

Nursery Catalog 2016

Aquatic Plant

Floating Plant Water Hyacinth

Part to full sun

Lavender-blue

3"-10" tall

Floating

SP-SU

Indefinite width

Eichornia crassipes major; Nearly transparent, intense lavender-blue flowers stand well above the foliage; blooms best when the plants are crowded; does wonders for dirty pond water.

Floating Plant Water Lettuce

Part to full sun

1"-6" tall

Floating

Indefinite width

Pistia stratiotes; Shell Flower; Unique light green lettuce-like foliage; does best in moving water; the long white feathery rootlets dangle in the water and provide a good spawning medium for fish.

Hardy Bog & Marginal Plant Equisetum hyemale

Horsetail Rush; Common Horsetail

Part to full sun

3' tall

Moist to 4" of water above soil.

4

1'-2' wide

Dark green jointed stems. Very distinctive. Moist to 4" of water.

Hardy Bog & Marginal Plant Pontaderia cordata

Blue Pickerel Rush

Part to full sun

Lavender-blue

1'-2' tall

Moist to 10" of water above soil.

4

1'-2' wide

Native variety with slick, broad dark green foliage. Bright lavender-blue flowers. Easy to grow. Moist to 10" of water

Hardy Bog & Marginal Plant Thalia dealbata

Purple Thalia

Part to full sun

Purple

2'-5' tall

Moist to 6" of water above soil.

5

2'-4' wide

Blue-green canna-like foliage with thin wands of purple flowers. Moist to 6" of water.

Hardy Bog & Marginal Plant Typha laxmanii

Graceful Cattail

Part to full sun

4'-6' tall

Moist to 1' of water above soil.

3

2'-4' wide

A beautiful cattail with its thin leaves and catkins. Moist to 1' of water.

Hardy Water Lily Pink

Part to full sun

Pink

18"+ of water above soil.

SP-EF

Double pink blooms. All hardy water lilies are day blooming.

Hardy Water Lily Red

Part to full sun

Red

18"+ of water above soil.

SP-EF

Double rosy red blooms. All hardy water lilies are day blooming.

Hardy Water Lily Yellow

Part to full sun

Yellow

18"+ of water above soil.

SP-EF

Double yellow blooms. All hardy water lilies are day blooming.

Submerged Plants Anacharis

Part to full sun

1'+ tall

In 1'+ of water.

Indefinite width

Elodea canadensis; This tropical oxygenator resembles green feather dusters; often used in aquariums; may overwinter in water gardens.

Aquatic Plant

Submerged Plants Bacopa

Part to full sun

1'+ tall

In 1'+ of water.

Indefinite width

Small light green foliage with tiny white flowers.

Submerged Plants Parrot Feather

Part to full sun

1'+ tall

In 3"+ of water.

6

Indefinite width

Myriophyllum aquaticum; Feathery medium green foliage grows above and below the surface; wonderful to soften the edge of a container water garden; zone 6.

Conifer

Juniperus chinensis 'Hetzii Columnaris'	Green Columnar Juniper	Full sun	15'-18' tall
Well-drained soil.		4 to 9	5'-8' wide
Attractive, upright, pyramidal form highlighted by crisp bright green foliage on dense, tight branches. An evergreen prized for its versatility as a screen or background planting.			
Juniperus chinensis 'Pfitzeriana Gold Lace'	Gold Tip Pfitzer	Full sun	5' tall
Well-drained soil.		4	10' wide
Gracefully branched shrub has gray-green foliage splashed with bright golden yellow on the new growth.			
Juniperus chinensis 'Spartan'	Spartan Junier	Full sun	15' tall
Well-drained soil.		5 to 9	3'-5' wide
Handsome, rapidly growing evergreen forms a densely branched column of rich green foliage, perfect for a screen or windbreak. Excellent sheared for topiary. Durable- tolerates heat, cold, and drought.			
Juniperus horizontalis 'Blue Chip'	Juniper	Full sun	1' tall
Well-drained soil.		4	6'-8' wide
Silver-blue foliage on a widely spreading plant. Foliage retains its rich color all year long.			
Juniperus sabina var. tamariscifolia 'New Blue'	Tamarix Juniper	Full sun	18' to 30' tall
Well-drained soil.		3 to 7	10' wide
Superior blue foliage coloring makes this evergreen a truly outstanding landscape addition. Useful as a specimen for accent, a large scale groundcover, or for a bank planting.			
Juniperus scopulorum 'Wichita Blue'	Juniper	Full sun	10'-15' tall
Well-drained soil.		4	4'-6' wide
Broad pyramidal form. Excellent for screens, hedges, or as a background plant. Silver-blue foliage all year long.			
Juniperus x pfitzeriana 'Sea of Gold'	Pfitzer Juniper	Full sun	3' tall
Well-drained soil.		3 to 9	4' wide
Outstanding lacy, golden-yellow foliage makes this compact evergreen an excellent choice as a colorful accent. Color is retained and deepens in winter better than other gold-tipped varieties. Excellent choice for mass plantings, along foundations, fence lines, driveways, and island plantings.			
Miniature & Dwarf Evergreen Collection		Part to full sun	height varies
Well-drained soil.		5 or 6	Width varies
This collection will be a delight for your rock garden or railroad garden. Perfect little evergreens to fit in all the tight spaces in your garden! Various varieties of Juniper, Spruce, and Arborvitae, as well as a few broadleaf evergreens will be offered in this unique collection!			
Pinus thunbergiana	Japanese Black Pine	Full sun	60'-80' tall
Well-drained soil.		5	20'-40' wide
An easily transplantable, tough, and rapid growing Pine. Tolerates a wide range of soil types, moisture levels, and other growing conditions.			

Conifer

Taxus media 'Densiflora'

Dense Spreading Yew

Part to full shade

3'-4' tall

Rich, moist, well-drained soil.

5

4'-6' wide

Dense, low spreading shrub is excellent for foundation, hedge, screen, or border plantings. Dark green foliage with scarlet berries. Tolerates shearing well. Versatile and durable.

Shrub

Aronia melanocarpa 'Autumn Magic'	Black Chokeberry	Part to full sun	White	4'-7' tall
Moist, well-drained soil.		3	SP	3'-5' wide
Fragrant white flowers in the spring give way to large clusters of dark purple-black berries that persist throughout the season. Waxy, dark green leaves turn a brilliant red and purple. Tolerant of a wide range of soils and site conditions.				
Azalea 'Bloom-A-Thon Lavender'	Azalea	Part to full shade	Bright deep lavender	30" tall,3'-4' wide
NEW Rich, moist, well-drained, acidic soil.		6 to 9	SP & MSU-LSU	
Why settle for just a week or two of flowers when you can enjoy up to five months of blooms? Large, bright deep lavender flowers appear in April, then rebloom in early July, continuing through fall until hard frost. Even high summer temperatures don't stop this beauty from producing loads of late summer and fall flowers. The evergreen foliage is disease resistant, and maintains excellent color year-round. Flowering lasts for 4 to 6 weeks in spring, and then intermittently in summer and fall.				
Azalea 'Bloom-A-Thon Pink Double'	Azalea	Part to full shade	Medium pink	42"-54" tall
Rich, moist, well-drained, acidic soil.		6 to 9		3'-4' wide
Why settle for just a week or two of flowers when you can enjoy up to five months of blooms? Large double pink flowers appear in April, then rebloom in early July, continuing through fall until hard frost. Even high summer temperatures don't stop this beauty from producing loads of late summer and fall flowers. The evergreen foliage is disease resistant, and maintains excellent color year-round. Flowering lasts for 4 to 6 weeks in spring, and then intermittently in summer and fall.				
Azalea 'Bloom-A-Thon Red'	Azalea	Part to full shade	Red	3' tall
Rich, moist, well-drained, acidic soil.		6 to 9		3'-4' wide
Why settle for just a week or two of flowers when you can enjoy up to five months of blooms? Large red flowers appear in April, then rebloom in early July, continuing through fall until hard frost. Even high summer temperatures don't stop this beauty from producing loads of late summer and fall flowers. The evergreen foliage is disease resistant, and maintains excellent color year-round. Flowering lasts for 4 to 6 weeks in spring, and then intermittently in summer and fall.				
Azalea 'Girard Fuchsia'	Azalea	Part shade	Purple-red	3'-4' tall
Rich, moist, well-drained, acidic soil.		5	MSP-LSP	3'-4' wide
Bright purple-red flowers. Evergreen foliage turns brilliant deep red in the fall.				
Azalea 'Girard Hot Shot'		Part shade	Orange-red	3'-4' tall
Rich, moist, well-drained, acidic soil.		5	MSP-LSP	3'-4' wide
Single fiery orange-red blooms. Evergreen foliage turns brilliant orange-red in the fall.				
Azalea 'Girard Rose'		Part shade	Hot rose	3'-4' tall
Rich, moist, well-drained, acidic soil.		5	Mid spring	3'-4' wide
Hot rose flowers. Evergreen foliage turns brilliant deep red in the fall.				
Berberis thunbergii 'Aurea'	Golden Barberry	Full sun	Yellow	3'-4' tall
Moist, well-drained soil.		4	SP	3'-4' wide
Bright golden yellow foliage. Bright orange to red fall color.				
Berberis thunbergii 'Bonanza Gold'	Barberry 'Bogozam'	Full sun	Yellow	18" tall
Moist, well-drained soil.		4	SP	3' wide
Bright gold foliage on plants with a dense mounded habit.				

Shrub					
Berberis thunbergii 'Golden Ruby'	Barberry	Full sun	Yellow	2' tall	
Moist, well-drained soil.		4 to 8	SP	2' wide	
A slow-growing, compact Barberry with striking coral-red foliage accented by a golden margin. Great for mass plantings or as an eye-catching color contrast in the landscape. Its compact growth habit makes it a low maintenance selection.					
Berberis thunbergii 'Orange Rocket'	Barberry	Full sun	Light yellow	3'-4' tall	
Moist, well-drained soil.		4 to 8	SP	1'-2' wide	
An exciting barberry variety selected for its upright, columnar form, in addition to foliage colors in vivid shades of coral-red and orange. New growth emerges radiant with orange-red tones deepening to dark red. Bright orange-red autumn foliage. Light yellow flowers in the spring are followed by small crimson fruit. Foliage hues intensify in the fall to ruby red, making it light up the landscape.					
Berberis thunbergii 'Rosy Glow'	Barberry	Full sun	Yellow	3' tall	
Moist, well-drained soil.		4	SP	2'-3' wide	
Colorful rose and pink mottled foliage matures to a deep purple. Remarkable hot pinkish purple autumn foliage actually glows.					
Berberis thunbergii 'Sunjoy Gold Pillar'	Barberry	Full sun	Yellow	3'-4' tall	
Moist, well-drained soil.		4	SP	2' wide	
Similar in shape to 'Helmond Pillar', but with bright golden foliage and red new growth. Great garden architecture. Bright orange-red autumn foliage is stunning. Proven to be burn resistant in side by side tests with other yellow leaved barberries.					
Berberis thunbergii 'Sunjoy Mini Saffron'	Barberry	Part to full sun	Yellow	18"-24" tall	
Moist, well-drained soil.		4	SP	24"-30" wide	
Are you looking for an easy-to-grow, small plant that is colorful all season? This is it! Bright yellow foliage shows hints of orange in the new growth. Foliage turns orange-red in the fall. Unlike other yellow leaved barberry, it is very burn-resistant, and does well even in the heat of summer.					
Buxus 'Green Mountain'	Boxwood	Part to full sun		3'-5' tall	
Rich, moist well-drained soil.		5		3'-4' wide	
A fine compact, dense, slow growing, evergreen boxwood. Bright green summer color softens to a golden winter color. Extremely hardy.					
Buxus 'Green Velvet'	Boxwood	Part to full sun		2'-3' tall	
Rich, moist well-drained soil.		5		3' wide	
Dark green foliage on globe-shaped plants. Maintains its color in the winter. Slow growing plants are well suited for a low hedge.					
Buxus microphylla koreana 'Wintergreen'	Korean Boxwood	Part to full sun		2' tall	
Rich, moist well-drained soil.		5		2'-3' wide	
Fragrant flowers in mid spring. Bright green foliage becomes coppery to bronze-green in the winter. Small, dense, compact growth habit.					
Buxus microphylla 'Winter Gem'	Boxwood	Part to full sun		4'-6' tall	
Rich, moist well-drained soil.		5		4'-6' wide	
Excellent densely branched evergreen for small hedges. Retains its dark green velvety foliage color in winter. Moderate grower.					

