

# Annuals Catalog 2018

## Annual Flower/Foliage

### Ageratum 'Cloud Nine Blue'

Floss Flower

Mid blue

4"-5" tall

Rich, moist, well-drained soil.

Part to Full sun

SP-F

10"-12" wide

Smaller green leaves form a neat backdrop to the 1" wide clusters of mid blue flowers. Wonderful in containers as well as in flower beds.

### Ageratum 'High Tide Blue'

Floss Flower

Sky blue

1'-2' tall

Rich, moist, well-drained soil.

Part to Full sun

SP-F

12"-18" wide

### Prairie Star

Creates a dense, mounded hedge of clear sky blue flowers; grows taller and more vigorously than other varieties; very well-branched, self-cleaning, and easy to grow; Prairie Star Award Winner.

### Albica spiralis 'Frizzle Sizzle'

Green and pale yellow

7" to 12" tall

Moist, well-drained to dry

Part to full sun

LW-MSP

6"-10" wide

Are you looking for an unusual plant to bring enjoyment and whimsy to your gardening endeavors? Albica 'Frizzle Sizzle' has thick, tightly curled, narrow leaves on short stems that arise from an underground bulb. Some leaves are more wavy, like a snake. The degree of spiral depends on the clone and the amount of sunlight the plant receives when the leaves start growing. The flowers are green with pale yellow margins, nodding, sweetly scented, reportedly of butter and vanilla! The fragrance can be quite strong on a warm sunny day! The flower spikes are adorned with 10 to 20 blooms per spike. The blossoms have a light vanilla fragrance. Grow in part to full sun and allow the soil to dry out between waterings. Plants are winter growing and summer dormant. There are no pest or disease problems with 'Frizzle Sizzle' so it makes an ideal home garden plant that's distinctive and eye-catching. Over time, the bulb will multiply, resulting in a full, very wild and wacky clump.

### Alcea 'Spring Celebrities Rose'

Hollyhock

Bright rose

24"-28" tall

Moist, well-drained soil.

Full sun

LSP-LSU

16"-18" wide

Incredibly well-branched and dwarf - these semi-double to double beauties are 2 1/2" to 3" wide with an outer layer of wide, flat petals topped by a ruffled frilly center. The petals are slightly notched, creating a pleated look in the center of the flower. Fade-proof and utterly beautiful, the flowers are to be enjoyed up-close. Very nice cut flower. Wonderful in containers and in the garden! Incredibly long blooming- beginning in late spring in most climates, and continuing freely into midsummer (when we visited the KSU Olathe trial garden in August, they were still in bloom!).

### Alocasia macrorrhiza

Upright Elephant Ears

4'-6' tall

Rich, moist soil.

Full shade

3' wide

Large, deep green upright leaves will provide a dramatic effect in a container or in the tropical garden.

### Alpinia zerumbet 'Variegata'

Variegated Shell Ginger

White and Pink

4' to 7' tall

Moist, well-drained soil

Part to full sun

SP

Leafy, arching stems create a lush, tropical effect with boldly striped yellow and green foliage. Large, drooping clusters of white and pink shell-like flowers are sweetly fragrant. Works well in containers and can be used as a houseplant.

### Alternanthera dentata 'Purple Knight'

Bloodleaf, Joyweed, Calico Plant,  
Christmas Clover, Joseph's Coat

16"-18" tall

Moist, well-drained soil.

Full sun to full shade

SP-W

18"-24" wide

Christmas Clover; Dark purple foliage on vigorous, upright and spreading plants; very heat and humidity tolerant; great for containers.

## Annual Flower/Foliage

<b>Alternanthera ficoidea 'Burgundy Thread'</b>	Bloodleaf, Joyweed, Calico Plant, Christmas Clover, Joseph's Coat; Parrot Leaf	Buff	8"-14" tall
Moist, well-drained soil.	Part to full sun	SP-W	8"-14" wide

A compact and tidy foliage plant with very narrow, rippled leaves of dark burgundy. The plants make compact, tidy balls of foliage! It blooms on and off all year, but you may never notice as the small, pale flower buttons are held in the leaf axils, where they are nearly indistinguishable from the foliage unless you are paying close attention. Use 'Burgundy Thread' at the base of taller plants in the border to provide vibrant color echoes or contrasts.

<b>Alternanthera 'Purple Prince'</b>	Bloodleaf, Joyweed, Calico Plant, Christmas Clover, Joseph's Coat; Parrot Leaf		14' to 16" tall
Moist, well-drained soil.	Full sun to full shade	SP-W	

This is exciting because, it lasted all summer long, held its deep purple-red color, and compact in size. It is perfect for the front of a landscape bed. Beautiful foliage item: burgundy-purple with ruby rose underside for a bicolor look. Great in summer landscapes - stand tough in heat and humidity with low water needs. Makes a good "spiller" in mixed containers.

<b>Amaranthus 'Illumination'</b>	Summer Poinsettia		28" tall
Rich, moist soil.	Full sun		12"-18" wide
Tricolored leaves of yellow, green, and red.			

<b>Angelonia angustifolia 'Archangel Blue Bicolor'</b>	Summer Snapdragon	Deep purple and Soft Lilac	12" to 14" tall
Rich, moist, well-drained soil.	Full sun	LSP-F	10" to 12" wide

Huge, bio-colored blossoms of deep purple and soft lilac are backed by glossy, dark green leaves. Thrives in extreme heat, humidity and drought, offering a long season of color in containers and garden beds. Native to Mexico, Angelonia is a charming sub-shrub (meaning it gets bushy and full but seldom reaches much above 2'). It offers a long-running display of gracefully lipped flowers on sturdy stems.

<b>Angelonia angustifolia 'Archangel Cherry Red'</b>	Summer Snapdragon	Cherry Red	12" to 14" tall
Rich, moist, well-drained soil.	Full sun	LSP-F	10" 12" wide

Produces huge cherry red spires nonstop all summer into fall. A part of the outstanding Archangel series, this group has the largest blooms of any Angelonia, series! Its luscious flowers are perfect compliments to its glossy, emerald green foliage. It thrives in extreme heat, humidity, and even drought. A proven performer. A perfect annual for the center of pots, used as a specimen, or for mass plantings! Loved by butterflies!

<b>Angelonia angustifolia 'Archangel Dark Purple'</b>	Summer Snapdragon	Dark purple	12"-14" tall
Rich, moist, well-drained soil.	Full sun	SP-F	10"-12" wide

Spikes of large, dark purple flowers on well-branched plants. Thrives in extreme heat, humidity, and drought!

<b>Angelonia angustifolia 'Archangel Raspberry Imp.'</b>	Summer Snapdragon	Intense rose-pink	12"-21" tall
Rich, moist, well-drained soil.	Full sun	LSP-F	10"-14" wide

### Prairie Star

Sturdy, well-branched plants with glossy, dark green foliage. Large intense, bright rose-pink flowers make for a big visual impact, even from a distance! 'Archangel' has larger flowers, packed full on well-branched stems. Thrives in extreme heat, humidity, and drought!

<b>Angelonia angustifolia 'Serena Blue'</b>	Summer Snapdragon	Clear true blue and white	16"-20" tall
Rich, moist, well-drained soil.	Full sun	LSP-F	12"-15" wide

### Prairie Star

Well-branched plants are compact and full and topped by numerous spikes of flowers. The short height makes them perfect for containers and hanging baskets. Clear true blue flowers with white centers.

## Annual Flower/Foliage

<b>Angelonia angustifolia 'Serenita Pink'</b>	Summer Snapdragon	Rich pink	9"-14" tall
Rich, moist, well-drained soil.	Full sun	SP-F	12"-14" wide

### Prairie Star

Produces a magnificent splash of color on compact plants! Bountiful, rich pink flowers with darker throats and a white lip on the bottom opening of the throats. Tough plants are a fine choice for our hot and humid summers! A beauty for beastly conditions!

<b>Angelonia angustifolia 'Serenita Purple'</b>	Summer Snapdragon	Vibrant purple	9"-14" tall
Rich, moist, well-drained soil.	Full sun	SP-F	12"-14" wide

### Prairie Star

Rabbit resistant      Deer resistant

Produces a magnificent splash of color on compact plants! Bountiful, vibrant plum-purple flowers with darker throats and a white lip on the bottom opening of the throats. Tough plants are a fine choice for our hot and humid summers! A beauty for beastly conditions! K-State fans should try this one for its rich purple color!

<b>Angelonia angustifolia 'Serenita White'</b>	Summer Snapdragon	Pure white	9"-14" tall
Rich, moist, well-drained soil.	Full sun	SP-F	12"-14" wide

### Prairie Star

Rabbit resistant      Deer resistant

Produces a bright splash of color on compact plants! Bountiful, beautiful pure white flowers with chartreuse throats. Tough plants are a fine choice for our hot and humid summers! A beauty for beastly conditions!

<b>Anigozanthos 'Cape Red Lead'</b>	Kangaroo Paw	Dark coppery red	12"-20" tall
<b>NEW</b> Very well-drained to dry soil.	Full sun	LSP-LSU	16"-20" wide

This unique cut flower is not just for high-end florists anymore! The green, strap-like foliage gives way to architectural spikes of fuzzy dark coppery red flowers. Because the fuzz is on the outside of the calyx, it remains showy for weeks after the flowers pass. The fuzzy, curved blooms resemble the fuzzy paws of kangaroos, hence the common name! The plant flowers only once, so cut the finished flower spike down as close to the ground as possible to encourage rebloom. Hummingbirds are attracted to the unique flowers. This Australian native is drought-tolerant and must have very well-drained soil. Needs very little or no fertilizer, but you can improve its growth with a slow release fertilizer applied around the plant.

<b>Argyranthemum 'Butterfly'</b>	Marguerite Daisy; Boston Daisy	Bright yellow	14"-18" tall
Well-drained soil.	Full sun	SP-F	12"-14" wide

Extremely large single bright yellow blooms; arguably the longest blooming Argyranthemum.

<b>Asclepias 'Monarch Promise'</b>	Bloodflower	Orange and red	24"-30" tall
Rich, well-drained soil; water sparingly.	Full sun	SU-F	15" wide

A milkweed that Monarchs love, plus it provides some very unique variegated foliage! The leaves have a pinkish tint to the creamy leaf margins, making them quite beautiful! A fun plant for the gardener who has it all and is looking for something a little new- and wants to provide some pollinator habitat in the process! An attractive addition to containers as well!

<b>Asclepias physocarpa</b>	Hairy Balls, Swan Milkweed, Ballon Plant Milkweed	Mauve and white	4' tall
	Full sun	ESU	

A host plant for the Monarch and Soldier butterflies. In early summer, it forms small mauve and white, star-shaped flowers in pendulous clusters that make way for an abundance of 2.5" to 3" wide hairy green "family jewel" shaped seed pods with a reddish blush. These inflated capsules are rounded with soft spikes and contain many small brown seeds to which silky tufts are attached for wind dispersal just like the other members of this genus. A quote from a gardener- "This is a monarch magnet! I grew four other Asclepias in my garden this year, and this was the one that was consistently covered in caterpillars all season long. The seed pods are a definite conversation starter! I plan on adding several more to next year's garden. This is a must-have in a butterfly garden!"

## Annual Flower/Foliage

<b>Asclepias 'Silky Gold'</b>	Bloodflower	Gold	28"-36" tall
Rich, well-drained soil; water sparingly.	Full sun	SU-F	12"-18" wide
Luminous golden yellow blooms all summer and up to frost.			

<b>Asclepias 'Silky Scarlet'</b>	Bloodflower	Red and orange	28"-36" tall
Rich, well-drained soil; water sparingly.	Full sun	SU-F	12"-18" wide
Brilliant electric red and orange bicolored blooms all summer and up to frost.			

<b>Asparagus Fern densiflorus 'Myersii'</b>	Foxtail Fern; Bottle Brush Fern		1'-2' tall
Rich, moist, well-drained soil.	Part to Full shade		1'-2' wide
This unusual plant adds textural contrast to beds, borders, and large containers. Long, upright, plume-like stems hold soft, needle-like, bright green leaves. Develops red ornamental berries in the fall.			

<b>Asparagus Fern densiflorus 'Sprengeri'</b>	Emerald Fern, Sprengeri, Protasparagus		18"-24" tall
Rich, moist, well-drained soil.	Part to Full shade		1' wide
Emerald Fern; Long graceful sprays of green foliage.			

<b>Bacopa 'MegaCopa Blue'</b>	Sutera cordata	Blue	4" to 6" tall
Moist, well-drained soil.	Part to full shade	SP-F	12' to 18" wide
This new series features a well-branched habit with improved heat tolerance, is covered in large blue blossoms and also has a more compact habit than most. Nicely mounded habits add a delicate touch to containers and baskets. Semi-trailing.			

<b>Bacopa 'MegaCopa White'</b>	Sutera cordata	White	4" to 6" tall
Moist, well-drained soil.	Part to full shade	SP-F	12" to 18" wide
This new series of bacopa is notable for its well-branched habits, large flowers and improved heat performance. Largest flower size in the industry, with showy blooms that cover the plant. Nicely mounded habit adds a delicate touch to containers and baskets.			

<b>Begonia boliviensis 'Bossa Nova Ivory'</b>	Bolivian Begonia	Ivory	18"-30" tall
Rich, moist, well-drained soil.	Part to full shade	LSP-F	16"-20" wide
A fantastic option for use in dramatic hanging baskets and colorful combination planters, where continuous color-power is needed all season long. Exhibits excellent branching on a tidy, yet abundant habit. Nonstop, bell-shaped, ivory blooms have a pink tinge and are 2" wide and appear from late spring to frost on impressive, cascading plants. The flowers really "pop" against the green foliage! Self cleaning and tough.			

<b>Begonia boliviensis 'Bossa Nova Orange'</b>	Bolivian Begonia	Glowing orange	18"-30" tall
Rich, moist, well-drained soil.	Part to full shade	LSP-F	16"-20" wide
A fantastic option for use in dramatic hanging baskets and colorful combination planters, where continuous color-power is needed all season long. Exhibits excellent branching on a tidy, yet abundant habit. Nonstop, bell-shaped, glowing deep orange blooms are 2" wide and appear from late spring to frost on impressive, cascading plants. The flowers really "pop" against the green foliage! Self cleaning and tough.			

## Annual Flower/Foliage

<b>Begonia boliviensis 'Bossa Nova Pink Glow'</b>	Bolivian Begonia	Glowing salmon-pink	18"-30" tall
Rich, moist, well-drained soil.	Part to full shade	LSP-F	16"-20" wide

A fantastic option for use in dramatic hanging baskets and colorful combination planters, where continuous color-power is needed all season long. Exhibits excellent branching on a tidy, yet abundant habit. Nonstop, bell-shaped, glowing salmon-pink blooms are 2" wide and appear from late spring to frost on impressive, cascading plants. The flowers really "pop" against the green foliage! Self cleaning and tough.

<b>Begonia boliviensis 'Bossa Nova Red'</b>	Bolivian Begonia	Rosy red	18"-30" tall
Rich, moist, well-drained soil.	Part to full shade	LSP-F	16"-20" wide

A fantastic option for use in dramatic hanging baskets and colorful combination planters, where continuous color-power is needed all season long. Exhibits excellent branching on a tidy, yet abundant habit. Nonstop, bell-shaped, rosy red blooms are 2" wide and appear from late spring to frost on impressive, cascading plants. Self cleaning and tough.

<b>Begonia boliviensis 'Bossa Nova Rose'</b>	Bolivian Begonia	Bright rose	18"-30" tall
Rich, moist, well-drained soil.	Part to full shade	LSP-F	16"-20" wide

A fantastic option for use in dramatic hanging baskets and colorful combination planters, where continuous color-power is needed all season long. Exhibits excellent branching on a tidy, yet abundant habit. Nonstop, bell-shaped, bright rose blooms are 2" wide and appear from late spring to frost on impressive, cascading plants. Self cleaning and tough.

<b>Begonia boliviensis 'Bossa Nova Salmon Shades'</b>	Bolivian Begonia	Salmon-orange	18"-30" tall
Rich, moist, well-drained soil.	Part to full shade	LSP-F	16"-20" wide

A fantastic option for use in dramatic hanging baskets and colorful combination planters, where continuous color-power is needed all season long. Exhibits excellent branching on a tidy, yet abundant habit. Nonstop, bell-shaped, luscious salmon-orange blooms are 2" wide and appear from late spring to frost on impressive, cascading plants. Self cleaning and tough.

<b>Begonia boliviensis 'Mistral Dark Red'</b>	Bolivian Begonia	Red	10" to 12" tall
<b>NEW</b>	Full Shade		14" to 16" wide

It has many, many medium sized semi double flowers of brightest true red that will cover the whole plant. Has a semi-trailing habit that is excellent for mixed containers of baskets; this trailing habit makes it the very best Begonia for hanging baskets!

<b>Begonia boliviensis 'Rise Up Flamingo Dream'</b>	Bolivian Begonia	Canary Yellow and Light Pink	12" to 16" tall
<b>NEW</b>	Part to Full Shade	MSP to EF	12" to 16" wide

Tons of unique double, canary yellow and light pink blooms with excellent branching making this Begonia stunning in a hanging basket or container. Will form a tuber, which can be kept at 40 to 50 degrees during dormancy in the winter, to be repotted in January or February for the next season's enjoyment!

<b>Begonia boliviensis 'Rise Up Sansibel Peach'</b>	Bolivian Begonia	Light peach and yellow	12" to 16" tall
<b>NEW</b>	Part to Full Shade	MSP to EF	12" to 16" wide

Tons of unique semi-double, light peachy blooms with yellow centers, with excellent branching. Make stellar plants in hanging basket or container. Will form a tuber, which can be kept a 40 to 50 degrees during dormancy in the winter, to be repotted in January or February for the next season's enjoyment!

<b>Begonia semperflorens cultorum 'Cocktail Mix'</b>	Wax Begonia	Mix	6"-11" tall
Rich, moist, well-drained soil.	Full sun to Full shade	SP-F	6"-11" wide

Bronze foliage plants in a mix of red, pink, pink and white bicolor, and white flowers.

## Annual Flower/Foliage

### Begonia semperflorens cultorum 'Cocktail Tequila'

Wax Begonia

Deep rose

6"-11" tall

Rich, moist, well-drained soil.

Full sun to Full shade

SP-F

6"-11" wide

Deep rose flowers atop bronze foliage; Prairie Star.

### Begonia semperflorens cultorum 'Cocktail Vodka'

Wax Begonia

Red

6"-11" tall

Rich, moist, well-drained soil.

Full sun to Full shade

SP-F

6"-11" wide

#### Prairie Star

Red flowers atop bronze foliage; Prairie Star.

### Begonia semperflorens cultorum 'Super Olympia Mix'

Wax Begonia

Mix

6"-8" tall

Rich, moist, well-drained soil.

Full sun to Full shade

SP-F

8"-10" wide

Compact, uniform plants are early to bloom with  $\frac{3}{4}$ " blooms in a mix of coral, light pink, pink, red, rose, and white; green foliage.

### Begonia semperflorens cultorum 'Super Olympia Red'

Wax Begonia

Red

6"-8" tall

Rich, moist, well-drained soil.

Full sun to Full shade

SP-F

8"-10" wide

Compact, uniform plants are early to bloom with  $\frac{3}{4}$ " red blooms atop green foliage.

### Begonia semperflorens cultorum 'Super Olympia Rose'

Wax Begonia

Rose

6"-8" tall

Rich, moist, well-drained soil.

Full sun to Full shade

SP-F

8"-10" wide

#### Prairie Star

Compact, uniform plants are early to bloom with  $\frac{3}{4}$ " rose blooms atop green foliage.

### Begonia semperflorens cultorum 'Super Olympia White'

Wax Begonia

Pure white

6"-8" tall

Rich, moist, well-drained soil.

Full sun to Full shade

SP-F

8"-10" wide

#### Prairie Star

Compact, uniform plants are early to bloom with  $\frac{3}{4}$ " pure white blooms atop green foliage.

### Begonia x benariensis 'Whopper Red w/ Green Leaf'

Wax Begonia

Bright red

34" tall

Rich, moist, well-drained soil.

Part sun to shade

LSP-F

#### Prairie Star

These monster plants garner attention every where they are planted, thanks to their extra large red blooms (up to 3" across), bold color, shiny green foliage, and ability to stand tough through the blazing heat. They are loved for the super-sized shows Whopper puts on in mass plantings and containers.

## Annual Flower/Foliage

<b>Begonia x benariensis 'Big Pink w/ Green Leaf'</b>	Wax Begonia	Rose-pink	1'-2' tall
Rich, moist, well-drained soil.	Part to full shade	SP-F	12"-15" wide

### Prairie Star

This revolutionary landscape begonia takes sun or shade! Robust plants cover themselves in 2 1/2" wide rose-pink flowers above the glossy green foliage. The plants have an upright, arching habit with a dense flower canopy. Self-cleaning- spent flowers fall to the ground. These begonias make a stately presentation in park settings, large landscape plantings, and in combination planters.

<b>Begonia x benariensis 'Big Red w/ Bronze Leaf'</b>	Wax Begonia	Bright red	12"-18" tall
Rich, moist, well-drained soil.	Part to full shade	SP-F	16"-18" wide

### Prairie Star

This revolutionary landscape begonia takes sun or shade! Robust plants cover themselves in 2 1/2" wide bright red flowers above the glossy bronze foliage. The plants have an upright, arching habit. These begonias make a stately presentation in park settings, large landscape plantings, and in combination planters.

<b>Begonia x benariensis 'Big Rose w/ Bronze Leaf'</b>	Wax Begonia	Vibrant rose	12"-18" tall
Rich, moist, well-drained soil.	Part to full shade	SP-F	16"-18" wide

### Prairie Star

This revolutionary landscape begonia takes sun or shade! Robust plants cover themselves in 2 1/2" wide vibrant, bright rose flowers above the glossy bronze foliage. The plants have an upright, arching habit. These begonias make a stately presentation in park settings, large landscape plantings, and in combination planters.

<b>Begonia x benariensis 'Whopper Rose w/ Green Leaf'</b>	Wax Begonia	Bright rose	34" tall
<b>NEW</b>	Part sun to shade	LSP-F	22" wide

These monster plants garner attention every where they are planted, thanks to their extra large bright rose blooms (up to 3" across), bold color, shiny green foliage, and ability to stand tough through the blazing heat. They are loved for the super-sized shows Whopper puts on in mass plantings and containers.

<b>Begonia, Angel Wing 'Lana'</b>	Angel Wing Begonia	Deep pink	2'-4' tall
Rich, moist, well-drained soil.	Part to Full shade	SP-W	2' wide

Very dark green angel-wing leaves are accented with almost white veins; clusters of deep pink flowers set against the bicolored foliage makes for a wonderful composition!

<b>Begonia, Angel Wing 'Linda Dawn'</b>	Angel Wing Begonia	Light pink	14" tall
Moist, well-drained soil	Part to full shade	SP-SU	14" wide

Large, deep chocolate brown leaves with red backs provide a great backdrop for light pink flower clusters. A mounding form.

<b>Begonia, Fibrous 'Baby Wing Bicolor'</b>	Fibrous Begonia	Orange and White	12' to 15" tall
Rich, moist, well-drained soil.	Part to full shade	SP-F	10" to 12" wide

### Prairie Star (new 2017)

Enjoy continuous bloom up to 2 weeks earlier than Dragon Wing! Bicolor shows a soft hint of 'orange glow' on each petal, with blooms that are slightly smaller than the other colors, but are very floriferous for the same overall flower power. Upright, low-maintenance, mounded plants have a small dragon-winged shaped leaves. Season long performance in landscapes leaves. Extremely heat tolerant and handles stressful conditions well. 2016 Prairie Star Award Winner.

## Annual Flower/Foliage

### Begonia, Fibrous 'Canary Wings'

Fibrous Begonia

Red Bright

12" to 18" tall

NEW

Part to Full Shade

MSP to EF

12" to 18" wide

This is an upright/mounded, begonia with a trailing habit. Has golden-to-chartreuse leaves and bright red pendant flowers. The leaves are especially exciting when grown in part-shade conditions. A great option for part shade/shade baskets. Good for small pots and large containers in a combo.

### Begonia, Fibrous 'Doublet Pink'

Fibrous Begonia

Pink

8"-11" tall

Rich, moist, well-drained soil.

Part to Full shade

SP-F

12"-14" wide

#### Prairie Star

Double pink flowers atop bronze leaves; long blooming; Prairie Star.

### Begonia, Fibrous 'Doublet Red'

Fibrous Begonia

Scarlet-red

8"-11" tall

Rich, moist, well-drained soil.

Part to Full shade

SP-F

12"-14" wide

#### Prairie Star

Double scarlet-red flowers atop bronze leaves; long blooming; Prairie Star.

### Begonia, Fibrous 'Doublet Rose'

Fibrous Begonia

Deep rose

8"-11" tall

Rich, moist, well-drained soil.

Part to Full shade

SP-F

12"-14" wide

#### Prairie Star

Double deep rose flowers atop bronze leaves; long blooming; Prairie Star.

### Begonia, Fibrous 'Doublet White'

Fibrous Begonia

White

8"-11" tall

Rich, moist, well-drained soil.

Part to Full shade

SP-F

12"-14" wide

#### Prairie Star

Double white flowers atop bronze leaves; long blooming; Prairie Star.

### Begonia, Fibrous 'Dragon Wing Pink'

Fibrous Begonia

Medium pink

12"-15" tall

Rich, moist, well-drained soil.

Full sun to Full shade

SP-F

12"-18" wide

Bright green leaves are paired like wings; medium pink 1½" flowers; vigorous and very heat tolerant. \*\*Dr. Alan Stevens' research at the K-State trial garden locations has shown that the 'Dragon Wing' Begonias can be grown successfully in full sun IF they are planted early (after chance of frost is over, but well before the weather turns hot) and if they are spaced a little closer together (to help the plants shade the soil and keep the soil temperature cooler).\*\*

### Begonia, Fibrous 'Dragon Wing Red'

Fibrous Begonia

Scarlet

12"-15" tall

Rich, moist, well-drained soil.

Full sun to Full shade

SP-F

12"-18" wide

#### Prairie Star

Bright green leaves are paired like wings; scarlet 1½" flowers; vigorous and very heat tolerant. \*\*Dr. Alan Stevens' research at the K-State trial garden locations has shown that the 'Dragon Wing' Begonias can be grown successfully in full sun IF they are planted early (after chance of frost is over, but well before the weather turns hot) and if they are spaced a little closer together (to help the plants shade the soil and keep the soil temperature cooler).\*\*

### Begonia, Fibrous 'Megawatt Pink Bronze Leaf'

Fibrous Begonia

Bright Pink

20" to 28" tall

Rich, moist, well-drained soil.

Part to Full shade

SP-F

16" to 24" wide

Large plants have bright pink flowers from spring through fall, atop glossy bronze leaves. These showy plants are best suited for mass plantings in landscapes and can be planted in sunny or shady areas. Easy to grow, powers through humidity and heat, and tolerates drier periods between watering. Outstanding performers flowers continuously from late Spring to Autumn. Use in big containers, borders, and landscaping.

## Annual Flower/Foliage

### Begonia, Fibrous 'Megawatt Rose Green Leaf'

Fibrous Begonia

Rose Pink

20" to 28" tall

Rich, moist, well-drained soil.

Part to Full shade

SP-F

12" to 16" wide

Striking, non-stop flowers keep plants covered in huge color all through Summer. Sturdy flower stem hold flowers above the foliage for superior show versus others. Beautiful plants with lush foliage are perfect for landscapes, baskets, big containers, borders, and landscaping.

### Begonia, Rex 'Autumn Embers'

Rex Begonia

10"-12" tall

Rich, moist, well-drained soil.

Full shade

W

6"-10" wide

Medium-sized, slightly puckered foliage glows in a bright, warm cinnamon-orange tone with red undersides. Amazing in its colors, evoking the changing colors of tree leaves in the fall months! Performs best in bright shade. Water around the base of the plant, so the foliage stays as dry as possible. A wonderful focal point in containers!

### Begonia, Rex 'Escargot'

Rex Begonia

Pink

12"-15" tall

Rich, moist, well-drained soil.

Full shade

W

1' wide

Unique leaves have deep green centers, then silver-green, then dark green again, all thinly edged in chocolate-maroon; as a double bonus, the leaf forms a pinwheel at the leaf petiole; Escargot is the gourmet name for "snail"!

### Begonia, Rex 'Jurassic Pink Shades'

Rex Begonia

10" to 16" tall

Rich, moist, well-drained soil.

Full shade

W

The attractive, large twisted heart-shaped leaves remain colorful throughout the season. The foliage has brown edges that are speckled with pink. The inner leaf is rosy pink around a dark brown center. Flowers are insignificant. The name Jurassic Rex invokes images of large-leaved plants that might have been eaten or trampled by dinosaurs and is appropriate for this series of begonias. The unusual colors, shapes and textures bring something unique to the landscape.

### Begonia, Rex 'Jurassic Red Splash'

Rex Begonia

10" to 12" tall

Rich, moist, well-drained soil.

Full shade

W

This rex begonia has striking color pattern and its eye-catching burgundy red silver foliage helps brighten up shady areas. These really do resemble reptilian skin, interesting textures and colors are great for containers gardening, in the flower bed or keep over winter as beloved houseplants. Foliage was a dramatic combination of red and silver with large jagged edges. A good choice for shady areas as it has iridescent foliage with occasional beam of sunlight. These plants seemed fast-growing, care-free, and filled out a container quickly.

### Begonia, Rex 'Jurassic Silver Point'

Rex Begonia

10" to 16" tall

Rich, moist, well-drained soil.

Full shade

W

It produces stunning leaves with black pointed edges, silvery-green inner margins and dark centers; an eye catching addition to the garden or containers! Its attractive, large twisted heart-shaped leaves remain silver in color with distinctive black edges and tinges of rose throughout the year.

### Begonia, Rex 'Jurassic Watermelon'

Rex Begonia

10" to 16" tall

Rich, moist, well-drained soil.

Full shade

W

8" to 12" wide

The attractive, large twisted heart-shaped leaves remain colorful throughout the season. This begonia has juicy, mouth watering colors in a definite watermelon pattern. Deep brown edges are ruffled, margins are dark green freckled in silver and midcenters are rose-red with deep brown veining centers. Flowers are insignificant. The name Jurassic Rex invokes images of large-leaved plants that might have been eaten or trampled by dinosaurs and is appropriate for this series of begonias. The unusual colors, shapes and textures bring something unique to the landscape.

### Begonia, Rex 'Northern Lights'

Rex Begonia

Pure white

6"-12" tall

Rich, moist, well-drained soil.

Full shade

W

6"-12" wide

Unique leaves change color with seasonal light, always creating an eye-catching display! In spring and summer, the foliage is silver with deep burgundy veining. In fall and winter, there is a beautiful rosy-red overlay to the silvering! Sprays of white blooms arise over the compact, mounding plants in winter.

## Annual Flower/Foliage

### Begonia, Rex 'Red Robin'

Rex Begonia

6"-8" tall

Rich, moist, well-drained soil.

Full shade

W

10"-12" wide

Stunning, small leaves are bright red, with deep chocolatey purple centers and edges. Compact habit.

### Begonia, Rex 'Rum Painkiller'

Rex Begonia

6"-12" tall

Rich, moist, well-drained soil.

Full shade

W

6"-12" wide

Bright pink centers are hidden underneath thick dark green venation that appears to be painted on, edged with thick bands of minty green.

### Begonia, Tuberous 'Borias'

Tuberous Begonia

Pink/Apricot

8" to 12" tall

**NEW**

Full Shade

MSP to EF

12" to 14" wide

Has beautiful blossoms of pink/apricot with margins, that will cover the foliage with many, many flowers from MSP to EF. They require well-drained soil (we recommend a bark-based mix), and full in our climate. After the first frost that has damaged the foliage, dig up the entire plant, break off the tuber in a small paper bag. Store in a cool place at about 45 degrees until January-February, when you can replant the tubers in pots in a warm, sunny area, for another season's enjoyment.

### Begonia, Tuberous 'Eva'

Tuberous Begonia

Yellow with Pink edges

10" to 14" tall

Rich, moist, well-drained soil.

Full shade

MSU to MF

It features dainty yellow orchid-like flowers with white overtones and shell pink edges at the ends of the stems from mid spring to mid fall. It's succulent heart-shaped leaves remain green in color throughout the season. Its foliage tends to remain dense right to the ground, not requiring facer plants in front. Wonderful in containers or window boxes.

### Begonia, Tuberous 'Evi Pink'

Tuberous Begonia

Rose-pink

8" tall ,8" wide

Rich, moist, well-drained soil.

Full shade

SP-F

### Prairie Star

Attracts hummingbirds

Rabbit resistant

Deer resistant

This variety was trialed at the K-State gardens and found to be impressive in the shade containers. One of the most prolific blooming begonias, it is not as affected as some of the other cultivars by temperature swings from cool to hot. Large single and semi-double, intensely colored, bright rose-pink flowers atop beautiful dark foliage. Plant in moist, well-drained soil in full shade.

### Begonia, Tuberous 'Non Stop Joy Mocca White'

Tuberous Begonia

White

8" to 12" tall

**NEW**

Full Shade

MSP to LF

12" to 14" wide

The stunning dark foliage of this 'Non-Stop' Begonia really shows off the pure white flowers to their best! Coming into bloom in mid-spring, it continues to shower you with pure white blooms all summer long right up until late fall, if there has not been a frost. Be sure to dig the tubers for next season's bloom! Must have well-drained soil and full shade.

### Begonia, Tuberous 'Non Stop Joy Yellow'

Tuberous Begonia

Golden yellow

8"-12" tall

Rich, moist, well-drained soil.

Full shade

SP-F

12"-16" wide

The first semi-trailing begonia in the 'Non Stop' family. Vigorous, mounding plants show off large, golden yellow double blooms.

### Begonia, Tuberous 'Non Stop Mocca Bright Orange'

Tuberous Begonia

Bright orange

10"-12" tall

Rich, moist, well-drained soil.

Full shade

SP-F

12"-14" wide

Free flowering with large 3"-4" wide bright orange blooms against dark chocolate leaves. Uniform, well-branched, compact habit makes it great for pots, hanging baskets, and in beds.

## Annual Flower/Foliage

<b>Begonia, Tuberous 'Non Stop Mocca Pink Shades'</b>	Tuberous Begonia	Pink shades	10"-12" tall
Rich, moist, well-drained soil.	Full shade	SP-F	12"-14" wide
Free flowering with large 3"-4" wide blooms in shades of medium to dark pink, held against dark chocolate leaves. Uniform, well-branched, compact habit makes it great for pots, hanging baskets, and in beds.			
<b>Begonia, Tuberous 'Non Stop Mocca Scarlet'</b>	Tuberous Begonia	Scarlet-red	10"-12" tall
Rich, moist, well-drained soil.	Full shade	SP-F	12"-14" wide
Free flowering with large 3"-4" wide scarlet-red blooms against dark chocolate leaves. Uniform, well-branched, compact habit makes it great for pots, hanging baskets, and in beds.			
<b>Begonia, Tuberous 'Valentine Red'</b>	Tuberous Begonia	Red	8" to 12" tall
<b>NEW</b>	Full Shade	MSP to LF	12" to 14" wide
The gorgeous dark green foliage of the Tuberous Begonia really shows off the brilliant red flowers to their best! Coming into bloom mid-spring, it continues to shower you with red blooms all summer long, right up until late fall, if there has not been a frost. Be sure to dig the tubers for next season's bloom! Must have well-drained soil and full shade.			
<b>Bidens 'Sunbeam'</b>	Golden Showers, Apache Beggarticks, Bur-marigolds, Stickseeds	Golden yellow	10"-14" tall
<b>NEW</b> Moist, well-drained soil.	Full sun	SP-SU	14"-24" wide
Vigorous plants with feathery dark green foliage and early to bloom five-petaled star-shaped daisies of rich golden yellow! Excellent for large baskets and combos! Extremely heat and drought tolerant.			
<b>Bougainvillea 'Elizabeth Angus'</b>	Paper Flower	Pink	6' to 10' tall
<b>NEW</b> Rich, well-drained soil.	Full Sun	MSP to EF	4' to 6' wide
The vibrant pink bougainvillea does well in all applications as responds well to pruning on trellis or as patio tree. However, this plant does equally as well when aggressively pruned as bush or hanging basket as tends to trail its runners more readily than other varieties. It is a moderate feeder, but will yellow out readily of deprived of nutrients especially iron. Needs full sun and is heat-loving!			
<b>Bougainvillea 'Juanita Hatten'</b>	Paper Flower	Fuchsia-red	1'+ tall
<b>NEW</b> Rich, well-drained soil.	Full sun	MF-MSU	1'-2' wide
Profusions of rich fuchsia-red flowers. Slightly variegated foliage in two shades of green. Compact, spreading habit. Branches freely, making it excellent for baskets.			
<b>Bougainvillea 'Miami Pink'</b>	Paper Flower	Bright light pink	
<b>NEW</b> Rich, well-drained soil.	Full sun	MF-MSU	
Bright, light pink flowers are very eye-catching; excellent for baskets			
<b>Bougainvillea 'Raspberry Ice'</b>	Paper Flower	Fuchsia	1'+ tall
<b>NEW</b> Rich, well-drained soil.	Full sun	MF-MSU	1'-2' wide
Fuchsia flowers. Green leaves are broadly margined in cream and creamy yellow.			

## Annual Flower/Foliage

### Bougainvillea 'Sundown Orange'

Paper Flower

Orange-gold to pink

1'+ tall

**NEW** Rich, well-drained soil.

Full sun

MF-MSU

1'-2' wide

Orange-gold flowers mature to light pink; excellent in hanging baskets.

### Brugmansia 'Cherub'

Angel's Trumpet

Deep apricot-pink with peach

3'-4' in year 1, 6' to 8' in year 2 tall

Rich, moist, well-drained soil.

Part to full sun

SU

3' wide in year 1, 6' wide in year 2

Unbelievably floriferous, this variety sets a new standard of performance. The 9" long trumpets are a deep apricot-pink with a peach overtone. The long chartreuse buds turn cream and a faint pink, darkening as they open. They bloom in waves about every 3 weeks. The plants are bushy and well-branched. Delightfully fragrant in the early mornings and evenings.

### Brugmansia 'Kyles Sunray'

Angel's Trumpet

Sunny yellow

3'-4' in year 1, 6' to 8' in year 2 tall

Rich, moist, well-drained soil.

Part to full sun

SU

3' wide in year 1, 6' wide in year 2

3' to 4' tall, 3' wide in the first year, to 6' to 8' tall, 6' wide in subsequent years; 5" wide by 12" long, hanging lemon yellow trumpets are highly fragrant. Rays of light and dark yellow appear in the corolla. Its fragrance is especially noticeable in the early evening. A vigorous, large growing plant.

### Brugmansia 'Snowbank'

Angel's Trumpet

Peach

5' tall

Rich, moist, well-drained soil.

Part to full sun

SU

3' wide in year 1, 6' wide in year 2

Fragrant peach colored blooms of immense proportions, emerging from some of the most brilliant and broadly margined foliage you have ever seen- blue green foliage is splashed with blue-gray and widely margined in creamy white!

### Caladium 'Candidum'

Angel Wings; Elephant Ear's; Mother-in-law Plant

Greenish white

12"-18" tall

Rich, moist, well-drained soil.

Full shade

SP

1'-2' wide

Large white leaves with green netted venation and a thin green margin.

### Caladium 'FM Joyner'

Angel Wings; Elephant Ear's; Mother-in-law Plant

Greenish white

12"-18" tall

Rich, moist, well-drained soil.

Full shade

SP

1'-2' wide

Creamy leaves have green netted venation with light pink spots and blotches and the dark red central veins.

### Caladium 'Freida Hemple'

Angel Wings; Elephant Ear's; Mother-in-law Plant

Greenish white

15"-17" tall

Rich, moist, well-drained soil.

Full shade

SP

1' wide

Has large heart-shaped foliage with bold red centers edged in bright green. Will brighten any shady spot!

### Caladium 'Lemon Blush'

Angel Wings; Elephant Ear's; Mother-in-law Plant

Greenish white

18" to 24' tall

Rich, moist, well-drained soil.

Full shade

SP

With a rose red center and wide chartreuse margin 'Lemon blush' is a new look in caladiums. Great for pots and the landscape, the wide chartreuse margin makes it a great companion plant accenting anything it is planted with!

## Annual Flower/Foliage

### Caladium 'Tie Dyed Tree Frog'

Angel Wings; Elephant Ear's; Mother-in-law Plant

18" to 24" tall

NEW

Part to Full Shade

SP

18" to 30" wide

It is a playfully colorful, and a tall grower by caladium standards. Dark green leaves are accented by a red mid-vein, a mottled with lime-green and yellow variegation. Colorful, heart-shaped leaves can be very effective when planted in a big sweep. Use as border plants for splashes of color. Shorter varieties combine well in mixed planters and hanging baskets with Begonias and Ferns. Grows in part to full shade. Rarely blooms a white in midsummer. Wait to plant after night soil temperatures reach the high 60's. Moist, (not soggy) don't allow to dry out.

### Calendula 'Calypso Mix'

Pot Marigold; English Marigold

Orange and Yellow

8"-12" tall

Moist, well-drained soil.

Full sun

MSP-EF

10" wide

Bright, large double flowers of pumpkin orange and bright yellow, both with attractive black centers. An interesting note- farmers have been known to feed the flowers to hens to deepen the yolk color of their eggs!

### Calibrachoa 'Aloha Hula Hot Pink'

Mini Petunia

Hot and dark pink

6"-10" tall

NEW

Part to full sun

SP-F

12"-16" wide

Masses of large hot-pink flowers with dark centers surrounding a yellow throat all season long. Features a semi-upright habit, especially suited to container planting.

### Calibrachoa 'Aloha Kona Orange Hot'

Mini Petunia

Orange and scarlet

6"-10" tall

NEW

Part to full sun

SP-F

12"-16" wide

Masses of large, stunning orange flowers with scarlet overtones. Features a semi-upright habit, especially suited to container planting.

### Calibrachoa 'Aloha Red Cartwheel'

Mini Petunia

Vibrant red and gold

6"-10" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

12"-16" wide

A clearly delineated gold star radiates across the vibrant red flowers! The star pattern is stable, even during the heat. Large flowers atop semi-upright plants.

### Calibrachoa 'Cabaret Bright Red'

Mini Petunia

Bright red

6"-10" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

10"-12" wide

An abundance of bright red blooms cover the well-branched, trailing plants. A great performer that's always in bloom with a very tidy habit that trails up to 10".

### Calibrachoa 'Cabaret Deep Yellow'

Mini Petunia

Deep yellow

6"-10" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

10"-12" wide

Deep yellow blooms. A great performer that's always in bloom with a very tidy habit that trails up to 10".

### Calibrachoa 'Cabaret Hot Pink'

Mini Petunia

Iridescent hot pink

6"-10" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

9"-11" wide

The hottest pink flowering Calibrachoa on the market. An abundance of iridescent hot pink flowers with yellow throats cover these well-branched, trailing plants. The plants are self-cleaning, so they stay neat and tidy all season long!

## Annual Flower/Foliage

### Calibrachoa 'Cabaret Lemon Yellow'

Mini Petunia

Lemon Yellow

6" to 10" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

10" to 12" wide

An abundance of bright blooms cover these well-branched, trailing plants. They are self-cleaning so they stay neat and tidy all season. It was a crowd favorite at Ball Horticultural's open house, before being selected as a Classic City award winner. It was a crowd favorite at Ball Horticultural's open house, before being selected as a Classic City award winner. It was early to grow into a mound of deep green foliage that became covered in deep lemon-yellow flowers. This plant remained in full bloom from the beginning to the end of summer.

### Calibrachoa 'Cabaret Purple Improved'

Mini Petunia

Deep purple

6"-10" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

10"-12" wide

#### Prairie Star

Deep purple flowers with bright lemon throats. A great performer that's always in bloom with a very tidy habit that trails up to 10".

### Calibrachoa 'Cabaret White'

Mini Petunia

Pure white

6"-10" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

10"-12" wide

#### Prairie Star

An abundance of pure white blooms with golden throats cover the well-branched, trailing plants. The plants are self-cleaning, so they stay neat and tidy all season long!

### Calibrachoa 'Can-Can Pink Bumble Bee'

Mini Petunia

Dark and lighter pink

10" to 15" tall

**NEW**

Full Sun

MSP to EF

10" to 15" wide

One-of-a-kind colors and strong vigor for full-bodied mixed containers. Flowers stay open under the lowest of light conditions - always look fresh! Dark pink flowers have a lighter pink edge, and a yellow star shepd center! Star, eye, picotee and tri-color - this calibrachoa has unique patterns! The wider star adds wow to the throat of the bloom. Perfect for large baskets and combos.

### Calibrachoa 'StarShine Pink'

Mini Petunia

Rich pink

8" to 10" tall

**NEW** Light, well-drained, acidic soil.

Full Sun

MSP to EF

12" to 14" wide

A shining star, StarShine launches the WOW factor with big, brilliant star-patterned blooms and powerful garden performance. Rich pink flowers with a yellow star pattern coming from the throat. It branches and fills well for dazzling hanging baskets and large and small containers. Lots of long-lasting garden color.

### Calibrachoa 'Superbells Blue Moon Punch'

Mini Petunia

Silvery Lavender with deep purple eye

6" to 12" tall

**NEW**

Full Sun

MSP to EF

8" to 12" wide

Do you BELIEVE in LOVE at first sight? By the time hard frost comes in fall, this plant will have showered your garden with thousands of blooms. The petite, silvery lavender flowers with deep purple eyes, grace cascading plants that are great in combinations, mon-hanging baskets and in raised beds with great drainage.

### Calibrachoa 'Superbells Coralberry Punch'

Mini Petunia

Coral-red and burgundy

8"-12" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

8"-15" wide

#### Prairie Star

Covered with cheerful 1" to 1 1/4" wide coral-red flowers with rich burgundy throats, this new member of the 'Superbells' collection of Calibrachoa is quickly becoming a favorite. The bright flowers are eye-catching all day long! Trailing plants are perfect for containers and hanging baskets. Less vigorous than most in the 'Superbells' series.

