with lush green foliage create a luminous spectacle in the border or cascading from a container. Mingles happily with other colors!

Petunia, Super 'Flash Mob Bluerific'

Lavender-blue

6"-14" tall

Light, well-drained soil.

Full sun

LSP-F

12"-20" wide

You're in a for a big supprise with the color-charged blue flowers burst out on this one-of-a-kind petunia! Saturated lavender-blue flowers have a lighter "morn" or halo pattern towards to center of the bloom. Mounding/trailing plants are real show-offs in baskets and patio planters.

Petunia, Super 'Flash Mob Magentacular'

Magenta and bright lemony green

10"-16" tall

Light, well-drained soil.

Full sun

SP-F

20"-30" wide

There's never been colors like these in trailing petunias! Early to bloom, moderately vigorous plants mound and then trailing- big show-offs in planters and baskets! Stunning magenta flowers are accented with bright lemony green throats and veins.

Petunia, Super 'Headliner Red'

Bright red

10"-16" tall

NEW Light, well-drained soil.

Full sun

LSP-F

14"-20" wide

3" wide bright red flowers cover the dense, upright-mounding plants from spring to fall.

Petunia, Super 'Night Sky'

Violet and white

10"-16" tall

NEW Light, well-drained soil.

Full sun

LSP-F

16"-28" wide

This petunia boldly goes where not petunia has gone before... light years from usual! Make a wish upon a star: this might be the most distinctive bloom you've ever seen on this planet! Very eye-catching- the white spots on the dark violet flowers remind one of an ever-changing star constellation in the night sky. You'll get lost gazing at the myriad of patterns- each flower is totally unique. The splendid blooms shine in baskets and mixed containers, or when planted alone. Mounded/trailing habit.

Petunia, Super 'Phantom'

Black and yellow

8"-12" tall

Light, well-drained soil.

Full sun

SP-F

8"-12" wide

Black flowers with a distinctive yellow star pattern. Mounded, upright plants are great in mixed containers or by itself.

Annual Flower/Foliage

Petunia, Super 'Starlet Orange'

NEW Light, well-drained soil.

Full sun

Orange

LSP-F

8"-10" tall

12"-20" wide

Wow! This stunning, truly orange petunia will bring a spark to any planter! An early-blooming wonder just 8" to 10" tall, but spreading a foot or more wide, with 2" to 3" wide blooms of the brightest shade of orange!

Petunia, Super 'Sun Spun Orange'

Light, well-drained soil.

Full sun

Pure orange

SP-F

6"-10" tall

12"-18" wide

The high-density orange flower color stays true orange in both low and high light. Tight, compact, ball-shaped habit.

Petunia, Super 'Suncatcher Blue Burst' (prev. 'Suncatcher Blue Blast')

Light, well-drained soil.

Full sun

Blue-purple

SP-F

8"-10" tall

18"-24" wide

An overlay of fine, deep purple veining intensifies the vibrancy of the velvety blue-purple blooms. Early to flower atop compact, mounding plants. A showy plant that won't overwhelm its companions in container plantings.

Petunia, Super 'Suncatcher Vintage Rose'

Light, well-drained soil.

Full sun

Creamy antique rose and deep rose

SP-F

8"-12" tall

8"-14" wide

Traditional colors with modern elegance describe this trailing petunia. Antique creamy rose petals feature rich, deep rose throats. Some color variations add to the effect. The flowers appear early and fill the plant from top to tip.

Petunia, Super 'Supertunia Black Cherry'

Light, well-drained soil.

Full sun

Burgundy and black

SP-F

8"-12" tall

18"-24" wide

Prairie Star

Unique burgundy flowers have black throats. Combination possibilities are endless with this one- keep it on the dark side with the unique leaves of Sweet Potato Vine 'Sweet Caroline Bewitched' or brighten it up with a sprinkling of golden blooms, such as Mecardonia. Has a slightly more upright habit than other Supertunias. Great heat and humidity tolerance.

Petunia, Super 'Supertunia Bordeaux'

Light, well-drained soil.

Full sun

Soft pink with deep plum veins

SP-F

5"-7" tall

16"-24" wide

Prairie Star

Butterflies

Hummingbirds

Unique soft pink flowers feature deep plum venation. The fragrant flowers are a hummingbird and butterfly haven.

Petunia, Super 'Supertunia Limoncello'

Light, well-drained soil.

Full sun

Butter and deep lemon yellow

SP-F

6"-10" tall

20"-24" wide

Beautiful butter yellow blooms are accented by the deep lemon yellow veins, really making this flower "pop"! Has a great mounding/trailing habit, great for combination planters.

Petunia, Super 'Supertunia Morning Glory Charm'

Light, well-drained soil.

Full sun

Deep lavender-purple and white

SP-F

8"-15" tall

2'-3' wide

Prairie Star

Beautiful deep lavender-purple flowers with large white eyes. The 'Charm' series produce a dense mound of color that will spill over in hanging baskets and containers- one plant can trail up to 3'!

Annual Flower/Foliage

Petunia, Super 'Supertunia Pretty Much Picasso'

Purple and green

8"-12" tall

Light, well-drained soil.

Full sun

SP-F

20"-30" wide

Prairie Star

Distinctive 1" to 1 1/2" wide violet-purple flowers are accented with a deeper violet throat and an irregular chartreuse picotee edge! This eye-catcher will make a huge impact everywhere. Best in combination planters. Very vigorous plants that trail up to 3' long!

Petunia, Super 'Supertunia Priscilla'

Lavender and dark purple

6"-10" tall

Light, well-drained soil.

Full sun

SP-F

1' wide

Fragrant, semi-double lavender flowers with dark purple vines. Provides long-lasting color in sunny locations and is great for windowboxes and hanging baskets. Trails vigorously to 3'!

Petunia, Super 'Supertunia Raspberry Blast'

Pink and deep cerise

5"-10" tall

Light, well-drained soil.

Full sun

SP-F

18"-30" wide

Prairie Star

No other petunia can boast such a blast of bicolor color! The strong pink flowers have deep cerise petal edges and a star-like coloration down the throat. A vigorous grower with a nice, compact, mounding habit and non-stop blooms. Plants will tumble down 3' to 4' from baskets and containers! Prairie Star Award Winner!

Petunia, Super 'Supertunia Royal Velvet'

Violet

5"-8" tall

Light, well-drained soil.

Full sun

SP-F

18"-30" wide

Prairie Star

Electric violet flowers on trailing foliage; early bloomer; excellent for hanging baskets and containers. Prairie Star Award Winner!

Petunia, Super 'Supertunia Violet Star Charm'

Bright purple and white

8"-12" tall

NEW Light, well-drained soil.

Full sun

LSP-F

12"-18" wide

Prairie Star

This charming bicolor striped flower will add a striking mass of color to your landscape! The bright purple and white stripes make for a great color combination! The 'Charm' series have small flowers, similar in size to a large Calibrachoa flower. With its small flower size, it is a great substitute for Calibrachoa in harder to grow areas. The 'Charm' series produce a dense mound of color that will spill over in hanging baskets and containers.

Petunia, Super 'Supertunia Vista Bubblegum'

Shimmering pink with darker veins

16"-20" tall

Light, well-drained soil.

Full sun

SP-F

2'-3' wide

Prairie Star

Vigorous spreading/mounding habit that is much larger than most other 'Supertunias', making it ideal for flower beds, borders, and very large containers. Large, slightly ruffled-edged flowers are a wonderful shimmering pink color, described as 'bubblicious pink'. Great tolerance to wind, rain, heat, and humidity. Prairie Star Award Winner!

Petunia, Super 'Supertunia Vista Silverberry'

White and light pink

16"-20" tall

Light, well-drained soil.

Full sun

SP-F

2'-3' wide

Prairie Star

Vigorous spreading/mounding habit that is much larger than most other 'Supertunias', making it ideal for flower beds, borders, and very large containers. Large, slightly ruffled-edged flowers are white with light pink veining and throats.

Annual Flower/Foliage

Petunia, Super 'Supertunia White Improved'

Pure white and yellow

5"-10" tall

Light, well-drained soil.

Full sun

SP-F

2'-3' wide

Prairie Star

Dark green trailing foliage is topped by large, pure white flowers with a faint yellow throat! Classic!

Petunia, Super 'Supertunia White Improved'

Pure white and yellow

5"-10" tall

Light, well-drained soil.

Full sun

SP-F

2'-3' wide

Prairie Star

Dark green trailing foliage is topped by large, pure white flowers with a faint yellow throat! Classic!

Petunia, Super 'Surfinia Deep Red'

Deep red

6" tall ,1' wide

Light, well-drained soil.

Full sun

SP-F

3" wide, deep red blooms. Plants have a nice, full habit, and can trail to 18".

Petunia, Super 'Surfinia Double Salmon'

Rich salmon

12"-16" tall

NEW Light, well-drained soil.

Full sun

LSP-F

10"-15" wide

Early blooming with large clusters of fully double, rich salmon blooms appearing all over the neat, tightly mounded plants. Flower size does not shrink in the heat and it keeps its double flower form in the heat. It is also earlier to flower than other double forms.

Petunia, Super 'Surfinia Moonlight Eclipse'

Deep blue-violet with a light green picotee edge

12"-14" tall

Light, well-drained soil.

Full sun

SP-F

13"-15" wide

A unique twist on a funky color combination! Deep blue-violet flowers have a striking light green edge! Early to flower on mounding plants.

Petunia, Super 'Surfinia Summer Double White'

Pure white

12"-16" tall

Light, well-drained soil.

Full sun

SP-F

Early blooming with large clusters of fully double, clear white blooms appearing all over neat, tightly mounded plants. Unlike some double petunias, the flower size does not decrease in the summer heat. Very dense, well-branched plants. Great weather resistance, and non-stop blooming!

Phlox 'Intensia Blueberry'

Blue-purple

10"-12" tall

Moist, well-drained soil.

Part to full sun

SP-F

8"-12" wide

Tons of 1" wide blue-purple blossoms. Has a larger leaf size and more upright habit than other varieties in the 'Intensia' series. Very heat tolerant plants, though they do well in cool weather, too (but do not like early spring cold temperatures). The flower color is a beautiful saturated blue-purple in cooler temperatures, becoming a light blue purple with a dark blue-purple star-shaped eye in hot weather. Their excellent mounded habit is excellent for containers. K-State's research has shown that the 'Intensia' series of Phlox does best in containers in our climate (as opposed to being planted in flowerbeds).

Phormium 'Lancer Red and Dark Green'

New Zealand Flax

Insignificant

1'-3' tall

Rich, moist, yet very well-drained soil.

Part to full sun

18"-24" wide

Upright, broad olive green leaves are variegated with red.

Annual Flower/Foliage

Phormium 'Pink Stripe' / 'Candy Stripe'

New Zealand Flax

Insignificant

2'-3' tall

Rich, moist, yet very well-drained soil.

Part to full sun

2'-3' wide

Deer Resistant

Deep bronze-green leaves are striped with hot pink along the edges; the overall effect is a beautiful, dusky mauve. The leaves are stiff and upright when young, developing a slight droop to the leaf tips with age. Adds a great tropical flair to the garden or summer containers!

Phygelius capensis

Cape Fuchsia, River Bells, Wild Fuchsia

Orange-red

36"-40" tall

Moist, well-drained soil.

Full sun

MSU-EF

18"-23" wide

Bushy, upright mounds of green foliage bears showy clusters of fuchsia-like, firecracker flowers, beginning in mid summer and continuing into the fall. Hummingbirds love the nectar found in the brilliant orange-red blooms! Adapts well to large containers. Can be overwintered indoors (hardy to zone 6 with protection).

Plectranthus 'Mint Swedish Ivy'

Variegated Mint Swedish Ivy; Tropical Mint

6"-18" tall

Well-drained soil.

Full sun to Full shade

12"-18" wide

P. madagascariensis 'Variegata'; Variegated Mintleaf; Fragrant green leaves are scalloped and edged in white; trailing habit is great for hanging baskets and containers; syn. *P. coleoides* 'Variegata'.

Plectranthus 'Mona Lavender'

Tropical Mint

Intense lavender

12"-16" tall

Well-drained soil.

Sun to Shade

SP & F

1' wide

Loose spikes of intense flowers appear during short days (spring and fall) on contrasting dark stems. Succulent-like glossy dark green foliage is burgundy underneath. Can reach large proportions if you give it lots of room. Excellent for combination plantings.

Plumbago auriculata 'Imperial Blue'

Cape Plumbago

Light blue

18"-36" tall

Rich, well-drained soil.

Part to Full sun

SU-F

18"-24" wide

Light blue flowers 1½" across; wonderful for tropical containers!

Portulaca (Rose Moss) 'Happy Trails Deep Red'

Deep red-coral

6"-9" tall

Hot, dry soil.

Full sun

SP-F

14"-18" wide

Prairie Star

Uniform, large, semi-double 1 1/2" to 2 1/4" wide, very deep red flowers, on well-branched plants with a fantastic spreading habit. Has a unique cascading habit, making it excellent for baskets and containers.

Portulaca (Rose Moss) 'Happy Trails Fuchsia'

Vibrant rosy fuchsia

6"-9" tall

Hot, dry soil.

Full sun

SP-F

14"-18" wide

Prairie Star

Uniform, large, semi-double 1 1/2" to 2 1/4" wide, vibrant rosy fuchsia flowers, on well-branched plants with a fantastic spreading habit. Has a unique cascading habit, making it excellent for baskets and containers.

Portulaca (Rose Moss) 'Happy Trails Mix'

Mix

6"-9" tall

Hot, dry soil.

Full sun

SP-F

14"-18" wide

Prairie Star

Uniform, large, semi-double 1 1/2" to 2 1/4" wide flowers in a mix of colors, on well-branched plants with a fantastic spreading habit. Has a unique cascading habit, making it excellent for baskets and containers.

Annual Flower/Foliage

Portulaca (Rose Moss) 'Happy Trails Orange'

Luscious peachy orange

6"-9" tall

Hot, dry soil.

Full sun

SP-F

14"-18" wide

Prairie Star

Uniform, large, semi-double 1 1/2" to 2 1/4" wide, luscious peachy orange flowers, on well-branched plants with a fantastic spreading habit. Has a unique cascading habit, making it excellent for baskets and containers.

Portulaca (Rose Moss) 'Happy Trails Peppermint'

Pink and fuchsia

6"-9" tall

Hot, dry soil.

Full sun

SP-F

14"-18" wide

Prairie Star

Uniform, large, semi-double 1 1/2" to 2 1/4" wide pink flowers with fuchsia stripes and speckles, on well-branched plants with a fantastic spreading habit. Has a unique cascading habit, making it excellent for baskets and containers.

Portulaca (Rose Moss) 'Happy Trails Pink'

Pink

6"-9" tall

Hot, dry soil.

Full sun

SP-F

14"-18" wide

Prairie Star

Uniform, large, semi-double 1 1/2" to 2 1/4" wide pink flowers, on well-branched plants with a fantastic spreading habit. Has a unique cascading habit, making it excellent for baskets and containers.

Portulaca (Rose Moss) 'Happy Trails Tropical Mixture'

Deep red, orange, and yellow

6"-9" tall

Hot, dry soil.

Full sun

SP-F

14"-18" wide

Prairie Star

Uniform, large, semi-double 1 1/2" to 2 1/4" wide flowers, on well-branched plants with a fantastic spreading habit. A mix of Deep Red (deep red-coral), Orange (peachy orange), and Yellow (bright yellow). Has a unique cascading habit, making it excellent for baskets and containers.

Portulaca (Rose Moss) 'Happy Trails White'

Pure white

6"-9" tall

Hot, dry soil.

Full sun

SP-F

14"-18" wide

Prairie Star

Uniform, large, semi-double 1 1/2" to 2 1/4" wide pure white flowers, on well-branched plants with a fantastic spreading habit. Has a unique cascading habit, making it excellent for baskets and containers.

Portulaca (Rose Moss) 'Happy Trails Yellow'

Bright yellow

6"-9" tall

Hot, dry soil.

Full sun

SP-F

14"-18" wide

Prairie Star

Uniform, large, semi-double 1 1/2" to 2 1/4" wide bright yellow flowers, on well-branched plants with a fantastic spreading habit. The bright yellow petals have touches of orange towards the center of the bloom. Has a unique cascading habit, making it excellent for baskets and containers.

Portulaca 'Cupcake Grape Jelly'

Hot purplish pink

6"-11" tall

Hot, dry soil.

Full sun

LSP-F

16"-30" wide

Performed beautifully at trial sites around North America the summer of 2013. It loved the tough, hot conditions, showing large, gorgeous, intense vivid, hot purplish pink flowers in abundance. Has a nice trailing habit, excellent in landscapes and baskets!

Annual Flower/Foliage

Portulaca 'Cupcake Yellow Chrome'	Purslane	Yellow and orange	6"-11" tall
NEW Hot, dry soil.	Full sun	SP-F	16"-30" wide

Yellow cup-shaped flowers are dashed with orange. Thrives in tough, hot conditions, showing large, gorgeous flowers in abundance. Has a nice trailing habit, excellent in landscapes and baskets! Excelled in the K-State trials!

Portulaca 'Fairytale Cinderella'		Magenta & lemon	1"-2" tall
Hot, dry soil.	Full sun	SP-F	12"-23" wide

Prairie Star

Very double magenta-violet pom-poms are surrounded by five lemon yellow petals; unlike other Portulacas, the flowers stay open after dusk; Prairie Star.

Portulaca 'Giant Bicolor Radiance' (syn. 'Samba Bicolor')		White & fuchsia	1"-4" tall
Hot, dry soil.	Full sun	SP-F	12"-15" wide

Huge two-tone flowers are white and vivid fuchsia-pink.

Portulaca 'Pazazz Pink Glow'		Vivid pink & yellow	6"-11" tall
Hot, dry soil.	Full sun	SP-F	18"-28" wide

Prairie Star

Vibrant, intensely colored flowers are pink with bright yellow centers. Compact, "non-stringy", well-behaved plants are covered with flowers. Drought and heat loving, grow in full sun with frugal amounts of water. The 'Pazazz' series features flowers that are more apt to open on cloudy days than other varieties. Prairie Star Award Winner!