Shrub

Callicarpa dichotoma 'Early Amethyst'

Beautyberry

Full sun

Lavender-pink

3'-4' tall

Rich, well-drained soil.

5

SU

4'-5' wide

Bright purple berries appear earlier than other varieties. The bare branches laden with berries look gorgeous in flower arrangements. The stems of berries also dry nicely. Prune the plants to rejuvenate them.

Callicarpa 'Purple Pearls'

Beautyberry

Full sun

Pink

4'-5' tall

Rich, well-drained soil.

6 to 8

ESU

4'-5' wide

A hybrid, resulting from a cross between Callicarpa dichotoma x kwantungensis. Its green foliage is tinged with purple in spring and summer. When the temperature drops in fall, the purple becomes much more pronounced in the foliage. Large violet-purple berries cover the plant in autumn, and remain attractive for many weeks. The branches of berries make lovely indoor decor as centerpieces and additions to bouquets! Vigorous plants have a nice upright habit.

Chaenomeles 'Cameo'

Flowering Quince

Part to full sun

Peachy pink

3'-5' tall

Well-drained soil.

5

ESP

3'-5' wide

Large soft peachy pink double flowers are borne in profusion on compact, bushy plants. Glossy green foliage. Needs well-drained soil. Attracts hummingbirds.

Chaenomeles 'Double Take Orange Storm'

Quince

Full sun

Orange

4'-5' tall

Well-drained soil.

5

ESP

4'-5' wide

A double take is what you'll do when you see this quince! The 'Double Take' series has given quince a complete makeover, starting with a spectacular display of big (2"+), double, camellia-like flowers in early spring. Look further and you'll also notice these plants are thornless! These drought tolerant plants are excellent for hedging, mass planting, and flower arranging. They generally do not produce fruit. Big, bright orange camellia-like blooms burst open in early spring with occasional repeat blooms.

Chaenomeles 'Double Take Pink Storm'

Quince

Full sun

Deep pink

4'-5' tall

Well-drained soil.

5

ESP

4'-5' wide

A double take is what you'll do when you see this quince! The 'Double Take' series has given quince a complete makeover, starting with a spectacular display of big (2"+), double, camellia-like flowers in early spring. Look further and you'll also notice these plants are thornless! These drought tolerant plants are excellent for hedging, mass planting, and flower arranging. They generally do not produce fruit. Deep pink flowers put on a stunning show!

Chaenomeles 'Texas Scarlet'

Flowering Quince

Part to full sun

Scarlet

2'-3' tall

Well-drained soil.

5

ESP

3'-4' wide

Fiery scarlet blooms in the spring before the glossy green foliage appears. Nearly thornless with a spreading growth habit. Needs well-drained soil.

Cornus alba 'Red Gnome'

Red Twig Dogwood

Part to full sun

Creamy white

4'-5' tall

Moist to wet soil.

3 to 8

LSP

3'-4' wide

Dark green foliage throughout the season. The pointy leaves turn an outstanding burgundy in the fall. Clusters of creamy white flowers at the ends of the branches in late spring. It produces white berries in mid summer. The tomato-orange branches are extremely showy and add significant winter interest.

Cornus stolonifera 'Cardinal'

Red Twig Dogwood

Part to full sun

6'-8' tall

Moist to wet soil.

3 to 8

4'-8' wide

The yellowish green summer stems change from coral to deep, cherry red in the winter. Superb for holiday arrangements. The most vivid winter red color occurs on the new growth. Green foliage turns reddish purple in the fall. Tolerant of poorly drained soils, allowing it to be used in wet sites. 6' to 8' tall, 4' to 8' wide.

Shrub					
Cornus stolonifera 'Pucker Up!'	Red Twig Dogwood	Part to full sun	White	3'-4' tall	
Moist to wet soil.		3	SP	3'-4' wide	
A red stemmed dogwood unlike any other! Its glossy, puckered green foliage is distinctive as well as attractive. The thick foliage delivers a high degree of leaf spot resistance. Insignificant white flowers in spring. Compact growth and bright red winter stems add to this native shrub's year-round appeal.					
Corylus avellana 'Contorta' (Hazelnut)	Harry Lauder's Walkingstick	Part to full sun		8'-10' tall	
NEW Rich, moist, very well-drained soil.		5		8'-10' wide	
The branches, twigs, and even leaves are corkscrew twisted. Dark green foliage turns yellow in the fall.					
Cotoneaster apiculatus	Cranberry Cotoneaster	Part to full sun	Pink	2'-3' tall	
Well-drained to dry soil.		4	ESU	3'-6' wide	
Dense mounded shrub with recurving branches. Small, rounded, dark, glossy green leaves. Bronzy red or purplish fall foliage. Pink flowers in early June. Large, bright red berries appear in late summer and persist through the winter. Attracts hummingbirds! Prefers moist but well drained soil.					
Deutzia gracilis 'Chardonnay Pearls'	Slender Deutzia	Part sun	Pure white	20"-36" tall	
Slightly moist, well-drained soil.		5	LSP	30" wide	
Attractive, crisp, lime-yellow foliage provides season-long garden color long after the pure white, pearl-like buds explode into a shower of fragrant late spring time flowers. An attractive, compact shrub. Great for the perennial garden or shrub border.					
Deutzia 'Yuki Snowflake'		Part to full sun	Pure white	1'-2' tall	
Slightly moist, well-drained soil.		5 to 8	SP	1'-2' wide	
A very showy, compact shrub which is adorned in hundreds of tiny white, fragrant, star-shaped flowers in the spring. A great landscape plant that is in bud for two to three weeks and then blooms for an additional three weeks! The longevity of spring flower color is amazing, and then in the fall look for the beautiful purplish foliage color. Best grown in part sun.					
Diervilla 'Kodiak Black'	Bush Honeysuckle	Full sun to full shade	Bright yellow	3'-4' tall	
NEW Well-drained to dry soil.		5	ESU	3'-4' wide	
This tough, easy growing shrub is a standout with its dark burgundy-black foliage that is especially intense in spring and autumn. The bright yellow flower panicles add contrast in early summer. A durable native that thrives in sun or shade. It's drought-tolerant, deer-resistant, and supports pollinator populations, too!					
Diervilla 'Kodiak Orange'	Bush Honeysuckle	Full sun to full shade	Bright yellow	3'-4' tall	
NEW Well-drained to dry soil.		4	ESU	3'-4' wide	
This shrub pushes fall color to the limits with its glowing orange fall foliage. It lights up the fall landscape, making it an ecofriendly alternative to burning bush. The bright yellow flower panicles add contrast in early summer. A durable native that thrives in sun or shade, even dry shade. It's drought-tolerant, deer-resistant, and supports pollinator populations, too!					
Euonymus alatus 'Cole's Compact'		Part to full sun		5'-8' tall	
NEW Moist, well-drained soil.				5'-8' wide	
Compact branching and smaller, dense foliage make this a neat, well-behaved shrub. Blazing red foliage is prized in autumn especially when planted near yellow or golden foliage plants. A fine hedge or accent.					

Shrub				
Euonymus alatus 'Compacta'	Dwarf Burning Bush	Part to full sun		5'-8' tall
Moist, well-drained soil.		4		5'-8' wide
Bushy, compact, corky barked plants with brilliant scarlet foliage in the fall. Excellent for hedges.				
Euonymus fortunei 'Gold Splash'		Full sun to Full shade		18"-24" tall
Moist, well-drained soil.		5		2'-4' wide
Large, round, bright green leaves with a wide, irregular yellow margin. Yellow fruit and orange seeds are showy and persist into the winter.				
Euonymus fortunei 'Goldy'	Spindle tree	Part to full sun		1'-2' tall
Well-drained soil.		5 to 9		1'-2' wide
Bringing a bright twist to Euonymus! The foliage has a bright flush of gold in the spring, becoming bright golden green in the summer. The foliage is accented by showy, persistent yellow fruit and orange seeds in the fall. Easy, consistent year round color has lots of appeal. Great for small spaces in your landscape or along walkways.				
Euonymus kiautschovica 'Manhattan'		Part to full sun		4'-6' tall
Moist, well-drained soil.		5		5'-6' wide
Glossy, deep green evergreen foliage. Can be sheared. Upright habit.				
Forsythia intermedia 'Magical Gold'	Forsythia	Full sun	True gold	4'-5' tall
Moist, well-drained soil.		5 to 9	ESP	3'-4' wide
Announcing the arrival of spring with bright, crisp, true gold extra large flowers the size of quarters! Strong upright growth habit. Remove older shoots when blooming has finished to allow younger growth to arise from the base. Green foliage turns burgundy in the fall.				
Forsythia intermedia 'Show Off Starlet'	Forsythia	Full sun	Bright yellow	2'-3' tall
Moist, well-drained soil.		5	ESP	2'-3' wide
'Show Off Starlet' is a bright ball of yellow flowers in spring. If your older Forsythia takes up too much room and has a weak flower display, try this new, improved variety. Masses of bright yellow flowers from base to tip in early spring.				
Forsythia intermedia 'Show Off Sugar Baby'	Forsythia	Full sun	Bright yellow	18"-30" tall
Moist, well-drained soil.		4	ESP	18"-30" wide
This miniature, upright selection delivers more flowers per inch to create an outstanding early spring display! A very compact, dwarf plant which provides lots of color in a small space.				
Fothergilla gardenii 'Mt. Airy'		Part to full sun	White	4'-5' tall
Rich, moist, well-drained, acidic soil.		5	ESP	4'-5' wide
Abundant white bottle brush flowers bloom before the leaves appear. Dark green foliage. Brilliant yellow to orange-red fall color.				