### Calibrachoa 'Superbells Double Ruby'

Mini Petunia

Red

6" to 12" tall

**NEW**

Full Sun

8" to 12" wide

Attracts butterflies

Attracts hummingbirds

Enjoy the small, double blooms of this exciting new Calibrachoa in you summer containers! The small blooms look like little rose buds that set nestled above the green foliage. Features deep red double blooms - perfect for containers and hanging baskets. Enjoy the flutter of hummingbirds and butterflies as the sip the sweet nectar of this Calibrachoa!

## Annual Flower/Foliage

### Calibrachoa 'Superbells Evening Star'

Mini Petunia

Lavender-blue

6"-10" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

8"-10" wide

#### Prairie Star (new 2017)

Trailing plants are covered in cool lavender-blue blossoms, each featuring a perfectly shaped gold star throat and deep blackish purple eye! The star pattern is stable, even during the heat. Vigorous trailing habit.

### Calibrachoa 'Superbells Holy Moly!'

Mini Petunia

Yellow and dark pink

6"-10" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

8"-10" wide

Do you believe in love at first sight? If you like 'Superbells Cherry Star', you may enjoy this new sport, 'Holy Moly!' With its creamy yellow base color, 'Holy Moly!' is splashed with dark pink on its petals. A funky, fun Superbells! Less vigorous than most in the 'Superbells' series.

### Calibrachoa 'Superbells Lemon Slice'

Mini Petunia

Bright yellow and pure white

6"-10" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

10"-12" wide

#### Prairie Star

Have a slice of the tropics in your containers! Pure white flowers have a wide, zesty, bright yellow star or pinwheel pattern, causing the flowers to be more yellow than white. Mounding and trailing habit to 24". Vigorous plants are prolific bloomers! A lively showstopper on its own, or as a stylish accent trimming white or yellow companions.

### Calibrachoa 'Superbells Pomegranate Punch'

Mini Petunia

Rosy red and black

10"-12" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

10"-18" wide

#### Prairie Star

Blooming a magnificent deep rosy red with a prominent black eye and yellow centers; the flowers are sure to catch the eye! The flowers densely cover the cascading plants all season long! Easy to work with, the trailing stems weave their way through their neighbors in container collections, creating a fabulous display! Looks beautiful in a container or by itself, or in a combo. Trails to 24" long.

### Calibrachoa 'Superbells Tropical Sunrise'

Mini Petunia

Mix of Red, Yellow, Oranges, and Pink

6" to 12" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

Enjoy the beauty of the tropics with Superbells Tropical Sunrise. The compact petunia shaped flowers are approximately 1.5 inches across. The mix of reds, yellows, oranges, and pinks come together with variable splashes of color. These heat loving annuals require no deadheading to keep them looking fabulous. It is perfect selection for hanging baskets and combination planters. We recommend fertilizing your Calibrachoa's at least every week with Natures Source Fertilizer. You may find mid season that they look a little leggy, go ahead and trim them back, this will encourage more branching and flower growth. Attracts butterflies and hummingbirds.

### Calibrachoa 'Volcano Sunset'

Mini Petunia

Yellow and Pink

14" tall

Light, well-drained, acidic soil.

Part to full sun

SP-F

18" wide

It's hard to find a more interesting basket or container plant! The gorgeous blooms are variable and unique. They are yellow with deep pink patterns that runs through the middle of each petal and resembles a lava flow, ranging in size from 1.25" to 2.5" diameter. Has a trailing habit of growth, eventually spilling over the edges of hanging basket and containers. It will benefit from a weekly application of Nature Source Fertilizer.

### Calla Lily 'Coastal Fire'

Calla Lily

Apricot and fire red-plum

14"-20" tall

Rich, moist soil.

Part sun

MSP-ESU

12"-16" wide

Apricot flowers are tipped in fire red-plum. The flowers have very nice form. Green leaves are spotted with white.

### Calla Lily 'Coastal Flame'

Calla Lily

Yellow to orange-red

14"-22" tall

Rich, moist soil.

Part sun

MSP-ESU

12"-16" wide

Very vibrant flowers on tall stems atop waxy, spotted, arrow-shaped leaves. The flowers are flame orange-red at maturity, but begin yellow edged with orange-red.

## Annual Flower/Foliage

### Calla Lily 'Coastal Glow'

Calla Lily

Hot pink

9"-17" tall

Rich, moist soil.

Part sun

MSP-ESU

12"-16" wide

Numerous hot pink flowers are held on short stems amongst the plain dark green leaves. Compact habit.

### Calla Lily 'Coastal Gold'

Calla Lily

Bright golden

16"-22" tall

Rich, moist soil.

Part sun

MSP-ESU

12"-16" wide

Very productive bloomer of bright golden flowers on tall stems atop spotted dark green leaves.

### Calla Lily 'Coastal Parfait'

Calla Lily

Soft pink to red

16"-22" tall

Rich, moist soil.

Part sun

MSP-ESU

12"-16" wide

Bicolor flowers vary between soft pink and red. Flowers are held on tall stems atop highly spotted dark green leaves.

### Calla Lily 'Coastal Purple'

Calla Lily

Plum purple

14"-18" tall

Rich, moist soil.

Part sun

MSP-ESU

12"-16" wide

Deep plum purple flowers atop bright green, narrow, arrow-shaped leaves.

### Calocephalus brownii 'Bed Head'

Silver Bush

Yellow

8" to 10" tall

**NEW**

Full Sun

SU

8" to 10" wide

Fun in the sun! Has a modern, fun texture! Heat and cold tolerant! Outrageously versatile! Produces a shimmering ball of soft, silvery foliage that makes a striking contrasting with green foliage plants or bright flowers. It is a native of Australia and is drought tolerant once well-established. Perfect combination plant with extravagant character, and it does not compete with other combo plants. A must-have for utting, dyeing, and conversation starter! Small yellow flowers in summer.

### Canna 'Cannova Lemon'

Indian Shot

Lemon Yellow

30"-48" tall

Rich soil, preferably moist to damp.

Full Sun

SU-F

16"-24" wide

**Prairie Star**

An excellent choice for adding height to the landscape or as a "thriller" in containers! Lemon yellow blooms atop the lustrous green foliage. Seed grown, so it's virus free. Early, uniform, and compact habit.

### Canna 'Cannova Mango'

Indian Shot

Salmon and Mango

4' tall

**NEW**

Full Sun

ESU to EF

20" wide

Features bold spikes of salmon and mango, flag-like flowers at the end of the stems from mid summer to early fall, which emerge from distinctive dark red flower buds. Its attractive large glossy pointy leaves remain dark green in color throughout the year. A good choice for attracting hummingbird o your yard! Is a fine choice for the garden, but it is also a good selection for planting in pots and containers. It is best suited for use as a "thriller" in the "spiller-thriller-filler" container combination.

### Canna 'Cannova Red'

Indian Shot

Red shades

30"-48" tall

Rich soil, preferably moist to damp.

Part to full sun

SU-F

16"-24" wide

**Prairie Star**

An excellent choice for adding height to the landscape or as a "thriller" in containers! Blooms in red shades atop the dark green foliage. Seed grown, so it's virus free. Early, uniform, and compact habit.

## Annual Flower/Foliage

### Canna 'Cannova Rose'

Indian Shot

Rose

30"-48" tall

Rich soil, preferably moist to damp.

Part to full sun

SU-F

16"-24" wide

#### Prairie Star

An excellent choice for adding height to the landscape or as a "thriller" in containers! Rose blooms atop the lustrous green foliage. Seed grown, so it's virus free. Early, uniform, and compact habit.

### Canna 'Cannova Yellow'

Indian Shot

Bright yellow

30"-48" tall

Rich soil, preferably moist to damp.

Part to full sun

SU-F

16"-24" wide

#### Prairie Star

An excellent choice for adding height to the landscape or as a "thriller" in containers! Bright yellow blooms atop the lustrous green foliage. Seed grown, so it's virus free. Early, uniform, and compact habit.

### Canna 'South Pacific Orange'

Indian Shot

Orange

26" to 32" tall

#### NEW

Full Sun

ESU to EF

20" wide

It is compact in habit and well suited for both landscape and container use. It is more vigorous, more uniform, and has more basal branching than comparison cannas. It offers an outstanding bloom color in an attractive, vivid bright orange that contrasts nicely with the bright green foliage. Beautiful in garden borders, containers, and pots and well suited for shallow areas of ponds and other water features. Pollinator gardens will love this addition of an attractive canna that sports uniformly colored flowers over a long blooming period.

### Canna 'South Pacific Scarlet'

Indian Shot

Scarlet

4'-5' tall

Rich soil, preferably moist to damp.

Part to full sun

ESU-EF

18"-24" wide

#### Prairie Star

Big, 4" wide flowers of orangey-red atop compact, very well-branched, dark green leaved plants. The large, handsome, leaves are paddle-shaped and are held almost straight up, creating a lovely look in any setting! The flowers begin blooming when temperatures top about 77 degrees F and continue well into autumn. The flashy flowers combine scarlet and orange tones with flames of gold and cream at the base. Like all cannas, it needs consistently moist, even damp soil. All-America Selections Winner 2013!

### Canna 'Tropicanna'

Indian Shot

Orange

6'-7' tall

Rich, moist or dry soil.

Full sun

SU-F

18"-24" wide

#### Prairie Star

Bronze foliage with dramatic stripes of yellow and vibrant red-coral; shocking orange flowers; Prairie Star Award Winner. Syn. 'Phasion'.

### Carnivorous Plant Pitcher Plant- Colorful Hybrids'

Pitcher Plant

16" tall

Moist, peaty soil.

Part sun

8" wide

These plants secrete a sweet smelling nectar around the lip of the pitcher, which attracts small insects; the nectar makes the insects drowsy, and once they follow the nectar trail into the trap, they are unable to keep their footing, and slip and fall in; downward pointing hairs add to the difficulties in escaping; once the insect is down in the tube, the digestive enzymes start to work; it is a bog plant that grows best in nutrient-deficient soils- a soil mix of 70% peat moss or sphagnum moss and 30% perlite or coarse pumice is great; needs to be placed in bright light, out of the direct, hot sun; likes it warm, humid, and constantly moist (place your pot on top of a tray holding a layer of pea gravel and water); water only with distilled water or rain water.

### Carnivorous Plant Venus Fly Trap

Venus Fly Trap

4"-10" tall

Moist, peaty soil.

Part sun

MSP

6"-10" wide

This plant fascinates children of all ages (even the adult kind!); the bright green traps have "trigger hairs" inside; an unwary insect that is attracted by the plant's nectar will brush against the trigger hairs, causing the traps to shut; the trap then literally squeezes the body fluids out of the insect and digests it, opening back up in about 4 days with just a carcass left inside! Each trap only closes about 4 times (the reason you don't want to stick your finger in the traps, causing them to close), then turns black and dies; new growth replaces the dead traps; each plant will consume 2 to 3 flies each month; the plants go dormant in the winter; it is a bog plant that grows best in nutrient-deficient soils- a soil mix of 70% peat moss or sphagnum moss and 30% perlite or coarse pumice is great; needs to be placed in bright light, out of the direct, hot sun; likes it warm, humid, and constantly moist (place your pot on top of a tray holding a layer of pea gravel and water); water only with distilled water or rain water.

## Annual Flower/Foliage

### Cassia alata (Candletree)

Candletree; Empress Candle Plant

Bright yellow

5'-6' tall

Deep, well-drained soil.

Full sun

LSU-F

3'-6' wide

Broadly oblong to obovate, pinnate leaves to 30" long have 14 to 28 oblong, bright green leaflets; bright yellow candelabra-like flowers to 6" to 24" tall appear from late summer til frost; very tropical looking!; used extensively in the gardens of Botanica, The Wichita Gardens.

### Cassia fasciculata

Partridge Pea

Bright yellow

24"-40" tall

Sandy to sandy loam or rocky soil.

Full sun

MSU-EF

12"-18" wide

A native legume with racemes of bright yellow blossoms that bloom in summer and into fall. The fruit is a small, flat pod 1" to 2 1/2" long, turning from green to brown when mature. The seeds are consumed by a variety of songbirds and wildlife. One of the most important fall and winter foods of Bobwhite Quail. Can be mildly poisonous to livestock when consumed in large quantities, but deer seem unaffected. Grows well in poor ground. Needs sandy to sandy loam or rocky soil. The beautiful feather-like leaves are touch-sensitive- they will fold when disturbed.

### Celosia argentea 'Asian Garden'

Pink

31" to 40" tall

Well-drained to dry soil.

Full sun

ESU-F

12" to 15" wide

### Prairie Star (new 2017)

This spiked beauty claimed victory in North America's trial sites to become the first ever AAS Winner from Japanese breeding company Murakami Seed. The judges gave this entry high marks in the greenhouse for the good branching, almost bushy growth habit and early to bloom flower spikes. In the garden, Asian Garden Celosia continued to bloom in sturdy stems, keeping the bright pink color all summer long, holding up even through some of the first frosts of the season. The AAS Judges commented on the fact that the celosia was a pollinator-magnet, making this AAS Winner a sure bet for pollinator-friendly gardens.

### Celosia 'Dragon's Breath'

Cockscomb

Deep red

20"-24" tall

Well-drained to dry soil.

Full sun

SP-F

16" wide

Has there ever been such a radiantly beautiful Celosia? Large deep red, feathery plumes above olive-green leaves that are edged in and shot with red accents! It is an obligate short day plant, meaning in order to flower, the plants must have less than 11 hours of sunlight per day. Therefore, it is a late-flowering variety and it holds beautifully, thriving in heat and humidity, and it doesn't mind drying out a bit between waterings. It's the answer to the large container gardener's biggest late summer dilemma, and a boon for any sunny setting! Grows quickly and flowers over a long, late season, extending the glory of the Celosias into fall. There is simply nothing like it in terms of eye-popping, irresistible color! 'Dragon's Breath' is a magnificent presence in the annual bed, patio pot, and fresh cut arrangement!

### Celosia, Cristata 'Amigo Mahogany Red'

Cockscomb

Deep red

6" tall

Well-drained to dry soil.

Full sun

SP-F

6" wide

The velvety deep red flowers grow to 8" to 10" across! Dark burgundy-green foliage.

### Celosia, Cristata 'Amigo Mix'

Cockscomb

Mix

6" tall

Well-drained to dry soil.

Full sun

SP-F

6" wide

A mix of magenta, mahogany red, neon rose, scarlet and yellow; the velvety flowers grow to 8" to 10" across!

### Celosia, Cristata 'Chief Mix'

Cockscomb

Mix

30"-40" tall

Well-drained to dry soil.

Full sun

MSU-F

18" wide

This crested cockscomb dazzles with huge, 4" to 7" wide heads in vibrant colors- rose, gold, carmine, dark red, persimmon, and red and yellow bicolor. The flowers look a bit like a head of cauliflower or a piece of sea coral! Each densely-packed flowerhead appears on its own sturdy stem, well above the thick, long fresh green foliage. Unforgettable for the garden or vase. An excellent dried flower as well.

## Annual Flower/Foliage

### Celosia, Cristata 'Dracula'

Cockscomb

Red

8" to 16" tall

Well-drained to dry soil.

Full sun

SP-F

This novelty celosia displays one large 6" to 7" flower atop each plant. The unusual shape and eye-catching color add drama to landscapes, garden and containers. In the greenhouse, the flower is red and foliage is green and with some red. Outdoors, the foliage is darker and more purple-toned, and the flower is a darker purple. Great cutflower and dried flower.

### Celosia, Cristata 'Tornado Red'

Cockscomb

Magenta

16"-24" tall

Well-drained to dry soil.

Full sun

LSP-F

6"-10" wide

This celosia is one of those drama plants used to showcase how fun and interesting the garden can be! Bold, vibrant magenta blooms offers great 55mph impact on high standing stems. Also an interesting flower to see upclose because of the intense, complicated folding going on inside the 6" to 9" wide combs. Great texture up close and great color from a distance- everything you want in a great drama plant! Plant with a silver leaved plant like Dusty Miller to see how the vibrant flowers are offset by silver foliage! Great as a fresh cut or dried flower, too!

### Celosia, Cristata 'WATCH'

Cockscomb

Hot reddish pink

12"-13" tall

Well-drained to dry soil.

Full sun

SP-F

10"-15" wide

### Prairie Star

Huge hot reddish pink crests; great color; selected by Wichita Area Technical College; Prairie Star Award Winner!

### Celosia, Plumosa 'Arrabona'

Woolflower; Plumed or Feathered Celosia

Red-orange

10"-14" tall

Well-drained to dry soil.

Full sun

LSP-F

10"-15" wide

Striking red-orange blooms have an exceptionally long flowering season. Unique color on a compact, sturdy plants that love heat, and tolerates drought. 'Arrabona' is named for an ancient Hungarian city. A Fleuroselect Gold Medal award winner, the judges were particularly impressed with its vivid color, superior garden performance, and overall uniformity.

### Celosia, Plumosa 'Castle Mix'

Woolflower; Plumed or Feathered Celosia

Mix

1' tall

Well-drained to dry soil.

Full sun

SP-F

1' wide

A mix of orange, pink, scarlet, and yellow plumes atop green foliage.

### Celosia, Plumosa 'Century Mix'

Woolflower; Plumed or Feathered Celosia

Mix

2' tall

Well-drained to dry soil.

Full sun

SP-F

18" wide

A mix of red, rose, yellow, cream, and fire red plumes; excellent!

### Celosia, Plumosa 'Century Red'

Woolflower; Plumed or Feathered Celosia

Deep red

2' tall

Well-drained to dry soil.

Full sun

SP-F

18" wide

Large 10"-12" deep red plumes atop bronze foliage; excellent!

### Celosia, Plumosa 'First Flame Mix'

Woolflower; Plumed or Feathered Celosia

Orange, red & yellow

14"-25" tall

Well-drained to dry soil.

Full sun

SP-F

10"-16" wide

Uniform heights across all colors equals fuller-looking containers. Makes an ideal order plant, though it is also great in larger containers. Well-branched plants produce lots of full blooms in orange, red, and yellow.

## Annual Flower/Foliage

### Celosia, Plumosa 'Freshlook Orange'

Woolflower; Plumed or Feathered Celosia Tangerine

12"-18" tall

Well-drained to dry soil.

Full sun

SP-F

12"-15" wide

Branching plants are topped by plumes up to 10" high of vibrant tangerine. The new leaves cover the old plumes so plants keep their "fresh look" all season long. Fleuroselect Quality Mark Winner.

### Celosia, Plumosa 'Freshlook Red'

Woolflower; Plumed or Feathered Celosia Rosy red

12"-18" tall

Well-drained to dry soil.

Full sun

SP-F

12"-15" wide

#### Prairie Star

This plant always looks fresh with its large, cheery rosy red plumes; performs like a fresh floral arrangement all summer- spent plumes are covered up with new foliage and new blooms; the central plume can be 8" to 10" tall and 5" wide; thrives in the summer heat and humidity and drought or rainy conditions. Pest-free and requires minimal maintenance. Prairie Star Award Winner. AAS Winner!

### Celosia, Plumosa 'Freshlook Yellow'

Woolflower; Plumed or Feathered Celosia

12"-18" tall

Well-drained to dry soil.

Full sun

SP-F

12"-15" wide

Care-free plants send up numerous silky golden yellow plumes all summer, thriving in heat, humidity, and severe weather; the central plume can be 9" tall and 6" wide; the numerous side shoots will cover spent blooms, eliminating the need for deadheading. AAS Winner!

### Celosia, Plumosa 'Kelos Fire Pink'

Woolflower; Plumed or Feathered Celosia Bright fluorescent pink

10" to 12" tall

Well-drained to dry soil.

Full to Part Sun

MSP to MF

8" to 10" wide

Blooms are fluffy, wide spires of bright, fluorescent pink that continue from MSP to MF. Bright green foliage is a sharp contrast to the flowers! This Celosia is happy in the garden and indoors as a houseplant.

### Celosia, Plumosa 'Kelos Fire Red'

Woolflower; Plumed or Feathered Celosia Red

10" to 12" tall

**NEW**

Full to Part Sun

MSP to MF

8" to 10" wide

It isn't just about its long lived flowers! Sharp, bright green leaves, accented with reddish-purple veins make this series a star before it begins blooming. Blooms are fluffy clumps of bright red spires that continue from MSP to MF. This Celosia is happy in the garden and indoors as a houseplant.

### Celosia, Plumosa 'Kimono Mix'

Woolflower; Plumed or Feathered Celosia Mix

6" tall

Well-drained to dry soil.

Full sun

SP-F

8" wide

Very uniform, dwarf plants; plumes in a mix of colors appear even when the plants are quite small.

### Celosia, Plumosa 'New Look Red'

Woolflower; Plumed or Feathered Celosia Red

10"-19" tall

Well-drained to dry soil.

Full sun

SP-F

12"-13" wide

#### Prairie Star

Red flowers atop bronze foliage; AAS Winner; Prairie Star Award Winner!

### Celosia, Wheat 'Cosmo Cherry'

Wheat Celosia

Deep cherry

8" tall

**NEW**

Full sun

SP-F

8"-10" wide

Clusters of colorful deep cherry spikes atop compact, dwarf plants with waxy dark green leaves.

## Annual Flower/Foliage

### Celosia, Wheat 'Cosmo Salmon'

Wheat Celosia

Salmon

8" tall

NEW

Full sun

SP-F

8"-10" wide

Clusters of colorful rich salmon spikes atop compact, dwarf plants with waxy dark green leaves.

### Centaurea gymnocarpa

Velvet Centaurea; Silver Bachelor's Buttons

Rose-lavender

18"-30" tall

Well-drained soil.

Full sun

LSP

18"-30" wide

Dramatic pinnately dissected felty white foliage arches gracefully from the central stem; superb in containers or in the garden; rose-lavender bachelor-button flowers appear in late spring; cut the flowers for bouquets to keep the foliage looking nice; wonderful for Moon Gardens as the foliage "glows" in the dark; does great in heat and in dry areas.

### Cestrum nocturnum (Night Blooming Jasmine)

Lady of the Night; Queen of the Night;  
Night Blooming Jasmine; Night Blooming  
Jessamine; Night Blooming Cestrum

Greenish white

3'-13' tall

Moist, well-drained soil.

Part to full sun

MSU-W

2'-6' wide

Inflorescences of numerous narrow greenish white flowers which open at night. The flowers have a very strong fragrance at night, with a much lighter fragrance during the day. Its sweet, pleasant, intoxicating fragrance is so strong, it can often be smelled over a block away! The flowers are followed by poisonous white berries. Other plant parts are also possibly toxic. The strong fragrance can cause respiratory issues with people with asthma and those sensitive to fragrances. Attractive glossy green foliage. Forms a nicely rounded bush. Very fast growing. Excellent for containers. Consider its strong night fragrance when placing it in your garden (perhaps away from windows that may be open in the night).

### Chlorophytum comosum 'Variegated'

Spider Plant; Airplane Plant; Ribbon Plant

White

6"-8" tall

Moist, well-drained soil.

Part to full shade

SU

6"-12" wide

The wonderful spider plant with white leaves broadly edged in green! The leaves grow to 2' long. Dime-sized, six-petaled white flowers sprawling, branched scapes that may reach up to 2' long. The flowers are interesting, but insignificant. What makes it unique is its ability to produce "spiders" or offsets; these ready-made plants, complete with roots, form at the ends of the flower stems and assorted branches. These dangling plantlets give rise to the common name as they hang below the parent plant, like so many spiders suspended by a stout web. The often heard name of Airplane Plant supposes that the plantlets look like whirling propellers. While spider plants are almost indestructible as a houseplant, they sometimes look a bit tattered and torn. The most common problem is tip burn on the leaves. This is caused by the accumulation of fluoride ions in the tissue until it reaches toxic levels. Affected plants can be cleaned up by trimming the burned tips off with scissors. Unless preventative steps are taken, the problem will return. To remedy a problem of fluoride toxicity, repot the plants in fresh potting soil (preferably without vermiculite), fertilize with a high grade liquid fertilizer such as Nature's Source, and, if your community fluoridates its water supply, collect rain water for watering your spider plants.

### Chrysanthemum 'Snow Land'

White

6" tall

Rich, moist, well-drained soil.

Full sun

SP-SU

6" wide

Abundant 1½" white daisy-like blooms with bright yellow centers.

### Citrus aurantiifolia (Mexican Lime)

Lime

White

to 12'-15' tall

Moist, well-drained soil.

Part to full sun

ESP

to 6'-8' wide

Mature fruit is small, green to yellow-green, ripening in July to December.

### Citrus limon 'Improved Meyer' (lemon)

Lemon

Blush

to 8'-10' tall

Moist, well-drained soil.

Part to full sun

SP-W

to 12' wide

Fragrant white blushed pink flowers are borne year round and produce thin skinned, juicy lemons; excellent grown in a container and treated as a houseplant during the cold months.

## Annual Flower/Foliage

<b>Cleome 'Senorita Rosalita'</b>	Spider Flower	Clear pink	32"-48" tall
Moist, well-drained soil.	Full sun	LSP-F	20"-24" wide

### Prairie Star

Lavish dark green foliage that creates a dramatic backdrop for the clear pink blooms. Does not set seed, so it blooms all summer long! Unlike other Cleome, 'Senorita Rosalita' is resistant to oedema.

<b>Cleome 'Sparkler Lavender'</b>	Spider Flower	Lavender-pink	3' tall
Moist, well-drained soil.	Full sun	SU-F	2' wide

Heat and sun-tolerant plants grow bushy and upright; very free flowering; rich lavender-pink flowers.

<b>Cleome 'Sparkler Rose'</b>	Spider Flower	Bright rose	3' tall
Moist, well-drained soil.	Full sun	SU-F	2' wide

Heat and sun-tolerant plants grow bushy and upright; very free flowering; bright rose flowers.

<b>Cleome 'Sparkler White'</b>	Spider Flower	Pure white	3' tall
Moist, well-drained soil.	Full sun	SU-F	2' wide

Heat and sun-tolerant plants grow bushy and upright; very free flowering; pure white flowers.

<b>Coleus, Shade 'Black Dragon'</b>	Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	15" tall
Rich, moist, well-drained soil.	Part to full shade		10"-12" wide

Large red leaves with curled and serrated dark purple edges.

<b>Coleus, Shade 'Carefree Mix'</b>	Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	10"-12" tall
Rich, moist, well-drained soil.	Part to full shade		10"-12" wide

Brilliant lobed small leaves in a blend of jade, gold, red, copper, and pastels; compact plants.

<b>Coleus, Shade 'Chocolate Splash'</b>	Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	12"-16" tall
Rich, moist, well-drained soil.	Part to full shade		12"-16" wide

Medium sized lime green leaves are highlighted by a chocolate splashed pattern that varies with age and light exposure. Pairs well with 'Dark Chocolate' and 'Chocolate Mint' in mixed containers and landscape plantings (though each variety does grow to a different size).

<b>Coleus, Shade 'Giant Exhibition Palisandra'</b>	Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	12"-15" tall
Rich, moist, well-drained soil.	Part to full shade		12"-15" wide

Huge velvety nearly black leaves.

## Annual Flower/Foliage

<b>Coleus, Shade 'Kaleidoscope Mix'</b>	Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	10"-12" tall
Rich, moist, well-drained soil.	Part to full shade		10"-16" wide

### Prairie Star

Lightly serrated leaves in a mix of ten vivid colors; Prairie Star.

<b>Coleus, Shade 'Kong Jr Rose'</b>	Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	18"-24" tall
Rich, moist, well-drained soil.	Part to full shade		20"-35" wide

Heart-shaped leaves are 30% smaller than 'Kongs'. Well-branched tidy habit. Performs well in landscapes, patio planters, and mixed containers. Remove the flowers to maintain leaf size. Deep pink leaves with green edges.

<b>Coleus, Shade 'Kong Mosaic'</b>	Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	18"-22" tall
Rich, moist, well-drained soil.	Part to full shade		15"-18" wide

HUGE 6" x 9" leaves are a mosaic of bright green with shades of red and creamy yellow- no two leaves are the same! Naturally short, compact, well-branched, and mounded plants make a terrific accent in large containers; it performs best and shows more intense color outdoors in full shade; it can also be used as an indoor potted plant in bright light conditions.

<b>Coleus, Shade 'Rainbow Mix'</b>	Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	15"-30" tall
Rich, moist, well-drained soil.	Part to full shade		1'-2' wide

### Prairie Star

Seventeen different rainbow colors; Prairie Star.

<b>Coleus, Shade 'Swinging Linda' (syn. 'Meandering Linda', 'Trailing Plum Brocade', 'Plum Trailing')</b>	Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	6"-18" tall
Rich, moist, well-drained soil.	Part to full shade		18"-30" wide

Startling neon rose and purple leaves with a vibrant white edge. A great spreader for baskets and containers. The color bleaches out in full sun. Unique, luminescent plum purple trailer. Extremely popular choice for pots and hanging baskets. Protect from full sun.

<b>Coleus, Shade 'Versa Crimson Gold'</b>	Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	18"-26" tall
Rich, moist, well-drained soil.	Part to full shade		14"-22" wide

### Prairie Star

Vigorous, well-branched plants show off attention-getting foliage. Deep red leaves with wide golden green edges. Plants have delayed flowering, meaning you can enjoy the foliage later into the season before having to trim the insignificant flowers off. Can take full sun, but the colors will be washed out and the plants will be shorter (due to shorter internodes).

<b>Coleus, Shade 'Wizard Pineapple'</b>	Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	12"-14" tall
Rich, moist, well-drained soil.	Part to full shade		1' wide

Green and gold leaves with dark red flecks.

## Annual Flower/Foliage

### Coleus, Shade 'Wizard Scarlet'

Flame Nettle; Painted Nettle;  
(Solenostemon scutellarioides)

Insignificant

12"-20" tall

Rich, moist, well-drained soil.

Part to full shade

12"-14" wide

### Prairie Star

Deep wine-red leaves with crimson veins; Prairie Star.

### Coleus, Sun 'Burgundy Wedding Train'

Sun Coleus; Flame Nettle; Painted Nettle;  
(Solenostemon scutellarioides)

Insignificant

12"-18" tall

Rich, moist, well-drained soil.

Full sun to full shade

18"-24" wide

Heart-shaped burgundy leaves are edged in bright green.

### Coleus, Sun 'Coleosaurus'

Sun Coleus; Flame Nettle; Painted Nettle;  
(Solenostemon scutellarioides)

Insignificant

2'-3' tall

Rich, moist, well-drained soil.

Full sun to full shade

2'-3' wide

Bright lime green leaves are heavily overlaid with vibrant mahogany-red veins that appear as netting over the green. A standout thriller for sun or shade in containers and in the landscape!

### Coleus, Sun 'Dipt in Wine'

Sun Coleus; Flame Nettle; Painted Nettle;  
(Solenostemon scutellarioides)

Insignificant

20"-30" tall

Rich, moist, well-drained soil.

Full sun to full shade

18" wide

### Prairie Star

The leaves are uniquely colored with yellow and lime in the center, then deeply "dipped" in wine red, then with lime thinly margined on the scalloped edges. Prairie Star Award Winner.

### Coleus, Sun 'Fingerpaint'

Sun Coleus; Flame Nettle; Painted Nettle;  
(Solenostemon scutellarioides)

Insignificant

30" to 36" tall

Rich, moist, well-drained soil.

Full sun to full shade

Leaves are a blast to bright red, purple, green, and yellow. May not show full color in early spring. Eye catching! Great addition to mixed containers or landscape beds. Elongated leaves make for a wonderful textural component in mixed containers and landscape beds.

### Coleus, Sun 'Flame Thrower Chipotle'

Sun Coleus; Flame Nettle; Painted Nettle;  
(Solenostemon scutellarioides)

Insignificant

18"-24" tall

Rich, moist, well-drained soil.

Full sun to full shade

16"-18" wide

### Prairie Star (new 2017)

With tons of texture and color, 'Flame Thrower Chipotle' is so versatile! Narrow, pointed leaves are dark red in the center with lime green outer margins. Its compact habit that makes it well suited for small pots and mixed containers. You're going to have fun with this one! Whether in sun or shade, it makes a big impact!

### Coleus, Sun 'Flame Thrower Spiced Curry'

Sun Coleus; Flame Nettle; Painted Nettle;  
(Solenostemon scutellarioides)

Insignificant

18"-24" tall

Rich, moist, well-drained soil.

Full sun to full shade

16"-18" wide

### Prairie Star (new 2017)

Energetic, narrow leaves have a maroon base with a broad overlay of warm curry. The leaf edges are deeply serrated. Neatly uniform color pattern and shape. The bold new colors in a compact habit make this striking coleus ideal for small pots and mixed containers. Great garden performance in sun or shade.

## Annual Flower/Foliage

<b>Coleus, Sun 'Gay's Delight' ('Happy Line')</b>	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	12"-20" tall
Rich, moist, well-drained soil.	Full sun to full shade		12"-20" wide
Not even full sun and hot summer temperatures can keep this variety from thriving. Lime green leaves with red to purple veins, this variety is brilliant in mixed containers, especially as part of a purple and yellow color theme.			
<b>Coleus, Sun 'Great Falls Iguazu' (trailing)</b>	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	9" tall
<b>NEW</b> Rich, moist, well-drained soil.	Full sun to full shade		8" to 15" wide
Part of the new Great Falls line of semi-trailing coleus, the small rounded leaves of 'Iguazu' are red with darker red, and a green margins. It is non-fading, and spreading with a controlled habit. Has smaller leaves than traditional coleus varieties. Grows well in sun to shade. Use in planters and mixed containers. Works well in combos as it is one of the first non-flowering coleus!			
<b>Coleus, Sun 'Henna'</b>	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	18"-24" tall
Rich, moist, well-drained soil.	Full sun to full shade		14"-16" wide
Nothing beats 'Henna' for exotic appeal! Serrated leaves are a unique chartreuse to copper color, complemented by dark burgundy-rose undersides. Very uniform growth habit.			
<b>Coleus, Sun 'Inferno'</b>	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	14" to 24" tall
Rich, moist, well-drained soil.	Full sun to full shade		
Bolder than Sun Coleus 'Campfire'. Saturated orange coloration and textured leaves give it a WOW factor. Superior orange coloration and later-flowering than the competition. More consistent orange color, even in shady conditions. Great in combo containers			
<b>Coleus, Sun 'Lava Rose'</b>	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	8"-10" tall
Rich, moist, well-drained soil.	Full sun to full shade		2'-3' wide
The unique leaves have deep rose centers, edged and veined in dark burgundy and margined in green; will trail to 30"; great for baskets and containers.			
<b>Coleus, Sun 'Luminesce'</b>	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	12"-16" tall
Rich, moist, well-drained soil.	Part sun to full shade		10"-12" wide
Compact, mounded plants with narrow neon pink leaves scalloped at the leaf edges. The weeping, strappy leaves of this variety just pop with color! Best garden performance in partial sun to bright shade, in moist, fertile soil with good drainage! A dazzling solo performer or highlight of a mixed container planting.			
<b>Coleus, Sun 'Main Street Dutch Mill Drive'</b>	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	18"-24" tall
Rich, moist, well-drained soil.	Full sun to full shade	SU	18"-24" wide
<b>Prairie Star (new 2017)</b>			
Simply stunning! Bright green leaves are thickly edged in creamy lemon on the heavily scalloped leaf edges.			
<b>Coleus, Sun 'Main Street Fifth Avenue'</b>	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	16" tall ,1' wide
<b>NEW</b> Rich, moist, well-drained soil.	Full sun to shade		
Attractive pointed leaves emerge green, maturing to mahogany-purple with showy vibrant pink centers and green pencil thin margins on the scalloped edges. Has an upright, spreading habit. Stunning!			

## Annual Flower/Foliage

<b>Coleus, Sun 'Main Street La Rambla'</b>	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	12" to 18" tall
--	--	---------------	-----------------

<b>NEW</b> Rich, moist, well-drained soil.	Full sun to shade	12" to 18" wide
--	-------------------	-----------------

The heavy texture of this coleus' leaves is accentuated by its coloring. Deep green leaves are veiled by dark maroon veining and bright red flashes creeping up from the leaf midrib. Ideal centerpiece for mixed containers. excellent branching and very late to flower.

<b>Coleus, Sun 'Main Street Michigan Avenue'</b>	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	15" to 18" tall
--	--	---------------	-----------------

Rich, moist, well-drained soil.	Full sun to shade	15" to 18" wide
---------------------------------	-------------------	-----------------

### Prairie Star (new 2017)

A contemporary take on a popular classic, this coleus will hold its color even under high light conditions. The late-season flowering of the 'Main Street' series allows the variegated foliage to remain center stage throughout the growing season. Uniform and easy to grow, the textured masterpiece performs equally well in sun or shade, a fact that consumers are sure to appreciate. It's also the perfect complement to other plants in the landscape.

<b>Coleus, Sun 'Mainstreet Abbey Road'</b>	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	16" tall ,1' wide
--	--	---------------	-------------------

Rich, moist, well-drained soil.	Full sun to shade	1' wide
---------------------------------	-------------------	---------

### Prairie Star (new 2017)

Deep purple and red leaves with bright green scalloped edges and with green interspersed in the middle parts of the leaves as well. Excellent branching. Rarely flowers.

<b>Coleus, Sun 'Mariposa'</b>	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	1'-3' tall
-------------------------------	--	---------------	------------

<b>NEW</b> Rich, moist, well-drained soil.	Full sun to shade	1'-3' wide
--	-------------------	------------

Very large, textured leaves are dark purple with a deep pink edge. Mature leaves take on a lighter pink edge that sets off the new growth. The 6" to 8" long leaves are so big, that they drape downward, allowing a clear view of their rich, royal color!

<b>Coleus, Sun 'Mighty Mosaic'</b>	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	18"-26" tall
------------------------------------	--	---------------	--------------

Rich, moist, well-drained soil.	Full sun to shade	18"-22" wide
---------------------------------	-------------------	--------------

Multi-colored foliage for mighty customer appeal! This very late flowering variety is great in the shade and tolerates the sun under high humidity. Well-branched, vigorous plants show off beautiful tricolor with dark red, green, and yellow splashes of color.

<b>Coleus, Sun 'PartyTime Pink Berry'</b>	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	6" to 12" tall
---	--	---------------	----------------

Rich, moist, well-drained soil.	Full sun to shade	12" to 18" wide
---------------------------------	-------------------	-----------------

### Prairie Star (new 2017)

foliage is pink to burgundy with chartreuse edges. trailing, dense well branched plants. Easy to grow and does well in full sun and full shade. Great addition to patio containers and hanging baskets.

<b>Coleus, Sun 'PartyTime Red Bolero'</b>	Sun Coleus; Flame Nettle; Painted Nettle; (Solenostemon scutellarioides)	Insignificant	8" to 12" tall
---	--	---------------	----------------

<b>NEW</b> Rich, moist, well-drained soil.	Full sun to shade	LSU	10" wide
--	-------------------	-----	----------

Deep burgundy leaves are elongated, serrately edged in chartreuse with a bright red flame flaring out from the stem. Compact form means it won't take over the party in mixed containers. Trailing to semi-trailing habit. Dense, well branched plants. Does not bloom until late summer.

## Annual Flower/Foliage

### Coleus, Sun 'PartyTime Ruby Punch'

Sun Coleus; Flame Nettle; Painted Nettle; Insignificant  
(Solenostemon scutellarioides)

8" to 12" tall

**NEW** Rich, moist, well-drained soil.

Full sun to shade

10" wide

In an intoxicating shade of ruby red, elongate leaves are splashed with burgundy and garnished with chartreuse serrate edges. It is very eye catching with high contrast between the inner shades of dark red and the vivid bright green margin. Excellent component for combo planters. It is very slow to flower; in a trial at Colorado State University, there were not blooms even in mid September!

### Coleus, Sun 'Pineapple Splash'

Sun Coleus; Flame Nettle; Painted Nettle; Insignificant  
(Solenostemon scutellarioides)

16"-24" tall

Rich, moist, well-drained soil.

Full sun to shade

16"-20" wide

Narrow yellow leaves are marked with dashes of rosy crimson. The leaf edges are serrated and thinly edged in rosy crimson. Smashing!

### Coleus, Sun 'Pineapple Surprise'

Sun Coleus; Flame Nettle; Painted Nettle; Insignificant  
(Solenostemon scutellarioides)

18" to 26" tall

Rich, moist, well-drained soil.

Full sun to full shade

This coleus attracts our attention at first glance with a flourish of iridescent tricolor leaves with chartreuse and burgundy heart marbles with chocolate brown. Vigorous plants retain their color and painterly pattern in sun or shade over a long season, ready to add cool fire to the middle border or large containers. Robust, disease-resistant plants, while thriving in heat and humidity look their colorful best when kept moist.

### Coleus, Sun 'Razzle Dazzle'

Sun Coleus; Flame Nettle; Painted Nettle; Insignificant  
(Solenostemon scutellarioides)

2' tall

Rich, moist, well-drained soil.

Full sun to full shade

18"-24" wide

Ruffled deep plum leaves with neon rose centers and a green scalloped edge.

### Coleus, Sun 'Redhead'

Sun Coleus; Flame Nettle; Painted Nettle; Insignificant  
(Solenostemon scutellarioides)

18"-24" tall

Rich, moist, well-drained soil.

Full sun to full shade

16"-24" wide

This is the truest, boldest red you'll find in any coleus, keeping its bright tones in sun or shade. Bright burgundy-red leaves. Well-branched plants are late to flower.

### Coleus, Sun 'Songbird'

Sun Coleus; Flame Nettle; Painted Nettle; Insignificant  
(Solenostemon scutellarioides)

24"-30" tall

Rich, moist, well-drained soil.

Full sun to full shade

30"-35" wide

This flawless coleus has classic form! Strong, dark stems carry molten cherry-orange-gold leaves have a ruffled, scalloped, frilly dark purple edge. The leaves are also splashed with deep purple. Dense, rounded plants are perfect for containers.

### Coleus, Sun 'Wasabi'

Sun Coleus; Flame Nettle; Painted Nettle; Insignificant  
(Solenostemon scutellarioides)

18"-30" tall

Rich, moist, well-drained soil.

Full sun to full shade

16"-24" wide

## Prairie Star

Durable and rugged for a coleus, 'Wasabi's' serrated chartreuse leaves hold their brilliant color without fading or spotting! Pair it with 'Redhead' for a spicy and sizzling combination!

## Annual Flower/Foliage

### Colocasia esculenta 'Bikini-Tini TropiCools'

Taro; Elephant Ears; C. esculenta syn. C antiquorum

4.5' tall

**NEW** Prefers rich, moist to boggy soil.

Part to Full Shade

3' wide

Forms a 4.5' x 3' wide patch of upright, glossy, jet-black stems topped with 1' long, glaucous leaves that form fascinating water-holding cups. In trials, it makes a much better garden clump than either Colocasia 'Coffee Cups' or 'Big Dipper'. As the leaves fill with water, the stalks bow down to allow the water to empty before returning upright.

### Colocasia esculenta 'Coffee Cups'

Taro; Elephant Ears; C. esculenta syn. C antiquorum

4'-5' tall

Prefers rich, moist to boggy soil.

Part to full shade

2'-3' wide

#### Prairie Star

Dramatically cupped green leaves on tall blackish stems. The leaves will collect small amounts of rainwater before they tip over and pour the water out! Very upright growth habit. Prairie Star Award Winner!

### Colocasia esculenta 'Heart of the Jungle'

West Indian Kale

Insignificant

3'-5' tall

Prefers rich, moist to boggy soil.

Part to full shade

3'-4' wide

#### Prairie Star

Large heart-shaped, black tinted dark green leaves. Similar to 'Black Magic' but with a better branching habit. Prairie Star Award Winner.

### Colocasia esculenta 'Maui Magic'

Taro; Elephant Ears; C. esculenta syn. C antiquorum

Insignificant

3'-5' tall

Prefers rich, moist to boggy soil.

Part to full shade

18"-24" wide

Makes an impressive clump of dark black-purple stems, topped with large leaves that can reach 2' to 3' long and 2' across! The leaves emerge glossy purplish black and then change to a semi-gloss dark olive-green, highlighted by purple veins, which are even more prevalent on the leaf backs. The leaves have an almost magical iridescence radiating from the center of the leaf. The plants produce an abundance of leaves held on sturdy, upright petioles, creating the appearance of a dense, full plant. This is a very robust grower without any sign of runners. The foliage moves in the breeze, and can provide a visual and textural focus in landscapes and large container combos.

### Colocasia esculenta 'Mojito'

Taro; Elephant Ears; C. esculenta syn. C antiquorum

5'-6' tall

Prefers rich, moist to boggy soil.

Part to full shade

4' wide

The ultimate patio Colocasia! Named after the popular Cuban mixed drink, the amazing leaves are medium green with dark purple-black splatters and flecks throughout! The stems have the color and pattern of a variegated eggplant (colors of dark purple-black and light lavender). 'Mojito' is pronounced "Mou-hitou".

### Colocasia esculenta 'Pineapple Princess'

Taro; Elephant Ears; C. esculenta syn. C antiquorum

3' tall

Prefers rich, moist to boggy soil.

Part to full shade

5' wide

18" long dusty yellow-green leaves are highlighted by dramatic light purple veins and margins. The backs of the leaves are equally dramatic with the dark purple veins showing off against the gray-purple back. Flowers well in late summer and fall with spiky yellow flowers, which are fruity smelling as they begin to open... magnificent.

### Colocasia esculenta 'Puckered Up'

Taro; Elephant Ears; C. esculenta syn. C antiquorum

3'-4' tall

Prefers rich, moist to boggy soil.

Part to full sun

3'-4' wide

This beauty has deeply puckered, dark chocolate leaves that are supported by strong, near-black stems on a bushy yet compact plant. This is one hard-working elephant ear- the number of stems and leaves, the leaf sheen, and the amazing puckered foliage is just awesome! It is so neat to observe how the light plays off of each pucker to make the foliage look a lot like a shiny turtle shell! One of the cutest, most attractive Colocasias to be introduced in a long time. Its compact habit with so many stems makes it a delightful container plant!

## Annual Flower/Foliage

### Colocasia gigantea 'Black Swan' (might not be correct on the species)

Taro; Elephant Ears; *C. esculenta* syn. *C. antiquorum*

5' to 6' tall

**NEW** Prefers rich, moist to boggy soil.

Part to Full Shade

6' to 7' wide

Do you love the gigantic leaves of 'Thailand Giant' but wish it came in a different color? You wish has been granted with the huge, elegant leaves of 'Black Swan'. Although it's not as large as 'Thailand Giant', the dark, near-black leaves will still make you catch your breath in amazement. This plant forms an upright, arching habit with showcases its jet black, glossy stems, creating a singular basal clump. This is the perfect plant for combining with brightly colored annuals in large containers!