Portulaca 'Pazazz Pink Glow'		Vivid pink & yellow	6"-11" tall
Hot, dry soil.	Full sun	SP-F	18"-28" wide

Prairie Star

Vibrant, intensely colored flowers are pink with bright yellow centers. Compact, "non-stringy", well-behaved plants are covered with flowers. Drought and heat loving, grow in full sun with frugal amounts of water. The 'Pazazz' series features flowers that are more apt to open on cloudy days than other varieties. Prairie Star Award Winner!

Portulaca 'Pazazz Vivid Yellow'		Vivid yellow	6"-11" tall
Hot, dry soil.	Full sun	SP-F	18"-28" wide

Prairie Star

Vivid yellow flowers atop contrasting green foliage. Compact, mounded, "non-stringy", well-behaved plants are covered with flowers. Drought and heat loving, grow in full sun with frugal amounts of water. The 'Pazazz' series features flowers that are more apt to open on cloudy days than other varieties. Prairie Star Award Winner!

Annual Flower/Foliage

Portulaca 'RioGrande Magenta'	Purslane	Rich magenta	1"-2" tall
Hot, dry soil.	Full sun	SP-F	12"-18" wide

Low-growing, well-branched plants have a creeping habit. Large, single rich magenta silky flowers, up to 2" wide, with yellow stamens.

Portulaca 'RioGrande Orange'	Purslane	Bright orange	1"-2" tall
Hot, dry soil.	Full sun	SP-F	12"-18" wide

Low-growing, well-branched plants have a creeping habit. Large, single bright orange silky flowers with yellow stamens.

Portulaca 'RioGrande Scarlet'	Purslane	Rich scarlet	1"-2" tall
NEW Hot, dry soil.	Full sun	SP-F	12"-18" wide

Low-growing, well-branched plants have a creeping habit. Large, single rich scarlet silky flowers, up to 2" wide, with yellow stamens.

Ptilotus exaltatus 'Joey'		Silver to neon pink	12"-18" tall
Well-drained soil.	Part to full sun	SU	12"-14" wide

An all-new plant debuts and it's a real eye-catcher! Heat and drought-tolerant plants produce luminous, silver-green foliage topped by large, conical spikes of feathery flowers. Each long-lasting 2" to 3" long bottlebrush bloom starts out silver and matures to neon pink near the tips. Blooms all summer long! The compact, uniform plants are well-suited to gardens and mixed containers.

Ricinus 'Carmencita Bright Red'	Castor Bean	Bright red	4'-6' tall
Rich, moist, well-drained soil.	Full sun	LSU	2' wide

Large deep maroon leaves; bright red flower buds and seed pods; seeds and parts of the plant are poisonous!

Rudbeckia hirta 'Gold Rush'		Bright yellow	18"-24" tall
Well-drained soil.	Full sun	SP-F	18"-24" wide

This new selection captured the attention of everyone at trials across the country, iwth its large, bold, double, bright yellow blossoms! The flowers show splashes of burgundy, finishing mostly golden yellow. Blooms all summer long, attracting butterflies and admiring glances from your garden visitors. If you keep the old blooms cut off, you will be rewarded with an extended bloom period!

Ruellia 'Southern Star Blue'	Wild Petunia; Texas Petunia; Water Blue Bell; Mexican Petunia; False Petunia	Lavender-blue	10"-12" tall
Wet to dry soil.	Full sun	SU-F	16"-18" wide

Very adaptable and low maintenance. Tolerates wet or dry soil conditions. Petunia-like lavender-blue flowers.

Ruellia 'Southern Star Pink'	Wild Petunia; Texas Petunia; Water Blue Bell; Mexican Petunia; False Petunia	Soft pink and lavender	10"-12" tall
Wet to dry soil.	Full sun	SU-F	16"-18" wide

Very adaptable and low maintenance. Tolerates wet or dry soil conditions. Petunia-like soft pink flowers with lavender undertones.

Annual Flower/Foliage

Salvia coccinea 'Hummingbird Forest Fire'	Hummingbird Sage, Scarlet Sage, Texas Hummingbird Sage	Fiery red	1' tall
Moist, well-drained soil.	Full sun	SP-F	12"-18" wide
A stunning combination of fiery red flowers against black calyces; the heat and drought-tolerant plants are earlier to bloom, slightly shorter, and more free-branching than similar varieties.			
Salvia coccinea 'Summer Jewel Lavender'	Hummingbird Sage, Scarlet Sage, Texas Hummingbird Sage	Dusty lavender-purple	10"-24" tall
NEW Moist, well-drained soil.	Full sun	LSP-F	10"-12" wide
Early to flower with generous spikes of 1/2" wide dusty lavender-purple, trumpet-shaped blooms! Blooms all summer long above compact, tidy plants with dark green foliage. Because of the compactness and large number of flowers, 'Summer Jewel Lavender' is great for large landscaped areas, as well as in containers and small beds. The plants hold up well in wind and rain. The All America Selection Judges noted how the bees, butterflies, and hummingbirds love the larger flowers, making it perfect for a pollinator garden! Hummingbirds love the flowers and gold finches swarm the plants for the seeds! 2016 AAS Winner!			
Salvia coccinea 'Summer Jewel Lavender'	Hummingbird Sage, Scarlet Sage, Texas Hummingbird Sage	Dusty lavender-purple	10"-24" tall
NEW Moist, well-drained soil.	Full sun	LSP-F	10"-12" wide

Salvia farinacea 'Evolution'	Mealy-Cup Sage	Deep violet	16"-22" tall
-------------------------------------	----------------	-------------	--------------

Moist, well-drained soil.

Full sun

SP-F

15"-20" wide

Prairie Star

Arguably the best *Salvia farinacea* yet, with better branching and more blooms than other varieties. Dense, 6" to 7" long spikes are a novel deep violet color that shows up surprisingly well against the dark green foliage. Adapts well to containers, beds, and mass plantings. Blooms from spring to frost. AAS Winner. Prairie Star Award Winner.

Salvia farinacea 'Mannequin Blue Mountain'	Mealy-Cup Sage	Deep violet-blue	18" tall, 10" wide
---	----------------	------------------	--------------------

Moist, well-drained soil.

Full sun

LSP-F

Prairie Star

The largest *S. farinacea* we have ever seen! It is a tetraploid, so it has four sets of chromosomes (instead of the usual two), which explains why it is so massive! The flower spikes are deep violet-blue, and are longer, thicker, broader, more dense, and more durable than seed-grown varieties. Blooms from late spring to frost. Loved by hummingbirds!

Salvia farinacea 'Midnight Candle'	Mealy-Cup Sage	Dark blue-purple	12"-18" tall
---	----------------	------------------	--------------

Moist, well-drained soil.

Part to full sun

SP-F

12"-18" wide

Densely branched plants with thick spires of dark blue-purple flowers on dark stems. An undemanding and robust summer flower that feels most comfortable in sunny locations, but will tolerate part sun. Great for flower beds and containers!

Salvia greggii 'Lipstick'		Lipstick red	30"-36" tall
----------------------------------	--	--------------	--------------

Light, rich, moist, well-drained soil.

Full sun

LSP-F

30"-36" wide

One of the longest blooming Texas Sages. Each compact clump of foliage is simply smothered in terminal flower spikes of lipstick red flowers, each highlighted by a white throat and brown calyx.... a hummingbird fiesta! Makes a great deer resistant foreground addition to a grouping of ornamental grasses.

Salvia greggii 'Wild Thing'	Autumn Sage, Texas Sage.	Hot cherry red	18"-24" tall
------------------------------------	--------------------------	----------------	--------------

NEW Moist, very well-drained soil.

Full sun

LSP-MF

18"-24" wide

Each compact clump of aromatic dark green foliage is simply smothered in terminal flower spikes of hot cherry red flowers, each highlighted by purple calyces.... a hummingbird and butterfly fiesta! Makes a great deer resistant foreground addition to a grouping of ornamental grasses. Hardy to zone 6- if it over winters for you, cut it back in the spring.

Annual Flower/Foliage

Salvia leucantha 'Midnight' ('Purple'; 'All Purple')

Deep violet

2'-4' tall

NEW Light, rich, moist, well-drained soil.

Full sun

LSU-EF

2'-3' wide

The velvety, deep violet flowers are much darker than those typically seen on the species. Its tall, arching, wide-spreading woolly white stems are lined with small, linear, gray-green leaves with lightly scalloped edges and felted, silvery undersides. Long sprays of small, tubular, fuzzy, completely deep violet flowers begin blooming in late summer to early fall, continuing until a hard freeze. The showy blooms are attractive to many pollinators, including bees, butterflies, and hummingbirds.

Salvia leucantha 'Purple and White'

Mexican Bush Sage

Purple and white

2'-4' tall

Light, rich, moist, well-drained soil.

Full sun

SU-F

2'-3' wide

Tall and bushy plants with long velvety purple spikes and tiny white flowers; woolly white stems and sage green leaves.

Salvia leucantha 'Purple and White'

Mexican Bush Sage

Purple and white

2'-4' tall

Light, rich, moist, well-drained soil.

Full sun

SU-F

2'-3' wide

Tall and bushy plants with long velvety purple spikes and tiny white flowers; woolly white stems and sage green leaves.

Salvia splendens 'Flare'

Scarlet Sage

Scarlet-red

18" tall tall ,1' wide

Moist, well-drained soil.

Full sun

SP-F

A profusion of full, intense scarlet-red spikes that contrast beautifully with deep green foliage on mounded, bushy plants. Remarkably heat tolerant plants that self-clean and provide color all summer long. This is the salvia used at the White House in Washington D.C.!

Salvia splendens 'Red Hot Sally II'

Scarlet Sage

Dark scarlet-red

10"-12" tall

Moist, well-drained soil.

Full sun

SP-F

8"-10" wide

Full spikes of dark scarlet-red flowers are set off against the dark green foliage.

Salvia splendens 'Saucy Red'

Scarlet Sage

Brilliant scarlet red

2'-3' tall

Moist, well-drained soil.

Full sun to part sun

SP-F

2'-3' wide

Prairie Star

A stunning new Salvia splendens, with a neat, but vigorous plant habit. The lush green foliage is covered with sizzling scarlet-red flower spikes from April to November! Sterile and self-cleaning, no need to dead head - always looks luxuriant, yet tidy. Thrives in sun and heat, and performs equally well in part shade. A high performance, high impact, high coverage plant for the border, for large scale landscape planting, and for large patio containers.

Salvia splendens 'Saucy Red'

Scarlet Sage

Brilliant scarlet red

2'-3' tall

Moist, well-drained soil.

Full sun to part sun

SP-F

2'-3' wide

Prairie Star

Salvia, species 'Ember's Wish'

Coral-red

3'-4' tall

NEW Light, rich, moist, well-drained soil.

Part to full sun

MSP-MF

3' wide

Glowing coral-red flowers cover these tough plants from early spring to frost. The blooms won't fade in the heat, forming a ball of color in your yard with no pruning or deadheading! Magnificent in large containers! As with 'Wendy's Wish' and 'Love and Wishes', a portion of each sale benefits Australia's Make-a-Wish Foundation, which aids in fulfilling the wishes of Australia's seriously ill children.

Salvia, species guarantiaca 'Black & Blue'

Anise Sage

Deep cobalt blue

5'-6' tall

Light, rich, moist, well-drained soil.

Full sun

SP-F

18"-24" wide

Uniform green foliage gives rise to deep cobalt blue flowers with almost black calyces. Also has black flower stems. Great when grown in stark contrast to silver or white leaved plants. Thrives in the heat. A real favorite of hummingbirds! Often overwinters in SE Kansas, and if it does overwinter it can spread a fair bit.

Salvia, species guarantica 'Black & Bloom'

Anise Sage

Deep cobalt blue

36"-42" tall

NEW Light, rich, moist, well-drained soil.

Full sun

SP-F

3' wide

Tough as nails, this improvement on 'Black & Blue', boasts thicker leaves, bigger blooms, and darker stems! Beefy plants give rise to the electric cobalt blue flowers, opening from almost black calyces on nearly true black stems. Great when grown in stark contrast to silver or white leaved plants. Thrives in the heat. A real favorite of hummingbirds and butterflies! Often over winters in SE Kansas, and if it does over winter it can spread a fair bit.

Salvia, species longispicata x farinacea 'Mystic Spires'

Blue

18"-24" tall

Light, rich, moist, well-drained soil.

Full sun

LSP-F

12"-18" wide

Loads of blue flower spikes begin in late spring and don't stop until a hard frost. The blooms stay "true blue" all summer, even through heat and drought. Sturdy plants are well-branched and free flowering, with plenty of lush, dark green foliage to offset the bold blue spikes. The plants will only grow to about 20" if they are not crowded, but if planted close together, they will grow up to 3' tall.

Salvia, species longispitica x farinacea 'Playin' the Blues'

Purplish blue

2'-4' tall

NEW Moist, well-drained soil.

Full sun

LSP-F

14"-18" wide

Prairie Star

This richly colored salvia is sterile, so it will just bloom, and bloom, and bloom (instead of setting seed)! You can easily trim to keep the shape or size where you want it, and it will branch out and become even thicker and more full of flowers. Works well as a tall thriller in large containers and in mass plantings! A bit attractor of bees, butterflies, and hummingbirds!

Salvia, species 'Love and Wishes'

Magenta-purple

3'-4' tall

NEW Light, rich, moist, well-drained soil.

Part to full sun

MSP-MF

3' wide

Deep purple calyces support the large, tubular, magenta-purple blooms that cover these tough plants from early spring to frost. The flowers contrast handsomely with the dark stems and mid-green foliage. The blooms won't fade in the heat, forming a ball of color in your yard with no pruning or deadheading! Magnificent in large containers! As with 'Wendy's Wish' and 'Love and Wishes', a portion of each sale benefits Australia's Make-a-Wish Foundation, which aids in fulfilling the wishes of Australia's seriously ill children.

Annual Flower/Foliage

Salvia, species microphylla 'Hot Lips'

Red and white

3' tall

Light, rich, moist, well-drained soil.

7 Full sun

MSU-EF

3' wide

White flowers with large, wide red lips- looks like she's ready for a night out! Very long blooming; may be hardy in zones 5 and 6.

Salvia, species 'Wendy's Wish'

Deep fuchsia-pink

24"-40" tall

Light, rich, moist, well-drained soil.

Part to full sun

MSP-MF

24"-30" wide

A tropical looking salvia with deep fuchsia-pink tubular flowers that are surrounded by mauve colored calyces and are held on dark red stems. The flowers open from extremely interesting, jumbo, shrimp-like buds. The deep green foliage has a well-branched habit that sets the stage for the amazing flowers. 'Wendy's Wish' is a great plant for bringing a tropical theme to the garden. Rita enjoys it paired with dark red or purple foliaged Coleus! This variety is a chance selection found in a salvia enthusiast's garden in Victoria, Australia. Wendy, the salvia enthusiast, will realize her "wish": a portion of the proceeds will be donated to an Australian charity.

Sanvitalia 'Million Suns'

Creeping Zinnia

Golden yellow

7"-9" tall

Loose, well-drained soil.

Full sun

SP-F

8"-12" wide

Intense branching makes 'Million Suns' more free flowering and more compact than other seed grown varieties. Masses of 1/3" to 1/2" wide, single golden yellow flowers with green centers stand out from the deep green foliage all summer long. Growth starts upright in early stages, then develops a more trailing habit- ideal as ground cover or semi-trailing filler in combos.

Sanvitalia 'Sprite Orange'

Creeping Zinnia

Bright orange

4" tall ,10"-12" wide

Loose, well-drained soil.

Full sun

SP-F

Semi-double orange flowers with dark centers.

Sanvitalia 'Sunbini'

Creeping Zinnia

Golden yellow

10"-12" tall

Loose, well-drained soil.

Full sun

SP-F

12"-14" wide

Rich golden yellow flowers with green centers; full, lush, compact, trailing habit; blooms even in triple-digit heat!

Scaevola 'Brilliant'

Fan Flower

Vivid dark blue

6"-10" tall

Rich, moist, well-drained soil.

Part to full sun

SP-F

12"-18" wide

Early to flower with large clusters of vivid, dark blue, 1 1/4" wide flowers. Attractive, trailing foliage with a tighter habit than most Scaevola. Trails to 16".

Scaevola 'Surdiva White'

Fan Flower

White

10"-12" tall

Rich, moist, well-drained soil.

Part to full sun

SP-F

12"-18" wide

Prairie Star

Interesting fan-shaped white flowers. The white flowers can take on tinges of purple. Very highly rated for its prolific bloom during hot, humid summers!

Snapdragon 'Liberty Classic Crimson'

Crimson

18"-22" tall

Well-drained soil.

Part to Full sun

SP-F

1' wide

Crimson flowers; well-branched, sturdy plants with good uniformity; great for fresh cutflowers.

Annual Flower/Foliage

Snapdragon 'Liberty Classic Mix'

Mix

18"-22" tall

Well-drained soil.

Part to Full sun

SP-F

1' wide

Bronze, cherry, crimson, lavender, light pink, rose-pink, scarlet, white, and yellow flowers; well-branched, sturdy plants with good uniformity.

Snapdragon 'Montego Sunset'

Yellow, rose, and bronze

6"-10" tall

Well-drained soil.

Part to full sun

SP-F

10"-12" wide

The flowers are a unique blend of yellow, rosy scarlet, and bronze- have a floral sunset in your garden!

Snapdragon 'Rocket Cherry'

Cherry

24"-28" tall

Snapdragon 'Snapshot Sunset'

Yellow and orange-red

6"-10" tall

Well-drained soil.

Part to full sun

SP-F

8"-12" wide

Bushy, compact plants with closely spaced flower spikes of yellow flowers with an orange-red blush in the center.

Snapdragon 'Snapshot Yellow'

Light to medium yellow

6"-10" tall

Well-drained soil.

Part to full sun

SP-F

8"-12" wide

Bushy, compact plants with closely spaced flower spikes of light and medium yellow for an intense show of color.

Snapdragon 'Solstice Mix'

Mix

16"-20" tall

Well-drained soil.

Part to Full sun

SP-F

10"-15" wide

Very early to bloom plants make good "knee-high" garden cutflowers; a mix of burgundy, deep lavender, orange tricolor; pink, purple, red, rose, white, and yellow; blooms best in cool weather.

Snapdragon 'Twinny Bronze'

Deep orange, pink, and rose

10"-12" tall

Well-drained soil.

