

Perennials Catalog 2018

Herb, Perennial

Catnip (<i>Nepeta cataria</i>)	<i>Nepeta cataria</i>	Part to full sun	Whitish lavender	2'-3' tall
Moist, well-drained soil.	3	SU	18" wide	

Toothed heart-shaped leaves are loved by cats; dry it for homemade cat toys; remedy for colds and fevers; catnip tea induces a good night's sleep; the entire plant produces a soft yellow-gold dye.

Chamomile (<i>Chamaemelum nobile</i>) Roman	<i>Chamaemelum nobile</i> syn. <i>Anthemis nobilis</i>	Part to full sun	White and yellow	6"-12" tall
Light, moist, well-drained soil.	3	SU	1' wide	

Forms a low-growing mat that makes a good ground cover; white daisy-like flowers with prominent yellow centers; the flowers and finely cut foliage have an apple-like fragrance; dried flowers are used in potpourri and tea; makes a great fragrant herb lawn that can withstand moderate foot traffic; makes a strong-flavored tea that is supposedly medicinal.

Chives (<i>Allium</i>) Onion (<i>A. schoenoprasum</i>)	<i>Allium schoenoprasum</i>	Full sun	Lavender	4"-24" tall
Well-drained soil.	3	SU	1' wide	

Green spike-like, aromatic foliage can be used fresh or dried to add onion flavor to salads, sandwiches, dressings, soups, and vinegars; lavender globe-shaped flowers have a sweet *Vidalia* onion-like flavor and can be gently pulled apart and sprinkled on soups, salads, green beans, tacos, pizza, dips, and potato dishes.

Comfrey (<i>Symphytum officinale</i>)	<i>Symphytum officinale</i>	Part to full sun	Blue or pink	2'-4' tall
Moist to wet soil.	3	SU	1'-2' wide	

A mysterious herb that reputedly assists in the healing of wounds (for external use only); indigo blue or shell pink flowers and large leaves; fresh young leaves are added to salads, made into fritters, or cooked (like spinach); dried leaves are used to make tea.

Garlic (<i>Allium</i>) Softneck 'Early Italian Purple' (<i>A. sativum</i>)	<i>Allium</i>	Full sun	Pink	1'-3' tall
Rich, well-drained soil.	3	SU	1' wide	

Allium sativum; Common Garlic; Use for sauces, meats, and cooking. The bulb is large and white-skinned with purple stripes and numerous small cloves. This vigorous plant is better adapted to summer heat than 'Italian Late', and it matures earlier.

Horseradish (<i>Armoracia rusticana</i>)	<i>Armoracia rusticana</i>	Part to full sun	White	2' tall
Rich, moist, well-drained soil.	3	ESU	18" wide	

Tall, crinkled green leaves; for the most pungent flavor, do not harvest until after the first frost; one-year old plants have the most flavor, so dig the roots up and replant them each season; plant the roots 6" deeper than they are planted in the pot.

Hyssop (<i>Hyssopus officinalis</i>)	<i>Hyssopus officinalis</i>	Full sun	Blue, pink, or white	18"-24" tall
Very well-drained to dry soil.	3	LSU	2'-3' wide	

Neat, tidy plants can be clipped into a low hedge; ornamental flower spikes in blue, pink, or white; leaves can be used to season meats, stews, and salads; hyssop tea has medicinal uses; an important pollen source for bees.

Lavandula (Lavender) 'Ellagance Purple' (<i>L. angustifolia</i> 'Ellagance Purple')	English Lavender	Full sun	Dark purple-blue	12"-15" tall
Must have very well-drained soil, especially in winter.	5 to 9	ESU-MF	1' wide	

Reliable and easy to grow, heavy-branching and free-flowering, with dark purple-blue flower spikes above the silvery foliage.

Herb, Perennial

Lavandula (Lavender) 'Grosso'	Lavender	Full sun	Dark violet	2'-3' tall
Must have very well-drained soil, especially in winter.		5	SU	18" wide

Large spikes of dark violet flowers on gray-green foliage; very fragrant; heavy flower and oil producer; disease resistant.

Lavandula (Lavender) 'Munstead' (L. angustifolia 'Munstead')	English Lavender	Full sun	Dark violet	12"-18" tall
Must have very well-drained soil, especially in winter.		4	SU	15"-18" wide

Abundant fragrant dark violet flowers; attractive gray-green foliage; great for hedges and borders; zone 4.

Lavandula (Lavender) 'Phenomenal' (L. intermedia 'Phenomenal')	Lavender	Full sun	Violet-blue	24"-32" tall
Must have very well-drained soil, especially in winter.		5	LSP-SU	24"-32" wide

One of the hardiest lavenders seen throughout the United States! 'Phenomenal' has exceptional winter survival, as it does not have the winter die back that other varieties commonly demonstrate. It has also shown tolerance to extreme heat and humidity, and is resistant to common root and foliar diseases. Beautiful silvery foliage on plants with consistent growth and a uniform mounding habit. Flowers are elegantly presented on the plants and have a strong fragrance, perfect for fresh and dried flower arrangements and oil uses. Both ornamental and edible, 'Phenomenal' is a deer-proof plant that can be enjoyed in the garden and in the home!

Lavandula (Lavender) 'Provence' (L. x intermedia)	Lavender	Full sun	Dark violet	21"-24" tall
Must have very well-drained soil, especially in winter.		5	SU	20" wide

Prairie Bloom (new add. 2013)

very green fern-lit resistant than other lavenders; long dark violet flower spikes are great fresh or dried; long blooming; very sweet fragrance; very high oil content; commercially grown in France's Provence region; Prairie Bloom Award Winner.

Lavandula (Lavender) 'Super Blue'	Lavender	Full sun	Deep blue	10"-12" tall
Must have very well-drained soil, especially in winter.		4 to 9	ESU-EF	10"-12" wide

Attracts Butterflies

Rabbit Resistant

Deer Resistant

A very colorful lavender, its short spikes packed with aromatic, deep blue florets. Remarkably hardy plants are tolerant of heat and humidity.

Lemon Balm (Melissa) officinalis	Melissa officinalis; Sweet Balm; Balm Leaf; Honey Plant; Sweet Mary	Part to full sun	White	1'-3' tall
Well-drained soil.		4	SP	18"-24" wide

Fresh green leaves burst with lemon when squeezed; tiny white flowers in the spring; a delightful, calming tea can be made from the dried leaves; fresh chopped leaves make a flavorful garnish in fruit cups, and are great in salads, soups, stews, cool drinks, and desserts; dried leaves are good for potpourri; great planted along a walkway so the plants can be brushed up against to release their wonderful aroma.

Lovage (Levisticum officinale)	Lovage	Part sun	Yellow	3'-6' tall
Rich, moist, well-drained soil.		5	ESU-MSU	1' wide

Tastes like a stronger version of celery. The seeds, roots, leaves, and young stems are used fresh or dried in soups, stews, casseroles, meat, vegetable, and tuna fish dishes. The seeds are used in cakes. Tall stems with umbels of yellow flowers. Plant in part sun to dappled shade.

Herb, Perennial

Mint (Mentha) Apple (M. suaveolens)	Mentha	Part to full sun	Pink or white	16"-36" tall
--	--------	------------------	---------------	--------------

Rich, moist soil.	5	F	18"+ wide
-------------------	---	---	-----------

Large woolly gray-green leaves have an apple-menthol fragrance; great for teas and jellies.

Mint (Mentha) Berries and Cream	Mentha	Part to full sun	Mauve	16" tall
--	--------	------------------	-------	----------

Rich, moist soil.	5 to 9	SU-F	16" wide
-------------------	--------	------	----------

Attractive rounded leaf. Semi-upright with dark green foliage. Unique flavor and aroma. Fruit and peppermint scent. Recommended for summer drinks, due to its fruity flavor. Flowers in tight clusters. Sweet and fruity like a bowl of fresh berries and cream. Leaves are tasty chopped fresh or used as a garnish.

Mint (Mentha) Candy	Mentha	Part to full sun		2' tall
----------------------------	--------	------------------	--	---------

Rich, moist soil.	5	SU	18"+ wide
-------------------	---	----	-----------

Sweetly scented leaves on reddish stems.

Mint (Mentha) Chocolate (M. piperita piperita)	Mentha	Part to full sun		3' tall
---	--------	------------------	--	---------

Rich, moist soil.	4	SU	18"+ wide
-------------------	---	----	-----------

Bronzy green leaves actually have a chocolate fragrance and taste- the flavor can be likened to that of a peppermint patty; a real hit with children; zone 4.

Mint (Mentha) Corsican (M. requienii)	Mentha	Part to full shade	Lavender	1" tall
--	--------	--------------------	----------	---------

Rich, moist soil.	6	SU	1'+ wide
-------------------	---	----	----------

Tiny oval leaves form a dense green mat; tiny lavender flowers in summer; strong creme de menthe scent- infact it is the original flavoring for the drink creme de menthe!; good for planting between stepping stones; withstands foot traffic; needs moist soil.

Mint (Mentha) Julep	Mentha	Part to full sun		1'-2' tall
----------------------------	--------	------------------	--	------------

Rich, moist soil.	5	SU	18" wide
-------------------	---	----	----------

Medium sized leaves with good spearmint flavor and aroma; great for teas and mint juleps.

Mint (Mentha) Lime (M. aquatica 'Lime')	Mentha	Part to full sun		12"-15" tall
--	--------	------------------	--	--------------

Rich, moist soil.	4	SU	18"+ wide
-------------------	---	----	-----------

Wonderful lime scent and flavor; good in summer drinks, fruit salads, and sweet bread.

Mint (Mentha) Mojito	Mentha (Mentha x Villosa)	Part to full sun	White	12"-36" tall
-----------------------------	---------------------------	------------------	-------	--------------

Rich, moist soil.	5 to 9	LSP-ESU	18" wide
-------------------	--------	---------	----------

This Cuban mint is regarded for its sweet flavor and fragrant foliage. Green foliage is vigorous and clearly different from other mints. Scent and flavor are considerably more mild and warm. A very desirable herb garden addition. Also looks great in any bed or border, or in a container. An essential ingredient of the Mojito Cocktail - a daily favorite beverage of Ernest Hemmingway. Tastes great with lime; can be used to season lamb and other meats. The leaves are bright to dark green. Leaves can be dried for future use. For best flavor, harvest the leaves in the early morning and then keep the stems in a glass of water until you are ready to use them.

Mint (Mentha) Orange (M. piperita 'Citrata')	Mentha	Part to full sun		18"-24" tall
---	--------	------------------	--	--------------

Rich, moist soil.	4	SU	18"+ wide
-------------------	---	----	-----------

Bronzy green foliage with a strong citrus mint scent; wonderful in fruit punches, sun tea, fruit salads, beef dishes, cookies, and potpourris; good flea and ant repellent.

Herb, Perennial

Mint (Mentha) Peppermint (M. x piperita piperita)

Mentha	Part to full sun	Lilac-pink	1'-3' tall
Rich, moist soil.	5	SU	Width varies

Strong mint flavor; oil flavors candy, chewing gum, sugar, and medicine; brew a cup of soothing hot tea from the fresh or dried leaves; great garnish in iced tea.

Mint (Mentha) Pineapple (M. suaveolens 'Variegata')

Mentha	Part sun	Pink or white	1'-2' tall
Rich, moist soil.	6	F	Width varies

Green and white variegated leaves have a faint fragrance of fresh pineapple; a colorful addition to sorbets, coleslaw, jello, pizza, ice tea, and tuna fish sandwiches; dried leaves are used in sachets and potpourris.

Mint (Mentha) Spearmint (M. spicata)

Mentha	Part to full sun	Lavender-pink	1'-3' tall
Rich, moist soil.	4	SU	18"+ wide

Shiny emerald green leaves have a cool mint flavor; the best cooking mint- excellent in jellies, soups, and desserts, and with carrots, peas, and potatoes.

Mint (Mentha) Strawberry (M. spp. 'Strawberry')

Mentha	Part to full sun		10"-12" tall
Rich, moist soil.	4	SU	1' wide

Green foliage smells and tastes distinctly like strawberries! Behaves a lot like Peppermint. Adds refreshing flavor to cool dishes and drinks, like yogurt, ice cream, and tea! Kids will love this one!

Oregano (Origanum vulgare) Greek (O. v. hirtum)

Origanum vulgare	Part to full sun	Pink or white	12"-18" tall
Well-drained to dry soil.	5	SU	1'-2' wide

Rabbit Resistant

Large, dark green leaves; upright growth habit; has a very bitter and spicy fragrance; great in tomato sauces, meats, and herbal vinegars; grows wild in Greece; the hardest Oregano.

Oregano (Origanum vulgare) Hot & Spicy

Origanum vulgare	Part to full sun	Pink or white	16" tall
Well-drained to dry soil.	5	SU	18" wide

Rabbit Resistant

One of the most potent cultivars of Greek Oregano; fresh or dried, it adds real zip to sauces and chili.

Oregano (Origanum vulgare) Italian

Origanum vulgare	Part to full sun	Pink or white	8"-24" tall
Well-drained to dry soil.	6	SU	1'-2' wide

Rabbit Resistant

Small light green leaves; has a sweeter flavor than other oreganos.

Pennyroyal (Mentha pulegium) 'Nana' (Dwarf)

Mentha pulegium	Part to full shade	Light lavender	1"-2" tall
Rich, moist soil.	6	SU	12"-18" wide

The strong mint flavored leaves are used in sauces, puddings, and herbal remedies. Not for use by pregnant women. Low creeping growth habit; plant between stones so that the mint scent is released when walked on. Prefers part sun, although it makes a great lawn substitute in shady areas; will take dry soil in full shade. Withstands foot traffic.

Herb, Perennial

Rosemary (Rosmarinus officinalis) 'Arp'	Rosmarinus	Full sun	Blue	3"-6" tall
Well-drained soil.		6	SP	15'-24' wide

Fragrant dark green leaves; pale blue flowers; upright habit; winter hardy through zone 6 with protection.

Rosemary (Rosmarinus officinalis) 'Hill Hardy'	Rosmarinus	Full sun	Light blue	5' tall
Well-drained soil.		6	SP	12"-15" wide

Upright habit; a great addition to lamb and pork dishes, jellies, honey, roasted potatoes; sauces, and soups; when baking a turkey, tuck a few sprigs under the skin for added flavor; outstanding cultivar recognized for its improved hardiness.

Rue (Ruta graveolens)	Rue	Full sun	Bright yellow	3' tall
Well-drained soil.		4 to 10	ESU-LSU	12"-18" wide

Shrubby evergreen with blue-green, fern-like foliage. Yellow flowers bloom all summer long. The bitter leaves are used to make antiseptics and disinfectants. Don't plant near other vegetables as it makes the soil bitter. Most cats dislike the smell of it, and therefore it can be used as a deterrent to them.

Sage (Salvia officinalis) 'Berggarten'	Salvia officinalis	Full sun	Blue-purple	1'-2' tall
Well-drained to dry soil.		4	SU	2' wide

Large, oval gray-green leaves have a spicy scent that gourmets love; its dense, compact habit makes it a good landscape plant also.

Sage (Salvia officinalis) Garden Sage	Salvia officinalis	Full sun	Blue-purple	2' tall
Well-drained to dry soil.		4	SU	18"-24" wide

Strongly aromatic gray-green foliage; spikes of small blue-purple flowers; wonderful in pork, duck, sausage, omelettes, stuffing, apple jelly, and cheese and bean dishes.

Sage (Salvia officinalis) 'Golden' (syn. 'Aurea', 'Icterina')	Salvia officinalis	Full sun	Blue-purple	18" tall
Well-drained to dry soil.		5	SU	18"-24" wide

Green leaves are broadly margined in bright gold; ornamental and culinary.

Sage (Salvia officinalis) Purple ('Purpurea')	Salvia officinalis	Full sun	Blue-purple	18" tall
Well-drained to dry soil.		5	SU	18"-24" wide

Purple-red leaves turn green as they mature, giving the plant a bicolored look; ornamental and culinary.

Sage (Salvia officinalis) 'Tricolor'	Salvia officinalis	Full sun	Blue-purple	18" tall
Well-drained to dry soil.		5	SU	18"-24" wide

Showy purple, green, and cream foliage; less vigorous than other varieties; ornamental and culinary.

Herb, Perennial

Savory, Winter (*Satureja montana*) Winter Savory, White Tyme, Full sun White or lavender 12"-18" tall

Well-drained soil, especially in winter. 5 to 11 SU 12"-18" wide

Lush, flavorful, rapidly growing stems with shiny, dark green leaves. The longer the stems grow, the woodier they get. If left on the plant, the mature stems will produce clouds of small white or lavender flowers. While attractive to the eye, this elongated flower branch is not very tasty. The supple sprigs that push up from the ground and the new side shoots off the older woody stems are perfect for fresh or dried use. Lit its better known cousin, Summer Savory, Winter Savory is most often used as a culinary herb, imparting a spicy, peppery flavor to dishes. Winter Savory has a stronger, sharper flavor than its cousin (due to having a higher proportion of Thymol in its foliage), but it still blends well with different oreganoes, thymes, mints, rosemaries, and basils, and can be added to meat, poultry, or fish. Even though it has a strong flavor when fresh, it does not hold up well to prolonged stewing. Easy to grow, its aromatic scent repels harmful insects and pests, while attracting bees and other pollinators to your garden.