### Colocasia gigantea 'Thailand Giant'

Giant Elephant Ear; Super-Sized Elephant Ear

White

7'-9' tall

Prefers rich, moist to boggy soil.

Part to full shade

7'-9' wide

To say that this plant will dwarf nearly any plant you already grow would be putting it mildly! It is larger than the species *C. gigantea*. Glaucous green leaves can measure a whopping 5' long x 4' wide each! Full grown plants typically reach 9' tall, though some grown in tropical climates have reportedly reached 20'! From a young age, this plant produces dramatically large, pleasantly perfumed, white, lily-like flowers, though it really is grown more for its gigantic leaves. Create your own private jungle with this plant! Needs consistently moist soil.

### Cordyline australis Electric Pink'

Australian Sword; False Dracaena

None

25"-30" tall

**NEW** Rich, well-drained soil.

9 Part to full sun

15"-18" wide

Bright, spiky leaves are striped in pink, rose, and burgundy! An exotic addition to containers!

### Cordyline australis 'Red Sensation'

Australian Sword; False Dracaena

1'-3' tall

Rich, well-drained soil.

8 Part to full sun

2'-3' wide

Arching lance-shaped to linear dusky, red-burgundy leaves; stunning architectural accent for containers and flower beds; adds bold texture with a tropical flair!

### Cordyline 'Fairchild Red'

Australian Sword; False Dracaena

1'-3' tall

Rich, well-drained soil.

Part to full sun

18"-24" wide

Narrow, upward and outward arching leaves of dark olive green with red, purple, and vibrant pink striped margins! Adds wonderful drama to container plantings and flower beds! Needs moist soil. Leaf colors intensify with age.

### Cordyline 'Pink Passion'

Australian Sword; False Dracaena

Cream

2' to 4' tall

Rich, well-drained soil.

Part to full shade

Everyone will this beautiful cordyline when they see it! The shocking pink edges to the long, arching deep-purple leaves makes this plant to remember! Its hot colors and tropical appearance make it a winner though the summer months, even in part shade where it is perfectly happy. Cream-colored scented flowers produced on mature specimens. Excellent as the 'thriller' in large containers and baskets! Mature height and width (after several years) 2' to 4'.

### Cordyline terminalis 'Ruby'

2' to 3' tall

**NEW** Full Sun to Shade

1' to 2' wide

It is a hybrid from India. It has a dwarf compact habit that makes it suitable for container production. The new foliage is bright pink and darkens to burgundy as it ages. Features deep ruby foliage with leaves 4" wide and 1' long. It's great for full sun to shade, or even indoors. A quick grower and easy-care plant for home owner, and a prime candidate to achieve the much-sought-after tropical look that's so popular today. Non-blooming.

## Annual Flower/Foliage

<b>Cosmos (Short) sulphureus 'Cosmic Mix'</b>	Short Cosmos	Red, tangerine, and gold	12"-19" tall
Well-drained to dry soil.	Full sun	LSP-EF	10"-18" wide

### Prairie Star

Silky, semi-double flowers in a mixture of intense red, bright tangerine, and golden yellow. The stocky plants are well-branched and very free flowering. Prairie Star and AAS Winner.

<b>Cosmos (Tall) bipinnatus 'Sonata Carmine'</b>	Tall Cosmos	Dark carmine	20" tall
Well-drained to dry soil.	Full sun	ESU-EF	1' wide

3½" single daisy-like flowers.

<b>Cosmos (Tall) bipinnatus 'Sonata White'</b>	Tall Cosmos	Pure white	20" tall
Well-drained to dry soil.	Full sun	ESU-EF	1' wide

3½" single daisy-like flowers.

<b>Cosmos (Tall) bipinnatus 'Xanthos'</b>	Tall Cosmos	Soft yellow	24" to 26" tall
Well-drained to dry soil.	Full sun	ESU-EF	14" to 16" wide

This cosmic new cosmos sets the border aglow with serenely radiant, soft-yellow hues. 'Xanthos' is one of a kind: the very first yellow Cosmos bipinnatus. Breathlessly pretty breakthrough blooms early and lavishly, from late June to September. It lights up beds, borders, and containers with seriously sensuous, eye-caressing yellow blooms with lighter edges. Whether planted en masse, or mingled with other vase worthy flowers in the border, 'Xanthos' promises as summer florific rapture. Loved by butterflies and other pollinators.

<b>Cosmos atrosanguineus 'Black Magic'</b>	Chocolate Cosmos	Burgundy to almost black	24" tall
<b>NEW</b>	Full Sun to Part Shade	ESU-EF	12" to 18" wide

The prized chocolate Cosmos, which until now has only been available via vegetative propagation, can be grown from seed! This beautiful selection of darkly decadent Cosmos flowers, with that unmistakable aroma of chocolate, has flowers in shades of velvety burgundy to almost black. Some are double but all are in variety of shades that are almost unreal. Unique cutflower!

<b>Cotton 'Burgundy'</b>	Burgundy Cotton; Black Cotton	Pink	14"-30" tall
Very well-drained soil.	Full sun	SU	1' wide

Burgundy leaf cotton plant with pink hibiscus-like flowers; produces walnut-sized seed pods which open to expose fluffy white balls of cotton fibers.

<b>Cuphea (Mexican Heather) 'Allyson'</b>	Mexican Heather	Dark lavender	5"-8" tall
Moist, well-drained soil.	Full sun	SP-F	1' wide

Fast growing, bushy, densely-branched plants; dainty flowers all summer; extremely heat tolerant.

<b>Cuphea 'Coan Scarlet'</b>	Cigar Plant; Firecracker Plant	Scarlet	1' tall
Very well-drained soil.	Full sun	SP-F	1' wide

Vigorous and heat-tolerant plants with large blooms held out above the dark green foliage. The 1" to 1 1/2" long scarlet blooms are tipped in glowing dark violet and a thin greenish white margin.

## Annual Flower/Foliage

### Cuphea llavea 'Bat Face'

Cigar Plant; Firecracker Plant

Dark red and blue

14"-24" tall

Very well-drained soil.

Full sun

SP-F

1' wide

St. Peter's Plant; Dark red and royal blue flowers; the dark red part of the flower resembles ears, and the royal blue is the 'face' of the bat; great for containers; thin green foliage.

### Cuphea 'Vermillionaire'

Cigar Plant; Firecracker Plant

Bright, deep orange

2' tall

Very well-drained soil.

Full sun

SP-F

2' wide

### Prairie Star (new 2017)

Dark green leaves are contrasted by loose spikes of bright, deep orange tubular flowers that bloom all along the stems. An interspecific cross between *C. ignea* and *C. micropetala*, displaying the best attributes of both parents. Wonderful branching with a mounded, nice and tidy habit. Has a nice sized habit, perfect for containers or smaller spaces in the border. Hummingbirds are often found swarming all over 'Vermillionaire'- they love the brightly colored tubular flowers! Very floriferous and heat and drought tolerant. Cupheas do not like wet "feet", so do not over-water or leave in standing water.

### Cyperus haspan viviparus

Dwarf Papyrus

Green

1'-2' tall

Moist to wet soil.

Part to Full Sun

SU

1' wide

Dense tufts of foliage above stiff stems. Golden green flowers. Prefers moist soil and is often used in water gardens as a bog or marginal water plant (can withstand up to 4" of water being over the top of the pot).

### Cyperus involucratus 'Baby Tut'

Umbrella Palm

18"-32" tall

Moist to wet soil.

Part to full sun

20"-36" wide

### Prairie Star

This petite Umbrella Palm has proven to be a favorite! Well-behaved and elegant in appearance. Great for boggy or moist conditions in the garden, in containers, or in the water garden. Prairie Star Award Winner!

### Cyperus papyrus 'King Tut'

Giant Papyrus

Greenish

4'-6' tall

Moist to wet soil.

Part to Full Sun

SU

2'-3' wide

### Prairie Star

Large heads of pendulous green leaves. Greenish flower spikelets measure up to 1' across. Wonderful for large containers or in the water garden.

### Cyperus papyrus 'Prince Tut'

Papyrus

Greenish

30" to 48" tall

Moist to wet soil.

Part to full sun

SU

A nicely compact form of Egyptian papyrus, about half the height of King Tut, but with same large poms on the ends of the stems. Fun and interesting, without being so overwhelmingly huge. with shorter stems than King Tut, Prince Tut is quite sturdy and less likely to have stems flop. use in larger containers alone and as a thriller in large combinations. great in the landscape, where it is best with consistent moisture. It can be planted in pots, along the waters edge of a pond or even in a pond. The crown of the plant should never be covered in water, in fact it can thrive in water as shallow as a few inches. The purpose is to keep the bulk of the soil or root mass wet.

### Dahlberg Daisy 'Golden Fleece'

Golden Fleece; Shooting Star

Golden yellow

14"-16" tall

Well-drained soil.

Full sun

SP-F

8"-12" wide

¾" single daisy-like blooms atop fragrant, very ferny bright green foliage.

### Dahlia 'Dahlinova Hypnotica Coral'

Bright coral

1'-2' tall

Moist, well-drained soil.

Full sun

LSP-EF

12"-15" wide

Huge, ultra-bright, coral flowers with dark centers. The plants grow quickly and the flowers keep coming month after month on this exciting Dahlia! Well-branched and tolerant of rain, heat, and mildew, these plants are lush and healthy, setting flowers on short stems that seldom need support. A magnificent cutflower!

## Annual Flower/Foliage

### Dahlia 'Hypnotica Red Velvet'

Bright Red

12" to 24" tall

**NEW**

Full Sun

ESP to EF

12" to 15" wide

Huge, ultra- bright red flowers that grow quickly and keep coming month after month, are the hallmark of this exciting new Dahlia. Well-branched and tolerant of rain, heat, and mildew, these plants are lush and healthy, setting flowers on short stems that seldom need support.

### Dahlia 'Hypnotica Tequila Sunrise'

Red-orange tips with yellow bases

10" to 14" tall

Moist, well-drained soil.

Full sun

SP-F

15" to 20" wide

This Dahlia bear hot bicolor, large-sized blossoms, usually measuring from 3 to 4 inches across. These sizzling petals have bright, reddish-orange tips that stand out against sunny yellow bases. This fallish color will make an audacious statement in your early summer garden, and keeps on giving right through the first frost.

### Dahlia 'XXL Tabasco'

Reddish Orange

18" to 21" tall

**NEW**

Full Sun

SU

18" wide

Enjoy the deep reddish orange blooms with a splash of yellow of this Dahlia in your garden or containers! Its flowers are held up tall on the deep green sturdy stems. The rich orange flowers of 'Tabasco' brighten in color to a bright yellow as you get towards the center of the large 5" wide fully double blooms. The XXL series of Dahlia are very vigorous and will give you garden color from early to late summer. The perfect plant for cut flowers; in fact, the more you trim and deadhead your plants, the more blooms it will produce for you to enjoy!

### Datura metel (White Angels' Trumpets)

Angels' Trumpets

Pure white

30" tall

Rich, moist, well-drained soil.

Full sun

ESU-F

30"-36" wide

White Angels' Trumpets; Pure white, upright, fragrant flowers.

### Datura metel 'Purple Petticoats' (aka 'Cornucopaea')

Hort of Plenty

Purple and lilac

30"-36" tall

Rich, moist, well-drained soil.

Full sun

ESU-F

30"-36" wide

Double Horn of Plenty; Double frilled flowers of purple and light lilac are fragrant at night; syn. 'Cornucopaea', 'Double Purple'.

### Dianths 'Jolt Pink'

China Pinks

Rose-pink

10"-24" tall

Moist, well-drained soil.

Full sun

SP-F

10"-14" wide

### Prairie Star

This is an Interspecific dianthus with brightly colored and large, showy flower heads on strong stems that perform extremely well all summer long. 'Jolt' is the most heat tolerant dianthus on the market, sporting very showy, bright rose-pink fringed flowers. AAS Judges called this entry the "Best of the trials! We wish all dianthus performed this well." This is an easy to grow and trouble-free annual for the gardener looking for neat and tidy low-maintenance flowers. 2015 AAS Winner!

### Dianthus 'Dash Magician'

China Pinks

White to rose

15"-20" tall

Moist, well-drained soil.

Full sun

SP-F

12"-14" wide

Compact, well0branched plants produce large clusters of small fragrant flowers. The flowers open white and mature to shades of rose, with all colors displayed at the same time in the flower clusters! The flowering stems vary in height, giving the display layers of color!

### Dianthus 'Diana Crimson Picotee Improved'

China Pinks

Crimson

8"-10" tall

Moist, well-drained soil.

Full sun

SP-F

6"-8" wide

Extra large, 2" to 2 1/2" wide deep crimson blooms dominate the basal-branching plants.

## Annual Flower/Foliage

### Dianthus Diana Lavendina Mix

China Pinks

Purple and white

10"-12" tall

Moist, well-drained soil.

Full sun

SP-F

8" wide

This extraordinary mix of purple and white is a rare treat! A lovely change of pace from the reds and pinks of most Dianthus, it offers unusual colors on extra-large, deeply serrated, twisty petals that release their fabulous clove fragrance nonstop in spring and fall! Compact, early to bloom, and very long-lasting, it is as beautiful as it is durable. This mix includes solid purple, solid white, and two-tone lavender picotee, with lighter purple petal tips and richer lavender centers.

### Dianthus 'Diana Mix'

China Pinks

Mix

10"-12" tall

Moist, well-drained soil.

Full sun

SP-F

8" wide

A cross of Sweet Williams with annual dianthus, that has larger, self-cleaning flowers, more free flowering, and better garden performance during summer heat. An award winning selection with large 2" to 2 1/2" blooms, both singles and doubles, in a mix of colors, on low-growing, tightly mounded plants.

### Dianthus 'Jolt Cherry'

China Pinks

Cherry

16"-20" tall

Moist, well-drained soil.

Full sun

SP-F

12"-14" wide

Produces a shocky blaze of super-charged color all summer long. The ultra vivid cherry shade mixes magnificently with Celosia, Rudbeckia, and Echinacea, in front of the sunny border! Downright stunning in containers as well. Well-branching plants are soon ablaze with lightly fragrant, high-saturation blooms- producing bouquet after bouquet of dazzling cutflowers. Easy to grow and care for. Highly durable, withstanding hot summer temperatures!

### Dianthus 'Super Parfait Raspberry'

China Pinks

Blush rose

8"-10" tall

Moist, well-drained soil.

Full sun

SP-F

8" wide

Blush rose flowers with crimson eyes; very compact habit.

### Dianthus 'Supra Pink'

China Pinks

Pink

10" to 12" tall

Moist, well-drained soil.

Full sun

SP-F

10" to 12" wide

'Supra Pink' joins its sister, 2006 AAS Winner 'Supra Purple' to give us two fantastic colors in an easy-to-grow interspecific dianthus for three- season garden color. This compact, bushy plant blooms prolifically with novel mottled pink flowers sporting frill petal edges that hold up in summer heat and drought. No deadheading needed this entry but it rebloomed too fast to do so! It is a vigorous grower and will deliver fancy clear pink flower for a long time as observed over and over by the AAS Judges. It was tested as an annual and won the award based on the first-year performance, but similar to other dianthus, it may over winter in some regions.

### Dianthus 'Supra Purple'

China Pinks

Purple-rose

10"-12" tall

Moist, well-drained soil.

Full sun

SP-F

8"-10" wide

Arguably one of the best annuals for flower beds! Compact plants have great heat tolerance and are easy to grow. A prolific producer of large, 1 1/2", purple-rose blooms that are lacy with highly fringed petal edges. Noted for its extremely long bloom period, even during hot weather. AAS Winner!

### Dianthus 'Venti Parfait Crimson Eye'

China Pinks

Pink and crimson

6"-8" tall

Moist, well-drained soil.

Full sun

SP-F

8"-10" wide

Extra large pink flowers have large, bold crimson centers! The flowers completely cover the compact, mounded plants!

## Annual Flower/Foliage

### Dichondra argentea 'Silver Falls'

Aluminum Vine, Silver Nickel Vine, Silver Pony Foot

White, green, or yellow-green

2"-3" tall

Well-drained soil.

Part to Full sun

SU-F

2'-3' wide

### Prairie Star

Aluminum Vine; Silver Nickel Vine; Silver Pony Foot; Small, rounded, fan-shaped shimmering silver leaves on silver stems which will trail up to 4'. Very heat and drought tolerant- withstands drought and heat like no other spiller! Great for hanging baskets and containers as a full sun alternative to Helichrysm (Licorice Plant). Complements countless flowering plants with elegant texture and color! Try it in a basket with Scaevola!

### Dichondra repens 'Emerald Falls'

White, green, or yellow-green

2"-4" tall

Well-drained soil.

Part to full sun

SU-F

18"-24" wide

Kidney-shaped 1/4" to 1 1/2" green leaves, heat tolerance, and a dense, cascading habit make this an excellent choice for mixed containers and hanging baskets; will cascade to 3' long. Tiny, insignificant white, green, or greenish yellow flowers in the summer and fall. Also excellent as a low-growing ground cover. Withstands foot traffic.

### Dicliptera suberecta

Uruguayan Firecracker Plant; Hummingbird Plant; King's Crown

Reddish orange

18"-24" tall

Very well-drained soil.

Part to full sun

MSU-EF

18"-36" wide

A Hummingbird's dream come true! This is one suave "must-have" and super rewarding mid summer to fall bloomer! Refined, ovate, velvety, hairy silvery bluish gray leaves (to 2 1/2" long) and stems that make it a lovely textural and foliar addition to your garden even before the flower show begins. Starting in mid summer and lasting til frost, multitudes of clusters of long-lasting, showy two-lipped, tubular reddish orange flowers up to 1 3/4" long burst out all over, tempting hummingbirds from near and far. Thrives in heat and humidity! Typically grows in a shrubby mound. The flowers are attractive to hummingbirds, hence the common name of hummingbird plant. Excellent in large containers and hanging baskets! Syn. Jacobina suberecta; Justicia suberecta.

### Digiplexis 'Illumination Flame'

Digitalis x Isoplexis

Magenta Pink and Orange

3' tall

Moist, well-drained soil.

Part to full sun

SU

It is a novel new plant that most people had never seen: a cross between hardy Digitalis purpurea and its tropical relative Isoplexis canariensis from the Canary Islands. This tropical looking beauty is one the longest blooming plants offered, with its sterile flowers appearing form late spring to frost! Spikes of flaming magenta pink flowers with ripe cantaloupe orange, magenta speckled throats are borne all the way around the stems above sizeable rosettes of broad, glossy, dark green leaves.

### Dipladenia 'Red Riding Hood'

Hot pink

1'-2' tall

Moist, well-drained soil.

Full sun

SP-F

8"-12" wide

Hot pink trumpet-shaped flowers with yellow throats.

### Dracaena indivisa (Spike Grass)

Spike Grass

1'-2' tall

Moist, well-drained soil.

Full sun to Full shade

8"-12" wide

Long sword-shaped leaves; used in mixed plantings and containers.

### Dusty Miller 'Quick Silver'

Yellow

10" to 12" tall

**NEW** Well-drained to dry soil.

Full Sun to Part Shade

MSU

10" to 12" wide

Rabbit resistant

Deer resistant

It adds a silvery white splash of color to baskets and in ground plantings. Planted in full sun to part shade locations, this Dusty Miller is a heat and drought tolerant annual. Easy to grow and deer and rabbit resistant plant in mass as a border or groun cover. Blooms in mid-summer, the small yellow blooms are small and not considered showy. Its foliage is long lasting and drought resistant. Attractive plants are naturally dwarf, with finely indented silvery colored leaves. Stays more dwarf and tidy than the ever popular Silver Dust. As with most silvery, furry plants, growing Dusty Miller helps the garden remains attractive through the heat of the summer.

## Annual Flower/Foliage

<b>Dusty Miller 'Silver Lace'</b>	Tanacetum ptarmiciflorum		6"-8" tall
Well-drained to dry soil.	Full sun		8" wide
Tanacetum ptarmiciflorum; Finely cut, feather-like lacy silver foliage.			

<b>Elephant ears Caladium esculentum</b>	Elephant Ears		3'-5' tall
Rich, moist, well-drained soil.	Part to Full shade		3' wide
Very large green leaves with scalloped edges; a choice plant for lending a tropical look to the garden.			

<b>Ensete ventricosum 'Maurelii'</b>	Abyssinian Banana; Ethiopian Banana	White	8' in 1 year; up to 20' tall
Rich, moist, well-drained soil.	Part to full sun	SU	6' wide
Huge, paddle-shaped, bright olive green leaves, to 20' long (5' to 6' in the first year) are tinged with red, especially along the margins; dark red leaf stalks; white flowers, concealed within arching cylinders of bronze-red bracts, are borne in inflorescences 3' to 4' long. In tropical climates, it grows up to 20' tall and 15' wide with 20' long leaves.			

<b>Eupatorium capillifolium 'Elegant Feather'</b>		Greenish White	3' to 6' tall
<b>NEW</b>	Full Sun to Part Shade	LSU	1' to 3' wide
Attracts butterflies			

Feathery foliage sways gracefully in the wind. Great backdrop in the landscape or focal point in combination planters. The species form of Eupatorium can be an invasive weed, however, 'Elegant Feather' is a selected, sterile form of this plant. Minute, greenish-white, somewhat ornamentally insignificant flowers blooms in late summer - attracts butterflies! Creates a dramatic backdrop in the landscape or containers.

<b>Euphorbia cotinifolia 'Burgundy Wine'</b>	Tropical Smoke Bush; Caribbean Copper Plant	White to yellow	2'-5' tall
Well-drained soil.	Part to Full sun	SP	2'-4' wide

Tropical Smoke Bush; Caribbean Copper Plant; Smoky orange-red rounded foliage ages to plum-purple tones; the foliage looks amazingly like Cotinus coggygria, hence the common name, Smoke Bush; funky little white to pale yellow flowers in the spring; an outstanding foliage plant that can be confined to a bushy habit if pinched back regularly when young; excellent for large containers; our plant reached 3' tall and 2' wide in a dry sunny spot- in the tropics it can get 10'-16' tall and 6'-8' wide!

<b>Euphorbia hypericifolia 'Breathless Blush'</b>		Blush	8"-12" tall
Well-drained soil.	Part to full sun	SP-F	20"-24" wide

Small white flower bracts are flushed with blush pink atop unique dark green foliage with prominent red tones! These heat and humidity tolerant plants fill in fast, making stocky and mounded plants. Has low water needs and doesn't need deadheading! Stocky and well-mounded, it's fast to fill solo and mixed containers, and thrives as an in-ground plant. Showy masses of self-cleaning flowers from spring to fall.

<b>Euphorbia hypericifolia 'Star Dust Superflash'</b>		White	1'-2' tall
Well-drained soil.	Full sun	LSP-F	1'-2' wide

This Euphorbia is so blitzed by blooms, you'll hardly see the foliage! Euphorbias are great plants- heat tolerant, disliked by deer, they do not require dead-heading, and will bloom all season long, in all kinds of weather! Displays a showy mass of self-cleaning flowers all summer. Stocky and mounded plants. A great choice in white flowers to make any sun combo pop!

**Annual Flower/Foliage****Evolvulus 'Blue My Mind'**

Rich, bright true blue

6" to 12" tall

Well-drained soil.

Part to Full sun

SP-F

Bright, true blue flowers and fuzzy, silvery-green foliage and extremely heat tolerant plants create a winner for any hot weather climate. The Evolvulus loves hot weather, in fact, the hotter this better! It will perform best in full sun and needs to be protected from even light frost. It is drought tolerant, once it is established. Plants do need to be watered well for several weeks during root establishment. While the plants can withstand drought conditions, growth and flowering are better with consistent moisture. Deadheading is unnecessary. A good dose of compost or slow release fertilizer will improve performance. Considerably more floriferous and brighter colored flowers than old selection 'Blue Daze'.

**Fern Nephrolepis exaltata 'Massai' (true Boston)**

Boston Fern

12"-18" tall

Rich, moist, well-drained soil.

10 Part to full shade

18"-24" wide

A large, impressive, and very beautiful true Boston fern. This vigorous fern has rich green fronds that are very long and broad.

**Fern Nephrolepis obliterated 'Emerald Queen' (syn. 'Kimberly Queen', Australian Sword Fern)**

Australian Sword Fern

1'-3' tall

Rich, moist, well-drained soil.

Full sun to full shade

1'-3' wide

A sterile form of Sword Fern, it is very hardy and strong. Excellent for indoor use and outdoors. Leaflets are a little broader than Sword Fern. Under high light conditions, its habit will be more erect. Can withstand full sun provided it has consistently moist soil.

**Flowering Cabbage 'Dynasty Mix'**

Brassica oleracea

1' tall

Moist, well-drained soil.

Full sun

15"-18" wide

Tight, compact heads of semi-wavy leaves.

**Flowering Kale (Brassica oleracea) 'Emperor Mix'**

Brassica oleracea

1' tall

Moist, well-drained soil.

Full sun

15"-18" wide

Heavily fringed, uniform leaves.

**Flowering Kale (Brassica oleracea) 'Glamour Red'**

Brassica oleracea

1' tall

Moist, well-drained soil.

Full sun

12"-14" wide

The All-America Selections' first winning kale (edible or ornamental) in 78 years of trialing! This variety is an excellent achievement in breeding for its unique shiny leaves. The waxless quality of the leaves makes them shiny, with a more intense, vivid color as compared to other ornamental kales. The leaves are very fringed, and make heads 10" to 12" across. Leaf coloring begins when night temperatures fall below 55 degrees F for approximately two weeks. The leaves will be shiny green, with the inner, new leaves coloring a beautiful rosy purple-red in cool temperatures. Good disease tolerance.

**Flowers for Drying Eucalyptus cinerea**

Silver Dollar Eucalyptus, Silver Dollar Tree, Gum Tree, Argyle Apple

2'-5' tall

Rich, moist, well-drained soil.

Full sun

8"-12' wide

Silver-dollar shaped blue-green foliage; soil must not be allowed to dry out; great for fresh cut or dried flower arrangements.

## Annual Flower/Foliage

### Flowers for Drying Helichrysum 'Dreamtime Jumbo Rose'

Immortelle, Strawflower      Bright rose      10"-12" tall

Well-drained to dry soil.      Full sun      SP-F      10"-14" wide

Huge, 1 1/2" to 2" wide bright rose strawflowers are held 2" above the foliage. Plants have a nice mounding habit. Blooms well in the heat and into the cool days of fall. Great cut and dried flower! The flowers have a papery feeling that appeals to kids of all ages!

### Flowers for Drying Helichrysum 'Dreamtime Jumbo Yellow'

Immortelle, Strawflower      Deep yellow      7"-8" tall

Well-drained soil.      Full sun      SP-F      10"-12" wide

Huge bright, deep yellow strawflowers; mounding habit; blooms well in the heat and into the cool days of fall. The flowers have a papery feeling that appeals to kids of all ages.

### Fuchsia, Trailing 'Angel Earring Double Red'

Lady's Earrings      Red and white      15"-20" tall

Moist, well-drained soil.      Part to Full shade      SP-SU      20"-25" wide

A showy trailing variety of Lady's Earrings, producing masses of flowers with lipstick red sepals and white corollas. The 2" wide blooms cascade from window boxes, containers or hanging baskets, and will continue to bring a smile to your face all throughout the spring and into fall. They offer better heat tolerance, producing higher amounts of flowers during hot weather than other varieties.

### Fuchsia, Trailing 'Angel Earring Snow Fire'

Lady's Earrings      White & carmine      10"-12" tall

Moist, well-drained soil.      Part to Full shade      SP-F      12"-16" wide

Single white corollas and carmine-red sepals; semi-trailing, compact habit; great heat and humidity tolerance.

### Fuchsia, Trailing 'Blacky' ('Midnight')

Lady's Earrings      Deep purple-black and bright pink      1' tall

Moist, well-drained soil.      Part to Full shade      SP-SU      7"-10" wide

Bright pink buds open to captivating, double, deep black-purple corollas set against bright pink sepals; captivating!

### Fuchsia, Trailing 'Dark Eye'

Lady's Earrings      Deep purple-blue and red      4"-9" tall

**NEW**      Part to Full shade      SP-SU      18" wide

Deep purple-blue corollas with red sepals

### Gazania rigens 'Kiss Frosty Orange Flame'

Treasure Flower      Orange and bronze      8"-10" tall

Well-drained soil.      Full sun      LSP-F      8"-10" wide

The flowers are a charming combination of orange with reddish bronze striped petals, marked with a darker red ring around the centers. The blooms contrast nicely with the frosty gray-green foliage. An abundance of 3 1/2" wide blooms atop tightly mounded plants that have a uniform habit. An excellent fresh cutflower for bouquets!

### Gazania rigens 'New Day Mix'

Treasure Flower      Mix      10"-14" tall

Well-drained soil.      Full sun      MSP-MF      8"-12" wide

Larger flowers on shorter flowering stems, and beefier plants than similar varieties. These drought-tolerant plants are perfect for containers, baskets, and flower beds. A mix of bronze shades, clear orange, pink shades, creamy white, bright yellow, and rose and cream striped daisy-like flowers!

## Annual Flower/Foliage

<b>Gazania rigens 'New Day Red Shades'</b>	Treasure Flower	Red shades	10"-14" tall
Well-drained soil.	Full sun	MSP-MF	8"-12" wide

Larger flowers on shorter flowering stems, and beefier plants than similar varieties. These drought-tolerant plants are perfect for containers, baskets, and flower beds. Daisy-like flowers in shades of rich maroon and orange-red!

<b>Gazania rigens 'New Day Red Stripe'</b>	Treasure Flower	Maroon and gold	10"-14" tall
Well-drained soil.	Full sun	MSP-MF	

Larger flowers on shorter flowering stems, and beefier plants than similar varieties. These drought-tolerant plants are perfect for containers, baskets, and flower beds. Daisy-like flowers feature rich golden petals that have a central maroon brushstroke down each petal.

<b>Gazania rigens 'New Day Rose Stripe'</b>	Treasure Flower	Rose and cream	10"-14" tall
Well-drained soil.	Full sun	MSP-MF	8"-12" wide

Larger flowers on shorter flowering stems, and beefier plants than similar varieties. These drought-tolerant plants are perfect for containers, baskets, and flower beds. Daisy-like, cream colored flowers have a dark rose shaded center stripe on each petal!

<b>Gazania rigens 'New Day Strawberry Shortcake Mixture'</b>	Treasure Flower	Rich rose, pink, and cream	10"-14" tall
Well-drained soil.	Full sun	MSP-MF	8"-12" wide

Larger flowers on shorter flowering stems, and beefier plants than similar varieties. These drought-tolerant plants are perfect for containers, baskets, and flower beds. Daisy-like flowers in a colorful mix of dark, rich rose flowers, creamy flowers, and creamy white flowers with paintbrush rose stripes down the center of the petals.

<b>Gazania rigens 'Tiger Stripe Mix'</b>	Treasure Flower	Mix	6"-8" tall
Well-drained soil.	Full sun	MSP-MF	6"-8" wide

A stunning blend of large flowers in shades of yellow, rose, bronze, and cream, with an attractive contrasting stripe on every petal.

<b>Gazania splendens 'Big Kiss Red'</b>	Treasure Flower	Deep red	8"-10" tall
Well-drained soil.	Full sun	LSP-F	8"-10" wide

Vigorous, full, bushy plants have huge, 4.5" wide blooms on strong stems. Deep mahogany red flowers with orange centers.

<b>Gazania splendens 'Big Kiss Yellow Flame'</b>	Treasure Flower	Gold and mahogany	8"-10" tall
Well-drained soil.	Full sun	LSP-F	8"-10" wide

Vigorous, full, bushy plants have huge, 4.5" wide blooms on strong stems. Rich golden petals have a mahogany central stripe.

<b>Geranium, Interspecific 'Calliope Crimson Flame'</b>	Interspecific Geranium	Dark rose and red	10"-12" tall
Rich, moist, well-drained soil.	Part to full sun	MSP-F	12"-20" wide

'Calliope' is truly a revolutionary advance in geraniums! A first-of-its-kind Interspecific (zonal x ivy geranium cross) hybrid, expressing strong zonal characteristics and offering stunning flowers! The bicolor dark rose and red flowers look like they are glowing! Outstanding garden performance and a dense, vigorous spreading habit that is ideal for baskets, large pots, and landscape beds. In addition to excellent heat tolerance and outstanding drought tolerance, 'Calliope' produces large, semi-double blooms that resist burning in full sun. The 'Calliope' series offers twice as many flowers and twice as many branches as traditional zonal geraniums. An absolutely amazing plant!

## Annual Flower/Foliage

<b>Geranium, Interspecific 'Calliope Dark Red'</b>	Interspecific Geranium	Dark velvet red	10"-14" tall
Rich, moist, well-drained soil.	Part to full sun	MSP-F	16"-20" wide

'Calliope' is truly a revolutionary advance in geraniums! A first-of-its-kind Interspecific (zonal x ivy geranium cross) hybrid, expressing strong zonal characteristics and offering a stunning dark velvet red color not possible with conventional breeding. Outstanding garden performance and a dense, vigorous spreading habit that is ideal for baskets, large pots, and landscape beds. In addition to excellent heat tolerance and outstanding drought tolerance, 'Calliope' produces large, semi-double blooms that resist burning in full sun. An absolutely amazing plant!

<b>Geranium, Interspecific 'Calliope Large Magenta'</b>	Interspecific Geranium	Magenta	14" to 16" tall
<b>NEW</b>	Full Sun	MSP to EF	20" to 24" wide

Intense color that lasts! The original interspecific geranium known for its intense color. Very saturated bright magenta blooms. Proven, award winning performance makes this a reliable choice for all your gardening needs. Excellent performance in the landscape and thrives under heat and humidity.

<b>Geranium, Interspecific 'Calliope Large Pink'</b>	Interspecific Geranium	Medium pink	10"-14" tall
Rich, moist, well-drained soil.	Part to full sun	MSP-F	16"-20" wide

'Calliope' is truly a revolutionary advance in geranium! A first-of-its-kind Interspecific (zonal x ivy geranium cross) hybrid, expressing strong zonal characteristics and offering medium, pink flowers. Outstanding garden performance and a dense, vigorous spreading habit that is ideal for baskets, large pots, and landscapes beds. In addition to excellent heat tolerance and outstanding drought tolerance 'Calliope' produces large, semi-double blooms that resist burning in full sun. An absolutely amazing plant!

<b>Geranium, Interspecific 'Calliope Large Salmon'</b>	Interspecific Geranium	Salmon	14" to 16" tall
<b>NEW</b>	Full Sun	MSP to EF	20" to 24" wide

Intense color that lasts! The original interspecific geranium known for its intense color. Very saturated bright salmon blooms. Proven, award winning performance makes this a reliable choice for all your gardening needs. Excellent performance in the landscape and thrives under heat and humidity.

<b>Geranium, Interspecific 'Calliope Large Scarlet Fire'</b>	Interspecific Geranium	Scarlet Red	14" to 16" tall
<b>NEW</b>	Full Sun	MSP to EF	20" to 24" wide

Intense color that lasts! The original interspecific geranium known for its intense color. Very saturated bright scarlet red blooms. Proven, award winning performance makes this a reliable choice for all your gardening needs. Excellent performance in the landscape and thrives under heat and humidity.

<b>Geranium, Interspecific 'Calliope Medium Pink Flame'</b>	Interspecific Geranium	Pink	12" to 14" tall
Rich, moist, well-drained soil.	Part to full sun	MSP-F	14" to 16" wide

With an outstanding bright pink flowers with splashes of red at the base of each floret, and great branching habit, this new geranium is an excellent addition to our geranium. It is interspecific hybrid with zonal-type flowers and leaves. It has a mounded, semi-spreading growth habit with strong stems supporting the flower heads that are loaded deep pink blossoms. These plants work great in containers, combinations planting, hanging baskets as well as in an in-ground landscape. Gardeners will enjoy exceptional landscape performance in normal conditions as well as in more challenging high heat and drought conditions.

<b>Geranium, Interspecific 'Calliope Medium Violet'</b>	Interspecific Geranium	Violet Rose	14" to 16" tall
<b>NEW</b>	Full Sun	MSP to EF	20" to 24" wide

Intense color that lasts! The original interspecific geranium known for its intense color. Very saturated bright violet-rose blooms. Proven, award winning performance makes this a reliable choice for all your gardening needs. Excellent performance in the landscape and thrives under heat and humidity.

## Annual Flower/Foliage

### Geranium, Interspecific 'Calliope Medium White'

Interspecific Geranium

Creamy White

16" to 20" tall

NEW

Full Sun

MSP to EF

14" to 16" wide

Intense color that lasts! Proven, award winning performance makes this a reliable choice for all your gardening needs. Creamy white flowers with a touch of lavender in the throats. Excellent performance in the landscape and thrives under heat and humidity.

### Geranium, Interspecific 'Sarita Sunstar Red'

Interspecific Geranium

Hot red and dark red

10"-14" tall

Rich, moist, well-drained soil.

Part to full sun

LSP-F

10"-14" wide

Hot red blooms with random darker red markings. Large flowers, dark green leaves and no shattering of the blossoms. Semi-trailing habit. Sure to be a winner!

### Geranium, Ivy Bicolor 'Precision Red Ice'

Red and white

10"-12" tall

Rich, moist, well-drained soil.

Part sun

SP-SU

14"-18" wide

Large, showy blooms mounded above the rich green leaves! The flowers are a beautiful combination of true rich red with pure white striping in the middle of the petals. Well-branched and free-flowering, it quickly fills large containers and baskets. Plants will trail to 20"!

### Geranium, Ivy Burgundy 'Precision Dark Burgundy'

Dark velvety burgundy

10"-12" tall

Rich, moist, well-drained soil.

Part sun

SP-SU

14"-18" wide

Large, showy blooms mounded above the rich green leaves! Intense, dark burgundy flowers are lighter on the undersides. Well-branched and free-flowering, it quickly fills large containers and baskets. Plants will trail to 20"!

### Geranium, Ivy Lavender/Purple 'Precision Lavender Blue'

Light lavender

10"-12" tall

Rich, moist, well-drained soil.

Part sun

SP-SU

14"-18" wide

Large, showy blooms mounded above the rich green leaves! Very double, light lavender blooms. Well-branched and free-flowering, it quickly fills large containers and baskets. Plants will trail to 20"!

### Geranium, Regal 'Candy Flowers Pink Eye'

Regal Geranium, Martha Washington Geranium

Pink and rosy red-purple

10"-18" tall

Rich, moist, well-drained soil.

Part sun

SP-SU

12"-20" wide

These new geraniums are an interspecific cross between Zonal Geraniums, Regal Geraniums (Martha Washington Geraniums), and Lemon Scented Geraniums. This unique cross has resulted in plants that have the appearance of Regal Geraniums, yet are very well branched, early to flower, much longer blooming, more heat tolerant, and do not require a long cooling period to bloom (unlike traditional Regal Geraniums). They will bloom through summer, though not as much as a Zonal Geranium will bloom, and not as much as they bloom in the spring. The colors are distinctive with dramatic edges and splashes! Lower petals are rich pink with rosy red-purple blotches. Upper petals are rosy red-purple with pink picotee edges. Plant in a spot with morning sun and afternoon shade (or at least filtered afternoon sun).

### Geranium, Regal 'Candy Flowers Violet'

Regal Geranium, Martha Washington Geranium

Neon violet and plum

10"-18" tall

Rich, moist, well-drained soil.

Part sun

SP-SU

12"-20" wide

These new geraniums are an interspecific cross between Zonal Geraniums, Regal Geraniums (Martha Washington Geraniums), and Lemon Scented Geraniums. This unique cross has resulted in plants that have the appearance of Regal Geraniums, yet are very well branched, early to flower, much longer blooming, more heat tolerant, and do not require a long cooling period to bloom (unlike traditional Regal Geraniums). They will bloom through summer, though not as much as a Zonal Geranium will bloom, and not as much as they bloom in the spring. Neon violet flowers with darker plum markings. Plant in a spot with morning sun and afternoon shade (or at least filtered afternoon sun).

## Annual Flower/Foliage

<b>Geranium, Regal 'Graziosa Merlot Red'</b>	Regal Geranium, Martha Washington Geranium	Wine red	10"-12" tall
Rich, moist, well-drained soil.	Part sun	SP-SU	12"-20" wide
These new geraniums are an interspecific cross between Zonal Geraniums, Regal Geraniums (Martha Washington Geraniums), and Lemon Scented Geraniums. This unique cross has resulted in plants that have the appearance of Regal Geraniums, yet are very well branched, early to flower, much longer blooming, more heat tolerant, and do not require a long cooling period to bloom (unlike traditional Regal Geraniums). They will bloom through summer, though not as much as a Zonal Geranium will bloom, and not as much as they bloom in the spring. The colors are distinctive with dramatic edges and splashes! Wine red flowers have a blush white edge. Plant in a spot with morning sun and afternoon shade (or at least filtered afternoon sun).			
<b>Geranium, Regal 'Graziosa Royal Lilac'</b>	Regal Geranium, Martha Washington Geranium	Lavender and dark rose	10"-12" tall
Rich, moist, well-drained soil.	Part sun	SP-SU	12"-20" wide
These new geraniums are an interspecific cross between Zonal Geraniums, Regal Geraniums (Martha Washington Geraniums), and Lemon Scented Geraniums. This unique cross has resulted in plants that have the appearance of Regal Geraniums, yet are very well branched, early to flower, much longer blooming, more heat tolerant, and do not require a long cooling period to bloom (unlike traditional Regal Geraniums). They will bloom through summer, though not as much as a Zonal Geranium will bloom, and not as much as they bloom in the spring. The colors are distinctive with dramatic edges and splashes! Intense lavender blooms have a dark rose splash on each petal. Plant in a spot with morning sun and afternoon shade (or at least filtered afternoon sun).			
<b>Geranium, Variegated 'Brocade Cherry Night'</b>	Pelargonium	Cherry pink	10"-24" tall
Rich, moist, well-drained soil.	Part to Full sun	SP-F	16" wide
Striking foliage with large semi-double blooms of cherry pink make this geranium an AAS Winner for 2016! Gardeners looking for unique and distinct foliage to accent their containers and gardens will be delighted with this variety! The bronze leaves with green margins are a remarkable and unusual addition to any design. Add the 5" wide clusters of semi-double bright cherry blooms and this heat tolerant geranium is your winner for any container or garden!			
<b>Geranium, Variegated 'Brocade Fire'</b>	Pelargonium	Orange	10"-24" tall
Rich, moist, well-drained soil.	Part to Full sun	SP-F	16" wide
This geranium has unique bicolor foliage with a nonstop display of semi-double orange flowers that gives it an exceptional look in any garden. This robust plant keeps its distinguishing foliage color and brilliant blooms throughout the hot summers, then becomes a fantastic transitional flower going into fall. The orange flowers contrast with the striking foliage, making this geranium a much appreciated and talked about winner!			
<b>Geranium, Variegated 'Brocade Fire Night'</b>	Pelargonium	Scarlet	10"-24" tall
Rich, moist, well-drained soil.	Part to Full sun	SP-F	14"-18" wide
Chocolate leaves are edged in bright limey green. Clusters of single to semi-double scarlet flowers contrast with the stunning foliage!			
<b>Geranium, Variegated 'Brocade Salmon Night'</b>	Pelargonium	Salmon	15" to 20" tall
Rich, moist, well-drained soil.	Part to Full sun	SP-F	14" to 16" wide
Add excitement to your garden with this improved variegated variety, large chocolate foliage with fine green edges, and beautiful large, bright salmon flowers! Large clusters of showy semi-double flowers foliage making this geranium a much desired new annual. A season-long performer in gardens, landscapes and mixed containers. Deer and rabbit resistant; attracts butterflies and hummingbirds.			
<b>Geranium, Variegated 'Glitterati Diva Queen'</b>	Pelargonium	Hot pink	12"-14" tall
<b>NEW</b> Rich, moist, well-drained soil.	Part to Full sun	SP-F	18"-20" wide
Chartreuse leaves with rusty red zoning, contrasted with a non-stop display of medium sized, hot pink flowers that cannot be missed!			

## Annual Flower/Foliage

### Geranium, Variegated Glitterati Ice Queen

Pelargonium

Bright red

12"-14" tall

Rich, moist, well-drained soil.

Part to Full sun

SP-F

18"-20" wide

### Prairie Star

A combination of the best traits of a red ivy geranium with the sensational foliage of fancy leaved zonal novelties! This results in the first "fancy leaved" geraniums that have great flowers as well! It also has the wonderful form and summer performance of its Ivy parentage. The leaves are almost more white than green, yet unlike many heavily variegated plants, it can take the heat and full sun without scorching. Has superb heat and humidity tolerance. Its stunning bright white and green foliage is a standout on its own. The bright red blooms are the "icing on the cake", or geranium, in this case! Its spreading habit makes it an excellent choice for container gardens, larger hanging baskets and wherever you may need substantial covering in border plantings.

### Geranium, Variegated 'Mrs Pollock'

Pelargonium

Red

10"-14" tall

Rich, moist, well-drained soil.

Part to Full sun

SP-F

1' wide

Deep green centers are complemented by a dark zone that is interrupted with sparks of orange; creamy leaf edges.

### Geranium, Zonal Coral/Salmon 'Allure Salmon'

Zonal Geranium

Medium salmon

14"-18" tall

Rich, moist, well-drained soil.

Part to full sun

SP-SU

12"-14" wide

Vigorous plants with large heads of medium salmon flowers.

### Geranium, Zonal Coral/Salmon 'Allure Tangerine'

Zonal Geranium

Coral-orange

14"-18" tall

Rich, moist, well-drained soil.

Part to full sun

SP-SU

10"-12" wide

Vigorous plants with large heads of bright coral-orange flowers.

### Geranium, Zonal Pink 'Dynamo Hot Pink'

Zonal Geranium

Hot pink and white

12"-14" tall

Rich, moist, well-drained soil.

Part to full sun

SP-SU

12"-14" wide

Hot pink flowers with white eyes.

### Geranium, Zonal Pink 'Dynamo Raspberry Sizzle'

Zonal Geranium

Pink and dark pink

12"-14" tall

Rich, moist, well-drained soil.

Part to full sun

SP-SU

12"-14" wide

Abundant pink flowers with darker pink centers.

### Geranium, Zonal Purple/Lilac 'Allure Purple Rose'

Zonal Geranium

Purple-rose

14"-18" tall

Rich, moist, well-drained soil.

Part to full sun

SP-SU

10"-12" wide

Vigorous plants with large heads of purple-rose flowers.