Part to full sun

SP-F

7"-8" wide

Who took the snap out of this snapdragon? 'Twinny Bronze' is a snapdragon without the snap. Why? Because it is a double, or butterfly, form that does not have the jaws or joints to snap. The 1 1/4" wide double flower form is the origin for the name 'Twinny', or twins. It will produce abundant flower spikes, plenty to cut and place in vases for fresh indoor bouquets. Exceptional garden performance, it is also tolerant to hot and wet summers. Beautiful large double blooms are a blend of deep orange, pink, and rose.

Snapdragon 'Twinny Rose'

Clear pink

10"-12" tall

Well-drained soil.

Part to full sun

SP-F

7"-8" wide

Stock 'Hot Cakes Mix'

Hot rose, pink, purple, and white

10"-16" tall

Moist, well-drained soil.

Part to full sun

SP & F

6"-8" wide

Very well-branched, dwarf plants have spikes of highly fragrant, brightly colored double blooms. Flowers in a mix of hot rose, pink, purple, and white. Great landscape and garden performance. A wonderful cool season plant for mixing with pansies, osteospermums, and more!

Strelitzia reginae (Bird of Paradise)

Bird of Paradise

Orange, blue, and white

3'-5' tall

NEW

Part to full sun

3'-5'+ wide

Unique bird-like orange, blue, and white flowers make long-lasting cut flowers. Long stalked blue-green leaves are held in fan-like formation. A great tropical accent for large containers or near pools.

Strobilanthes dyerianus (Persian Shield)

Persian Shield

Pale blue

3' tall

Light, moist, very well-drained soil.

Sun to Shade

LSU

18"-30" wide

Each 6" to 8" long, finely toothed leaf is dark bronze-green overlaid with purplish pink and frosted with silver, creating an iridescent tapestry; pale blue flowers are occasionally produced on short spikes in late summer.

Sweet Potato Vine 'Bright Ideas Black Palmate'

Sweet Potato Vine; Ipomoea

4"-12" tall

Moist, well-drained soil.

Part to full sun

12"-18" wide

Bred for their semi-compact habit, the 'Bright Ideas' have shorter internodes (stem length between each leaf) and finer leaf textures than older varieties. Their compact habit makes them perfect for planting with other plants in containers and baskets. Finely divided, palmate leaves of deep purple-black, with some leaves a purple-green color. The plants have good foliar cover, and the non-fading foliage has a subtle color variation that is stunning!

Sweet Potato Vine 'Bright Ideas Cordate Black'

Sweet Potato Vine; Ipomoea

6"-12" tall

Moist, well-drained soil.

Part to full sun

12"-18" wide

Bred for their semi-compact habit, the 'Bright Ideas' have shorter internodes (stem length between each leaf) than older varieties. Their compact habit makes them perfect for planting with other plants in containers and baskets. Heart-shaped leaves of deep purple-black, with some leaves a purple-green color. The plants have good foliar cover, and the non-fading foliage has a subtle color variation that is stunning!

Part to full sun

12"-18" wide

Bred for their semi-compact habit, the 'Bright Ideas' have shorter internodes (stem length between each leaf) than older varieties. Their compact habit makes them perfect for planting with other plants in containers and baskets. Heart-shaped leaves of iridescent lime. The plants have good foliar cover, and the non-fading foliage has a subtle color variation that is stunning!

Annual Flower/Foliage

Sweet Potato Vine 'Bright Ideas Cordate Rusty Red'

Sweet Potato Vine; Ipomoea

6"-12" tall

Moist, well-drained soil.

Part to full sun

12"-18" wide

Bred for their semi-compact habit, the 'Bright Ideas' have shorter internodes (stem length between each leaf) than older varieties. Their compact habit makes them perfect for planting with other plants in containers and baskets. The plants have good foliar cover, and the non-fading foliage has a subtle color variation that is stunning! Heart-shaped leaves are an overall unique butterscotch color, with some leaves showing chartreuse to bronzy hues! The leaves are maroon on the undersides and have maroon venation showing through on the top.

Sweet Potato Vine 'Bright Ideas Lime'

Sweet Potato Vine; Ipomoea

6"-12" tall

Moist, well-drained soil.

Part to full sun

12"-18" wide

Bred for their semi-compact habit, the 'Bright Ideas' have shorter internodes (stem length between each leaf) and finer leaf textures than older varieties. Their compact habit makes them perfect for planting with other plants in containers and baskets. Elongated palmate leaves of iridescent lime.

Sweet Potato Vine 'Bright Ideas Rusty Red'

Sweet Potato Vine; Ipomoea

6"-12" tall

Moist, well-drained soil.

Part to full sun

12"-18" wide

Bred for their semi-compact habit, the 'Bright Ideas' have shorter internodes (stem length between each leaf) and finer leaf textures than older varieties. Their compact habit makes them perfect for planting with other plants in containers and baskets. Pointed, lobed leaves are an overall unique butterscotch color, with some leaves showing chartreuse to bronzy hues! The leaves are maroon on the undersides and have maroon venation showing through on the top.

Sweet Potato Vine 'Bright Lights Bronze'

Sweet Potato Vine; Ipomoea

6"-12" tall

Moist, well-drained soil.

Part to full sun

2'-3' wide

Heart-shaped bronze foliage on compact, mounding plants. Its nice, compact habit makes it perfect for planting with other plants in containers and baskets.

Sweet Potato Vine 'Bright Lights Camouflage'

Sweet Potato Vine; Ipomoea

12"-18" tall

Moist, well-drained soil.

Part to full sun

18"-20" wide

There is no disguising the fact that this sweet potato vine is pretty funky with its unusual, mottled purple and green foliage! Use it for additional color and texture in mixed containers.

Sweet Potato Vine 'Floramia Nero'

Sweet Potato Vine; Ipomoea

Lavender

12"-18" tall

Moist, well-drained soil.

Part to full sun

SU

Not only is it described as the most compact sweet potato vine, but it actually flowers! Lavender flowers have darker throats. Black palmated-shaped foliage and a well-branching, compact habit. The leaves are smaller than most black leaved sweet potatoes. Flowers only last 1 or 2 days, but it flowers constantly! Use it in baskets or containers for something really unique!

Sweet Potato Vine 'FloraMia Verdino'

Sweet Potato Vine; Ipomoea

Lavender

12"-15" tall

NEW

Moist, well-drained soil.

Part to full sun

15"-20" wide

Not only is it described as the most compact sweet potato vine, but it actually flowers! Lavender flowers have darker throats. The fine-textured foliage ranges in color from lime green to bronze, and pairs especially well with pinks, reds, and purples. Flowers only last 1 or 2 days, but it flowers constantly! Use it in baskets or containers for something really unique!

Sweet Potato Vine 'Marguerite'

Sweet Potato Vine; Ipomoea

8"-12" tall

Moist, well-drained soil.

Part to full sun

2'-4' wide

Prairie Star

This popular chartreuse vine adds a splash of bright color and texture to pots, baskets, windowboxes, and garden beds.

Annual Flower/Foliage

Sweet Potato Vine 'Marguerite'

Sweet Potato Vine; Ipomoea

8"-12" tall

Moist, well-drained soil.

Part to full sun

2'-4' wide

Prairie Star

This popular chartreuse vine adds a splash of bright color and texture to pots, baskets, windowboxes, and garden beds.

Sweet Potato Vine 'Solar Power Black'

Sweet Potato Vine; Ipomoea

10"-12" tall

NEW Moist, well-drained soil.

Part to full sun

2'-3' wide

Densely branched plants retain their rich leaf colors and do not burn in the summer. In the K-State trials they were found to stay compact (the patio containers looked like they had been edged with a string trimmer, but hadn't!), and were very well-branched. The deeply lobed, lustrous purple-black leaves add a lot of texture to the landscape or container planting.

Sweet Potato Vine 'Solar Power Lime'

Sweet Potato Vine; Ipomoea

10"-12" tall

NEW Moist, well-drained soil.

Part to full sun

2'-3' wide

Densely branched plants retain their rich leaf colors and do not burn in the summer. In the K-State trials they were found to stay compact (the patio containers looked like they had been edged with a string trimmer, but hadn't!), and were very well-branched. The deeply lobed, bright chartreuse-green leaves add a lot of texture to the landscape or container planting.

Sweet Potato Vine 'Solar Power Red'

Sweet Potato Vine; Ipomoea

10"-12" tall

NEW Moist, well-drained soil.

Part to full sun

2'-3' wide

Densely branched plants retain their rich leaf colors and do not burn in the summer. In the K-State trials they were found to stay compact (the patio containers looked like they had been edged with a string trimmer, but hadn't!), and were very well-branched. The deeply lobed, bronzy leaves add a lot of texture to the landscape or container planting.

Sweet Potato Vine 'Sweet Caroline Bewitched'

Sweet Potato Vine; Ipomoea

6"-15" tall

Moist, well-drained soil.

Part to full sun

2'-4' wide

Prairie Star

Large, dark bronzy purple heart-shaped leaves are very jagged on the edges. Non-running habit.

Sweet Potato Vine 'Sweet Caroline Raven'

Sweet Potato Vine; Ipomoea

6"-15" tall

Moist, well-drained soil.

Part to full sun

2'-4' wide

Prairie Star

With its rich, dark purple-black foliage, 'Raven' is breathtaking alone and also makes a great addition to any combination planting. Prairie Star Award Winner!

Sweet Potato Vine 'Tricolor' (aka 'Pink Frost')

Sweet Potato Vine; Ipomoea

6"-8" tall

Moist, well-drained soil.

Part to full sun

2'-3' wide

Prairie Star

Mint green and white foliage with a violet-pink blush; trailing habit; syn. 'Pink Frost'; Prairie Star Award Winner.

Talinum paniculatum 'Limon'

Jewels-of-Opar

Rose-pink

2'-3' tall

Well-drained soil, drought tolerant.

Full sun to full shade

SU

Prairie Star

Mounded bright lime green to soft yellow-green colored foliage. Cloud-like sprays of rose-pink flowers are followed by ruby-orange seedpods. Heat and drought tolerant plants are ideal for containers, hanging baskets, and in beds. The foliage color is more vibrant when the plant is water, fertilizer, or light stressed. The flowers are good for fresh or dried arrangements.

Annual Flower/Foliage

Tecoma stans 'Mayan Gold'

Yellow Elder; Esperanza; Trumpetbush Gold

2'-3' tall

NEW Moist, well-drained soil.

Part to full sun

SP-F

12"-18" wide

A showy and exotic tropical with a compact, uniform habit. Bright green leaves, similar to those of Elderberry (hence the common name) form a lush, tropical backdrop to the hanging clusters of 1" to 2" long, golden trumpet-shaped flowers. The soft, sweet fragrance of the flowers is truly a treat! Early to bloom, heat and humidity loving plants can be used as a long-blooming tropical annual!

Tillandsia air plants- Assorted

Air Plant

NEW No soil necessary!

Bright light indoors

Tillandsia is the largest genus in the bromeliad family, accounting for approximately 550 of the over 2,500 species of bromeliads. Most Tillandsia species use their root systems to attach themselves to trees or rocks and absorb moisture and nutrients through their leaves, which classifies them as epiphytes. Absorption occurs through small scales on their leaves called trichomes. These trichomes are what give many air plants their silver or gray appearance. A fun and easy to take care of plant! They will absorb water through their leaves, however they can produce roots as well. You can glue these plants to most any surface and see them thrive. Indoors, they need bright light (but not direct sunlight), fresh air (good air circulation), and water. Give them a heavy mist of water two or three times a week.

Tithonia 'Goldfinger'

Mexican Sunflower

Scarlet-orange

30" tall

Well-drained soil.

Full sun

SU-F

2' wide

3" to 3 1/2" wide scarlet-orange flowers over a long blooming season. Excellent garden background plant or as a cutflower. Continues to flower even in dry conditions and intense heat! Attracts butterflies and hummingbirds!

Torenia 'Indigo Moon'

Wishbone Flower

Velvety violet and lavender

8" tall ,1' wide

Moist, well-drained soil.

Part to full shade

SP-F

Compact plants with rich, velvety violet 1" blossoms with lavender highlights and a yellow lip.

Torenia 'Kauai Deep Blue'

Wishbone Flower

Dark violet-blue

8"-16" tall

Moist, well-drained soil.

Part to full shade

SP-SU

8"-16" wide

Prairie Star

Compact, well-branched plants are nearly 2" shorter than similar varieties. Superior performance in extreme heat and humidity. In fact, 'Kauai' Torenia has performed very well in full sun trials in Kansas (with adequate soil moisture)! Exotic looks in small gardens and containers. The petals are drenched in vivid dark violet-blue with a light lavender throat marked by a splash of yellow.

Torenia 'Kauai Mix'

Wishbone Flower

Mix

8"-16" tall

Moist, well-drained soil.

Part to full shade

SP-SU

8"-16" wide

Prairie Star

Compact, well-branched plants are nearly 2" shorter than similar varieties. Superior performance in extreme heat and humidity. In fact, 'Kauai' Torenia has performed very well in full sun trials in Kansas (with adequate soil moisture)! Exotic looks in small gardens and containers. The petals are drenched in vivid watercolor hues, set off by lighter edges. A mix of burgundy, deep blue, lemon drop, magenta, rose, and white.

Torenia 'Magenta Moon'

Wishbone Flower

Magenta with yellow-orange.

4"-6" tall

Moist, well-drained soil.

Part to full shade

LSP-MF

10"-12" wide

Large magenta flowers with yellow-orange tips. Vigorous plants are outstanding in hanging baskets and containers.

Annual Flower/Foliage

Torenia 'Summer Wave Bouquet Cream Yellow'	Wishbone Flower	Creamy yellow and purple	10"-15" tall
Moist, well-drained soil.		SP-F	18"-30" wide

Prairie Star

A profuse bloomer, it starts flowering early in the season and, with minimal deadheading, it keeps up the show til frost. Creamy yellow flowers have showy purple throats. Forms compact mounds of foliage that eventually trails down the sides of pots and hanging baskets. Deer resistant and very attractive to hummingbirds!

Torenia 'Summer Wave Large Blue'	Wishbone Flower	Lt and dark blue	10"-12" tall
Moist, well-drained soil.	Part to Full shade	SP-F	24"-30" wide

Fast-growing, heat-loving, trailing plants are covered with light and dark blue bicolored flowers.

Torenia 'Summer Wave Large Violet'	Wishbone Flower	Deep and light violet	8"-12" tall
Moist, well-drained soil.	Part to Full shade	SP-F	24"-30" wide

Large deep violet flowers with lighter violet throats; large leaves have distinct serrated edges; fast-growing, heat-loving, trailing plants.

Torenia 'Yellow Moon'	Wishbone Flower	Yellow and purple	4"-6" tall
Moist, well-drained soil.	Part to full shade	LSP-MF	8"-12" wide

Large yellow flowers with purple throats. Vigorous, trailing plants are outstanding in hanging baskets and containers. Very heat tolerant!

Tradescantia zebrina 'Purple Wandering Jew'	Silver Inch Plant	Purple-pink	6" tall ,1'-2' wide
Rich, moist, well-drained soil.	Part to full shade	SU	

Purple leaves with wide, light silver stripes. The leaf backs are purple-red. Great in containers and hanging baskets. Insignificant flowers.

Trifolium 'Limerick Isabella'		Pink	4" tall ,8" wide
NEW Moist, well-drained soil.	Part to full sun	ESP-F	

Plum-purple leaves have small bright green centers. Pink clover blossoms from early spring to fall attract butterflies. Perfect for containers, will fill and spill over the edges and stays beautiful all season long. An easy-to-grow spiller that mixes well with other plants. Adds a unique dimension to combos.

Verbena 'Aztec Blue Velvet'	Vervain	Violet-blue	8"-10" tall
Moist, well-drained soil.	Full sun	SP-F	12"-18" wide

There's nothing like the color of 'Aztec Blue Velvet'! Rich, non-fading velvety deep purple-blue flowers with slight white eyes. A true statement in any garden or patio pot. Has a mounded, trailing habit in the garden, standing up amazingly well to heat and humidity, as well as cool temperatures.

Verbena 'Aztec Magic Magenta'	Vervain	Deep magenta-rose	8"-10" tall
NEW Moist, well-drained soil.	Full sun	SP-F	10"-12" wide

Clusters of deep magenta-rose flowers atop spreading, divided rich green foliage.

Annual Flower/Foliage

Verbena 'Aztec Red Velvet'	Vervain	Vibrant, rich ruby red and white	8"-10" tall
Moist, well-drained soil.	Full sun	SP-F	12"-18" wide

2 1/2" wide clusters of vibrant, rich ruby red flowers with showy white eyes. Deep green broadleaf foliage stays lush and healthy through the summer heat and humidity. Trailing, mounded habit.

Verbena 'Aztec Red Velvet'	Vervain	Vibrant, rich ruby red and white	8"-10" tall
Moist, well-drained soil.	Full sun	SP-F	12"-18" wide

2 1/2" wide clusters of vibrant, rich ruby red flowers with showy white eyes. Deep green broadleaf foliage stays lush and healthy through the summer heat and humidity. Trailing, mounded habit.

Verbena 'Aztec White Magic'	Vervain	Pure white	8"-10" tall
Moist, well-drained soil.	Full sun	SP-F	12"-18" wide

1 1/2" to 2" clusters of pure white flowers atop green fern-like foliage.

Verbena 'Lanai Candy Cane'	Vervain	Cherry red and white	6"-12" tall
Moist, well-drained soil.	Full sun	SP-F	1'-2' wide

This sweet treat brings a spark of fun! The large, striking flowers have a novelty pattern- the petals are a pinwheel of cherry red and white stripes. The flower pattern is very stable. Mounding and trailing plants fill baskets, containers, and gardens. Has exceptional powdery mildew resistance.

Verbena 'Lanai Twister Purple Improved'	Vervain	Dark and pale purple	6"-10" tall
Moist, well-drained soil.	Full sun	LSP-F	20"-24" wide

Large, striking flowers have a center ring of solid purple florets, surrounded by concentric rings of pale purple florets. Strong branching habit and long flowering period. Excellent heat tolerance and great powdery mildew resistance!

Verbena 'Voodoo Merlot Star'	Vervain	Rosy violet and white	6"-12" tall
Moist, well-drained soil.	Full sun	SP-F	20" wide

Large clusters of vivid rosy violet flowers accented with pure white petal edges, giving each flower a "star" like appearance! Lush, olive green, mildew-resistant foliage has a vigorous, mounded, semi-trailing habit. Very tolerant to heat, drought, and high humidity.