Tarragon, French (*Artemisia*) *Artemisia dracunculus satvia* Full sun Green to 3' tall

Poor, dry soil. 4 SU 1'-2' wide

Fine-textured dark blue-green foliage has a wonderful licorice or anise flavor; small green flowers in open clusters are usually removed as buds to encourage abundant leaves for harvest; the leaves flavor steaks, seafood, chicken, fish, omelettes, and stuffing; makes flavorful herbal vinegar, tarragon butter, and marinades for red meat; essential in famous sauces such as bearnaise, hollandaise, and mousseline.

Thyme (Thymus) 'Doone Valley' (T. pulegioides 'Doone Valley') Thymus Full sun Pale purple 4" tall

Loose, well-drained soil. 5 SU 1' wide

Lemon Variegated Thyme; Strong lemon-scented foliage is a variegated mixture of green, white, and yellow; the foliage takes on red tints in the winter; use in herb gardens, in the front entryway, or around patios where the lemon scent can be enjoyed; creeping habit; withstands foot traffic.

Thyme (Thymus) 'Elfin' Thymus Full sun Light lavender-pink 1"-3" tall

Loose, well-drained soil. 5 SU 4"-10" wide

Miniature gray-green leaves form a tight solid mat; great for covering dry slopes, planted in between stepping stones, or creeping over rocks; withstands foot traffic.

Thyme (Thymus) 'Foxley' (T. pulegioides 'Foxley') Thymus Full sun Dark pink 8" tall

Loose, well-drained soil. 5 SU 1' wide

A variegated version of the green broad leaf thyme. Mounds of glossy dark green leaves are irregularly splashed with cream. Dark pink flowers in the summer. Excellent for cooking as well as ornamental planting. The leaves are softer than common thyme and are easier to chop.

Thyme (Thymus) French Cooking (T. vulgaris) Thymus Full sun Pale purple 10"-12" tall

Loose, well-drained soil. 5 SU 1' wide

Garden Thyme; Widely used seasoning and attractive border plant; the best flavored thyme to use in meats and vegetables; chopped leaves are good in vinegar, herb butters, soup stocks, marinades, and sauces; narrow gray-green leaves.

Thyme (Thymus) 'Highland Cream' (syn. 'Hartington Silver') Thymus Full sun Pink to white 1"-3" tall

Loose, well-drained soil. 5 LSP 1' wide

Bright cream and green-gold, lemon scented leaves; soft pink to white flowers in late spring; creeping, mat forming habit and unique color make it great for entryways and patios, or draping over a retaining wall; withstands foot traffic; syn. 'Hartington Silver'.

Thyme (Thymus) Lemon (T. citriodorus) Thymus Full sun Pale lilac 9"-10" tall

Loose, well-drained soil. 5 SU 12"-16" wide

Glossy dark green leaves have an incredible lemon fragrance; use in tea, chicken, fish, and dressings for the lemon flavor; withstands foot traffic.

Herb, Perennial

Thyme (Thymus) 'Lime' (T. citriodorus 'Lime')	Thymus	Full sun	Pink	6"-12" tall
Loose, well-drained soil.		5	SU	10"-12" wide

A rapid spreading ground cover; small yellowish green leaves have a lime scent; withstands foot traffic.

Thyme (Thymus) Mother of Thyme (T. serpyllum)	Thymus	Full sun	Pinkish purple	2" tall
Loose, well-drained soil.		5	SU	6"-12" wide

Dark green aromatic leaves can take light foot traffic; ground cover habit makes it great for planting between stepping stones or in rock gardens.

Thyme (Thymus) Red Creeping (T. serpyllum 'Coccineum')	Thymus	Full sun	Bright rosy red	2"-4" tall
Loose, well-drained soil.		5	SU	6"-12" wide

Deep shiny green foliage turns bronze in the fall; great for covering dry slopes, planted under roses, or as a lawn substitute; favored by bees; withstands foot traffic.

Thyme (Thymus) 'Spicy Orange'	Thymus	Full sun	Soft pink	3"-4" tall
Loose, well-drained soil.		5	SP	6"-12" wide

A prostrate needle-leaved thyme that makes an excellent ground cover; great for walkways, curbs, or around the patio; the foliage has a refreshing scent of oranges when walked upon; withstands foot traffic.

Thyme (Thymus) Woolly (T. pseudolanuginosus)	Thymus	Full sun	Soft pink	3"-4" tall
Loose, well-drained soil.		5	SP	6"-12" wide

A prostrate needle-leaved thyme that makes an excellent ground cover; great for walkways, curbs, or around the patio; the foliage has a refreshing scent of oranges when walked upon; withstands foot traffic.

Aster laevis	Smooth Aster	Full sun	Bright sky blue	3'-4' tall
Well-drained soil.		4	LSU-MF	12"-18" wide

Attracts Butterflies

Rabbit Resistant

Deer Resistant

Large, pyramidal heads of bright sky blue flower clusters are held on strong stems in late summer to early fall. Basal clumps of very attractive, deep blue-green foliage. A long-lived aster. Very adaptable to soil type and moisture levels- grows well in dry to damp soils! US Native.

Coreopsis palmata	Prairie Coreopsis	Part to full sun	Soft yellow	18"-30" tall
Well-drained soil.		3 to 8	LSP-MSU	12"-18" wide

Attracts Butterflies

Rabbit Resistant

Deer Resistant

Soft yellow, daisy-like flowers with flat yellow centers on top of stiffly upright stems. Spreads by rhizomes and self-seeding. Grows easily in poor, dry soil. Needs well-drained soil. Tolerates heat, humidity, and drought. US Native.

Helianthus occidentalis	Western Sunflower	Full sun	Bright, deep yellow	30"-40" tall
Well-drained soil.		4 to 9	LSU-MF	12"-16" wide

This colony forming plant provides an excellent ground cover and is very effective for erosion control. Bright, deep yellow sunflowers on leafless stems. Finches love the seed in the winter! Use in native gardens, naturalized areas, prairies, and meadows. Grow in average to dry soil. Spreads slowly by rhizomes.

Native Flower

Monarda fistulosa

Wild Bergamot

Full sun

Lavender

2'-4' tall

Dry to medium-wet, well-drained soil.

3 to 7

MSU-EF

18"-24" wide

Attracts Butterflies

Attracts Hummingbirds

Rabbit Resistant

Deer Resistant

Whorls of lavender flowers are excellent nectar sources for hummingbirds and butterflies. The gray-green foliage is aromatic. Grow in dry to medium-wet, well-drained soil. Plants need good air circulation. Deadhead flowers to prolong summer bloom.

Rudbeckia hirta

Black Eyed Susan; Gloriosa Daisy

Full sun

Yellow and mahogany shades

2'-3' tall

Any soil; drought tolerant.

3 to 8

ESU-MF

12"-15" wide

Attracts Butterflies

Rabbit Resistant

Deer Resistant

The six inch wide blossoms have brown centers surrounded by petals in shades of yellow, gold and mahogany. Thick stemmed, upright plants. Generally short-lived, but they reseed readily.

Solidago rigida

Stiff Goldenrod

Part to full sun

True yellow

30"-48" tall

Well-drained soil.

3 to 7

LSU-EF

12"-16" wide

A clump-forming goldenrod with true yellow, flat-topped flowers that provide nectar for butterflies. Birds love the seed of Stiff Goldenrod. A good cut and dried flower. A great drought tolerant plant that is native to the US.

Andropogon gerardii var. Kaw

Big Bluestem

Full sun

Purplish

4'-8' tall

Many soil types.

4 to 8

LSU

2'-3' wide

The king of North American native grasses, it can be found in moist meadows and alongside roads and rivers from the Rockies to the east coast. Very tolerant of diverse conditions in full sun, including dry and sandy soil to clay soil. The brilliant blue-green foliage stands upright. Late summer brings on copper and maroon accents that last throughout winter. Purplish flower spikes in late summer transform to distinctive three-fingered seedheads in the fall. Its large size makes this grass a great selection for naturalizing, meadow plantings, and screening.

Bouteloua curtipendula

Sideoats Grama

Full sun

Reddish orange

2'-3' tall

Well-drained to dry soil.

4 to 7

ESU-LSU

1' wide

Small reddish orange flowers dangle along one side of the slender stems. Narrow green leaves form small clumps and turn gold in the fall. Grow in well-drained soil. The fibrous roots are well adapted to dry soil conditions. Commonly found in tall and mixed grass prairies. Many types of birds eat the seeds and small mammals feed on the seedheads and foliage. Plant enmasse in meadows, prairies, slopes, native plant gardens, or naturalized areas.

Panicum virgatum var. Blackwell

Switch Grass

Full sun

Pink

3'-6' tall

Moist, well-drained soil; drought tolerant.

5 to 9

MSU

2'-5' wide

Rabbit Resistant

Deer Resistant

A clump-forming, columnar, warm season grass that grows to 3' tall with flowerheads rising 3' above the foliage. Medium green leaves turn yellow, sometimes with orange tints, in autumn, fading to tan in winter. The foliage is topped in mid summer by finely-textured, pink-tinged, branched flowerheads. The flowerheads turn beige in fall with the seed plumes persisting well into winter. Birds feed on the seed and the plants provide cover for wildlife. Sometimes spreads by rhizomes and seed. Grow in dry or moist soil.

Schizachyrium scoparium

Little Bluestem, Bunchgrass

Full sun

Mahogany red

2'-3' tall

Well-drained to dry soil.

5 to 9

MSU-EF

12"-15" wide

A small, clump-forming native grass with blue-green leaves that turn reddish orange in the fall. Fluffy silver seedheads are ornamental through the winter. Food and cover for wildlife. Grow in dry to average soil. Tolerates heat and humidity easily. An excellent short grass for the garden or landscape. Use in sunny borders, native plant gardens, naturalized areas, prairies, and meadows. There is an apparent correlation between the intensity of the foliage's blue-green summer color and its fall red-orange color.

Native Grass

Sorghastrum nutans	Indian Grass; Yellow Indian Grass; Wood Grass	Full sun	Gold and purple	4'-6' tall
Moist, well-drained soil; drought tolerant.		3	LSU	2'-3' wide
Rabbit Resistant Deer Resistant				
A tall, bunching grass with slender metallic blue-green blades. Stiff, vertical flowering stems, topped with 1' long, narrow plume-like, soft, coppery yellow panicles rise well above the foliage in late summer and last through fall. Yellow, deep orange, or purple fall color! A beautiful grass with a somewhat metallic golden sheen to its flowering parts. An important part of tall grass prairies and is relished by livestock. Numerous songbirds and small mammals eat the seeds and plants provide excellent nesting and security cover. It appears to be favored by occasional flooding and repeated burning and sometimes forms nearly pure stands in the lowlands. Easily grown in average, dry to medium-wet, well-drained soil. Tolerates a wide range of soils, including heavy clay. Tends to open up and flop in moist, rich soils. May naturalize by self-seeding. A warm-season grass with rich gold and purple sprays of flowers and seeds in the fall.				

Acanthus spinosus	Spiny Bear's Breeches	Part to full sun	Mauve	3'-4' tall
Well-drained soil.		8 to 10	LSP-ESU	3' wide
Very handsome dark green deeply divided leaves with spiny points; hardier than A. mollis.				

Achillea 'Little Moonshine'	Yarrow	Full sun	Bright gold	9"-12" tall
Well-drained soil		4 to 8	LSP-EF	10"-12" wide
Attracts Butterflies Rabbit Resistant Deer Resistant				
The same bright gold flowers as A. 'Moonshine', a long-time favorite; but with a compact habit that's ideal for containers and smaller garden spaces. This petite beauty comes into flower early and blooms for a long time. Finely cut gray-green foliage. Plants will rebloom best if cut back after the initial flush of flowers.				

Achillea millefolium 'Pomegranate'	Yarrow	Full sun	Velvety red	22"-24" tall
Well-drained soil.		4 to 8	ESU-LSU	28" wide
Ground cover Attracts Butterflies Attracts Hummingbirds				
Rich velvety red flowers atop compact plants. Selected for its sturdy growth habit, long bloom period, and interesting flowers.				

Achillea millefolium 'Strawberry Seduction'	Yarrow	Full sun	Velvety red and gold	18"-20" tall
Well-drained soil.		4 to 8	MSU-LSU	32" wide
Ground cover Attracts Butterflies Attracts Hummingbirds				
Large corymbs of tiny, velvety red florets with bright gold centers are borne on strong, sturdy stems. Reblooms nicely if deadheaded. Deep green foliage is wonderfully vigorous. Resistant to powdery mildew.				

Aegopodium 'Variegatum'	Snow-on-the-Mountain; Bishops Weed; Ground Ash; Ashweed; Ground Elder; Herb Gerard	Full sun to Full shade	White	6" tall
Any soil.		3 to 8	LSP-ESU	1' wide
An excellent rapid spreading green and white variegated ground cover; adaptable; unkept foliage can be mowed close to the ground and will quickly grow back.				

Agapanthus 'Blue Yonder'	Lily of the Nile	Part to full sun	Cobalt	3' tall
Moist, well-drained soil.		10-May	MESU-EF	2' wide
Dense, showy clusters of intense cobalt blue star-like flowers sit on long, sturdy stems atop narrow green strap leaves. Blooms are self-cleaning, starting after the last spring frost.				

Perennial Flower/Foliage

Agastache 'Apricot Sunrise'

Giant Hyssop

Full sun

Orange-apricot

18"-24" tall

Must have very well-drained soil, especially in the winter.

Everything about this plant is an improvement! The flowers are larger than all others and last longer, too! Blooms are held in giant inflorescences on tall, extra-strong spikes. Even the buds are amazing- dark, dusky purple-6" long and a bit over 1" in diameter, bursting open to reveal flower clusters 6 1/2" across! The flowers arise above bright green foliage on plants that clump at the base, then send up tall, thick spikes. Tolerant of heat and humidity. So easy and irresistibly beautiful! Outperforms all of its cousins. Beautiful addition to a sunny border, meadow, driveway planting or street island. Also makes an excellent container plant. Does well with drought.

Amazingly free flowering and easy to grow. Has impeccable habit and long lasting, glowing color. Warm coral-colored plumes are dense and have a sweet honey-mint scent. A real standout in mixed containers, or as a border plant.

Perennial Flower/Foliage

Agastache 'Kudos Mandarin'	Hummingbird Mint, Anise Hyssop	Part to full sun	Tangerine orange	1' to 2' tall
Must have very well-drained soil, especially in the winter.		5 to 10	ESU to LF	1' to 2' wide

Increased hardiness, compact habit, and increased disease resistance are just a few of the great attributes in the new Kudos series of Agastache. This one has beautiful tangerine orange spikes of flowers that set just atop the dark green foliage. Agastache are one of the longest blooming perennials blooming from early summer through late fall. The stunning blooms have a sweet honey-mint scent and attract a plethora of butterflies and hummingbirds. It is drought tolerant once established but will also tolerate areas that may stay a bit moist. It is equally nice for garden design and combination containers design, as long bloom time is amazing!

Agastache 'Kudos Yellow'	Hyssop	Full sun	Bright yellow	24"-26" tall
Very well-drained soil.		5 to 10	LSP-F	2' wide

Bright yellow flower spikes from late spring to fall, atop compact, well-branched plants that are drought tolerant and mildew-resistant. A great color spot for summer gardens, and it is adored by butterflies and hummingbirds!

Agastache 'Morello'	Hummingbird Mint, Anise Hyssop	Part to full sun	Burgundy Rose	27" tall, with flower 33" tall
NEW Must have very well-drained soil, especially in the winter.		5 to 10	SP to F	22" wide

Attracts Hummingbirds

Amazingly huge, dense inflorescences of deep burgundy rose that bloom from spring to fall. Showy, dark foliage in cool temperatures extend the beauty. 'Morello' has a strongly upright habit that forms multiple crowns quickly. Best in well drained, fertile soil. Needs excellent drainage to over winter. Good mildew tolerance. Loved by bees and hummingbirds.