### Geranium, Zonal Red/Scarlet 'Allure True Red'

Zonal Geranium

Bright true red

14"-18" tall

Rich, moist, well-drained soil.

Part to full sun

SP-SU

12"-14" wide

Vigorous plants with large heads of bright true red flowers (not with scarlet or blue undertones- just a great, bright, true red!).

## Annual Flower/Foliage

### Gibasis geniculata (Bridal Veil)

Bridal Veil

White

3"-6" tall

Moist, well-drained soil.

Part to Full shade

SP-W

1' wide

Long trailing stems of deep green delicate foliage with airy small white flowers; great in hanging baskets and containers.

### Gomphrena 'Audray Purple Red'

Globe Amaranth

Purple-red

20"-24" tall

NEW

Full sun

ESU-EF

10" wide

Interesting, globular 1 1/2" long flowerheads of rich purple-red, add wonderful color and texture to flowerbeds and cutflower bouquets.

### Gomphrena 'Buddy Purple'

Globe Amaranth

Deep purple

8" tall

Well-drained soil.

Full sun

ESU-EF

10"-12" wide

Globular flowerheads of deep purple atop dwarf plants.

### Gomphrena Fireworks

Globe Amaranth

Hot pink and yellow

3'-4' tall

Well-drained soil.

Full sun

ESU-EF

1'-2' wide

#### Prairie Star

Vigorous, drought-tolerant, easy-care plants are topped by long-lasting, hot pink flowerheads that are stippled with tiny yellow anthers, making for an explosion of color! An aggressive grower, producing numerous flowering stems. Abundant blooms plus the unique "scaffolding" habit give exceptional flower power in the landscape and in large containers. Resists weather damage. Also suitable for field and garden cut flower production! The flowers dry well, although the hot pink color fades somewhat.

### Gomphrena 'Las Vegas Pink'

Globe Amaranth

Bright pink

16"-20" tall

Well-drained soil.

Full sun

ESU-EF

12"-25" wide

#### Prairie Star

Bright pink flowers atop plants with excellent heat tolerance! These easy-care plants are real stand-outs in beds and containers.

### Gomphrena 'Pink Zazzle'

Globe Amaranth

Hot pink

1'-2' tall

Extremely well-drained to dry soil!

Full sun

SU

1' wide

Extremely large (3" plus) bright pink flowers, which change to soft pink as they age. Long-lasting blooms each last 3 to 4 weeks outdoors (2 to 3 months indoors). The flowerheads are actually composed of a series of petal-like bracts that extend, then fork to reveal delicate golden tipped flowers. These flowerheads take the traditional Gomphrena form, and turn it into something new, exciting, and super glam with hot tones of reddish purple color! The plush blanket of silvery fuzz on the green foliage and stems is a unique attribute. A great garden plant, houseplant, cutflower, and dried flower! Heat and drought tolerant- DO NOT overwater (treat 'Pink Zazzle' like a succulent! It must have well-drained soil.)!

### Gomphrena 'Strawberry Fields'

Globe Amaranth

Red-orange

2' tall

Well-drained soil.

Full sun

SU-EF

12"-15" wide

1 1/2" red flowers have a tinge of orange. The globe-shaped flowers bloom continuously atop long stems.

### Gunnera tinctoria

Chilean Prickly Rhubarb

Brownish bronze

8' tall

Constantly moist to wet soil

Part shade to part sun

LSP

Enormous, puckered leaves of this tropical looking, prehistoric plant emerge in spring, reaching 6' or more across! Fast growing. Creates a dramatic waterside or greenhouse specimen. In late spring, a robust stalk bearing brownish green inflorescence adds to the exotic appeal.

## Annual Flower/Foliage

### Gypsophila 'Gypsy Deep Rose'

Dark rose

6"-10" tall

Deep, light, well-drained soil.

Full sun

SP-SU

12"-14" wide

Dainty single, semi-double, and double dark rose rose-like blooms up to 3/8" across; mounding plants will be covered with blooms; low maintenance; AAS Winner 2004.

### Gypsophila 'Gypsy White'

White

10" tall

NEW

Full Sun

MSP to EF

8" wide

Semi-double blossoms on this new, improved variety gypsophila will make your garden sparkle! Not only a bit larger in size and produce more flowers per plant, resulting in a fluffy white mound of beauty. It has better branching and a better growth habit than its predecessor, making it perfect for containers, small spaces, and garden beds. A much longer bloom season and better heat tolerance than 'Gypsy Compact White', making this your new garden favorite. Overall it is a beautiful little plant with many possibilities! Please Note: This is NOT the invasive perennial *Gypsophila paniculata* but instead, the non-invasive *Gypsophila muralis*.

### Hamelia patens 'Lime Sizzler' (Texas Fire Bush)

Red Orange

20" to 36" tall

Part to full sun

SP to F

1' to 2' wide

You can spot Lime Sizzler a mile away! Well, that may be a slight exaggeration but the new Lime Sizzler firebush is definitely an attention grabber! It has captured the fancy of gardeners, hummingbirds, butterflies, and bees - now with the addition of 'Lime Sizzler', everyone has gone gaga! *Hamelia patens* is native from South Florida to the West Indies, Mexico, and Central America. 'Lime Sizzler', however was actually discovered at a nursery in South Texas. The shocking green and yellow foliage would probably be enough to make you lust over the plant but then add the trumpet shaped red/orange flower so loved by pollinators and it is really exciting and extra special. Use in containers to in the landscape. It is very heat and drought tolerant once established, and will grow in almost any soil that is well-drained.

### Hedera helix 'Glacier'

Ivy

2"-6" tall

Rich, moist, well-drained soil.

Part to Full shade

10" wide

Small gray-green five-lobed leaves have silver-gray patches, are edged with cream, and have contrasting purple-red stems; fast growing.

### Hedera helix 'Gold Child'

Ivy

2"-6" tall

Rich, moist, well-drained soil.

Part to Full shade

10" wide

Three-lobed gray-green leaves with a gold margin.

### Hedera helix 'Needlepoint'

Ivy

2"-6" tall

Rich, moist, well-drained soil.

Part to Full shade

10" wide

Has small, pointed leaves and grows similar to English ivy, but branches better for increased thickness. Great in containers and baskets.

### Helenium amarum 'Dakota Gold'

Helen's Flower, Sneezeweed

Bright gold

12"-14" tall

Moist, well-drained soil.

Full sun

MSP-F

8"-16" wide

### Prairie Star

Compact, mounded plants with bright golden daisy-like flowers over fine-textured bright green leaves. Absolutely incredible- it blooms and blooms through the intense summer heat and humidity! You will not be disappointed with this one! Very neat!!

## Annual Flower/Foliage

<b>Heliotrope (Heliotropium arborescens) 'Atlantis'</b>	Heliotropium arborescens	Intense purple	6" to 12" tall
Rich, moist, well-drained soil.	Part shade	SP-F	10" to 14" wide

Dark green leaves with intense purple 6" flower cluster that have intoxicating, vanilla fragrance that is irresistible. The rich, velvety flowers have become more and more popular in container gardens. Pinching this plant will encourage blooming and deadheading will promote continuous bloom.

<b>Heliotrope (Heliotropium arborescens)</b>	Heliotropium arborescens	Deep blue-purple	10"-14" tall
Rich, moist, well-drained soil.	Part shade	SP-F	15" wide

Masses of dainty deep blue-purple, fragrant flowers up to 10" across.

<b>Hibiscus rosa-sinensis 'Hollywood Best Friend'</b>	Tropical Hibiscus; Chinese Hibiscus	Tangerine with a Pink center	4' tall
Rich, moist, well-drained soil.	Full sun	SU-EF	

Whether it's adding lush color to a tropical landscape or brightening a balcony, each Patio Party Hibiscus showcases vivid, large, fancy blooms with rich color, while also possessing exceptional disease and pest resistance. Best Friend is a party favorite with her big, tangerine colored blooms with scarlet highlights and a cheerful pink center.

<b>Hibiscus rosa-sinensis 'Hollywood Chatty Cathy'</b>	Tropical Hibiscus; Chinese Hibiscus	Yellow with a Pink center	4' tall
Rich, moist, well-drained soil.	Full sun	SU-EF	

The Hollywood Hibiscus Collection has it all, beautiful long-lasting blooms, glamorous green foliage, resistance to bacterial leaf spot and an amazing natural compact habit. Chatty Cathy features sunshine yellow petals with a cheerful pink center, she sure is to be the talk of the town.

<b>Hibiscus rosa-sinensis 'Hollywood First to Flirt'</b>	Tropical Hibiscus; Chinese Hibiscus	Peach with Mauve center	4' tall
Rich, moist, well-drained soil.	Full sun	SU-EF	

First to Flirt prefers to make the first move with her big peach petals and soft mauve centers. Her bold personality and beauty make every Patio Party attendee feel at home and incredibly welcomed.

<b>Hibiscus rosa-sinensis 'Hollywood Gossip Queen'</b>	Tropical Hibiscus; Chinese Hibiscus	Stunning orange and hot pink	4' tall
<b>NEW</b> Rich, moist, well-drained soil.	Full sun	SU-EF	

Gossip Queen is always front and center, reporting all the news from the red carpet. Her stunning orange petals and electric pink center get all the conversations going!

<b>Hibiscus rosa-sinensis 'Hollywood Hothead'</b>	Tropical Hibiscus; Chinese Hibiscus	Scarlet Red	4' tall
Rich, moist, well-drained soil.	Full sun	SU-EF	

Hot Shot brings passion and drama to every Patio Party. Her show-stopping scarlet red blooms will turn every head and make many jaws drop.

<b>Hibiscus rosa-sinensis 'Hollywood Jolly Polly'</b>	Tropical Hibiscus; Chinese Hibiscus	Pink	4' tall
Rich, moist, well-drained soil.	Full sun	SU-EF	

Jolly Polly is known for her cheerful, pure-pink blooms, she is sure to make you smile every time you see her. Positivity is contagious whenever Jolly Polly is around! Her cheerful Hot Pink Blooms make every glass seem half-full and ever cloud is lined with silver.

## Annual Flower/Foliage

<b>Hibiscus rosa-sinensis 'Hollywood Socialite'</b>	Tropical Hibiscus; Chinese Hibiscus	Rosy orange	4' tall
<b>NEW</b> Rich, moist, well-drained soil.	Full sun	SU-EF	

The Hollywood Hibiscus Collection has it all, beautiful long-lasting blooms, glamorous green foliage, resistance to bacterial leaf spot and an amazing natural compact habit. 'Hollywood Socialite' features rosy orange petals.

<b>Hibiscus rosa-sinensis 'Hollywood Starstruck'</b>	Tropical Hibiscus; Chinese Hibiscus	Pure white and pink	4' tall
<b>NEW</b> Rich, moist, well-drained soil.	Full sun	SU-EF	

'Starstruck' should look in the mirror, because then she'd see the gorgeous blooms we're all in love with! Always surrounded by lots of friends (pollinators love her), 'Starstruck' has gorgeous pure white blooms with rich hot pink centers.

<b>Hibiscus, species acetosella 'Mahogany Splendor'</b>	False Roselle, African Rose Mallow	Burgundy-rose	3'-5' tall
Rich, moist, well-drained soil.	Part to full sun	SP-EF	2'-3' wide

### Prairie Star

An attractive accent plant that features deep burgundy, maple-shaped leaves with serrated edges that are similar to a Japanese Maple! Used as a backdrop plant in home landscapes, the dark foliage helps the plants in front of it really pop. Ideal for landscapes, this drought and heat-resistant variety also makes a great "thriller" in mixed containers with other sun-loving plants. Deer resistant. Can also be grown as a bog plant in the water garden! The foliage will have green or rusty red tones in the greenhouse, but it will mature to burgundy in full sun outdoors.

<b>Hypoestes 'Pink Splash'</b>	Polka-Dot Plant		18" tall
Moist, well-drained soil.	Part shade		8" wide

Pink and green variegated foliage.

<b>Impatiens 'Dazzler Orange'</b>	Busy Lizzie; Patience Plant	Orange	8"-11" tall
Rich, moist, well-drained soil.	Part to full shade	SP-F	10"-15" wide

Masses of large orange flowers.

<b>Impatiens 'Dazzler Passion Fruit Mix'</b>	Busy Lizzie; Patience Plant	Violet, orange, and salmon splash	8"-11" tall
Rich, moist, well-drained soil.	Part to full shade	SP-F	10"-15" wide

Large flowers in a mix of colors.

<b>Impatiens 'Dazzler Violet'</b>	Busy Lizzie; Patience Plant	Violet	8"-11" tall
Rich, moist, well-drained soil.	Part to full shade	SP-F	10"-15" wide

Masses of large violet flowers.

<b>Impatiens 'Impreza Blue Pearl'</b>	Busy Lizzie; Patience Plant	Lavender-blue w/ darker eye	6"-8" tall
Rich, moist, well-drained soil.	Part to full shade	SP-F	12"-14" wide

This series features compact, easy-to-manage plants that provide good soil coverage with less upward stretch. They will create a nice, uniform carpet of color in your landscape! Lavender-blue flowers with a darker eye.

## Annual Flower/Foliage

<b>Impatiens 'Impreza Cherry Splash'</b>	Busy Lizzie; Patience Plant	Blush with cherry eye	6"-8" tall
Rich, moist, well-drained soil.	Part to full shade	SP-F	12"-14" wide

This series features compact, easy-to-manage plants that provide good soil coverage with less upward stretch. They will create a nice, uniform carpet of color in your landscape! Blush flowers with a cherry eye.

<b>Impatiens 'Impreza Formula Mix'</b>	Busy Lizzie; Patience Plant	Red, rose, salmon, violet, white, pink, lavender-blue	6"-8" tall
Rich, moist, well-drained soil.	Part to full shade	SP-F	12"-14" wide

This series features compact, easy-to-manage plants that provide good soil coverage with less upward stretch. They will create a nice, uniform carpet of color in your landscape! Mix of red, rose, salmon, violet, white, pink, and lavender-blue.

<b>Impatiens 'Impreza Pink'</b>	Busy Lizzie; Patience Plant	Deep pink	6"-8" tall
Rich, moist, well-drained soil.	Part to full shade	SP-F	12"-14" wide

This series features compact, easy-to-manage plants that provide good soil coverage with less upward stretch. They will create a nice, uniform carpet of color in your landscape! Deep pink flowers.

<b>Impatiens 'Impreza Punch'</b>	Busy Lizzie; Patience Plant	Magenta	6"-8" tall
Rich, moist, well-drained soil.	Part to full shade	SP-F	12"-14" wide

This series features compact, easy-to-manage plants that provide good soil coverage with less upward stretch. They will create a nice, uniform carpet of color in your landscape! Bright magenta flowers.

<b>Impatiens 'Impreza Red'</b>	Busy Lizzie; Patience Plant	Red	6"-8" tall
Rich, moist, well-drained soil.	Part to full shade	SP-F	12"-14" wide

This series features compact, easy-to-manage plants that provide good soil coverage with less upward stretch. They will create a nice, uniform carpet of color in your landscape! Red flowers.

<b>Impatiens 'Impreza Salmon'</b>	Busy Lizzie; Patience Plant	Dark salmon	6"-8" tall
Rich, moist, well-drained soil.	Part to full shade	SP-F	12"-14" wide

This series features compact, easy-to-manage plants that provide good soil coverage with less upward stretch. They will create a nice, uniform carpet of color in your landscape! Dark salmon flowers.

<b>Impatiens 'Impreza White'</b>	Busy Lizzie; Patience Plant	Pure white	6"-8" tall
Rich, moist, well-drained soil.	Part to full shade	SP-F	12"-14" wide

This series features compact, easy-to-manage plants that provide good soil coverage with less upward stretch. They will create a nice, uniform carpet of color in your landscape! Pure white flowers.

<b>Impatiens 'Stardust Mix'</b>	Busy Lizzie; Patience Plant	Mix	8"-10" tall
Rich, moist, well-drained soil.	Part to full shade	SP-F	10" wide

Rose, violet, salmon, and raspberry flowers have a stardust pattern.

## Annual Flower/Foliage

<b>Impatiens, cross 'Big Bounce Lavender Flame'</b>	Busy Lizzie; Patience Plant	Lavender and hot pink	20"-30" tall
<b>NEW</b> Rich, moist, well-drained soil.	Part to full sun	SP-F	20"-36" wide
Masses of large blooms atop disease-resistant plants (resistant to downy mildew). Big, bright lavender flowers have a bright pink flame. Flowers are self-cleaning. Plants tolerate heat and humidity! Flowers are borne on strong sturdy stems that "bounce back" big after a missed watering or dry spell! Best flowering is in part to full sun. It will grow in full shade, but the flower quantity will be diminished.			
<b>Impatiens, cross 'Big Bounce Red'</b>	Busy Lizzie; Patience Plant	Red	20"-30" tall
Rich, moist, well-drained soil.	Part to full sun	SP-F	20"-36" wide
Masses of large blooms atop disease-resistant plants (resistant to downy mildew). Big, bright, flowers are self-cleaning. Plants tolerate heat and humidity! Flowers are borne on strong sturdy stems that "bounce back" big after a missed watering or dry spell! Best flowering is in part to full sun. It will grow in full shade, but the flower quantity will be diminished.			
<b>Impatiens, New Guinea Orange 'ClockWork Orange Stripe'</b>	Busy Lizzie; Patience Plant	Salmon and orange	10" to 12" tall
<b>NEW</b>	Part to full sun	SP-F	10" to 12" wide
Bred to be extremely uniform in habit and flower timing across all colors, blooming all in the same week. Series truly performs like clockwork. Large blush-salmon blooms with rich orange center stripes on the petals. Works great in ground or in containers.			
<b>Impatiens, New Guinea Orange 'Harmony Orange Star'</b>	Busy Lizzie; Patience Plant	Orange and white	12" tall
<b>NEW</b>	Part to full sun	SP-F	14" wide
Mounded plants feature bold orange flowers with large white centers, atop dark green foliage.			
<b>Impatiens, New Guinea Pink/Rose 'Infinity Blush Crimson'</b>	Busy Lizzie; Patience Plant	Rich pink and crimson	10"-14" tall
<b>NEW</b>	Part to full sun	SP-F	6"-12" wide
Vigorous, upright plants with large flowers of rich pink, with upper petals, markings, and thin picotee edges in bold crimson!			
<b>Impatiens, New Guinea Red 'ClockWork Red'</b>	Busy Lizzie; Patience Plant	Bright Red	10" to 12" tall
<b>NEW</b>	Part to full sun	SP-F	10" to 12" wide
Bred to be extremely uniform in habit and flower timing across all colors, blooming all in the same week. Series truly performs like clockwork. Large bright red blooms. Works great in ground or in containers.			
<b>Impatiens, New Guinea Red 'Harmony Radiance Scarlet'</b>	Busy Lizzie; Patience Plant	Scarlet and white	12" tall
<b>NEW</b>	Part to full sun	SP-F	14" wide
Mounded plants feature scarlet flowers with large white centers, atop dark green foliage.			

## Annual Flower/Foliage

### Impatiens, SunPatiens 'SunPatiens Compact Electric Orange'

Busy Lizzie; Patience Plant

Brilliant orange

18"-24" in containers; 2'-3' in the garden tall

Rich, moist, well-drained soil.

Part to full sun

SP-F

18"-24" wide in containers; 2'-3' wide in the garden

2" to 3" wide brilliant orange flowers. Tried at the Dallas Arboretum, a research site known for its intense heat and humidity, they were planted in a full sun location. According to Jimmy Turner, Director of Research at the Dallas Arboretum, the "SunPatiens not only survived the heat, they looked good doing it!" Following are excerpts of Turner's report on SunPatiens. SunPatiens are a hybrid of Impatiens walleriana (regular Impatiens) and Impatiens hawkeri (New Guinea Impatiens). If you look closely at the plants, you can see traits of each parent: the flower size is somewhere between both and the leaves and flowers are somewhat thicker than normal impatiens. The noticeable improvement are the robust, thick, branching and stems! Grow SunPatiens in areas with full sun all day, or at least full sun all afternoon. In shady areas, stick with traditional impatiens (they are more floriferous). Just like other impatiens, they do require quite a bit of watering... but a trick to keep impatiens shorter and flower more is this: let them wilt between waterings (let the branch tips hang down). Since all impatiens are native to the equator, they are used to only two seasons, hot/wet and hot/dry. If you allow them to dry out a bit between waterings, they kick into reproductive mode and will flower much heavier for you! If SunPatiens get too tall or big for you, just give them a trim, and they pop right back out.

### Impatiens, SunPatiens 'SunPatiens Compact Neon Pink'

Busy Lizzie; Patience Plant

Neon pink

18"-24" in containers; 2'-3' in the garden tall

Rich, moist, well-drained soil.

Part to full sun

SP-F

18"-24" wide in containers; 2'-3' wide in the garden

2" to 3" wide neon pink flowers. Tried at the Dallas Arboretum, a research site known for its intense heat and humidity, they were planted in a full sun location. According to Jimmy Turner, Director of Research at the Dallas Arboretum, the "SunPatiens not only survived the heat, they looked good doing it!" Following are excerpts of Turner's report on SunPatiens. SunPatiens are a hybrid of Impatiens walleriana (regular Impatiens) and Impatiens hawkeri (New Guinea Impatiens). If you allow them to dry out a bit between waterings, they kick into reproductive mode and will flower much heavier for you! If SunPatiens get too tall or big for you, just give them a trim, and they pop right back out.

### Impatiens, SunPatiens 'SunPatiens Compact Red Fire'

Busy Lizzie; Patience Plant

Fire engine red

18"-24" in containers; 2'-3' in the garden tall

Rich, moist, well-drained soil.

Part to full sun

SP-F

A new go to for borders! Blooming from early summer through the first hard frost SunPatiens Fire Red puts on display! It is a fire engine red color that shines! The thick, bright green leaves are the answer to why these typically shade plants can tolerate the sun and humid conditions. It prefers a average to moist location. It is well suited for borders, hanging baskets, planters and window boxes. Consider using SunPatiens Fire Red as a thriller in landscapes, it is low maintenance, self cleaning and can handle the warm summer sun.

### Impatiens, SunPatiens 'SunPatiens Compact Tropical Rose'

Busy Lizzie; Patience Plant

Magenta-rose

18"-24" in containers; 2'-3' in the garden tall

Rich, moist, well-drained soil.

Part to full sun

SP-F

A new unique variegated SunPatiens with leaves that have chartreuse centers rimmed with green. Vibrant bright magenta-rose flowers bloom all season. The variegated foliage really stands out. Versatile and strong garden performance. SunPatiens have become a landscaper favorite. It is important to note that SunPatiens are also highly resistant to the impatiens downy mildew problem that is plaguing Impatiens walleriana.

### Impatiens, SunPatiens 'SunPatiens Spreading Lavender'

Busy Lizzie; Patience Plant

Rich lavender

2'-3' tall in containers; 3'-4' tall in the garden

NEW

Part to full sun

SP-F

2'-3' wide in containers; 3'-4' wide in the garden

2" to 3" wide rich lavender flowers atop medium green foliage. Tried at the Dallas Arboretum, a research site known for its intense heat and humidity, they were planted in a full sun location. According to Jimmy Turner, Director of Research at the Dallas Arboretum, the "SunPatiens not only survived the heat, they looked good doing it!" Following are excerpts of Turner's report on SunPatiens. SunPatiens are a hybrid of Impatiens walleriana (regular Impatiens) and Impatiens hawkeri (New Guinea Impatiens). ## Annual Flower/Foliage

<b>Isotoma (Laurentia) axillaris 'Starshine Blue'</b>	Star Flower	Lavender-blue	8"-12" tall
Rich, moist, well-drained soil.	Part to full sun	SP-F	12"-18" wide

Uniformly mounded, vigorously flowering plants. Frilly mats of delicate green foliage bursts into color by mid summer with 1" wide star-shaped lavender-blue blooms! The five-petaled flowers resemble fluttering butterflies. The blooms fill the air with a gentle fragrance. A wonderful, much underused plant! One you try it, you will wonder why you have not tried it before! Perfect for hanging baskets and containers, or as a low growing carpet of color!

<b>Jasmine sambac 'Maid of Orleans' (Jasminum)</b>	Jasminum sambac	Pure white	1' tall
Rich, moist, well-drained soil.	Part to full sun	SP-W	1' wide

1" to 2" wide, waxy, snow white double flowers are intensely fragrant and look like miniature roses. The bushy, shrubby plants have large, bright green leaves and are great for containers. Makes an excellent houseplant as well. The flowers are used in perfumes. The dried flowers are used by the Chinese in teas. Hawaiians use the flowers in leis. The flowers are used in garlands in India.

<b>Lantana, Trailing 'Samantha'</b>	Shrub Verbena	Bright yellow	8"-24" tall
Rich, moist, well-drained soil.	Full sun	SP-F	3' wide

Bright yellow flowers; semi-trailing yellow and green variegated foliage.

<b>Lantana, Upright 'Bloomify Red'</b>	Shrub Verbena	Deep red with some yellow and orange	12" to 14" tall
<b>NEW</b>	Full Sun	MSP to EF	10" to 12" wide

Attracts butterflies

Attracts hummingbirds

The first certified, sterile lantana. Sterile plants mean full flower coverage, all summer long. Deep red flowers are brightened by splashes of yellow and orange. Features better branching than the competition for a better appearance. Two weeks later to flower than the Lucky series, with a nice ball-shaped habit.

<b>Lantana, Upright 'Bloomify Rose'</b>	Shrub Verbena	Rose Pink	12" to 14" tall
<b>NEW</b>	Full Sun	MSP to EF	10" to 12" wide

Attracts butterflies

Attracts hummingbirds

The first certified, sterile lantana. Completely sterile, so it won't go out of the flower in the heat of Summer. Rose-pink flowers bloom in spring and continuously throughout the season, through fall. Features better branching than the competition, for a better appearance. Two weeks later to flower than the Lucky series, with a nice ball-shaped habit.

<b>Lantana, Upright 'Lucky Lavender'</b>	Shrub Verbena	Creamy yellow to lavender-pink	12"-20" tall
Rich, moist, well-drained soil.	Full sun	SP-F	12"-20" wide

Eye-catching bicolor pattern with bright lemon and creamy lemon florets in the center and creamy lavender-pink florets around the edge! Uniform, mounding habit. Loves the heat!

<b>Lantana, Upright 'Lucky Lemon Glow'</b>	Shrub Verbena	White and bright lemon	12"-20" tall
Rich, moist, well-drained soil.	Full sun	SP-F	12"-20" wide

Eye-catching bicolor pattern with bright lemon florets in the center and creamy yellow-blushed white florets around the edge! Uniform, mounding habit. Loves the heat!

<b>Lantana, Upright 'Lucky Red'</b>	Shrub Verbena	Scarlet, orange, yellow	12" to 16" tall
Rich, moist, well-drained soil.	Full sun	SP-F	12" to 14" wide

The dark green foliage contrast beautifully with the bright flower colors. The scarlet bloom clusters take on shades of orange and yellow towards the center of the cluster. Plants stand up well to heat, humidity and other stressful conditions. The plants stay upright and mounded with a controlled habit all season, making them ideal for small-space gardens and containers. Attracts butterflies and hummingbirds; deer resistant.

## Annual Flower/Foliage

<b>Lantana, Upright 'Lucky Sunrise Rose'</b>	Shrub Verbena	Violet, rose, and yellow	15"-20" tall
Rich, moist, well-drained soil.	Full sun	SP-F	15"-20" wide

The unique flowers have rich violet and deep rose outer florets surrounding yellow center florets; not to be missed! Formerly named 'Landmark Sunrise Rose'. Prairie Star Award Winner.

<b>Lantana, Upright 'Lucky White'</b>	Shrub Verbena	White and yellow	12"-16" tall
Rich, moist, well-drained soil.	Full sun	SP-F	12"-14" wide

Pure white florets surround creamy yellow florets with gold throats; loves the heat; uniform, mounding habit.

<b>Lantana, Upright 'Luscious Citrus Blend'</b>	Shrub Verbena	Red, orange, and yellow	1'-3' tall
Rich, moist, well-drained soil.	Full sun	SP-F	16"-32" wide

### Prairie Star

The flowers are a stunning array of red, orange, and yellow. Plants have a nice mounded habit.

<b>Lantana, Upright 'Luscious Marmalade'</b>	Shrub Verbena	Bright orange and yellow	12"-18" tall
Rich, moist, well-drained soil.	Full sun	SP-F	18"-36" wide

### Prairie Star

Enjoy the sweet essence of summer with this lantana! The beautiful array of colors reminds one of an evening sunset, with the bright oranges and yellows! Very heat loving and drought tolerant!

<b>Lantana, Upright 'Luscious Royale Cosmo'</b>	Shrub Verbena	Rich pink, gold, and peach	12"-26" tall
<b>NEW</b> Rich, moist, well-drained soil.	Full sun	SP-F	1'-2' wide

Gorgeous clusters of flowers in shades of rich pink and golden-peach! Very heat loving and drought tolerant!

<b>Lantana, Upright 'New Gold'</b>	Shrub Verbena	Bright golden	12"-19" tall
Rich, moist, well-drained soil.	Full sun	SP-F	2'-4' wide

### Prairie Star

A drought tolerant, heat loving, low maintenance blooming machine! Spreading, lush, dark green plants have a wealth of bright golden yellow flowers. Prairie Star Award Winner!

<b>Lisianthus 'ABC 2 Purple' ('Balboa Purple')</b>	Eustoma grandiflorum	Rich purple	36"-45" tall
Well-drained soil.	Full sun	SU	1' wide

Fully double rich purple flowers; excellent cutflower; formerly named 'Balboa Purple'.

<b>Lisianthus 'ABC 2-3 Blue Rim' ('Balboa Blue Rim')</b>	Eustoma grandiflorum	White and purple	36"-45" tall
Well-drained soil.	Full sun	SU	1' wide

Fully double white flowers are broadly margined with rich purple; excellent cutflower; formerly named 'Balboa Blue Rim'.

## Annual Flower/Foliage

<b>Lisianthus 'Forever Blue'</b>	Eustoma grandiflorum	Rich blue	10"-12" tall
Well-drained soil.	Full sun	SU	1' wide

Single rich blue flowers on well-branched plants; keeps its great color even in hot, sunny weather; AAS Winner.

<b>Lisianthus 'Mariachi Lime Green'</b>	Eustoma grandiflorum	Lime green	20"-36" tall
Well-drained soil.	Full sun	SU	8"-12" wide

Quadruple lime green flowers are 3" to 3½" across; strong stems; excellent cutflower.

<b>Lisianthus 'Mariachi Pink'</b>	Eustoma grandiflorum	Pink	20"-36" tall
Well-drained soil.	Full sun	SU	8"-12" wide

Quadruple pink flowers are 3" to 3½" across; strong stems; excellent cutflower.

<b>Lisianthus 'Mariachi Pure White'</b>	Eustoma grandiflorum	Pure white	20"-36" tall
Well-drained soil.	Full sun	SU	8"-12" wide

Quadruple pure white flowers are 3" to 3½" across; strong stems; excellent cutflower.

<b>Lobelia 'Bella Acqua'</b>	Lobelia erinus	Aqua blue and white	6" tall ,10" wide
Deep, rich, moist, well-drained soil.	Part to Full shade	MSP-F	10" wide

Dainty aqua bluish-green flowers with white eyes at the ends of the stems. Tiny narrow green leaves on trailing plants that spill over the edges of baskets and containers. Reported to be quite heat tolerant.

<b>Lobelia 'Bella Mare'</b>	Lobelia erinus	Rich lavender-blue and white	6" to 12" tall
<b>NEW</b> Deep, rich, moist, well-drained soil.	Part to Full Shade	MSP to EF	12" wide

A low-growing cool season annual that has a soft wispy texture and a great quantity of blooms. Rich lavender-blue flowers with white eyes. It adds volumes to a mixed container or garden space without adding mass. Boasts flower power plus excellent branching and growth habit. Through an intensive breeding program, this series has become more heat tolerant than older-type Lobelia. If well established, and kept well-watered, 'Bella Mare' will bloom from MSP to EF.

<b>Lobelia, Trailing 'Regatta Midnight Blue'</b>	Lobelia erinus	Dark blue	4"-6" tall
Deep, rich, moist, well-drained soil.	Part to Full shade	SP-ESU & F	6" wide

Dark blue flowers atop bronze foliage.

<b>Lobelia, Upright 'Riviera Sky Blue'</b>	Lobelia erinus	Light sky blue	3"-4" tall
Deep, rich, moist, well-drained soil.	Part to Full shade	SP-ESU & F	8"-12" wide

Light sky blue flowers; an early bloomer.

## Annual Flower/Foliage

<b>Lobularia 'Clear Crystals Mix'</b>	Alyssum	Mix	6"-10" tall
Moist, well-drained soil.	Part to full sun	SP-F	12"-14" wide

This exciting tetraploid alyssum has more vigorous plants and fragrant, larger size flowers! Very showy, it exhibits more heat tolerance than other seed grown varieties. A mix of lavender shades, purple shades, and white, creating a mix with colors similar to those in 'Easter Bonnet Mix'.

<b>Lobularia 'Clear Crystals Purple Shades'</b>	Alyssum	Purple and violet shades	6"-10" tall
Moist, well-drained soil.	Part to full sun	SP-F	12"-14" wide

This exciting tetraploid alyssum has more vigorous plants and fragrant, larger size flowers! Very showy, it exhibits more heat tolerance than other seed grown varieties. Shades of purple and violet florets. The color will be lighter under warm temperatures, especially warmer nights.

<b>Lobularia 'Giga White'</b>	Alyssum	Pure white	4"-6" tall
Moist, well-drained soil.	Part to full sun	SP-F	12"-14" wide

### Prairie Star

This tetraploid alyssum has proven itself in trials across the US! It has incredible heat tolerance, a dense, well-branched, mounded habit, and large, fragrant florets!

<b>Lobularia 'North Face'</b>	Alyssum	Pure white	5"-6" tall
Moist, well-drained soil.	Part to full sun	SP-F	12"-15" wide

This tetraploid (twice the number of chromosomes) Alyssum has a wonderful cascading habit, making it ideal as a hanging basket or container filler or in the garden border. The larger, pure white flowers, better branching habit, and improved vigor result in a better showing in the landscape.

<b>Lobularia 'Raspberry Stream'</b>	Alyssum	Vivid pink shades	8"-12" tall
Moist, well-drained soil.	Part to full sun	SP-F	8"-12" wide

This is a very floriferous, ball-shaped plant. The 2" to 3" wide clusters have a wonderful honey fragrance! The vivid pink shade of the flowers turns even darker during cooler temperatures. Has a superior growth habit with excellent controlled vigor. It "plays well" with other plants and does not overgrow other plants in a border.

<b>Lobularia 'White Stream'</b>	Alyssum	White	8"-12" tall
Moist, well-drained soil.	Full sun	LSP-F	12"-15" wide

Forms a perfect ball-shaped plant with panicles of fragrant flowers. It is blanketed in stunning, dainty clusters of white flowers with a sweet honey fragrance. This heat lover grows fast and displays profuse clouds of dainty white flower cushions.

<b>Lotus Vine berthelotti 'Orange'</b>	Parrot's Beak, Coral Gem, Pelican's Bea, Winged Pea	Red	1"-3" tall
Moist, well-drained soil.	Part to full sun	ESP	2' wide

Parrot's Beak; Coral Gem; Pelican's Beak; Winged Pea; Fine, lacy, needle-like silver-gray foliage; rarely shows its small, red parrot's beak-shaped flowers.

<b>Lysimachia congestiflora 'Persian Chocolate'</b>	Persian Chocolate Moneywort	Golden yellow	5" tall ,2'-3' wide
Moist, well-drained soil.	Part to full sun	LSP	

Beautiful deep purple leaves on spreading plants. 1/2" wide, open golden yellow bells appear in clusters at the tips of the branches in late spring. Ground cover like habit makes it perfect for the edge of borders or in containers. Very heat tolerant. The foliage will be darker in full sun.

## Annual Flower/Foliage

### Manihot esculenta (Variegated Tapioca Plant)

Variegated Tapioca Plant

3'-6' tall

Moist, well-drained soil.

Part to full sun

2'-4' wide

### Prairie Star (new 2017)

An stunning tropical with colorful, deeply lobed, palmate leaves of buttery yellow, irregularly margined in bright green. Bright carmine-red petioles and stems provide a nice contrast to the foliage. A great plant for large containers or the landscape. Very heat tolerant.

### Marigold, African 'Inca II Gold'

Tagetes erecta

Bright gold

12"-22" tall

Moist, well-drained soil.

Full sun

LSP-F

12"-16" wide

4" to 5" double bright gold flowers; free flowering.

### Marigold, African 'Inca II Mix'

Tagetes erecta

Mix

12"-22" tall

Moist, well-drained soil.

Full sun

LSP-F

12"-16" wide

4" to 5" double blooms in a mix of gold, orange, primrose, and yellow.

### Marigold, African 'Inca II Orange'

Tagetes erecta

Bright orange

12"-22" tall

Moist, well-drained soil.

Full sun

LSP-F

12"-16" wide

4" to 5" double bright orange flowers; free flowering.

### Marigold, African 'Inca II Yellow'

Tagetes erecta

Bright yellow

12"-22" tall

Moist, well-drained soil.

Full sun

LSP-F

12"-16" wide

### Prairie Star

4" to 5" double bright yellow flowers; free flowering; Prairie Star.

### Marigold, African 'Sweet Cream'

Tagetes erecta

Creamy white

16" tall

Moist, well-drained soil.

Full sun

LSP-F

12"-15" wide

2½" to 3" double creamy white flowers; compact plants.

### Marigold, French 'Alumia Vanilla Cream'

Tagetes patula, tagetes signata pumila, and tagetes tenuifolia

Creamy lemon

12"-14" tall

Moist, well-drained soil.

Full sun

LSP-F

10"-12" wide

The breeder, David Lemon, invested 50 years of experience in creating this large flowered, strong-stemmed, anemone-flowered marigold! 2" to 2 1/2" wide flowers in a never before seen hue of pale primrose-yellow in the central cluster of petals, surrounded by lighter cream petals. The flowers face straight up, giving you the maximum show of color in the garden and in containers!

### Marigold, French 'Disco Orange'

Tagetes patula, tagetes signata pumila, and tagetes tenuifolia

Bright orange

12"-21" tall

Moist, well-drained soil.

Full sun

SP-F

10"-16" wide

### Prairie Star

2" to 2 1/2" wide single bright orange flowers.

## Annual Flower/Foliage

<b>Marigold, French 'Disco Red'</b>	Tagetes patula, tagetes signata pumila, and tagetes tenuifolia	Deep red-bronze	12"-21" tall
Moist, well-drained soil.	Full sun	SP-F	10"-16" wide

### Prairie Star

2" to 2 1/2" single deep red-bronze flowers with cheery yellow centers.

<b>Marigold, French 'Disco Yellow'</b>	Tagetes patula, tagetes signata pumila, and tagetes tenuifolia	Bright orange	12"-21" tall
Moist, well-drained soil.	Full sun	LSP-F	10"-16" wide

### Prairie Star

2" to 2½" single bright orange flowers.

<b>Marigold, French 'Fireball'</b>	Tagetes patula, tagetes signata pumila, and tagetes tenuifolia	Red to Orange	10" to 12" tall
Moist, well-drained soil.	Full sun	LSP-F	

A completely new look never before seen in African or French Marigold! In early-spring growing conditions, flower age and change color more slowly for maximum contrast. In warmer conditions, color changes faster with less distinct contrast. Blooms start out a very dark, bronze red in early spring and finish to a fiery orange as the flowers mature.

<b>Marigold, French 'Janie Bright Yellow'</b>	Tagetes patula, tagetes signata pumila, and tagetes tenuifolia	Bright yellow	8"-10" tall
Moist, well-drained soil.	Full sun	LSP-F	1' wide

2" bright yellow double blooms.

<b>Marigold, French 'Janie Deep Orange'</b>	Tagetes patula, tagetes signata pumila, and tagetes tenuifolia	Deep orange	8"-10" tall
Moist, well-drained soil.	Full sun	LSP-F	1' wide

2" deep orange double blooms.

<b>Marigold, French 'Janie Flame'</b>	Tagetes patula, tagetes signata pumila, and tagetes tenuifolia	Red and gold	8"-10" tall
Moist, well-drained soil.	Full sun	LSP-F	1' wide

2" red and gold double blooms.

<b>Marigold, French 'Janie Mix'</b>	Tagetes patula, tagetes signata pumila, and tagetes tenuifolia	Mix	8"-10" tall
Moist, well-drained soil.	Full sun	LSP-F	1' wide

2" flowers in a mix of several colors.

<b>Marigold, French 'Lemon Gem'</b>	Tagetes patula, tagetes signata pumila, and tagetes tenuifolia	Bright yellow	1' tall
Moist, well-drained soil.	Full sun	LSP-F	1' wide

Signet Marigold; Tiny bright yellow flowers atop finely-cut, fragrant foliage.

## Annual Flower/Foliage

<b>Marigold, French 'Safari Yellow Fire'</b>	Tagetes patula, tagetes signata pumila, and tagetes tenuifolia	Yel & mahogany	10"-22" tall
Moist, well-drained soil.	Full sun	LSP-F	12"-20" wide
<b>Prairie Star</b>	2½" double flowers have yellow petals with mahogany-red markings; the individual petals look a bit like pieces of candy corn!		
<b>Marigold, French 'Strawberry Blonde'</b>	Tagetes patula, tagetes signata pumila, and tagetes tenuifolia	Red to pink tones	10" tall
Moist, well-drained soil.	Full sun	LSP-F	10" wide
A breeding break through has created a French Marigold with flowers in totally unique russet tones; bringing pink shades to the marigold color palette for the very first time. These bushy, vigorous, free-flowering French marigold plants are set to be this year's must-have bedding plant! It comes into bud almost red in color, and opens out into an incredible palette of apricot-pink petal. Beauteous blooms actually change color. When warmer, blooms are yellow-pinks; when cooler: pink-plum tones kick in. Great as a 'mixer' but it truly comes into its own when planted en masse in drifts or blocks. Culinary information: the citrus tasting flowers have many uses, try them in salads, sandwiches of seafood dishes too.			
<b>Marigold, French 'Super Hero Spry'</b>	Tagetes patula, tagetes signata pumila, and tagetes tenuifolia	Dark maroon lower petals and golden yellow upper petals	10" to 12" tall
<b>NEW</b> Moist, well-drained soil.	Full Sun	MSP to EF	10" to 12" wide
When one of the discerning AAS judges says, " I'd love to have this in my yard!", you know you have a winner! It is a lovely compact French marigold with dark maroon lower petals and golden yellow upper petals perched on top of the dark green foliage. The list of winning attributes continus: a more uniform and stable color pattern, earlier to bloom, and no deadheading required! These stunning blooms make any garden fit for a 'Super Hero'!			
<b>Mecardonia 'Magic Carpet'</b>	Axillflower; Baby Jump Up	Bright lemon yellow	4"-6" tall
Moist, well-drained soil.	Part to full sun	LSP-F	14"-18" wide
A tough, durable, low growing plant that is loaded with a continuous supply of bright yellow flowers all season. Semi-mounding habit. Because it is both frost and heat tolerant, it is an ideal season extender, useful for spring, summer, and fall containers! Extremely heat tolerant!			
<b>Melampodium 'Showstar'</b>	Gold Medallion Flower, Butter Daisy, Star Daisy	Yellow	14"-22" tall
Moist, well-drained soil.	Full sun	LSP-F	10"-27" wide
<b>Prairie Star</b>	Star-shaped yellow blooms; bushy plants; grows and blooms very well in our hot, humid summers; Prairie Star.		
<b>Melianthus major</b>	Honey Bush; Peanut Butter Plant	Mahogany	6'-10' tall
Moist, well-drained soil.	Full sun	second SU	2'-3' wide
A stunning foliage plant from South Africa with large blue-gray lobed leaves with coarsely serrated edges. Deeply folded down the midrib, these glaucous leaves pick up the morning dew, which creates a jeweled effect. When the leaves are bruised, a faint peanut butter-like fragrance can be smelled. If brought inside for the winter, mahogany flowers may appear the second summer. Great in combination with Verbena bonariensis.			
<b>Musa acuminata 'Siam Ruby'</b>	Banana	Yellow	6'-10' tall
Rich, moist, well-drained soil.	Full sun	SU	3'-6' wide
Unlike any other ornamental Banana! Bright ruby red foliage is splattered with tiny flecks of lime green (and occasional pink and white flecks)! As each leaf unfurls from the claret stems, there is a surprising new pattern variation. The more sun, the more intense the color. Loves intense heat and humidity! This standout lends tropical flair to the garden without overwhelming it. Magnificent in large pots underplanted with smaller complementary foliage and flowering plants. Needs moist, rich, very well-drained soil. Dazzling and stunning!			

## Annual Flower/Foliage

<b>Musa basjoo</b>	Japanese Fiber Banana	Golden yellow	5'-16' tall
Rich, moist, well-drained soil.	Part to full sun	SU	3'-10' wide

Imagine growing tropical bananas in your outdoor garden! With this Hardy Banana, you'll get a defining tropical look. With proper mulching in the fall, it can withstand temperatures below zero! This extremely vigorous banana grows many feet in a season and in time (if over wintered), forms large clumps that can reach up to 16' tall! Once established, it can grow an amazing 2 feet per week! Giant, bright green leaves that measure up to 6' long! Also great in large containers! In summer, small golden yellow blooms are grown in long clusters. Although it does produce bananas, they are inedible. Best grown in part sun and where protected from strong wind.

<b>Nasturtium 'Alaska Mix'</b>	Tropaeolum majus	Mix	10" tall ,10" wide
Lean, moist, well-drained soil.	Full sun	LSP-F	10" wide

Green leaves are highly marbled in ivory. Mix of gold, salmon, and scarlet 2" to 2 1/2" wide flowers.

<b>Nicotiana 'Perfume Deep Purple'</b>	Flowering Tobacco	Dark, velvety purple	16"-20" tall
Lean, moist, well-drained soil.	Part to full sun	LSP-EF	15"-18" wide

Free-flowering and easy to grow, producing masses of color on uniform plants that are a natural for landscaping and containers. Dark, velvety purple, upward-facing 2" blooms are heavily scented and are held well above the foliage for maximum display. AAS Winner!