Verbena 'Voodoo Salmon Star'	Vervain	Salmon and cream	6"-12" tall
Moist, well-drained soil.	Full sun	SP-F	20" wide

Large clusters of bright salmon flowers accented with creamy petal edges, giving each flower a "star" like appearance! Lush, olive green, mildew-resistant foliage has a vigorous, mounded, semi-trailing habit. Very tolerant to heat, drought, and high humidity.

Verbena, species bonariensis	Buenos Aires Verbena, Tall Verbena, Verbena on a Stick	Dark lavender	3'-4' tall
Moist, well-drained soil.	Full sun	SP-F	12"-14" wide

1" to 2" wide dark lavender flowerheads on very tall, stiff stems. The flowers perk up the garden from mid summer through fall. A nice "see-through" plant- plant it amongst other plants with more substantial leaves and flowers and you won't be disappointed! An excellent cutflower. Often reseeds. Great in combination with Nicotiana sylvestris and ornamental grasses. The flowers are a delight to butterflies. A favorite here at Arnold's Greenhouse!

Annual Flower/Foliage

Verbena, species bonariensis 'Meteor Shower'

Buenos Aires Verbena, Tall Verbena, Lilac
Verbena on a Stick

20"-30" tall

NEW Moist, well-drained soil.

Full sun

SP-F

8"-12" wide

Lollipop of lilac blooms atop deep green foliage. A fun plant for landscapes and containers, this is a truly compact form of the common *V. bonariensis*. Plants are easy to maintain as they do not need deadheading. However, removing old flowers can be done if you would like. An updated look for the species, 'Meteor Shower' has a denser, more vigorous growth habit with equates to more manageable and attractive plants as a flowering thriller in containers and massed in the landscape. Heat and drought tolerant, loved by butterflies and hummingbirds, and resistance to deer and rabbits, all sweeten its appeal!

Verbena, species rigida 'Santos Purple'

Vervain Violet

12"-14" tall

NEW Moist, well-drained soil.

Full sun

SP-F

16"-36" wide

One of the easiest and most rewarding of all annual groundcovers, this quick-spreading Verbena blooms from late spring until mid fall, bringing butterflies and hummingbirds by the dozen into the garden and creating a rich carpet of color for the sunny garden floor. You'll adore its ease of care and long, long, long season of color! Very low maintenance, 'Santos Purple' puts up with heat, drought, and poor soil once established in the garden. Also has high powdery mildew resistance. The dazzling violet blooms are so eye-catching, even from a distance, and simply splendid in a large planting. This is a plant to use in groups of 3, 9, or a dozen and more- the effect is of a rippling carpet of pure color! Great in baskets and combination planters, too!

Verbena, species tenuisecta 'Imagination'

Vervain Violet-blue

8" tall ,1' wide

Moist, well-drained soil.

Full sun

SP-F

Violet-blue to dark lilac flowers top the ferny dark green foliage. A wonderful bloomer that loves the heat and humidity!

Vinca Vine 'Maculata'

3"-8" tall

Moist, well-drained soil.

Full sun to Full shade

1' wide

Chartreuse leaves are edge in green; great in baskets and containers; occasionally shows its periwinkle blue flowers.

Vinca Vine 'Variegata'

3"-8" tall

Moist, well-drained soil.

Full sun to Full shade

1' wide

Sage green leaves are edged in cream; great in baskets and containers; occasionally shows its periwinkle blue flowers.

Vinca Vine 'Wojo's Jem'

3"-8" tall

Moist, well-drained soil.

Full sun to Full shade

1' wide

Cream to bright yellow leaves with deep green margins; trailing habit, though more compact than other varieties; great in baskets and containers.

Vinca, Apricot/Lavender/Pink 'Cobra Orange'

Periwinkle; Madagascar Periwinkle; Rose Deep salmon-orange
Periwinkle

9"-10" tall

Moist, well-drained soil.

Full sun

LSP-F

12"-14" wide

Deep salmon-orange flowers with white eyes. Very large flowers are 2" to 2 1/2" in diameter. Dense branching, robust plants. Very disease resistant.

Vinca, Apricot/Lavender/Pink 'Cora Apricot Improved'

Periwinkle; Madagascar Periwinkle; Rose Apricot
Periwinkle

14"-16" tall

Moist, well-drained soil.

Full sun

LSP-F

14"-25" wide

Very uniform in plant habit, these heat tolerant, disease-resistant, robust plants produce an abundance of showy, 2" wide blooms. Lush, glossy foliage. 'Cora Apricot Improved' has larger flowers that are a deeper apricot color, and more vigorous plants that are earlier to bloom.

Annual Flower/Foliage

Vinca, Apricot/Lavender/Pink 'Jams 'N Jellies Blackberry'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle
Velvety deep purple

10"-14" tall

Moist, well-drained soil.

Full sun

LSP-F

10"-12" wide

2" wide, velvety deep purple flowers have tiny white eyes and are complimented by shiny deep green leaves. In some settings, the petals appear almost black, making this color a designer's delight! Well-branched, bushy plants. Blooms early and stays in color til frost! All-America Selections winner!

Vinca, Apricot/Lavender/Pink 'Jams 'N Jellies Blueberry'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle
Bright rich blue-purple

10"-14" tall

Moist, well-drained soil.

Full sun

LSP-F

10"-12" wide

1 1/2" to 2" wide, velvety deep blue-purple flowers are complimented darker eyes. Flowers atop bright green, lush, and glossy foliage. Well-branched, bushy plants. Blooms early and stays in color til frost! All-America Selections winner!

Vinca, Apricot/Lavender/Pink 'Pacifica Rose Halo'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle
Vibrant cherry rose and white

10"-16" tall

Moist, well-drained soil.

Full sun

LSP-F

8"-12" wide

Prairie Star

Vibrant cherry rose blossoms with overly large white centers.

Vinca, Apricot/Lavender/Pink 'Pacifica XP Raspberry'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle
Rich raspberry pink

10"-16" tall

Moist, well-drained soil.

Full sun

LSP-F

8"-12" wide

Prairie Star

Large, 2 1/2" rich raspberry pink flowers. The glossy, dark green foliage can be literally covered with flowers due to plant vigor and heat tolerance. Upright, basal-branching plants resist stretching even in intense heat.

Vinca, Apricot/Lavender/Pink 'Soiree Kawaii Pink'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle
Intense rose-pink

6"-10" tall

NEW Moist, well-drained soil.

Full sun

LSP-F

12"-18" wide

These are micro blooming vinca which will light up any garden with their amazing flower coverage, vivid, eye-drawing, intense rose-pink flowers atop glossy, deep green foliage. Though its intensely colored flowers are small, there are many of them, practically smothering the plant in blooms all summer long. Keeps its great habit all summer long, has no leggy branches, and has tons of flower power. Holds up to heat and drought like a champ. Perfect for all kinds of containers, including window boxes, hanging baskets, and combination patio planters.

Vinca, Apricot/Lavender/Pink 'Titan Lavender Blue Halo'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle
Lavender-blue and white

14"-16" tall

Moist, well-drained soil.

Full sun

LSP-F

12"-23" wide

Prairie Star

Large, 1 3/4" to 2" lavender-blue flowers with large white eyes. Blooms up to two weeks earlier than 'Blue Pearl', and with larger flowers!

Vinca, Apricot/Lavender/Pink 'Valiant Orchid'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle
Bright lilac-blue

14"-20" tall

NEW Moist, well-drained soil.

Full sun

LSP-F

10"-12" wide

Extra large flowers of bright lilac-blue with large white eyes. Upright, well-branched, plants are tolerant of phytothera and show superior plant vigor during hot sun, drought and cool/damp conditions.

Annual Flower/Foliage

Vinca, Apricot/Lavender/Pink 'Valiant Punch'

Periwinkle; Madagascar Periwinkle; Rose
Periwinkle

Hot magenta-rose

14"-20" tall

NEW Moist, well-drained soil.

Full sun

LSP-F

10"-12" wide

Extra large flowers of hot magenta-rose. Upright, well-branched, plants are tolerant of phytothera and show superior plant vigor during hot sun, drought and cool/damp conditions.

Vinca, Cascading 'Cora Cascade Cherry'

Periwinkle; Madagascar Periwinkle; Rose
Periwinkle

Light cherry red

6"-8" tall

Moist, well-drained soil.

Full sun

LSP-F

32"-36" wide

Thrives in heat and humidity and has patented resistance to aerial Phytophthora. Vigorous trailing habit with super large (1 1/4" to 2" wide), long-lasting light cherry red blooms that cover the plants as they fill and spread. Superior to the 'Mediterranean XP' series.

Vinca, Cascading 'Cora Cascade Polka Dot'

Periwinkle; Madagascar Periwinkle; Rose
Periwinkle

White with red eye

6"-8" tall

Moist, well-drained soil.

Full sun

LSP-F

32"-36" wide

Thrives in heat and humidity and has patented resistance to aerial Phytophthora. Vigorous trailing habit with super large (1 1/4" to 2" wide), long-lasting white blooms with red eyes that cover the plants as they fill and spread. Superior to the 'Mediterranean XP' series.

Vinca, Cascading 'Cora Cascade Strawberry'

Periwinkle; Madagascar Periwinkle; Rose
Periwinkle

Soft pink and rose

6"-8" tall

Moist, well-drained soil.

Full sun

LSP-F

32"-36" wide

Large, prolific blooms feature luscious rose centers surrounded by soft pink. Thick, glossy green foliage forms the backdrop to the large flowers with overlapping petals. Well-branched, mounded and spreading plants are perfect for containers, baskets, and landscapes.

14"-16" tall

Moist, well-drained soil.

Full sun

LSP-F

14"-25" wide

Very uniform in plant habit, these heat tolerant, disease-resistant, robust plants produce an abundance of showy, 2" wide, pure white blooms. Lush, glossy foliage.

Annual Flower/Foliage

Vinca, White 'Titan Polka Dot'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle White with a small red eye

14"-16" tall

Moist, well-drained soil.

Full sun

LSP-F

12"-23" wide

Prairie Star

Very early to bloom. Very large, well-branched plants are covered with huge 2" pure white flowers with a small red eye. Prairie Star Award Winner.

Xanthosoma aurea 'Golden Delicious' (Yellow Elephant Ear) ('Lime Zinger')

Yellow Elephant Ear

2'-4' tall

Prefers rich, moist, well-drained soil.

Part to Full shade

2'-3' wide

Bright yellow foliage in partial shade and chartreuse in full shade; great in combination with Colocasia 'Black Magic'; leaves are up to 2' long; tolerates wet conditions; great for containers; syn. 'Lime Zinger', 'Chartreuse Giant', 'Mufaffa'.

Zinnia 'Bridesmaid'

Deep lemon yellow

14"-18" tall

Well-drained soil.

Full sun

SU-F

10"-12" wide

Prairie Star

This Bridesmaid steals all the attention, with its fluffy, double deep lemon-yellow blooms! As tough as it is pretty, this easy-care 'Bridesmaid' thrives in containers and beds and makes a beautiful cut flower indoors, too! A low-water needs, easy-care variety.

Zinnia 'Cut & Come Again'

Mix

24"-30" tall

Well-drained soil.

Full sun

SU-F

8"-10" wide

Zinnias add bold, vibrant color to gardens. The more you cut, the more they bloom! Heat-loving and very easy to grow. This is Burpee's favorite double zinnia! Long-stemmed double flowers 2 1/2" across are wonderful for cutting as well as in the garden. As the name implies, whenever you cut blooms, additional stems appear and soon blossom. They keep on blooming from midsummer to frost. Blend of pink, bright scarlet, yellow, salmon, white, magenta, cream, rose, orange, and more! A variety loved by all kinds of butterflies!

Zinnia elegans 'Dreamland Red'

Bright red

10"-12" tall

Well-drained soil.

Full sun

SU-F

10"-12" wide

Enjoy the elegance of these 4" Dahlia-form flowers of the richest red. They arise atop neat compact plants just 6 weeks after planting. Very rugged and weather tolerant, this sun-lover renews itself quickly after storms, thanks to waxy petals and a very tough, vigorous plant constitution. Attracts butterflies.

Zinnia elegans 'Lilliput'

Mix

12"-18" tall

Well-drained soil.

Full sun

SU-F

10"-16" wide

Produces colorful blossoms of round, button-type flowers in various crayon colors! Lots of lovely 1 1/2" bright scarlet, white, rose, yellow, gold, purple, and orange blooms. They look beautiful in fresh cut arrangements. If deadheaded, they will bloom continually from mid summer to frost. In a University of Kentucky trial, entomology professors found that common butterflies preferred 'Lilliput' zinnias twice as much as the other Zinnias in the trial (other varieties were 'State Fair', 'Oklahoma', and 'Pinwheel').

Zinnia elegans 'Magellan Mix'

Mix

12"-14" tall

Well-drained soil.

Full sun

ESU-F

10"-12" wide

Vigorous, uniform plants have exceptional flower quality, showing off large, fully double 4" to 5" blooms in vibrant, high-impact colors in a mix of cherry, coral, ivory, orange, pink, salmon, scarlet, and yellow; new growth continually covers spent blooms so the plants always look fresh.

Annual Flower/Foliage

Zinnia elegans 'Magellan Orange'

Bold orange

12"-14" tall

Well-drained soil.

Full sun

ESU-F

10"-12" wide

Vigorous, uniform plants have exceptional flower quality, showing off large, fully double 4" to 5" flowers of bold orange atop compact, uniform plants; new growth continually covers spent blooms so the plants always look fresh.

Zinnia elegans 'Magellan Pink'

Medium pink

12"-14" tall

Well-drained soil.

Full sun

ESU-F

10"-12" wide

Vigorous, uniform plants have exceptional flower quality, showing off large, fully double 4" to 5" flowers of strong, medium pink atop compact, uniform plants; new growth continually covers spent blooms so the plants always look fresh.

Zinnia elegans 'Magellan Scarlet'

Bright scarlet

12"-14" tall

Well-drained soil.

Full sun

ESU-F

10"-12" wide

Vigorous, uniform plants have exceptional flower quality, showing off large, fully double 4" to 5" flowers of bright scarlet atop compact, uniform plants; new growth continually covers spent blooms so the plants always look fresh.

Zinnia elegans 'Magellan Yellow'

Bright yellow

12"-14" tall

Well-drained soil.

Full sun

ESU-F

10"-12" wide

Vigorous, uniform plants have exceptional flower quality, showing off large, fully double 4" to 5" flowers of bright yellow atop compact, uniform plants; new growth continually covers spent blooms so the plants always look fresh.

Zinnia elegans 'Uproar Rose'

Deep rose

2'-3' tall

Well-drained soil.

10 Full sun

SU-F

24"-27" wide

This beautiful variety is head and shoulders above other cut flower zinnias. Two extra inches of garden height add stature to strong, well-branched plants covered with fully double, deep rose blooms.

Zinnia elegans 'Zinnita Mix'

Mix

6"-8" tall

Well-drained soil.

Full sun

ESU-F

8"-10" wide

Fully double 1½" to 2" blooms flower in abundance on well-branched plants with a globe-shaped habit that forms mounds; orange, rose, scarlet, white, and yellow flowers; Prairie Star.

Zinnia grandiflora 'Swizzle Scarlet & Yellow'

Gold and scarlet

10"-12" tall

Well-drained soil.

Full sun

SU-F

8"-12" wide

Large, fully double bicolored blooms have scarlet petals with golden yellow tips; full, bushy plants are great for borders and containers!

Zinnia interspecific cross 'Profusion Double Deep Salmon'

Vibrant deep salmon

10"-16" tall

Well-drained soil.

Full sun

LSP-F

12"-22" wide

Dramatic, intensely vibrant, deep salmon, double flowers are 2 1/2" to 3" wide. Early, continuous blooming plants perform well under both warm and cool conditions with high humidity. Excellent tolerance to disease, including Powdery Mildew.

Annual Flower/Foliage

Zinnia interspecific cross 'Profusion Double Hot Cherry'

Vivid deep rose

8"-16" tall

Well-drained soil.

Full sun

LSP-F

12"-22" wide

Vivid deep rose, double flowers are 2 1/2" to 3" wide. The bright color does not fade, even under high temperatures. Early, continuous blooming plants perform well under both warm and cool conditions with high humidity. Excellent tolerance to disease, including Powdery Mildew.

Zinnia interspecific cross 'Profusion Double White'

White

10"-16" tall

Well-drained soil.

Full sun

LSP-F

12"-22" wide

Prairie Star

Early, continuous blooming plants perform well under both warm and cool conditions with high humidity. Excellent tolerance to disease, including Powdery Mildew. 2" wide, pure white, double flowers.

Zinnia interspecific cross 'Profusion Double Yellow'

Radiant deep yellow

12"-18" tall

Well-drained soil.

Full sun

SU-F

16"-24" wide

A highly prolific bloomer with masses of 2 1/2" to 3" wide double, radiant deep yellow flowers on mid-height plants. Performs exceptionally well in planters, and in the garden and landscape. Early, continuous blooming plants perform well under both warm and cool conditions with high humidity. Excellent tolerance to disease, including Powdery Mildew.

Zinnia interspecific cross 'Profusion Mix'

Mix

10"-16" tall

Well-drained soil.

Full sun

LSP-F

12"-22" wide

2" to 3" single flowers in a mix of all the 'Profusion' colors; dense, bushy habit; good tolerance to powdery mildew.

Zinnia interspecific cross 'Profusion Orange'

Bright orange

10"-16" tall

Well-drained soil.

Full sun

LSP-F

12"-22" wide

Prairie Star

Vivid 2" to 3" bright orange single blooms; dense, bushy habit; good tolerance to powdery mildew; AAS Winner; Prairie Star Award Winner.

Zinnia linearis 'Crystal Orange'

Orange

8"-15" tall

Well-drained soil.

Full sun

LSP-F

1'-2' wide

Bright, deep orange 1" to 2" daisy-like flowers; compact habit.

Zinnia linearis 'Crystal White'

Pure white

8"-15" tall

Well-drained soil.

Full sun

LSP-F

1'-2' wide

Prairie Star

Pure white 1" to 2" daisy-like flowers; compact habit; AAS Winner; Prairie Star.

Zinnia linearis 'Crystal Yellow'

Deep yellow

8"-15" tall

Well-drained soil.