Agastache rupestris 'Joyful'	Hummingbird Mint, Anise Hyssop	Part to full sun	Deep hot pink	3'-4' tall

Perennial Flower/Foliage

Alchemilla mollis 'Auslese'	Lady's Mantle	Part to full shade	Yellowish green	10"-18" tall
Rich, moist soil.		3 to 7	MSP-ESU	2' wide
		Attracts Butterflies		Rabbit Resistant Deer Resistant
Grown primarily for its striking chartreuse foliage; offers contrasting star-shaped flowers; syn. <i>A. vulgaris</i> .				
Allium 'Millenium'		Full sun	Rose Purple	15" to 20" tall
NEW Rich, sandy to gritty, dry to medium moisture, well-drained loams.		5 to 8	LSU	10" to 15" wide
		Attracts Butterflies		Rabbit Resistant Deer Resistant
Ornamental Onion. Perennial Plant of the Year 2018! It forms a compact, upright clump glossy green, thick and strappy leaves which emit a slight smell of onion when crushed. In late July and August, a profusion of large 2", bright rosy purple, tightly rounded clusters of flowers appear on strong stems just above the attractive foliage. Butterflies and honeybees adore the flowers' sweet nectar but deer and rabbits steer clear of this perennial beauty. This hybrid from Allium guru Mark McDonough was picture perfect in the trails at Walters Gardens in Michigan.				
Allium schubertii	Tumbleweed Allium	Full sun	Rose-purple	1'-2' tall
Rich, sandy to gritty, dry to medium moisture, well-drained loams.		5 to 8	LSP-ESU	18"-24" wide
Tumbleweed onion is a bulbous perennial that is ornamentally grown for its impressive display of rose-purple flowers that bloom in giant, spherical umbels, each 9" to 12" in diameter in late spring. Strap-shaped, blue-green, basal leaves (to 12"-16" long) form a clump of foliage in spring, surrounding a stout scape rising to 1' tall. The leaves begin to wither as the flowers begin to bloom. The flowerheads are unique and attractive, but difficult to describe, often compared to exploding fireworks. Each flowerhead contains as many as 50 small, rose-purple, star-like flowers which bloom at the ends of pedicels of varying lengths. The seedheads dry after bloom, and can be left on the plant for ornamental reasons, or picked for flower arrangements. Dried seedheads can be spraypainted in the garden, adding unique color and texture to the summer garden! Dried seedheads that fall off the plant will tumble along the ground with the wind, spreading seed as they go, hence the common name tumbleweed onion.				
Allium senescens 'Pink Planet'	Aging Chives, German Garlic, Broadleaf Chives	Full sun	Rose-pink	18" to 24" tall
Rich, sandy to gritty, dry to medium moisture, well-drained loams.		4 to 9	ESU to LSU	15" to 18" wide
Graceful 2 to 3 inches globe-shaped, bright rose-pink flowers stand tall above wide, twisting blades of gray-green foliage. Blooms from June into early August and maintains interest even after color fades. A tough, hardy plant with excellent drought resistance that attracts bees and butterflies.				
Alyssum 'Golden Spring'	Madwort	Full sun	Bright yellow	4"-6" tall
Well-drained to dry soil.		4 to 9	LSP-ESU	12"-18" wide
A big-bloomed "WOW" variety! An excellent groundcover with gray-green foliage and bright yellow flowers. Trim spent blooms after blooming is completed. Perfect along a rock wall or border. Needs well-drained soil and doesn't like to be over-watered; in fact, it prefers dry soil and full sun.				
Amsonia hubertii	Blue Milkweed; Blue Star	Part to full sun	Sky blue	3'-4' tall
Moderately rich soil.		4 to 9	LSP	2'-3' wide
				Rabbit Resistant Deer Resistant
Arkansas Amsonia, Narrow Leaf Blue Star; Star-shaped flowers are borne in clusters; finely divided foliage turns a stunning gold in the fall; prefers light shade.				

Perennial Flower/Foliage

Anemone, Japanese 'Honorine Jobert'	Japanese Windflower	Part to full sun	White	3'-4' tall
Consistently moist, well-drained soil.		4 to 8	LSU-F	12"-18" wide
		Attracts Butterflies		Rabbit Resistant Deer Resistant
This beloved fall blooming perennial lights up the partly shaded garden with clean white blooms sporting buttery yellow centers. Bobbing atop long, slender stems held well above the neat 12" tall mound of foliage, this superb cutflower is also a garden standout, adding a lightness and cotton ball softness to the perennial border, just when the garden needs color most desperately! The semi-double flowers are 2" to 3" wide, with a yellow center capped by a celery green eye. The petal tips are slightly ruffled, giving the impression of even more color. Performs best in rich, well-drained organic soil kept consistently moist. A bit late to emerge in the spring, making them an ideal cover for the dying foliage of spring bulbs. Perennial Plant Association's Perennial of the Year for 2016!				
Anemone, Spring Beauty <i>sylvestris</i>	Windflower	Part to full sun	White shades	12"-15" tall
Consistently moist, well-drained soil.		3 to 8	LSP-ESU & MF	12"-18" wide
				Rabbit Resistant Deer Resistant
A delightful late spring bloomer with delicate charm and an iron constitution. Pure white flowers, measuring nearly 2" across, are borne singly on bare stems above the attractive dark green, divided foliage. For added ornamental value, the lovely blossoms leave behind interesting white, wooly seed heads as they fade. This species of anemone spreads by running rhizomes, making it a choice groundcover for partially shaded areas.

Rabbit Resistant Deer Resistant

Prairie Bloom

Striking white-leaved contrast plant; superb cut or dried; vigorous spreader; Prairie Bloom Award Winner.

Artemisia schmidtiana Wormwood Part to full sun Yellow 8"-10" tall

Very well-drained, infertile soil. 3 ESU-MSU 1'-2' wide

Rabbit Resistant Deer Resistant

Prairie Bloom Ground cover

Compact, mounding silky silver-gray fern-like foliage; excellent as a rock garden or edging plant; insignificant flowers; if grown in rich, moist soils, the plant height is more than 1' and the clump opens in the middle; the open center can be delayed by trimming the clumps back before they flower; in hot, humid climates, the silver, pubescent foliage may rot; Prairie Bloom.

Artemisia stellariana 'Silver Brocade' Wormwood Part to full sun 6" to 8" tall

Very well-drained, infertile soil. 3 to 7 12" to 24" wide

Rabbit Resistant Deer Resistant

Prairie Bloom Ground cover

The small bright silvery-white duck foot-looking foliage adorns this non-weedy. The stems lay flat, resembles a small prostates dusty miller. Easy- care plant stylishly accents other bright colors. Wonderfully textured leaves look great all season long. One of the perennials for long-lasting interests. It makes a great addition to the rock garden, especially where highlighting nearby plants is desired. in our climate, expect a 2' wide clump in three years. As with most artemisias, good summer drainage is important to success. Excellent for use in difficult spots where nothing else can survive. Combines beautifully with small ornamental grasses.

Perennial Flower/Foliage

Arum italicum	Italian Arum	Part to full shade	White	8"-18" tall
Humus enriched soil.		6 to 10	SP	8"-10" wide
Shiny, deep green spear-shaped leaves with white veins appear in the fall and last til late spring. Small Jack-in-the-Pulpit flowers in the spring give way to orange-red fruit clusters in summer through fall. The evergreen foliage provides great winter interest!				

Aruncus 'Misty Lace'	Goat's Beard	Full sun to Full shade	Creamy white	18"-24" tall
Well-drained soil.		3 to 7	ESU-MSU	18"-24" wide
Large, creamy white, feathery plumes on dark red stems. Selected for its heat and humidity tolerance, making it perfect for Midwest gardens! Its very nice, compact growing habit makes this variety perfect for smaller gardens. Believed to be a cross between A. dioicus x A. aesthusifolius.				

Asclepias incarnata 'Cinderella'	Butterfly Flower	Full sun	Rose-purple	3'-4' tall
Moist soil.		3 to 9	LSP-MSU	18"-24" wide
		Attracts Butterflies	Attracts Hummingbirds	Deer Resistant
Clusters of rose-purple, sweetly scented, long-lasting blooms.				

Asclepias sullivantii	Butterfly Weed; Butterfly Flower	Full sun	Pink	2' to 3' tall
Lean, well-drained soil; drought tolerant		3 to 7	ESU to MSU	12" to 18" wide
		Attracts Butterflies	Attracts Hummingbirds	
a long-lived perennial and a well-behaved relative of the Common Milkweed. very similar in looks, several features distinguish them: Sullivant's Milkweed is less aggressive, and creeps slowly from deep rhizomes; and Sullivant's is completely smooth with leaves that are more succulent like, (Common Milkweed and other have fuzzy leaves stems or pods.) This gorgeous prairie plant blooms from June to July, and is one of the very best for attracting butterflies, especially Monarchs. Its leaves are a food source for monarch butterfly caterpillars. Seed pods are valued in dried flower arrangements.				

Asclepias syriaca	Butterfly Flower	Full sun	Deep pink	2'-4' tall
NEW Well-drained soil.		4 to 9	ESU-MSU	1' wide
		Attracts Butterflies		

This native classic is best known as a food for larval Monarch butterflies, along with other Asclepias species. Robust, yet beautiful with deep pink clusters of fragrant flowers in early and mid summer, followed by lovely pods of silky seeds in mid fall. The sweet-scented flowers attract and benefit a plethora of pollinators. Monarch butterflies lay their eggs on all plants in the Asclepias genus and their caterpillars feast on the leaves, stocking up for they day when they will become butterflies.

Asclepias tuberosa	Butterfly Weed; Butterfly Flower	Full sun	Bright orange	2' tall
Lean, well-drained soil; drought tolerant		3 to 9	ESU-LSU	2' wide
		Attracts Butterflies	Attracts Hummingbirds	Deer Resistant
Pleurisy Root; Fragrant bright orange flowers. Milkweed-type follicles are used in dried arrangements. Native to the US. Because it breaks dormancy late, plants may be small in the spring.				

Asclepias tuberosa 'Gay Butterflies'	Butterfly Weed; Butterfly Flower	Full sun	Mix	2' tall
Lean, well-drained soil; drought tolerant		3 to 9	MSU-LSU	2' wide
		Attracts Butterflies	Attracts Hummingbirds	Deer Resistant
Brilliant red, orange, and yellow fragrant flowers; because it breaks dormancy late, plants may be small in the spring.				

Asclepias tuberosa 'Hello Yellow'	Butterfly Weed; Butterfly Flower	Full sun	Bright yellow	2'-3' tall
Lean, well-drained soil; drought tolerant		3 to 9	MSU-LSU	2' wide
		Attracts Butterflies	Attracts Hummingbirds	Deer Resistant
Brilliant bright yellow fragrant flowers atop deep green foliage; because it breaks dormancy late, plants may be small in the spring.

Deer Resistant

This small milkweed blooms later in the year than most milkweeds and often into September. Its small umbels of white (sometimes greenish-white) flowers attract many pollinators, including Monarch butterflies. It likes dry sandy, clayey or rocky soil in sun or part shade. It can be found growing in a variety of environments from hill prairies to woodland openings. It is listed as rare or threatened in some its northeastern range. Clone forming, it forms attractive drifts. The thin "whorled" leaves grant a delicate texture which combines well with other plants of lower stature, making it a perfect addition to a low-growing interplanted design to a rock garden. Narrow three to four inch pods form late summer as the leaves turn to yellow and orange providing interest well into autumn. Poisonous to livestock.

A short, bushy selection with finely textured, mint-scented foliage. Daisy-like sky blue flowers with yellow centers. An excellent ground cover when planted en masse. It takes pruning well, making it good for a perennial hedge. Drought tolerant.

Perennial Flower/Foliage

Astilbe, Pink/Purple 'Amber Moon'	False Spirea	Full shade	Rose-pink	34"-38" tall
Rich, moist, well-drained soil.		4 to 9	MSU	22"-28" wide
		Attracts Butterflies		Rabbit Resistant Deer Resistant
Useful for brightening up the shade garden and for providing beautiful long-stemmed flowers for fresh or dried arrangements. Foliage emerges bright chartreuse yellow in spring with a tinge of red in the newest leaves- then greens up a bit in the late summer. Very tall, bluish-red stems carry rose pink flower panicles in midsummer. Displays good heat tolerance and robust habit.				

Astilbe, Pink/Purple 'Chocolate Shogun'	False spirea	Part to full shade	Pale pink to white	18"-24" tall
Rich, moist, well-drained soil.		4 to 8	MSU-LSU	18" wide
		Attracts Butterflies		Rabbit Resistant Deer Resistant
Dark chocolate-purple leaves highlight the rather small pale pink to white flower spikes, which appear in mid to late summer. The dark foliage does not fade or tinge green, keeping its chocolately complexion all season long! Striking in the border, especially when planted en masse or with contrasting foliage.				

Astilbe, Pink/Purple 'Delft Lace'	False spirea	Part to full shade	Soft apricot-pink	12"-15" tall
Rich, moist, well-drained soil.		5 to 9	ESU-MSU	2'-3' wide
		Attracts Butterflies		Rabbit Resistant Deer Resistant
Red stems carry panicles of deep salmon-pink buds which open to soft apricot-pink flowers. Forms a robust clump of lacy, deep blue-green, waxy foliage which is covered with a light silver lacy overlay. An improvement over A. 'Peach Blossom'.				

Astilbe, Pink/Purple 'Fireberry'	False spirea	Part to full shade	Raspberry pink	16" tall
Rich, moist, well-drained soil.		4 to 9	ESU-MSU	16" wide
		Attracts Butterflies		Rabbit Resistant Deer Resistant
This dwarf variety has vibrant raspberry pink, diamond-shaped plumes. Mid-green, petite foliage forms a relatively short, finely textured clump. Makes a fine addition to combination containers.				

Astilbe, Pink/Purple 'Purple Rain'	False spirea	Part to full shade	Lavender to magenta	18"-21" tall
Rich, moist, well-drained soil.		3 to 8	MSU	18"-23" wide
		Attracts Butterflies		Rabbit Resistant Deer Resistant
Fluffy plumes in shades of lavender to magenta, over a mound of elegant, lacy green leaves. A healthy, vigorous performer.				

Astilbe, Red 'Radius'	False spirea	Part to full shade	Bright red	20"-26" tall
Rich, moist, well-drained soil.		4 to 9	ESU-MSU	24" wide
		Attracts Butterflies		Rabbit Resistant Deer Resistant
This impressive selection forms a large, robust clump similar to A. chinensis types, but with more refined, green foliage that has a reddish copper cast in spring. Burgundy buds open to bright red, triangular flower plumes on burgundy scapes.				

Astilbe, White 'Younique White'	False spirea	Part to full shade	White	16" to 20" tall
Rich, moist, well-drained soil.		4 to 8	ESP to MSU	18" wide
		Attracts Butterflies		Rabbit Resistant Deer Resistant
Clean white triangular plumes consume the lacy red stemmed foliage. Each fluffy bloom is made up of hundreds of tiny flowers opening from bottom to top from bright green pearl-shaped buds. A refreshing glow to any partial shady spot. From the Younique Series of Astilbe, developed by Dutch hybridizer, Jan Verschoor, this series of often produces double the number of flowers of older selections.

Rabbit Resistant

Deer Resistant

A dependable low-maintenance plant. Gray-green stems and blue-green leaves. Sweet pea-like flowers on long terminal racemes are followed by black seed pods. When dried, the seed pods are attractive for arrangements. US Native. The Perennial Plant Association's 2010 Perennial of the Year!

Baptisia 'Decadence Dutch Chocolate'	False Indigo	Part to full sun	Velvety chocolate purple	30"-36" tall
Well-drained soil.		4 to 9	LSP-ESU	2' wide

Attracts Butterflies

Deer Resistant

Rich velvety chocolate purple flowers are held on upright stems above the densely compact, deep blue-green foliage. Decorative seed pods follow in fall. Foliage starts lower on the stems, covering the base of the plant. A vigorous grower. 'Decadence' Baptisias were selected specifically for their shorter, more compact habit and unique flower colors.

Baptisia 'Decadence Pink Truffles'	False Indigo	Part to full sun	Pink	2 1/2' to 3' tall
NEW Well-drained soil.		4 to 9	LSP	3' wide

A novel new color in Baptisia! Clear soft pink blossoms with a pale yellow keel are produced in late spring, the perfect compliments to peonies, bleeding hearts, and other spring bloomers. Its compact, shorter habit makes it easy to fit into any garden.

Baptisia 'Decadence Sparkling Sapphires'	False Indigo	Part to full sun	Violet-blue	30"-36" tall
Well-drained soil.		4 to 9	LSP-ESU	30"-36" wide

Attracts Butterflies

Rabbit Resistant

Deer Resistant

This one will stop you in your tracks with its intensely vibrant flower color! Vivid violet-blue blossoms in late spring to early summer, around the same time as peonies. Because of its shorter stature, you will easily find room to fit this perennial in your flower garden. Seed pods being to develop immediately after the plant is finished flowering, deepening in color and persisting into fall.

Belamcanda chinensis	Blackberry Lily	Full sun	Golden yellow	2'-3' tall
Well-drained soil.		5 to 10	ESU-MSU	2' wide

Attracts Butterflies

2" flowers are heavily spotted with orange and crimson; iris-like foliage.

Bergenia cordifolia 'Red Beauty'	Pig Squeak	Part to full shade	Rosy red	6"-15" tall
Rich, moist soil.		4 to 8	ESP-LSP	14" wide

Wonderfully ornamental evergreen foliage is glossy green, taking on a deep red tone in the fall. Early flowering blooms are held on stiff stems.

Bletilla striata	Hardy Orchid;Chinese Ground Orchid	Part shade	Rosy magenta	12"-18" tall
Rich, moist, well-drained soil.		5	LSP	5" wide

Bright rosy magenta mini-orchids for 2 to 3 weeks; shiny green pleated foliage.

Brunnera macrophylla 'Alexander's Great'	Siberian Bugloss	Full shade	Sky blue	15" tall
Moist, well-drained soil.		4 to 8	ESP	28"-30" wide

This Brunnera is on steroids! Gigantic clumps carry bushel basket-sized leaves with silver flecking- a dramatic statement in the landscape or as a dynamic specimen in a container. Lovely spiraled leaf bases. This is a giant version from Belarus. Each fuzzy leaf is highlighted by contrasting green veins and a narrow green edge.

Perennial Flower/Foliage

Buddleia davidii 'Black Knight'

Attracts Butterflies

Attracts Hummingbirds

Deer Resistant

Eye-catching brilliant purple-red flower panicles are deliciously fragrant and average 6" to 12" long. This award-winning variety is noted for being full of vigor and very floriferous. It has a compact, upright habit.

Buddleia 'Humdinger Magenta Munchkin'

Butterfly Bush; Summer Lilac; Nectar Bush

Full sun

Magenta

2.5' to 3' tall

Well-drained soil.

5 to 10

LSU to EF

4' wide

You'll find this munchkin welcome in your sunny landscape because of its shorter stature and earlier blooming. 7" to 8" fuchsia red flowers have light centers on each individual flower that look like eyes from afar. This floriferous variety will produce tons of flower panicles when in bloom. The low, rounded, ball-shaped habit has medium green foliage. The word "humdinger" is defined as "something that is very impressive or exciting." That word definitely applies to this new collection of Buddleia!