Shrub				
Hamamelis vernalis	Spring Witchhazel; Vernal Witchhazel; Ozark Witchhazel	Part to full sun	Brilliant yellow to dark red	6'-10' tall
Moist, well-drained soil.		4 to 8	LW-ESP	6'-15' wide
From late winter into early spring, this unique native shrub blooms when little else is flowering. Unique flowers with small ribbon-like, brilliant yellow petals with red inner calyces adorn this large shrub and can persist for 3 to 4 weeks. The flowers may be clustered or solitary. Flowers open on warm days and close tightly when the temperature is low. Upright habit with branches that hang low and bend up at the tips, to give a broad rounded outline. Medium to dark green leaves emerge burgundy in the spring, and appear after the flowers have finished blooming. Outstanding golden yellow fall color which lasts for 2 to 3 weeks. Quite adaptable, it prefers to grow in average to wet conditions, and will even tolerate some standing water. Tolerates heavy clay soils.				
Hibiscus syriacus 'Blue Chiffon'	Rose of Sharon; Althea	Full sun	Rich blue	8'-12' tall
Rich, moist well-drained soil.		5	MSU-EF	6'-10' wide
Large, single rich blue flowers are adorned with a lacy center to create an anemone-like bloom.				
Hibiscus syriacus 'Lavender Chiffon'	Rose of Sharon; Althea	Full sun	Lavender	8'-12' tall
Rich, moist well-drained soil.		5	MSU-EF	6'-10' wide
Large, single lavender flowers are adorned with a lacy center to create an anemone-like bloom.				
Hibiscus syriacus 'White Chiffon'	Rose of Sharon; Althea	Full sun	White	8'-12' tall
Rich, moist well-drained soil.		5	MSU-EF	6'-10' wide
Large, single pure white flowers are adorned with a lacy center to create an anemone-like bloom.				
Hibiscus, Single syriacus 'Ardens' TREE form	Rose of Sharon; Althea	Full sun	Purple	8'-12' tall
NEW Rich, moist well-drained soil.		5		6'-10' wide
Double purple flowers. Prefers moist, well-drained soil. Blooms from early summer to frost. Golden yellow fall color. Attracts butterflies!				
Hydrangea arborescens 'Annabelle'	Smooth Hydrangea	Part shade	Green to white	3'-4' tall
Rich, moist, well-drained soil.		4	SU & EF	3'-4' wide
Big and bold snowball-like flowers gradually change from green to pure white. If deadheaded after the first bloom, it will often rebloom in late summer or early fall. Adaptable to light shade.				
Hydrangea arborescens 'Incrediball'	Smooth Hydrangea	Part shade	White to green	4'-5' tall
Rich, moist, well-drained soil.		4	SU-F	4'-5' wide
A new and improved 'Annabelle' Hydrangea, with beefy stems and massive blooms. The breeding goal was stronger stems to eliminate the blooms from flopping, but they achieved incredibly large blooms, too! Each bloom has roughly 4 times as many flowers as 'Annabelle'!				
Hydrangea arborescens 'Incrediball Blush'	Smooth Hydrangea	Part shade	Blush pink	4'-5' tall
NEW Rich, moist, well-drained soil.		3 to 9	ESU-MF	4'-5' wide
'Incrediball' hydrangeas are beloved for their stout stems and massive blooms. 'Incrediball Blush' adds a new color to the series. This beauty has big, bodacious, blush pink blooms that change to an attractive green color as they age. The sturdy stems hold the large flowers up even after heavy rains, making this a great choice for cutting and drying. Needs part shade (morning sun is best) and moist, well-drained soil. Blooms only on new wood; prune in late winter/early spring.				

Shrub**Hydrangea arborescens 'Invincibelle Spirit'**

Smooth Hydrangea

Part shade

Hot pink to clear pink

3'-4' tall

Rich, moist, well-drained soil.

3 to 9

MSU-F

3'-4' wide

The first ever pink flowered mop-head Hydrangea arborescens! Its flowers emerge a dark, hot pink color and mature to a rich clear pink. It blooms continuously (without deadheading) from early summer right up until frost. This reliable bloomer is heat tolerant and very hardy. Moderate growth rate. Rounded habit. Adaptable to most moist, well-drained soils. The soil pH does not affect the bloom color. Five cents from every plant sold will be donated by Proven Winners to The Breast Cancer Research Foundation.

Hydrangea macrophylla 'Double Delights Freedom'

Bigleaf Hydrangea

Part to full shade

Creamy rose-pink to blue

3'-4' tall

Rich, moist, well-drained soil.

5 to 9

LSP-F

3'-5' wide

Fully double creamy rose-pink to blue flowers contrast sharply with the dark green foliage. Extra powerful stems hold up the beautiful flowers. Reblooming plants have a mounded habit.

Hydrangea macrophylla 'Endless Summer'

Mophead; Bigleaf Hydrangea

Part shade

Blue or pink

3'-5' tall

Rich, moist, well-drained soil.

4

LSP-SU

3'-5' wide

This cold hardy hydrangea has great appeal because of the large mophead flowers that begin to bloom in spring and will repeat through fall if the spent flowers are cut off. Eight inch diameter blooms are clear pink in alkaline soil or blue in acidic soil. It has displayed uncommon cold tolerance in the rigors of Minnesota's zone 4 winters! Unlike nearly all other mophead hydrangeas, 'Endless Summer' blooms on new and old wood (most bloom on only old wood). If you're tired of not having gorgeous hydrangea blooms, then plant 'Endless Summer'! Zone 4. 3' to 5' tall and wide.

Hydrangea macrophylla 'Endless Summer Bloomstruck'

Bigleaf Hydrangea

Part shade

Vivid purple or rose-pink

3'-4' tall

Rich, moist, well-drained soil.

4 to 9

ESU-EF

3'-5' wide

This showstopper explodes with Mophead blooms covering rounded, compact plants. Large, 3 1/2" to 5" wide blooms mature to shades of purple or rosy red (depending on soil pH) extending the display into fall, with the autumnal burgundy-red foliage adding to the show. Flowering occurs on both old wood and new growth, assuring flowers even after a severe winter. BloomStruck also has incredibly beautiful red-purple stems, dark green leaves with red petioles and red veins, which give great contrast to your other garden shrubs, perennials and annuals.

Hydrangea macrophylla 'LA Dreamin'

Bigleaf Hydrangea

Part to full shade

Pink and blue

1'-3' tall

Rich, moist, well-drained soil.

5 to 10

ESU-F

3' wide

'Lindsey Ann' Hydrangea is the best of both worlds, a macrophylla that is multicolored and blooms on new and old wood! It blooms all season with blooms that are potentially both pink and blue, and all shades in between on the same plant! Multicolored blooms are not the only special feature of this shrub, it is a very reliable bloomer from both its old and new wood. Now, winter's chill is no match for this hardy variety. This compact shrub can find its home in large gardens, small gardens, landscape, and also makes a great selection for container shrubs (would need winter protection when planted in a container). As the plant matures, you are more likely to see multiple colors. If your soil is strongly acidic or alkaline, you may get just blue or just pink blooms.

Hydrangea macrophylla 'Let's Dance Blue Jangles'

Bigleaf Hydrangea

Part shade

Pink or blue

2'-3' tall

Rich, moist, well-drained soil.

5 to 9

MSU-LSU

2'-3' wide

Mophead blooms are very reliable and are held up by its sturdy frame. It is going to be naturally pink, but at 3 years and later, the soil can be amended with aluminum sulfate and the blooms will then be rich blue. The frilly florets are tightly packed together, creating a very full flower. Blooms on both old and new wood.

Shrub**Hydrangea macrophylla 'Let's Dance Rhapsody Blue'**

Bigleaf Hydrangea

Part shade

Bright pink to blue

2'-3' tall

Rich, moist, well-drained soil.

5 to 9

MSU-LSU

2'-3' wide

It is truly one of the easiest to turn blue. It is naturally pink, but with a little acid, it will easily turn blue. The frilly florets are tightly packed together, creating a very full flower. Blooms on both old and new wood. Is a very reliable bloomer and has sturdy stems for a nice upright habit. Great cutflower, or dried flower.

Hydrangea macrophylla 'Let's Dance Starlight'

Bigleaf Hydrangea

Part to full shade

Vivid pink or blue

2'-3' tall

Rich, moist, well-drained soil.

5

MSU-LSU

3' wide

The first ever new wood blooming lacecap! It's hardy, dependable, and colorful. The massive lacecap blooms are vivid pink or blue (depending upon pH) atop strong stems. The Let's Dance series blooms on both new and old wood, delivery seasons of flowers and lots of wow!

Hydrangea macrophylla 'Nantucket Blue'

Bigleaf Hydrangea

Part shade

Blue or pink

4'-6' tall

Rich, moist, well-drained soil.

4 to 9

ESU-LSU

4'-6' wide

A repeat-blooming Hydrangea with abundant blue flowers from spring through fall. Flowers will be pink in alkaline soils, acidify the soil to turn the flowers blue.

Hydrangea macrophylla 'Nikko Blue'

Bigleaf Hydrangea

Part to full shade

Cream to blue

5' tall

Rich, moist, well-drained soil.

5

SU

5' wide

Large ball-like mophead flowers start cream with blue margins then turn a beautiful steel blue as they mature. Prolific bloomer.

Hydrangea macrophylla 'Penny Mac'

Bigleaf Hydrangea

Part to full shade

Pink or blue

3'-5' tall

Rich, moist, well-drained soil.

5

SU

3'-4' wide

Touted as a plant that blooms on new wood, just like 'Endless Summer'. People who have grown this variety even recommend heavy spring pruning to encourage more blooms!

Hydrangea paniculata 'Bombshell'

Panicled Hydrangea

Part shade

Creamy white

30"-36" tall

Rich, moist, well-drained soil.

3 to 8

ESU-F

3'-4' wide

A garden breakthrough! With a dwarf habit, 'Bombshell' is incredibly well branched. Covered in creamy white flowers against dark green foliage from early summer until frost, this cultivar has more flowers per plant than any other Hydrangea paniculata! With its long bloom time and very compact habit, 'Bombshell' is a significantly improved plant in all respects. It is low maintenance with little to no pruning needed to keep the plant compact and tidy. A remarkable show in most garden settings!

Hydrangea paniculata 'Limelight'

Panicled Hydrangea

Part shade

Lime green

6'-8' tall

Rich, moist, well-drained soil.

5

MSU-LSU

9'-10' wide

Exquisite bright lime green flowers are breathtakingly beautiful and blend with nearly any color scheme. Excellent vigor and very floriferous.

Hydrangea paniculata 'Little Quick Fire'

Panicled Hydrangea

Part shade

Light pink and white

3'-5' tall

Rich, moist, well-drained soil.

4 to 8

ESU-MF

3'-5' wide

One of the first paniculata types to bloom! Remarkable for its diminutive frame and its fluffy flower spikes, the white florets are accented with deep carmine tones, regardless of soil pH. Blooms on old and new wood over a long season!