Full sun

LSP-F

1'-2' wide

Deep yellow 1" to 2" daisy-like flowers; compact habit.

Annual Flower/Foliage

Zinnia marylandica 'Zahara Cherry'

Cherry rose

12"-15" tall

NEW Well-drained soil.

Full sun

SU-F

1'-2' wide

Prairie Star

2" to 2 1/4" wide very deep cherry single to semi-double flowers. The flower color gets deeper in full sun with no fading. All-new disease-tolerant and heat loving plants. Once established in the ground, this heat-loving and drought-tolerant Zinnia has very low watering needs.

Zinnia marylandica 'Zahara Double Cherry Improved'

Cherry rose

12"-15" tall

NEW Well-drained soil.

Full sun

SU-F

1'-2' wide

Prairie Star

Fully double, 2 1/2" wide deep cherry rose flowers. Proven resistance to leaf spot and mildew. Heat and drought tolerant plants are easy to grow in gardens.

Zinnia marylandica 'Zahara Double Fire'

Scarlet-orange

12"-15" tall

Well-drained soil.

Full sun

SU-F

1'-2' wide

Prairie Star

Fully double, 2 1/2" wide scarlet-orange flowers. Proven resistance to leaf spot and mildew. Heat and drought tolerant plants are easy to grow in gardens. 2010 All America Selections Winner!

Zinnia marylandica 'Zahara Double Salmon Rose'

Glowing salmon-rose

12"-15" tall

NEW Well-drained soil.

Full sun

SU-F

1'-2' wide

Prairie Star

Fully double, 2 1/2" wide glowing salmon-rose flowers. Proven resistance to leaf spot and mildew. Heat and drought tolerant plants are easy to grow in gardens.

Zinnia marylandica 'Zahara Double Strawberry'

Strawberry rose

12"-15" tall

Well-drained soil.

Full sun

SU-F

1'-2' wide

Prairie Star

2 1/2" wide, fully double flowers of strawberry rose with whitish petals towards the center of the blooms. The highly basal-branching plants create a beautiful symmetrical plant habit that is completely covered at first with buds, then with consistently double flowers. Heat and drought tolerant plants are easy to grow in gardens. Highly dependable tolerance to leaf spot and mildew diseases.

Zinnia marylandica 'Zahara Double Yellow'

Lemon

12"-15" tall

NEW Well-drained soil.

Full sun

SU-F

1'-2' wide

Prairie Star

Fully double, 2 1/2" wide sunny lemon flowers. Proven resistance to leaf spot and mildew. Heat and drought tolerant plants are easy to grow in gardens.

Zinnia marylandica 'Zahara Raspberry'

Dark rose-purple

12"-15" tall

Well-drained soil.

Full sun

SU-F

1'-2' wide

Prairie Star

2 1/2" wide flowers of dark rose with purple undertones. The highly basal-branching plants create a beautiful symmetrical plant habit that is completely covered at first with buds, then with consistently double flowers. Heat and drought tolerant plants are easy to grow in gardens. Highly dependable tolerance to leaf spot and mildew diseases.

Annual Flower/Foliage

Zinnia marylandica 'Zahara Red'

NEW Well-drained soil.

Full sun

Scarlet-orange

SU-F

12"-15" tall

1'-2' wide

Prairie Star

2" to 2 1/4" wide, fiery scarlet-orange, single to semi-double flowers. The flower color gets deeper in full sun with no fading. All-new disease-tolerant and heat loving plants. Once established in the ground, this heat-loving and drought-tolerant Zinnia has very low watering needs.

Zinnia marylandica 'Zahara Scarlet'

Well-drained soil.

Full sun

Deep scarlet

SU-F

12"-15" tall

1'-2' wide

Prairie Star

2" to 2 1/4" wide very deep scarlet-red semi-double flowers. The flower color gets deeper in full sun with no fading. All-new disease-tolerant and heat loving plants. Once established in the ground, this heat-loving and drought-tolerant Zinnia has very low watering needs.

Zinnia marylandica 'Zahara Starlight Rose'

Well-drained soil.

Full sun

Rose and white

SU-F

12"-15" tall

1'-2' wide

Prairie Star

White petals have a central rose paint stripe in the center of each petal. 2 1/2" wide single flowers. The color pattern varies by environment, with the best color coming in environments with high sunlight, good fertilization, and cool nights. The rose color will fade in the heat. Proven resistance to leaf spot and mildew. Heat and drought tolerant plants are easy to grow in gardens. 2010 All America Selections Winner!

Zinnia marylandica 'Zahara Sunburst'

Well-drained soil.

Full sun

Gold and mahogany red

SU-F

12"-15" tall

1'-2' wide

Prairie Star

Enjoy some "sun" (as in 'Zahara Sunburst'!) in your garden even when it's cloudy or raining! Its unique mahogany red and yellow bicolor flower pattern is a first in Zinnia marylandica. The flowers bursts open gold, followed by the appearance of a mahogany red stripe down the center of each petal. Cool night temperatures will thicken the stripe, while warm nights will diminish it.

Zinnia marylandica 'Zahara Yellow Improved'

Well-drained soil.

Full sun

Bright sunny yellow

SU-F

12"-15" tall

1'-2' wide

Prairie Star

2" to 2 1/4" wide rich, pure sunny yellow semi-double flowers. All-new disease-tolerant and heat loving plants. Once established in the ground, this heat-loving and drought-tolerant Zinnia has very low watering needs. 'Zahara Yellow Improved' is more vigorous than the original.

Zinnia 'UpTown Frosted Strawberry'

NEW Well-drained soil.

Full sun

Pink shades

SU-F

18"-24" tall

18"-24" wide

Very large, double blooms produce a gorgeous tapestry of color! Pink petals are brushed with magenta in the centers, and tipped and edged in cream, for a frosted look! Floriferous, medium-sized plants offer a continuous fiesta of dreamy color from spring into fall. Easy-growing, high-performance spreading plants are disease-resistant, and heat- and drought-tolerant. Produces a gorgeous splash in containers, borders and beds. In trial at the Missouri Botanical Gardens, it was found to be extremely vigorous, like a Z. marylandica on steroids! Even when planted at the recommended spacing, they crowded out other zinnias in a trial bed!

Zinnia 'UpTown Grape'

Well-drained soil.

Full sun

Wine-red

SU-F

18"-24" tall

18"-24" wide

Prairie Star

Very large, single, wine-red blooms produce a gorgeous tapestry of color! Floriferous, medium-sized plants offer a continuous fiesta of dreamy color from spring into fall. Easy-growing, high-performance spreading plants are disease-resistant, and heat- and drought-tolerant. Produces a gorgeous splash in containers, borders and beds. In trial at the Missouri Botanical Gardens, it was found to be extremely vigorous, like a Z. marylandica on steroids! Even when planted at the recommended spacing, they crowded out other zinnias in a trial bed!

Annual Flower/Foliage

Zinnia 'UpTown Orange Blossom'

Vivid deep orange

18"-24" tall

NEW Well-drained soil.

Full sun

SU-F

18"-24" wide

Very large, single vivid deep orange blooms produce a gorgeous tapestry of color! Floriferous, medium-sized plants offer a continuous fiesta of dreamy color from spring into fall. Easy-growing, high-performance spreading plants are disease-resistant, and heat- and drought-tolerant. Produces a gorgeous splash in containers, borders and beds. In trial at the Missouri Botanical Gardens, it was found to be extremely vigorous, like a Z. marylandica on steroids! Even when planted at the recommended spacing, they crowded out other zinnias in a trial bed!

Annual Grass			
Carex comans 'Amazon Mist'	Sedge		10" tall ,14"-18" wide
Well-drained soil.		Part to full sun	
Twisted tips on the foliage of this light green and medium green variegated variety make it a great addition to containers and flower beds.			
Carex flagellifera 'Toffee Twist' ('Bronzita')	Sedge		16"-18" tall
Well-drained soil.		Part to Full sun	15"-18" wide
Prairie Star			
Cinnamon colored leaves are similar to <i>C. buchananii</i> , but with a more sweeping habit; great as a trailing component in a container; syn. 'Bronzita'. Prairie Star Award Winner.			
Carex testacea 'Prairiefire'	Sedge		16" tall ,1' wide
Well-drained soil.		Part to full sun	
True to its name, this semi-erect variety looks like it is no fire, with foliage green at the base and orange on top. The color intensifies during the summer.			
Eragrostis tef 'Ruby Silk'	Love Grass	Rich burgundy	18"-24" tall
Prefers consistently moist soil, though it is drought tolerant.		Full sun to part shade	MSU-EF
Great for containers or for use as a cut flower. Rich burgundy seed heads drape over compact clumps of upright grass. Long bloom time. For use as a cut or dried flower, harvest when the panicles are fully lopened, yet still ruby in color. Keeps its color when dried and looks great in both fresh and dried arrangements.			
Isolepis cernus (Fiber Optic Grass)- SVD	Fiber Optic Grass; Mop Sedge		10"-12" tall
Prefers constantly moist to wet soil.		Part to Full sun	8"-10" wide
This easy to grow, fast growing grass adapts to almost any soil; particularly fond of wet soils along a pond or water garden; its very bright green, fine, cascading leaves make it a great addition to a container garden; also grows well indoors in good light.			
Melinis 'Pink Crystals' (Ruby Grass)	Ruby Grass; Natal Grass	Ruby and silver	20"-24" tall
Moist, well-drained soil.		Full sun	SU
Prairie Star			
Shimmering heads of ruby and silver flowers that sparkle like champagne bubbles from mid summer to early fall; Plant Select Award Winner; formerly listed under <i>Rhynchelytrum</i> .			
Ophiopogon arabicus 'Nigrescens'	Black Mondo Grass	Blush	6"-8" tall
Moist, well-drained soil.		7 Part to full sun	SU
Bold. black foliage! Prized by gardeners that have it, envied by those that don't! This lily relative has true black, 2 1/4" wide grass-like foliage. Easy to grow, it is perfect for containers or flower beds (try underplanting it with <i>Lysimachia nummularia</i> 'Aurea'!). A slow growing plant, we recommend treating it as a houseplant in the winter so that it will continue to grow! Marginally hardy in zones 5 & 6. Spikes of blush flowers give way to large, non-edible black berries.			
Pennisetum advena 'Eaton Canyon' ('Dwarf Rubrum')- SVDs	Dwarf Purple Fountain Grass	Rose-red	1'-3' tall
Light, well-drained soil.		Full sun	SU-F
Dwarf Purple Fountain Grass; this dwarf form has a slightly more narrow leaf blade; dried flower.			

Annual Grass

Pennisetum advena 'Fireworks'	Variegated Red Fountain Grass	Purple-black	24"-40" tall
Light, well-drained soil.	Part to full sun	LSU-F	18"-30" wide

Prairie Star

White and pink striped foliage is variable in color and changes depending on the temperature. Upright growth habit. Dark purple tassels in late summer. Excellent for mixed containers.

Pennisetum advena 'Red Riding Hood'	Purple Fountain Grass	Rose	18"-38" tall
Light, well-drained soil.	Full sun	LSU-F	18"-30" wide

Prairie Star

This graceful fountain grass features beautiful arching leaves with nodding rose-colored flower spikes. Grows in dense, symmetrical clumps, creating a wonderful border or edge. Prairie Star Award Winner!

Pennisetum advena 'Rubrum'	Purple Fountain Grass	Rose-red	4' tall
Light, well-drained soil.	Full sun	LSU-F	3' wide

Prairie Star

Purple Fountain Grass; Holds its purplish red foliage color all season; rose-red flowers; dried flower; Prairie Star Award Winner.

Pennisetum advena 'Sky Rocket'	Fountain Grass	Smoky pink	20"-30" tall
Light, well-drained soil.	Full sun	MSU-F	2' wide

Prairie Star

This green and white variegated sport of P. 'Fireworks' is a strong grower that exhibits stable variegation all season long. Green leaves with white striped margins form a beautiful vase-like clump topped with smoky pink, arching plumes that turn cream as they age. Since the plumes are sterile, the plant blooms from midsummer all the way til frost.

Pennisetum glaucum 'Jade Princess'	Ornamental Millet	Mahogany-red	18"-36" tall
Light, well-drained soil.	Part to full sun	MSU-LSU	18"-25" wide

Prairie Star

The most compact habit of all the ornamental millets. Intense lime green leaves on plants with a controlled and mounded shape. The large mahogany-red, fuzzy bottlebrush flower spikes are free from pollen, adding to the appeal! The large fluffy panicle flower emerging from the foliage brings to mind the image of a fox sneaking through the tall grass. Especially good for containers, but excellent in the landscape as well! Very compact and easy to grow! A wonderful attention-getter- plant it where you want it really noticed! Dr. Alan Stevens of K-State suggests planting it in front of businesses as everyone who sees it wants to get close to it! Prairie Star Award Winner!

Pennisetum glaucum 'Purple Majesty'	Ornamental Millet	Deep bronze-red	3'-4' tall
Light, well-drained soil.	Part to full sun	SU-F	24"-28" wide

Prairie Star

Ornamental Millet; Deep purple leaves, stems, and 8" to 14" long seedheads; the deepest color is in full sun; immature seedheads can be cut and used in dramatic floral arrangements; left on the plant, the millet seed spikes attract birds; very tolerant of heat and low moisture; AAS Winner; Prairie Star Award Winner.

Pennisetum purpureum 'Vertigo'	Pearl Millet	Black	36"-50" tall
Light, well-drained soil.	Full sun	MSU-EF	2'-4' wide

Prairie Star

A wonderful "thriller" for drama in large containers and in the landscape! Particularly dramatic in clusters, mass plantings, or along slopes as well. Wide, spiky, deep purple, almost black foliage has a gracefully cascading habit. Fast growing. Stocky bloom spikes of black appear from mid summer to first frost, but they take a backseat to the beautiful foliage! A top performer in trials all over the US!

Annual Grass

Stipa tenuissima (Pony Tails)

Stripa Grass; Feather Grass; Pony Tails;
Needle Grass; Spear Grass

Straw

1'-2' tall

Rich, well-drained soil.

6

Part to Full sun

LSP-SU

8"-12" wide

Looks like a bright green pony tail emerging from the soil; graceful straw colored plumes; great for containers and flower beds; wonderful in both fresh and dried flower arrangements; attracts butterflies; incredible winter interest; deer resistant; syn. *Nasella tenuissima* marginally hardy in zone 6.

Annual Succulent

Aeonium arboreum 'Kiwi'

Pale yellow

6"-12" tall

Lean, well-drained soil.

Full sun

SU

4"-8" wide

'Kiwi' dazzles the garden with rosettes up to 5" wide, in a kaleidoscope of pinks, oranges, creams, and greens. Pale yellow flowers appear in summer. Has an upright/mounding habit that can reach up to 3' if overwintered indoors. One of the most colorful Aeoniums.

Aeonium arboreum atropurpureum ('Zwartkop')

Pale yellow

32" tall

Well-drained soil.

Part to Full sun

SU

1' wide

This unusual succulent produces dense, flat rosettes of reddish black leaves on elongated stems; an excellent xeric succulent for troughs, rock gardens, or containers, both indoors or outside; syn. *Sempervivum arboreum*; *Megalonium*.

Agave americana 'Cornelius'

Quasimoto Agave; Dwarf Century Plant

Yellow-green

1'-2' tall

Very well-drained soil.

Part to full sun

infrequent

2'-3' wide

The spectacular wide yellow margins give this plant its "wow" factor. Forms a nice clump of thick, wavy blue-green leaves margined by a 2" wide yellow margin. Yellow-green flowers are produced infrequently. A great container plant! Syn. 'Quasimodo', 'Incurva Marginata', and 'Marginata Aurea Monstrosa'.

Agave americana 'Opal'

American Century Plant

White

3' tall

Very well-drained soil.

Part to full sun

infrequent

4' wide

Large, upright rosettes of sharp-spined, blue-gray leaves with attractive creamy yellow edges. Looks spectacular in the landscape and in containers. Quite sun, heat, and cold tolerant.

Agave attenuata 'Kara's Stripes'

Variegated Fox Tail Agave

Yellow

3'-5' tall

Very well-drained soil.

Part sun

infrequent

4'-6' wide

This exciting Agave features wide yellow leaves edged with a green margin. Yellow flowers are produced infrequently.

Agave 'Blue Glow'

Unknown

1'-2' tall

Very well-drained soil.

Part to full sun

Unknown

1'-3' wide

A cross between *A. attenuata* and *A. ocahui*. This beautiful little gem forms beautifully symmetrical solitary rosettes with 1 1/2" wide chalky blue-green leaves with deep red and yellow margins. The leaf margins glow beautifully when backlit by the afternoon sun! Tiny soft spines line the leaf edge and each smooth leaf is tipped with a short, red, terminal spine. Because of its small stature, it is well suited for containers or planted in groups where it can show off its unique leaf form and margins.

Agave celsii 'Multicolor'

Century Plant

Yellow-green

18"-28" tall

Very well-drained soil.

Part to full sun

infrequent

2'-4' wide

Compact rosettes of thick, fleshy, 6" wide x 2' long glaucous gray-green leaves with dramatic creamy margins. The leaves gracefully curve upwards. The margins of the leaves are also lined with a row of evenly spaced, black teeth, which perfectly frame the already stunning effect of the bicolored leaves. Cool weather can bring on a reddish tinge to the leaves, making the name 'Multicolor' valid. *Agave celsii* is a cloud forest species native to north central Mexico, although it seems quite happy growing here in full sun. A superb container plant.

Agave guiengola 'Creme Brulee'

Century Plant

Yellow

18"-30" tall

Very well-drained soil.

Part to full sun

infrequent

2'-3' wide

Forms an elegant, open rosette of wide, incredibly thick, glaucous blue-green, boat-shaped, soft leaves margined by a beautiful butter cream yellow to creamy white 1" wide edge. Tiny brown teeth accent the leaf margins. Rarely shows its light yellow flowers. Syn. *A. g.* 'Marginata'.

Annual Succulent

Agave lophantha 'Quadricolor'

Unknown

6"-12" tall

Very well-drained soil.

Part to full sun

Unknown

1' wide

An easy to grow, beautiful Agave that does well in light shade and well-drained soil. Stunning 6" to 10" long dark green leaves are margined in creamy yellow with a chartreuse-yellow midstripe. The edge has dark reddish teeth that turn to a darker red when in bright sunlight, giving the "quad" color in the leaf.