Buddleia 'Lo & Behold Blue Chip Jr.'

Butterfly Bush; Summer Lilac; Nectar Bush

Full sun

Blue-purple

20" tall

Well-drained soil.

5 to 9

SU-EF

20" wide

This new Buddleia improves on 'Blue Chip' in several ways: it is even smaller, it is less brittle, and the leaves have more of a silver sheen to them. It reaches just 20" tall and wide, yet flowers profusely with its blue-purple flowers, beginning in early summer (somewhat earlier than many), and continuing without cease into autumn. Unlike most older varieties, 'Blue Chip Jr.' concentrates all its energy into flowering and offers no volunteer sprouts or messy debris to collect at season's end. Once established, it's quite forgiving of heat, humidity, poor soil, and even drought. It needs no special care beyond a strong pruning in early spring- cut it down to 1/3 of its original size in late February/early March, and watch it return even more dense and floriferous than before! Deer and rabbits leave it alone, but hummingbirds, bees, and butterflies are attracted to its sweet, lightly fragrant blossoms.

Buddleia 'Lo & Behold Ice Chip'

Butterfly Bush

Full sun

Icy white

18"-24" tall

Well-drained soil.

5 to 9

ESU-LF

24"-30" wide

Attracts Butterflies

Attracts Hummingbirds

Deer Resistant

Another great addition to the 'Lo & Behold' series of miniature Butterfly Bushes! A tidy mound of icy white flowers and silvery foliage. Blooms continuously from early summer to late fall. Does not need pruning or deadheading! Drought tolerant, deer resistant, and a butterfly magnet! Can be used as a ground cover, low hedge, or planted in containers. Prune back to the ground in early spring.

Perennial Flower/Foliage

Buddleia 'Lo & Behold Pink Micro Chip'	Butterfly Bush	Full sun	Bright pink	18"-24" tall
Well-drained soil.		5 to 9	ESU-MF	20" wide
		Attracts Butterflies	Attracts Hummingbirds	Deer Resistant

A whole new color for the 'Lo & Behold' series! A small plant with abundance of unique, tiny blooms giving this butterfly bush the look of salvia, but the sweetness of Buddleia. An early blooming variety that flowers summer to frost, blooming earlier than 'Lo & Behold Blue Chip'. Continuous bloomer; deadheading not necessary.

Buddleia 'Miss Molly'	Butterfly Bush; Summer Lilac; Nectar Bush	Full sun	Dark Sangria red	4'-5' tall
Well-drained soil.		5	MSU-F	3'-4' wide
		Attracts Butterflies	Attracts Hummingbirds	Deer Resistant

Good Golly Miss Molly! If you think B. 'Miss Ruby' has awesome flower color - this plant pushes the color spectrum even further with blooms boasting rich hues of dark Sangria-red. The flower color varies with the heat and level of sun. Silver-gray foliage.

Buddleia 'Miss Violet'	Butterfly Bush; Summer Lilac; Nectar Bush	Full sun	Purple-blue	4' to 5' tall
Well-drained soil.		5 to 9	MSU to F	4' to 5' wide
			Attracts Hummingbirds	

Compact butterfly bush delivers an outsize blast of stunning rich-purple flowers. 'Miss Violet's' vibrant purple-blue blooms cover her 12" stems from the ground up. Super-easy to care for, sterile, non-invasive plants deliver high-wattage flower power. Keep cutting the flower, and the plants keeps blooming. Beautiful complements that magenta-red flower explosion known as Buddleia 'Miss Molly'. Ever-so-easy upkeep; oblivious to high heat, blazing sun, and thirsty soil.

Buddleia 'Monarch Prince Charming'	Butterfly Bush; Summer Lilac; Nectar Bush	Full sun	Pink	3 1/2' to 4' tall
NEW Well-drained soil.		5 to 10	MSU to LSU	3 1/2' to 4' wide

This is the newest addition to the popular MONARCH Butterfly Bush collection! 'Prince Charming' is truly a color break for the Buddleia genus. 10" long flower spikes will stun you with their bright cerise pink color. Compared to 'Queen of Hearts', 'Prince Charming' is closer to raspberry pink than purple. in mid to late summer, its upright, gumdrop shaped habit is covered with intensely colored flowers and blooms for many weeks.

Buddleia 'Pugster Blue'	Butterfly Bush; Summer Lilac; Nectar Bush	Full sun	Blue	24" tall
NEW Well-drained soil.		5 to 9	ESU to W	24" to 36" wide

Meet Pugster Blue - it's a whole new look for butterfly bush. This compact plant reaches just 2' tall and wide but has the large, full flowers normally seen on a much larger plant. It blooms non-stop from early summer through frost with true-blue flowers, each with a tiny yellow-orange eye in the center. Thanks to thick, sturdy stems, the Pugster series offer vastly improved hardiness and winter survival over other types of dwarf butterfly bush.

Buddleia 'Pugster Pink'	Butterfly Bush; Summer Lilac; Nectar Bush	Full sun	Pink	20" to 24" tall
NEW Well-drained soil.		5 to 9	ESU to LF	24" to 36" wide
				Deer Resistant

This butterfly bush is one for the record books! A surefire draw for our favorite colorful pollinators, this compact shrubs becomes a fountain of fragrant pink blooms for ESU to LF. This petite deer marvel is a symphony for the senses and the delight of any sun-soaked garden. The cotton candy pink flowers are large in size and sit beautifully atop the smaller plant. You will enjoy the blooms all summer without the need for deadheading. It is very heat tolerant so it is the perfect addition to your summer garden.

Campanula glomerata 'Freya'	Bellflower; Harebell	Part to full sun	Purple	3' to 4' tall
Moist, well-drained soil.		3 to 8	LSP to SU	12" wide

This Clustered Bellflower brings exceptional color to your garden for the entire summer! This selection grows to about knee-height with an upright, clumping habit that is perfect for beds, borders and containers. The deep purple flowers are held on strong stems, making them perfect for cutting. Spreading easily to form a small patch, the size of the clump can be managed by dividing the plants in spring or fall. Deer won't bother this beauty despite its enticing color.

Perennial Flower/Foliage

Upright plants are topped by elegant clusters of large, 2" bellflower. Young buds are deep purple, opening to pale lavender luminous bells. Bellflowers can sometimes flower and fade all too quickly, but Campanula 'Iridescent Bells' really is quite different, cluster of up to 30 blooms appear from each shoot. This new, repeat-flowering variety will bring four months of color to the garden from June through September - a constant mix silky deep purple buds and mature blooms of silvery-white bells, flushed with palest purple. Plant in cool, moist spots in part to full sun. Plants do no self-seed.

Caryopteris 'Beyond Midnight'

Blue Mist Shrub

Part to full sun

Purple-blue

24" to 30" tall

Well-drained soil.

5 to 9

LSU to F

24" to 30" wide

Welcome Fall with the beautiful blooms of this Caryopteris! The glossy, dark green foliage sets up a wonderful back drop for the deep purple blue flower spikes. It forms a dense mounding habit. The glossy, finely-cut, very dark foliage is distinctive all season long, but the plant truly turns on the charm late in the season when most flowers are spent. From late summer on into fall this Bluebeard sets plush panicles of its signature blue blooms, lighting up the garden just when it need the boost! Blooming for up to two months, it provides a long blooming element to the landscape and perennial beds. Since flowering is from the new season growth, we recommend trimming your plant in late winter or early spring.

Caryopteris clandonensis 'Dark Knight'

Blue Mist Spirea; Bluebeard

Full sun

Deep rich blue flowers; dark silvery green foliage; prefers average to dry locations.

Perennial Flower/Foliage

Caryopteris 'Sunshine Blue II'	Blue Mist Shrub	Part to full sun	Violet blue	2' to 3' tall
Well-drained soil.		5 to 11	LSU to F	2' to 3' wide
Deer Resistant				

Unlike its predecessor, this Caryopteris is now hardy down to zone 5! The dainty chartreuse green/yellow foliage does well in full sun even in the hottest of summer. It is adorned with loads of rich violet blue flowers late summer in to fall. It has a nice mounding habit. You will enjoy the beautiful fragrance as well as the butterflies, bees, and other beneficial insects that are attracted to the blooms. It does not like to be in a wet winter location.

Centranthus ruber	Red Valerian; Jupiter's Beard	Part to full sun	Carmine-rose	18"-36" tall
Well-drained soil.		4 to 8	LSP-SU	20" wide
Attracts Butterflies				

Tiny carmine-rose florets cluster in dense showy heads held above bushy gray-green foliage; exceptionally long bloom season.

Cerastium tomentosum	Snow in Summer	Part to full sun	White	4"-5" tall
Well-drained soil.		3 to 7	LSP-ESU	12"-18" wide
	Ground cover	Foot traffic- Moderate foot traffic (1 or 2 times a day)		Rabbit Resistant Deer Resistant

Low spreading ever silvery gray foliage that forms a lovely carpet on the ground; good for rock gardens, ground cover, around roses, or as an edging; needs well-drained soil; withstands foot traffic; fast growing.

Ceratostigma plumbaginoides	Plumbago; Leadwort	Full sun to Full shade	Gentian blue	8" tall
Well-drained soil.		5 to 9	MSU-MF	12"-18" wide
	Ground cover	Attracts Butterflies		Rabbit Resistant Deer Resistant

Green foliage turns mahogany in fall; breaks dormancy late.

Chrysanthemum, Coral/Orange 'Miranda Orange'	Hardy Mum	Full sun	Orange-bronze and orange-red	Medium tall
Moist, well-drained soil.		3 to 10	MF	18"-24" wide

Mound-shaped plants provide bright, two-tone decorative flowers of orange-bronze with orange-red centers.

Chrysanthemum, Pink 'Cheryl Pink'	Hardy Mum	Full sun	Light and dark lavender-pink	Short height
Moist, well-drained soil.		3 to 10	MF	18"-24" wide

Two-toned decorative flowers are light lavender-pink with darker centers. Superb spreading and mounding habit.

Chrysanthemum, Red 'Bonnie'	Hardy Mum	Full sun	Bright red	Medium height
Moist, well-drained soil.		3 to 10	EF	18"-24" wide

1 3/4" wide bright red daisy flowers with yellow centers have good flower form and color retention. Uniformly shaped plants.

Chrysanthemum, Red 'Hestia Hot Red'	Hardy Mum	Full sun	Radiant hot red	18"-24" tall
Moist, well-drained soil.		5	EF	18"-24" wide

Gorgeous decorative mum with radiant red flowers. Mounding habit named for the goddess of fire.

Perennial Flower/Foliage

Chrysanthemum, Yellow 'Dawn'	Hardy Mum	Full sun	Yellow	12"-18" tall
Moist, well-drained soil.		3 to 10	EF	18"-24" wide

Beautiful decorative yellow flowers atop mounded plants.

Clematis, Bush Type 'Stand By Me'		Part to full sun	Blue	34" to 38" tall
NEW Cool, moist, well-drained soil.		3 to 7	LSP to ESU	24" to 36" wide

A new look in Clematis! This non-vining Clematis is completely herbaceous, meaning that it dies back to the ground at the end of the growing season. Blue bell-shaped flowers appear from late May to June, with some rebloom into the later summer months. After it is finished blooming, attractive cream thread-like seed heads appear. Broad, green foliage completes the package of this unique perennial. New leaves have a bronze cast to the undersides. This plant benefits from staking, cages or neighboring plants for support.

Convallaria majalis	Lily of the Valley	Full shade	White	6"-8" tall
Rich, moist soil.		2 to 7	LSP-ESU	6" wide

Ground cover

Deer Resistant

Fragrant bell-shaped flowers followed by tiny orange berries; excellent ground cover.

Coreopsis grandiflora 'Double the Sun'	Tickseed	Full sun	Golden	12"-14" tall
NEW Well-drained soil.		4 to 9	ESU-LSU	12"-14" wide

Semi-double, clear golden yellow, 2 1/2" wide flowers bloom 2 to 3 weeks earlier than 'Early Sunrise'!

Coreopsis grandiflora 'Santa Fe Yellow'	Tickseed	Full sun	Yellow	16" tall
Well-drained soil.		4 to 9	LSP-F	12"-14" wide

Attracts Butterflies

Rabbit Resistant

Deer Resistant

Fluffy, double and semi-double, 2" wide yellow blooms over green green narrow leaves. Flowers a week longer than C. 'Early Sunrise', with a more uniform habit. An early flowering selection with excellent branching.

Coreopsis grandiflora 'SunKiss'	Tickseed	Full sun	Yellow	12" to 14" tall
Well-drained soil.		4 to 9	LSP to LSU	20" wide

This new Coreopsis not only impresses with its name, but also with its almost palm-sized and sunny yellow blossoms and the deep red ring in its center. This flower has an enchanting effect on its beholder! Compact, well-branched and floriferous' blooming. Excellent heat-tolerant plant for novice and expert gardeners alike-reliable, easy to grow and the color blends well with almost everything.

Coreopsis 'Solanna Glow'	Tickseed	Full sun	Canary yellow	12"-15" tall
Well-drained soil.		4 to 9	LSP-EF	1' wide

Compact, mounding plants have single, 1 1/2" to 2" wide canary yellow flowers. Once established, the plants are heat and humidity tolerant, and fairly drought tolerant.

Coreopsis, Threadleaf 'Crazy Cayenne'	Threadleaf Coreopsis	Full sun	Orange	15" to 18" tall
NEW Very well-drained soil, especially during winter; drought tolerant.		5 to 9	LSU	22" to 26" wide

Go crazy for this vibrant orange Coreopsis that has a perfectly domed, rounded, uniform habit. 1 3/4" wide, fiery sunset orange flowers have intense red-orange color concentrated at the centers of the petals. The undersides of its petals are golden yellow, with some petal tips displaying the same golden yellow. The flower will cover the gray-green, threadleaf foliage for a showy early to late summer display.

Perennial Flower/Foliage

Coreopsis, Threadleaf 'Full Moon'	Threadleaf Coreopsis	Full sun	Bright canary	24"-30" tall
Very well-drained soil, especially during winter; drought tolerant.		5 to 9	MSU-EF	18" wide
		Attracts Butterflies	Rabbit Resistant	Deer Resistant

Large, bright canary yellow flowers, up to 3" across, are held on well-branched stems. Healthy green foliage has a texture intermediate between threadleaf and *C. grandiflora* types. Part of the Big Bang series.

Coreopsis, Threadleaf 'Hardy Jewel Ruby Frost'	Threadleaf Coreopsis	Full sun	Ruby red and white	16"-26" tall
Very well-drained soil, especially during winter; drought tolerant.		6 to 9	MSU-LSU	24"-32" wide
		Attracts Butterflies	Rabbit Resistant	Deer Resistant

Deep ruby red flowers with a frosted white outer edge. Selected for its combination of rock-solid performance, exceptional hardiness, and jewel-toned blooms! A color breakthrough for *Coreopsis*, boasting a rich ruby tone that surpasses all other reds. Loved by butterflies and the silky seedheads are loved by goldfinches. Heat and drought resistant once established. Deadheading promotes rebloom!

Coreopsis, Threadleaf 'Hot Paprika'	Threadleaf Coreopsis	Full sun	Dark Red	15" to 18" tall
NEW Very well-drained soil, especially during winter; drought tolerant.		5 to 9	SU	22" to 26" wide

This new *Coreopsis* has dark red. 1 1/2" flowers with dark gold centers and a compact rounded growth habit. The brilliant blooms will cover the foliage in summer, certain to capture attention in the garden habit. One plant will provide cut flowers all summer long. This easy to grow perennial tolerates poor soil and is drought tolerant once established.

Coreopsis, Threadleaf 'Li'l Bang Daybreak'	Threadleaf Coreopsis	Full sun	Red and vibrant yellow	6"-10" tall
Very well-drained soil, especially during winter; drought tolerant.		5 to 9	SU-F	18" wide
		Attracts Butterflies	Rabbit Resistant	Deer Resistant

Single red flowers with a vibrant yellow edge on handsome dark green foliage. Great for beds, borders, and containers. Very adaptable as long as soil has good drainage. Sterile flowers do not reseed. Drought tolerant.

Coreopsis, Threadleaf 'Red Shift'	Threadleaf Coreopsis	Full sun	Deep red to cream	30"-36" tall
Very well-drained soil, especially during winter; drought tolerant.		5 to 9	MSU-EF	18" wide
		Attracts Butterflies	Rabbit Resistant	Deer Resistant

2" wide creamy yellow flowers with a deep red ring around the golden center. The flowers that are borne when nighttime temperatures are cool range in color from solid red to yellow with red streaked petals. Healthy green foliage has a texture intermediate between threadleaf and *C. grandiflora* types. Part of the Big Bang series.

Coreopsis, Threadleaf rosea 'American Dream'	Threadleaf Coreopsis	Full sun	Bright pink	18"-24" tall
Very well-drained soil, especially during winter; drought tolerant.		3 to 9	SU	20" wide
		Attracts Butterflies	Rabbit Resistant	Deer Resistant

Fernleaf *Coreopsis*; Small bright pink flowers all season; spreading foliage; good ground cover or edging plant; zone 3.

Coreopsis, Threadleaf verticillata 'Moonbeam'	Threadleaf Coreopsis	Full sun	Pale lemon yellow	18" tall
Very well-drained soil, especially during winter; drought tolerant.		3 to 9	ESU-LF	18" wide
		Attracts Butterflies	Rabbit Resistant	Deer Resistant

Richly branched, compact habit. The high-impact cerulean blue flowers face upwards.