Shrub					
Hydrangea paniculata 'Pinky Winky'	Panicle Hydrangea	Part shade	White to pink	6'-8' tall	
Rich, moist, well-drained soil.		4 to 7	ESU-F	6'-8' wide	
An incredible hydrangea with unique, two toned flower heads in mid summer. A truly incredible sight to watch as the large, 12"-16" long flower heads emerge white, turn pink, and continue to push new white flowers from the top of the panicle. The florets					
Hydrangea paniculata 'Vanilla Strawberry' ('Renhy')	Panicle Hydrangea	Part to full shade	Vanilla and strawberry	6'-7' tall	
Rich, moist, well-drained soil.		4 to 8	MSU-EF	4'-5' wide	
A delicious new creation from France. The enormous flower panicles are a blend of creamy vanilla and strawberry, held upright on red stems. They emerge creamy white in mid summer, change to pink, and finally to strawberry red. New blooms give the plant a multicolored effect in late summer and early fall. The red coloration persists for at least 3 to 4 weeks. The habit is upright becoming cascading later in the season. Compared to H. 'Pinky Winky', however the habit is more upright and the red flower color persists longer. Excellent for fresh cut and dried flower arrangements. Medium green foliage.					
Hydrangea quercifolia 'Gatsby Star'	Oakleaf Hydrangea	Part shade	White	6'-8' tall	
Rich, moist, well-drained soil.		5 to 9	MSU-MF	6'-8' wide	
It's got star power! Doubled florets have pointed petals, resulting in a beautiful, lacy panicle 1' or longer! The flowers age to pink in the fall, along with the green foliage that turns burgundy in the fall. Very showy plants! Best in part shade and in moist, well-drained soil.					
Hydrangea quercifolia 'Ruby Slippers'	Oakleaf Hydrangea	Part shade	White to pink to ruby red	42" tall	
NEW Rich, moist, well-drained soil.		5 to 8	ESU-MSU	5' wide	
There's no place like home" when this exciting new dwarf Oakleaf Hydrangea is waiting in the garden! Developed by the National Arboretum from a hybrid of the classic H. 'Snow Queen' and the dwarf H. 'Pee Wee'. 'Ruby Slippers' offers astonishing 9" long inflorescences packed with florets that turn from white to pale pink and finally to rich ruby red over their long summer bloom season. A magnificent year-round addition to any landscape, with large oakleaf-shaped leaves that turn from deep green to russet mahogany in autumn, adding another season of glory to this petite shrub. The blooms are ever-changing and so long-lasting, as stunning in the vase or dried, as they are on the plant. Easy to grow, even in hard-packed clay soils. Needs part shade and plenty of moisture.					
Hydrangea quercifolia 'Snow Queen'	Oakleaf Hydrangea	Part shade	White to pink	7'-10' tall	
Rich, moist, well-drained soil.		5	ESU	7'-10' wide	
Large, tightly packed, pure white panicles are held upright to create a unique summer flower display. The flowers fade to light pink and the leathery leaves turn a superb burgundy in autumn.					
Hydrangea quercifolia 'Snowflake'	Oakleaf Hydrangea	Part shade	White to dark purple-pink	5'-6' tall	
Rich, moist, well-drained soil.		5	ESU/MSU-LF	3'-4' wide	
Huge pendulous blooms with doubled flowers. The flowers open white, while the older sepals turn dark purple-pink to create a unique show! The plant has a graceful weeping habit and wonderful burgundy-red fall color!					
Ilex meserveae 'Blue Prince'	Holly	Part to full sun		6'-10' tall	
Rich, moist well-drained soil.		4		3'-6' wide	
Beautiful dark blue-green foliage on blue-purple stems. The foliage turns a deep blue-purple color in the winter. The pollinator for 'Blue Princess'. At least one male should be planted for every 10 females. The males and females can be planted up to 25' to 50' apart and still get pollinated.					
Ilex meserveae 'Blue Princess'	Holly	Part to full sun	White	8'-12' tall	
Rich, moist well-drained soil.		4		6'-9' wide	
Large dark bluish green leaves on blue stems. Abundant producer of dark red berries. Use 'Blue Prince' or 'China Boy' as the pollinator.					

Shrub

Ilex meserveae 'Castle Spire'	Blue Holly	Part to full sun	White	8'-10' tall
Rich, moist well-drained soil.		5		3'-4' wide
A beautiful compact, pyramidal blue holly with large, lustrous dark green leaves, bright red berries, and superior branching. A great foundation plant, specimen, or hedge plant that can be used as a replacement for Capitata Yew. A female selection, it requires a male for pollination. 'Castle Wall' is recommended as the pollinator.				
Ilex meserveae 'Castle Wall'	Blue Holly	Part to full sun		5'-8' tall
Rich, moist well-drained soil.		5		3'-4' wide
A broad-columnar shaped, male blue holly with lustrous dark green leaves and superior, compact branching. A great foundation plant, specimen, or hedge plant that can be used as you would Hiks Yew. The recommended pollinator for 'Castle Spire'.				
Ilex verticillata 'Jim Dandy'	Winterberry	Part to full sun		3'-6' tall
Rich, moist well-drained soil.		4		3'-4' wide
The pollinator for 'Afterglow'.				
Itea virginica 'Henry's Garnet'	Sweetspire; Virginia Willow; Tasselwhite	Sun to shade	White	5'-6' tall
Rich, moist well-drained soil.		5	SP	5'-6' wide
Fragrant white flower spikes. Brilliant red-purple fall color lasts into winter. Moderate grower. Attracts butterflies!				
Itea virginica 'Little Henry'	Sweetspire; Virginia Willow; Tasselwhite	Sun to shade	White	18"-24" tall
Rich, moist well-drained soil.		5	SU	3' wide
Sweetly scented, pure white flowers. Low mounded, compact foliage. Excellent red fall color rivals that of Burning Bush (<i>Euonymus alatus</i>).				
Itea virginica 'Little Henry'	Sweetspire; Virginia Willow; Tasselwhite	Sun to shade	White	18"-24" tall
Rich, moist well-drained soil.		5	SP	3' wide
Sweetly scented, pure white flowers. Low mounded, compact foliage. Excellent red fall color rivals that of Burning Bush (<i>Euonymus alatus</i>).				
Kerria japonica 'Pleniflora'	Double Flowered Kerria	Full sun to Full shade	Gold	4'-5' tall
Rich, moist, well-drained soil.		5 to 9	SP & SU	8'-10' wide
This rugged heirloom shrub glows with fluffy golden pompon-like flowers in the spring, and sometimes during the summer as well. Blooms happily in shady borders and perennial beds. Handsome bright green foliage. Attractive bright Kelly green winter stems provide refreshing winter interest. Vigorous grower to 4' to 5' tall, 8' to 10' wide.				
Kolkwitzia amabilis 'Dream Catcher'	Beauty Bush	Part sun	Light pink	6'-9' tall
Rich, well-drained soil.		4 to 9	ESP	10' wide
This Beauty Bush is spectacular in bloom, but its golden yellow foliage really steals the show. Soft pink flowers in early spring. For best performance, plant it in filtered or partial shade. Splendid golden orange fall color lengthens the color show!				
Kolkwitzia amabilis 'Pink Cloud'	Beauty Bush	Full sun	Light pink and yellow	6'-7' tall
Rich, well-drained soil.		5 to 9	LSP-SU	6'-8' wide
Displays profuse clusters of small, bell-shaped pink flowers with yellow throats on arching branches with dark gray-green foliage. A stunning bloomer! The flowers are followed by brown, hairy seeds that remain in irregular clusters into winter. The fall foliage is slightly yellowish to reddish. Gray-brown bark on the older stems exfoliates to give winter interest and appeal. Very drought tolerant and adaptable. Fast growing to 6' to 7' tall, 6' to 8' wide.				

Shrub					
Lagerstroemia indica 'Acoma'	Crape Myrtle	Full sun	White	10' tall	
Well-drained soil.		5	MSU	12' wide	
White flowers. Long blooming. Distinctive semi-pendulous habit with good fall color. Disease resistant.					
Lagerstroemia indica 'Double Feature'	Crape Myrtle	Full sun	Ruby red	6'-8' tall	
Well-drained soil.		6 to 9	SU	6'-8' wide	
'Double Feature' has a unique phenomenon where it continues to rebloom on same panicle, without requiring new growth of a new shoot. Sterile, ruby red flowers and exceptionally early flower production. Unique growth habit and size, larger than true dwarf cultivars, but not likely to exceed 6 to 8 feet tall and wide after many years.					
Lagerstroemia indica 'Enduring Summer Lavender'	Crape Myrtle	Full sun	Deep scarlet-red	4'-5' tall	
Well-drained soil.		6 to 9	SU-F	4'-5' wide	
Clusters of deep true scarlet-red blooms appear summer through fall against the glossy green foliage. Leaves emerge tinged with red and turn to dark green.					
Lagerstroemia indica 'Hopi'	Crape Myrtle	Full sun	Pink	10' tall	
Well-drained soil.		5	MSU	10' wide	
Heavy bloomer with pink flowers and good disease resistance.					
Lagerstroemia indica 'Pink Ruffles'	Crape Myrtle	Full sun	Light pink	4'-6' tall	
Well-drained soil.		6	MSU-EF	4'-6' wide	
Light pink flowers. Blooms most of the summer, with heavy flowering in July and August.					
Lagerstroemia indica 'Pink Velour'	Crape Myrtle	Full sun	Bright pink	15' tall	
Well-drained soil.		6	MSU-EF	10' wide	
Bright pink flowers. Maroon new foliage turns bright green					
Lagerstroemia indica 'Pink Velour'	Crape Myrtle	Full sun	Bright pink	15' tall	
Well-drained soil.		6	MSU-EF	10' wide	
Bright pink flowers. Maroon new foliage turns bright green					
Lagerstroemia indica 'Princess Holly Ann'		Full sun	Cherry red	4'-5' tall	
Well-drained soil.		6	MSU-EF	30"-36" wide	
Cherry red blooms cover this mounding dwarf Crape Myrtle from midsummer to early fall. The new growth is a copper red, turning deep green in summer, and then to purplish red in fall. Because of the L. fauriei in 'Princess Holly Ann's hybrid parentage, she is more disease resistant and more cold tolerant than straight L. indica varieties.					
Lagerstroemia indica 'Raspberry Sundae'	Crape Myrtle	Full sun	Pinkish red and white	15' tall	
Well-drained soil.		6		10' wide	
Upright shrubs with pinkish red flowers with white edges.					
Lagerstroemia indica 'Red Rocket'	Crape Myrtle	Full sun	Bright red	12'-15' tall	
Well-drained soil.		6		10' wide	
20" spikes of bright red flowers					