Agave lophantha 'Splendida'

Center Stripe Agave; Mexican Agave

1' tall

Very well-drained soil.

Part to full sun

infrequent

2" wide x 7" long leaves are dark green with a striking greenish yellow central band visible on both the upper and lower leaf surfaces, and with prominent white teeth along the margins.

Agave parryi 'Cream Spike'

Century Plant

Unknown

6" tall ,1' wide

Very well-drained soil.

Full sun

Unknown

This spectacular Agave displays blue-green leaves surrounded by a wide, dramatic creamy white margin. The thick leaves comprising the 1' wide clump feature maroon-black leaf tips and teeth along the margins when mature. Leaf impressions from the reverse side of unfurling leaves reminiscent of fossils are evident on fully expanded leaves.

Agave salmiana 'Mr. Ripples'

Mexican Agave

None

3'-4' tall

Very well-drained soil.

Part to full sun

4'-5' wide

This fantastic variety features amazingly wide, bluish olive-green undulating leaves that form an upright clump. A great architectural plant! No blooming information is available.

Agave weberi 'Arizona Star'

Unknown

to 4' tall

Very well-drained soil.

Part to full sun

Unknown

to 7' wide

This sport of A. weberi features 5" wide blue-green leaves surrounded by a dramatic 1 1/2" wide yellow margin. The leaves have only tiny, barely visible spines along the leaf edge and one real one at the leaf tip. The full grown size of A. weberi can be huge- 4' tall x 7' wide, but they certainly won't get that big in our cold winter climate.

Anacampseros rufescens

Pink to rose-purple

3" tall ,4"-18" wide

Lean, well-drained soil.

Full sun

9 to 11

If you've been looking for a hot pink succulent - here it is! Large, delicious pink to rose-purple flowers and interesting succulent rosettes. Forms small spiraling star-shaped rosettes with fleshy dark olive green pointed leaves that turn reddish purple in bright light. Attractive, white filament-like hairs are present along the stems adding a nice contrast to the dark foliage. Single flowers arise on the stems above the leaves and are pink to rose-purple, 3/4" wide, and resemble flattened Portulaca flowers; they open in late afternoon closing every night. It grows best with full sun to partial shade and ample airflow, with a well-drained soil mix (water thoroughly when soil is dry to the touch). A Portulaca cousin from the Drakenbergs, it is perfect for troughs, rock gardens, and containers where long lasting color can be much in need. Also makes an excellent potted windowsill plant. Provide plenty of light and keep the soil dry for the non-stop blast of color this rare, no-maintenance plant provides! It has good cold tolerance, but protect from frost to avoid scarring on the foliage.

Cactus Assorted

Very well-drained soil.

Succulent plants often characterized by an absence of leaves and a plethora of spines. Cacti often have globular stems, allowing them to store a large volume of water in their stems, inside the smallest possible surface tissue. Handle cacti carefully (covering the spiny stems with several layers of newspaper), to avoid getting poked! Assorted Notocactus, Mamillaria, Opuntia, Echinocactus, Ferocactus, and Pilocereus.

Cactus Assorted

Very well-drained soil.

Annual Succulent

Cactus Monster Assorted

Very well-drained soil.

SU

Ceropegia woodii (String of Hearts)

String of Hearts, Hearts Entangled, Hearts-on-a-String, Rosary Vine

1"-3" tall

Moist, well-drained soil.

Part shade

SU-F

1' wide

A curious plant all around, the String of Hearts bears long strings of thick, succulent, heart-shaped, inch long leaves of dark olive green with silver marbling veins above and a deep purple underside. Here and there along the stems are woody, pea-shaped tubers which, if put in contact with soil, will root and produce stems of their own. Plants are perfect in hanging baskets, window boxes, and other containers where the long stems can trail up to 3' long! The inch long flowers, while not striking, are certainly odd-looking- they resemble tiny purple lanterns. An excellent, very easy to grow houseplant indoors in bright light to full sun. When grown outdoors, it needs partial shade with protection from the hot midday sun. Water well, then allow the soil to dry before watering again.

Cotyledon orbiculata 'Silver Peak'

12"-18" tall

Very well-drained soil.

Full sun

12"-18" wide

Selected for its free branching habit and intense silver color. Naturally forms a bushy, peaked shape in a pot. Narrowly oval silver leaves are thinly edged in purple.

Cotyledon orbiculata 'Silver Storm'

12"-18" tall

Very well-drained soil.

Full sun

12"-18" wide

Selected for its free branching habit and intense silver color. Naturally forms a bushy, peaked shape in a pot. Wide, flat silvery leaves are thinly margined in purple.

Crassula capitella (Sharkstooth)

6"-10" tall

Very well-drained soil.

Part to full sun

12"-20" wide

This small succulent from South Africa has medium green, triangular, shark's-tooth-like leaves overlapping in stacked, pagoda-like rosettes that add red tones in the sun! Small white flowers appear at the top before dropping its leaves to produce more plants. Full sun for best leaf color. So unique!!

Crassula coccinea 'Campfire'

Stonecrop

Bright red or white

1'-2' tall

Very well-drained soil.

Part to full sun

SU-F

8"-16" wide

An exciting stonecrop that has striking coloration of greenish yellow and harvest orange-red! Tubular, bright red, sometimes white flowers are borne from summer to fall. Very interesting!

Crassula mucosa pseudolycopodiodes 'Princess Pine'

Rattail Crassula

Greenish yellow and red

4"-12" tall

Very well-drained soil.

Part to full sun

SP

It looks like it came from the depths of the ocean instead of the parched regions of Africa! Tightly overlapping, olive green leaves form long strands. In the spring, it bears minute, tubular, greenish yellow flowers, to 1/8" across, sometimes tipped reddish brown. A unique plant that has a nicely spreading habit, perfect for smaller containers.

Crassula pellucida 'Variegata'

Calico Kitten

White

2"-4" tall

Lean, well-drained soil.

Part to full sun

SP

6"-12" wide

This succulent is the cat's pajamas, with tiny rose, pink, cream, and green variegated triangular leaves. Small white flowers in spring and intermittently through the rest of the year. Great trailing out of containers!

Annual Succulent

Crassula perfoliata var. falcata

Propeller Plant, Sickle Plant

Scarlet to orange-red

1'-2' tall

Lean, well-drained soil.

Part to full sun

MSU

15"-18" wide

This unique succulent has oblong, sickle-shaped, glaucous gray-green leaves (4" long x 1" wide) in overlapping pairs. A real conversation piece! Tiny scarlet to orange-red flowers are massed together in very showy dense clusters that rise above foliage in mid summer. The flowers open slowly and last for nearly a month when in full bloom. Attractive and interesting when not in bloom, but a show stopper when the bright flowers emerge. Needs excellent drainage.

Echeveria 'Black Knight'

Hot coral-red

5"-7" tall

Lean, well-drained soil.

Part to full sun

LSU-F

6"-8" wide

This incredibly dark selection forms a symmetrical rosette of very deep blackish purple, thick, fleshy, pointed leaves. In the very center of the rosette, where new leaves are formed, there's a bright lime green glow! The rosettes are so perfect looking, you'll find yourself touching them to make sure they're real! Hot coral-red flowers appear on slender green stems which emerge from the sides of the rosettes in late summer into fall. The contrast between the flower and foliage colors is truly striking!

Echeveria 'Black Prince'

Salmon-red

3"-4" tall

Lean, well-drained soil.

10 Full sun

LF

Rosettes of glossy chocolate colored leaves are stunning; will put on offsets to form clumps; attention-grabbing in succulent combination plantings; red blooms in late fall.

Echeveria desmetiana (peacockii)

Mexican Hen & Chicks

Orange-red or Red-pink

5"-12" tall

Lean, well-drained soil.

9 Full sun

ESU

Succulent silvery blue rosettes are frosted white and have red tips and margins. One-sided cymes of orange-red or red-pink flowers in early summer. Syn. E. peacockii.

Echeveria hybrida 'The Rose'

Pink to rose

6" tall ,8" wide

Lean, well-drained soil.

9 Full sun

MSU-EF

Thick, sculptured leaves form a metallic rose colored, ruffled "rose blossom" up to 6" in diameter! Pink to rose colored flowers are a secondary note! A collector's dream!

Echeveria 'Perle von Nurnberg'

Mexican Hen & Chicks

Bright coral

4"-10" tall

Lean, well-drained soil.

8 Part to full sun

SU

6"-8" wide

Beautiful rosettes of soft gray-brown leaves have strong deep pink highlights and are dusted in powdery white. Bright coral flowers emerge in summer on footlong reddish stems, attracting hummingbirds!

Echeveria pulvinata nova 'Frosty'

Chenille Plant

Orange

4"-8" tall

Lean, well-drained soil.

Part to full sun

W

4"-8" wide

Forms shrubby rosettes of chunky, spatulate leaves covered densely with snow white hairs, giving the plant the appearance of frosted velour. If brought inside for the winter, arching racemes of bell-shaped orange flowers make their appearance in the winter. Beautiful color accent for wreaths, dish gardens, and rock gardens.

Echeveria runyonii 'Topsy Turvy'

Peach

4"-6" tall

Lean, well-drained soil.

7 Part to full sun

LSU-F

8"-12" wide

Rosettes of succulent gray frilled leaves with curled up leaf tips; the pearly leaves look like they are tightly packed upside down into a tight ball- like an ivory football mum! Perfect for a succulent trough for the patio or bistro table top.

Annual Succulent

Echeveria shaviana 'Pink Frills'

Lean, well-drained soil.	Part to full sun	Orange-pink	SU	6"-8" tall	8"-12" wide
--------------------------	------------------	-------------	----	------------	-------------

Becoming every more beautiful as it ages, this fun succulent transitions through a palette of colors as the foliage matures! New leaves in the center of the rosette are mauve-purple when they emerge. As they age, the foliage transitions in color ranging from purple to silvery blue to silvery green. All of the leaves have bright pink edges that become frilly as they age! Orange-pink flowers appear on narrow, arching wands in summer.

Echeveria shaviana 'Truffles'

Lean, well-drained soil.	Full sun	Showy orange	F	4" tall ,6" wide
--------------------------	----------	--------------	---	------------------

Forms rosettes of fleshy upcurving leaves with very crinkly edges. Excellent for dish gardens. Color is a mixture of blues, lavenders, and green depending on the season and light.

Echeveria 'Trailblazer'

Lean, well-drained soil.	10 Part to full sun			6" tall ,12" wide
--------------------------	---------------------	--	--	-------------------

Very decorative blue-green rosettes 3" to 4" in diameter. The outer rings of leaves on each rosette change to a brilliant cherry color in early spring creating a great visual effect!

Euphorbia tirucalli 'Sticks of Fire' (Firesticks)

Very well-drained soil.	Part to full sun	Red Pencil Tree	Insignificant	4'-8' tall	3'-5' wide
-------------------------	------------------	-----------------	---------------	------------	------------

The many branches on this interesting succulent are as thin as pencils and a reddish golden color. The color tends to fade closer to yellow in the summer, and becomes redder in colder temperatures. The small leaves are inconspicuous and soon drop. Be careful when handling (gloves are recommended), as the milky sap can burn the skin. More tolerant of poor drainage than many other succulents.

Graptosedum 'Bronze'

Very well-drained soil.	9 Full sun to light shade	Graptopetalum x Sedum	Pale yellow	6" tall ,6" wide
-------------------------	---------------------------	-----------------------	-------------	------------------

This small spreading succulent has green leaves tipped and tinged with rosy beige and deep bronze; pale yellow flowers in the summer.

Huernia zebrina

Very well-drained soil.	Part to full sun	Lifesaver Plant, Owl's Eyes	Light greenish yellow and reddish brown	3"-6" tall
-------------------------	------------------	-----------------------------	---	------------

A succulent plant with dark green, 4 to 5-angled stems with pointy looking spines (that are actually soft to the touch) and blooms throughout the summer and fall. The smooth, shiny flowers produced by this plant are shaped like a starfish with a raised circular area at the center (the blooms look like there is a plastic chocolate Lifesaver candy glued to a light greenish yellow starfish with reddish brown stripes)! The dark circular center gave rise to the common name, "Lifesaver Plant". The 1 1/4" to 1 1/2" wide flowers are quite unique! The fragrance of *Huernia zebrina* resembles carrion, which lures flies into the flower to facilitate pollination.

Ice Plant (*Aptenia cordifolia variegata*) 'Crystal' ('Mezoo Trailing Red')

Very well-drained soil.	10 Full sun	Variegated Ice Plant, <i>Aptenia cordifolia</i> variegata 'Crystal'.	Deep rose	2" tall ,12"-18" wide
-------------------------	-------------	--	-----------	-----------------------

An attractive ice plant from South Africa's arid sub tropics. Creeping, hanging succulent with soft, fleshy cream-edged green leaves covered with shiny bubbles of watery fluid. Small deep rose flowers all season long. For combination planters, troughs, and rock gardens. Syn. 'Mezoo Trailing Red'.

Ice Plant (*Aptenia cordifolia*) 'Hot Pink' ('Baby Sun Rose Red' or *A. cordifolia* 'Maya')

Very well-drained soil.	Full sun		Deep rose	2" tall	12"-18" wide
-------------------------	----------	--	-----------	---------	--------------

Aptenia cordifolia; *Lampranthus*; Deep rose flowers atop broad succulent, glossy green leaves; trailing habit.

Annual Succulent

Ice Plant (Lampranthus) 'Pink Vygie'

Pale pink

6" tall

Very well-drained soil.

Full sun

SU-EF

8"-10" wide

Lampranthus blandus; Masses of daisy-like, pale pink blooms atop clusters of succulent, triangular silvery blue foliage; spectacular!

Ice Plant (Malephora) 'Tequila Sunrise'

Red-orange

3"-6" tall

Very well-drained soil.

Full sun

SP-F

8"-10" wide

Mesembrianthemum; Red daisy-like flowers have an orange tinge; long, thin succulent green foliage.

Kalanchoe daigremontiana (Mother of Thousands)

Mother of Thousands, Alligator Plant, Mexican Hat Plant, Devil's Backbone

Grayish pink

2'-3' tall

Lean, well-drained soil.

Part to full sun

LW

2'-3' wide

An upright succulent with opposite, fleshy, oblong-lanceolate, grey-green leaves, often spotted with brown-red and with a row of young plantlets on the leaf margins. The plantlets form roots while on the plant. The leaves reach 6" to 8" long, and up to 3" wide. When mature, the plantlets drop off the mother leaf and root into the soil they fall on. Hence, once you have one plant, you'll have lots of them! The flowers, though rarely seen, are tubular, grayish pink in color, up to 1" long.

Kalanchoe gastonisbonnieri 'Donkey Ears'

12"-18" tall

Very well-drained soil.

10 Part to full sun

1' wide

Attractive large soft green leaves with brownish marks and spots. Small plantlets develop at the tips of the leaves. Does best in hanging baskets. Can tolerate abuse from lack of water freely.

Kalanchoe thyrsiflora 'Fantastic'

Flipping Flapjacks; Paddle Plant; White Lady; Ice Sculpture; Dog Tongue Plant; Desert Cabbage; Hot Lips

White with yellow inside

1'-2' tall

Very well-drained soil.

Full sun

EF-LF

1'-2' wide

An exciting variegated version of the elegant succulent Flapjacks! Dramatic, dazzling red begins at the leaf tips and flushes over the silvery green, rounded leaves. Rich creamy gold highlights add to the exquisite coloration! The red blush is always present on the leaves, regardless of the temperature (some other succulents have a red cast caused by cool temperatures). Easy to grow, robust, drought tolerant plants!

Kalanchoe thyrsiflora 'Flapjack'

Ice Sculpture Kalanchoe, Paddle Plant, Dog Tongue Plant, Desert Cabbage, White Lady, Oyster Plant

White with yellow inside

2' tall

Very well-drained soil.

10 Part to full sun

EF-LF

2' wide

The large succulent green leaves are dusted in silver and edged in deep red when grown in full sun. Matures to a rounded and full plant, perfect for a mixed container with other succulents. Does well in the landscape where it will not get much water. Rarely blooms, but when it does, it sends up an extremely tall spike approximately 5' tall with white flowers that are yellow on the inside. The bloom stalk will have lots of plantlets up and down the stem. It is generally best to cut off the bloom spike when it begins to emerge, so that the texture of the plant is conserved.

Sansevieria cylindrica 'Variegata Upright'

African Spear; Snake Plant; Bowstring Hemp; Mother-in-law's Tongue

2' tall

Moist to moderately dry, well-drained soil.

Part to Full sun

2' wide

An unusual and dramatic plant that will make quite a statement with its fan-like arrangement of cylindrical, stiffly upright, spiky leaves! The succulent leaves are a mottled with light and dark green; an excellent houseplant for contemporary or minimalist designs; may also be used as a wonderful container plant!

Annual Succulent

Sedeveria 'Jet Beads'

4" tall ,8"-12" wide

Very well-drained soil.

Full sun

SU

A distinctive hybrid of Sedum and Echeveria. Tiny, pointed, nearly black leaves line up along the short, spreading stems. Its appearance is along the lines of a "Burro's Tail". Cool temperatures bring out the darker color.

Sedum 'Fine Gold Leaf'

2"-3" tall

Well-drained soil.

Part to full sun

14"-16" wide

This lovely succulent sparkles with miniature bright gold leaves that gather in tiny clumps to form a dense mat of colorful foliage. Reportedly does not bloom.

Sedum hakonense 'Chocolate Ball'

Yellow

2"-3" tall

Well-drained soil.

Part to Full sun

ESU-EF

4"-6" wide

This unique sedum makes mounds of "chocolate balls"! Looks neat with something paler or brighter: light colored stepping stones or a pea gravel mulch, or with a silver, blue, or chartreuse foliage companion. Flowers sporadically.

Sedum indicum var. yunnanense (crested form)

Crested Chinese Jade

Whitish tipped with red

3"-4" tall

Lean, well-drained soil.

7 Full sun

SU

6"-8" wide

This curious gray-green pin-cushion of a plant forms a crested bun ideal for tiny pots, or filling small spaces in succulent combination plantings. It's a choice collector's item!

Sedum japonicum 'Tokyo Sun'

Japanese Golden Sedum

Yellow

2" tall ,8" wide

Well-drained soil.