Delphinium, English 'New Millennium Dwarf Stars'	Larkspur	Part sun	Pastel shades	18"-30" tall
Moist, well-drained soil.		3 to 7	ESU-EF	18" wide

Attracts Butterflies

Attracts Hummingbirds

Deer Resistant

This new series retains the look of high quality majestic tall Delphiniums, but in a much shorter package. The sizeable spires are borne on short, strong stems, atop bushy foliage. Cut back the first flush of blooms just as soon as they have finished blooming, to stimulate rebloom.

Delphinium, English 'New Millennium Pagan Purples'	Larkspur	Full sun	Shades of purple	6' tall
Moist, well-drained soil.		3 to 7	ESU	2'-3' wide

Attracts Butterflies

Attracts Hummingbirds

Deer Resistant

Mainly shades of very dark blue-purple with a white or brown bee; the flowers are often doubles; may have occasional white or pale mauve flowered plants.

Dendranthema 'Cool Igloo'	Hardy Chrysanthemum	Part to full sun	Raspberry	20"-24" tall
Moist, well-drained soil.		5 to 9	LSP-ESU & F	24"-30" wide

Plants are covered in fluffy duplex daisy flowers of rich raspberry for over a month in the fall. 2" wide flowers. Blooms of Bressingham introduction.

Perennial Flower/Foliage

Dendranthema 'Fireworks Igloo'	Hardy Chrysanthemum	Part to full sun	Medium pink	20"-24" tall
Moist, well-drained soil.		5 to 9	LSP-ESU & F	24"-30" wide

Very novel flower form! 1 3/4" to 2" wide flowers are filled with narrow, quilled medium pink petals. Attractive lobed green leaves form uniform rounded masses without pinching. Blooms of Bressingham introduction.

Dendranthema 'Radiant Igloo'	Hardy Chrysanthemum	Part to full sun	Golden yellow	20"-24" tall
Moist, well-drained soil.		5 to 9	LSP-ESU & F	24"-30" wide

Perfect ball-shaped plants. 1.7" to 1.8" wide golden daisy-like, double flowers. Attractive lobed green leaves form uniform rounded masses without pinching. Blooms of Bressingham introduction.

Dendranthema 'Sundance Igloo'	Hardy Chrysanthemum	Part to full sun	Yellow	18' to 20' tall
Moist, well-drained soil.		5 to 9	LSP to ESU and EF	30" wide

This true hardy mum is covered in sunshine with bright yellow daisy flowers. Plants are loaded with long-lasting 1.5 inch flowers in late spring and again in early fall! After enjoying their bloom in late spring-early summer, trim the plant to 4" in height; no further pinching is needed! Attractive lobed green leaves form uniform rounded masses without pinching!

Dendranthema 'Sunny Igloo'	Hardy Chrysanthemum	Part to full sun	Bright yellow	20"-24" tall
Moist, well-drained soil.		5 to 9	LSP-ESU & F	24"-30" wide

Gold buds open to decorative double flowers of cheerful yellow with deeper gold centers. Flowers are just under 2" in diameter. Tight, spherical plants produce a show-stopping ball of color. Blooms of Bressingham introduction.

Dendranthema 'Warm Igloo'	Hardy Chrysanthemum	Part to full sun	Orange-bronze	20"-24" tall
Moist, well-drained soil.		5 to 9	LSP-ESU & F	24"-30" wide

Neat cushiony orange-bronze flowers with yellow centers. The outer petals mature to a pale gold-bronze hue, for a pleasing tri-tone effect. Flowers are just under 2" in diameter. A truly hardy mum. Tight, spherical plants produce a show-stopping ball

Moist, well-drained soil.		5 to 8	LSP-LSU	8"-12" wide

Attracts Butterflies Attracts Hummingbirds Rabbit Resistant Deer Resistant

Compact mounds of lush green foliage. Large clusters of fragrant flowers in a mix of colors. Will bloom the first year and it is an excellent repeat bloomer.

Dianthus barbatus 'Heart Attack'	Pinks	Full sun	Black-red	1'-2' tall
Moist, well-drained soil.		4 to 9	LSP-MSU	8"-15" wide

Attracts Butterflies Attracts Hummingbirds Rabbit Resistant Deer Resistant

Profuse blooms of brilliant black-red carnation-like flowers appear in large rounded clusters, beginning in late spring and continue for up to 8 weeks. An incredibly long-lived display of color! In the fall, the strappy, dark green, glossy foliage turns to a beautiful burgundy color for an extended season of interest. The foliage is also deep red when it emerges in the spring. Requires well-drained soil. An excellent cutflower.

Dianthus barbatus 'Rockin' Red'	Pinks	Full sun	Red	18" to 24" tall
NEW Moist, well-drained soil.		5	ESP-F	12" wide

This dynamite RED will keep perennial borders rocking for years to come, thanks to its vivid color, durable performance and count-on-it over wintering! Lacy, slightly scented flowers top full and long-lasting plants - this one delivers lots of plant for the investment! Reliably over winters to USDA Zone 5 (-20 F) minimum temperatures to assure multi-year performance.

Paint the landscape with a sunset-inspired palette. A vibrant mix of rich purple, pink, red, and orange tones to lighter yellows, creams, and white! Even during wind and rain, this compact plant does not topple over, unlike many other Echinaceas. The variety of intense, bright colors adds sparkle to the garden from mid summer through fall. As an added bonus, this low-maintenance Echinacea does not need deadheading to provide summer-long beauty. Gardeners love the flower-filled, highly branched plants. All-America Selections Winner 2013!

Perennial Flower/Foliage

Echinacea 'Lakota Santa Fe'	Coneflower	Part to full sun	Reddish-Orange to Pinkish Red	12" to 16" tall
NEW Well-drained soil; drought tolerant.		4 to 8	SU to W	16" to 18" wide

This coneflower worthy of the Proven Winners stamp of approval! This new cultivar show a variety of beautiful shades of red, varying from reddish-orange to pinkish red. Each 3 1/2" flower has horizontal petals. With a shorter stature, it is a great fit for the front of the border, small spaces, and combination containers. Just like other Coneflowers, this will bloom nearly all summer long, all the way up to frost.

Echinacea 'Lemon Drop'	Coneflower	Part to full sun	Bright Yellow	18" tall
Well-drained soil; drought tolerant.		4 to 9	MSU to EF	18" to 24" wide

A lively new addition to the Cone-flections series of double-flowered echinacea, 'Lemon Drop' is a fully double coneflower with bright yellow petals. Add this little ball of sunshine to your garden to brighten up deep blues and purples from midsummer to early fall. Mix this lovely new coneflower with pinks and purples for a cool effect or oranges, pinks, and reds for a hot summer combo. Strong, straight stems make this new perennial an eye-catching specimen wherever you plant!

Echinacea paradoxa	Coneflower	Part to full sun	Bright yellow	32" tall
Well-drained soil; drought tolerant.		3 to 8	SU-F	18"-24" wide

Attracts Butterflies

Deer Resistant

Bright yellow flowers; very unusual; US prairie native.

Attracts Butterflies

Deer Resistant

Showy flowers with a copper central cone and slightly drooping petals. Native to the US.

Echinacea purpurea 'Doubledecker'	Coneflower	Full sun	Deep pink to rose	40" tall
Well-drained soil; drought tolerant.		3 to 9	MSU-MF	18"-24" wide

Attracts Butterflies

Deer Resistant

Many years ago German plant breeder, Eugen Schleipfer found a single plant that looked very different than others. He had never seen a two-tier Purple Coneflower before. Schleipfer saw potential here, where others might have seen nothing but an oddity.

Echinacea purpurea 'Green Twister'	Coneflower	Part to full sun	Lemon green to carmine	2'-3' tall
NEW Well-drained soil; drought tolerant.		3 to 8	MSU-F	12"-18" wide

A selection of a natural mutation of 'Magnus'. Compact, sturdy plants have flowers with horizontal facing petals that change in color from edges of lemon green to a bright carmine-red center. The colors vary by flower and give a pleasing range of color pattern! Great as an accent plant in a naturalized garden or used in a border. Great for pollinators in flower and great food for the birds in fall if the seedheads are allowed to persist. Stems lengthen after the first year, becoming a sturdy and beautifully unusual cutflower. Drought resistant once established.

Echinacea purpurea 'PowWow White'	Coneflower	Part to full sun	Pure white	22" tall
Well-drained soil; drought tolerant.		2 to 9	LSP-LSU	18" wide

Attracts Butterflies

Deer Resistant

Bouquets of pure white flowers with a yellow cone over compact foliage. Flowers the first year. Great container plant. Very hardy.

Echinacea purpurea 'PowWow Wild Berry'	Coneflower	Part to full sun	Deep rose-purple	20"-24" tall
Well-drained soil; drought tolerant.		3 to 9	ESU-LSU	12"-16" wide

Prairie Bloom Attracts Butterflies Deer Resistant

This purple coneflower differs from all others for flower color, branching, and plant size. The 3" to 4" wide deep rose-purple flowers retain their color for a long time. The plants have wonderful basal branching, rewarding gardeners with more flowers per plant. Flowers the first year from seed. Blooms continually without deadheading. AAS Winner!

Perennial Flower/Foliage

Echinacea purpurea 'Ruby Star' ('Rubinstern')	Coneflower	Part to full sun	Carmine-red	24"-40" tall
Well-drained soil; drought tolerant.		3 to 8	MSU-EF	18" wide
Attracts Butterflies			Deer Resistant	

Stronger, more intense, carmine-red petals than 'Magnus'; like 'Magnus', it holds its petals in a refined, horizontal arrangement, not drooping like the species; the petals are stronger, with a richer, deeper intense red color; syn. 'Rubinstern'.

Echinacea 'Rainbow Marcella'	Coneflower	Part to full sun	Tangerine to raspberry	15"-18" tall
Well-drained soil; drought tolerant.		4 to 9	SU-EF	18"-24" wide

Compact and free-branching plants have eye-popping flowers that open tangerine-orange, becoming fully colored in rich raspberry pink! The pink hues start at the cone and move down to the petal tips! This 'tutti-frutti' effect, with no two blooms quite the same, continues from summer into fall!

Echinacea 'Sombrero Adobe Orange'	Coneflower	Part to full sun	Orange	18" to 20" tall
Well-drained soil; drought tolerant.		4 to 9	MSU to EF	18" to 20" wide

After a vigorous container and landscape trail of Abode Orange, Walter's Gardens was please to add this orange flowering Echinacea to complete the color range. 2.5 to 3 inches, intense orange flowers will make other Echinacea pale in comparison, with a matching orange cone that really makes the color pop. Dark green foliage is completely covered with flowers. One of the best orange Echinacea to date.

Echinacea 'Sombrero Sangrita'	Coneflower	Part to full sun	Scarlet Red	18" to 20" tall
NEW Well-drained soil; drought tolerant.		4 to 9	ESU to LSU	22" to 24" wide

This is stunning, with pointed, scarlet-red petals, burgundy eye and burgundy-red flower stems. The blooms are so brilliant they're like beacons in the flower border. Selected from the same fields in northern Illinois that brought us the All-America winner PowWow Wild Berry. Compact and well-branched plants are very heavy-flowering with an exceptionally long bloom period that lasts from June well into August. The Sombrero Series are sturdy and are bred for excellent winter hardiness.

Epimedium grandiflorum 'Lilafee'	Barrenwort	Part to full shade	Lavender	8"-10" tall
Rich, moist soil.		3 to 8	MSP-LSP	1' wide
Attracts Butterflies			Attracts Hummingbirds	Rabbit Resistant
Deer Resistant				

Lavender flowers, appearing in mid to late spring, look like spider-legged tadpoles with yellow throats, swimming over small leaves! Evergreen, heart-shaped, bronze-purple tinted foliage emerges in spring and later turns green. The fall leaves take on tints of red.

Epimedium perralchicum 'Frohnleiten'	Barrenwort	Part to full shade	Bright yellow	15" tall
Rich, moist soil.		5 to 9	MSP-LSP	2' wide
Attracts Butterflies			Attracts Hummingbirds	Rabbit Resistant
Deer Resistant				

Spiney, evergreen leaves have a reddish tint; robust variety that tolerates dry conditions well; pendant bright yellow flowers with very short brown spurs.

Epimedium rubrum	Red Barrenwort	Part to full shade	Crimson and pale yellow	1' tall
Rich, moist soil.		4 to 8	MSP-LSP	12"-15" wide
Attracts Butterflies			Attracts Hummingbirds	Rabbit Resistant
Deer Resistant				

Leaves are red tinted when young, and then turn red and reddish brown in autumn; fast growing; excellent ground cover, especially for deep shade under trees; flowers appear right above the foliage.

Eryngium planum 'Blue Glitter'	Sea Holly	Full sun	Shimmering blue	6"-8" foliage/36"-40" flowers tall
Dry, infertile, loamy soil.		4 to 9	ESU-MSU	18"-23" wide
Attracts Butterflies				

Open umbels of prickly blooms in a shimmering shade of steel blue! Flowers are held on silvery blue stems atop the blue-green, non-spiny leaves. Flowers reliably, even in the first year! Tolerant of hot, dry sites. For drying, cut stems just as the flower clusters open fully, and hang upside down to dry in a warm, dark place.

Perennial Flower/Foliage

Eryngium yuccifolium (Rattlesnake Master)	Rattlesnake Master	Full sun	Blue-silver	24" to 48" tall
Dry, infertile, loamy soil.		3 to 8	ESU to EF	24" wide

It is a unique and eye-catching plant for a dry, sunny site. Slightly spiny leaves are arranged in a rosette that resembles Yucca. Flower stems shoot skyward in summer and are topped with thistle-like, bluish silver flowers. An architectural addition to the perennial border or meadow, Eryngium yuccifolium is most effective planted singly or in small groups. Host plants for swallowtail butterflies. Provides nectar for butterflies and other beneficial insects, including the paper wasp (*Polistes exclamans*) which provides biological control of the tomato hornworm (*Manduca sexta*)! Mature plants are deer resistant. Definitely an accent plant, although care must be taken not to make groupings to excessive.

Eryngium zabelii 'Neptune's Gold'	Sea Holly	Full sun	Blue	20" to 24" tall
Dry, infertile, loamy soil.		4 to 9	SU	10" to 12" wide

The first all-gold leaved Eryngium! Bright golden stems and bracts contrast greatly with the steel blue stems and flower heads. A lovely, eye-catching color that does not burn. Leaves emerge bright yellow, fade to chartreuse and then age to a lovely gold and green combinations. The long lasting, electric blue flowers are surrounded by bracts that are graduated from silver to gold and then soft lavender, a stunning combinations for any garden, all summer long! Heads of prickly bright blue flowers are held high on strong stems above stunning marble-like foliage. A wonderful plant to add texture to your borders. Stunning as cut or dried flower. Neptune's gold was selected by breeder Neil Alcock in the UK and introduced by Plants for Europe. It makes an excellent container specimen or addition to a combo planter. The plants are totally stable and never revert. Needs dry, well-drained, poor to medium soil. Protect from excessive winter moisture.

Eryngium zabelii 'Big Blue'	Sea Holly	Full sun	Iridescent, steely blue	24"-33" tall
Dry, infertile, loamy soil.		5 to 8	MSU-LSU	24"-30" wide

Attracts Butterflies

Basal rosettes of silvery foliage hold tall, erect blooms. Large, 4" wide, stunningly iridescent, steely blue flowers are held on blue stems. A fantastic cut flower.

Eucomis 'Sparkling Burgundy'	Pineapple Lily	Part to full sun	Greenish purple	12"-18" tall
Rich, very well-drained soil.		6	MSU-LSU	10" wide

Tropical looking, strap-like foliage emerges deep burgundy and becomes slightly tinged with olive green. The best foliage color is in full sun. On leafless stalks in mid to late summer, green blushed purple-pink, starry, fragrant flowers are produced in dense clusters and are capped by a coma of purple blushed bracts. The flower head looks like a miniature pineapple, hence the common name. The flowers last for several weeks. After flowering, fresh burgundy foliage is produced, which holds its rich color until frost. An unusual yet carefree accent plant. Needs well-drained soil. Excellent for containers.

Euonymus fortunei 'Coloratus'	Japanese Euonymus	Part to full shade		1'-2' tall
Moist, well-drained soil.		4 to 10		1'-2' wide

Ground cover

Evergreen leaves turn dark purple in fall. An excellent hardy ground cover due to its sprawling habit. Withstands foot traffic, too!

Euonymus fortunei 'Kewensis'	Japanese Euonymus	Part to full shade		2"-6" tall
Moist, well-drained soil.		4 to 10		1'-2' wide

Ground cover
Foot traffic-
Moderate foot
traffic (1 or 2 times
a day)

Dwarf evergreen with tiny green leaves with white veins in spring that turn burgundy in the fall; durable plant that is perfect for erosion control; use around evergreen shrubs, curbside plantings, or on a slope; withstands foot traffic.

Eupatorium maculatum 'Baby Joe'	Joe Pye Weed; Snakeroot	Part to full sun	Fuchsia	30"-36" tall
Average to moist soil.		4 to 9	SU	2' wide

A worthy specimen for mid to back of the border planting. Short, compact habit with major flower power. Broad clusters of fuchsia flowers over bright green foliage. Drought tolerant plants are smaller than most other varieties of Joe Pye Weed.

Perennial Flower/Foliage

Eupatorium maculatum 'Gateway'	Joe Pye Weed; Snakeroot	Part to full sun	Bright mauve	5'-6' tall
Average to moist soil.		3 to 7	MSU-F	3' wide
		Attracts Butterflies		Rabbit Resistant Deer Resistant

Needs average to moist soil; huge flower clusters atop deep wine-red stems; outrageous!