Shrub					
Lagerstroemia indica 'Royalty'	Crape Myrtle	Full sun	Lavender	4'-6' tall	
Well-drained soil.		6	SU	4'-6' wide	
Lavender flowers. Blooms most of the summer, with heavy flowering in July and August.					
Lagerstroemia indica 'Siren Red'	Crape Myrtle	Full sun	Oxblood red	6'-10' tall	
Well-drained soil.		6	MSU-F	4'-6' wide	
Oxblood red flowers are the darkest red flowers yet. The darkness or intensity of the red is less affected by cool, cloudy conditions. The new growth is wine, quickly changing to dark green. Slow growing. Highly mildew resistant.					
Lagerstroemia indica 'Tonto'	Crape Myrtle	Full sun	Red	10' tall	
Well-drained soil.		5	MSU-EF	10' wide	
Red flowers. Has fine, light tan, exfoliating bark. Bright orange-red to dark red fall color.					
Lagerstroemia indica 'Victor'	Crape Myrtle	Full sun	Dark red	3'-5' tall	
Well-drained soil.		6	MSU-EF	3'-5' wide	
Dark red flowers bloom most of the summer, with heavy flowering in July and August. Moderately Powdery mildew resistant					
Lagerstroemia indica 'Violet Filli'	Crape Myrtle	Full sun	Violet	12" tall	
Well-drained soil.		4	MSU-F	18" wide	
This very compact "crape myrtlette" is covered with loads of large violet flowers from mid summer to frost. Mildew resistant and very hardy!!					
Lagerstroemia indica 'Violet Filli'	Crape Myrtle	Full sun	Violet	12" tall	
Well-drained soil.		4	MSU-F	18" wide	
This very compact "crape myrtlette" is covered with loads of large violet flowers from mid summer to frost. Mildew resistant and very hardy!!					
Lagerstroemia indica 'Violet Filli'	Crape Myrtle	Full sun	Violet	12" tall	
Well-drained soil.		4		18" wide	
This very compact "crape myrtlette" is covered with loads of large violet flowers from mid summer to frost. Mildew resistant and very hardy!!					
Lagerstroemia indica 'Zuni'	Crape Myrtle	Full sun	Medium lavender	7'-9' tall	
Well-drained soil.		5	MSU-EF	6'-8' wide	
Medium lavender flowers from mid summer to early fall. Orange-red fall color. Strong mildew resistance.					
Leptodermis oblonga		Full sun	Violet-purple	12"-18" tall	
Moist, well-drained soil.		5	LSP-F	18"-24" wide	
Violet-purple, lilac-like very fragrant blooms appear in late spring and do not stop until frost! Wonderful constant flowering ground cover. Low mounding habit is perfect in a perennial border. 12"-18" tall, 18" to 24" wide.					
Ligustrum vicari	Privet; Golden Privet	Part to full sun		8'-10' tall	
Well-drained soil.		5		8'-10' wide	
Bright golden foliage lasts all season, especially when planted in full sun. Excellent for hedges. Fast grower. Attracts butterflies!					

Shrub					
Philadelphus 'Snow Dwarf'	Dwarf Mockorange	Part to full sun	White	2'-3' tall	
Moist, well-drained soil.		4 to 8	LSP-ESU	2'-3' wide	
Sweetly fragrant, 4-petaled, double white flowers to 1 1/2" in diameter. The flowers appear in loose clusters atop oval, dark green leaves. Compact, upright, arching habit. Blooms on old wood, so if needed, prune it right after flowering.					
Philadelphus 'Snowbelle'	Mock Orange	Full sun	Pure white	3'-4' tall	
Moist, well-drained soil.		4 to 7	SU	3'-4' wide	
This low growing, compact mock orange is loaded with fragrant double, pure white flowers! 3' to 4' tall and wide.					
Physocarpus opulifolius 'Coppertina'	Ninebark	Full sun	Pinkish white	8'-10' tall	
Rich, moist well-drained soil.		3	SU	8' wide	
This small, upright shrub is a hybrid of 'Dart's Gold' and 'Diabolo', with rich coppery orange foliage in the spring that flushes to a deep red in the summer. Dotted with pinkish white flowers in summer. Plant in full sun for the best foliage color.					
Physocarpus opulifolius 'Coppertina'- Tree Form	Ninebark	Full sun	Pinkish white	8'-10' tall	
NEW	Rich, moist well-drained soil.		3	SU	8' wide
This small, upright shrub is a hybrid of 'Dart's Gold' and 'Diabolo', with rich coppery orange foliage in the spring that flushes to a deep red in the summer. Dotted with pinkish white flowers in summer. Plant in full sun for the best foliage color.					
Physocarpus opulifolius 'Diabolo'	Ninebark	Full sun	Pinkish white	4'-8' tall	
Rich, moist well-drained soil.		3	MSU	8'-10' wide	
Attractive dark chocolate-purple foliage. Pinkish white, button-like flowers in mid summer fade to tawny pink. Very showy and extremely hardy.					
Physocarpus opulifolius 'Summer Wine'	Ninebark	Full sun	Pinkish white	5'-6' tall	
Rich, moist well-drained soil.		3	ESU-MSU	5' wide	
An exciting form of Ninebark with neat, compact branching and fine, deeply cut, dark crimson-red leaves. This selection combines the fine texture and compact branching of P. 'Nana' with the dark foliage of P. 'Diabolo'. Pinkish white, button-like flowers make their appearance in early to midsummer. Dark green to purple fall color. Very showy, extremely hardy, and it makes a great cut flower!					
Physocarpus opulifolius 'Tiny Wine'	Dwarf Ninebark	Full sun	White	3'-4' tall	
Rich, moist well-drained soil.		3 to 8	LSP	3'-4' wide	
Just as its name implies, this is a compact Ninebark! It's smaller habit makes it perfect for container gardens and foundation plantings! Extra bushy and full with small, refined, burgundy-bronze leaves. The flower show is exceptional with tiny light pink buds exploding into clusters of tiny white flowers. The flowers bloom up and down the stems in a showy display.					
Potentilla fruticosa 'Abbotswood'	Cinquefoil	Full sun	White	2' tall	
Well-drained soil.		2 to 7	SU	3' wide	
Masses of bright white blooms in summer. Dwarf habit makes it useful in a border, mass planting, or as an accent. Moderate grower. Attracts butterflies!					
Potentilla fruticosa 'Frosty'	Cinquefoil	Full sun	Ivory-white	1' tall	
Well-drained soil.		3 to 7	SU	3' wide	
A versatile small shrub producing large frosty ivory-white single, rose-like flowers all summer long. Finely textured dark green foliage on a mounding form. Use as a colorful accent in front of taller shrubs.					

Shrub					
Potentilla fruticosa 'Gold Star'	Cinquefoil	Full sun	Deep yellow	2'-3' tall	
Well-drained soil.		2 to 7	SU	3' wide	
Densely branched shrub valued for its beautiful display of very large golden yellow flowers atop silver-green foliage. Spreading habit makes it perfect for the border, or as an accent or ground cover. Very tolerant to heat and poor soils. Fast growing to 2' to 3' tall, 3' wide.					
Potentilla fruticosa 'Pink Beauty'	Cinquefoil	Full sun	Clear pink	2'-3' tall	
Well-drained soil.		2 to 7	SU	3'-4' wide	
Clear pink semi-double flowers hold their color in the summer. Globe-shaped habit with dark green foliage.					
Potentilla fruticosa 'Sunset'	Cinquefoil	Full sun	Brick orange	2' tall	
Well-drained soil.		2 to 7	SU	3' wide	
Masses of color from glowing brick orange, quarter-sized blooms held on dense branches in the summer. Neat, compact shrub useful for borders, low hedges, or entryways. The flower color fades to yellow in hot weather. Does best in part sun. Moderate growth rate.					
Prunus cistena	Dwarf Red-leaf Plum; Purple Leaf Sand Cherry	Full sun	Light pink	6'-10' tall	
Moist, very well-drained soil.		4	SP	6'-8' wide	
Masses of light pink flowers atop deep purple foliage. Flowers are followed by small black fruit. Multi-trunked shrub form is moderate growing.					
Pyracantha angustifolia 'Gnome'	Firethorn	Full sun	White	4'-6' tall	
Rich, well-drained soil.		5	SP	6'-8' wide	
Numerous white flowers in the spring. Very hardy orange berried variety with dense branching and mounding growth habit.					
Pyracantha angustifolia 'Yukon Belle'	Firethorn	Full sun	White	8'-10' tall	
Rich, well-drained soil.		5	SP	6'-8' wide	
This evergreen to semi-evergreen shrub features abundant ½" white flowers in the spring, followed by bright orange berries in the fall and winter. A perfect barrier hedge, or it can be trimmed onto a trellis or espalier.					
Rhamnus frangula 'Fine Line' ('Ron Williams')	Buckthorn; Ron Williams	Full sun to Full shade		5'-7' tall	
Well-drained soil.		2		2'-3' wide	
Wonderful ribbon-like dark green leaves provide amazing textural contrast. Versatile, airy columnar form is perfect for containers, screens, narrow hedges, entrances, patio gardens, and as an accent. Unexpected yellow autumn color is just one of the many great features! 5' to 7' tall, 2' to 3' wide.					
Rhododendron 'Cunningham's White'	Rhododendron	Part to full shade	White	4' tall	
Rich, moist, well-drained, acidic soil.		5	LSP	4' wide	
Showy white flowers with a greenish blotch open from pink buds. The flowers are a beautiful contrast to the dark green leaves. Moderate growing.					
Rhododendron 'Lee's Dark Purple'	Rhododendron	Part to full shade	Violet-purple	6' tall	
Rich, moist, well-drained, acidic soil.		5	LSP	6'-8' wide	
Erect, compactly branched, broad, mounded form. In late spring, very dark purple buds open to large, dense trusses of violet-purple flowers enhanced by brownish blotches. This variety will take a bit more sun than other varieties of Rhododendron, but site it where it will still be protected from the winter winds.					