8 Part to full sun

ESU-EF

Fine, brilliant gold foliage with a creeping habit. Yellow flowers can bloom anytime from mid June to September. A "must have" for succulent gardens!

Sedum makinoi 'Ogon'

Yellow

2" tall

Moist, well-drained soil.

Part to Full shade

SU

6"-10" wide

Golden Sedum; The glowing chartreuse-yellow foliage forms a flat delicate mat for a very nice ground cover; great in fairly wet, rocky, shaded areas; yellow flowers.

Sedum mexicanum 'Lemon Coral'

Yellow

3"-10" tall

NEW Well-drained soil.

Part to full sun

MSU

8"-12" wide

Prairie Star

This showy succulent forms a layered carpet of fine golden-yellow leaves. This easy care plant takes heat and drought like a champ. The unique leaf texture and overall look of this plant provides a versatile option for both potted and garden landscapes. Utilize its rich trailing branches to make beautiful hanging baskets, window boxes, and patio combinations. Flat-topped clusters of small, star-like yellow flowers open in midsummer atop nodding stems that become upright. Bees and butterflies enjoy visiting the flowers. Vigorous plants have a mounded to trailing growth habit.

Sedum rubens 'Lizard'

Red Stonecrop

White

4" tall ,4"-6" wide

Well-drained soil.

Part to full sun

LSU

Icy green foliage with rosy highlights and great texture brings a cool look to succulents. Has a nice, compact, mounded habit with soft, spiky, succulent foliage. Covered with numerous tiny, star-shaped white flowers in late summer. Syn. S. pallidum.

Annual Succulent

Sedum rubrotinctum (Jelly Beans; Pork and Beans)

Pork and Beans; Annual Jelly Beans Sedum Yellow

1"-2" tall

Well-drained soil.

Part to full sun

SP

1' wide

Fleshy, short, rounded bright green leaves are tipped in crimson during cool weather; the leaves are clustered on short stems. Long lasting yellow flowers.

Senecio cephalophorus 'Blazin' Glory'

Mountain Fire; Blazing Glory

Bright orange to bright red

12"-18" tall

Well-drained soil.

Part to full sun

12"-18" wide

Admired for its mounds of frosted silvery blue-green, obovate shaped leaves, it also produces clusters of small flowers that open bright orange and turn an even brighter red as they mature. The bright, hot bloom color contrasts wonderfully against the cool silvery foliage! Syn. Kleinia cephalophora.

Senecio jacobsenii

Jacob's Senecio; Trailing Jade; Vining Jade, Weeping Jade

Orange-yellow

8"-12" tall

Well-drained soil.

Part to full sun

MW

8"-12" wide

Glossy, rounded, fleshy, overlapping gray-green leaves cloak the thick, trailing stems. This mat-forming plant's stems tend to root as they creep along the soil surface. An excellent plant for hanging baskets and containers. Syn. Kleinia petraea.

Senecio kleiniiformis 'Spear Head'

Spear Head

Yellow

18" tall ,14" wide

Well-drained soil.

Part to full sun

MSU-MF

An amazing succulent that bears unique grayish blue foliage. Leaves are cylindrical at the base, ending in a triangular point, having a characteristic shape reminiscent of a spearhead! Small yellow flowers on erect stems above the foliage. Very drought tolerant.

Senecio radicans glauca

String of Bananas

White

1"-2" tall

Well-drained soil.

10 Part to full sun

ESU-EF

1'+ wide

Stringy stems are lined with emerald green banana-shaped leaves with fascinating translucent "windows". Pom-poms of many fragrant, tiny white flowers. Quickly fills in baskets and containers. Perfect in bright light indoors or in part to full sun outdoors.

Senecio rowleyanus

White

1" tall

Well-drained soil.

Part sun

LF-ESP

1'+ wide

String of Beads, String of Pearls; Succulent bead-like green leaves on long trailing stems (to 3' long); the spherical leaf shape maximizes the water-holding capacity in relation to the surface area; each leaf has a small "window" on the side to allow more sunlight in; ½" wide fluffy white flowers smell of sweet cinnamon chewing gum! The flowers can detract from the plant's appearance, so trim them off as they appear, if you prefer; poisonous leaves.

Senecio vitalis (Blue Chalk Fingers)

White

18" tall tall ,6" wide

Very well-drained soil.

Part to full sun

SP & F

Densely packed, narrow, blue green leaves on thick stalks to 18" tall. Tiny white flowers in spring and fall.

Succulent Assorted

Very well-drained soil.

Succulent plants are perfect for dry, well-drained areas of your landscape, as well as in containers! Mix and match to create your own look! They are very low maintenance plants!

Annual Succulent

Succulent Assorted Mimicry

Very well-drained soil.

So named for their ability to mimic other items in nature like stones and pebbles, these succulents would be found in nature nearly buried with the items that they are imitating as a method of survival. Assortments including Lithops (living stones), Pleiospilos (split rocks), Fenestraria (baby toes), Farucaria (tiger jaws), and Conophytums.

Annual Vine			
Asarina 'Falling Stars Dark Blue'	Maurandya; Chickbiddy	Dark blue	3'-15' tall
Rich, loose, well-drained soil.	Full sun	SU	1'-2' wide
A vigorous climbing vine with dark blue trumpet-shaped flowers; bright green foliage.			

Bean Hyacinth Bean 'Ruby Moon'			
		Lilac-rose	6'-10'+ tall
Moist, well-drained soil.	Full sun	SU	2' wide
Lablab purpureus 'Ruby Moon'; Egyptian Pea Vine; Fragrant lilac-rose blossoms and shiny red-purple pods that are completely edible; wine patterned green foliage on purple stems; keep the bean pods picked for continuous bloom; syn. Dolichos.			

Cardinal Climber Ipomoea x multifida			
		Bright scarlet	6'-10'+ tall
Moist, well-drained soil.	Full sun	SU	2' wide
Bright scarlet tubular flowers 1" across; attractive palm-shaped foliage; vigorous plants; similar to Cypress Vine, except Cardinal Climber has much broader foliage.			

Cypress Vine Ipomoea quamoclit			
		Bright scarlet	6'-10'+ tall
Moist, well-drained soil.	Full sun	SU	2' wide
Attractive feathery green foliage; sprays of stunning bright scarlet tubular blooms; vigorous plants; similar to Cardinal Climber, except Cypress Vine has much finer foliage.			

Mandevilla 'Sun Parasol Crimson'			
	Mandevilla, Brazilian Jasmine	Crimson	4'-6' tall
Moist, well-drained soil.	Part to full sun	LSP-EF	2'-3' wide

Prairie Star
A continuous blooming tropical vine with rich, saturated crimson flowers. The flowers and leaves are smaller than those of 'Alice du Pont'. The foliage will climb and trail at the same time. Excellent grown on an obelisk in a large patio pot. Prairie Star Award Winner!

Mandevilla 'Sun Parasol Giant Crimson'			
	Mandevilla, Brazilian Jasmine	Brilliant crimson	4'-8' tall
Moist, well-drained soil.	Part to full sun	LSP-EF	1'-3' wide

Prairie Star
This quick growing, twining vine features brilliant crimson flowers, 4" to 6" in diameter. Reported to keep its bright hues, no matter how sunny and hot the weather gets.

Mandevilla 'Sun Parasol Giant Pink'			
	Mandevilla, Brazilian Jasmine	Rich medium pink	4'-8' tall
Moist, well-drained soil.	Part to full sun	LSP-EF	1'-3' wide

Prairie Star
This quick growing, twining vine features rich medium pink flowers, 4" to 6" in diameter. The blooms are larger than those of M. 'Alice du Pont'. Reported to keep its bright hues, no matter how sunny and hot the weather gets.

Mandevilla 'Sun Parasol Original Strawberry'			
	Mandevilla, Brazilian Jasmine	Neon strawberry	4'-6' tall
NEW Moist, well-drained soil.	Part to full sun	LSP-EF	2'-3' wide

The 2" to 3" wide, trumpet-shaped flowers are a very pleasing shade of rich, almost neon, strawberry pink with striking, deep orangey-pink throats. Compact, upright growth habit with good basal branching. Natural climbers with glossy green foliage, neat and excellent garden performance, especially suitable in patio planters.

Annual Vine				
Mandevilla 'Sun Parasol Pretty Pink'	Mandevilla, Brazilian Jasmine	Light to medium pink	3'-4' tall	
Moist, well-drained soil.	Part to full sun	LSP-EF	2' wide	

Delicate pink 2" to 3" wide trumpet-shaped flowers are backed by glossy green foliage. Its superior branching and somewhat compact habit make it an ideal choice for large hanging baskets, containers (with a climbing support), and small trellises in the garden.

Mandevilla 'Sun Parasol Stars and Stripes'	Mandevilla, Brazilian Jasmine	Red and white	4'+ tall	
Moist, well-drained soil.	Part to full sun	LSP-EF	3' wide	

Red star-shaped blossoms with irregular white stripes through the center of each of the 5 petals. The prolific striped flowers with yellow throats bloom from May until frost and are a favorite for hummingbirds. Very shiny, deep green foliage on slowly twining stems- best grown as a nice mounding plant in our climate, rather than as a climber.

Manettia 'Bicolor' (Candy Corn Vine)	M. bicolor; M. inflata; Twining Firecracker	Orange and gold	2'-6' tall	
Moist, well-drained soil.	Part to Full sun	SP-W	10"-12" wide	

Glossy tubular flowers are red-orange with golden yellow tips and resemble candy corn; smooth light green leaves on twining climbing stems; blooms best in spring, fall, and winter.

Moon Vine Ipomoea calonyction	Ipomoea alba	Pure white	15'-20' tall	
Well-drained soil.	Full sun	SU-EF	12"-18" wide	

6" to 8" pure white flowers open in the evening and perfume the air with a sweet fragrance; the flowers stay open all night until the following morning.

Morning Glory 'Good Morning Blue'	Ipomoea tricolor	Lav-blue & white	6'-10' tall	
Well-drained soil.	Full sun	SU-EF	12"-18" wide	

3" to 4" lavender-blue blooms with a white picotee edge; creamy white and green variegated leaves; more compact and controlled than other morning glories; great performer in the heat and humidity.

Morning Glory 'Good Morning Red'	Ipomoea tricolor	Crimson & white	6'-10' tall	
Well-drained soil.	Full sun	SU-EF	12"-18" wide	

3" to 4" crimson blooms with a white picotee edge; creamy white and green variegated leaves; more compact and controlled than other morning glories; great performer in the heat and humidity.

Morning Glory 'Heavenly Blue'	Ipomoea tricolor	Azure sky blue	12' tall	
Well-drained soil.	Full sun	SU-EF	12"-18" wide	

Azure sky blue blooms with cloud white throats.

Morning Glory 'Kniola's Black'	Ipomoea	Dark velvety purple	7' tall	
Well-drained soil.		SU-EF	12"-18" wide	

Dark velvety purple flowers that give the impression of black flowers. Makes a heavy impact when contrasted with light blue or white flowers.

Annual Vine			
Passiflora 'Aphrodite Purple Nightie'	Passion Vine, Passion Flower	Powder blue	10' tall
NEW Moist, well-drained soil.	Part to full sun	LSP-F	2' wide
Gorgeous, 3" to 4" wide, star-shaped flowers of creamy purple with deep purple eyes and purple anthers, appear at the ends of the stems from mid spring through summer. A sterile, virtually non-fruiting variety that is vigorous and heat tolerant. The flowers are excellent for cutting. Dark green foliage throughout the season.			
Passiflora 'Blue Bouquet'	Passion Vine; Passionflower	Powder blue	10' tall
Moist, well-drained soil.	Part to full sun	LSP-F	2' wide
Features showy, lightly scented powder-blue, star-shaped flowers with deep purple eyes and purple anthers at the ends of the stems. The flowers are excellent for cutting. Dark green foliage throughout the season.			
Passiflora caerulea 'Bahama Blue'	Passion Vine, Passion Flower	Blue-white	10' tall
NEW Moist, well-drained soil.	Part to full sun	LSP-F	2' wide
Features showy, lightly fragrant, 3" wide, blue-white, star-shaped flowers with a prominent fringe of coronal filaments in bands of blue, white, and brown. Flowers appear at the ends of the stems and are excellent for cutting. The ovoid orange fruit, growing to 2", is edible but bland. Dark green foliage throughout the season.			
Passiflora 'Inspiration'	Passion Vine; Passionflower	Deep purple	10' tall
Moist, well-drained soil.	Part to full sun	LSP-F	2' wide
An improvement on P. 'Incense'. Large, deep purple, fragrant flowers. The parents, P. incarnata and P. cincinnata, give it a mix of gorgeous flowers and solid cold tolerance.			
Senecio confusus	Mexican Flame Vine, Orangeglow Vine	Neon orange	1'-10' tall
Moist, well-drained soil.	Full sun	LSP-F	2' wide
Small neon orange daisy-like flowers with bright yellow centers; likes to weave through plants as well as grow up trellises and supports; fast growing; blooms all summer and into fall; can be grown like a ground cover; the flowers have a light scent which is irresistible to butterflies.			
Thunbergia alata 'Spanish Eyes'	Black Eyed Susan Vine; Poet's Eye	Terracotta colors	5' tall
Rich, moist, well-drained soil.	Part sun	LSP-F	18"-36" wide
The flowers are in a variety of terracotta colored hues (apricot, brick, and buff) with contrasting dark eyes look wonderful against virtually every background color and setting. Vigorous grower perfect for large containers, trellises, and garden fences.			
Thunbergia alata 'Sunny Lemon Star'	Black Eyed Susan Vine	Bright yellow	5'-6' tall
Rich, moist, well-drained soil.	Part sun	LSP-SU	
Large, bright yellow flowers. A very aggressive plant that covers a trellis or screen quickly. A great bloomer until temperatures reach 100 degrees. This variety is like a seed grown Thunbergia on steroids!			
Vigna caracalla (Snail Flower)	Corkscrew Flower; Snail Bean; Snail Flower	Lavender & white	6' tall
Rich, moist, well-drained soil.	Part to Full sun	SU-EF	12"-18" wide
The type of flower Alice might have encountered in Wonderland. Unique large snail or conch-shaped fragrant pink-purple and white blossoms on twining stems; the flowers take on a creamy yellow undertone as they age; green palmate foliage; flowers are followed by nearly cylindrical green to brown fruit; great for trellises, baskets, and containers; unique!			

Annual Vine

Vigna caracalla 'Thomas Jefferson'

Corkscrew Flower; Snail Bean; Snail Flower Lavender & white

6' tall

NEW Rich, moist, well-drained soil.

Part to Full sun

SU-EF

12"-18" wide

The type of flower Alice might have encountered in Wonderland. Unique large snail or conch-shaped fragrant pink-purple and white blossoms on twining stems; the flowers take on a creamy yellow undertone as they age; green palmate foliage; flowers are followed by nearly cylindrical green to brown fruit; great for trellises, baskets, and containers; unique!

Herb, Annual

Aloe vera

Medicinal Aloe

Yellow

2' tall

Moderately dry soil.

9

Part to full sun

SU

indefinite wide

Clump-forming, suckering succulent producing basal rosettes of lance-shaped, fleshy gray-green leaves that are slightly grooved above with toothed pink margins. In the summer, it bears tubular yellow flowers to 1 1/4" long, in terminal racemes to 3' or more tall. Resinous yellow juice of leaves is used to treat burns, poison ivy, rashes, and other ailments.

Basil (Ocimum) 'Aromatto'

Basil

Dark purple

20"-24" tall

Light, moist, well-drained soil.

Part to full sun

SU

1' wide

A great, tall cut-flower basil! Sturdy purple stems, dark purple flower bracts, and purple-green bicolor foliage. Use as a filler accent in cutflower arrangements, or as an edible flower. The edible foliage has a sweet minty, spicy flavor and aroma.

Basil (Ocimum) 'Balsamic Blooms'

Deep purple

12"-18" tall

NEW Light, moist, well-drained soil.

Part to full sun

LSP-SU

18"-24" wide

Truly a game changer! Not only is it completely edible, but it grows leaves and blooms simultaneously. The deep purple blooms are simply fabulous- lasting for weeks, and are pollinator magnets. With flavors ranging from mint (blooms) to soft sweeter basil (the leaves), this has everything you could need!

Basil (Ocimum) 'Boxwood'

Basil

12"-14" tall

Light, moist, well-drained soil.

Part to full sun

SU-EF

12"-18" wide

Prairie Star

Fragrant, tiny green leaves on plants with a dense, bushy upright habit. Plants can be used as a low hedge, making it look quite a bit like Boxwood, hence the name! The plants remain in perfect form, even during the heat of summer! Its great for pesto, too! Prairie Star Award Winner!

Basil (Ocimum) 'Cardinal'

Basil

Cardinal red

24"-30" tall

Light, moist, well-drained soil.

Part to full sun

SU-EF

17"-24" wide

At first glance, you'll think this is a Celosia, with its heavy, tightly packed cardinal red blooms. A closer inspection reveals that tell-tale scent, rich and heady with a touch of spice. Strong burgundy stems hold the flowers above the smooth, bright green leaves, ensuring a vibrant show throughout the summer even as you continue harvesting fresh leaves. Vigorous plants. A beautiful ornamental and a tasty culinary herb.

Basil (Ocimum) 'Cinnamon'

Cinnamon Basil

Pink to purple

12"-18" tall

Light, moist, well-drained soil.

Part to full sun

SU

Green leaves with red veins and stems. The leaves have a spicy-sweet cinnamon fragrance. The foliage contains oils similar to true cinnamon. Great for flavoring teas, fruit salads, pancakes, and chili. In Mexico, the plants are set around dining areas to repel insects!

Basil (Ocimum) 'Dolce Fresca'

Sweet Basil

10"-24" tall

Light, moist, well-drained soil.

Part to full sun

SU

10"-12" wide

This winner produces sweet, tender leaves that outshine comparable varieties, all while maintaining an attractive, compact shape that is both versatile and beautiful! Use the leaves as you would any sweet basil. It makes excellent pesto! After harvest, plants are quick to recover and keep the desired ornamental shape, making it perfect for containers and borders, as well as at home in the kitchen garden. Great for gardeners looking for drought tolerant, hearty basil and foodies interested in a new and better basil, and anyone who wants that great Mediterranean taste added to their cuisine! 2015 AAS Winner!