Euphorbia 'Black Bird'	Spurge	Part to full sun	Bright lime green	16"-24" tall
Well-drained soil; drought tolerant.		6 to 9??	ESP-LSP	18"-24" wide
				Rabbit Resistant Deer Resistant

This sport of E. 'Redwing' is the darkest Euphorbia, having rich, velvety deep purple foliage which darkens to near black in the sun. Bright lime green flower clusters on red stems. Compact growing with a tight, bushy, vase-shaped to mounded habit. Whi

Euphorbia corollata	Spurge	Part to full sun	White	24" to 36" tall
Well-drained soil; drought tolerant.		4 to 7	ESU to EF	18" to 24" wide
		Attracts Butterflies		Rabbit Resistant

This is sometimes called native Baby's Breath because of its resemblance to that of the horticultural variety. The small mound of dusty-green, oval foliage looks plain Jane until late June, when it bursts forth with clouds of small white flowers held above the foliage. The baby's breath-like bowed by numerous blossoms which have yellow centers ringed by five white petals with a touch of green near the center. A toxic white latex in the leaves and stems keeps deer and other mammals away. Loved by butterflies and other pollinators.

Euphorbia myrsinites	Spurge	Part to full sun	Chartreuse	6"-10" tall
Well-drained soil; drought tolerant.		5	MSP-LSP	8" wide
		Ground cover		Rabbit Resistant Deer Resistant

Succulent glaucous blue trailing foliage; chartreuse bracts fade to apricot; tolerant of heat and humidity and easy to grow; in part shade areas, you can intersperse Viola labradorica with it to disguise the sprawling stems.

Fern Athyrium niponicum 'Pictum'	Japanese Painted Fern	Full shade		8"-24" tall
Rich, moist, loose soil.		4		18"-24" wide
				Rabbit Resistant Deer Resistant

Mature fronds are gray-green, frosted with silver and accented by delicate wine-red stems; young fronds are lighter in color; tolerates deep shade, but best color is with filtered shade; combine with burgundy leafed Heuchera; 2004 PPA Perennial Plant of the Year.

Fern Athyrium niponicum pictum 'Godzilla'	Giant Japanese Painted Fern	Full shade		3' tall
Rich, moist, loose soil.		5 to 9		6 1/2' wide
				Rabbit Resistant Deer Resistant

Similar to N. 'Pictum' (regular Japanese Painted Fern), but much larger Thought to be a sporeling of 'Pictum' and Lady Fern. Forms a massive clump of silvery fronds with green highlights and dark purple stems.

Fern Athyrium niponicum pictum 'Pearly White'	Japanese Painted Fern	Full shade		8" to 20" tall
Rich, moist, loose soil.		4 to 9		24" wide
		Ground cover		Rabbit Resistant Deer Resistant

Pearly White Painted Fern is just about as creamy as Japanese Painted Fern can get. Fronds with light green edges and a white center give Pearly White an ivory green appearance that blends well with other perennials without being too white or too much of a contrast. It was chosen because of its lack of purple color in the fronds. It has all the great attributes of Japanese Painted Fern - Adaptability, easy culture, color and reliability. This superior selection truly lives up its name. It is the best displayed in filtered shade - direct sun will burn the foliage. Plant it as a focal point in your garden where it will gradually spread to form an elegant ground cover.

Perennial Flower/Foliage

Fern *Dryopteris erythrosora* 'Brilliance'

Autumn Fern

Part to full shade

18"-24" tall

Rich, moist, loose soil.

5

18"-24" wide

Rabbit Resistant

Deer Resistant

A more colorful and more brilliant form of Autumn Fern; the young fronds are lustrous and orange, turning to a glossy green at maturity; frost turns the foliage to bronze; the habit is identical to Autumn Fern, but it is dramatically more showy!

Fern *Polystichum neolobatum* (Asian Saber Fern)

Asian Saber Fern

Full shade

18"-24" tall

Rich, moist, loose soil.

6 to 9

30" wide

Rabbit Resistant

Deer Resistant

Glossy green, leathery, slightly grooved fronds are held stiffly upright to create an open, vase-shape plant that is distinctive in the landscape. Place this fern with soft-textured ferns and plants with paler green foliage for best contrast. Its unusual, stiffly upright habit makes it eye-catching as a single plant or interesting when planted enmasse! The fronds are often used in floral displays as they hold up well after cutting.

Gaillardia aristata 'Arizona Apricot'

Blanket Flower

Part to full sun

Sunny yellow

18"-22" tall

Light, well-drained soil.

3 to 9

ESU-EF

12"-16" wide

Sunny bright yellow trumpet-shaped petals form pinwheel flowers. Blooms from early summer to early fall if kept deadheaded and well fed.

Gaillardia 'Celebration'

Blanket Flower

Full sun

Red

16" tall

Light, well-drained soil.

4 to 9

SP-F

14" wide

Attracts Butterflies

Has a single row of elegant red petals carried on very strong stems. The blooms are color fast and age well. Blooms over an exceptionally long period with a compact, mounding habit. Drought tolerant once established.

Perennial Flower/Foliage

Gaillardia 'Sunset Sunrise'	Blanket Flower	Part to full sun	Yellow and orange	14"-16" tall
Light, well-drained soil.		3 to 9	ESU-EF	16" wide

Attracts Butterflies

Large, wide, sunny flowers atop neat, compact plants. Each flower features two rows of bright yellow petals with a central, orange eye and halo. Provides a long season of color- all summer and into early fall. Heat and drought tolerant.

Galium odoratum	Sweet Woodruff	Part to full shade	Pure white	6"-8" tall
Moist, well-drained soil.		4 to 8	LSP-ESU	10" wide

Ground cover

Deer Resistant

Fragrant tiny star-shaped flowers; bright green leaves in whorls; the flowers and foliage develop a sweet, new-mown-hay fragrance when dried; excellent woodland ground cover.

Gaura lindheimeri 'Gaudi Red'	Bee Blossom	Full sun	Deep rose-red	10"-16" tall
Very well-drained soil.		5 to 9	SU	1' wide

Forms compact mounds of dark green foliage with short spikes of deep rose-red flowers. The stems and buds are darker red, adding a nice contrast. Has an excellent branching habit, providing continuous bloom all summer.

Gaura lindheimeri 'Passionate Rainbow'	Windflower	Full sun	Pink	10"-12" tall
Very well-drained soil.		5	SP-EF	18"-24" wide

Green leaves are edged cleanly with white and have rose colored new growth. The pink flowers form at the tips and side branches.

Gaura lindheimeri 'Sparkle White'	Wandflower, Indian Feather, Appleblossom Grass	Full sun	White tinged with a pink blush	10"-24" tall
Very well-drained soil.		6	LSP-F	14"-20" wide

2014 AAS Award winner! A beautiful elegant "thriller" for mixed containers and garden landscapes. Chosen for its long-flowering time and impressive stature. Durable heat and drought tolerant. Early flowering, with more controlled habit and excellent branching. Brings a touch of airy elegance to the garden with its long slender stem sporting a large number of dainty white flowers tinged with pink.

Geranium 'Azure Rush'	Hardy Geranium, Crane's Bill	Part to full sun	Light blue	18"-20" tall
Rich, moist soil.		5 to 8	LSP-EF	24"-28" wide

Rabbit Resistant

Deer Resistant

Has the same traits as its famous parent, G. 'Rozanne'. 2 1/2" wide light blue flowers and a more mounding habit than G. 'Rozanne'. It is heat loving, blooms from late May until frost, and does not set seed. Vigorous growing, with a compact, self-branching habit, with fragrant foliage. An ideal companion plant grown near pink or yellow daylilies or Kniphofia (Red Hot Poker)!

Geranium cantabrigiense 'Biokovo'	Cranesbill	Part to full sun	Pink	10"-12" tall
Rich, moist soil.		4 to 8	LSP-MSU	12"-18" wide

Ground cover

Rabbit Resistant

Deer Resistant

Masses of delicate pink flowers with a deeper flush; deeply dissected foliage turns vibrant red in the fall.

Geranium cantabrigiense 'Karmina'	Cranesbill	Part to full sun	Raspberry pink	6"-8" tall
Rich, moist soil.		4 to 8	LSP-SU	6"-10" wide

Ground cover

Rabbit Resistant

Deer Resistant

Rich raspberry pink flowers on a plant prized for its ground cover effect.

Perennial Flower/Foliage

Geranium 'Rozanne'

Cranesbill

Part to full sun

Violet-blue

20" tall

Rich, moist soil.

5 to 8

ESU-F

2' wide

Ground cover

Rabbit Resistant

Deer Resistant

Large 2½" violet-blue flowers with white centers bloom for a very long time; deep green foliage is lightly marbled with chartreuse; spreading plants will cover up to 2 or 3 square feet in the garden; Blooms of Bressingham introduction.

Geranium sanguineum 'Aplenglow'

Cranesbill

Part to full sun

Lavender-pink

12" to 18" tall

Rich, moist soil.

4 to 8

LSP to MSU

18" wide

Ground cover

Rabbit Resistant

Deer Resistant

Cup-shaped, Lavender-pink flowers appear above a carpet of deeply lobed, green foliage from late spring through midsummer. This is an especially strong grower and long-blooming selection, and it will benefit from being deadheaded. The intricately cut leaves are green for most of the season but earn their namesake from the brilliant crimson-red they turn in the fall. This species is adaptable that it handles both hot summer and cold winter climate with ease.

Geranium sanguineum 'Max Frei'

Cranesbill

Part to full sun

Red-purple

8" tall

Rich, moist soil.

4 to 8

LSP-EF

1' wide

Ground cover

Rabbit Resistant

Deer Resistant

Mounded to spreading habit.

Geum 'Cocktail Sangria'

Avens; Grecian Rose

Full sun

Brilliant red

36"-42" tall

Rich, moist, well-drained soil.

4 to 10

SP-ESU

42" wide

Single to semi-double bold, brilliant red flowers are long blooming- the longest blooming Geum yet! Compact green foliage is slightly hairy. Brighten up your beds or borders with this carefree variety- easy to grow!

Geum 'Cocktail Tequila Sunrise'

Avens; Grecian Rose

Full sun

Lemon Yellow and Rose Red

24" tall

Rich, moist, well-drained soil.

4 to 8

LSP and MSU

18" wide

This is the second in Intrinsic Nursery's cocktail series. Cool off your spring with a refreshing Tequila Sunrise! Lemony yellow single and semi double flower drip with a touch of grenadine rose red on the end of the burgundy red stems. Begins blooming in May, lasting 3 to 4 weeks, and again in midsummer. Pretty blooms on long stems are ideal for cutting. Easy to grow and pest free. Perfect for grouping in the garden or to use alone in a mixed perennial deck container.

Geum 'Totally Tangerine'

Avens; Grecian Rose

Full sun

Bright apricot to tangerine orange

12"-30" tall

Rich, moist, well-drained soil.

4 to 7

LSP-MSU

18" wide

Sprays of large unique bright apricot to tangerine orange single to semi-double blooms atop attractive mounds of fuzzy, deep green cut foliage. If you like the bright, cheerful displays of color that many geum cultivars deliver in spring, but wish they would bloom into the summer months, this one is for you- it has an extra long flowering period from late spring into mid summer! An incredible performer in the landscape with its robust habit and floriferousness. Very tall, strong stems carry loads of totally sterile flowers. Once established in the landscape, it has shown good tolerance to drought. Attracts butterflies to the garden and is deer and rabbit resistant. A great cutflower. Syn. 'Tim's Tangerine'.

Glechoma Variegata

Creeping Charlie; Ground Ivy

Full sun to Full shade

Purple

3"-6" tall

Moist soil.

5 to 11

SU

1' wide

Ground cover

Foot traffic- Light foot traffic (1 or 2 times a week)

Dense creeper has mint green leaves with scalloped white edges; small purple flower spikes; great in containers and hanging baskets, as well as a ground cover; semi-evergreen; withstands foot traffic; very fast growing; can be slightly invasive.

Perennial Flower/Foliage

Gypsophila fastigiata 'Silverstar'	Baby's Breath	Full sun	Pure white	8" tall
Lean, well-drained soil.		5 or 6	SU	1' wide
				Deer Resistant

Neat mounds of linear green foliage is topped with upright panicles of small, single white flowers. Must have very well-drained soil, particularly during the winter.

Gypsophila repens 'Rosea'	Baby's Breath	Full sun	Pale pink	4"-8" tall
Lean, well-drained soil.		3 to 9	ESU-EF	6" wide
Ground cover				Deer Resistant

Clusters of delicate pink flowers smother the gray-green foliage; trailing ground cover.

Heliopsis helianthoides 'Double Sunstruck'	Ox Eye; False Sunflower	Part to full sun	Golden Yellow	14" to 16" tall
NEW Moist, moderately rich soil.		4 to 9	SU to F	12" to 14" wide

Variegated Heliopsis have long been popular in the perennial landscape, and 'Sunstruck' fills the spaces at a much shorter height. 2" large, golden yellow flowers appear above the cream and green variegated foliage even 2 weeks earlier than typical Heliopsis, and blooms all through summer until fall. Compared to 'Loraine Sunshine', 'Sunstruck' is more compact, has more ray florets and a deeper flower color. This is the perfect height for smaller spaces in the garden or for combination containers.

Heliopsis helianthoides var. scabra 'Burning Hearts'	Ox Eye; False Sunflower	Part to full sun	Yellow and Red	48" tall
Moist, moderately rich soil.		3 to 8	MSU to LSU	18" to 24" wide

Attracts Butterflies

Rabbit Resistant

Deer Resistant

This sunflower is an outstanding new native plant cultivar with large yellow and red daisy-like flowers in mid to late summer. Developed by a Jelitto Seeds in Germany this large-growing perennial is recommended for attracting butterflies and other pollinators to its numerous nectar-rich flowers. Extremely cold hardy, With its vivid red-eyed and golden bi-colored flowers, dark purple leaves, and sturdy habit, this variety is a must have for gardens everywhere.

Helleborus 'Berry Swirl'	Hellebore	Full shade	Orchid shades	12"-14" tall
Rich, moist, well-drained soil with lots of organic matter.		5 to 8	ESP-LSP	2' wide

Deer Resistant

Part of the 'Winter Thrillers' series of Hellebores, this gorgeous winter bloomer is sure to thrill you with its double flowers with row after row of lush orchid petals. Each bloom is different from the last, with petals varying from a creamy white to a saturated pink, and all uniquely painted with darker veins or darker picotee edges. Helleborus are native to woodlands and therefore prefer dappled shade and deep, well-draining, humus-rich soil. To get the maximum impact from the flowers, trim the old leaves down to the ground in late winter, before the flower buds start to emerge.

Helleborus 'Golden Lotus'	Hellebore	Full shade	Golden yellow	12"-14" tall
Rich, moist, well-drained soil with lots of organic matter.		5 to 8	ESP-LSP	2' wide

A nearly golden glow emanates from these charming lotus-like flowers. The flowers are 3" to 3 1/2" wide! Double yellows are amongst the rarest of Hellebores and this is a dazzling selection! Helleborus are native to woodlands and therefore prefer dappled shade and deep, well-draining, humus-rich soil. To get the maximum impact from the flowers, trim the old leaves down to the ground in late winter, before the flower buds start to emerge.

Helleborus 'Peppermint Ice'	Hellebore	Full shade	Pink with peppermint veining	18" to 20" tall
Rich, moist, well-drained soil with lots of organic matter.		4 to 9	ESP	24" wide

Eye candy for perennial lovers! 'Peppermint Ice' is an exceptionally beautiful, double pink picotee hellebore. The very large 3 inch+, lotus-like, cup-shaped blossoms are a soft to a medium pink with varying degrees of peppermint veining and a picotee edge. Like 'Onyx Odyssey' this variety also retains its color and petals after the flowers have set seed, extending the interest well beyond the initial bloom. Like most hellebores, this one has downward facing flowers but also has colorful red-veined backs. It exhibits exceptional vigor. This one is the total package!

Perennial Flower/Foliage

Helleborus 'Windcliff Slaty Blue'	Hellebore	Full shade	Slate blue	15"-18" tall
Rich, moist, well-drained soil with lots of organic matter.		4 to 9	LW-ESP	2' wide

A choice form of this winter favorite, offering rare and unusual slate-blue colored flowers on tall, robust stems. Grown from seed collected from Dan Hinkley's Windcliff garden, this adaptable and hardy, deer proof perennial is well-suited for the woodland garden or dappled shade borders.

Helleborus 'Winter Jewels Black Diamond'	Hellebore	Full shade	Near-black	15" to 18" tall
Rich, moist, well-drained soil with lots of organic matter.		4 to 9	ESP	18" to 22" wide

Like a diamond in the rough, this hellebore shines in the early spring with its dramatic slate purple to near-black, single blossoms measuring about 2" to 2 1/2" across. After setting seed, the petals turn a unique shade of slate green, continuing the interest long after the plants have finished blooming. The flowers are downward facing like most hellebores. The foliage is purple when it emerges in early spring before it matures into a lovely shade of green.

Helleborus 'Winter Jewels Cherry Blossom'	Hellebore	Full shade	Rich pink and cherry red	18"-22" tall
Rich, moist, well-drained soil with lots of organic matter.		4 to 9	LW-ESP	2' wide

Large, semi-double blooms of rich pink with deep, cherry red centers nearly glow against neat clumps of deer resistant, evergreen foliage. This extremely vigorous strain is the result of over 15 years of hand breeding and selection. A perfect addition to shady beds and borders.