<b>Nicotiana 'Perfume Rose'</b>	Flowering Tobacco	Bright rose	16"-20" tall
<b>NEW</b> Lean, moist, well-drained soil.	Part to full sun	LSP-EF	15"-18" wide

Free-flowering and easy to grow, producing masses of color on uniform plants that are a natural for landscaping and containers. Bright rose flowers with darker veins. The upward-facing 2" blooms are heavily scented and are held well above the foliage for maximum display.

<b>Nicotiana 'Starmaker Bright Red'</b>	Flowering Tobacco	Bright, deep red	1' tall
Moist, well-drained soil.	Part to full sun	LSP-EF	10" wide

1" to 2" wide, star-shaped flowers of bright, deep red. The plants have a uniform, compact habit. These brightly colored heat lovers put on a season long show! Great in the landscape and in containers. Loved by hummingbirds!

<b>Nicotiana 'Starmaker Bright Red'</b>	Flowering Tobacco	Bright, deep red	1' tall
Lean, moist, well-drained soil.	Part to full sun	LSP-EF	10" wide

1" to 2" wide, star-shaped flowers of bright, deep red. The plants have a uniform, compact habit. These brightly colored heat lovers put on a season long show! Great in the landscape and in containers. Loved by hummingbirds!

<b>Nicotiana 'Starmaker Mix'</b>	Flowering Tobacco	Mix	1' tall
Moist, well-drained soil.	Part to full sun	LSP-EF	10" wide

1" to 2" wide, star-shaped flowers in a mix of appleblossom, red, lime, lime and purple bicolor, pink picotee, rose, and white. The plants have a uniform, compact habit. These brightly colored heat lovers put on a season long show! Great in the landscape and in containers. Loved by hummingbirds!

<b>Nicotiana sylvestris</b>	Flowering Tobacco	Pure white	3'-6' tall
Moist, well-drained soil.	Part to full sun	SU-EF	24"-30" wide

Peace Pipe; Only The Lonely; Clusters of 3" long white flowers have a rich, powerful evening fragrance; attracts hummingbirds and hawk moths; great accent plant; reseeds.

## Annual Flower/Foliage

<b>Nierembergia 'Robe Purple'</b>	Cup Flower	Purple to blue	8" tall
Well-drained soil.	Part to Full sun	SP-F	8"-12" wide

Lovely blue-purple flowers gradually lighten to sky blue; needle-like green foliage.

<b>Osteospermum 'Akila Purple'</b>	African Daisy; Blue Eyed Daisy; Freeway Daisy	Dark purple	16"-20" tall
Light, well-drained soil.	Full sun	ESP-ESU & F	16"-20" wide

Full, well-branched plants are great in containers and in the landscape! Beautiful, dark eyed daisy flowers to 3" wide! Flowers open silver and mature to a vibrant violet-mauve with a dark purple ring around the dark eye. Plants are drought tolerant once established. Blooms from late March through early summer. Flowering slows down in the heat of summer, and may stop completely based on temperature (when temps are consistently over 95 degrees F).

<b>Osteospermum 'Ostica Bronze'</b>	African Daisy; Blue Eyed Daisy; Freeway Daisy	Orange-bronze	1' to 2' tall
Light, well-drained soil.	Full sun	ESP-F	1' wide

Definitely position them in full sun and they will also thrive in containers, adequate water and well drained soils are important too, while African daisies are promoted as being tolerant of tougher soils, you'll have more flowers on a fuller plant with good soils and frequent fertilizing, remove spent blossoms as well to encourage more buds to form, if you have the time to decide a little more TLC to your Osteospermum selection, the rewards are amazing, the "Ostica" series appears to be very heat-tolerant, as they were in very good bloom in the trial gardens in late July.

<b>Osteospermum 'Voltage Yellow'</b>	African Daisy; Blue Eyed Daisy; Freeway Daisy	Clear, bright yellow	10"-16" tall
Light, well-drained soil.	Full sun	ESP-F	24"-28" wide

Incredibly vibrant, 2" to 3" wide clear, bright yellow daisies. Blooms early and continues to bloom in 90 degree heat! More heat tolerant than other varieties, but it still likely will not bloom all summer long. Well-branched, low, spreading plants are naturally full and compact. Electrifies baskets, containers, and landscapes!

<b>Oxalis triangularis</b>	Shamrock; Sorrel	Pale lilac	4"-10" tall
Rich, moist, well-drained soil.	6 Part to Full shade	SP-F	10" wide

Red Velvet Shamrock; Purple Shamrock; Scrumptious glowing black-purple foliage with a central vivid violet flame on each triangular leaflet; dainty pale lilac flowers shimmer above the foliage; a great houseplant; adds richness of composition in containers, or flair and drama to the border, especially when paired with chartreuse foliaged plants; syn. *O. regnellii* 'Atropurpurea'; if planted in the ground it may winter over as it is marginally hardy in zone 6.

<b>Oxalis vulcanicola 'Molten Lava'</b>	Shamrock; Sorrel	Bright yellow	5"-7" tall
Rich, moist, well-drained soil.	Full sun to Full shade	SP-F	8"-10" wide

This vigorous little spreader delights with tiny bright yellow flowers and chartreuse colored foliage tinted with copper; tuck it in containers or at the edges of your garden; great for sunny or shady locations- the foliage will be more chartreuse in shade and more golden yellow in sun.

<b>Oxalis vulcanicola 'Zinfandel'</b>	Shamrock; Sorrel	Bright sunny yellow	6"-10" tall
Rich, moist, well-drained soil.	Part to full sun	ESU-LSU	10"-12" wide

An exotic beauty with extra dark bronzy purple leaves. The summer-long display of tiny, bright sunny yellow sterile blooms makes a bold contrast against the dark foliage. Its spreading habit makes it perfect for tucking into containers, where it will gently spill over the edge!

## Annual Flower/Foliage

### Palm Cycas revoluta

Sago Palm

to 10' tall

Part to full sun

to 8' wide

Not a true palm, this plant is a living fossil that is technically part conifer and part fern! A very desirable tropical plant, displaying a stout trunk and long leaves with many narrow stiff leaflets. The leaves of this palm-like tree form an open rosette. Great for large containers. Extremely slow growing.

### Pansy 'Frizzle Sizzle Mix Improved'

Mix

7" tall ,6" wide

Cool, moist, well-drained soil.

Full sun

SP-ESU & F

Delightful, 100% ruffled, 3" blooms on very early, compact and well-branched plants. Flowers come in a variety of colors- purple-blue, lavender, reddish rose, and yellow, all with blotched faces and some with darker veins in the petals.

### Pansy 'Frizzle Sizzle Raspberry'

Raspberry Pink with a central dark blotch

6" to 8" tall

**NEW** Cool, moist, well-drained soil.

Full to Part Sun

SP and F

6" to 8" wide

Fragrant double blooms on one of the earliest flowering pansies! Stylish ruffled, raspberry pink flowers with a central dark blotch. The large flowers are completely ruffled along the edges and set atop short but sturdy stems. Snazzy, 3", ruffled blooms on compact, 6" to 9" tall plants. Flowers show strongest ruffling in cool weather.

### Pansy 'Frizzle Sizzle Yellow Blue Swirl'

Blue and Yellow and a blotch center

6" to 8" tall

**NEW** Cool, moist, well-drained soil.

Full Sun to Part Shade

SP and F

6" to 8" wide

Wow! The most unique combination of blue and yellow, a blotch center, combined with a cats whisker effect and ruffled edges gives the most unique variety of pansy available! It is a combination of all the best features of any pansy plant available! The cat's whisker effect, together with the frilly, ruffled edges, and perfect union of yellow and blue shades.

### Pansy 'Spring Matrix Blue Wing'

Blue

8" tall

Cool, moist, well-drained soil.

Full sun

SP-ESU & F

Large, thick-petaled, 3" fragrant flowers are held beautifully over foliage on strong, sturdy stems. Produces more flowers per plant than other pansies to create high-impact landscapes and containers. this series is designed for cool-season, short-day growing conditions - or when you need a large bloom that maintains good presentation under cold, cloudy days. Superior branching without stretching puts more flowers on every plant. Display stronger blue color under cool temperatures. Attracts butterflies, hummingbirds, and other pollinators.

### Pansy 'Spring Matrix Deep Orange'

Vibrant orange

8" tall ,8" wide

Cool, moist, well-drained soil.

Full sun

SP-ESU & F

The 'Spring Matrix' series features plants with a robust habit, better branching, and shorter flower stems. Flowers well under shorter days and cooler temperatures. The flowers have large, thick petals, which help prevent blooms from flopping over. Large, 3" to 3 1/2" wide deep, vibrant orange flowers. The plants do not stretch in the heat.

### Pansy 'Spring Matrix Midnight Glow'

Midnight, blue, and yellow

8" tall ,8" wide

Cool, moist, well-drained soil.

Full sun

SP-ESU & F

The 'Spring Matrix' series features plants with a robust habit, better branching, and shorter flower stems. Flowers well under shorter days and cooler temperatures. The flowers have large, thick petals, which help prevent blooms from flopping over. Large, 3" to 3 1/2" wide flowers are breathtaking- deep midnight purple flowers have a large sunny yellow blotch in the center, ringed an irregular margin of cobalt blue. Black whiskered faces are brushed on the yellow. The plants do not stretch in the heat.

### Pansy 'Spring Matrix Pink Shades'

Pink shades

8" tall

Cool, moist, well-drained soil.

Full sun

SP-ESU & F

The 'Spring Matrix' series features plants with a robust habit, better branching, and shorter flower stems. Flowers well under shorter days and cooler temperatures. The flowers have large, thick petals, which help prevent blooms from flopping over. Large, 3" to 3 1/2" wide flowers in an array of pink shades (peachy pink, orchid-pink, and light pink), all with purple blotched faces. The plants do not stretch in the heat.

## Annual Flower/Foliage

### Pansy 'Spring Matrix Purple'

Deep purple

8" tall ,8" wide

Cool, moist, well-drained soil.

Full sun

SP-ESU & F

The 'Spring Matrix' series features plants with a robust habit, better branching, and shorter flower stems. Flowers well under shorter days and cooler temperatures. The flowers have large, thick petals, which help prevent blooms from flopping over. Large, 3" to 3 1/2" wide deep purple flowers. The plants do not stretch in the heat.

### Pansy 'Spring Matrix Yellow'

Bright yellow

8" tall ,8" wide

Cool, moist, well-drained soil.

Full sun

SP-ESU & F

The 'Spring Matrix' series features plants with a robust habit, better branching, and shorter flower stems. Flowers well under shorter days and cooler temperatures. The flowers have large, thick petals, which help prevent blooms from flopping over. Large, 3" to 3 1/2" wide bright yellow flowers. The plants do not stretch in the heat.

### Pentas 'Butterfly Deep Pink'

Star Cluster

Deep rose-pink

10"-18" tall

Rich, well-drained soil.

Full sun

SP-F

11"-13" wide

Vigorous, well-branched plants with large umbels of star-shaped deep rose-pink flowers with white eyes.

### Pentas 'Falling Stars Rose'

Star Cluster

Rich rose

8" to 10" tall

Rich, well-drained soil.

Full sun

LSP-F

This is a brand new type of pentas with a trailing habit. It will look great in hanging baskets and combinations. Pentas are not only a heat lovers and drought tolerant, but they are also a pollinator-attracting plants, making them ideal for spring and summer combinations and the landscape. With the new trailing habit in the Falling Star series, pentas could be a replacement for other trailing plants in combinations, to withstand summer heat. Even looks great in rock gardens!

### Pentas 'Lucky Stars Dark Red'

Star Cluster

Dark Red

12" to 16" tall

**NEW** Rich, well-drained soil.

Full Sun

MSP to EF

8" to 10" wide

Attracts butterflies

Attracts hummingbirds

These are bred for the fastest follow-up blooming of any pentas on the market! Nonstop color means the plants just keep getting better and better in your landscape! Plus, this color-rich series has a tight, compact habit that keeps them looking tidy with virtually no effort. The promise of continuous, show-stopping color on full, lush plants... now that's a huge plus!

<b>Pentas 'Variegated Red' (syn. 'Stars and Stripes')</b>	Star Cluster	Brilliant red	18"-24" tall
Rich, well-drained soil.	Full sun	SP-F	1' wide

Beautiful cream and light green variegated foliage with clusters of brilliant red star-shaped blooms; syn. 'Stars and Stripes'.

<b>Pepper, Ornamental 'Black Pearl'</b>	Ornamental Pepper	White	14"-28" tall
Rich, moist, well-drained soil.	Full sun	SU	12"-16" wide

### Prairie Star

112 to 126 days to fruit. Where can you put a bold, black-leafed, black-fruited ornamental pepper? Everywhere! This unique variety looks marvelous in mixed containers and is the perfect backdrop in garden beds. Bushy, upright plants have a well-branched habit. Thrives in heat, humidity, and drought. The 1" to 1 1/2" long x 3/8" to 1/2" wide, shiny, round, slightly pointed, black fruits mature to dark red and have a fiery kick (they are edible, but very hot, so use with care!)! The young green leaves mature to glossy black with high light and heat- the more sunlight, the darker the leaves will be. Very vigorous plants love heat, humidity, and dry conditions. All America Selections Winner! Prairie Star Award Winner.

<b>Pepper, Ornamental 'Chilly Chili'</b>	Ornamental Pepper	White	9"-14" tall
Rich, moist, well-drained soil.	Full sun	SU	14"-17" wide

### Prairie Star

125 to 145 days to fruit; 2" to 2 1/2" long non-pungent blunt-nosed peppers mature from greenish yellow to orange, and finally to dark red; great for landscapes and containers; bushy plants; AAS Winner; Prairie Star.

<b>Pepper, Ornamental 'Conga'</b>	Ornamental Pepper	White	4"-6" tall
Rich, moist, well-drained soil.	Full sun	SU	10"-12" wide

Dark purple leaves with peppers that start out purple and mature to bright red. The cone-shaped peppers are borne in clusters and point straight up, like little rockets! A fabulous alternative to flowers, 'Conga' makes a great addition to combination planters.

## Annual Flower/Foliage

### Pepper, Ornamental 'Midnight Fire'

Ornamental Pepper

White

9"-12" tall

**NEW** Rich, moist, well-drained soil.

Full sun

SU

14"-16" wide

Distinctive dark black foliage is accented by purple fruit which mature to bright red. Well-branched plants.

### Pepper, Ornamental 'Onyx Red'

Ornamental Pepper

Purple

6" tall in a pot, 8" to 10" tall in the garden

**NEW** Rich, moist, well-drained soil.

Full Sun

MSP to EF

6" to 8" wide

It is one of those stunning double-take plants that steal the show! This breeding work has resulted in an unprecedented compact, well-branched ornamental pepper adorned with eye-catching dark foliage. The contrast between the diminutive black foliage and tons of shiny red fruits is striking and makes a bold statement in the garden. Plants are vigorous, continually growing, but retaining their neat, compact habit, making 'Onyx Red' a wonderful plant for beds, borders, containers, and dramatic mass plantings. Purple bloom color with black to red fruit.

### Pepper, Ornamental Sangria'

Ornamental Pepper

White

10"-12" tall

Rich, moist, well-drained soil.

Full sun

SU

16"-18" wide

85 days to purple stage; 120 days to red. A profusion of decorative "child-safe" (i.e. not hot), upturned and tapered 2" to 3" long fruits make it ideal for flower beds in both public and residential areas. The peppers display every bright shade of orange, red, crimson, scarlet, magenta, lilac, and purple over a long, lovely summer season! The fruits are actually quite mild in flavor- no need to worry if a child gobbles one down impulsively- but boast the peppery scent of its more delectable cousin. Excellent, filling habit for landscapes and containers.

### Pepper, Ornamental 'Wicked'

Ornamental Pepper

White

6"-8" tall

**NEW** Rich, moist, well-drained soil.

Full sun

SU

5"-7" wide

Compact plants show extra-large fruit that starts purple and matures to red. Stunning!

### Perilla 'Magilla'

Moist, well-drained soil.

Full sun to Full shade

30" tall

20"-24" wide

### Prairie Star

Striking large leaves of green, rosy red, and maroon; looks like a coleus; great for large containers and flower beds; Prairie Star.

### Petchoa (Petunia x Calibrachoa) 'SuperCal Blue'

Petunia x Calibrachoa

True blue

6"-12" tall

Light, well-drained, acidic soil.

Full sun

MSP-MF

14"-20" wide

This cross of Petunia and Calibrachoa has resulted in the best traits of each of its parents: strong vigor, exceptional flower power, lush foliage, dependable performance, and a unique color- true blue! 2" wide flowers. SuperCal' has a much better pH tolerance than does Calibrachoa, and the leaves do not have the sticky residue like Petunias! The plants also have excellent disease tolerance and outstanding performance in all types of weather extremes! Great for landscapes, containers, and baskets.

### Petchoa (Petunia x Calibrachoa) 'SuperCal Crimson Red'

Petunia x Calibrachoa

Ruby

10" to 14" tall

**NEW** Light, well-drained, acidic soil.

Full Sun

MSP to EF

12" to 18" wide

Known for its large vibrant flowers and superior outdoor performance, SuperCal is the ideal combination of petunia and calibrachoa. Their non-sticky foliage provides a cleaner look, strong roots keep leaves greener under stress, and crisp vibrant flowers are very attractive! Their exceptional garden performance under all kinds of weather - from unexpected late frosts, to rainy-wet cycles and even through the high heat of summer, SuperCal delivers value. They have demonstrated exceptionally resistance to powdery mildew. This cultivar offers velvety, ruby colored with deeper eyes. Great for hanging baskets, window boxes and tall flowerpots. Unlike many petunias, they don't bloom in waves, but do so continuously.

## Annual Flower/Foliage

### Petchoa (Petunia x Calibrachoa) 'SuperCal Light Yellow'

Petunia x Calibrachoa

Pastel yellow

6"-12" tall

Light, well-drained, acidic soil.

Full sun

MSP-MF

14"-20" wide

This cross of Petunia and Calibrachoa has resulted in the best traits of each of its parents: strong vigor, exceptional flower power, lush foliage, dependable performance, and a unique color- pastel yellow! 2" wide flowers have slightly darker veins and throats. 'SuperCal' has a much better pH tolerance than does Calibrachoa, and the leaves do not have the sticky residue like Petunias! The plants also have excellent disease tolerance and outstanding performance in all types of weather extremes! Great for landscapes, containers, and baskets.

### Petchoa (Petunia x Calibrachoa) 'SuperCal Neon Rose'

Petunia x Calibrachoa

Bright, hot pink

10"-12" tall

Light, well-drained, acidic soil.

Full sun

MSP-MF

10"-15" wide

### Prairie Star (new 2017)

This cross of Petunia and Calibrachoa has resulted in the best traits of each of its parents: strong vigor, exceptional flower power, lush foliage, dependable performance, and a unique color- bright hot pink with bright yellow throats! 2" wide flowers. 'SuperCal' has a much better pH tolerance than does Calibrachoa, and the leaves do not have the sticky residue like Petunias! The plants also have excellent disease tolerance and outstanding performance in all types of weather extremes! Great for landscapes, containers, and baskets.

### Petunia, Double 'Madness Double Blue'

Deep midnight blue

10"-14" tall

Light, well-drained soil.

Full sun

SP-F

1'-2' wide

### Prairie Star

2" to 2 1/2" wide fully double flowers of deep, velvety midnight blue.

### Petunia, Double 'Madness Double Burgundy'

Burgundy

10"-14" tall

Light, well-drained soil.

Full sun

SP-F

1'-2' wide

### Prairie Star

2" to 2 1/2" wide fully double burgundy flowers.

### Petunia, Double 'Madness Double Mix'

Mix

10"-14" tall

Light, well-drained soil.

Full sun

SP-F

1'-2' wide

### Prairie Star

2" to 2 1/2" wide, double flowers in a mix of solid and picotee colors; Prairie Star Award Winner.

### Petunia, Double 'Madness Double Red'

Medium red

10"-14" tall

Light, well-drained soil.

Full sun

SP-F

1'-2' wide

### Prairie Star

2" to 2 1/2" wide medium red semi-double to double flowers; Prairie Star Award Winner.

### Petunia, Double 'Purple Pirouette'

Violet and white

15"-18" tall

Light, well-drained soil.

Full sun

SP-F

12"-15" wide

Double violet-purple ruffled flowers are edged with white.

## Annual Flower/Foliage

### Petunia, Double 'Rose Pirouette'

Rose and white

15"-18" tall

Light, well-drained soil.

Full sun

SP-F

12"-15" wide

Large, double rose ruffled flowers are edged with white.

### Petunia, Single Bicolor 'Candy Picotee Blue'

Blue-purple and white

6"-8" tall

Light, well-drained soil.

Full sun

SP-F

9" wide

3" wide deep blue-purple flowers with wide white margins.

### Petunia, Single Bicolor 'Madness Red Picotee'

Red and white

10"-14" tall

Light, well-drained soil.

Full sun

SP-F

1'-2' wide

#### Prairie Star

Large, 3" wide deep red flowers with clean white margins.

### Petunia, Single Bicolor 'Sophistica Lime Bicolor'

Lime and rose shades

8"-15" tall

Light, well-drained soil.

Full sun

SP-F

10"-18" wide

#### Prairie Star

Talk about FUN! Lime and rose shades in many nuances of color: stars, stripes, solids, all showing the unique variegation that makes this Petunia one you'll not want to miss! The 2 3/4" to 3" wide flowers have frilly edges. There is no stable pattern in the flower coloration, as it exhibits many different variations depending on heat, light, age of the flower, and environment! The flower colors may look "muddy" if grown cool (which should not be an issue in our climate!).

### Petunia, Single Black 'Sophistica Blackberry'

Black and reddish purple

10"-15" tall

Light, well-drained soil.

Full sun

SP-F

10"-12" wide

Velvety, rich purple-black flowers have reddish purple undertones. The 2 3/4" to 3" wide blooms with slightly frilly edges, fill out lush, upright plants.

### Petunia, Single Blue 'Hurrah Blue Vein'

Blue and orchid

10"-12" tall

Light, well-drained soil.

Full sun

SP-F

12"-15" wide

#### Prairie Star

2½" to 3" light blue flowers with dark orchid-blue veins; Prairie Star.

### Petunia, Single Blue 'Pretty Grand Midnight'

Velvety deep blue-purple

6"-10" tall

Light, well-drained soil.

Full sun

SP-F

8"-12" wide

3 1/4" to 3 1/2" wide, velvety deep blue-purple flowers. Mid green foliage. Well-branched, tidy plants are great in flower beds. The 'Pretty Grand' grandiflora petunias are similar to 'Supercascade' petunias.

### Petunia, Single Blue 'Sophistica Blue Morn'

Blue and purple

10" to 15" tall

Light, well-drained soil.

Full sun

SP-F

10" to 12" wide

An amazing new color combination never before seen in petunias, The startling celestial blue-purple of the large showy flowers washes away to a pale inner 'eye' in the center of the blooms. They have dense foliage with masses of fragrant blooms from summer until frost and with the added pleasure of not having to deadhead or pinch. Easy to grow and extremely vigorous. Creates a fabulous free-flowering display in pots or baskets.

## Annual Flower/Foliage

### Petunia, Single Lime 'Sophistica Lime Green'

Light lime-yellow

10"-15" tall

Light, well-drained soil.

Full sun

SP-F

10"-12" wide

Bring a zing of lime to your garden this summer! The big, splashy yellow blooms have an underlying lime hue. It's a high-impact complement to dark purple, blue, and burgundy flowers. Upright habit.

### Petunia, Single Mix 'Total Madness'

Mix

10"-14" tall

Light, well-drained soil.

Full sun

SP-F

1'-2' wide

#### Prairie Star

A formula mix of 2½" to 3" solid color and bicolored flowers; Prairie Star Award Winner.

### Petunia, Single Pink/Salmon 'Espresso Frappe Rose'

Deep rose

12"-14" tall

Light, well-drained soil.

Full sun

SP-F

12"-14" wide

Showy flowers have extra frilly, ruffled edges. Deep rose flowers with darker throats, complemented by dark green foliage.

### Petunia, Single Pink/Salmon 'Espresso Frappe Ruby'

Ruby red

12"-14" tall

Light, well-drained soil.

Full sun

SP-F

12"-14" wide

Showy flowers have extra frilly, ruffled edges. Ruby red flowers with darker throats, complemented by dark green foliage.

### Petunia, Single Pink/Salmon 'Pretty Grand Rose'

Bright rose

6"-10" tall

Light, well-drained soil.

Full sun

SP-F

8"-12" wide

3 1/4" to 3 1/2" wide bright rose flowers. Well-branched, tidy plants are great in flower beds. The 'Pretty Grand' grandiflora petunias are similar to 'Supercascade' petunias.

### Petunia, Single Pink/Salmon 'Sophistica Twilight'

Mauve and green

10" to 15" tall

Light, well-drained soil.

Full sun

SP-F

10" to 12" wide

These premium petunias have wavy edged star shaped blooms with mauve tops with green undersides. This petunia provides one of a color for your borders, patio containers, or hanging baskets.

### Petunia, Single Pink/Salmon 'Summer Madness'

Salmon-red

10"-14" tall

Light, well-drained soil.

Full sun

SP-F

1'-2' wide

#### Prairie Star

Salmon-red flowers with deep rose veins; Prairie Star Award Winner.

### Petunia, Single Purple 'Orchid Daddy'

Light & dark orchid

15"-18" tall

Light, well-drained soil.

Full sun

SP-F

12"-15" wide

4" ruffled light orchid flowers with darker veins.

## Annual Flower/Foliage

### Petunia, Single Purple 'Pretty Grand Violet'

Violet

6"-10" tall

Light, well-drained soil.

Full sun

SP-F

8"-12" wide

3 1/4" to 3 1/2" wide, velvety violet flowers. Mid green foliage. Well-branched, tidy plants are great in flower beds. The 'Pretty Grand' grandiflora petunias are similar to 'Supercascade' petunias.

### Petunia, Single Purple 'Sugar Madness'

Light & dark orchid

10"-14" tall

Light, well-drained soil.

Full sun

SP-F

1'-2' wide

#### Prairie Star

Orchid flowers with darker veins; Prairie Star Award Winner.

### Petunia, Single Purple 'Supercascade Burgundy'

Burgundy

15"-18" tall

Light, well-drained soil.

Full sun

SP-F

12"-15" wide

3 1/2" to 5" burgundy flowers.

### Petunia, Single Red 'Pretty Grand Red'

Deep red

6"-10" tall

Light, well-drained soil.

Full sun

SP-F

8"-12" wide

3 1/4" to 3 1/2" wide deep red flowers with darker throats. Well-branched, tidy plants are great in flower beds. The 'Pretty Grand' grandiflora petunias are similar to 'Supercascade' petunias.

### Petunia, Single White 'Pretty Grand White'

Pure white

6"-10" tall

Light, well-drained soil.

Full sun

SP-F

8"-12" wide

3 1/4" to 3 1/2" wide pure white flowers with sunny yellow throats. Dark green foliage. Well-branched, tidy plants are great in flower beds. The 'Pretty Grand' grandiflora petunias are similar to 'Supercascade' petunias.

### Petunia, Single Yellow 'Paparazzi Glitz Yellow'

Yellow

10" to 15" tall

**NEW** Light, well-drained soil.

Full Sun

MSP to EF

10" to 15" wide

The simple way to flashy garden color! Large, yellow blooms with deep yellow veins make camera-ready pots and baskets. A little garden glamour goes a long way all season.

### Petunia, Single Yellow 'Yellow Madness'

Light & dark yellow

10"-14" tall

Light, well-drained soil.

Full sun

SP-F

1'-2' wide

#### Prairie Star

Light yellow flowers with darker yellow veins; Prairie Star Award Winner.

### Petunia, Spreading 'Easy Wave Berry Velour'

Coral-red

6"-12" tall

Light, well-drained soil.

Full sun

SP-F

30"-40" wide

#### Prairie Star

2 3/4" to 3" wide flowers of velvety coral-red. The flowers have a unique sheen that portrays a 3-D effect! Amazing color! Mounding, spreading habit. Prairie Star Award Winner.

## Annual Flower/Foliage

### Petunia, Spreading 'Easy Wave Blue'

Dark blue with some light blue shading 6"-8" tall

Light, well-drained soil.

Full sun

SP-F

30"-36" wide

#### Prairie Star

The earliest blue spreading petunia. Large, 2.5" flowers are dark blue with some light blue shading. Mounding, spreading habit. Prairie Star Award Winner by K-State.

### Petunia, Spreading 'Easy Wave Burgundy Star'

Burgundy and white 6"-12" tall

Light, well-drained soil.

Full sun

SP-F

30"-40" wide

#### Prairie Star

2 3/4" to 3" wide rich burgundy flowers with a wide white star pattern; some flowers may be more solid or more white in color. Mounding, spreading habit. Prairie Star Award Winner by K-State.

### Petunia, Spreading 'Easy Wave Burgundy Velour'

Burgundy-magenta 6"-12" tall

Light, well-drained soil.

Full sun

SP-F

30"-40" wide

#### Prairie Star

2 3/4" to 3" wide flowers of rich, velvety burgundy-magenta with darker veins radiating from the dark throats. The flowers have a unique sheen that portrays a 3-D effect! Mounding, spreading habit. Prairie Star Award Winner.

### Petunia, Spreading 'Easy Wave Coral Reef'

Deep coral and white 8"-10" tall

Light, well-drained soil.

Full sun

SP-F

2' wide

#### Prairie Star

2 3/4" to 3" blooms are deep coral with white throat. Mounding, spreading habit. Prairie Star Award Winner!

### Petunia, Spreading 'Easy Wave Formula Mix'

Mix 8"-10" tall

Light, well-drained soil.

Full sun

SP-F

30"-36" wide

#### Prairie Star

This mix includes all the colors in the 'Easy Wave' series! Mounding, spreading habit. Prairie Star Award Winner by K-State.

### Petunia, Spreading 'Easy Wave Neon Rose'

Vivid hot rose-pink 6"-12" tall

Light, well-drained soil.

Full sun

SP-F

30"-39" wide

#### Prairie Star

2 3/4" to 3" vivid hot rose-pink flowers hold their bright color in high light and heat. Mounding, spreading habit. Prairie Star Award Winner.

### Petunia, Spreading 'Easy Wave Pink Passion'

Rose-pink 6"-12" tall

Light, well-drained soil.

Full sun

SP-F

30"-40" wide

#### Prairie Star

2 3/4" to 3" wide flowers of bright pastel rose-pink with bright rose-red veining and throats. Amazing color! Mounding, spreading habit. Prairie Star Award Winner.

## Annual Flower/Foliage

### Petunia, Spreading 'Easy Wave Plum Vein'

Lavender and plum-violet

6"-12" tall

Light, well-drained soil.

Full sun

SP-F

30"-40" wide

#### Prairie Star

The 2 3/4" to 3" wide lavender flowers have plum-violet veining; the veining is less prominent at the petal edges. It has a slightly more upright habit than the other 'Easy Wave' varieties, though it is still mounding and spreading. Prairie Star Award Winner by K-State.

### Petunia, Spreading 'Easy Wave Red'

Dark to soft red

8"-10" tall

Light, well-drained soil.

Full sun

SP-F

#### Prairie Star

2" flowers open dark red, and then lighten to soft red as they mature. Mounding, spreading habit. Prairie Star Award Winner by K-State.

### Petunia, Spreading 'Easy Wave Red Velour'

Dark red

6"-12" tall

Light, well-drained soil.

Full sun

SP-F

30"-40" wide

#### Prairie Star

2 3/4" to 3" wide flowers of velvety dark red. Breath takingly rich color! The flowers have a unique sheen that portrays a 3-D effect! Mounding, spreading habit. Prairie Star Award Winner.

### Petunia, Spreading 'Easy Wave Silver'

Pale blue to silvery white

6"-12" tall

Light, well-drained soil.

Full sun

SP-F

30"-40" wide

#### Prairie Star

An exciting color for the 'Easy Waves', and it's going to make your baskets and planters gleam! 'Silver' offers all the vigor and nonstop flowering of the other 'Easy Waves', with the addition of a more mounding, full, butter-branching habit. Wide open, 2" wide blooms of luminous pale blue to silvery white, quite long-lasting and resistant to fading. The flowers arise by the hundred over a long season. Prairie Star Award Winner.

### Petunia, Spreading 'Easy Wave Starfish Mixture' ('EW Burgundy Star' & 'EW White Imp.')

Burgundy and white

6"-12" tall

Light, well-drained soil.

Full sun

SP-F

30"-40" wide

#### Prairie Star

A mix of 'Easy Wave Burgundy Star' and 'Easy Wave White Improved'. Prairie Star Award Winner.

### Petunia, Spreading 'Easy Wave The Flag Mixture' ('EW Blue', 'EW Red', & 'EW White Imp.')

Red, White, and Blue-purple

6"-12" tall

Light, well-drained soil.

Full sun

SP-F

30"-40" wide

#### Prairie Star

A mix of 'Easy Wave Blue', 'Easy Wave Red', and 'Easy Wave White Improved'. Prairie Star Award Winner by K-State.

### Petunia, Spreading 'Easy Wave Violet'

Rich, deep violet

6"-12" tall

Light, well-drained soil.

Full sun

SP-F

30"-40" wide

#### Prairie Star

Large, 2 3/4" to 3" wide blooms are a striking rich, deep violet. It has a slightly more upright habit than the other 'Easy Wave' varieties, although it is still mounding and spreading. Prairie Star Award Winner.

## Annual Flower/Foliage

### Petunia, Spreading 'Easy Wave White Improved'

Pure white

8"-12" tall

Light, well-drained soil.

Full sun

SP-F

30"-40" wide

#### Prairie Star

2 1/4" pure white flowers. Mounding, spreading habit. Prairie Star Award Winner by K-State.

### Petunia, Spreading 'Easy Wave Yellow'

Yellow

6"-12" tall

Light, well-drained soil.

Full sun

SP-F

30"-40" wide (space 10"-15" apart)

#### Prairie Star

Large, 2.5" flowers are creamy yellow with saturated, bright yellow throats and bright yellow veining radiating out from the throat! Beautiful!

### Petunia, Spreading 'Evening Scentsation'

Blue

5" to 8" tall

**NEW** Light, well-drained soil.

Full Sun

MSP to EF

30" to 35" wide

This is the first petunia to receive an ASS award for its lovely fragrance and stunning color. This is " One of the best blue petunias I have seen, nice mounding and spreading habit. Excellent fragrance too!" wrote one judge. It's fragrance has notes of hyacinth, sweet honey and rose. As the name implies, the scent is stronger on the evening hours, though it can be experienced throughout the day as well. It is a medium-sized multiflora type, and will work well in containers, hanging baskets and in mass.

### Petunia, Spreading 'Shock Wave Deep Purple'

Deep purple shades

7"-14" tall

Light, well-drained soil.

Full sun

SP-F

2'-3' wide

#### Prairie Star

This 'Shock Wave' will send ripples of conversation through your landscape! Petite, 1 1/2" to 2" wide flowers in vibrant deep purple shades with alluring dark eyes!

### Petunia, Spreading 'Shock Wave Denim'

Dark blue to silver

7"-14" tall

Light, well-drained soil.

Full sun

SP-F

2'-3' wide

#### Prairie Star

The 1 3/4" wide flowers are dark blue-purple in cool temperatures and low light conditions. Flowers change to blue-lavender-silver in high light and hot conditions. Very well-branched, mounding and spreading plants. The flowers recover well after a rain. Prairie Star Award Winner by K-State.

### Petunia, Spreading 'Shock Wave Red'

Pure velvety red

7"-14" tall

Light, well-drained soil.

Full sun

SP-F

2'-3' wide

#### Prairie Star

1 3/4" to 2" wide, pure velvety red flowers. Holds its flower color well all season. The flowers blanket very well-branched, mounded and spreading plants. The flowers recover well after a rain.

### Petunia, Spreading 'Shock Wave Yellow'

Yellow

7"-14" tall

Light, well-drained soil.

Full sun

SP-F

2'-3' wide

#### Prairie Star

Numerous 1 1/2" to 2" wide yellow blooms, with darker yellow veining, and lighter yellow on the rims, cover the mounding plants. The flowers blanket very well-branched, mounded and spreading plants. The flowers are self-cleaning, and recover well after a rain.

## Annual Flower/Foliage

### Petunia, Spreading 'Tidal Wave Red Velour'

Deep red

2' tall

Light, well-drained soil.

Full sun

SP-F

1'-2' wide

#### Prairie Star

Fabulous and stunning color on a Wave petunia! Gorgeous deep red velvety blooms that don't fade even in the heat of summer. Large, 2" to 2 1/2" wide flowers literally cover the vigorously spreading plants that rarely need deadheading because new blooms continuously pop up and cover the old, spent blooms. A perfect solution for the time-crunched gardener or anyone looking for petunias that are carefree. 'Tidal Wave' petunias are the tallest of the Wave family and bloom over and over all season long and recover quickly, even after hard rains. 'Tidal Wave' is an excellent landscape performer, covering a large area quickly and beautifully. Plant 1' apart for taller plants and a more hedge-like habit, or 2' apart for more of a spreading habit.

### Petunia, Spreading 'Trilogy Scarlet'

Scarlet-red

10"-24" tall

**NEW** Light, well-drained soil.

Full sun

SP-F

20"-25" wide

Stunningly rich, scarlet-red flowers! 'Trilogy' petunias are known for their compact, dome-shaped habit sporting large, non-fading blooms throughout the season. The plants cover and recover themselves in upright blooms, providing a constant mass of color in flower beds and large baskets and containers. Great heat-tolerance and bounces back well after a rain!

### Petunia, Spreading 'Wave Misty Lilac'

Light lavender

8"-12" tall

Light, well-drained soil.

Full sun

SP-F

3' wide

#### Prairie Star

3" wide light lavender blooms fade to pale lavender or white. Blooms all summer atop low, spreading plants. Prairie Star Award Winner by K-State.

### Petunia, Spreading 'Wave Purple Improved'

Vibrant purple-magenta

5"-7" tall

Light, well-drained soil.

Full sun

SP-F

3'-4' wide

'Wave' Petunias celebrate their 15th birthday with the release of 'Wave Purple Improved'! It offers the same great flat habit, garden performance, and vibrant purple-magenta flower color, but flowers faster and earlier than the original, with larger blooms, and quicker garden fill, even in cooler and wetter conditions. It blooms 12 to 14 days earlier than 'Wave Purple Classic' (which is what the original purple has been renamed), and its larger bloom size with flowering in the plant center gives it a fuller look. 2" to 3" wide magenta-purple flowers with a dark throat. Blooms all summer atop low, spreading plants. Prairie Star Award Winner by K-State.

### Petunia, Super 'Amore Queen of Hearts'

Light yellow and raspberry

10" tall

Light, well-drained soil.

Full sun

SP-F

10" to 12" wide

This petunia features a semi-trailing growth habit and large, 2 1/2" colorful flowers decorated with contrasting striped--- a creamy light yellow and raspberry red, in a unique heart shaped pattern. The flower colors are very stable, It blooms from early spring until late autumn and performs well in pots, baskets and mixed containers--- also in mass planting. Fertilize weekly with Nature's Source Fertilizer.

### Petunia, Super 'Black Magic'

Black

8"-16" tall

Light, well-drained soil.

Full sun

LSP-F

8"-10" wide

Stunning, deep black color! This velvety black Petunia is said to revert less, keeping its deep midnight coloration throughout a long season of bloom. With its mounding habit (like Petunia 'Pinstripe'), it brings high drama and bold contrast to container plantings and beds.

### Petunia, Super 'Cascadias Indian Summer'

Yellow to orange to pink shades

6"-18" tall

Light, well-drained soil.

Full sun

LSP-F

16"-24" wide

Large, lightly ruffled, velvety blossoms are a mixture of summer colors, ranging from yellow to orange to pink shades, and even terracotta. Early flowering, continuing all summer long, with a semi-trailing habit. Excellent in hanging baskets or containers.

### Petunia, Super 'Cascadias Rim Magenta'

Dark magenta-purple and cream

10"-16" tall

**NEW** Light, well-drained soil.

Full sun

SP-F

16"-20" wide

A knock out bicolor- dark magenta-purple blooms sport wide cream edges! Makes a pretty cascading splash in the border, basket, or container. Flowers prolifically atop vigorous, mounding plants.

## Annual Flower/Foliage

### Petunia, Super 'Cha-Ching Cherry'

Cherry red and creamy yellow

10"-16" tall

Light, well-drained soil.

Full sun

LSP-F

16"-20" wide

Get a thrill looking at this marvel's ravishing cherry red blooms with their amazing creamy yellow star pattern! Blazing, boldly colored blooms on spreading/mounding plants with lush green foliage create a luminous spectacle in the border or cascading from a container. Mingles happily with other colors!

### Petunia, Super 'Headliner Pink Sky'

Pink with White polka-dots

10" to 16" tall

**NEW** Light, well-drained soil.

Full Sun

MSP to EF

24" wide

This hot pink petunia has white polka-dots all over the petals, it looks someone splashed paint on it! The white spots will change in intensity depending on the temperature throughout the summer. Creates a constantly shifting, starry display of color! The gently cascading stems are perfect for filling baskets, window boxes and containers with long lasting summer color.

### Petunia, Super 'Night Sky'

Violet and white

10"-16" tall

Light, well-drained soil.

Full sun

LSP-F

16"-28" wide

This petunia boldly goes where not petunia has gone before... light years from usual! Make a wish upon a star: this might be the most distinctive bloom you've ever seen on this planet! Very eye-catching- the white spots on the dark violet flowers remind one of an ever-changing star constellation in the night sky. You'll get lost gazing at the myriad of patterns- each flower is totally unique. The splendid blooms shine in baskets and mixed containers, or when planted alone. Mounded/trailing habit.

### Petunia, Super 'Sun Spun Coral'

Coral

6" to 10" tall

Light, well-drained soil.

Full sun

LSP-F

12" to 18" wide

Blossoms into a lush, flower-filled plant that puts on a high-impact show all season with very little attention--- except to fertilize weekly with Nature's Source Fertilizer, Compact and bushy, this petunia is great for baskets, pots or borders.

### Petunia, Super 'Supertunia Black Cherry'

Burgundy and black

8"-12" tall

Light, well-drained soil.

Full sun

SP-F

18"-24" wide

#### Prairie Star

Unique burgundy flowers have black throats. Combination possibilities are endless with this one- keep it on the dark side with the unique leaves of Sweet Potato Vine 'Sweet Caroline Bewitched' or brighten it up with a sprinkling of golden blooms, such as Mecardonia. Has a slightly more upright habit than other Supertunias. Great heat and humidity tolerance.

### Petunia, Super 'Supertunia Bordeaux'

Soft pink with deep plum veins

5"-7" tall

Light, well-drained soil.

Full sun

SP-F

16"-24" wide

#### Prairie Star

Attracts butterflies

Attracts hummingbirds

Unique soft pink flowers feature deep plum venation. The fragrant flowers are a hummingbird and butterfly haven.

### Petunia, Super 'Supertunia Daybreak Charm'

Yellow and pink

8" to 12" tall

Light, well-drained soil.

Full sun

SP-F

12" to 18" wide

Small to medium size flowers are abundant on a really densely branched plant from spring until frost in the fall, it is great in both landscapes hanging baskets and containers, It produces loads of vibrant watermelon pink flowers with a sunshine yellow throat on densely branched plants all summer long without deadheading--- just remember to fertilize weekly with Nature's Source Fertilizer, Pair it with Superbells Yellow in a cheerful hanging basket or plant it on its own in your sunny landscape.

## Annual Flower/Foliage

### Petunia, Super 'Supertunia Lovie Dovie'

White with Hot Pink star shaped veining

6" to 12" tall

**NEW** Light, well-drained soil.

Full Sun

MSP to EF

12" to 18" wide

The stunning bicolor blooms feature white flowers with hot pink star shaped veining. The flowers of Lovie Dovie are smaller than most Supertunias but larger than the Charm series. Supertunias bloom continuously without the need for deadheading. A perfect choice for hanging baskets, containers or window boxes, hanging baskets, and containers. The Supertunia family of petunia are self cleaning. What that means is that you do not need to pick at them to keep them looking beautiful all summer.

### Petunia, Super 'Supertunia Pink Star Charm'

Pink with white

8" to 12" tall

Light, well-drained soil.

Full sun

SP-F

#### Prairie Star (new 2017)

It has charming candy cane stripes flowers that will add a striking mass of color to your garden, the bright pink and white stripes make for a great bi color combination---mix it with Pennisetum rubrum 'Red Riding Hood for breathtaking combination, performs great in baskets, containers, and in the landscape. It forms a nice mound of season long color, Fertilize weekly with Nature's Source Fertilizer for best results, The Supertunia family of petunias are self-cleaning, which means is that you do not need to pick at them to keep them looking beautiful all summer.

### Petunia, Super 'Supertunia Pretty Much Picasso'

Purple and green

8"-12" tall

Light, well-drained soil.

Full sun

SP-F

20"-30" wide

#### Prairie Star

Distinctive 1" to 1 1/2" wide violet-purple flowers are accented with a deeper violet throat and an irregular chartreuse picotee edge! This eye-catcher will make a huge impact everywhere. Best in combination planters. Very vigorous plants that trail up to 3' long!

### Petunia, Super 'Supertunia Priscilla'

Lavender and dark purple

6"-10" tall

Light, well-drained soil.

Full sun

SP-F

1' wide

Fragrant, semi-double lavender flowers with dark purple vines. Provides long-lasting color in sunny locations and is great for windowboxes and hanging baskets. Trails vigorously to 3'!

### Petunia, Super 'Supertunia Royal Velvet'

Violet

5"-8" tall

Light, well-drained soil.

Full sun

SP-F

18"-30" wide

#### Prairie Star

Electric violet flowers on trailing foliage; early bloomer; excellent for hanging baskets and containers. Prairie Star Award Winner!

### Petunia, Super 'Supertunia Sangria Charm'

Dark pink

6" to 12" tall

Light, well-drained soil.

Full sun

SP-F

12" to 18" wide

These petunias are mounded but will also spill over the edges of containers, they are great container plants and will function as both spillers and fillers in combination planters, They are incredibly good landscape plants, best used at the front of beds, They are very densely branched plants, they have small to very small flowers, similar in size to a large Superbells Calibrachoa flower, They are a great substitute for Calibrachoa in landscapes without excellent drainage.

### Petunia, Super 'Supertunia Violet Star Charm'

Bright purple and white

8"-12" tall

Light, well-drained soil.