Basil (Ocimum) 'Emerald Frills'

Basil

16"-18" tall

Light, moist, well-drained soil.

Full sun

LSU

10"-20" wide

Distinctive ruffled leaves give this novel variety a unique look. This late flowering basil is easy to grow, with a long harvest season, and bold, spicy flavor! When harvesting basil, cut it back to about 1/4" above a leaf node (where the leaf meets the stem) and be sure to leave enough foliage on your plant so it can continue to grow.

Herb, Annual

Basil (Ocimum) Genovese

Genovese Basil

24"-30" tall

Light, moist, well-drained soil.

Part to full sun

SU

The leaves have a true spicy fragrance and taste. The preferred variety for Italian pesto sauce. Uniform, tall, and slow to bolt. The green leaves are up to 3" long. From the Genovese region of Italy.

Basil (Ocimum) Genovese Bush

Bush Genovese Basil

16"-18" tall

Light, moist, well-drained soil.

Part to full sun

SU

1' wide

Half as tall as regular 'Genovese', but with the same fragrance and flavor and same size leaves. The leaves have a true spicy fragrance and taste. The preferred variety for Italian pesto sauce. Uniform, tall, and slow to bolt. The green leaves are up to 3" long.

Basil (Ocimum) 'Genovese Red Freddy'

Red Genovese Basil

18"-36" tall

Light, moist, well-drained soil.

Full sun

SU

A marvelous dark red leaved version of Genovese Basil. Smooth broad leaves with the same wonderful flavor as 'Genovese', a culinary eye-catcher! Just imagine what gorgeous pestos you can make with this red basil! Will not only add flavor, but also a beautiful color to your fresh salads or fruit desserts!

Basil (Ocimum) 'Persian'

Basil

Lavender

10"-24" tall

Light, moist, well-drained soil.

Part to full sun

LSU

12"-15" wide

'Persian' Basil is a large, vigorous plant that is a prolific producer of pleasant tasting leaves for your culinary adventures. Not only is the taste excellent, but the silvery green foliage, sturdy purple branches and large leaves make for a great ornamental plant. An additional bonus is that this AAS Winner is late to produce flowers, which often make basil develop a bitter taste. Need one more reason to try Persian Basil? The bees were very active around this entry in the trials so you'll also do your pollinator friends a favor having this basil in your garden. 2015 AAS Winner!

Basil (Ocimum) 'Pesto Perpetuo'

Variegated Columnar Basil

18"-32" tall

Light, moist, well-drained soil.

Part to full sun

SU

Prairie Star

This Greek columnar basil has beautiful light green leaves edged in creamy white. Since it does not flower, this is a great culinary basil.

Basil (Ocimum) 'Purple Ruffles'

Red Ruffles Basil

Light pink

16"-24" tall

Light, moist, well-drained soil.

Full sun

SU

18" wide

A highly versatile herb; smells of cloves and licorice; makes a wonderful mild flavor addition to tomato dishes, fruit salads, stir fry, salsa, and eggs; holds its color well throughout the growing season; 2" to 4" glossy purple leaves with ruffled edges.

Basil (Ocimum) 'Queen of Sheba'

Thai Basil

Dark purple

10"-18" tall

Light, moist, well-drained soil.

Part to full sun

ESU-LSU

Thai Basil. The best of both worlds- a culinary Thai Basil and a flowering plant! Fragrant, delicate spicy flavored green leaves are topped by long, fat flower spikes. Pick the leaves as you need them and enjoy the lovely blooms all summer long! Vigorous plants are heat and humidity tolerant.

Basil (Ocimum) Red Rubin

Red Rubin Basil

18"-24" tall

Light, moist, well-drained soil.

Part to full sun

SU

Large copper tinged purple leaves. Essential in herb dressings and vinegars where its sweet flavor and ruby color are desired.

Herb, Annual

Basil (Ocimum) 'Ruby Frills'

Basil

16"-18" tall

Light, moist, well-drained soil.

Full sun

LSU

10"-20" wide

Purple ruffled foliage keeps giving a great, bold, spicy flavor all through the summer. Easy to grow and late flowering, holding its shape all through summer. When harvesting basil, cut it back to about 1/4" above a leaf node (where the leaf meets the stem) and be sure to leave enough foliage on your plant so it can continue to grow.

Basil (Ocimum) Sweet

Sweet Basil

2' tall

Light, moist, well-drained soil.

Part to full sun

SU

Large green leaves. Great flavor for pesto, salads, and sauces.

Basil (Ocimum) Sweet Dani

Lemon Basil

26"-30" tall

Light, moist, well-drained soil.

Part to full sun

SU

Each leaf has 70% to 75% more essential oils than other Lemon Basil varieties. A must-have to add to vinegars, seafood, salads, and desserts. Great for lemony pesto's. AAS Winner!

Basil (Ocimum) Valentino

Valentino Basil

15" tall, 18" wide

Light, moist, well-drained soil.

Part to full sun

SU

Wonderfully rich flavored, fragrant, large-leafed variety. Vigorous, yet compact habit. Perfect for use fresh, whole, chopped, or dried.

Bay Laurel (Laurus) nobilis

Bay Laurel; Sweet Bay

Yellow

up to 50' tall

Moist, well-drained soil.

Full sun

SP

up to 30' wide

A frost-sensitive small tree best grown in pots so it can easily be moved indoors for the winter. Clusters of small yellow flowers in the spring are followed by shiny black or purple berries in the fall. Aromatic dark green leaves add a traditional bay flavor to meats, fish, poultry, soups, and stews. Nobilis (in the botanical name) refers to bay's royal past: Greek nobility wore garlands of bay at weddings.

Borage (Borago) officinalis

Borage, Herb of Gladness, Starflower

Blue to pink

1'-3' tall

Moist, well-drained soil.

Part to full sun

MSU-LSU

12"-18" wide

Blue star-shaped flowers can be used along with the chopped small, non-prickly leaves in salads, tomato juice, or gazpacho. The flowers fade to pink as they age. The flowers can also be added to lemonade, desserts, and candy, or dried and used in potpourri. Make a cooling summer tea from the flowers, Stevia, and lemon juice. Borage leaves and flowers, salad burnet, dill, and garlic make a great herbal vinegar. The leaves and flowers have a cucumber-like flavor.

Cilantro (Coriandrum sativum) 'Calypso'

Cilantro

12"-18" tall

Moist, well-drained soil.

Full sun

A 'cut and come again' leaf version of this popular herb. This variety can be cut back and allowed to regrow at least 3 times during the summer due to its extremely low growing point. Full, bulky plants provide a high leaf yield. It is very slow to bolt- in trials it was 3 weeks slower to bolt than 'Santo'! Grow it in pots near the kitchen so that you can just cut whatever you need, whenever you need it! This variety is grown for its leaf only, not its seed. Its distinctive flavor is the same as traditional Cilantros, ideal for enhancing Cajun and Mexican dishes.

Curry (Helichrysm) italicum

Curry

Yellow

2' tall

Dry soil.

Full sun

SU

2' wide

Woolly gray needle-like leaves have a delightful curry fragrance, but don't confuse it with curry powder, which is a mix of cumin, turmeric, coriander, pepper, and other spices. The essential oil is used to enhance fruit flavors in confections. Produces clusters of yellow button flowers in summer that are excellent fresh cut or dried. Used in potpourri and perfumes. A good rock garden plant.

Herb, Annual

Dill (*Anethum graveolens*) Fern Leaf

Dill

Yellow

18"-24" tall

Rich, well-drained, slightly acidic soil.

Full sun

SU

Butterflies

Chop the fresh leaves into corn, light soups, green salads, potato salads, cream cheeses, salmon, chicken, eggs, dips, and baby red potatoes. Makes a lovely garnish. The dried seed enhances breads and chowders. The seeds flavor pickles. Very slow to bolt. Great potted in a sunny kitchen for a handy supply of fresh dill.

Fennel (*Foeniculum vulgare dulce*) Bronze ('Rubrum')

Smoky Fennel

Yellow

2'-5' tall

Well-drained soil.

Full sun

SU

Butterflies

Highly decorative form of fennel with purple-bronze lacy foliage. The leaves can be used like green fennel. The feathery leaves are chopped and used most commonly in fish dishes. Also used to flavor soups, salad dressings, and chicken. An important larval food for Swallowtail butterfly caterpillars. Often overwinters or reseeds in our gardens!

Fennel (*Foeniculum vulgare dulce*) Sweet

Sweet Fennel

Yellow

3'-6' tall

Well-drained soil.

Full sun

SU

Butterflies

The entire licorice or anise flavored plant is edible. The feathery leaves are chopped and used most commonly in fish dishes. Also used to flavor soups, salad dressings, and chicken. Dig up the bulb before it splits, then steam it and grate it to lightly season pasta, white sauce, or eggs. The seeds are used in curries, cookies, and sauerkraut, and to freshen the breath. An important larval food for Swallowtail butterfly caterpillars.

Geranium, Scented 'Chocolate Mint'

Pelargonium quercifolium 'Chocolate Mint'

White to pink

18"-24" tall

Well-drained soil.

Part to full sun

SP-SU

Mint-scented fuzzy green leaves have a brown center. White to pink flowers. Vigorous habit. The name comes from the brown mark on the leaves, though some say it does have a chocolate mint scent. Grows best in part sun. Leaves are used in potpourris, teas, baking, and herbal jellies.

Geranium, Scented 'Citrosa' ('Van Leenii')

1'-2' tall

Well-drained soil.

Full sun

SP-SU

18"-24" wide

A hybrid of the Citronella-scented geraniums. The fragrance of the foliage is supposed to repel mosquitoes, black flies, and other biting insects.

Geranium, Scented 'Lime'

Lavender

12"-18" tall

Well-drained soil.

Full sun

SP-SU

18"-24" wide

An upright form with small, toothed dark green leaves that have a tart lime fragrance. Lavender blooms. Leaves are used in potpourris, teas, baking, and herbal jellies.

Geranium, Scented 'Moskito Schocker'

Light and dark pink

18" tall tall, 18"-24" wide

Well-drained soil.

Full sun

SP-SU

An improved citronella geranium that gives off a more intense, lemon pepper fragranced oil from its leaf stomates; by rubbing the leaves and then applying the light, but heavily scented, oils to your clothing, you can use the plant in the place of D.E.T.

Herb, Annual

Geranium, Scented 'Peppermint'

Pelargonium tomentosum

Pinkish white

18" tall tall ,18"-24" wide

Well-drained soil.

Full sun

SP-SU

Pinkish white flowers over fuzzy gray-green leaves. It has a refreshing mint fragrance. Use the leaves in fruit punches or herbal jellies. Use dried leaves in teas, baking, and potpourris. Its trailing or spreading habit is great for baskets and containers.

Geranium, Scented 'Variegated Mint Rose'

Pale pink

2'-3' tall

Well-drained soil.

Full sun

SP-SU

18"-24" wide

Deeply cut coarse leaves are green edged in cream. The leaves have a minty rose fragrance. Pale pink flowers. Spreading habit. Leaves are used in potpourris, teas, baking, and herbal jellies.

Geranium, Scented 'Variegated Snowflake Rose'

Pelargonium

Lavender

2'-3' tall

Well-drained soil.

Full sun

SP-SU

2' wide

Light green corrugated leaves are splashed with white highlights; the leaves have a strong lemon-rose fragrance; tiny lavender flowers.

Lavandula (Lavender) 'Goodwin Creek Gray' (L. heterophylla 'Goodwin Creek')

Lavandula heterophylla 'Goodwin Creek Gray'

Medium blue

2'-3' tall

Must have well-drained soil.

Full sun

SP-SU

15"-18" wide

Butterflies

Deeply toothed woolly gray leaves create a richly textured plant. Prolific medium blue short, fat spikes. Very free blooming. Marginally hardy in zone 6 (very well drained soil in the winter will help it to winter over). Scented flower spikes are highly valued in potpourri and sachets. Attracts butterflies!

Lavandula (Lavender) 'Otto Quast' (L. stoechas 'Otto Quast')

Spanish Lavender

Lavender and dark purple

1'-2' tall

Must have well-drained soil; thrives in acidic soil.

Full sun

SP-SU

15"-18" wide

Butterflies

Large two-tone lavender and dark purple flowers. Silvery foliage on upright plants. Scented flower spikes are highly valued in potpourri and sachets. Attracts butterflies! Cut and dried flower!

Lavandula (Lavender) pinnata

Lavender

Blue-purple

2' tall

Must have well-drained soil.

Full sun

SP-SU

12"-15" wide

Butterflies

Unique woolly silver carrot-like foliage is topped with long spikes of blue-purple flowers. Scented flower spikes are highly valued in potpourri and sachets. Attracts butterflies! Cut and dried flower!

Lemon Grass (Cymbopogon) citratus (ball has Cymbopogon flexuosus seed)

Lemon Grass

2'-5' tall

Moist soil.

Full sun

Tall, broad green leaves have a complex aroma and wonderful flavor- the essence of citrus with flowery overtones. The flavor of lemon grass is basic to Thai and Southwest Asian Cuisines. The strong, sweet lemon flavor is released by hot water. It is the primary herb used in commercial herb teas. Great in soups and sauces.

Herb, Annual

Lemon Verbena (*Aloysia triphylla*)

Lemon Verbena

White or lavender

to 4' tall

Rich, moist soil.

Full sun

SU

2'-3' wide

Sweet, strongly lemon-flavored leaves enhance beverages, salads, jellies, sauces, soups, fish and meat dishes, and desserts which call for lemon as an ingredient or garnish. Makes a flavorful tea. Fresh or dried leaves can be used to replace lemon in any dish. Great for potpourris. Open sprays of tiny white or lavender flowers.

Marjoram (*Origanum majorana*) marjorana (Sweet)

Sweet Marjoram

White

15"-20" tall

Well-drained soil.

Part to full sun

LSU-EF

1' wide

Gray-green leaves add a strong, spicy flavor to soups, sauces, stuffings, and stews. Rubbing with fresh leaves before roasting improves strong meats. The foliage is also used to dye wool. Great dried flower. Marjoram has a sweeter and milder flavor than Oregano.

Mexican Oregano (*Lippia graveolens*) graveolens

Mexican Oregano

White

2'-3' tall

Light, moist, well-drained soil.

Full sun

SP-W

2'-3' wide

Crinkled green leaves have a flavor similar to oregano with a hint of cilantro. Used for authentic southwestern chili.

Parsley (*Petroselinum*) 'Italian Flat-leaf' (Italian Plain; *P. neapolitanum*)

Italian Flat Leaf Parsley

1'-2' tall

Rich, moist, well-drained soil.

Part to full sun

12"-18" wide

Butterflies

Flat, glossy, dark green leaves have a stronger parsley flavor than 'Triple Curled' parsley.

Parsley (*Petroselinum*) 'Triple Curled' (*P. c. crispum*)

Triple Curled Parsley

1' tall

Rich, moist, well-drained soil.

Part to full sun

1' wide

Butterflies

Tightly curled leaves, which make a decorative garnish or lend a mild parsley flavor to dishes.

Pogostemon (*Patchouli*) patchouli

Patchouli

White and violet

1'-2' tall

Rich, moist, well-drained soil.

Part to Full sun

SU

1'-2' wide

One of the definitive perfumes of Asia; has a musky, exotic fragrance; widely used in incense, perfumes and soaps; scallop-edged leaves are dried for potpourris and sachets; medicinal uses.

Rosemary (*Rosmarinus officinalis*) Barbeque

Rosmarinus officinalis

Blue

3'-4' tall

Well-drained soil.

Full sun

SP

15"-24" wide

Long green needle-like leaves are very aromatic; great for flavoring food; the leaves can be taken off of the long, woody stems so the stems can be used as skewers! Marginally hardy in zones 5 and 6.

Rosemary (*Rosmarinus officinalis*) Creeping Irene

Rosmarinus officinalis

Deep blue

14" tall

Well-drained soil.

Full sun

SP

15"-24" wide

Prostrate rosemary; vigorous grower with a neat, attractive habit and deeper blue flowers than other trailing types.

Herb, Annual

Rosemary (*Rosmarinus officinalis*) Tuscan Blue

Rosmarinus officinalis

Lavender-blue

3'-6' tall

Well-drained soil.

Full sun

SP

15"-24" wide

Bushy, upright, and spreading plants; suitable for a low hedge; larger leaf than most; numerous flowers; fast growing; excellent flavor.

Sage (*Salvia elegans*) 'Golden Delicious' (*S. elegans* 'Golden Delicious')

Bright red

1'-2' tall

Well-drained soil.

Part to Full sun

SP & LSU-F

15"-30" wide

S. elegans 'Golden Delicious'; Hummingbirds will make a beeline to this wonderful, bright pineapple sage; fuzzy, bright yellow foliage provides a brilliant backdrop for the fire engine red, tubular flowers; when crushed, the leaves release a strong pineapple scent; herb enthusiasts recommend using the fresh leaves to flavor sun tea.

Sage (*Salvia elegans*) Pineapple (*S. elegans* syn. *S. rutilans*)

Bright red

3'-5' tall

Well-drained soil.

Full sun

SP & LSU-F

15"-30" wide

S. elegans syn. *S. rutilans*; Fabulous sweet pineapple scented light green foliage; spikes of tubular red flowers attract hummingbirds; use in teas, cold beverages, chicken, pork, cheese, salads, fruit cups, jams, and jellies; aromatic, culinary, and medicinal.

Savory, Summer (*Satureja hortensis*) Summer

Satureja hortensis

Lilac, white, or purple

15" tall

Well-drained to dry soil.

Full sun

SU

18" wide

Delicate peppery flavor is used to flavor beans, cabbage, and sauerkraut, vinegars, and chicken; makes a nice tea; the flowers are loved by bees.

Stevia rebaudiana

Sweet Herb of Paraguay; Sweetleaf; Sugar Leaf

White

2'-3' tall

Moist, well-drained, acidic soil.

Full sun

W

2'-3' wide

Remarkable herbal sugar substitute; contains stevioside, which is up to 300 times sweeter than sugar, but without the calories; leaf powder can be used in place of sugar in drinks, baked goods, desserts, jellies, and preserves; use fresh, dried, powdered, or as a liquid; pleasing flavor; medicinally used as a plaque retardant and tooth decay inhibitor; tight clusters of small white flowers; mulch the soil around the plants, as they prefer cool temperatures; harvest plants before frost and hang from the roots to dry.