Helleborus 'Winter Jewels Double Slate'	Hellebore	Full shade	Nearly black	15"-18" tall
Rich, moist, well-drained soil with lots of organic matter.		4 to 9	LW-ESP	18"-22" wide

Nearly black double blooms with a tinge of burgundy, are highlighted by vigorous clumps of light green foliage. Perfect for naturalizing in woodland areas and in shady borders.

Hemerocallis, Apricot/Orange 'Apricot Sparkles'	Daylily	Full sun	Deep apricot	15" tall
Well-drained soil.		3 to 9	ESU-F	15"-18" wide
		Attracts Butterflies	Attracts Hummingbirds	Rabbit Resistant

4" deep apricot blooms have a diamond dusted appearance; blooms from June to frost; part of the "Happy Ever Appster" long blooming collection of daylilies hybridized by Darrell Apps.

Hemerocallis, Apricot/Orange 'Blaze of Glory'	Daylily	Part to full sun	Orange	24" tall
Well-drained soil.		3 to 9	ESU-MSU	16" wide
				Rabbit Resistant

This new daylily is a early to midseason bloomer. Produces giant 6", brilliant orange, fragrant flowers with crinkly ruffles that are outlined in a dark purple picotee edge and center. It is a tetraploid, extremely drought tolerant, and an excellent bloomer.

Hemerocallis, Apricot/Orange 'Desert Flame'	Daylily	Part to full sun	Flaming red-orange	3' tall
Well-drained soil.		3 to 9	ESU & LSU	18"-24" wide
		Attracts Butterflies	Attracts Hummingbirds	Rabbit Resistant

It's easy to see why the American Hemerocallis Society honored this daylily with an award: the blooms are HUGE (5 1/2"), brilliantly colored (in flaming red-orange), and appear twice a year on vigorous plants that go totally dormant in winter. Make room for this one in your sunny border, foundation, or driveway garden! It's a tetraploid, meaning it has twice the chromosomes of traditional (diploid) daylilies. This is significant for several reasons. First, it gives the plants greater vigor, resulting in larger, brighter, more substantial blooms that repeat in late summer after a heavy early summer flush. Second, it increases the growth potential of the plant, helping it stand up to adversity and send out new flowering stems quicker than older varieties. Third, it takes off more quickly in spring and then goes totally dormant in winter, making maintenance a breeze. The first flush of bloom in early summer is the heaviest, and then the plant rests during the hottest weeks of midsummer. The second blooming flush occurs in late season, when little else in the perennial garden is looking its best.

Perennial Flower/Foliage

Hemerocallis, Apricot/Orange 'Early Bird Oriole'

Daylily	Part to full sun	Pumpkin Orange	20" tall
Well-drained soil.	3 to 9	ESU-LSU	18" to 24" wide

Joining the popular EARLYBIRD CARDINAL, EARLYBIRD ORIOLE brings a new color to the early blooming series. 5" ruffled pumpkin orange blossoms has a deeper orange eye zone that highlights the yellow throat. The petals have attractive ruffling that show off its rounded petals and unique coloration. Reblooms multiple times!

Hemerocallis, Apricot/Orange 'Orange Smoothie' (Rainbow Rhythm series)

Daylily	Part to full sun	Orange Mango	24" tall
Well-drained soil.	3 to 9	ESU-EF	18" to 24" wide

From the same hybridizer who brought you the popular reblooming daylily 'Going Bananas' comes this brand new introduction that is sure to please. 4" wide, orange mango petals with a light rose band, pink mid-rib, and green throat. The flower scapes have well-branched, 4-way scapes and upward near 32 buds per scape, packing quite a punch with its flower performance. The diamond dusting will dazzle you as it sparkles in direct sun. Flowers are cookie-cutter consistent in form and color and has excellent rebloom. "Orange Smoothie" combines well with pastel and bold colors alike, making it a great choice for landscape designers. Plant en masse for a truly stunning display.

Hemerocallis, Apricot/Orange 'Primal Scream'

Daylily	Part to full sun	Hot tangerine orange	34"-36" tall
Well-drained soil.	3 to 9	MSU	18"-24" wide
	Attracts Butterflies	Attracts Hummingbirds	Rabbit Resistant

Nothing comes close to this spectacular award winner! Enormous, 8" wide, glimmering, hot tangerine orange, gold dusted blooms have narrow, twisted, recurved petals that are loosely ruffled on their edges. These gigantic blooms are presented in mid summer on tall, graceful, willowy scapes above the arching, attractive foliage. Steals the show when in bloom! Tetraploid.

Hemerocallis, Apricot/Orange 'When My Sweetheart Returns'

Daylily	Part to full sun	Peachy yellow and rose-pink	14"-16" tall
Well-drained soil.	3 to 9	MSU-EF	18"-23" wide
	Attracts Butterflies	Attracts Hummingbirds	Rabbit Resistant

An outstanding selection bred by Dr. Darrel Apps of 'Stella de Oro' fame! One of only a handful of truly everblooming daylilies, this little charmer blooms non-stop for about 3 1/2 months straight, beginning in early July. Also an extended bloomer- blooms are open at least 16 hours a day! Each 4" wide, soft peachy yellow blossom with a large rose-pink eye, lemon throat, and romantically ruffled petals is of perfect form. You'll be impressed with how quickly this daylily bulks up and, unlike most daylilies that produce a single flower scape per fan, this one often produces several scapes per fan, making it extremely floriferous in the landscape!

Hemerocallis, Pink/Lavender 'Bette Davis Eyes'

Daylily	Full sun	Light lavender	23" tall
Well-drained soil.	3 to 9	ESU	18"-24" wide
	Attracts Butterflies	Attracts Hummingbirds	Rabbit Resistant

Fragrant 5¼" light lavender flowers with a purple eyezone and greenish yellow throat; award winner; extended bloom.

Hemerocallis, Pink/Lavender 'Passionate Returns'

Daylily	Part to full sun	Rosy red	17" tall
Well-drained soil.	3 to 9	MSU-EF	18"-24" wide
	Attracts Butterflies	Attracts Hummingbirds	Rabbit Resistant

From renowned daylily breeder Dr. Darrel Apps comes what he considers his best overall quality rebloomer to date! An everblooming daylily, it blooms for about 3 1/2 months, beginning in early July! An extended bloomer- blooms are open for at least 16 hours a day! 4" wide, rosy red, ruffled flowers have brightly contrasting lemony green throats and perfect form. The flowers are held just at the top of the foliage, with multiple branched scapes and lots of buds to make it extremely floriferous in the landscape. Its short stature and continuous flower show makes this the perfect daylily for growing at the front of the border and in containers.

Perennial Flower/Foliage

Hemerocallis, Pink/Lavender 'Rosy Returns'

Daylily	Full sun	Rose-pink	14"-20" tall
Well-drained soil.	3 to 9	ESU-F	18"-30" wide

Prairie Bloom

Attracts Butterflies Attracts Hummingbirds Rabbit Resistant

4" rose pink flowers with a deep rose eyezone and cheery yellow throat; blooms from June to frost; part of the "Happy Ever Appster" long blooming collection of daylilies hybridized by Darrell Apps.

Hemerocallis, Purple/Black 'Just Plum Happy'

Daylily	Full sun	Rose-pink and purple	10"-16" tall
Well-drained soil.	3 to 9	ESU-F	12"-18" wide

Prairie Bloom

Attracts Butterflies Attracts Hummingbirds Rabbit Resistant

The 6"+ blooms are rose-pink with a wide purple eyezone. Broad, deep green foliage on short plants. A great rebloomer that is in flower til frost!

Hemerocallis, Purple/Black 'Midnight Raider'

Daylily	Part to full sun	Deep reddish purple	20" tall
Well-drained soil.	3 to 9	MSU	18"-24" wide

Attracts Butterflies Attracts Hummingbirds Rabbit Resistant

Very thick, exceptionally heavily budded scapes support the large, deep reddish purple flowers with a prominent, bright citron yellow halo and green throat. The very fragrant blossoms shimmer with diamond dusting and have slightly recurved deeply ruffled petals. This outstanding daylily blooms first in midseason and then again later in the season!

Hemerocallis, Purple/Black 'Nosferatu'

Daylily	Part to full sun	Dark purple	26" tall
Well-drained soil.	3 to 9	MSU	18"-24" wide

Attracts Butterflies Attracts Hummingbirds Rabbit Resistant

Similar to the highly regarded H. 'Bela Lugosi', this variety offers a shorter height, fragrant blossoms, and more prominent veining in the oval shaped petals. Large, 6" wide, shimmering dark purple, very sunfast flowers with a chartreuse throat and picrust ruffled petals are produced in mid summer. A high bud count on well-branched scapes ensures many weeks of bloom!

Hemerocallis, Purple/Black 'Storm Shelter' (Rainbow Rhythm series)

Daylily	Part to full sun	Mauve	24" tall
NEW Well-drained soil.	3 to 9	MSU-EF	18" to 24" wide

Walter's Gardens is excited to offer us one of their favorite daylilies. This stunning, high quality, tetraploid produces 5" wide, mauve colored blossoms with an enormous deep eggplant purple eye that extends to nearly the edge of the petals. Picrust edges have a wide picotee margin that matches the eggplant color of the eye zone. The flower boast heavy substance that stands up to adverse weather. Rounded petals and flower form complete the package. The rich color saturation of the flower make this daylily a can't miss!

Hemerocallis, Red 'Earlybird Cardinal'

Daylily	Part to full sun	Watermelon red	21" tall
Well-drained soil.	4 to 9	ESU-LSU	12"-18" wide

Attracts Butterflies Attracts Hummingbirds Rabbit Resistant

Dr. Darrel Apps has developed the first red, very early blooming, hardy daylily! Begins blooming several weeks earlier than most daylilies. Plants can rebloom up to 4 times per year, showing nearly 90 days of color in zone 6. 4" wide, watermelon red flowers with a pie crust edge and chartreuse throat. Often produces 6 or more fans per season, and it tends to produce more than one flower scape per fan, so the plants quickly grow to form a highly floriferous, robust clump. Reblooms.

Hemerocallis, Red 'Frankly Scarlet'

Daylily	Part to full sun	Scarlet	2' tall
Well-drained soil.	3 to 9	ESU-MSU	18"-24" wide

Attracts Butterflies Attracts Hummingbirds Rabbit Resistant

4" scarlet blooms that shine in the heat, actually building color intensity throughout the afternoon. Excellent dark green foliage and a very good rebloomer. Reblooms.

Well-drained soil.		3 to 9	MSU-EF	20"-24" wide
		Attracts Butterflies	Attracts Hummingbirds	Rabbit Resistant
Another member of the "Happy Ever Apster" Daylily series of reblooming daylilies. The crinkled edges of its gleaming yellow petals are speckled wine-red, as is the eyezone! Deep inside the 5" wide flowers, there's a green throat!				

Hemerocallis, Yellow 'Moonlit Caress'	Daylily	Full sun	Yellow to white	26" tall
Well-drained soil.		3 to 9	MSU	18"-24" wide
		Attracts Butterflies	Attracts Hummingbirds	Rabbit Resistant
5½" near-white flowers with ruffled yellow edges and a green throat; tetraploid.				

Hemerocallis, Yellow 'Stella de Oro'	Daylily	Full sun	Bright golden	16"-18" tall
Well-drained soil.		3 to 9	ESU-F	18"-24" wide
		Attracts Butterflies	Attracts Hummingbirds	Rabbit Resistant
2¾" bright golden fragrant flowers; great for edging flower beds; extended and rebloomer; Prairie Bloom Award Winner.				

Hemerocallis, Yellow 'Stella Supreme'	Daylily	Part to full sun	Lemon yellow	12"-14" tall
Well-drained soil.		3 to 9	ESU-EF	12"-18" wide
		Attracts Butterflies	Attracts Hummingbirds	Rabbit Resistant
Similar in blooming behavior as the ever-popular 'Stella de Oro', but differs in terms of flower color and shape. Triangular-shaped lemon yellow flowers have an enticing citrus aroma. The 3" wide blooms have six showy petals and a pale green throat and are held on branched clusters of sturdy stems above the foliage.				

Hesperaloe parviflora	Red Yucca	Full sun	Red and yellow	3'-6' tall
Well-drained soil.		6	SP-ESU	3'-4' wide
Tall spikes hold dark red pendant flowers with golden interiors; thick gray-green narrow foliage with unique peeling fibrous margins; great for a rock garden and in containers; grows great in hot, dry areas.				

Hesperis matronalis 'Violet'	Dame's Rocket; Sweet Rocket	Part to full sun	Lavender-violet	2'-3' tall
Consistently moist, well-drained soil.		4	LSP-MSU	1' wide
Showy, sweetly scented flowers brighten the late spring garden.				

Heuchera 'Bella Notte'	Coral Bells; Alum Root	Part to full shade	Rose to light pink	9"/12" tall
Moist, well-drained soil.		4 to 9	ESU-MF	15" wide
		Attracts Butterflies	Attracts Hummingbirds	Deer Resistant
Terra Nova Nurseries (the breeder) believes that this is the most elegant Heuchera they have ever introduced (and they've introduced bunches of them!)! Very lush, dark, velvety maroon foliage with silvery hues. Has all of the heat tolerant attributes possessed by 'Obsidian' (one of its parents). Very show rose to light pink flowers above the foliage. Good winter foliage color. H. micrantha x H. villosa x H. sanguinea.				

Heuchera 'Cajun Fire'	Coral Bells; Alum Root	Part to full shade	White	9"/18" tall
Moist, well-drained soil.		5 to 8	LSP-EF	14" wide
		Attracts Butterflies	Attracts Hummingbirds	Deer Resistant
Burning like a Cajun fire, this plant changes color with the seasons: red in spring, black in summer, maroon in fall. White flowers are held on dark stems. Blooms in flushes from late spring to early fall. A cross of H. villosa, H. micrantha, and H. sanguinea.				

Perennial Flower/Foliage

Heuchera 'Delta Dawn'

Coral Bells; Alum Root

Part to full shade

White

8"/14" tall

Moist, well-drained soil.

5 to 8

ESU-LSU

1' wide

Attracts Butterflies

Attracts Hummingbirds

Deer Resistant

Large, round, gorgeous gold to lime leaves with red centers in spring and fall. The red veins are prominent in summer, and are so exciting against the gold to lime leaves! Strong, vigorous habit. A cross of H. villosa, H. americana, and H. sanguinea.

Heuchera 'Fire Alarm'

Coral Bells; Alum Root

Part to full shade

Light pink

9"/13" tall

Moist, well-drained soil.

4 to 9

ESU-LSU

A knockout in the garden with ultra-purple, glossy leaves with fluted edges and great vigor! Very short spikes of purple-pink flowers in the summer, and four seasons of purple foliage! A real show-stopper! Destined to become the new standard of purple foliated perennials!

Heuchera 'Forever Red'

Coral Bells; Alum Root

Part to full shade

White

7" tall

NEW Moist, well-drained soil.

4 to 9

MSU

14" wide

This lovely, fast growing Heuchera has the reddest leaves ever, a great crown, and it is a vigorous grower. The leaves are cut at somewhat ruffled and reddest in the spring and fall when the temperatures are cooler. Compared to 'Fire Alarm' it is redder with smaller, more ruffled leaves and more crowns. Compared to 'Fire Chief', it is redder, a bigger plant, with more crowns, and leaves more ruffled. The 14" spikes with white flowers in mid summer compliments and contrast with the foliage.

Heuchera 'Glitter'

Coral Bells; Alum Root

Part to full shade

Exotic fuchsia pink

10"/15" tall

Moist, well-drained soil.

Striking, white-veiled green leaves on plants that give rise to continuous columns of large, deep rose flowers. Repeat blooms until frost, with each bloom stem lasting for 2 months! Excellent in containers or the shade border.

Heuchera 'Primo Black Pearl'

Coral Bells; Alum Root

Part to full shade

White

8" to 10" tall

Moist, well-drained soil.

4 to 9

MSU

18" to 20" wide

Meet the new in the black Heuchera. 'Black Pearl' forms an incredibly dense habit of shiny, jet black leaves with scalloped, ruffled edges. Each 4" to 4.5" leaf has rosy purple undersides, revealed with intense ruffling of the leaves. Oldest leaves have a slight silver overlay. To top it off, 'Black Pearl' keeps its intense black color even in part sun, instead of bleach to brown. White flowers with pink calyxes appear in midsummer. The New PRIMO Collection of Heuchera expands on the 'Dolce' Heuchera for bigger, better landscape plants. This plant is a Heuchera villosa hybrid. The villosa species is a large, late blooming type that exhibits an increased tolerance of high heat and humidity over other species. Most produce cream flowers in midsummer, though they are grown more for their fantastic foliage. H. villosa is native to the southeastern United States.

Heuchera 'Primo Wild Rose'

Coral Bells; Alum Root

Part to full shade

Rose Pink

8" to 10" tall

NEW Moist, well-drained soil.

4 to 9

MSU

18" to 20" wide

This easily distinguishable Heuchera stands out with its large leaves and bright, uniquely colored foliage. 'Wild Rose' forms a dense habit of large, bright rosy purple leaves with deep charcoal gray veining. The prominent dark veining really causes the foliage color pop, making it a great choice for shade. This is the perfect companion plant to the dark-leaved 'Black Pearl'. Upright, dark burgundy rose flower scapes have matching dark buds that open to a rosy pink flowers.

Heuchera 'Ruffles N Truffles'

Coral Bells; Alum Root

With short spikes of red blooms popping out from lime green leaves, it provides a tremendous summer accent in the shade garden! It blooms from mid summer to mid fall, filling a gap in borders and mixed beds, and serving well as an accent or in a container! Due to its americana and villosa parentage, it is tolerant of heat, humidity, and drought, and it maintains its color in winter with white creeping into the leaves, accenting the green veins.