Full sun

LSP-F

12"-18" wide

#### Prairie Star

This charming bicolor striped flower will add a striking mass of color to your landscape! The bright purple and white stripes make for a great color combination! The 'Charm' series have small flowers, similar in size to a large Calibrachoa flower. With its small flower size, it is a great substitute for Calibrachoa in harder to grow areas. The 'Charm' series produce a dense mound of color that will spill over in hanging baskets and containers.

## Annual Flower/Foliage

### Petunia, Super 'Supertunia Vista Bubblegum'

Shimmering pink with darker veins

16"-20" tall

Light, well-drained soil.

Full sun

SP-F

2'-3' wide

#### Prairie Star

Vigorous spreading/mounding habit that is much larger than most other 'Supertunias', making it ideal for flower beds, borders, and very large containers. Large, slightly ruffled-edged flowers are a wonderful shimmering pink color, described as 'bubblicious pink'. Great tolerance to wind, rain, heat, and humidity. Prairie Star Award Winner!

### Petunia, Super 'Supertunia Vista Silverberry'

White and light pink

16"-20" tall

Light, well-drained soil.

Full sun

SP-F

2'-3' wide

#### Prairie Star

Vigorous spreading/mounding habit that is much larger than most other 'Supertunias', making it ideal for flower beds, borders, and very large containers. Large, slightly ruffled-edged flowers are white with light pink veining and throats.

### Petunia, Super 'Supertunia White Improved'

Pure white and yellow

5"-10" tall

Light, well-drained soil.

Full sun

SP-F

2'-3' wide

#### Prairie Star

Dark green trailing foliage is topped by large, pure white flowers with a faint yellow throat! Classic!

### Petunia, Super 'Surfinia Deep Red'

Deep red

6" tall ,1' wide

Light, well-drained soil.

Full sun

SP-F

1' wide

3" wide, deep red blooms. Plants have a nice, full habit, and can trail to 18".

### Petunia, Super 'Surfinia Moonlight Eclipse'

Deep blue-violet with a light green picotee edge

12"-14" tall

Light, well-drained soil.

Full sun

SP-F

13"-15" wide

A unique twist on a funky color combination! Deep blue-violet flowers have a striking light green edge! Early to flower on mounding plants.

### Phlox 'Intensia Blueberry'

Blue-purple

10"-12" tall

Moist, well-drained soil.

Part to full sun

SP-F

8"-12" wide

Tons of 1" wide blue-purple blossoms. Has a larger leaf size and more upright habit than other varieties in the 'Intensia' series. Very heat tolerant plants, though they do well in cool weather, too (but do not like early spring cold temperatures). The flower color is a beautiful saturated blue-purple in cooler temperatures, becoming a light blue purple with a dark blue-purple star-shaped eye in hot weather. Their excellent mounded habit is excellent for containers. K-State's research has shown that the 'Intensia' series of Phlox does best in containers in our climate (as opposed to being planted in flowerbeds).

### Phlox 'Intensia Red Hot'

Red

10" to 12" tall

**NEW** Moist, well-drained soil.

Full Sun

MSP to EF

10" to 12" wide

Attracts butterflies

Attracts hummingbirds

Radiant, red florets add a dazzling pop of color! Floriferous beauties stay vibrant through heat and humidity. With their full, radiant, red florets, these 3" blossoms add a dazzling pop of color to your flowerbed or container garden. Robust and drought-tolerant, these hardy annuals are so easy to maintain - no deadheading required. The mounding habit of Intensia Red Hot Phlox looks great in hanging baskets, planter as well as in ground plantings. Intensia Red Hot is long blooming and requires no deadheading (not true of all phlox). Be on the lookout for hummingbirds and butterflies as they flirt around in your garden.

## Annual Flower/Foliage

### Phlox 'Intensia White'

**NEW** Moist, well-drained soil.

Full Sun

White

MSP to EF

8"-12" tall

12"-16" wide

Great with any color combination, 'Intensia White' Phlox puts on a show. The bright white blooms flower from early summer until the frost with little maintenance. It is a great filler for containers and hanging baskets alike. Planted in full sun, 'Intensia White' prefers to be in good areas that have good drainage. This drought tolerant variety forms a mounding habit when planted in the ground. Enjoy the flutter of butterflies as they take in the sweet nectar.

### Phormium 'Pink Stripe' / 'Candy Stripe'

New Zealand Flax

Insignificant

2'-3' tall

Rich, moist, yet very well-drained soil.

Part to full sun

2'-3' wide

Deer resistant

Deep bronze-green leaves are striped with hot pink along the edges; the overall effect is a beautiful, dusky mauve. The leaves are stiff and upright when young, developing a slight droop to the leaf tips with age. Adds a great tropical flair to the garden or summer containers!

### Phygelius capensis

Cape Fuchsia, River Bells, Wild Fuchsia

Orange-red

36"-40" tall

Moist, well-drained soil.

Full sun

MSU-EF

18"-23" wide

Bushy, upright mounds of green foliage bears showy clusters of fuchsia-like, firecracker flowers, beginning in mid summer and continuing into the fall. Hummingbirds love the nectar found in the brilliant orange-red blooms! Adapts well to large containers. Can be overwintered indoors (hardy to zone 6 with protection).

### Plectranthus 'Mint Swedish Ivy'

Variegated Mint Swedish Ivy; Tropical Mint

6"-18" tall

Well-drained soil.

Full sun to Full shade

12"-18" wide

*P. madagascariensis* 'Variegata'; Variegated Mintleaf; Fragrant green leaves are scalloped and edged in white; trailing habit is great for hanging baskets and containers; syn. *P. coleoides* 'Variegata'.

### Plectranthus 'Mona Lavender'

Tropical Mint

Intense lavender

12"-16" tall

Well-drained soil.

Sun to Shade

SP & F

1' wide

Loose spikes of intense flowers appear during short days (spring and fall) on contrasting dark stems. Succulent-like glossy dark green foliage is burgundy underneath. Can reach large proportions if you give it lots of room. Excellent for combination plantings.

### Plumbago auriculata 'Imperial Blue'

Cape Plumbago

Light blue

18"-36" tall

Rich, well-drained soil.

Part to Full sun

SU-F

18"-24" wide

Light blue flowers 1½" across; wonderful for tropical containers!

### Portulaca (Rose Moss) 'Happy Trails Deep Red'

Deep red-coral

6"-9" tall

Hot, dry soil.

Full sun

SP-F

14"-18" wide

#### Prairie Star

Uniform, large, semi-double 1 1/2" to 2 1/4" wide, very deep red flowers, on well-branched plants with a fantastic spreading habit. Has a unique cascading habit, making it excellent for baskets and containers.

### Portulaca (Rose Moss) 'Happy Trails Fuchsia'

Vibrant rosy fuchsia

6"-9" tall

Hot, dry soil.

Full sun

SP-F

14"-18" wide

#### Prairie Star

Uniform, large, semi-double 1 1/2" to 2 1/4" wide, vibrant rosy fuchsia flowers, on well-branched plants with a fantastic spreading habit. Has a unique cascading habit, making it excellent for baskets and containers.

## Annual Flower/Foliage

### Portulaca (Rose Moss) 'Happy Trails Mix'

Mix

6"-9" tall

Hot, dry soil.

Full sun

SP-F

14"-18" wide

#### Prairie Star

Uniform, large, semi-double 1 1/2" to 2 1/4" wide flowers in a mix of colors, on well-branched plants with a fantastic spreading habit. Has a unique cascading habit, making it excellent for baskets and containers.

### Portulaca (Rose Moss) 'Happy Trails Orange'

Luscious peachy orange

6"-9" tall

Hot, dry soil.

Full sun

SP-F

14"-18" wide

#### Prairie Star

Uniform, large, semi-double 1 1/2" to 2 1/4" wide, luscious peachy orange flowers, on well-branched plants with a fantastic spreading habit. Has a unique cascading habit, making it excellent for baskets and containers.

### Portulaca (Rose Moss) 'Happy Trails Peppermint'

Pink and fuchsia

6"-9" tall

Hot, dry soil.

Full sun

SP-F

14"-18" wide

#### Prairie Star

Uniform, large, semi-double 1 1/2" to 2 1/4" wide pink flowers with fuchsia stripes and speckles, on well-branched plants with a fantastic spreading habit. Has a unique cascading habit, making it excellent for baskets and containers.

### Portulaca (Rose Moss) 'Happy Trails Pink'

Pink

6"-9" tall

Hot, dry soil.

Full sun

SP-F

14"-18" wide

#### Prairie Star

Uniform, large, semi-double 1 1/2" to 2 1/4" wide pink flowers, on well-branched plants with a fantastic spreading habit. Has a unique cascading habit, making it excellent for baskets and containers.

### Portulaca (Rose Moss) 'Happy Trails Tropical Mixture'

Deep red, orange, and yellow

6"-9" tall

Hot, dry soil.

Full sun

SP-F

14"-18" wide

#### Prairie Star

Uniform, large, semi-double 1 1/2" to 2 1/4" wide flowers, on well-branched plants with a fantastic spreading habit. A mix of Deep Red (deep red-coral), Orange (peachy orange), and Yellow (bright yellow). Has a unique cascading habit, making it excellent for baskets and containers.

### Portulaca (Rose Moss) 'Happy Trails White'

Pure white

6"-9" tall

Hot, dry soil.

Full sun

SP-F

14"-18" wide

#### Prairie Star

Uniform, large, semi-double 1 1/2" to 2 1/4" wide pure white flowers, on well-branched plants with a fantastic spreading habit. Has a unique cascading habit, making it excellent for baskets and containers.

### Portulaca (Rose Moss) 'Happy Trails Yellow'

Bright yellow

6"-9" tall

Hot, dry soil.

Full sun

SP-F

14"-18" wide

#### Prairie Star

Uniform, large, semi-double 1 1/2" to 2 1/4" wide bright yellow flowers, on well-branched plants with a fantastic spreading habit. The bright yellow petals have touches of orange towards the center of the bloom. Has a unique cascading habit, making it excellent for baskets and containers.

## Annual Flower/Foliage

### Portulaca 'Colorblast Double Cherry' (Double Scarlet)

Purslane

Scarlet to cherry

6" to 10" tall

Hot, dry soil.

Full sun

SP-F

12" to 16" wide

Portulaca ColorBlast Series sets a new standard for drought-tolerant color. From the vivaciously colored single mixes to the explosive fully doubles, to the industry changing stripes, the ColorBlast line is bringing a lot of excitement to garden beds and borders for low-maintenance summertime color. We can't get enough of this stunning, red double bloom. Flowers opened significantly earlier in the day compared to others in the trial, and they stayed wide open much later than most portulacas. Flowers were more scarlet than cherry colored but were still very showy with a double center. Plants were floriferous and very vigorous with a spreading growth habit.

### Portulaca 'Colorblast Double Magenta'

Purslane

Bright magenta

6" to 10" tall

Hot, dry soil.

Full sun

SP-F

12" to 16" wide

We were impressed and wowed with these large doubled flowers that do not close in cloudy or dark weather. Fully double, bright magenta blossoms have a fluffy appearance over fleshy, semi-trailing foliage. Drought tolerant color for mixing containers and hanging baskets.

### Portulaca 'Colorblast Double Mandarin' (Double Orange)

Purslane

Pumpkin orange

6" to 10" tall

Hot, dry soil.

Full sun

SP-F

12" to 16" wide

We were impressed and wowed with these large doubled flowers that do not close in cloudy or dark weather. Fully double, bright pumpkin orange blossoms have a fluffy appearance over fleshy, semi-trailing foliage. Drought tolerant color for mixing containers and hanging baskets.

### Portulaca 'Colorblast Double Yellow'

Purslane

Bright, deep yellow

6" to 10" tall

Hot, dry soil.

Full sun

SP-F

12" to 16" wide

We were impressed and wowed with these large doubled flowers that do not close in cloudy or dark weather. Fully double, bright, deep yellow blossoms have a fluffy appearance over fleshy, semi-trailing foliage. Drought tolerant color for mixing containers and hanging baskets.

### Portulaca 'Colorblast Lemon Twist'

Purslane

Yellow and white

6" to 10" tall

Hot, dry soil.

Full sun

SP-F

12" to 16" wide

We were impressed and wowed with these large, uniquely colored flowers. Single deep yellow blossoms have a clean white picotee edge. Blossoms appear atop fleshy, semi-trailing foliage. Drought tolerant color for mixing containers and hanging baskets.

### Portulaca 'Colorblast Mango Mojito'

Purslane

Orange and yellow

6" to 10" tall

Hot, dry soil.

Full sun

SP-F

12" to 16" wide

We were impressed and wowed with these large, uniquely colored flowers. Single blooms have deep orange petals, each widely brushed with a primrose edge. Blossoms appear atop fleshy, semi-trailing foliage. Drought tolerant color for mixing containers and hanging baskets.

### Portulaca 'Colorblast Watermelon Punch'

Purslane

Magenta and lemon

6" to 10" tall

Hot, dry soil.

Full sun

SP-F

12" to 16" wide

We were impressed and wowed with these large, uniquely colored flowers. Single blooms are bicolored in magenta and lemon. Blossoms appear atop fleshy, semi-trailing foliage. Drought tolerant color for mixing containers and hanging baskets.

### Portulaca 'Cupcake Grape Jelly'

Purslane

Hot purplish pink

6"-11" tall

Hot, dry soil.

Full sun

LSP-F

16"-30" wide

Performed beautifully at trial sites around North America the summer of 2013. It loved the tough, hot conditions, showing large, gorgeous, intense vivid, hot purplish pink flowers in abundance. Has a nice trailing habit, excellent in landscapes and baskets!

## Annual Flower/Foliage

<b>Portulaca 'Giant Bicolor Radiance' (syn. 'Samba Bicolor')</b>	Purslane	White & fuchsia	1"-4" tall
Hot, dry soil.	Full sun	SP-F	12"-15" wide

Huge two-tone flowers are white and vivid fuchsia-pink.

<b>Portulaca 'Pazazz Pink Glow'</b>	Purslane	Vivid pink & yellow	6"-11" tall
Hot, dry soil.	Full sun	SP-F	18"-28" wide

### Prairie Star

Vibrant, intensely colored flowers are pink with bright yellow centers. Compact, "non-stringy", well-behaved plants are covered with flowers. Drought and heat loving, grow in full sun with frugal amounts of water. The 'Pazazz' series features flowers that are more apt to open on cloudy days than other varieties. Prairie Star Award Winner!

<b>Portulaca 'RioGrande Scarlet'</b>	Purslane	Rich scarlet	1"-2" tall
Hot, dry soil.	Full sun	SP-F	12"-18" wide

Low-growing, well-branched plants have a creeping habit. Large, single rich scarlet silky flowers, up to 2" wide, with yellow stamens.

<b>Ptilotus exaltatus 'Joey'</b>		Silver to neon pink	12"-18" tall
Well-drained soil.	Part to full sun	SU	12"-14" wide

An all-new plant debuts and it's a real eye-catcher! Heat and drought-tolerant plants produce luminous, silver-green foliage topped by large, conical spikes of feathery flowers. Each long-lasting 2" to 3" long bottlebrush bloom starts out silver and matures to neon pink near the tips. Blooms all summer long! The compact, uniform plants are well-suited to gardens and mixed containers.

<b>Ricinus 'Carmencita Bright Red'</b>	Castor Bean	Bright red	4'-6' tall
Rich, moist, well-drained soil.	Full sun	LSU	2' wide

Large deep maroon leaves; bright red flower buds and seed pods; seeds and parts of the plant are poisonous!

<b>Rudbeckia hirta 'Tiger Eye'</b>	Black Eyed Susan	Orange-gold	16" to 24" tall
Well-drained soil.	Full sun	ESU-LSU	16" to 24" wide

The gold standard in annual Rudbeckias, "Tiger Eye" is an F1 Hybrid Rudbeckia. Its hybrid nature results in plants that display superior uniformity- a new achievement for annual Rudbeckias-- and strong growth in the landscape. Large 4", semi- double, flowers measured up to 4 inches across are glowing orange-gold with a brown button center and they are produced all season long.

<b>Ruellia 'Southern Star Blue'</b>	Wild Petunia; Texas Petunia; Water Blue Bell; Mexican Petunia; False Petunia	Lavender-blue	10"-12" tall
Wet to dry soil.	Full sun	SU-F	16"-18" wide

Very adaptable and low maintenance. Tolerates wet or dry soil conditions. Petunia-like lavender-blue flowers.

<b>Salvia coccinea 'Hummingbird Forest Fire'</b>	Hummingbird Sage, Scarlet Sage, Texas Hummingbird Sage	Fiery red	1' tall
Moist, well-drained soil.	Full sun	SP-F	12"-18" wide

A stunning combination of fiery red flowers against black calyces; the heat and drought-tolerant plants are earlier to bloom, slightly shorter, and more free-branching than similar varieties.

## Annual Flower/Foliage

<b>Salvia coccinea 'Summer Jewel Pink'</b>	Hummingbird Sage, Scarlet Sage, Texas Hummingbird Sage	Light pink	16"-20" tall
Moist, well-drained soil.	Full sun	LSP-F	12"-16" wide

Early to flower with generous spikes of 1/2" wide light pink, trumpet-shaped blooms! Blooms all summer long above compact, tidy plants with dark green foliage. The plants hold up well in wind and rain. Hummingbirds love pink, just as much as they do red! Hummingbirds love the flowers and gold finches swarm the plants for the seeds! AAS Winner!

<b>Salvia coccinea 'Summer Jewel Pink'</b>	Hummingbird Sage, Scarlet Sage, Texas Hummingbird Sage	Light pink	16"-20" tall
Moist, well-drained soil.	Full sun	LSP-F	12"-16" wide

Early to flower with generous spikes of 1/2" wide light pink, trumpet-shaped blooms! Blooms all summer long above compact, tidy plants with dark green foliage. The plants hold up well in wind and rain. Hummingbirds love pink, just as much as they do red! Hummingbirds love the flowers and gold finches swarm the plants for the seeds! AAS Winner!

<b>Salvia coccinea 'Summer Jewel Red'</b>	Hummingbird Sage, Scarlet Sage, Texas Hummingbird Sage	Bright red	16"-20" tall
Moist, well-drained soil.	Full sun	LSP-F	12"-16" wide

### Prairie Star

Early to flower with generous spikes of 1/2" wide bright red, trumpet-shaped blooms! Blooms all summer long above compact, tidy plants with dark green foliage. The plants hold up well in wind and rain. Hummingbirds love the flowers and gold finches swarm the plants for the seeds! AAS Winner!

<b>Salvia coccinea 'Summer Jewel Red'</b>	Hummingbird Sage, Scarlet Sage, Texas Hummingbird Sage	Bright red	16"-20" tall
Moist, well-drained soil.	Full sun	LSP-F	12"-16" wide

## Annual Flower/Foliage

<b>Salvia farinacea 'Evolution'</b>	Mealy-Cup Sage	Deep violet	16"-22" tall
Moist, well-drained soil.	Full sun	SP-F	15"-20" wide

### Prairie Star

Arguably the best *Salvia farinacea* yet, with better branching and more blooms than other varieties. Dense, 6" to 7" long spikes are a novel deep violet color that shows up surprisingly well against the dark green foliage. Adapts well to containers, beds, and mass plantings. Blooms from spring to frost. AAS Winner. Prairie Star Award Winner.

<b>Salvia farinacea 'Midnight Candle'</b>	Mealy-Cup Sage	Dark blue-purple	12"-18" tall
Moist, well-drained soil.	Part to full sun	SP-F	12"-18" wide

Densely branched plants with thick spires of dark blue-purple flowers on dark stems. An undemanding and robust summer flower that feels most comfortable in sunny locations, but will tolerate part sun. Great for flower beds and containers!

<b>Salvia greggii 'Mirage Hot Pink'</b>	Autumn Sage, Texas Sage.	Hot pink	12" to 14" tall
Light, rich, moist, well-drained soil.	Full sun	LSP-F	14" to 16" wide

A new variety of heat tolerant salvias, this boldly colored salvia will bloom spring through fall. Ideal for landscapes and containers. Hot pink flowers with dark calyxes and stems are delightful in a mass planting or weaving through other varieties.

<b>Salvia leucantha 'Midnight' ('Purple'; 'All Purple')</b>	Mexican Bush Sage	Deep violet	2'-4' tall
Light, rich, moist, well-drained soil.	Full sun	LSU-EF	2'-3' wide

The velvety, deep violet flowers are much darker than those typically seen on the species. Its tall, arching, wide-spreading woolly white stems are lined with small, linear, gray-green leaves with lightly scalloped edges and felted, silvery undersides. Long sprays of small, tubular, fuzzy, completely deep violet flowers begin blooming in late summer to early fall, continuing until a hard freeze. The showy blooms are attractive to many pollinators, including bees, butterflies, and hummingbirds.

<b>Salvia leucantha 'Purple and White'</b>	Mexican Bush Sage	Purple and white	2'-4' tall
Light, rich, moist, well-drained soil.	Full sun	SU-F	2'-3' wide

Tall and bushy plants with long velvety purple spikes and tiny white flowers; woolly white stems and sage green leaves.

<b>Salvia splendens 'Flare'</b>	Scarlet Sage	Scarlet-red	18" tall tall ,1' wide
Moist, well-drained soil.	Full sun	SP-F	1' wide

A profusion of full, intense scarlet-red spikes that contrast beautifully with deep green foliage on mounded, bushy plants. Remarkably heat tolerant plants that self-clean and provide color all summer long. This is the salvia used at the White House in Washington D.C.!

<b>Salvia splendens 'Red Hot Sally II'</b>	Scarlet Sage	Dark scarlet-red	10"-12" tall
Moist, well-drained soil.	Full sun	SP-F	8"-10" wide

Full spikes of dark scarlet-red flowers are set off against the dark green foliage.

<b>Salvia splendens 'Salvano'</b>	Scarlet Sage	Vivid red	11" tall
<b>NEW</b> Moist, well-drained soil.	Full sun	SP-F	8"-10" wide

Attracts butterflies

Multiple dense flower spikes with vivid red flowers. Profuse basal branching plants. Very good weather tolerance and excellent garden performance.

## Annual Flower/Foliage

### Salvia, species guarantica 'Black & Bloom'

Anise Sage

Deep cobalt blue

36"-42" tall

Light, rich, moist, well-drained soil.

Full sun

SP-F

3' wide

Tough as nails, this improvement on 'Black & Blue', boasts thicker leaves, bigger blooms, and darker stems! Beefy plants give rise to the electric cobalt blue flowers, opening from almost black calyces on nearly true black stems. Great when grown in stark contrast to silver or white leaved plants. Thrives in the heat. A real favorite of hummingbirds and butterflies! Often over winters in SE Kansas, and if it does over winter it can spread a fair bit.

### Salvia, species guarantica 'Rockin' Deep Purple'

Anise Sage

Purple with a black calyx

30" to 40" tall

**NEW** Light, rich, moist, well-drained soil.

Full Sun to Part Shade

MSP to MF

18" to 24" wide

Purple flowers each with a black calyx on tough plants! This is a wonderful annual Salvia (except in the frost free zones) compact and richly colored it is easy and trouble free. It is sterile so it will not set seed and that means it will just bloom, and bloom, and bloom all season without stopping. It can be easily trimmed to keep the shape or size where you want it, and it will branch out and become even thicker and more full of flowers. Regular watering and fertilizing will keep the plant at maximum color and growth but it is amazingly tough and once established in a pot or the garden, will tolerate lower levels of food and water. However, severe drought will cause lower leaves to drop and if the happens give it a quick haircut removing the upper 1/3 of growth and once it back to normal watering it will fill back in.

### Salvia, species longispicata x farinacea 'Mystic Spires'

Blue

18"-24" tall

Light, rich, moist, well-drained soil.

Full sun

LSP-F

12"-18" wide

Loads of blue flower spikes begin in late spring and don't stop until a hard frost. The blooms stay "true blue" all summer, even through heat and drought. Sturdy plants are well-branched and free flowering, with plenty of lush, dark green foliage to offset the bold blue spikes. The plants will only grow to about 20" if they are not crowded, but if planted close together, they will grow up to 3' tall.

### Salvia, species longispicata x farinacea 'Mysty'

Blue

12" to 18" tall

**NEW** Light, rich, moist, well-drained soil.

Full Sun

MSP to MF

12" to 18" wide

Attracts butterflies

Attracts hummingbirds

This compact salvia is about 25% to 35% less vigorous than 'Mystic Spires', making it a better variety for mixes. Covered with true blue flowers all season, the dark green-leafed plants are naturally more compact, well-branched and very free-flowering. These heat-loving plants are ideal for middle of the garden borders and mixed combo containers.

### Salvia, species microphylla 'Hot Lips'

Red and white

3' tall

Light, rich, moist, well-drained soil.

7 Full sun

MSU-EF

3' wide

White flowers with large, wide red lips- looks like she's ready for a night out! Very long blooming; may be hardy in zones 5 and 6.

### Salvia, species 'Wendy's Wish'

Deep fuchsia-pink

24"-40" tall

Light, rich, moist, well-drained soil.

Part to full sun

MSP-MF

24"-30" wide

A tropical looking salvia with deep fuchsia-pink tubular flowers that are surrounded by mauve colored calyces and are held on dark red stems. The flowers open from extremely interesting, jumbo, shrimp-like buds. The deep green foliage has a well-branched habit that sets the stage for the amazing flowers. 'Wendy's Wish' is a great plant for bringing a tropical theme to the garden. Rita enjoys it paired with dark red or purple foliaged Coleus! This variety is a chance selection found in a salvia enthusiast's garden in Victoria, Australia. Wendy, the salvia enthusiast, will realize her "wish": a portion of the proceeds will be donated to an Australian charity.

### Sanvitalia 'Million Suns'

Creeping Zinnia

Golden yellow

7"-9" tall

Loose, well-drained soil.

Full sun

SP-F

8"-12" wide

Intense branching makes 'Million Suns' more free flowering and more compact than other seed grown varieties. Masses of 1/3" to 1/2" wide, single golden yellow flowers with green centers stand out from the deep green foliage all summer long. Growth starts upright in early stages, then develops a more trailing habit- ideal as ground cover or semi-trailing filler in combos.

## Annual Flower/Foliage

### Sanvitalia 'Sprite Orange'

Creeping Zinnia

Bright orange

4" tall ,10"-12" wide

Loose, well-drained soil.

Full sun

SP-F

10"-12" wide

Semi-double orange flowers with dark centers.

### Sanvitalia 'Sunbini'

Creeping Zinnia

Golden yellow

10"-12" tall

Loose, well-drained soil.

Full sun

SP-F

12"-14" wide

Rich golden yellow flowers with green centers; full, lush, compact, trailing habit; blooms even in triple-digit heat!

### Scaevola 'Surdiva Blue Violet'

Fan Flower

Blue-violet

10" to 12" tall

Rich, moist, well-drained soil.

Part to full sun

SP-F

12" to 18" wide

The Surdiva Series is compact and beautiful and keeps producing flowers on top. The cascading branches make it an ideal choice for window boxes, hanging baskets, or tall containers where its trailing form can flow over the container's edge. In each of the flower trails that we visited last summer, this cultivar was always the most floriferous and outstanding.

### Scaevola 'Surdiva Fashion Pink'

Fan Flower

Rich pink

10" to 12" tall

Rich, moist, well-drained soil.

Part to full sun

SP-F

12" to 18" wide

The breeder, Suntory Flowers, has made one of its most heat-tolerant bedding plants even better by introducing new breeding into its Surdiva scaevola series. Traditionally, scaevolans have wild and rangy habit, but Suntory has controlled that nicely by breeding plants that display the fan-shaped flowers on short terminal spikes. While growers used to have to rely on pinching to keep scaevolans in check, Surdivas are naturally compact. Fashion Pink's color is darker and richer making it much more appealing-- and it blooms 2 weeks earlier than the leading pink variety. Wonderful in combos, as a filler/spiller. Fertilize weekly with Nature's Source Fertilizer.

### Scaevola 'Surdiva White'

Fan Flower

White

10"-12" tall

Rich, moist, well-drained soil.

Part to full sun

SP-F

12"-18" wide

## Prairie Star

Interesting fan-shaped white flowers. The white flowers can take on tinges of purple. Very highly rated for its prolific bloom during hot, humid summers!

### Senecio candicans 'Angel Wings'

16" tall

NEW

Sun or Part Shade

16" wide

This is a traffic-stopping new tender perennial. You won't be able to resist touching the long, broad velvety leaves of dazzling matte silver with toothy edges. Easy to grow and with gorgeous, striking color, Angel Wings is an exciting design option for mixed containers or borders. It provides a dramatic impact for this easy to grow plant. Tactile and suitable for a whole range of garden setting - soft and downy with architecturally flamboyant foliage. Drought tolerant, fast growing indoor and outdoors. Prefers well- drained soil.

### Snapdragon 'Antiquity Mix'

Pink, red, white, and coral

9" to 11" tall

Well-drained soil.

Part to full sun

SP-F

14" to 16" wide

A brand new open flowered series which is ideally suited to larger containers or garden borders. It has extremely robust foliage and great branching, resulting in outstanding garden performance. Ideal for attracting pollinators to the garden. The fragrant flowers are 1 1/2" in diameter.

### Snapdragon 'Montego Sunset'

Yellow, rose, and bronze

6"-10" tall

Well-drained soil.

Part to full sun

SP-F

10"-12" wide

The flowers are a unique blend of yellow, rosy scarlet, and bronze- have a floral sunset in your garden!

## Annual Flower/Foliage

### Snapdragon 'Rocket Cherry'

Well-drained soil.

Part to full sun

Cherry

SP-F

24"-28" tall

10"-18" wide

### Prairie Star

Deep cherry red flowers; green foliage; vigorous plants.

### Snapdragon 'Rocket Mix'

Well-drained soil.

Part to Full sun

Mix

SP-F

24"-28" tall

10"-18" wide

A mix of bronze, cherry, lemon, orchid, pink, red, rose, white, and yellow flower spikes; vigorous plants.

### Snapdragon 'Rocket Yellow'

Well-drained soil.

Part to Full sun

Bright yellow

SP-F

24"-28" tall

10"-18" wide

Long flower spikes; green foliage; vigorous plants.

### Snapdragon 'Snapshot Mix'

Well-drained soil.

Part to full sun

Mix

SP-F

6"-10" tall

8"-12" wide

Bushy, compact plants with closely spaced flower spikes for an intense show of color. The mix includes burgundy, orange, pink, plum blossom, purple, red, rose, white, and yellow.

### Snapdragon 'Snapshot Orange'

Well-drained soil.

Part to full sun

Deep orange

SP-F

6"-10" tall

8"-12" wide

Bushy, compact plants with closely spaced flower spikes of deep orange for an intense show of color.

### Snapdragon 'Snapshot Pink'

Well-drained soil.

Part to full sun

Light and medium pink

SP-F

6"-10" tall

8"-12" wide

Bushy, compact plants with closely spaced flower spikes of light and medium pink for an intense show of color.

### Snapdragon 'Snapshot Purple'

Well-drained soil.

Part to full sun

Violet

SP-F

6"-10" tall

8"-12" wide

Bushy, compact plants with closely spaced flower spikes of violet for an intense show of color.

### Snapdragon 'Snapshot Red'

Well-drained soil.

Part to full sun

Deep crimson

SP-F

6"-10" tall

8"-12" wide

Bushy, compact plants with closely spaced flower spikes of deep crimson for an intense show of color.

## Annual Flower/Foliage

### Snapdragon 'Snapshot Red Bicolor'

Red, yellow, and white

6"-10" tall

Well-drained soil.

Part to full sun

SP-F

8"-12" wide

Bushy, compact plants with closely spaced flower spikes of red flowers with a yellow bee and white tube.

### Snapdragon 'Snapshot Sunset'

Yellow and orange-red

6"-10" tall

Well-drained soil.

Part to full sun

SP-F

8"-12" wide

Bushy, compact plants with closely spaced flower spikes of yellow flowers with an orange-red blush in the center.

### Snapdragon 'Snapshot Yellow'

Light to medium yellow

6"-10" tall

Well-drained soil.

Part to full sun

SP-F

8"-12" wide

Bushy, compact plants with closely spaced flower spikes of light and medium yellow for an intense show of color.

### Snapdragon 'Snaptastic Mix'

Pink, magenta, red, orange, and

14" to 16" tall

Well-drained soil.

Part to full sun

SP-F

12" to 14" wide

This is a new series that produces large flowers and long-lasting color. Its strong root system makes it more resilient to heat and its tough stem support lateral branching, which leads to less breakage. 'Snaptastic Mix' is a mix of pink, magenta, red, orange flame and yellow.

### Snapdragon 'Snaptastic Red'

Red, orange and yellow shades

12" to 15" tall

Well-drained soil.

Part to full sun

SP-F

15" to 20" wide

The compact habit of these varieties means they play well with others in combinations, and they are tough-as-nails, making them a must-have for gardeners. Trumpet-shaped lavender flowers appear all summer long. Flowers only last 1 or 2 days, but it flowers constantly. dense, spreading habits is ideal for use as an annual groundcover or trailing from a mixed container planting. Use it in baskets or containers for something really unique.

### Snapdragon 'Solstice Mix'

Mix

16"-20" tall

Well-drained soil.

Part to Full sun

SP-F

10"-15" wide

Very early to bloom plants make good "knee-high" garden cutflowers; a mix of burgundy, deep lavender, orange tricolor; pink, purple, red, rose, white, and yellow; blooms best in cool weather.

### Snapdragon 'Twinny Bronze'

Deep orange, pink, and rose

10"-12" tall

Well-drained soil.

Part to full sun

SP-F

7"-8" wide

Who took the snap out of this snapdragon? 'Twinny Bronze' is a snapdragon without the snap. Why? Because it is a double, or butterfly, form that does not have the jaws or joints to snap. The 1 1/4" wide double flower form is the origin for the name 'Twinny', or twins. It will produce abundant flower spikes, plenty to cut and place in vases for fresh indoor bouquets. Exceptional garden performance, it is also tolerant to hot and wet summers. Beautiful large double blooms are a blend of deep orange, pink, and rose.

### Snapdragon 'Twinny Rose'

Clear pink

10"-12" tall

Well-drained soil.

Part to full sun

SP-F

7"-8" wide

Who took the snap out of this snapdragon? 'Twinny Rose' is a snapdragon without the snap. Why? Because it is a double, or butterfly, form that does not have the jaws or joints to snap. The 1 1/4" wide double flower form is the origin for the name 'Twinny', or twins. It will produce abundant flower spikes, plenty to cut and place in vases for fresh indoor bouquets. Exceptional garden performance, it is also tolerant to hot and wet summers.

## Annual Flower/Foliage

### Snapdragon 'Twinny Violet'

		Bright crimson-magenta	10"-12" tall
Well-drained soil.	Part to full sun	SP-F	7"-8" wide

Who took the snap out of this snapdragon? 'Twinny Violet' is a snapdragon without the snap. Why? Because it is a double, or butterfly, form that does not have the jaws or joints to snap. The 1 1/4" wide double flower form is the origin for the name 'Twinny', or twins. It will produce abundant flower spikes, plenty to cut and place in vases for fresh indoor bouquets. Exceptional garden performance, it is also tolerant to hot and wet summers. Beautiful large double blooms are a blend of bright crimson and magenta!

### Stock 'Hot Cakes Mix'

		Hot rose, pink, purple, and white	10"-16" tall
Moist, well-drained soil.	Part to full sun	SP & F	6"-8" wide

Very well-branched, dwarf plants have spikes of highly fragrant, brightly colored double blooms. Flowers in a mix of hot rose, pink, purple, and white. Great landscape and garden performance. A wonderful cool season plant for mixing with pansies, osteospermums, and more!

### Strobilanthes dyerianus (Persian Shield)

Persian Shield		Pale blue	3' tall
Light, moist, very well-drained soil.	Sun to Shade	LSU	18"-30" wide

Each 6" to 8" long, finely toothed leaf is dark bronze-green overlaid with purplish pink and frosted with silver, creating an iridescent tapestry; pale blue flowers are occasionally produced on short spikes in late summer.

### Sunflower 'Sunfinity Yellow with Dark Center'

Sunflower		Bright Yellow with dark center	3' to 4' tall
<b>NEW</b>	Full Sun	LSP to MF	2' to 3' wide

Attracts butterflies

Imagine a sunflower that blooms not just for 2 to 3 weeks, but all summer long! It will bloom all summer, from late spring will into fall, producing over 100 flowers per plant. It doesn't have the rigidly upright habit of a typical sunflower either but rather a shrubby appearance with numerous branches and blooms. This first release has bright yellow flowers nearly 4" (10 cm) in diameter with a dark center, but other colors are in the works. The flowers are fertile, too, thus attracting and feeding bees, butterflies and seed-eating birds. Excellent cut flower. Good resistance to leaf diseases.

### Sweet Potato Vine 'Bright Ideas Cordate Black'

Sweet Potato Vine; Ipomoea			6"-12" tall
<b>NEW</b> Moist, well-drained soil.	Part to full sun		12"-18" wide

Bred for their semi-compact habit, the 'Bright Ideas' have shorter internodes (stem length between each leaf) than older varieties. Their compact habit makes them perfect for planting with other plants in containers and baskets. Heart-shaped leaves of deep purple-black, with some leaves a purple-green color. The plants have good foliage cover, and the non-fading foliage has a subtle color variation that is stunning!

### Sweet Potato Vine 'Bright Lights Camouflage'

Sweet Potato Vine; Ipomoea			12"-18" tall
Moist, well-drained soil.	Part to full sun		18"-20" wide

There is no disguising the fact that this sweet potato vine is pretty funky with its unusual, mottled purple and green foliage! Use it for additional color and texture in mixed containers.

### Sweet Potato Vine 'FloraMia Rosso'

Sweet Potato Vine; Ipomoea		Green and gray	10" to 16" tall
Moist, well-drained soil.	Part to full sun		12" to 18" wide

This cultivar has beauty and brawn. Great foliage component plant in combinations; excellent heat tolerance and good vigor. Works great in landscapes as an annual ground cover as well as in combinations and containers by themselves. The plant is very adaptable, working in both sun and shade conditions, although the color are deeper and brighter in full sun than they are in shadier environments where colors are tinged with more green.

### Sweet Potato Vine 'FloraMia Verdino'

Sweet Potato Vine; Ipomoea		Lavender	12"-15" tall
Moist, well-drained soil.	Part to full sun		15"-20" wide

Not only is it described as the most compact sweet potato vine, but it actually flowers! Lavender flowers have darker throats. The fine-textured foliage ranges in color from lime green to bronze, and pairs especially well with pinks, reds, and purples. Flowers only last 1 or 2 days, but it flowers constantly! Use it in baskets or containers for something really unique!

## Annual Flower/Foliage

### Sweet Potato Vine 'Marguerite'

Sweet Potato Vine; Ipomoea

8"-12" tall

Moist, well-drained soil.

Part to full sun

2'-4' wide

### Prairie Star

This popular chartreuse vine adds a splash of bright color and texture to pots, baskets, windowboxes, and garden beds.

### Sweet Potato Vine 'Sidekick Lime'

Sweet Potato Vine; Ipomoea

Green

10" to 16" tall

Moist, well-drained soil.

Part to full sun

12" to 18" wide

Great foliage component plant in combinations; excellent heat tolerance and good vigor. It is a great addition to your petunia planters and baskets. The bright chartreuse green foliage has a unique heart shaped leaf with serrated edges. Planted in full sun to shade, it is great as a border, ground cover, and in containers. If need be you can trim back your sweet potato vines if they seem to get to long.

### Sweet Potato Vine 'Solar Power Black'

Sweet Potato Vine; Ipomoea

10"-12" tall

Moist, well-drained soil.

Part to full sun

2'-3' wide

### Prairie Star (new 2017)

Densely branched plants retain their rich leaf colors and do not burn in the summer. In the K-State trials they were found to stay compact (the patio containers looked like they had been edged with a string trimmer, but hadn't!), and were very well-branched. The deeply lobed, lustrous purple-black leaves add a lot of texture to the landscape or container planting.

### Sweet Potato Vine 'Solar Power Lime'

Sweet Potato Vine; Ipomoea

10"-12" tall

Moist, well-drained soil.

Part to full sun

2'-3' wide

Densely branched plants retain their rich leaf colors and do not burn in the summer. In the K-State trials they were found to stay compact (the patio containers looked like they had been edged with a string trimmer, but hadn't!), and were very well-branched. The deeply lobed, bright chartreuse-green leaves add a lot of texture to the landscape or container planting.

### Sweet Potato Vine 'Solar Power Red'

Sweet Potato Vine; Ipomoea

10"-12" tall

Moist, well-drained soil.

Part to full sun

2'-3' wide

Densely branched plants retain their rich leaf colors and do not burn in the summer. In the K-State trials they were found to stay compact (the patio containers looked like they had been edged with a string trimmer, but hadn't!), and were very well-branched. The deeply lobed, bronzy leaves add a lot of texture to the landscape or container planting.

### Sweet Potato Vine 'Sweet Caroline Bewitched After Midnight'

Sweet Potato Vine; Ipomoea

10"-16" tall

Moist, well-drained soil.

Part to full sun

18"-30" wide

A great foliage component in containers and flower beds. Excellent heat tolerance and good vigor. The dark purple foliage has unique heart-shaped leaves with deeply serrated edges. If need be, you can trim back your sweet potato vines if they seem to get too long. Trails up to 28".

### Sweet Potato Vine 'Sweet Caroline Bewitched Green with Envy'

Sweet Potato Vine; Ipomoea

10"-16" tall

Moist, well-drained soil.

Part to full sun

12"-18" wide

A great foliage component in containers and flower beds. Excellent heat tolerance and good vigor. The bright chartreuse green foliage has unique heart-shaped leaves with serrated edges. If need be, you can trim back your sweet potato vines if they seem to get too long. Trails up to 28".

### Sweet Potato Vine 'Sweet Caroline Red'

Sweet Potato Vine; Ipomoea

6"-15" tall

**NEW** Moist, well-drained soil.

Part to full sun

2'-4' wide

### Prairie Star

Bright lime green to yellow leaves are divided into three long, slim sections; compact mounding habit; Prairie Star Award Winner.

## Annual Flower/Foliage

### Sweet Potato Vine 'Sweet Caroline Sweetheart Jet Black'

Sweet Potato Vine; Ipomoea

6"-16" tall

NEW

Part to full sun

20"-30" wide

Heart-shaped leaves of deep purple-black. Trails up to 30".

### Sweet Potato Vine 'Tricolor' (aka 'Pink Frost')

Sweet Potato Vine; Ipomoea

6"-8" tall

Moist, well-drained soil.

Part to full sun

2'-3' wide

#### Prairie Star

Mint green and white foliage with a violet-pink blush; trailing habit; syn. 'Pink Frost'; Prairie Star Award Winner.

### Talinum paniculatum 'Limon'

Jewels-of-Opar

Rose-pink

2'-3' tall

Well-drained soil, drought tolerant.

Full sun to full shade

#### Prairie Star

Mounded bright lime green to soft yellow-green colored foliage. Cloud-like sprays of rose-pink flowers are followed by ruby-orange seedpods. Heat and drought tolerant plants are ideal for containers, hanging baskets, and in beds. The foliage color is more vibrant when the plant is water, fertilizer, or light stressed. The flowers are good for fresh or dried arrangements.

### Tecoma stans 'Mayan Gold'

Yellow Elder; Esperanza; Trumpetbush

Gold

2'-3' tall

Moist, well-drained soil.

Part to full sun

SP-F

12"-18" wide

A showy and exotic tropical with a compact, uniform habit. Bright green leaves, similar to those of Elderberry (hence the common name) form a lush, tropical backdrop to the hanging clusters of 1" to 2" long, golden trumpet-shaped flowers. The soft, sweet fragrance of the flowers is truly a treat! Early to bloom, heat and humidity loving plants can be used as a long-blooming tropical annual!

### Tithonia 'Goldfinger'

Mexican Sunflower

Scarlet-orange

30" tall

Well-drained soil.

Full sun

SU-F

2' wide

3" to 3 1/2" wide scarlet-orange flowers over a long blooming season. Excellent garden background plant or as a cutflower. Continues to flower even in dry conditions and intense heat! Attracts butterflies and hummingbirds!

### Torenia 'Kauai Deep Blue'

Wishbone Flower

Dark violet-blue

8"-16" tall

Moist, well-drained soil.

Part to full shade

SP-SU

8"-16" wide

#### Prairie Star

Compact, well-branched plants are nearly 2" shorter than similar varieties. Superior performance in extreme heat and humidity. In fact, 'Kauai' Torenia has performed very well in full sun trials in Kansas (with adequate soil moisture)! Exotic looks in small gardens and containers. The petals are drenched in vivid dark violet-blue with a light lavender throat marked by a splash of yellow.

### Torenia 'Kauai Mix'

Wishbone Flower

Mix

8"-16" tall

Moist, well-drained soil.

Part to full shade

SP-SU

8"-16" wide

#### Prairie Star

Compact, well-branched plants are nearly 2" shorter than similar varieties. Superior performance in extreme heat and humidity. In fact, 'Kauai' Torenia has performed very well in full sun trials in Kansas (with adequate soil moisture)! Exotic looks in small gardens and containers. The petals are drenched in vivid watercolor hues, set off by lighter edges. A mix of burgundy, deep blue, lemon drop, magenta, rose, and white.

### Torenia 'Magenta Moon'

Wishbone Flower

Magenta with yellow-orange.

4"-6" tall

Moist, well-drained soil.

Part to full shade

LSP-MF

10"-12" wide

Large magenta flowers with yellow-orange tips. Vigorous plants are outstanding in hanging baskets and containers.

## Annual Flower/Foliage

<b>Torenia 'Summer Wave Large Blue'</b>	Wishbone Flower	Lt and dark blue	10"-12" tall
Moist, well-drained soil.	Part to Full shade	SP-F	24"-30" wide

Fast-growing, heat-loving, trailing plants are covered with light and dark blue bicolored flowers.

<b>Torenia 'Summer Wave Large Violet'</b>	Wishbone Flower	Deep and light violet	8"-12" tall
Moist, well-drained soil.	Part to Full shade	SP-F	24"-30" wide

Large deep violet flowers with lighter violet throats; large leaves have distinct serrated edges; fast-growing, heat-loving, trailing plants.

<b>Torenia 'Yellow Moon'</b>	Wishbone Flower	Yellow and purple	4"-6" tall
Moist, well-drained soil.	Part to full shade	LSP-MF	8"-12" wide

Large yellow flowers with purple throats. Vigorous, trailing plants are outstanding in hanging baskets and containers. Very heat tolerant!