Shrub				
Rhododendron 'Lord Roberts'	Rhododendron	Part to full shade	Dark red	4'-5' tall
Rich, moist, well-drained, acidic soil.		5	LSP	4'-5' wide
Large ball-shaped trusses of dark red flowers with black markings in the throats. Glossy, heavy textured leaves are very rippled. Vigorous. Upright, rounded habit.				
Rhus aromatica 'Gro-low'	Fragrant Sumac	Full sun	Yellow	2'-3' tall
Moist, well-drained soil.		4	SP	6'-8' wide
Fast growing deciduous shrub with fragrant leaves. Glossy, deep green leaves turn red and orange-red in the fall. Yellow spring flowers and small red fruit. A low maintenance ground cover or bank cover for poor soil.				
Rhus typhina 'Tiger Eyes'	Cutleaf Sumac; Cutleaf Staghorn Sumac	Sun to Shade		6'-8' tall
Moist, well-drained soil.		4		6'-8' wide
The new growth if a vivid chartreuse-green, changing to a bright yellow summer color. The leaf stems are purplish pink and form a dramatic contrast with the foliage. A luminous display of yellow, orange, and intense scarlet foliage in the fall! The leaves droop slightly, giving the plant an arching appearance. A beautiful plant for mass plantings or for specimen use. Very tolerant of dry conditions.				
Salix caprea	French Pussy Willow	Full sun	Silver pink	12'-15' tall
Deep, moist soil.		4	ESP	5' wide
A favorite for cutting branches in early spring! The silver pink catkins make a great dried arrangement as well. Cut the branches back yearly to produce long shoots.				
Spirea bumalda 'Double Play Artist'	Spirea	Part to full sun	Rich pure pink	24"-30" tall
Rich, moist, well-drained soil.		4	LSP-ESU	3'-4' wide
You will love this plant from the moment it leafs out in the spring! The blue-green foliage emerges a rich purple-red, setting it apart from other plants! The foliage turns russet red in the fall. The flowers are a rich, pure pink, unlike any other Spirea. The flowers first appear in late spring and repeat bloom through the summer. The plant is a compact, full bodied mound, perfect for use in the shrub border, as a specimen plant, or in the foundation planting.				
Spirea bumalda 'Double Play Big Bang'	Spirea	Part to full sun	Pink	2'-3' tall
Rich, moist, well-drained soil.		4	LSP-ESU	2'-3' wide
Bright yellow foliage makes this plant a standout in the landscape. Massive pink flowers of a size never seen before sit atop the foliage in spring. The leaves have an orange glow in early spring.				
Spirea bumalda 'Double Play Gold'	Spirea	Part to full sun	Pure pink	16"-24" tall
Rich, moist, well-drained soil.		4	LSP-ESU	3'-4' wide
A compact, low mounded beauty with vibrant, pure golden foliage and an abundance of vibrant, pure pink flowers. Blooms abound in early to mid summer.				
Spirea bumalda 'Little Princess'	Spirea	Full sun		18"-24" tall
NEW	Rich, moist, well-drained soil.			4'-5' wide
Abundant light pink flowers atop compact mounds of green foliage.				
Spirea bumalda 'Magic Carpet'	Spirea	Full sun	Pinkish purple	12"-18" tall
Rich, moist, well-drained soil.		4	SU	12"-18" wide
Bright golden leaves have vibrant red to copper leaf tips. Pinkish purple flowers in the summer. Dwarf habit makes a perfect ground cover.				

Shrub					
Spirea bumalda 'Neon Flash'	Spirea	Full sun	Vivid rosy red	3' tall	
Rich, moist, well-drained soil.		4	LSP-ESU	3' wide	
Long blooming vivid rosy red flowers above rich purple-green new growth.					
Spirea fritschiana 'Pink Parasols'	Spirea	Full sun	Pink	2'-3' tall	
Rich, moist, well-drained soil.		4	ESU	2'-3' wide	
Big, fluffy, umbrella-like blooms cover this mounded shrub in early summer. Bluish green leaves turn a nice yellow-orange color in the fall. Great for massing.					
Spirea thunbergii 'Ogon'	syn. Spirea 'Mellow Yellow'	Full sun	Snow white	3'-4' tall	
Rich, moist, well-drained soil.		4	ESP	3'-4' wide	
Perfect mounds of bright yellow willowy foliage shimmers in the moonlight and glows by day. Snow white flowers in the spring before the foliage appears. Great for adding texture to any border. Fiery orange and red fall foliage. 3' to 4' tall and wide.					
Spirea vanhouttei 'Renaissance'	Renaissance Spirea; Bridal Wreath Spirea	Part to full sun	Pure white	5'-7' tall	
Rich, moist, well-drained soil.		4	MSP-LSP	6'-8' wide	
An improved version of an old time favorite! An upright and arching shrub that becomes a fountain of white flowers in mid to late spring, and is particularly stunning on cloudy days or in the moonlight. A popular cut flower for fresh wreath making. Dark blue-green, disease-resistant leaves turn yellow to orangish red in the fall. Mildew and rust resistant foliage. Fast grower to 5' to 7' tall, 6' to 8' wide.					
Symphoricarpos doorenbosii 'Amethyst'	Coralberry; Kordes	Part to full sun	White	3'-5' tall	
Rich, well-drained soil.		3	MSU	3'-5' wide	
Loads of vivid deep purple-pink fruit are smashing from late summer into winter. Imagine the combinations for autumn floral arrangements! Neat habit and model branching make this variety a good choice! 3' to 5' tall and wide.					
Syringa 'Bloomerang'	Lilac	Full sun	Lavender-purple	4'-5' tall	
Rich, well-drained soil.		3	SP & MSU-F	4'-5' wide	
An awesome reblooming lilac! The highly fragrant, lavender-purple flowers burst forth in spring and then again in mid summer and continue right up until frost. It has a compact, full growth habit and small leaves that make it the perfect shrub for smaller gardens! Mildew resistant foliage.					
Syringa 'Bloomerang Dark Purple'	Lilac	Full sun	Purplish plum	4'-6' tall	
Rich, well-drained soil.		4 to 7	SP & MSU-F	4'-6' wide	
The next big thing for Bloomerang! The second introduction in the Bloomerang compact, reblooming lilac series. In the spring, massive amounts of dark grape colored buds open to purplish plum flowers. While traditional lilacs bloom for only a few weeks in spring, 'Bloomerang Dark Purple's fragrant flowers continue until frost! In comparison to the original 'Bloomerang', 'Bloomerang Dark Purple' is a larger plant, with more rounded clusters of blooms. Very showy in spring, and continues to amaze with fragrant blooms midsummer to frost!					
Syringa 'Bloomerang Pink Perfume'	Lilac	Full sun	Pink	4'-5' tall	
NEW Rich, well-drained soil.		3 to 7	SP & MSU-EF	4' wide	
If you've always wanted the intoxicating scent of Lilacs in your garden, but didn't have room for them, take a close look at this new addition to the Bloomerang family of reblooming Lilacs. Its upright, bushy form reaches just 4' to 5' tall, and its dainty spikes of reddish purple buds open to intensely fragrant, soft pink flowers. 'Pink Perfume' blooms heavily in late spring and, after a short rest, flowers again intermittently until fall. These charming plants give a neat show of color for containers, pathways, and intimate spaces.					

Shrub					
Syringa hyacinthiflora 'Pocahontas'	Lilac	Part to full sun	Deep violet	10' tall	
Rich, well-drained soil.		2	MSP-LSP	10' wide	
Deep maroon-purple buds open to fragrant single deep violet blooms two weeks before most lilacs.					
Syringa persica	Purple Persian Lilac	Full sun	Lilac-purple	4'-8' tall	
Rich, well-drained soil.		4	SP	5'-10' wide	
A vigorous and upright grower with dark green leaves and arching branches. A profusion of fragrant lilac-purple blossoms in the spring. Very free-blooming.					
Syringa 'Scent and Sensibility Pink'	Lilac	Full sun	Lilac-pink	2'-3' tall	
Rich, well-drained soil.		3 to 7	SP-SU	4'-5' wide	
A sweet delight for spring gardens! Copious dark pink buds open to beautiful lilac-pink flowers, which give off a delightful fragrance in the spring. Has a compact, mounding habit that is wider than it is tall. Although 'Scent and Sensibility Pink' does not have as strong of a rebloom as the 'Bloomerang' lilacs, it will repeat flower through the summer.					
Syringa vulgaris 'Ludwig Spaeth'	French hybrid Lilac	Full sun	Purple	10'-15' tall	
Rich, well-drained soil.		4	LSP	8'-10' wide	
Fragrant single purple flowers.					
Syringa vulgaris 'Sensation'	French hybrid Lilac	Full sun	Purplish red and white	10' tall	
Rich, well-drained soil.		4	LSP	6' wide	
Large trusses of purplish red florets edged in white. Captivating fragrance. Cut flower. Attracts hummingbirds and butterflies.					
Syringa, French vulgaris 'President Lincoln'	French hybrid Lilac	Full sun	Wedgewood blue	10' tall	
Rich, well-drained soil.		4	LSP	6' wide	
Single Wedgewood blue flowers with a captivating fragrance. Open habit with rich green foliage. Attracts butterflies & hummingbirds!					
Viburnum bracteatum 'All That Glitters'	Naked Witherod	Full sun	White	4'-5' tall	
Moist, well-drained soil.		5 to 8	ESU	4'-5' wide	
Glistening bright green foliage catches the light beautifully! Beautiful white flowers appear in early summer, followed by red fruit. Much smaller than the typical native V. bracteatum, making it a nice size for the residential landscape. Plant near Viburnum 'All that Glows' for the best fruit set.					
Viburnum bracteatum 'All That Glows'	Naked Witherod	Full sun	White	4'-6' tall	
Moist, well-drained soil.		5 to 8	ESU	4'-6' wide	
Very glossy bright green, dense foliage glistens in the sunlight! Large white flowers in early summer are followed by red and purple fruit. About half the size of a typical V. bracteatum, this variety has an attractive dense habit and very glossy foliage. The fruit size and set is quite large, especially for such a small plant. Plant near Viburnum 'All That Glitters' for best production of blue fruit in late summer and fall.					
Viburnum dentatum 'Blue Muffin'	Arrowwood Viburnum	Part to full sun	White	5'-7' tall	
Moist, well-drained soil.		3	SP	5'-7' wide	
This compact beauty has loads of white spring flowers, followed by an impressive display of clusters of rich indigo-blue berries in late summer and fall. Will produce some berries if not cross pollinated with another variety of V. dentatum (such as 'Chicago Lustre'), but it will produce many more berries if planted near and pollinated by another distinct variety of V. dentatum (such as 'Chicago Lustre'). Somewhat glossy, serrated foliage is attractive all season, coloring a rich burgundy in autumn. Makes a great low hedge or foundation plant.					

Shrub				
Viburnum dentatum 'Chicago Lustre'	Arrowwood Viburnum	Part to full sun	Creamy white	10'-12' in ten years tall
Moist, well-drained soil.		5	ESP	8'-10' wide in 10 yrs
An outstanding selection with an upright-rounded habit and glossy dark green foliage. Creamy white flowers appear in early summer, followed by ornamental clusters of blue-black fruit in the fall. Extremely wet sites should be avoided. Fast growing.				
Viburnum nudum 'Brandywine'		Part to full sun	White	5'-6' tall
Moist, well-drained soil.		5	ESU	5' wide
Experience the most beautiful berry display in the plant kingdom with this exciting Viburnum! It delivers loads of breathtaking berries that transform from green to shades of vivid pink and blue. White flowers in early summer. A great companion for V. 'Winterthur' because planting two distinct clones (of the same species) in close proximity results in bumper crops of berries. Showy glossy leaves change to incredible dark maroon-red in the fall.				
Viburnum nudum 'Winterthur'	Winterthur Smooth Viburnum; Smooth Witherod Viburnum	Part to full sun	Creamy white	5'-6' tall
Moist, well-drained soil.		5 to 9	LSP-ESU	4'-6' wide
A striking, dense, and compact shrub, this improved selection has very shiny, waxy deep green foliage that turns to the most breath-taking wine-red color in autumn. Large, flat-topped clusters of tiny creamy white flowers in late spring and early summer are followed by autumn fruit clusters ranging from white to pink-red to bright blue-black- all colors are often present in the same fruiting cluster. Forms a compact, rounded shape. Perfect accent for the mixed border or background for annuals and perennials. Dislikes alkaline soils. Moderate grower to 6' to 8' tall, 5' to 6' wide.				
Viburnum opulus 'Roseum'	Eastern Snowball	Part to full sun	Pure white	8'-12' tall
Moist, well-drained soil.		3	LSP	10'-15' wide
Numerous clusters of large pure white snowball-like flowers cover this shrub in late spring. Bright green foliage with reddish overtones in the fall.				
Vitex agnus-castus 'Abbeville Blue'	Chaste Tree; Monks Pepper Tree	Full sun	Clear blue	4'-10' tall
Well-drained soil.		6	MSU-LSU	4'-6' wide
Bold 12"-18" long fragrant, clear blue flower spikes appear in mid to late summer. Cut back hard in early spring, to about 6" tall. Late to break bud in the spring.				
Vitex 'Blue Diddley'	Chaste Tree	Full sun	Lavender-blue	3'-6' tall
Well-drained soil.		5 to 9	MSU	3'-6' wide
This dwarf chaste-tree is a fun little ball with large, 10"-12" long spikes of lavender-blue fragrant flowers in mid-summer. The flowers contrast beautifully with the dark green star shaped foliage. The beautiful blooms of Blue Diddley attract butterflies, hummingbirds, and honey bees. Drought tolerant, it prefers a full sun location and its compact size fits nicely into perennial gardens and mixed borders, or is small enough for patio containers. Prune to near ground level in early spring.				
Weigela florida 'Fine Wine'	Weigela	Part to full sun	Bright pink	2' tall
Rich, moist, well-drained soil.		4	MSP-ESU	2'-3' wide
This is the next generation of 'Wine & Roses' with the same great dark burgundy foliage, but with a compact mounded habit similar to Spirea japonica. It is a refined plant with smaller leaves, abundant bright pink, 1" to 2" long trumpet-like flowers and excellent texture. A great plant for the front of the border, the perennial bed, or used as a low foundation plant. The foliage will be more purple in full sun; in less sun, the foliage will turn more green.				

Shrub

Weigela florida 'Spilled Wine'

Weigela

Part to full sun

Hot pink-magenta

2' tall

Rich, moist, well-drained soil.

4 to 8

SP-ESU

3' wide

Dark purple-red, wavy leaves, and a spreading habit. Its hot pink-magenta flowers are similar to those of 'Wine & Roses', but this is a smaller plant that is wider than it is tall. Perfect for filling in spaces in a sunny border.

Weigela florida 'Wine & Roses'

Weigela

Part to full sun

Hot rosy pink

4'-5' tall

Rich, moist, well-drained soil.

4

SP-ESU

4'-5' wide

Dark burgundy-purple foliage and intense hot rosy pink flowers make a nice combo. Darkest foliage is in full sun. Syn. 'Alexandra'.

Weigela Sonic Bloom Red'

Full sun

Lipstick red

4'-5' tall

Rich, moist, well-drained soil.

4

LSP-F

4'-5' wide

The most exciting Weigela introduction since 'Wine & Roses'! The 'Sonic Bloom' series boasts the strongest reblooming trait ever seen in Weigela! Loads of flowers in late spring are followed by waves of flowers until frost! Pruning is not needed to get rebloom! These beautiful plants extend your garden show! Remarkable lipstick red flowers!

Tree					
Acer ginnala- Multi Stem form	Amur Maple	Part to full sun		15'-20' tall	
Rich, moist, well-drained soil.		3		15' wide	
Deeply cut dark green foliage turns an extremely attractive red and orange color in the fall. Fragrant yellow blossoms in the spring. Moderate grower. Multi-stem trunk.					
Acer ginnala- Tree form	Amur Maple	Part to full sun		15'-20' tall	
Rich, moist, well-drained soil.		3		15' wide	
Deeply cut dark green foliage turns an extremely attractive red and orange color in the fall. Fragrant yellow blossoms in the spring. Moderate grower.					
Acer palmatum 'Sango-kaku'	Japanese Maple; Coral Bark	Part shade		15'-20' tall	
Rich, moist, well-drained soil.		5 to 8		15'-20' wide	
Coral Bark Maple. Beautiful deeply cut light green leaves display attractive red margins. Golden fall color. Brilliant coral bark on young branches intensifies in the winter. Plant in a protected area out of the hot summer sun and winds. Plant in filtered sun or partial shade areas. Mulch the root system heavily.					
Acer rubrum 'Red Sunset' ('Franksred')	Red Maple	Full sun		45' tall	
Rich, moist, well-drained soil.		4		35' wide	
Vigorous growing tree with a strong and symmetrical branching pattern. Very lustrous green foliage changes to brilliant shades of red and red-orange in the fall. Has an upright branching, oval shape.					
Acer rubrum 'Redpointe' ('Frank Jr.')	Red Maple	Part to full sun		45' tall	
NEW Rich, moist, well-drained soil.		5		30' wide	
Brilliant red fall color plus an upright, broadly pyramidal form make this a standout. The refined form and foliage of the best Acer rubrum cultivars combine with the faster growth rate normally found in Acer x freemanii. A straight and dominant central leader results in strong branch angles that make it easier to grow. Dark green foliage turns bright red in the fall.					
Acer truncatum x platanoides 'Crimson Sunset'		Part to full sun		35' tall	
Rich, moist, well-drained soil.		5 to 7		25' wide	
Heat tolerance is the distinguishing characteristic of this Acer truncatum hybrid. Its foliage resembles that of A. 'Crimson King', but its form is more upright and compact. Thanks to the Acer truncatum parentage, it flourishes in the summer heat where the purple leaved Acer platanoides fails to thrive. Deep purple summer foliage turns maroon to reddish bronze in the fall.					
Albizia julibrissin 'Ombrella'	Mimosa Tree	Full sun	Cherry pink	30' tall	
NEW Lean, well-drained soil.		6 to 9	SU	30' wide	
An exotic looking colorful landscape tree attractive to birds with its large, cherry-pink, powder-puff, fragrant flowers that appear profusely-even on young trees. Striking, multi-trunk tree with dark green fern-textured foliage.					
Amelanchier grandiflora 'Princess Diana' M-S	Serviceberry	Full sun	White	20' tall	
Rich, moist, well-drained, acidic soil.		3	SP	15' wide	
A gracefully spreading small tree with excellent fall color. The fall foliage of brilliant red is spectacular, coloring early and lasting late in the season. Small green spring and summer foliage. Clusters of white flowers in the spring are followed by edible 3/8" wide purplish blue fruit in early summer. The birds love the fruit!					
Cercis canadensis- multi stem	Eastern Redbud	Full sun	Rosy red	20'-30' tall	
Deep, rich, moist, well-drained soil.		4	MSP	25'-35' wide	
Rosy red flowers appear on bare branches. Showy yellow fall foliage. Rounded headed form. Attracts butterflies!					

Tree

Cercis canadensis 'Rising Sun'	Eastern Redbud	Part to full sun	Rosy orchid	8'-12' tall
NEW Deep, rich, moist, well-drained soil.		5 to 9	ESP	8' wide
The most brilliantly colored selection of the Eastern Redbud yet, this brand-new introduction offers spring foliage of deep apricot-orange, maturing to yellow and then speckled lime-green in summer, only to return to its rich golden tones for autumn. Coupled with abundant rosy-orchid blooms and vigorous yet compact growth, 'Rising Sun' is an absolute essential for the landscape. Before the tree leaves out in spring, abundant pea-like flowers of lavender-rose open all along the trunk and branches, remaining for several weeks. The foliage follows, heart-shaped and very richly colored. As the deep apricot of new growth matures through shades of orange, gold, and yellow, all colors are present at once on the tree -- a truly magnificent sight! When the hot weather of summer arrives, the foliage turns a handsome shade of lime-green. Very resistant to heat and burn, it looks good even in the dog days of August before burnishing rich golden-orange again for fall.				
Cercis canadensis- single stem	Eastern Redbud	Full sun	Rosy red	20'-30' tall
Deep, rich, moist, well-drained soil.		4	MSP	25'-35' wide
Rosy red flowers appear on bare branches. Showy yellow fall foliage. Rounded headed form. Attracts butterflies!				
Cornus 'Aurora' (C. kousa x florida 'Rutban')	Dogwood	Part to full shade	Creamy white	35' tall
Rich, moist, very well-drained soil.		5 to 6	ESP	35' wide
Good vigor plus high disease and borer resistance makes this an exceptional early flowering Dogwood tree for sheltered landscapes. Abundant, large, creamy white velvety flowers cover the entire tree in early spring followed by fiery fall foliage. 35' tall and wide.				
Cornus kousa 'Satomi'	Chinese Dogwood	Part shade	Pink	15'-20' tall
Rich, moist, very well-drained soil.		5	SP	12'-15' wide
Attractive horizontal tiers of branches help make this small deciduous tree popular. Splendid large pink bracts in spring are followed in fall by hanging red fruit. Bluish green leaves take on attractive brick red tints in the fall. Peeling gray bark adds an interesting texture! Prefers rich, moist, well-drained acidic soil, sited out of the hot summer sun & wind.				
Cornus 'Stellar Pink' (C. x 'Rutgan')	Dogwood	Part to full shade	Soft shell pink	20'-25' tall
Rich, moist, very well-drained soil.		6	ESP	20'-25' wide
In late spring, large and slightly overlapping flower bracts are tinted a delicate shade of soft pink. Clean and disease resistant green foliage turns bright orange-red in the fall.				
Ginkgo biloba 'Jade Butterfly'	Maidenhair Tree	Full sun		12-'15' tall
Rich, well-drained soil.		4 to 9		10' wide
A dwarf, vase-shaped male Ginkgo with bright green leaves and lovely gold fall color. Greenish-yellow flowers appear in mid-spring. Its slow growing, dense habit makes it a striking specimen.				
Koelreuteria paniculata	Golden Rain Tree	Full sun	Bright yellow	20'-30' tall
Well-drained soil.		5		25'-35' wide
Long panicles of fragrant bright yellow flowers are followed by attractive, papery, lantern-like pink to red blushed seed pods. Open branched habit. Blue-green leaves turn yellow in the fall. Moderate growing.				
Liriodendron tulipifera	Tulip Tree	Full sun	Greenish yellow and orange	50'+ tall
Moist, well-drained soil.		5		30'+ wide
A beautiful large tree having unique bluish green leaves which turn a spectacular yellow in the fall. Handsome tulip-shaped greenish yellow and orange flowers in late spring. Attracts butterflies and hummingbirds! Fast growing.				