<b>Tradescantia (Setcreasea) pallida 'Purple Variegated'</b>	Striped Purple Heart	Lavender-pink	7"-12" tall
Well-drained soil.		LSP-SU	16" wide

Purple foliage with soft, subtle hot creamy pink variegation. The variegation is most prominent in full sun.

<b>Tradescantia zebrina 'Purple Wandering Jew'</b>	Silver Inch Plant	Purple-pink	6" tall ,1'-2' wide
Rich, moist, well-drained soil.	Part to full shade	SU	1'-2' wide

Purple leaves with wide, light silver stripes. The leaf backs are purple-red. Great in containers and hanging baskets. Insignificant flowers.

<b>Trifolium 'Limerick Isabella'</b>		Pink	4" tall ,8" wide
Moist, well-drained soil.	Part to full sun	ESP-F	

Plum-purple leaves have small bright green centers. Pink clover blossoms from early spring to fall attract butterflies. Perfect for containers, will fill and spill over the edges and stays beautiful all season long. An easy-to-grow spiller that mixes well with other plants. Adds a unique dimension to combos.

<b>Verbena 'Aztec Red Velvet'</b>	Vervain	Vibrant, rich ruby red and white	8"-10" tall
Moist, well-drained soil.	Full sun	SP-F	12"-18" wide

2 1/2" wide clusters of vibrant, rich ruby red flowers with showy white eyes. Deep green broadleaf foliage stays lush and healthy through the summer heat and humidity. Trailing, mounded habit.

<b>Verbena 'Aztec White Magic'</b>	Vervain	Pure white	8"-10" tall
Moist, well-drained soil.	Full sun	SP-F	12"-18" wide

1 1/2" to 2" clusters of pure white flowers atop green fern-like foliage.

## Annual Flower/Foliage

### Verbena bonariensis 'Meteor Shower'

Buenos Aires Verbena, Tall Verbena,  
Verbena on a Stick

Lilac

20"-30" tall

Moist, well-drained soil.

Full sun

SP-F

8"-12" wide

Lollipop of lilac blooms atop deep green foliage. A fun plant for landscapes and containers, this is a truly compact form of the common *V. bonariensis*. Plants are easy to maintain as they do not need deadheading. However, removing old flowers can be done if you would like. An updated look for the species, 'Meteor Shower' has a denser, more vigorous growth habit with equates to more manageable and attractive plants as a flowering thriller in containers and massed in the landscape. Heat and drought tolerant, loved by butterflies and hummingbirds, and resistance to deer and rabbits, all sweeten its appeal!

### Verbena 'EnduraScape Blue Improved'

Vervain

Periwinkle Blue

8" to 12" tall

**NEW** Moist, well-drained soil.

Full Sun

MSP to LF

18" to 24" wide

Attracts butterflies

Attracts hummingbirds

Deer resistant

This fantastic verbena thrives through out intense summer heat and humidity and looks great while doing it. Large periwinkle-blue flowers bloom larger and longer than other Verbenas. While other flowers fade, this plant will take 100 + degree temperature in stride without cycling out of flower and will extend you gardens in the fall taking a frost into the teens and still performing beautifully. Excellent powdery mildew resistance, humidity tolerance and slightly drought tolerant as well. This fragrant easy-to-grow verbena makes an excellent ground cover in landscape beds, planted en masse or mingling with other plants to add vibrant color. It also makes great hanging baskets, planters and window boxes either on its own or with other accent plants. Butterflies and hummingbirds absolutely adore this plant as its slender stems carry clusters of colorful blooms all summer long.

### Verbena 'EnduraScape Pink Bicolor'

Vervain

Pink

8" to 12" tall

**NEW** Moist, well-drained soil.

Full Sun

MSP to MF

18" wide

This cultivar is described as "tough as nails" because it is the first verbena that can tolerate drought and heat plus survive cooler temperature down to the low teens. This long-blooming pink bicolor verbena is spectacular in the landscape, edging a walk or border as well as in large containers and baskets. Vigorous plants are sturdy spreaders that pop with abundant soft pink blossoms that darken in intensity toward the center of the bloom. 'Pink Bicolor' is the newest color in the series and the AAS Judges deemed it truly spectacular!

### Verbena 'Lanai Candy Cane'

Vervain

Cherry red and white

6"-12" tall

Moist, well-drained soil.

Full sun

SP-F

1'-2' wide

This sweet treat brings a spark of fun! The large, striking flowers have a novelty pattern- the petals are a pinwheel of cherry red and white stripes. The flower pattern is very stable. Mounding and trailing plants fill baskets, containers, and gardens. Has exceptional powdery mildew resistance.

### Verbena 'Lascar Dark Blue'

Vervain

dark blue, purple

12" to 14" tall

Moist, well-drained soil.

Full sun

SP-F

12" to 16" wide

Early flowering with medium vigor and full centers. They are heat-tolerant and bear large flowers in many-flowered clusters. These low, mounding and trailing, well-branched, ever-blooming plants have lobed, quilted dark green leaves with toothed edges. They will continue blooming if regularly deadheaded and cut back in late summer. A butterflies favorite. A wonderful filler/spiller in combos.

### Verbena 'Lascar Mango Orange'

Vervain

Mango Orange with blushes of pink

12" to 14" tall

**NEW** Moist, well-drained soil.

Full Sun

MSP to EF

12" to 16" wide

Attracts butterflies

Attracts hummingbirds

Brilliant mango-orange flowers with blushes of pink. Lascar is an early-flowering uniform series of medium-vigor, mounding verbena with excellent heat tolerance. They have a built in tolerance against powdery mildew and are early to bloom.

### Verbena, species bonariensis

Buenos Aires Verbena, Tall Verbena,  
Verbena on a Stick

Dark lavender

3'-4' tall

Moist, well-drained soil.

Full sun

SP-F

12"-14" wide

1" to 2" wide dark lavender flowerheads on very tall, stiff stems. The flowers perk up the garden from mid summer through fall. A nice "see-through" plant- plant it amongst other plants with more substantial leaves and flowers and you won't be disappointed! An excellent cutflower. Often reseeds. Great in combination with *Nicotiana sylvestris* and ornamental grasses. The flowers are a delight to butterflies. A favorite here at Arnold's Greenhouse!

## Annual Flower/Foliage

### Verbena, species rigida 'Santos Purple'

Vervain

Violet

12"-14" tall

Moist, well-drained soil.

Full sun

SP-F

16"-36" wide

One of the easiest and most rewarding of all annual groundcovers, this quick-spreading Verbena blooms from late spring until mid fall, bringing butterflies and hummingbirds by the dozen into the garden and creating a rich carpet of color for the sunny garden floor. You'll adore its ease of care and long, long, long season of color! Very low maintenance, 'Santos Purple' puts up with heat, drought, and poor soil once established in the garden. Also has high powdery mildew resistance. The dazzling violet blooms are so eye-catching, even from a distance, and simply splendid in a large planting. This is a plant to use in groups of 3, 9, or a dozen and more- the effect is of a rippling carpet of pure color! Great in baskets and combination planters, too!

### Verbena, species tenuisecta 'Imagination'

Vervain

Violet-blue

8" tall ,1' wide

Moist, well-drained soil.

Full sun

SP-F

1' wide

Violet-blue to dark lilac flowers top the ferny dark green foliage. A wonderful bloomer that loves the heat and humidity!

### Vinca Vine 'Maculata'

3"-8" tall

Moist, well-drained soil.

Full sun to Full shade

1' wide

Cream to bright yellow leaves with deep green margins; trailing habit, though more compact than other varieties; great in baskets and containers.

### Vinca Vine 'Variegata'

3"-8" tall

Moist, well-drained soil.

Full sun to Full shade

1' wide

Sage green leaves are edged in cream; great in baskets and containers; occasionally shows its periwinkle blue flowers.

### Vinca Vine 'Wojo's Jem'

3"-8" tall

Moist, well-drained soil.

Full sun to Full shade

1' wide

Cream to bright yellow leaves with deep green margins; trailing habit, though more compact than other varieties; great in baskets and containers.

### Vinca, Apricot/Lavender/Pink 'Cora Apricot Improved'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle

Apricot

14"-16" tall

Moist, well-drained soil.

Full sun

LSP-F

14"-25" wide

Very uniform in plant habit, these heat tolerant, disease-resistant, robust plants produce an abundance of showy, 2" wide blooms. Lush, glossy foliage. 'Cora Apricot Improved' has larger flowers that are a deeper apricot color, and more vigorous plants that are earlier to bloom.

### Vinca, Apricot/Lavender/Pink 'Mega Bloom Orchid Halo'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle

Purple with white

13" to 15" tall

Moist, well-drained soil.

Full sun

LSP-F

10" to 12" wide

This is an exciting new series of vinca bred to withstand heat and humidity without succumbing to disease. It produces huge, 3", bright rich purple blossoms with a wide white eye creating a striking look for the garden, even from a distance. Plants maintain a nice, dense habit with flowers staying on top of the foliage for full flower power color.

## Annual Flower/Foliage

### Vinca, Apricot/Lavender/Pink 'Mega Bloom Pink Halo'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle Pink with white

13" to 15" tall

Moist, well-drained soil.

Full sun

LSP-F

10" to 12" wide

These 'MegaBloom' Vincas are major improvements over the Vincas of the early 1990s. The Mega Bloom series sport blooms that practically cover the foliage. Add to that the plants' ability to withstand humidity and resist disease, and it's no wonder these Vincas wound up in the winners' category. It produces huge ,3", bright pink blossoms with a wide white eye creating a striking look for the garden, even from a distance.

### Vinca, Apricot/Lavender/Pink 'Pacifica XP Raspberry'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle Rich raspberry pink

10"-16" tall

Moist, well-drained soil.

Full sun

LSP-F

8"-12" wide

#### Prairie Star

Large, 2 1/2" rich raspberry pink flowers. The glossy, dark green foliage can be literally covered with flowers due to plant vigor and heat tolerance. Upright, basal-branching plants resist stretching even in intense heat.

### Vinca, Apricot/Lavender/Pink 'Soiree Kawaii Pink'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle Intense rose-pink

6"-10" tall

Moist, well-drained soil.

Full sun

LSP-F

12"-18" wide

These are micro blooming vinca which will light up any garden with their amazing flower coverage, vivid, eye-drawing, intense rose-pink flowers atop glossy, deep green foliage. Though its intensely colored flowers are small, there are many of them, practically smothering the plant in blooms all summer long. Keeps its great habit all summer long, has no leggy branches, and has tons of flower power. Holds up to heat and drought like a champ. Perfect for all kinds of containers, including window boxes, hanging baskets, and combination patio planters.

### Vinca, Apricot/Lavender/Pink 'Titan Blush'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle Pink and magenta

14" to 16" tall

Moist, well-drained soil.

Full sun

LSP-F

10" to 20" wide

Robust and ready for anything Mother Nature sends. The titan series is up to 2 weeks faster to flower than open-pollinated vincas, with superior branching and the very large flowers. The most uniform F1 vinca series on the market shows off flowers that are up to 50% larger than O.P. types in cooler temperatures. More stress-tolerant due to hybrid vigor - tolerates heat and drought and can withstand cooler and wetter conditions compared to O.P. types. Perfect for landscapes and containers of all types. Color holds up well in extreme heat- does not fade to white and retains the large eye. Loved by butterflies.

### Vinca, Apricot/Lavender/Pink 'Valiant Lilac'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle Rich lilac

14"-20" tall

**NEW** Moist, well-drained soil.

Full sun

LSP-F

10"-12" wide

Extra large flowers of rich lilac-pink with rose centers. Upright, well-branched, plants are tolerant of phytothera and show superior plant vigor during hot sun, drought and cool/damp conditions.

### Vinca, Apricot/Lavender/Pink 'Valiant Orchid'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle Bright lilac-blue

14"-20" tall

Moist, well-drained soil.

Full sun

LSP-F

10"-12" wide

#### Prairie Star (new 2017)

Extra large flowers of bright lilac-blue with large white eyes. Upright, well-branched, plants are tolerant of phytothera and show superior plant vigor during hot sun, drought and cool/damp conditions.

### Vinca, Apricot/Lavender/Pink 'Valiant Punch'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle Hot magenta-rose

14"-20" tall

Moist, well-drained soil.

Full sun

LSP-F

10"-12" wide

#### Prairie Star (new 2017)

Extra large flowers of hot magenta-rose. Upright, well-branched, plants are tolerant of phytothera and show superior plant vigor during hot sun, drought and cool/damp conditions.

## Annual Flower/Foliage

<b>Vinca, Cascading 'Cora Cascade Cherry'</b>	Periwinkle; Madagascar Periwinkle; Rose Periwinkle	Light cherry red	6"-8" tall
Moist, well-drained soil.	Full sun	LSP-F	32"-36" wide

Thrives in heat and humidity and has patented resistance to aerial Phytophthora. Vigorous trailing habit with super large (1 1/4" to 2" wide), long-lasting light cherry red blooms that cover the plants as they fill and spread. Superior to the 'Mediterranean XP' series.

<b>Vinca, Cascading 'Cora Cascade Polka Dot'</b>	Periwinkle; Madagascar Periwinkle; Rose Periwinkle	White with red eye	6"-8" tall
Moist, well-drained soil.	Full sun	LSP-F	32"-36" wide

Thrives in heat and humidity and has patented resistance to aerial Phytophthora. Vigorous trailing habit with super large (1 1/4" to 2" wide), long-lasting white blooms with red eyes that cover the plants as they fill and spread. Superior to the 'Mediterranean XP' series.

<b>Vinca, Cascading 'Cora Cascade Violet'</b>		Purple with a white eye	14" to 16" tall
<b>NEW</b> Moist, well-drained soil.	Full Sun	LSP to EF	25" wide

A bright shade of purple, with a white eye. Hybrid vigor translates to large flowers and a thick glossy foliage. Plants are well-branched and start to spread early on, creating a nice mounded, trailing habit. Like its upright cousin, 'Cora', 'Cora Cascade' also exhibits a very high tolerance to aerial Phytophthora. Annual Vinca, are heat loving annuals that produce large, flat flowers with overlapping petals over glossy green foliage - an easy substitute for impatiens in full sun. A mounded and spreading habit makes 'Cora Cascade' ideal for summer baskets, window boxes, and containers.

<b>Vinca, Cascading 'Mediterranean XP Dark Red'</b>	Periwinkle; Madagascar Periwinkle; Rose Periwinkle	Dark red	4"-7" tall
Moist, well-drained soil.	Full sun	LSP-F	16"-20" wide

### Prairie Star

20% larger blooms than the plain 'Mediterranean' and a significantly better spreading habit. 1 1/2" to 1 3/4" wide dark red flowers.

<b>Vinca, Cascading 'Mediterranean XP Hot Rose'</b>	Periwinkle; Madagascar Periwinkle; Rose Periwinkle	Hot rose	4"-7" tall
Moist, well-drained soil.	Full sun	LSP-F	16"-20" wide

### Prairie Star

20% larger blooms than the plain 'Mediterranean' and a significantly better spreading habit. 1 1/2" to 1 3/4" wide hot rose flowers.

<b>Vinca, Cascading 'Mediterranean XP White'</b>	Periwinkle; Madagascar Periwinkle; Rose Periwinkle	Pure white- plants are slightly more prostrate than others in the series.	4"-7" tall
Moist, well-drained soil.	Full sun	LSP-F	16"-20" wide

### Prairie Star

20% larger blooms than the plain 'Mediterranean' and a significantly better spreading habit. 1 1/2" to 1 3/4" wide pure white flowers. The plants are more spreading than others in the series.

<b>Vinca, Cascading 'Nirvana Cascade Pink Splash'</b>	Periwinkle; Madagascar Periwinkle; Rose Periwinkle	Light and vibrant pink	6"-8" tall
Moist, well-drained soil.	Full sun	LSP-F	18"-22" wide

### Prairie Star

The large, vibrant flowers have a large magenta-pink eye bleeding out into the white edge. The flowers can be up to 2" across. Low-growing, semi-trailing habit with good branching. Vinca much prefers dry soil and heat, but the 'Nirvana' vinca performs well in wet conditions and it has excellent disease resistance. Prairie Star Award Winner.

## Annual Flower/Foliage

### Vinca, Mixture 'Jams 'N Jellies American Pie Mixture'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle Dark purple, bright red, and white

10"-14" tall

Moist, well-drained soil.

Full sun

LSP-F

10"-12" wide

Show your American colors with this patriotic mix of dark purple (the "blue"), bright red, and clear white! Includes the All-America Selections winner 'Jams & Jellies Blackberry' (the dark purple in the mix). The dark purple hues stand out brilliantly against the red and white of the other colors in the mix. 2" wide flowers have tiny white eyes. Blooms early and stays in color til frost!

### Vinca, Red 'Cora Red'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle Brilliant dark red with tiny white eye

14"-16" tall

Moist, well-drained soil.

Full sun

LSP-F

14"-25" wide

Very uniform in plant habit, these heat tolerant, disease-resistant, robust plants produce an abundance of showy, 2" wide, brilliant dark red blooms. Lush, glossy foliage. The 'Cora' series of Vinca has patented resistance to the disease Aerial Phytophthora, meaning they will thrive and grow strong, where other vincas will die!

### Vinca, Red 'Pacifica Burgundy Halo'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle Burgundy and white

10"-16" tall

Moist, well-drained soil.

Full sun

LSP-F

8"-12" wide

### Prairie Star

Large, 2 1/2" deep, velvety burgundy flowers with large white centers. The glossy, dark green foliage can be literally covered with flowers due to plant vigor and heat tolerance. Upright, basal-branching plants resist stretching even in intense heat.

### Vinca, Red 'Titan Really Red'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle Bold red

14"-16" tall

Moist, well-drained soil.

Full sun

LSP-F

12"-23" wide

Robust plants have superior branching. More stress tolerant due to hybrid vigor- withstands heat and drought and can withstand cooler and wetter conditions than most Vinca varieties. Bold red blooms.

### Vinca, Red 'Valiant Burgundy'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle Burgundy Red

14" to 20" tall

**NEW** Moist, well-drained soil.

Full Sun

LSP to EF

10" to 12" wide

Bright burgundy-red blooms! The 'Valiant' series is more vigorous than the competition and it comes with disease resistance to aerial Phytophthora under field conditions - a "Win-Win" for landscape programs. Makes well-branched plants with large flowers that show high-impact color in the landscape. Superior hybrid vigor allows Valiant vinca landscapes to better survive environmental stresses such as sun, heat, drought, and cool/damp conditions. Low maintenance with good landscape longevity.

### Vinca, White 'Cora White'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle Pure white

14"-16" tall

Moist, well-drained soil.

Full sun

LSP-F

14"-25" wide

Very uniform in plant habit, these heat tolerant, disease-resistant, robust plants produce an abundance of showy, 2" wide, pure white blooms. Lush, glossy foliage.

### Vinca, White 'Titan Polka Dot'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle White with a small red eye

14"-16" tall

Moist, well-drained soil.

Full sun

LSP-F

12"-23" wide

### Prairie Star

Very early to bloom. Very large, well-branched plants are covered with huge 2" pure white flowers with a small red eye. Prairie Star Award Winner.

## Annual Flower/Foliage

### Vinca, White 'Valiant White'

Periwinkle; Madagascar Periwinkle; Rose Periwinkle Pure white

14"-20" tall

**NEW** Moist, well-drained soil.

Full sun

LSP-F

10"-12" wide

Extra large flowers of pure white. Upright, well-branched, plants are tolerant of phytothera and show superior plant vigor during hot sun, drought and cool/damp conditions.

### Xanthosoma aurea 'Golden Delicious' (Yellow Elephant Ear) ('Lime Zinger')

Yellow Elephant Ear

2'-4' tall

Prefers rich, moist, well-drained soil.

Part to Full shade

2'-3' wide

Bright yellow foliage in partial shade and chartreuse in full shade; great in combination with Colocasia 'Black Magic'; leaves are up to 2' long; tolerates wet conditions; great for containers; syn. 'Lime Zinger', 'Chartreuse Giant', 'Mufaffa'.

### Zinnia 'Cut & Come Again'

Mix

24"-30" tall

Well-drained soil.

Full sun

SU-F

8"-10" wide

Zinnias add bold, vibrant color to gardens. The more you cut, the more they bloom! Heat-loving and very easy to grow. This is Burpee's favorite double zinnia! Long-stemmed double flowers 2 1/2" across are wonderful for cutting as well as in the garden. As the name implies, whenever you cut blooms, additional stems appear and soon blossom. They keep on blooming from midsummer to frost. Blend of pink, bright scarlet, yellow, salmon, white, magenta, cream, rose, orange, and more! A variety loved by all kinds of butterflies!

### Zinnia elegans 'Cupcake Mix'

Vanilla, lemon, peach, cherry and raspberry

30" tall

Well-drained soil.

Full sun

SU-F

12" to 15" wide

A party in your garden. A vibrantly colored smorgasbord of scrumptious flowers. The fully double and semi double, 2" blooms burst open into puffy mounds of petals. Like single serving temptations, they look as though they are heaped and piled high with mouth-watering frosting. Fill beds, borders and planters with these delightful garden treats. It blooms for months, holds up well in bouquets and dries beautifully.

### Zinnia elegans 'Dreamland Red'

Bright red

10"-12" tall

Well-drained soil.

Full sun

SU-F

10"-12" wide

Enjoy the elegance of these 4" Dahlia-form flowers of the richest red. They arise atop neat compact plants just 6 weeks after planting. Very rugged and weather tolerant, this sun-lover renews itself quickly after storms, thanks to waxy petals and a very tough, vigorous plant constitution. Attracts butterflies.

### Zinnia elegans 'Magellan Orange'

Bold orange

12"-14" tall

Well-drained soil.

Full sun

ESU-F

10"-12" wide

Vigorous, uniform plants have exceptional flower quality, showing off large, fully double 4" to 5" flowers of bold orange atop compact, uniform plants; new growth continually covers spent blooms so the plants always look fresh.

### Zinnia elegans 'Magellan Pink'

Medium pink

12"-14" tall

Well-drained soil.

Full sun

ESU-F

10"-12" wide

Vigorous, uniform plants have exceptional flower quality, showing off large, fully double 4" to 5" flowers of strong, medium pink atop compact, uniform plants; new growth continually covers spent blooms so the plants always look fresh.

### Zinnia elegans 'Magellan Scarlet'

Bright scarlet

12"-14" tall

Well-drained soil.

Full sun

ESU-F

10"-12" wide

Vigorous, uniform plants have exceptional flower quality, showing off large, fully double 4" to 5" flowers of bright scarlet atop compact, uniform plants; new growth continually covers spent blooms so the plants always look fresh.

## Annual Flower/Foliage

<b>Zinnia elegans 'Magellan Yellow'</b>			Bright yellow	12"-14" tall
Well-drained soil.	Full sun	ESU-F		10"-12" wide

Vigorous, uniform plants have exceptional flower quality, showing off large, fully double 4" to 5" flowers of bright yellow atop compact, uniform plants; new growth continually covers spent blooms so the plants always look fresh.

<b>Zinnia elegans 'Queeny Lime Orange'</b>			Dark coral/peach/orange to a light peach with a dark center	18"-24" tall
<b>NEW</b> Well-drained soil.	Full Sun	ESU to EF		8" to 14" wide

A "WOW" color in an easy-to-grow zinnia is what Queeny Lime Orange brings to the garden. Sporting lovely, large, dahlia-like blooms on a sturdy, compact plants, this variety provides cut flower gardeners and growers with a wonderful hue for today's floral trends. The unique color evolves from dark coral/peach/orange to a light peach with a dark center as the flowers age. In the trial gardens, visitors loved the show-stopping color and large blooms, making it this year's fan-favorite. This new AAS Winner is also perfect for cut flower gardens as each uniform plant produces prolific deeply fluted blooms that last about 3 weeks in a vase, without preservatives or feed.

<b>Zinnia elegans 'Solmar Mix'</b>			Mix	18" to 26" tall
<b>NEW</b> Well-drained soil.	Full Sun	ESU to EF		24" to 28" wide

This early flowering mix will create a fabulous display for either pots, containers or garden borders. The gorgeous large flower heads last well with good heat and drought tolerance and excellent disease resistance. These exciting annuals need little maintenance to put on a fabulous display. Deadheading flowers ensures more flowering throughout the season.

<b>Zinnia elegans 'Uproar Rose'</b>			Deep rose	2'-3' tall
Well-drained soil.	10 Full sun	SU-F		24"-27" wide

This beautiful variety is head and shoulders above other cut flower zinnias. Two extra inches of garden height add stature to strong, well-branched plants covered with fully double, deep rose blooms.

<b>Zinnia elegans 'Zinnita Mix'</b>			Mix	6"-8" tall
Well-drained soil.	Full sun	ESU-F		8"-10" wide

Fully double 1½" to 2" blooms flower in abundance on well-branched plants with a globe-shaped habit that forms mounds; orange, rose, scarlet, white, and yellow flowers; Prairie Star.

<b>Zinnia grandiflora 'Swizzle Scarlet &amp; Yellow'</b>			Gold and scarlet	10"-12" tall
Well-drained soil.	Full sun	SU-F		8"-12" wide

Large, fully double bicolored blooms have scarlet petals with golden yellow tips; full, bushy plants are great for borders and containers!

<b>Zinnia interspecific cross 'Profusion Double Deep Salmon'</b>			Vibrant deep salmon	10"-16" tall
Well-drained soil.	Full sun	LSP-F		12"-22" wide

Dramatic, intensely vibrant, deep salmon, double flowers are 2 1/2" to 3" wide. Early, continuous blooming plants perform well under both warm and cool conditions with high humidity. Excellent tolerance to disease, including Powdery Mildew.

## Annual Flower/Foliage

### Zinnia interspecific cross 'Profusion Double Hot Cherry'

Vivid deep rose

8"-16" tall

Well-drained soil.

Full sun

LSP-F

12"-22" wide

Vivid deep rose, double flowers are 2 1/2" to 3" wide. The bright color does not fade, even under high temperatures. Early, continuous blooming plants perform well under both warm and cool conditions with high humidity. Excellent tolerance to disease, including Powdery Mildew.

### Zinnia interspecific cross 'Profusion Mix'

Mix

10"-16" tall

Well-drained soil.

Full sun

LSP-F

12"-22" wide

2" to 3" single flowers in a mix of all the 'Profusion' colors; dense, bushy habit; good tolerance to powdery mildew.

### Zinnia interspecific cross 'Profusion Orange'

Bright orange

10"-16" tall

Well-drained soil.

Full sun

LSP-F

12"-22" wide

#### Prairie Star

Vivid 2" to 3" bright orange single blooms; dense, bushy habit; good tolerance to powdery mildew; AAS Winner; Prairie Star Award Winner.

### Zinnia interspecific cross 'Profusion Red'

True red

8" to 14" tall

Well-drained soil.

Full sun

LSP-F

This newest Profusion Zinnia winner is the fourth coloring the single flower series to win the coveted AAS Winner award. The original Profusions were groundbreaking plants because of their compact form, disease resistance, early and continuous 2 1/2" blooms all season long and ease in growing. Judges raved about the vibrant, perfectly true red color of this zinnia which doesn't fade in summer's intense rays. As one judge stated, "We have waited for years for this true red color in zinnias!" Gardeners will find many uses for the true red zinnia that's easy to grow and a favorite of pollinators.

### Zinnia linearis 'Crystal Orange'

Orange

8"-15" tall

Well-drained soil.

Full sun

LSP-F

1'-2' wide

Bright, deep orange 1" to 2" daisy-like flowers; compact habit.

### Zinnia linearis 'Crystal White'

Pure white

8"-15" tall

Well-drained soil.

Full sun

LSP-F

1'-2' wide

#### Prairie Star

Pure white 1" to 2" daisy-like flowers; compact habit; AAS Winner; Prairie Star.

### Zinnia linearis 'Crystal Yellow'

Deep yellow

8"-15" tall

Well-drained soil.

Full sun

LSP-F

1'-2' wide

Deep yellow 1" to 2" daisy-like flowers; compact habit.

### Zinnia marylandica 'Zahara Cherry'

Cherry rosey

12"-15" tall

Well-drained soil.

Full sun

SU-F

1'-2' wide

#### Prairie Star

2" to 2 1/4" wide very deep cherry single to semi-double flowers. The flower color gets deeper in full sun with no fading. All-new disease-tolerant and heat loving plants. Once established in the ground, this heat-loving and drought-tolerant Zinnia has very low watering needs.

## Annual Flower/Foliage

### Zinnia marylandica 'Zahara Double Brilliant Mix'

Cherry, fire, and yellow

12"-15" tall

Well-drained soil.

Full sun

SU-F

1'-2' wide

Fully double, 2 1/2" wide flowers in a brilliant, bright mix of fire, cherry, and yellow! Proven resistance to leaf spot and mildew. Heat and drought tolerant plants are easy to grow in gardens.

### Zinnia marylandica 'Zahara Double Cherry Improved'

Cherry rose

12"-15" tall

Well-drained soil.

Full sun

SU-F

1'-2' wide

#### Prairie Star

Fully double, 2 1/2" wide deep cherry rose flowers. Proven resistance to leaf spot and mildew. Heat and drought tolerant plants are easy to grow in gardens.

### Zinnia marylandica 'Zahara Double Fire'

Scarlet-orange

12"-15" tall

Well-drained soil.

Full sun

SU-F

1'-2' wide

#### Prairie Star

Fully double, 2 1/2" wide scarlet-orange flowers. Proven resistance to leaf spot and mildew. Heat and drought tolerant plants are easy to grow in gardens. 2010 All America Selections Winner!

### Zinnia marylandica 'Zahara Double Raspberry Ripple'

Raspberry Pink

16" to 20" tall

**NEW** Well-drained soil.

Full Sun

LSU to EF

16" to 20" wide

New bicolor for the Zahara Double Series! The only fully double, disease-resistant zinnia series makes a huge color show! The competition has smaller, semi-double flowers. Award-winning, all-season performance and durability in landscapes and containers, especially in sunny, hot and dry conditions. Intermediate size is perfect for mid-level plantings in the landscape. Works well in containers, too. Color can vary under different environmental rose; as flowers age and under more heat, the white comes out more.

### Zinnia marylandica 'Zahara Double Salmon Rose'

Glowing salmon-rose

12"-15" tall

Well-drained soil.

Full sun

SU-F

1'-2' wide

#### Prairie Star

Fully double, 2 1/2" wide glowing salmon-rose flowers. Proven resistance to leaf spot and mildew. Heat and drought tolerant plants are easy to grow in gardens.

### Zinnia marylandica 'Zahara Double Strawberry'

Strawberry rose

12"-15" tall

Well-drained soil.

Full sun

SU-F

1'-2' wide

#### Prairie Star

2 1/2" wide, fully double flowers of strawberry rose with whitish petals towards the center of the blooms. The highly basal-branching plants create a beautiful symmetrical plant habit that is completely covered at first with buds, then with consistently double flowers. Heat and drought tolerant plants are easy to grow in gardens. Highly dependable tolerance to leaf spot and mildew diseases.

### Zinnia marylandica 'Zahara Double Yellow'

Lemon

12"-15" tall

Well-drained soil.

Full sun

SU-F

1'-2' wide

#### Prairie Star

Fully double, 2 1/2" wide sunny lemon flowers. Proven resistance to leaf spot and mildew. Heat and drought tolerant plants are easy to grow in gardens.

## Annual Flower/Foliage

### Zinnia marylandica 'Zahara Raspberry'

Dark rose-purple

12"-15" tall

Well-drained soil.

Full sun

SU-F

1'-2' wide

#### Prairie Star

2 1/2" wide flowers of dark rose with purple undertones. The highly basal-branching plants create a beautiful symmetrical plant habit that is completely covered at first with buds, then with consistently double flowers. Heat and drought tolerant plants are easy to grow in gardens. Highly dependable tolerance to leaf spot and mildew diseases.

### Zinnia marylandica 'Zahara Red'

Scarlet-orange

12"-15" tall

Well-drained soil.

Full sun

SU-F

1'-2' wide

#### Prairie Star

2" to 2 1/4" wide, fiery scarlet-orange, single to semi-double flowers. The flower color gets deeper in full sun with no fading. All-new disease-tolerant and heat loving plants. Once established in the ground, this heat-loving and drought-tolerant Zinnia has very low watering needs.

### Zinnia marylandica 'Zahara Starlight Rose'

Rose and white

12"-15" tall

Well-drained soil.

Full sun

SU-F

1'-2' wide

#### Prairie Star

White petals have a central rose paint stripe in the center of each petal. 2 1/2" wide single flowers. The color pattern varies by environment, with the best color coming in environments with high sunlight, good fertilization, and cool nights. The rose color will fade in the heat. Proven resistance to leaf spot and mildew. Heat and drought tolerant plants are easy to grow in gardens. 2010 All America Selections Winner!

### Zinnia marylandica 'Zahara Sunburst'

Gold and mahogany red

12"-15" tall

Well-drained soil.

Full sun

SU-F

1'-2' wide

#### Prairie Star

Enjoy some "sun" (as in 'Zahara Sunburst'!) in your garden even when it's cloudy or raining! Its unique mahogany red and yellow bicolor flower pattern is a first in Zinnia marylandica. The flowers bursts open gold, followed by the appearance of a mahogany red stripe down the center of each petal. Cool night temperatures will thicken the stripe, while warm nights will diminish it.

### Zinnia marylandica 'Zahara XL Fire Improved'

Scarlet-orange

18"-24" tall

Well-drained soil.

Full sun

SU-F

1'-2' wide

Large plants with large-size Zahara flowers in scarlet-orange. High disease and drought tolerance.

### Zinnia marylandica 'Zahara XL Pink'

Rich pink

18"-24" tall

Well-drained soil.

Full sun

SU-F

1'-2' wide

Large plants with large-size Zahara flowers in rich pink with yellow-orange centers. High disease and drought tolerance.

### Zinnia marylandica 'Zahara XL White'

White

18"-24" tall

Well-drained soil.

Full sun

SU-F

1'-2' wide

Large plants with large-size Zahara flowers in clean white with yellow centers. High disease and drought tolerance.

### Zinnia marylandica 'Zahara XL Yellow'

Bright yellow

18"-24" tall

Well-drained soil.

Full sun

SU-F

1'-2' wide

Large plants with large-size Zahara flowers in bright yellow with yellow centers. High disease and drought tolerance.

## Annual Flower/Foliage

### Zinnia 'UpTown Frosted Strawberry'

Pink shades

18"-24" tall

Well-drained soil.

Full sun

SU-F

18"-24" wide

Very large, double blooms produce a gorgeous tapestry of color! Pink petals are brushed with magenta in the centers, and tipped and edged in cream, for a frosted look! Floriferous, medium-sized plants offer a continuous fiesta of dreamy color from spring into fall. Easy-growing, high-performance spreading plants are disease-resistant, and heat- and drought-tolerant. Produces a gorgeous splash in containers, borders and beds. In trial at the Missouri Botanical Gardens, it was found to be extremely vigorous, like a *Z. marylandica* on steroids! Even when planted at the recommended spacing, they crowded out other zinnias in a trial bed!

### Zinnia 'UpTown Orange Blossom'

Vivid deep orange

18"-24" tall

Well-drained soil.

Full sun

SU-F

18"-24" wide

Very large, single vivid deep orange blooms produce a gorgeous tapestry of color! Floriferous, medium-sized plants offer a continuous fiesta of dreamy color from spring into fall. Easy-growing, high-performance spreading plants are disease-resistant, and heat- and drought-tolerant. Produces a gorgeous splash in containers, borders and beds. In trial at the Missouri Botanical Gardens, it was found to be extremely vigorous, like a *Z. marylandica* on steroids! Even when planted at the recommended spacing, they crowded out other zinnias in a trial bed!

## Annual Grass

### Carex comans 'Amazon Mist'

Sedge

10" tall ,14"-18" wide

Well-drained soil.

Part to full sun

14"-18" wide

Twisted tips on the foliage of this light green and medium green variegated variety make it a great addition to containers and flower beds.

### Carex flagellifera 'Toffee Twist' ('Bronzita')

Sedge

16"-18" tall

Well-drained soil.

Part to full sun

15"-18" wide

#### Prairie Star

Cinnamon colored leaves are similar to *C. buchananii*, but with a more sweeping habit; great as a trailing component in a container; syn. 'Bronzita'. Prairie Star Award Winner.

### Carex testacea 'Prairiefire'

Sedge

16" tall ,1' wide

Well-drained soil.

Part to full sun

1' wide

True to its name, this semi-erect variety looks like it is no fire, with foliage green at the base and orange on top. The color intensifies during the summer.

### Eragrostis tef 'Ruby Silk'

Love Grass

Rich burgundy

18"-24" tall

Prefers consistently moist soil, though it is drought tolerant.

Full sun to part shade

MSU-EF

18" wide

Great for containers or for use as a cut flower. Rich burgundy seed heads drape over compact clumps of upright grass. Long bloom time. For use as a cut or dried flower, harvest when the panicles are fully lopened, yet still ruby in color. Keeps its color when dried and looks great in both fresh and dried arrangements.

### Isolepis cernus (Fiber Optic Grass)- SVD

Fiber Optic Grass; Mop Sedge

10"-12" tall

Prefers constantly moist to wet soil.

Part to Full sun

8"-10" wide

This easy to grow, fast growing grass adapts to almost any soil; particularly fond of wet soils along a pond or water garden; its very bright green, fine, cascading leaves make it a great addition to a container garden; also grows well indoors in good light.

### Melinis 'Pink Crystals' (Ruby Grass)

Ruby Grass; Natal Grass

Ruby and silver

20"-24" tall

Moist, well-drained soil.

Full sun

SU

12"-20" wide

#### Prairie Star

Shimmering heads of ruby and silver flowers that sparkle like champagne bubbles from mid summer to early fall; Plant Select Award Winner; formerly listed under *Rhynchelytrum*.

### Ophiopogon arabicus 'Nigrescens'

Black Mondo Grass

Blush

6"-8" tall

Moist, well-drained soil.

7 Part to full sun

SU

10"-18" wide

Bold. black foliage! Prized by gardeners that have it, envied by those that don't! This lily relative has true black, 2 1/4" wide grass-like foliage. Easy to grow, it is perfect for containers or flower beds (try underplanting it with *Lysimachia nummularia* 'Aurea'!). A slow growing plant, we recommend treating it as a houseplant in the winter so that it will continue to grow! Marginally hardy in zones 5 & 6. Spikes of blush flowers give way to large, non-edible black berries.

### Pennisetum x advena 'Sky Rocket'

Fountain Grass

Smoky pink

20"-30" tall

Light, well-drained soil.

Part to full sun

MSU-F

2' wide

#### Prairie Star

This green and white variegated sport of *P. 'Fireworks'* is a strong grower that exhibits stable variegation all season long. Green leaves with white striped margins form a beautiful vase-like clump topped with smoky pink, arching plumes that turn cream as they age. Since the plumes are sterile, the plant blooms from midsummer all the way til frost.

## Annual Grass

### **Pennisetum advena 'Eaton Canyon' ('Dwarf Rubrum')- SVDs**

Dwarf Purple Fountain Grass

Rose-red

1'-3' tall

Light, well-drained soil.

Full sun

SU-F

12"-18" wide

Dwarf Purple Fountain Grass; this dwarf form has a slightly more narrow leaf blade; dried flower.

### **Pennisetum advena 'Fireworks'**

Variegated Red Fountain Grass

Purple-black

24"-40" tall

Light, well-drained soil.

Part to full sun

LSU-F

18"-30" wide

#### **Prairie Star**

White and pink striped foliage is variable in color and changes depending on the temperature. Upright growth habit. Dark purple tassels in late summer. Excellent for mixed containers.

### **Pennisetum advena 'Rubrum'- SVD**

Purple Fountain Grass

Rose-red

4' tall

Light, well-drained soil.

Full sun

LSU-F

3' wide

#### **Prairie Star**

Purple Fountain Grass; Holds its purplish red foliage color all season; rose-red flowers; dried flower; Prairie Star Award Winner.

### **Pennisetum glaucum 'Copper Prince'**

Ornamental Millet

Rose-bronze

2'-3' tall

**NEW**

Part to full sun

MSU-LSU

18"-24" wide

The ultimate accent plant for landscapes, gardens, and large containers. Leaves begin a light caramel color, deepen to copper as they mature. Dramatic rose-bronze foxtail panicles rise in late summer. Named 'Best Novelty' at the 2017 Colorado State University Flower Trial Garden!

### **Pennisetum glaucum 'Jade Princess'**

Ornamental Millet

Mahogany-red

18"-36" tall

Light, well-drained soil.

Part to full sun

MSU-LSU

18"-25" wide

#### **Prairie Star**

The most compact habit of all the ornamental millets. Intense lime green leaves on plants with a controlled and mounded shape. The large mahogany-red, fuzzy bottlebrush flower spikes are free from pollen, adding to the appeal! The large fluffy panicle flower emerging from the foliage brings to mind the image of a fox sneaking through the tall grass. Especially good for containers, but excellent in the landscape as well! Very compact and easy to grow! A wonderful attention-getter- plant it where you want it really noticed! Dr. Alan Stevens of K-State suggests planting it in front of businesses as everyone who sees it wants to get close to it! Prairie Star Award Winner!

### **Pennisetum glaucum 'Purple Majesty'**

Ornamental Millet

Deep bronze-red

3'-4' tall

Light, well-drained soil.

Part to full sun

SU-F

24"-28" wide

#### **Prairie Star**

Ornamental Millet; Deep purple leaves, stems, and 8" to 14" long seedheads; the deepest color is in full sun; immature seedheads can be cut and used in dramatic floral arrangements; left on the plant, the millet seed spikes attract birds; very tolerant of heat and low moisture; AAS Winner; Prairie Star Award Winner.

### **Pennisetum purpureum 'Vertigo'**

Pearl Millet

Black

36"-50" tall

Light, well-drained soil.

Full sun

MSU-EF

2'-4' wide

#### **Prairie Star**

A wonderful "thriller" for drama in large containers and in the landscape! Particularly dramatic in clusters, mass plantings, or along slopes as well. Wide, spiky, deep purple, almost black foliage has a gracefully cascading habit. Fast growing. Stocky bloom spikes of black appear from mid summer to first frost, but they take a backseat to the beautiful foliage! A top performer in trials all over the US!

## Annual Grass

### **Stipa tenuissima (Pony Tails)**

Stripa Grass; Feather Grass; Pony Tails;  
Needle Grass; Spear Grass

Straw

1'-2' tall

Rich, well-drained soil.

6 Part to Full sun

LSP-SU

8"-12" wide

Looks like a bright green pony tail emerging from the soil; graceful straw colored plumes; great for containers and flower beds; wonderful in both fresh and dried flower arrangements; attracts butterflies; incredible winter interest; deer resistant; syn. *Nasella tenuissima* marginally hardy in zone 6.

## Annual Succulent

### Aeonium arboreum 'Kiwi'

Pale yellow

6"-12" tall

Lean, well-drained soil.

Full sun

SU

4"-8" wide

'Kiwi' dazzles the garden with rosettes up to 5" wide, in a kaleidoscope of pinks, oranges, creams, and greens. Pale yellow flowers appear in summer. Has an upright/mounding habit that can reach up to 3' if overwintered indoors. One of the most colorful Aeoniums.

### Aeonium arboreum atropurpureum

Pale yellow

32" tall

Well-drained soil.

Part to Full sun

SU

1' wide

This unusual succulent produces dense, flat rosettes of reddish black leaves on elongated stems; an excellent xeric succulent for troughs, rock gardens, or containers, both indoors or outside; syn. Sempervivum arboreum; Megalonium.

### Agave guiengola 'Creme Brulee'

Century Plant

Yellow

18"-30" tall

Very well-drained soil.

Part to full sun

infrequent

2'-3' wide

Forms an elegant, open rosette of wide, incredibly thick, glaucous blue-green, boat-shaped, soft leaves margined by a beautiful butter cream yellow to creamy white 1" wide edge. Tiny brown teeth accent the leaf margins. Rarely shows its light yellow flowers. Syn. A. g. 'Marginata'.

### Agave lophantha 'Splendida'

Center Stripe Agave; Mexican Agave

1' tall

Very well-drained soil.

Part to full sun

infrequent

18" wide

2" wide x 7" long leaves are dark green with a striking greenish yellow central band visible on both the upper and lower leaf surfaces, and with prominent white teeth along the margins.

### Anacampseros rufescens

Pink to rose-purple

3" tall ,4"-18" wide

Lean, well-drained soil.

Full sun

## 9 to 11

If you've been looking for a hot pink succulent - here it is! Large, delicious pink to rose-purple flowers and interesting succulent rosettes. Forms small spiraling star-shaped rosettes with fleshy dark olive green pointed leaves that turn reddish purple in bright light. Attractive, white filament-like hairs are present along the stems adding a nice contrast to the dark foliage. Single flowers arise on the stems above the leaves and are pink to rose-purple, 3/4" wide, and resemble flattened Portulaca flowers; they open in late afternoon closing every night. It grows best with full sun to partial shade and ample airflow, with a well-drained soil mix (water thoroughly when soil is dry to the touch). A Portulaca cousin from the Drakenbergs, it is perfect for troughs, rock gardens, and containers where long lasting color can be much in need. Also makes an excellent potted windowsill plant. Provide plenty of light and keep the soil dry for the non-stop blast of color this rare, no-maintenance plant provides! It has good cold tolerance, but protect from frost to avoid scarring on the foliage.

### Ceropegia woodii (String of Hearts)

String of Hearts, Hearts Entangled, Hearts-on-a-String, Rosary Vine

Purple

1"-3" tall

Moist, well-drained soil.

Part shade

SU-F

1' wide

A curious plant all around, the String of Hearts bears long strings of thick, succulent, heart-shaped, inch long leaves of dark olive green with silver marbling veins above and a deep purple underside. Here and there along the stems are woody, pea-shaped tubers which, if put in contact with soil, will root and produce stems of their own. Plants are perfect in hanging baskets, window boxes, and other containers where the long stems can trail up to 3' long! The inch long flowers, while not striking, are certainly odd-looking- they resemble tiny purple lanterns. An excellent, very easy to grow houseplant indoors in bright light to full sun. When grown outdoors, it needs partial shade with protection from the hot midday sun. Water well, then allow the soil to dry before watering again.

### Crassula capitella (Sharktooth)

6"-10" tall

Very well-drained soil.

Part to full sun

12"-20" wide

This small succulent from South Africa has medium green, triangular, shark's-tooth-like leaves overlapping in stacked, pagoda-like rosettes that add red tones in the sun! Small white flowers appear at the top before dropping its leaves to produce more plants. Full sun for best leaf color. So unique!!

## Annual Succulent

<b>Crassula coccinea 'Campfire'</b>	Stonecrop	Bright red or white	1'-2' tall
Very well-drained soil.	Part to full sun	SU-F	8"-16" wide

An exciting stonecrop that has striking coloration of greenish yellow and harvest orange-red! Tubular, bright red, sometimes white flowers are borne from summer to fall. Very interesting!

<b>Crassula mucosa pseudolycopodiodes 'Princess Pine'</b>	Rattail Crassula	Greenish yellow and red	4"-12" tall
Very well-drained soil.	Part to full sun	SP	

It looks like it came from the depths of the ocean instead of the parched regions of Africa! Tightly overlapping, olive green leaves form long strands. In the spring, it bears minute, tubular, greenish yellow flowers, to 1/8" across, sometimes tipped reddish brown. A unique plant that has a nicely spreading habit, perfect for smaller containers.

<b>Crassula pellucida 'Variegata'</b>	Calico Kitten	White	2"-4" tall
Lean, well-drained soil.	Part to full sun	SP	6"-12" wide

This succulent is the cat's pajamas, with tiny rose, pink, cream, and green variegated triangular leaves. Small white flowers in spring and intermittently through the rest of the year. Great trailing out of containers!

<b>Crassula perfoliata var. falcata</b>	Propeller Plant, Sickle Plant	Scarlet to orange-red	1'-2' tall
Lean, well-drained soil.	Part to full sun	MSU	15"-18" wide

This unique succulent has oblong, sickle-shaped, glaucous gray-green leaves (4" long x 1" wide) in overlapping pairs. A real conversation piece! Tiny scarlet to orange-red flowers are massed together in very showy dense clusters that rise above foliage in mid summer. The flowers open slowly and last for nearly a month when in full bloom. Attractive and interesting when not in bloom, but a show stopper when the bright flowers emerge. Needs excellent drainage.

<b>Echeveria 'Black Knight'</b>		Hot coral-red	5"-7" tall
Lean, well-drained soil.	Part to full sun	LSU-F	6"-8" wide

This incredibly dark selection forms a symmetrical rosette of very deep blackish purple, thick, fleshy, pointed leaves. In the very center of the rosette, where new leaves are formed, there's a bright lime green glow! The rosettes are so perfect looking, you'll find yourself touching them to make sure they're real! Hot coral-red flowers appear on slender green stems which emerge from the sides of the rosettes in late summer into fall. The contrast between the flower and foliage colors is truly striking!

<b>Echeveria desmetiana (peacockii)</b>	Mexican Hen & Chicks	Orange-red or Red-pink	5"-12" tall
Lean, well-drained soil.	9 Full sun	ESU	10" wide

Succulent silvery blue rosettes are frosted white and have red tips and margins. One-sided cymes of orange-red or red-pink flowers in early summer. Syn. E. peacockii.

<b>Echeveria 'Devotion'</b>		green and red	6" to 12" tall
Lean, well-drained soil.	Full sun	LSU-W	12" to 15" wide

This soft little fuzzy succulent has beautiful leaf color that adds interest to small gardens and pots. It is a rosette-forming species that hails from northern Mexico. It forms small asymmetrical rosettes comprised of fleshy, football-shaped leaves with a burnish-red cast along the leaf edges. The rosette will occasionally send out pups, or lateral plantlets. This succulent has large, beautiful flowers, but it is not a heavy bloomer. In the spring it sends up stems topped with orange, bell shaped flowers with golden throats. Each stem may include many flowers that open at different times for a longer season of color. The blooms are highly attractive to hummingbirds. It prefers full sun and needs very porous soil Excellent in bowls and wreaths.

<b>Echeveria hybrida 'The Rose'</b>		Pink to rose	6" tall ,8" wide
Lean, well-drained soil.	9 Full sun	MSU-EF	

Thick, sculptured leaves form a metallic rose colored, ruffled "rose blossom" up to 6" in diameter! Pink to rose colored flowers are a secondary note! A collector's dream!

## Annual Succulent

### **Echeveria 'Perle von Nurnberg'**

Mexican Hen & Chicks

Bright coral

4"-10" tall

Lean, well-drained soil.

8 Part to full sun

SU

6"-8" wide

Beautiful rosettes of soft gray-brown leaves have strong deep pink highlights and are dusted in powdery white. Bright coral flowers emerge in summer on footlong reddish stems, attracting hummingbirds!

### **Echeveria pulvinata nova 'Frosty'**

Chenille Plant

Orange

4"-8" tall

Lean, well-drained soil.

Part to full sun

W

4"-8" wide

Forms shrubby rosettes of chunky, spatulate leaves covered densely with snow white hairs, giving the plant the appearance of frosted velvet. If brought inside for the winter, arching racemes of bell-shaped orange flowers make their appearance in the winter. Beautiful color accent for wreaths, dish gardens, and rock gardens.

### **Echeveria runyonii 'Topsy Turvy'**

Peach

4"-6" tall

Lean, well-drained soil.

7 Part to full sun

LSU-F

8"-12" wide

Rosettes of succulent gray frilled leaves with curled up leaf tips; the pearly leaves look like they are tightly packed upside down into a tight ball- like an ivory football! Perfect for a succulent trough for the patio or bistro table top.

### **Euphorbia tirucalli 'Sticks of Fire' (Firesticks)**

Red Pencil Tree

Insignificant

4'-8' tall

Very well-drained soil.

Part to full sun

3'-5' wide

The many branches on this interesting succulent are as thin as pencils and a reddish golden color. The color tends to fade closer to yellow in the summer, and becomes redder in colder temperatures. The small leaves are inconspicuous and soon drop. Be careful when handling (gloves are recommended), as the milky sap can burn the skin. More tolerant of poor drainage than many other succulents.

### **Graptosedum 'Bronze'**

Graptopetalum x Sedum

Pale yellow

6" tall ,6" wide

Very well-drained soil.

9 Full sun to light shade

SU

This small spreading succulent has green leaves tipped and tinged with rosy beige and deep bronze; pale yellow flowers in the summer.

### **Ice Plant (Aptenia cordifolia variegata) 'Crystal' ('Mezoo Trailing Red')**

Variegated Ice Plant, Aptenia cordifolia variegata 'Crystal'.

Deep rose

2" tall ,12"-18" wide

Very well-drained soil.

10 Full sun

SP-F

12"-18" wide

An attractive ice plant from South Africa's arid sub tropics. Creeping, hanging succulent with soft, fleshy cream-edged green leaves covered with shiny bubbles of watery fluid. Small deep rose flowers all season long. For combination planters, troughs, and rock gardens. Syn. 'Mezoo Trailing Red'.

### **Ice Plant (Aptenia cordifolia) 'Hot Pink' ('Baby Sun Rose Red' or A. cordifolia 'Maya')**

Deep rose

2" tall

Very well-drained soil.

Full sun

SP-F

12"-18" wide

Aptenia cordifolia; Lampranthus; Deep rose flowers atop broad succulent, glossy green leaves; trailing habit.

### **Ice Plant (Lampranthus) 'Pink Vygie'**

Pale pink

6" tall

Very well-drained soil.

Full sun

SU-EF

8"-10" wide

Lampranthus blandus; Masses of daisy-like, pale pink blooms atop clusters of succulent, triangular silvery blue foliage; spectacular!

## Annual Succulent

### Ice Plant (Malephora) 'Tequila Sunrise'

Red-orange

3"-6" tall

Very well-drained soil.

Full sun

SP-F

8"-10" wide

Mesembrianthemum; Red daisy-like flowers have an orange tinge; long, thin succulent green foliage.

### Kalanchoe daigremontiana (Mother of Thousands)

Mother of Thousands, Alligator Plant, Mexican Hat Plant, Devil's Backbone

Grayish pink

2'-3' tall

Lean, well-drained soil.

Part to full sun

LW

2'-3' wide

An upright succulent with opposite, fleshy, oblong-lanceolate, grey-green leaves, often spotted with brown-red and with a row of young plantlets on the leaf margins. The plantlets form roots while on the plant. The leaves reach 6" to 8" long, and up to 3" wide. When mature, the plantlets drop off the mother leaf and root into the soil they fall on. Hence, once you have one plant, you'll have lots of them! The flowers, though rarely seen, are tubular, grayish pink in color, up to 1" long.

### Kalanchoe gastonisbonnieri 'Donkey Ears'

12"-18" tall

Very well-drained soil.

10 Part to full sun

1' wide

Attractive large soft green leaves with brownish marks and spots. Small plantlets develop at the tips of the leaves. Does best in hanging baskets. Can tolerate abuse from lack of water freely.

### Kalanchoe thyrsiflora 'Fantastic'

Flipping Flapjacks; Paddle Plant; White Lady; Ice Sculpture; Dog Tongue Plant; Desert Cabbage; Hot Lips

White with yellow inside

1'-2' tall

Very well-drained soil.

Full sun

EF-LF

1'-2' wide

An exciting variegated version of the elegant succulent Flapjacks! Dramatic, dazzling red begins at the leaf tips and flushes over the silvery green, rounded leaves. Rich creamy gold highlights add to the exquisite coloration! The red blush is always present on the leaves, regardless of the temperature (some other succulents have a red cast caused by cool temperatures). Easy to grow, robust, drought tolerant plants!

### Kalanchoe thyrsiflora 'Flapjack'

Ice Sculpture Kalanchoe, Paddle Plant, Dog Tongue Plant, Desert Cabbage, White Lady, Oyster Plant

White with yellow inside

2' tall

Very well-drained soil.

10 Part to full sun

EF-LF

2' wide

The large succulent green leaves are dusted in silver and edged in deep red when grown in full sun. Matures to a rounded and full plant, perfect for a mixed container with other succulents. Does well in the landscape where it will not get much water. Rarely blooms, but when it does, it sends up an extremely tall spike approximately 5' tall with white flowers that are yellow on the inside. The bloom stalk will have lots of plantlets up and down the stem. It is generally best to cut off the bloom spike when it begins to emerge, so that the texture of the plant is conserved.

### Sedeveria 'Jet Beads'

4" tall ,8"-12" wide

Very well-drained soil.

Full sun

SU

A distinctive hybrid of Sedum and Echeveria. Tiny, pointed, nearly black leaves line up along the short, spreading stems. Its appearance is along the lines of a "Burro's Tail". Cool temperatures bring out the darker color.

### Sedum 'Fine Gold Leaf'

2"-3" tall

Well-drained soil.

Part to full sun

14"-16" wide

This lovely succulent sparkles with miniature bright gold leaves that gather in tiny clumps to form a dense mat of colorful foliage. Reportedly does not bloom.

## Annual Succulent

### Sedum japonicum 'Tokyo Sun'

Japanese Golden Sedum

Yellow

2" tall ,8" wide

Well-drained soil.

8 Part to full sun

ESU-EF

Fine, brilliant gold foliage with a creeping habit. Yellow flowers can bloom anytime from mid June to September. A "must have" for succulent gardens!

### Sedum Lemon Coral

Yellow

3"-10" tall

Well-drained soil.

Part to full sun

MSU

8"-12" wide

### Prairie Star

This showy succulent forms a layered carpet of fine golden-yellow leaves. This easy care plant takes heat and drought like a champ. The unique leaf texture and overall look of this plant provides a versatile option for both potted and garden landscapes. Utilize its rich trailing branches to make beautiful hanging baskets, window boxes, and patio combinations. Flat-topped clusters of small, star-like yellow flowers open in midsummer atop nodding stems that become upright. Bees and butterflies enjoy visiting the flowers. Vigorous plants have a mounded to trailing growth habit.

### Sedum makinoi 'Ogon'

Yellow

2" tall

Moist, well-drained soil.

Part to Full shade

SU

6"-10" wide

Golden Sedum; The glowing chartreuse-yellow foliage forms a flat delicate mat for a very nice ground cover; great in fairly wet, rocky, shaded areas; yellow flowers.

### Sedum rubens 'Lizard'

Red Stonecrop

White

4" tall ,4"-6" wide

Well-drained soil.

Part to full sun

LSU

Icy green foliage with rosy highlights and great texture brings a cool look to succulents. Has a nice, compact, mounded habit with soft, spiky, succulent foliage. Covered with numerous tiny, star-shaped white flowers in late summer. Syn. *S. pallidum*.

### Sedum rubrotinctum (Jelly Beans; Pork and Beans)

Pork and Beans; Annual Jelly Beans Sedum

Yellow

1"-2" tall

Well-drained soil.

Part to full sun

SP

1' wide

Fleshy, short, rounded bright green leaves are tipped in crimson during cool weather; the leaves are clustered on short stems. Long lasting yellow flowers.

### Senecio jacobsenii

Jacob's Senecio; Trailing Jade; Vining Jade,  
Weeping Jade

Orange-yellow

8"-12" tall

Well-drained soil.

Part to full sun

MW

8"-12" wide

Glossy, rounded, fleshy, overlapping gray-green leaves cloak the thick, trailing stems. This mat-forming plant's stems tend to root as they creep along the soil surface. An excellent plant for hanging baskets and containers. Syn. *Kleinia petraea*.

### Senecio kleiniiformis 'Spear Head'

Spear Head

Yellow

18" tall ,14" wide

Well-drained soil.

Part to full sun

MSU-MF

14" wide

An amazing succulent that bears unique grayish blue foliage. Leaves are cylindrical at the base, ending in a triangular point, having a characteristic shape reminiscent of a spearhead! Small yellow flowers on erect stems above the foliage. Very drought tolerant.

### Senecio radicans glauca

String of Bananas

White

1"-2" tall

Well-drained soil.

10 Part to full sun

ESU-EF

1'+ wide

Stringy stems are lined with emerald green banana-shaped leaves with fascinating translucent "windows". Pom-poms of many fragrant, tiny white flowers. Quickly fills in baskets and containers. Perfect in bright light indoors or in part to full sun outdoors.

**Annual Succulent**

**Senecio rowleyanus**

White

1" tall

Well-drained soil.

Part sun

LF-ESP

1'+ wide

String of Beads, String of Pearls; Succulent bead-like green leaves on long trailing stems (to 3' long); the spherical leaf shape maximizes the water-holding capacity in relation to the surface area; each leaf has a small "window" on the side to allow more sunlight in; ½" wide fluffy white flowers smell of sweet cinnamon chewing gum! The flowers can detract from the plant's appearance, so trim them off as they appear, if you prefer; poisonous leaves.

**Senecio vitalis (Blue Chalk Fingers)**

White

18" tall tall ,6" wide

Very well-drained soil.

Part to full sun

SP & F

Densely packed, narrow, blue green leaves on thick stalks to 18" tall. Tiny white flowers in spring and fall.

<b>Annual Vine</b>			
<b>Asarina 'Falling Stars Dark Blue'</b>	Maurandya; Chickbiddy	Dark blue	3'-15' tall
Rich, loose, well-drained soil.	Full sun	SU	1'-2' wide
A vigorous climbing vine with dark blue trumpet-shaped flowers; bright green foliage.			

<b>Bean Hyacinth Bean 'Ruby Moon'</b>		Lilac-rose	6'-10'+ tall
Moist, well-drained soil.	Full sun	SU	2' wide
Lablab purpureus 'Ruby Moon'; Egyptian Pea Vine; Fragrant lilac-rose blossoms and shiny red-purple pods that are completely edible; wine patterned green foliage on purple stems; keep the bean pods picked for continuous bloom; syn. Dolichos.			

<b>Cardinal Climber Ipomoea x multifida</b>		Bright scarlet	6'-10'+ tall
Moist, well-drained soil.	Full sun	SU	2' wide
Bright scarlet tubular flowers 1" across; attractive palm-shaped foliage; vigorous plants; similar to Cypress Vine, except Cardinal Climber has much broader foliage.			

<b>Cypress Vine Ipomoea quamoclit</b>		Bright scarlet	6'-10'+ tall
Moist, well-drained soil.	Full sun	SU	2' wide
Attractive feathery green foliage; sprays of stunning bright scarlet tubular blooms; vigorous plants; similar to Cardinal Climber, except Cypress Vine has much finer foliage.			

<b>Mandevilla 'Summer Romance Double Pink'</b>	Mandevilla, Brazilian Jasmine	Pink	18" to 40" tall
Moist, well-drained soil.	Full sun	SU	12" to 18" wide
Vigorous vining mandevilla that continues to grow through the entire summer. Large, 4" double pink blooms offer a bold addition to any garden. Loves the full sun and will vine up any type of trellis. It has shown excellent heat tolerance during warm summer months; 'Double Pink' just keeps on blooming with lots of spectacular flowers for you to enjoy.			

<b>Mandevilla 'Sun Parasol Crimson'</b>	Mandevilla, Brazilian Jasmine	Crimson	4'-6' tall
Moist, well-drained soil.	Full sun	SU	2'-3' wide

<b>Prairie Star</b>	A continuous blooming tropical vine with rich, saturated crimson flowers. The flowers and leaves are smaller than those of 'Alice du Pont'. The foliage will climb and trail at the same time. Excellent grown on an obelisk in a large patio pot. Prairie Star Award Winner!		
---------------------	---	--	--

<b>Mandevilla 'Sun Parasol Giant Apricot'</b>	Mandevilla, Brazilian Jasmine	Apricot, deep orange and yellow highlights	3' to 4' tall
<b>NEW</b>	Full Sun	SP to F	2' to 3' wide

Eye-catching apricot flowers have deep orange and yellow highlights on these magnificent 5" blooms that you'll enjoy from summer to fall. The plant has a vigorous, upright habit reaching 36" tall and should be grown in a large container with a stake or trellis to climb on. It also creates a stunning, exceptionally full hanging basket with multitudes of flowers. It has shown excellent heat tolerance during warm summer months.

<b>Mandevilla 'Sun Parasol Giant Crimson'</b>	Mandevilla, Brazilian Jasmine	Brilliant crimson	4'-8' tall
Moist, well-drained soil.	Part to full sun	LSP-EF	1'-3' wide

<b>Prairie Star</b>	This quick growing, twining vine features brilliant crimson flowers, 4" to 6" in diameter. Reported to keep its bright hues, no matter how sunny and hot the weather gets.		
---------------------	--	--	--

<b>Annual Vine</b>			
<b>Mandevilla 'Sun Parasol Giant Pink'</b>	Mandevilla, Brazilian Jasmine	Rich medium pink	4'-8' tall
Moist, well-drained soil.	Part to full sun	LSP-EF	1'-3' wide

**Prairie Star**

This quick growing, twining vine features rich medium pink flowers, 4" to 6" in diameter. The blooms are larger than those of M. 'Alice du Pont'. Reported to keep its bright hues, no matter how sunny and hot the weather gets.

<b>Mandevilla 'Sun Parasol Pretty Pink'</b>	Mandevilla, Brazilian Jasmine	Light to medium pink	3'-4' tall
Moist, well-drained soil.	Part to full sun	LSP-EF	2' wide

Delicate pink 2" to 3" wide trumpet-shaped flowers are backed by glossy green foliage. Its superior branching and somewhat compact habit make it an ideal choice for large hanging baskets, containers (with a climbing support), and small trellises in the garden.

<b>Manettia 'Bicolor' (Candy Corn Vine)</b>	M. bicolor; M. inflata; Twining Firecracker	Orange and gold	2'-6' tall
Moist, well-drained soil.	Part to Full sun	SP-W	10"-12" wide

Glossy tubular flowers are red-orange with golden yellow tips and resemble candy corn; smooth light green leaves on twining climbing stems; blooms best in spring, fall, and winter.

<b>Moon Vine Ipomoea calonyction</b>	Ipomoea alba	Pure white	15'-20' tall
Well-drained soil.	Full sun	SU-EF	12"-18" wide

6" to 8" pure white flowers open in the evening and perfume the air with a sweet fragrance; the flowers stay open all night until the following morning.

<b>Morning Glory 'Good Morning Blue'</b>	Ipomoea tricolor	Lav-blue & white	6'-10' tall
Well-drained soil.	Full sun	SU-EF	12"-18" wide

3" to 4" lavender-blue blooms with a white picotee edge; creamy white and green variegated leaves; more compact and controlled than other morning glories; great performer in the heat and humidity.

<b>Morning Glory 'Good Morning Red'</b>	Ipomoea tricolor	Crimson & white	6'-10' tall
Well-drained soil.	Full sun	SU-EF	12"-18" wide

3" to 4" crimson blooms with a white picotee edge; creamy white and green variegated leaves; more compact and controlled than other morning glories; great performer in the heat and humidity.

<b>Morning Glory 'Heavenly Blue'</b>	Ipomoea tricolor	Azure sky blue	12' tall
Well-drained soil.	Full sun	SU-EF	12"-18" wide

Azure sky blue blooms with cloud white throats.

<b>Morning Glory 'Kniola's Black'</b>	Ipomoea	Dark velvety purple	7' tall
Well-drained soil.	Full sun	SU-EF	12"-18" wide

Dark velvety purple flowers that give the impression of black flowers. Makes a heavy impact when contrasted with light blue or white flowers.

<b>Annual Vine</b>			
<b>Passiflora 'Aphrodite Purple Nightie'</b>	Passion Vine, Passion Flower	Powder blue	10' tall
Moist, well-drained soil.	Part to full sun	LSP-F	2' wide
Gorgeous, 3" to 4" wide, star-shaped flowers of creamy purple with deep purple eyes and purple anthers, appear at the ends of the stems from mid spring through summer. A sterile, virtually non-fruiting variety that is vigorous and heat tolerant. The flowers are excellent for cutting. Dark green foliage throughout the season.			
<b>Passiflora 'Bahama Blue'</b>	Passion Vine, Passion Flower	Blue-white	10' tall
Moist, well-drained soil.	Part to full sun	LSP-F	2' wide
Features showy, lightly fragrant, 3" wide, blue-white, star-shaped flowers with a prominent fringe of coronal filaments in bands of blue, white, and brown. Flowers appear at the ends of the stems and are excellent for cutting. The ovoid orange fruit, growing to 2", is edible but bland. Dark green foliage throughout the season.			
<b>Senecio confusus</b>	Mexican Flame Vine, Orangeglow Vine	Neon orange	1'-10' tall
Moist, well-drained soil.	Full sun	LSP-F	2' wide
Small neon orange daisy-like flowers with bright yellow centers; likes to weave through plants as well as grow up trellises and supports; fast growing; blooms all summer and into fall; can be grown like a ground cover; the flowers have a light scent which is irresistible to butterflies.			
<b>Sweet Potato Vine 'Solar Tower Black'</b>	Sweet Potato Vine; Ipomoea	White	48" to 84" tall
<b>NEW</b> Moist, well-drained soil.	Part to Full Sun	SU	36" to 48" wide
The first-ever self-climbing ipomoea! It climbs very quickly - ideal for use with a trellis, as a topiary or on a vertical wall planting. Also recommended as a thriller in mixed combos. When you want growth up, rather than out, plant Solar Tower. Vining habit with the same warm weather vigor you expect from spreading ipomoea. Rich dark leaves contrast well with almost everything, so mix these into your trellis and fence plantings.			
<b>Sweet Potato Vine 'Solar Tower Lime'</b>	Sweet Potato Vine; Ipomoea	White	48" to 84" tall
<b>NEW</b> Moist, well-drained soil.	Part to Full Sun	SU	36" to 48" wide
Tall vining form of the chartreuse morning glory vines found in containers. These will fill out a trellis and look so amazing climbing with your brightly colored flowering vines! This sweet potato vine has glowing lime green leaves and naturally wants to climb nearby structures, so plant it near a fence or trellis. Pair it with its best friend Solar Tower 'Black' for an eye-catching contrast. Place in full sun to partial shade in regular, moist yet well-drained soil; space about 3+' apart if using as a ground cover. If using a container, be sure it has good drainage. Adds striking depth and texture to any setting.			
<b>Thunbergia alata 'Spanish Eyes'</b>	Black Eyed Susan Vine; Poet's Eye	Terracotta colors	5' tall
Rich, moist, well-drained soil.	Part sun	LSP-F	18"-36" wide
The flowers are in a variety of terracotta colored hues (apricot, brick, and buff) with contrasting dark eyes look wonderful against virtually every background color and setting. Vigorous grower perfect for large containers, trellises, and garden fences.			
<b>Thunbergia alata 'Sunny Lemon Star'</b>	Black Eyed Susan Vine	Bright yellow	5'-6' tall
Rich, moist, well-drained soil.	Part sun	LSP-SU	14"-18" wide
Large, bright yellow flowers. A very aggressive plant that covers a trellis or screen quickly. A great bloomer until temperatures reach 100 degrees. This variety is like a seed grown Thunbergia on steroids!			
<b>Vigna caracalla (Snail Flower)</b>	Corkscrew Flower; Snail Bean; Snail Flower	Lavender & white	6' tall
Rich, moist, well-drained soil.	Part to Full sun	SU-EF	12"-18" wide
The type of flower Alice might have encountered in Wonderland. Unique large snail or conch-shaped fragrant pink-purple and white blossoms on twining stems; the flowers take on a creamy yellow undertone as they age; green palmate foliage; flowers are followed by nearly cylindrical green to brown fruit; great for trellises, baskets, and containers; unique!			

## Herb, Annual

<b>Aloe vera</b>	Medicinal Aloe	Yellow	2' tall	
Moderately dry soil.	9	Part to full sun	SU	indefinite wide

Clump-forming, suckering succulent producing basal rosettes of lance-shaped, fleshy gray-green leaves that are slightly grooved above with toothed pink margins. In the summer, it bears tubular yellow flowers to 1 1/4" long, in terminal racemes to 3' or more tall. Resinous yellow juice of leaves is used to treat burns, poison ivy, rashes, and other ailments.

<b>Basil (Ocimum) 'Aromatto'</b>	Basil	Dark purple	20"-24" tall
Light, moist, well-drained soil.	Part to full sun	SU	1' wide

A great, tall cut-flower basil! Sturdy purple stems, dark purple flower bracts, and purple-green bicolor foliage. Use as a filler accent in cutflower arrangements, or as an edible flower. The edible foliage has a sweet minty, spicy flavor and aroma.

<b>Basil (Ocimum) 'Boxwood'</b>	Basil	12"-14" tall	
Light, moist, well-drained soil.	Part to full sun	SU-EF	12"-18" wide

### Prairie Star

Fragrant, tiny green leaves on plants with a dense, bushy upright habit. Plants can be used as a low hedge, making it look quite a bit like Boxwood, hence the name! The plants remain in perfect form, even during the heat of summer! Its great for pesto, too! Prairie Star Award Winner!

<b>Basil (Ocimum) 'Dolce Fresca'</b>	Sweet Basil	10"-24" tall	
Light, moist, well-drained soil.	Part to full sun	SU	10"-12" wide

This winner produces sweet, tender leaves that outshine comparable varieties, all while maintaining an attractive, compact shape that is both versatile and beautiful! Use the leaves as you would any sweet basil. It makes excellent pesto! After harvest, plants are quick to recover and keep the desired ornamental shape, making it perfect for containers and borders, as well as at home in the kitchen garden. Great for gardeners looking for drought tolerant, hearty basil and foodies interested in a new and better basil, and anyone who wants that great Mediterranean taste added to their cuisine! 2015 AAS Winner!

<b>Basil (Ocimum) 'Everleaf Genovese'</b>	Genovese Basil	18"-24" tall	
<b>NEW</b> Light, moist, well-drained soil.	Part to full sun	SU	12"-18" wide

New, productive, compact, and slow-bolting plant with downy mildew and Fusarium resistance! 2" to 3" long, glossy and cupped leaves with classic Genovese basil aroma. The first basil bred for season-long performance and continual harvesting. This very compact plant, with short spaces between leaves and branches, produces high yields of leaves and leaf tips. Makes a beautiful columnar plant with huge harvest potential that stays tidy in both in-ground or container gardens. Harvesting for bunches is not recommended; extremely dense plants and short internodes makes bunching difficult. Slower to flower than other varieties by up to 8 weeks.

<b>Basil (Ocimum) Genovese</b>	Genovese Basil	24"-30" tall	
Light, moist, well-drained soil.	Part to full sun	SU	18" wide

The leaves have a true spicy fragrance and taste. The preferred variety for Italian pesto sauce. Uniform, tall, and slow to bolt. The green leaves are up to 3" long. From the Genovese region of Italy.

<b>Basil (Ocimum) 'Genovese Red Freddy'</b>	Red Genovese Basil	18"-36" tall	
Light, moist, well-drained soil.	Full sun	SU	18" wide

A marvelous dark red leaved version of Genovese Basil. Smooth broad leaves with the same wonderful flavor as 'Genovese', a culinary eye-catcher! Just imagine what gorgeous pestos you can make with this red basil! Will not only add flavor, but also a beautiful color to your fresh salads or fruit desserts!

<b>Basil (Ocimum) 'Pesto Party'</b>	Sweet Basil	18" to 24" tall
Light, moist, well-drained soil.	Part to full sun	12" to 18" wide

The latest-flowering basil from seed, letting you enjoy a preponderance of aromatic fresh-picked leaves deep into the season! Basking prettily in your favorite patio container, well-branching plants produce a continuing flourish of fragrant leaves infused with sweet Italian basil flavor. Late-to-bolt plants have excellent tolerance to downy mildew and Fusarium wilt~ no other basil comes close!

## Herb, Annual

### Basil (Ocimum) 'Pesto Perpetuo'

Variegated Columnar Basil

18"-32" tall

Light, moist, well-drained soil.

Part to full sun

SU

18" wide

### Prairie Star

This Greek columnar basil has beautiful light green leaves edged in creamy white. Since it does not flower, this is a great culinary basil.

### Basil (Ocimum) 'Purple Ruffles'

Red Ruffles Basil

Light pink

16"-24" tall

Light, moist, well-drained soil.

Full sun

SU

18" wide

A highly versatile herb; smells of cloves and licorice; makes a wonderful mild flavor addition to tomato dishes, fruit salads, stir fry, salsa, and eggs; holds its color well throughout the growing season; 2" to 4" glossy purple leaves with ruffled edges.

### Basil (Ocimum) 'Queen of Sheba'

Thai Basil

Dark purple

10"-18" tall

Light, moist, well-drained soil.

Part to full sun

ESU-LSU

10" wide

Thai Basil. The best of both worlds- a culinary Thai Basil and a flowering plant! Fragrant, delicate spicy flavored green leaves are topped by long, fat flower spikes. Pick the leaves as you need them and enjoy the lovely blooms all summer long! Vigorous plants are heat and humidity tolerant.

### Basil (Ocimum) Red Rubin

Red Rubin Basil

18"-24" tall

Light, moist, well-drained soil.

Part to full sun

SU

18" wide

Large copper tinged purple leaves. Essential in herb dressings and vinegars where its sweet flavor and ruby color are desired.

### Basil (Ocimum) 'Simply Herbs'

24"-30" tall

NEW

Part to full sun

SU

12"-16" wide

A mix of Genovese Basil and red and green serrated leaved basil. A delightful blend for your culinary creations!

### Basil (Ocimum) Sweet

Sweet Basil

2' tall

Light, moist, well-drained soil.

Part to full sun

SU

18" wide

Large green leaves. Great flavor for pesto, salads, and sauces.

### Basil (Ocimum) Sweet Dani

Lemon Basil

26"-30" tall

Light, moist, well-drained soil.

Part to full sun

SU

18" wide

Each leaf has 70% to 75% more essential oils than other Lemon Basil varieties. A must-have to add to vinegars, seafood, salads, and desserts. Great for lemony pesto's. AAS Winner!

### Basil (Ocimum) Valentino

Valentino Basil

15" tall, 18" wide

Light, moist, well-drained soil.

Part to full sun

SU

18" wide

Wonderfully rich flavored, fragrant, large-leafed variety. Vigorous, yet compact habit. Perfect for use fresh, whole, chopped, or dried.

## Herb, Annual

<b>Bay Laurel (<i>Laurus nobilis</i>)</b>	Bay Laurel; Sweet Bay	Yellow	up to 50' tall
Moist, well-drained soil.	Full sun	SP	up to 30' wide

A frost-sensitive small tree best grown in pots so it can easily be moved indoors for the winter. Clusters of small yellow flowers in the spring are followed by shiny black or purple berries in the fall. Aromatic dark green leaves add a traditional bay flavor to meats, fish, poultry, soups, and stews. *Nobilis* (in the botanical name) refers to bay's royal past: Greek nobility wore garlands of bay at weddings.

<b>Bay Laurel (<i>Laurus nobilis</i>) 'Emerald Wave'</b>	Bay Laurel; Sweet Bay		up to 20'-35' tall
<b>NEW</b>	Part to full sun		up to 10'-15' wide

A robust sweet bay with wavy-edged, emerald green leaves. Slender, upright form grows slowly and gracefully into a small pyramidal tree, ideal for topiary. Aromatic evergreen foliage can be used as a savory culinary seasoning. Great as a container or hedge plant.

<b>Bay Laurel (<i>Laurus nobilis</i>) 'Little Ragu'</b>	Bay Laurel; Sweet Bay		up to 6'-8' tall
<b>NEW</b>	Part to full sun		up to 6'-8' wide

A more compact sweet bay with highly aromatic, deep green foliage that emerges on unique red-tinged stems. The dried leaves add a classic Mediterranean flavor to soups and sauces. Easy-care upright shrub or small tree. Handsome in natural form, or easily clipped into a formal hedge or topiary shape. Thrives in containers.

<b>Borage (<i>Borago officinalis</i>)</b>	Borage, Herb of Gladness, Starflower	Blue to pink	1'-3' tall
Moist, well-drained soil.	Part to full sun	MSU-LSU	12"-18" wide

Blue star-shaped flowers can be used along with the chopped small, non-prickly leaves in salads, tomato juice, or gazpacho. The flowers fade to pink as they age. The flowers can also be added to lemonade, desserts, and candy, or dried and used in potpourri. Make a cooling summer tea from the flowers, Stevia, and lemon juice. Borage leaves and flowers, salad burnet, dill, and garlic make a great herbal vinegar. The leaves and flowers have a cucumber-like flavor.

<b>Cilantro (<i>Coriandrum sativum</i>) 'Calypso'</b>	Cilantro		12"-18" tall
Moist, well-drained soil.	Full sun		

A 'cut and come again' leaf version of this popular herb. This variety can be cut back and allowed to regrow at least 3 times during the summer due to its extremely low growing point. Full, bulky plants provide a high leaf yield. It is very slow to bolt- in trials it was 3 weeks slower to bolt than 'Santo'! Grow it in pots near the kitchen so that you can just cut whatever you need, whenever you need it! This variety is grown for its leaf only, not its seed. Its distinctive flavor is the same as traditional Cilantros, ideal for enhancing Cajun and Mexican dishes.

<b>Curry (<i>Helichrysum italicum</i>)</b>	Curry	Yellow	2' tall
Dry soil.	Full sun	SU	2' wide

Woolly gray needle-like leaves have a delightful curry fragrance, but don't confuse it with curry powder, which is a mix of cumin, turmeric, coriander, pepper, and other spices. The essential oil is used to enhance fruit flavors in confections. Produces clusters of yellow button flowers in summer that are excellent fresh cut or dried. Used in potpourri and perfumes. A good rock garden plant.

<b>Dill (<i>Anethum graveolens</i>) Fern Leaf</b>	Dill	Yellow	18"-24" tall
Rich, well-drained, slightly acidic soil.	Full sun	SU	

Attracts butterflies

Chop the fresh leaves into corn, light soups, green salads, potato salads, cream cheeses, salmon, chicken, eggs, dips, and baby red potatoes. Makes a lovely garnish. The dried seed enhances breads and chowders. The seeds flavor pickles. Very slow to bolt. Great potted in a sunny kitchen for a handy supply of fresh dill.

## Herb, Annual

### Fennel (*Foeniculum vulgare dulce*) 'Antares' (Sweet, bulb producing)

Fennel white and light green 2' tall

Well-drained soil.

Full sun

The winner is a "First in Class", as AAS has never before trialed and declared a fennel an AAS Winner. What is extremely fun about this winning plant is its many uses: as an edible bulb(4 to 5" diameter); for its ornamental fronds; as a seed producer; and as a favorite food of pollinators, namely swallowtail caterpillars. The AAS Judges described Antares as a very uniform, pure white, beautiful plant with much improved, almost sweet, licorice/anise flavor as compared to other market varieties. It was also 7 to 10 days slower to bolt than comparison varieties. Many AAS Judges said they plan to plant this easy-to-grow fennel in their own gardens next year.

### Fennel (*Foeniculum vulgare dulce*) Bronze ('Rubrum')

Smoky Fennel Yellow 2'-5' tall

Well-drained soil.

Full sun

SU

Attracts butterflies

Highly decorative form of fennel with purple-bronze lacy foliage. The leaves can be used like green fennel. The feathery leaves are chopped and used most commonly in fish dishes. Also used to flavor soups, salad dressings, and chicken. An important larval food for Swallowtail butterfly caterpillars. Often overwinters or reseeds in our gardens!

### Geranium, Scented 'Chocolate Mint'

Pelargonium quercifolium 'Chocolate Mint' White to pink 18"-24" tall

Well-drained soil.

Part to full sun

SP-SU

Mint-scented fuzzy green leaves have a brown center. White to pink flowers. Vigorous habit. The name comes from the brown mark on the leaves, though some say it does have a chocolate mint scent. Grows best in part sun. Leaves are used in potpourris, teas, baking, and herbal jellies.

### Geranium, Scented 'Citrosa' ('Van Leenii')

1'-2' tall

Well-drained soil.

Full sun

SP-SU

18"-24" wide

A hybrid of the Citronella-scented geraniums. The fragrance of the foliage is supposed to repel mosquitoes, black flies, and other biting insects.

### Geranium, Scented 'Lime'

Lavender 12"-18" tall

Well-drained soil.

Full sun

SP-SU

18"-24" wide

An upright form with small, toothed dark green leaves that have a tart lime fragrance. Lavender blooms. Leaves are used in potpourris, teas, baking, and herbal jellies.

### Geranium, Scented 'Moskito Schocker'

Light and dark pink 18" tall tall ,18"-24" wide

Well-drained soil.

Full sun

SP-SU

An improved citronella geranium that gives off a more intense, lemon pepper fragranced oil from its leaf stomates; by rubbing the leaves and then applying the light, but heavily scented, oils to your clothing, you can use the plant in the place of D.E.T.

### Geranium, Scented 'Peppermint'

Pelargonium tomentosum Pinkish white 18" tall tall ,18"-24" wide

Well-drained soil.

Full sun

SP-SU

Pinkish white flowers over fuzzy gray-green leaves. It has a refreshing mint fragrance. Use the leaves in fruit punches or herbal jellies. Use dried leaves in teas, baking, and potpourris. Its trailing or spreading habit is great for baskets and containers.

### Geranium, Scented 'Variegated Mint Rose'

Pale pink 2'-3' tall

Well-drained soil.

Full sun

SP-SU

18"-24" wide

Deeply cut coarse leaves are green edged in cream. The leaves have a minty rose fragrance. Pale pink flowers. Spreading habit. Leaves are used in potpourris, teas, baking, and herbal jellies.

<b>Herb, Annual</b>			
<b>Geranium, Scented 'Variegated Snowflake Rose'</b>	Pelargonium	Lavender	2'-3' tall
Well-drained soil.	Full sun	SP-SU	2' wide
Light green corrugated leaves are splashed with white highlights; the leaves have a strong lemon-rose fragrance; tiny lavender flowers.			
<b>Lavandula (Lavender) 'Goodwin Creek Gray' (L. heterophylla 'Goodwin Creek')</b>	Lavandula heterophylla 'Goodwin Creek Gray'	Medium blue	2'-3' tall
Must have well-drained soil.	Full sun	SP-SU	15"-18" wide
Attracts butterflies			
Deeply toothed woolly gray leaves create a richly textured plant. Prolific medium blue short, fat spikes. Very free blooming. Marginally hardy in zone 6 (very well drained soil in the winter will help it to winter over). Scented flower spikes are highly valued in potpourri and sachets. Attracts butterflies!			
<b>Lavandula (Lavender) 'Otto Quast' (L. stoechas 'Otto Quast')</b>	Spanish Lavender	Lavender and dark purple	1'-2' tall
Must have well-drained soil; thrives in acidic soil.	Full sun	SP-SU	15"-18" wide
Attracts butterflies			
Large two-tone lavender and dark purple flowers. Silvery foliage on upright plants. Scented flower spikes are highly valued in potpourri and sachets. Attracts butterflies! Cut and dried flower!			
<b>Lavandula (Lavender) pinnata</b>	Lavender	Blue-purple	2' tall
Must have well-drained soil.	Full sun	SP-SU	12"-15" wide
Attracts butterflies			
Unique woolly silver carrot-like foliage is topped with long spikes of blue-purple flowers. Scented flower spikes are highly valued in potpourri and sachets. Attracts butterflies! Cut and dried flower!			
<b>Lemon Grass (Cymbopogon) citratus</b>	Lemon Grass		2'-5' tall
Moist soil.	Full sun		
Tall, broad green leaves have a complex aroma and wonderful flavor- the essence of citrus with flowery overtones. The flavor of lemon grass is basic to Thai and Southwest Asian Cuisines. The strong, sweet lemon flavor is released by hot water. It is the primary herb used in commercial herb teas. Great in soups and sauces.			
<b>Lemon Verbena (Aloysia) triphylla</b>	Lemon Verbena	White or lavender	to 4' tall
Rich, moist soil.	Full sun	SU	2'-3' wide
Sweet, strongly lemon-flavored leaves enhance beverages, salads, jellies, sauces, soups, fish and meat dishes, and desserts which call for lemon as an ingredient or garnish. Makes a flavorful tea. Fresh or dried leaves can be used to replace lemon in any dish. Great for potpourris. Open sprays of tiny white or lavender flowers.			
<b>Marjoram (Origanum majorana) marjorana (Sweet)</b>	Sweet Marjoram	White	15"-20" tall
Well-drained soil.	Part to full sun	LSU-EF	1' wide
Gray-green leaves add a strong, spicy flavor to soups, sauces, stuffings, and stews. Rubbing with fresh leaves before roasting improves strong meats. The foliage is also used to dye wool. Great dried flower. Marjoram has a sweeter and milder flavor than Oregano.			

## Herb, Annual

### Mexican Oregano (*Lippia graveolens*) *graveolens*

Mexican Oregano

White

2'-3' tall

Light, moist, well-drained soil.

Full sun

SP-W

2'-3' wide

Crinkled green leaves have a flavor similar to oregano with a hint of cilantro. Used for authentic southwestern chili.

### Parsley (*Petroselinum*) 'Italian Flat-leaf' (Italian Plain; *P. neapolitanum*)

Italian Flat Leaf Parsley

1'-2' tall

Rich, moist, well-drained soil.

Part to full sun

12"-18" wide

Attracts butterflies

Flat, glossy, dark green leaves have a stronger parsley flavor than 'Triple Curled' parsley.

### Parsley (*Petroselinum*) 'Triple Curled' (*P. c. crispum*)

Triple Curled Parsley

1' tall

Rich, moist, well-drained soil.

Part to full sun

1' wide

Attracts butterflies

Tightly curled leaves, which make a decorative garnish or lend a mild parsley flavor to dishes.

### Pogostemon (*Patchouli*) *patchouli*

Patchouli

White and violet

1'-2' tall

Rich, moist, well-drained soil.

Part to Full sun

SU

1'-2' wide

One of the definitive perfumes of Asia; has a musky, exotic fragrance; widely used in incense, perfumes and soaps; scallop-edged leaves are dried for potpourris and sachets; medicinal uses.

### Rosemary (*Rosmarinus officinalis*) Barbeque

*Rosmarinus officinalis*

Blue

3'-4' tall

Well-drained soil.

Full sun

SP

15"-24" wide

Long green needle-like leaves are very aromatic; great for flavoring food; the leaves can be taken off of the long, woody stems so the stems can be used as skewers! Marginally hardy in zones 5 and 6.

### Rosemary (*Rosmarinus officinalis*) Tuscan Blue

*Rosmarinus officinalis*

Lavender-blue

3'-6' tall

Well-drained soil.

Full sun

SP

15"-24" wide

Bushy, upright, and spreading plants; suitable for a low hedge; larger leaf than most; numerous flowers; fast growing; excellent flavor.

### Sage (*Salvia elegans*) 'Golden Delicious' (*S. elegans* 'Golden Delicious')

Bright red

1'-2' tall

Well-drained soil.

Part to Full sun

SP & LSU-F

15"-30" wide

*S. elegans* 'Golden Delicious'; Hummingbirds will make a beeline to this wonderful, bright pineapple sage; fuzzy, bright yellow foliage provides a brilliant backdrop for the fire engine red, tubular flowers; when crushed, the leaves release a strong pineapple scent; herb enthusiasts recommend using the fresh leaves to flavor sun tea.

## Herb, Annual

### Sage (*Salvia elegans*) Pineapple (*S. elegans* syn. *S. rutilans*)

Bright red

3'-5' tall

Well-drained soil.

Full sun

SP & LSU-F

15"-30" wide

*S. elegans* syn. *S. rutilans*; Fabulous sweet pineapple scented light green foliage; spikes of tubular red flowers attract hummingbirds; use in teas, cold beverages, chicken, pork, cheese, salads, fruit cups, jams, and jellies; aromatic, culinary, and medicinal.

### Savory, Summer (*Satureja hortensis*) Summer

*Satureja hortensis*

Lilac, white, or purple

15" tall

Well-drained to dry soil.

Full sun

SU

18" wide

Delicate peppery flavor is used to flavor beans, cabbage, and sauerkraut, vinegars, and chicken; makes a nice tea; the flowers are loved by bees.

### *Stevia rebaudiana*

Sweet Herb of Paraguay; Sweetleaf; Sugar Leaf

White

2'-3' tall

Moist, well-drained, acidic soil.

Full sun

W

2'-3' wide

Remarkable herbal sugar substitute; contains stevioside, which is up to 300 times sweeter than sugar, but without the calories; leaf powder can be used in place of sugar in drinks, baked goods, desserts, jellies, and preserves; use fresh, dried, powdered, or as a liquid; pleasing flavor; medicinally used as a plaque retardant and tooth decay inhibitor; tight clusters of small white flowers; mulch the soil around the plants, as they prefer cool temperatures; harvest plants before frost and hang from the roots to dry.