Tree				
Liriodendron tulipifera 'Majestic Beauty' ('Aureo-marginatum')	Tulip Tree	Full sun	Greenish yellow and orange	40'-60' tall
Moist, well-drained soil.		5 to 9	LSP	15'-25' wide
A beautiful large garden tree which gives a spectacular show of fall color. In late spring, it displays handsome tulip-shaped greenish yellow and orange flowers. The green leaves are widely margined in bright yellow. Spectacular! Fast growing.				
Magnolia 'Ann'	Magnolia	Full sun	Deep red-purple	8'-10' tall
Rich, moist, well-drained soil.		5	ESP	10' wide
Deep red-purple 5" to 7" wide blooms appear in early spring before the foliage. Dark green leaves with hints of rusty purplish red. Open, broad-rounded shrub.				
Magnolia 'Jane'	Magnolia	Part to full sun	Reddish purple and white	10'-12' tall
Rich, moist, well-drained soil.		5	LSP	10'-12' wide
Tulip-like reddish purple flowers are white on the inside and appear in late spring, before the foliage on this deciduous Magnolia. Blooms just late enough to avoid the late season frosts, making it a reliable bloomer! Dark green, glossy foliage. Forms a broad, rounded multi-stem tree.				
Magnolia soulangiana 'Black Tulip'- tree	Saucer Magnolia	Full sun	Deep burgundy	15'-20' tall
Rich, moist, well-drained soil.		5 to 9	ESP	6'-10' wide
Large, extremely deep burgundy 6" flowers with a unique 'tulip' shape and heavy texture open in early spring before the foliage appears. Slender, upright habit makes it an excellent small specimen tree. Its 4"x6" medium green leaves make a wonderful backdrop for shrubs. Quick to bloom as a young plant. Protect from strong winds.				
Magnolia stellata 'Royal Star'- multi stem	Magnolia	Full sun	White	10'-15' tall
Rich, moist, well-drained soil.		4	MSP	10'-12' wide
In mid spring, pink flower buds open to fragrant, double white flowers, to 3" or more in diameter. The flowers appear before the foliage. Deep green foliage turns yellow to bronze in the fall. Upright, dense branching, multi-trunked large shrub or small tree. Moderate grower to 10' to 15' tall, 10' to 12' wide.				
Magnolia virginiana (Sweetbay)- multi stem	Sweetbay Magnolia	Part to full sun	White	15'-20' tall
Rich, moist, well-drained soil.		5	ESU	15'-25' wide
A small tree with a great display of white blooms for several months. The flowers are sweetly fragrant- the fragrance can be enjoyed throughout the whole yard! The fruit displays bright red seed in the fall, much to the enjoyment of birds. Lustrous dark green leaves are silvery underneath. The leaves are evergreen in Zones 8 and warmer, and are deciduous in cooler climates (they will be deciduous in the Midwest). Does well in wet or even swampy areas.				
Malus 'Royal Raindrops'	Crabapple	Full sun	Bright pinkish red	20' tall
NEW Moist, well-drained soil.		4	MSP	15' wide
Bright pinkish red flowers combine with deep purple cutleaf foliage to present a stunning Crabtree! Excellent, upright, spreading form with great branching and density. The foliage turns orange-red in the fall. The midspring flowers are followed by an abundance of 1/4" wide, persistent red fruit. Excellent resistance to Scab and Cedar-Apple Rust; good resistance to Fireblight and Mildew.				
Malus 'Royal Raindrops'	Crabapple	Full sun	Bright pinkish red	20' tall
Moist, well-drained soil.		4	MSP	15' wide
Bright pinkish red flowers combine with deep purple cutleaf foliage to present a stunning Crabtree! Excellent, upright, spreading form with great branching and density. The foliage turns orange-red in the fall. The midspring flowers are followed by an abundance of 1/4" wide, persistent red fruit. Excellent resistance to Scab and Cedar-Apple Rust; good resistance to Fireblight and Mildew.				

Tree

Malus 'Spring Snow' (fruitless normally)	Flowering Crabapple	Full sun	Pure white	20'-25' tall
Moist, well-drained soil.		4	MSP	15'-22' wide
Featuring pure white 1" to 2" flowers but no fruit, this is the crabapple to use in locations such as patios, courtyards, and over sidewalks and driveways where fruit would be objectionable. Blooms in mid spring. The bright green foliage is extremely heat tolerant. The leaves are green, yellow, and burnt red in the fall. Dense, upright, oval shape. Poor resistance to Scab. Fair resistance to Fireblight. Good resistance to Cedar-Apple Rust. Excellent resistance to Mildew.				
Morus alba 'Chaparral'	Fruitless Weeping Mulberry	Full sun		6'-8' tall
Moist, well-drained soil.		4		8'-12' wide
Small tree is robust growing and produces no fruit. Inconspicuous greenish white male flowers appear in late spring. Numerous cascading slender branches drape to the ground and are covered with deeply lobed bright green leaves. Fast growing.				
Platanus x acerifolia 'Rockford Road'	Sycamore, Planetree	Full sun		60'-75' tall
Well-drained soil.		5 to 9		60'-75' wide
Valued for its white bark all the way to the ground at maturity. A rapid growing tree that will reach 60 to 75 feet tall and wide. Large leaves and a good branching structure make this a very striking tree. The thick, stiff leaves are bright green in summer and turn a bright golden-yellow in autumn.				
Populus tremuloides 'Prairie Gold'	Quaking Aspen	Part to full sun		40' tall
Well-drained soil.		4		15' wide
Adapted to the heat, drought, and humidity of the Midwestern prairie, this Nebraska native brings lowland adaptability and disease tolerance to a high elevation favorite. The light green leaves tremble in the breeze. Golden yellow fall color. Has a narrow oval to pyramidal shape.				
Prunus subhirtella 'Weeping Extraordinaire'		Full sun	Pink	15'-20' tall
NEW Moist, very well-drained soil.		5 to 8	ESP	15'-20' wide
A vigorous weeping cherry that provides a fantastic early spring show with a profusion of large, fluffy, double pink flowers. Shiny copper-colored spring foliage turns a glossy deep green in summer, and takes on a rich burgundy tone in the fall. Wonderful as a specimen, or in pairs along paths to frame formal entry ways.				
Prunus virginiana 'Canada Red'	Chokecherry	Full sun	White	25' tall
Moist, very well-drained soil.		2	MSP-LSP	20' wide
This very cold hardy tree is valued for its foliage which changes from green in the spring to dark purple as the weather warms. The foliage then turns red to reddish purple in the fall. Small white flowers are borne in long clusters. Upright spreading, rounded habit. Attracts butterflies and hummingbirds. Cutflower.				
Pyrus calleryana 'Aristocrat'	Flowering Pear	Full sun	White	30'-35' tall
Rich, well-drained soil.		5	ESP-MSP	20'-30' wide
White flowers. Waxy green foliage. Fall color ranges from yellow to red. Pyramidal, open form. Wide branching angles make it more resistant to storm damage. Vigorous grower. Our recommendation as an improved 'Bradford' Pear.				
Pyrus calleryana 'Chanticleer' ('Glen's Form')	Flowering Pear	Full sun	White	25'-30' tall
Rich, well-drained soil.		4	ESP-MSP	15'-20' wide
A fine upright pyramidal form. Heavy flowering with white blossoms. Crisp, glossy, green foliage turns an outstanding reddish orange to plum in the fall. Small, green persistent fruit.				

Tree

Pyrus calleryana 'Jack'	Flowering Pear	Full sun	White	12'-18' tall
NEW Rich, well-drained soil.		5 to 8	ESP-MSP	8'-12' wide
Just like other Flowering Pears, just a smaller form! Dense, compact, upright, oval form with dark green foliage that turns golden yellow in the fall, sometimes with tints of red. Masses of white flowers in mid spring appear before the thick, glossy dark green foliage. Scant 1/2" yellow-green fruit. Resistant to fireblight. Moderate to fast growing.				
Quercus macrocarpa	Bur Oak; Mossy Cap Oak	Full sun		55' tall
Deep, rich, well-drained soil.		3		45' wide
This large and impressive native tree has a thick trunk and stout branches. Dark green foliage turns yellow to yellow-brown in the fall. Broadly oval, irregular, and open shape.				
Quercus muehlenbergii (Chinkapin Oak)	Chinkapin Oak; Chinquapin Oak; Yellow Chestnut Oak	Full sun	Yellowish green	30'-60' tall
NEW Deep, rich, well-drained soil.		5 to 7	MSP	45'-70' wide
A rarity among oaks- it is one of the more alkaline tolerant oaks. This handsome tree has large sharp-toothed leaves, 4" to 7" long, that are a lustrous dark green above with a white cast to the underside. The leaves turn yellow, orange, and brown in the fall. Open, rounded form. Native to the Eastern to central Midwest U.S. Easily grown in average, well-drained soils in full sun. Although it primarily grows in dry, rocky soils in the wild, it seems to prefer moist, rich loamy soils in cultivation. Relatively good drought tolerance. It may take up to 30 years for the tree its first crop of acorns. The small oval acorns, to 3/4" long, with scaly cups that extend to approximately half of the acorn length. A variety of wildlife eat the acorns. The leaves somewhat resemble the leaves of a chestnut (Castanea) whose nut is sometimes called a chinquapin, hence the common name of this oak, whose acorn is sweet and edible.				
Quercus shumardii	Shumard Oak; Shumard Red Oak	Full sun		50'-70' tall
NEW Deep, rich, well-drained soil.		5 to 8		40'-50' wide
An excellent, extremely tough, substitute for Scarlet or Pin Oak in the central US. It thrives in moist, acid bottom land soils where poor drainage creates problems for other trees. Dark green leaves turn deep crimson-red in the fall. Upright spreading, open, broadly oval shape to 50' to 70' tall, 40' to 50' wide.				
Salix alba 'Tristis' (Golden Weeping Willow)	Golden Weeping Willow	Full sun		40'-70' tall
Deep, moist soil.		3		50'-70' wide
This rapid growing tree produces a broad canopy of graceful golden branches weeping clear to the ground. One of the hardiest and most beautiful of the weeping types. Thrives in moist areas. 40' to 70' tall, 50' to 70' wide.				
Salix matsudana 'Navajo'	Globe Navajo Willow	Full sun		50' tall
Deep, moist soil.		4		50' wide
A very tough and hardy tree that will adapt to a wide range of soil conditions including very dry soil. Slender, green foliage turns yellow in the fall. Spreading shape with a round crown.				
Salix matsudana 'Scarlet Curls' ('Scarcuzam')	Corkscrew Willow	Full sun		25' tall
Deep, moist soil.		5		20' wide
A wild mix of winter colors and textures, this multi-stemmed tree features contorted growth with bright red winter twigs that become golden yellow as they gain diameter. Twisted green foliage.				
Tilia cordata 'Greenspire'	Littleleaf Linden	Part to full sun		40'-50' tall
Moist, well-drained soil.		4		30'-35' wide
The standard of comparison among the Lindens, it has a strong central leader, very uniform branch arrangement, and a symmetrical, narrowly pyramidal form. An excellent street tree. Small, leathery dark green leaves turn yellowish in the fall.				

Tree

Tilia cordata 'Greenspire'

Littleleaf Linden

Part to full sun

40'-50' tall

Moist, well-drained soil.

4

30'-35' wide

The standard of comparison among the Lindens, it has a strong central leader, very uniform branch arrangement, and a symmetrical, narrowly pyramidal form. An excellent street tree. Small, leathery dark green leaves turn yellowish in the fall.