Perennial Flower/Foliage

Heuchera 'Zipper'	Coral Bells; Alum Root	Part to full shade	White	8"/18" tall
Moist, well-drained soil.		4 to 9	SU-F	12" wide
		Attracts Butterflies	Attracts Hummingbirds	Deer Resistant
Brightly colored, seriously ruffled leaves! Its leaves are well-colored all year, and change from orange in spring and fall, and amber in summer and winter always with magnet backs showing. Bred with villosa parentage, which has given larger leaf size, better heat and humidity tolerance, as well as good cold tolerance.				

Heucherella 'Autumn Cascade'	Foamy Bells	Part to full shade	White	4" tall foliage, 14" tall flowers
Moist, well-drained soil.		4 to 9	ESU-MSU	3' wide
		Attracts Butterflies	Attracts Hummingbirds	Deer Resistant
Appealing on so many levels! Soft shades of brick red to light sage green, the shapely leaves have deep lobing, a wonderful trailing habit, and excellent vigor. A perfect choice for hanging baskets, mixed containers, or as a ground cover. White blooms on stems above the foliage in early to mid summer.				

Heucherella 'Onyx'	Foamy Bells	Part to full shade	White	10" tall, with bloom 15" tall
NEW Moist, well-drained soil.		4 to 9	ESU-MSU	16" wide
True black, glossy, deeply cut leaves on a dense medium size mound makes this a great landscape plant. Terra Nova Nurseries has been working for years to get a good black Heucherella - this is it! Loves heat and humidity! Shy to bloom - always stays neat and clean. Great foliage for mixed containers.				

Heucherella 'Plum Cascade'	Foamy Bells	Part to full shade	Light Pink	9" with bloom 12" tall
Moist, well-drained soil.		4 to 10	LSP to LSU	32" wide
		Ground cover		
The first purple Heucherella, and it's trailing! 'Plum Cascade' has lobed, purple silver leaves. Small, light pink flowers appear all summer on short stems, blooms from May to October. Very elegant with excellent vigor. Will make an excellent groundcover in shady locations, or can be used in mixed containers.				

Heucherella 'Redstone Falls'	Foamy Bells	Part to full shade	White	10"-15" tall
Moist, well-drained soil.		4 to 9	ESU-EF	3' wide
		Attracts Butterflies	Attracts Hummingbirds	Deer Resistant
The first groundcover/trailing Heucherella, sending out 12"+ long stems and spreading low to the ground. Unique in hanging baskets or containers as a Sweet Potato Vine substitute, with its colorful leaves with their lobed edges and dark patterns! In baskets and containers, it can spill down a 3' or more! As a groundcover, it will root at every leaf internode, feeding the crown of the plant and keeping a full, clean look. Broad, coppery colored leaves with dark veins in the spring and summer, changing to a multitude of reds and browns in fall and winter. Wonderful spilling out of containers and hanging baskets, or used in flower beds. Heuchera villosa bloodlines enhance its heat tolerance. Vigorous grower!				

Heucherella 'Sunrise Falls'	Foamy Bells	Part to full shade	White	7"/13" tall
Moist, well-drained soil.		4 to 9	MSP-MF	30" wide
		Attracts Butterflies	Attracts Hummingbirds	Deer Resistant
A vigorous, trailing Heucherella with large, yellow, maple-shaped leaves and red veins. The leaves take on dramatic red tints in the fall. The stems will trail 3' in a container, making a wonderful hanging basket or super ground cover! Has Heuchera villosa and Heuchera americana parentage.				

Heucherella 'Sweet Tea'	Foamy Bells	Part to full shade	Creamy white	20"-27" tall
Moist, well-drained soil.		4 to 9	ESU-MSU	28" wide
		Attracts Butterflies	Attracts Hummingbirds	Deer Resistant
Huge cinnamon stars in the center of the leaf are surrounded by the loveliest orange tea colored borders! Undeniably the most intensely colored Heucherella ever! The big palmately cut leaves darken in the summer and lighten up again in the fall. Spikes of creamy white flowers. Its Heuchera villosa breeding gives it a big, bold habit.				

Perennial Flower/Foliage

Hibiscus 'Cherry Cheesecake'

Hardy Hibiscus; Rose Mallow

Full sun

White, magenta, and cherry

4'-5' tall

Rich, moist soil.

4 to 9

LSU-EF

5'-6' wide

Attracts Hummingbirds

Deer Resistant

Another gorgeous addition to the popular Summerific Hibiscus series! Compact, well-branched, heavily budded plants form attractive, shrub-like clumps of thick, leathery, maple-like, dark green leaves. We're not sure which are prettier- the creamy pink, magenta kissed flower buds or the white flowers with magenta tipped petals and magenta veining radiating out from the cherry red eye! Huge, 7"-8" wide flowers have thick, heavily overlapping petals with a ruffled, rumpled texture that helps them hold up better in the summer wind than older selections with thin petals. 'Cherry Cheesecake' is the perfect backdrop or centerpiece for sunny borders. It will be the star of the show from late summer into early fall!

Hibiscus 'Lord Baltimore'

Hardy Hibiscus; Rose Mallow

This outstanding selection has the largest flowers ever seen on a hardy hibiscus- they open flat to 12" wide! The medium pink blooms have overlapping petals and a deep red eye.

Hibiscus 'Summer in Paradise'

Hardy Hibiscus; Rose Mallow

Full sun

Deep Red

3' to 3.5' tall

Rich, moist soil.

4 to 9

LSU

3.5' to 4' wide

There's no sight quite like a Hardy Hibiscus blooming in late summer, and Summer in Paradise' truly delivers and its refined habit and attractive. Large flowers and floriferous performance. Deep red buds open to 7" to 8" hot cerise red flowers. Medium green, maple-like leaves are accented by olive green edges. The large leaves quickly fill the habit to keep it appearing full and refined. Flowers are produced from the top to the bottom of the plant, rather than only at the top like some older cultivars. Use in place of a shrub in your garden.

Hibiscus 'Summerific Perfect Storm'

Hardy Hibiscus; Rose Mallow

Full sun

White and pink

3' tall

Rich, moist soil.

5 to 9

MSU-F

4'-5' wide

This one will steal the show in your garden with its fabulous black-purple foliage and unique flowers. In addition to the fantastic dark foliage, the huge 8" wide flowers are equally spectacular- the flowers have large overlapping white petals with a deep magenta eye that radiates out through the veins of the petals and the petals are edged in bubblegum pink! It is a profuse bloomer, generating flowers up and down the stems which means you'll enjoy hundreds of these exotic flowers from mid summer til frost! Its scaled down habit makes this beauty perfect for smaller spaces!

Perennial Flower/Foliage

Hibiscus 'Tie Dye'

Hardy Hibiscus; Rose Mallow

Full sun

Bright pink and white

4'-5' tall

Rich, moist soil.

4 to 9

MSU-LSU

5' wide

Attracts Hummingbirds

Deer Resistant

An improved bicolor selection with huge 8"-10" wide flowers and healthy green, maple-like foliage on branched stems. Showy, ruffled, bright pink and white pinwheel flowers with a cherry red eye. Indeterminate bloomer, meaning it produces flower buds at many leaf nodes up the stems, rather than just at the tips of the stems. The result is a much longer season of bloom and flowers that cover all sides of the plant, rather than just at the top. Very long flowering selection.

Hibiscus 'Vintage Wine'

Hardy Hibiscus; Rose Mallow

Full sun

Scarlet-red

4' tall

Rich, moist soil.

4 to 9

MSU-EF

5' wide

We've come a long way from the tall, open habits of older Hibiscus. Near-black buds open to huge 7" wide, scarlet-red flowers that shimmer in the sun with a darker red eye. The overlapping petals have a crinkled texture and open completely with minimal cupping. From mid summer to early fall, flowers are produced from the top to the bottom of the plant, rather than only at the top like some older cultivars. Dark green, heart-shaped leaves form a densely upright, columnar clump. It differs from 'Cranberry Crush' with the shape of its leaves, the tone of flower color (a warmer red) and the density of its plant habit.

Hosta 'Abiqua Drinking Gourd'

Plantain Lily

Part to full shade

White

16" foliage/22" flower tall

Rich, moist, well-drained soil.

3 to 9

ESU

2'-3' wide

Rabbit Resistant

Dark blue-green seersucker leaves, with heavy substance, display a unique deeply cupped form. In early summer, the clumps are topped with white flowers. Demonstrates good slug resistance. In a garden, few hostas will evoke more favorable comments! The 2014 Hosta of the Year!

Hosta 'Big Daddy'

Plantain Lily

Full shade

Near white

24"-30" tall

Rich, moist, well-drained soil.

4

ESU-MSU

36"-49" wide

Rabbit Resistant

Chalky blue-green leaves are rounded, cupped, and puckered at maturity. The thick leaves grow to 15" long by 10" wide. Has a compact, yet large growth habit. One of the best big blue leaves H. sieboldiana-type cultivars. Near white flowers open on 30" tall scapes. Makes an imposing background plant.

Hosta 'Blazing Saddles'

Plantain Lily

Part to full shade

Medium lavender

2' tall

Rich, moist, well-drained soil.

3 to 9

MSU

42" wide

Rabbit Resistant

The beautiful, bold hosta is a seedling from H. 'Blue Umbrellas'. The over 3' wide clump is comprised of large, oblong green leaves with a nice, wide creamy white edge. Medium lavender flowers top the foliage in mid summer. A great combination of vigor and unusual leaf shape.

Hosta 'Blue Angel'

Plantain Lily

Full shade

White

3'-4' tall

Rich, moist, well-drained soil.

3 to 9

ESU

3'-4' wide

Hosta 'Blue Ivory'

Plantain Lily

Full shade

Lavender

16"-24" tall

Rich, moist, well-drained soil.

3 to 9

MSU

30" wide

Rabbit Resistant

This H. 'Halcyon' sport has wide, creamy white margins and a blue center in the spring. The margins brighten to white and may develop a unique green blush while the center turns blue-green in the summer. Lavender flowers in midsummer.

Hosta 'Brother Stefan'

Plantain Lily

Full shade

Near white

20"-24" tall

Rich, moist, well-drained soil.

3 to 9

LSP-ESU

3' wide

A favorite of hosta enthusiasts! Forms a large clump of thick, heavily corrugated and puckered leaves. The spring leaves are chartreuse with a blue margin. In spring, the margin may have a waxy coating, making it appear more blue and the center may be more chartreuse. Mature leaves are gold with a green margin. Near white flowers appear on 2' scapes atop the thick, slug-resistant leaves. Forms a wide, tall clump, making it the perfect focal point for the shade garden. Spectacular! The 2017 Hosta of the Year!

Hosta 'Coast to Coast'

Plantain Lily

Full shade

Pale violet

30" foliage/36" flowers tall

Rich, moist, well-drained soil.

3 to 9

MSU

3' wide

Rabbit Resistant

This giant, solid gold hosta makes a striking specimen! Foliage emerges chartreuse-yellow, then turns lighter gold in summer. Thick, puckered, wavy leaves form an upright vase-shaped clump. Pale violet flowers appear just above the foliage on proportionate scapes.

Hosta 'Curly Fries'

Plantain Lily

Part shade

Lavender

6" tall

Rich, moist, well-drained soil.

3 to 9

MSU

16" wide

Rabbit Resistant

Want fries with your order? This irresistible miniature to small hosta is the perfect accompaniment to a bright blue hosta like 'Prairie Sky', especially when planted together in containers, or near the front of the border. Forms an arching, wiggly clump of extremely rippled, narrow leaves. Position this hosta where it will receive morning sun, and its chartreuse foliage will be brightest there. Mature plants will develop red speckled petioles. Lavender blooms in midsummer. 2016 Hosta of the Year!

Hosta 'Dancing Queen'

Plantain Lily

Full shade

Pale lavender

18"-28" tall

Rich, moist, well-drained soil.

3 to 9

MSU-LSU

30" wide

Rabbit Resistant

This attractive selection features broad, wedge-shaped leaves of a bright yellow with a wonderful rippled, piecrust edge. A unique improvement on other yellow hostas that emerge or turn chartreuse. Pale lavender flowers top the vigorous clump.

Hosta 'Dream Queen'

Plantain Lily

Full shade

White

18" tall

Rich, moist, well-drained soil.

3 to 9

MSP

24" wide

This is a sport of Great Expectations. This vigorous hosta has graceful heart shaped leaves with wide sea-green margins with a yellow to cream center; provides beautiful texture and contrast to other plants. The leaves remain bluish-green in color with showy buttery yellow variegation and tinges of creamy white throughout the season. Lovely tubular, white flowers in midsummer, on 26" scapes.

Hosta 'Empress Wu'

Plantain Lily

Part to full shade

Pale reddish violet to lavender

3'-4' foliage/5' flowers tall

Rich, moist, well-drained soil.

3 to 8

ESU-MSU

5'-6' wide

Rabbit Resistant

Proclaimed to be the world's largest hosta! This impressive giant hosta was named in honor of the only lady Emperor of China. Makes a tremendous focal point! Huge, thick, dark green, deeply veined leaves to 18" wide, form a massive upright clump. Pale reddish violet to lavender flowers appear on 5' tall scapes in mid summer. With its sheer size and fast growth rate, it needs consistently moist (but not soggy) soil, and regular fertilization. Be patient, it will take it a few years to get up to its full size potential.

Perennial Flower/Foliage

Hosta 'First Frost'

Plantain Lily

Full shade

Light lavender

16"-28" tall

Rich, moist, well-drained soil.

4 to 8

MSU

3' wide

Rabbit Resistant

A marginally variegated sport of the popular H. 'Halcyon'. The leaf color starts out intense blue-green with a gold margin. The leaves mature to dark blue-green with a creamy white margin by midsummer. Light lavender flowers in midsummer. Due to its H. tardiana heritage, it should remain compact and increase in beauty throughout its life. This durable hosta received its name because it looks great until autumn's "first frost". 2010 Hosta of the Year!

Hosta 'Francee'

Plantain Lily

Full sun to Full shade

Lavender

20"-36" tall

Rich, moist, well-drained soil.

3 to 9

MSU

3' wide

Rabbit Resistant

Green heart-shaped leaves with narrow, clean white margins; variegation holds up very well in full sun, providing superb color contrast.

Hosta 'Guacamole'

Plantain Lily

Part to full shade

White

22"-36" tall

Rich, moist, well-drained soil.

3 to 9

LSU

3' wide

Rabbit Resistant

Large, shiny, rounded chartreuse leaves are margined by a wide green edge; large fragrant flowers; very rapid grower; good sun tolerance; 2002 Hosta of the Year!

Hosta 'Hudson Bay'

Plantain Lily

Full shade

Near white

2' tall foliage, 26" tall flowers

Rich, moist, well-drained soil.

3 to 9

ESU

2' wide

An improvement over its parent, 'Eskimo Pie', this new sport is a much showier, larger, stronger growing specimen. The wider, brighter blue margin and apple green jetting contrast nicely with the creamy white center all season long. The leaves are of heavy substance, exhibiting good slug resistance in the landscape. Forms a large mound of attractive foliage topped with near white flowers on white scapes in early summer.

Hosta 'Island Breeze'

Plantain Lily

Full shade

Purple

12" tall foliage, 28" tall flowers

Rich, moist, well-drained soil.

3 to 9

MSU

18" wide

A sport of 'Paradise Island', this Hosta features the same golden, variegated, subtly ridged foliage as its parent and adds a few improvements: stronger variegation, thicker leaf substance, and a faster growth rate. The leaves have a bold golden hue edged in deep green; they are eye-catching from across the garden, and make a nice ribbon of color through the border! The beautifully veined, cupped leaves arise profusely on symmetrical mounds. A brilliant choice for any shady spot- it will brighten up the shady border or woodland garden, it is small enough for the container, and the foliage is so phenomenal that it is even a great specimen or cutflower. In midsummer, small purple flowers arise on reddish scapes, adding another note of visual interest to the showy foliage.

Hosta 'Krossa Regal'

Plantain Lily

Full shade

Lavender

40"-60" tall

Rich, moist, well-drained soil.

3 to 9

SU

3' wide

Prairie Bloom

Part to full shade

Light Lavender

10" tall, with flowers 12" tall

NEW Rich, moist, well-drained soil.

3 to 8

MSU

20" wide

2019 AHGA Hosta of the Year! Cupped and rippled, heart-shaped, 7" leaves display a lovely green and cream feathered pattern. Makes a stunning and most unique clump, albeit a bit on the slow side. Very open shade or a few hours of morning sun for best results is recommended. Cream colored scapes bear light lavender flowers beginning in June.

Hosta 'Mango Tango'

Plantain Lily

Full shade

Lavender

20"-24" tall

Rich, moist, well-drained soil.

3 to 9

MSU

3' wide

Rabbit Resistant

An unusual selection featuring glossy, rounded leaves. Prominent shirring (leaf gathering) appears where the central creamy mango yellow blotch meets the wide glossy green edge. Choice!

Perennial Flower/Foliage

Hosta 'Mighty Mouse'	Plantain Lily	Full shade	Lavender	8" with bloom 12" tall
Rich, moist, well-drained soil.		3 to 9	ESU	12" wide

This small but mighty hosta is a variegated sport of the award winning Hosta 'Blue Mouse Ears'. In spring, the rounded leaves are blue-green with a bright creamy yellow margin. By summer, the leaves transition to grey-green with a creamy white margin. Incredible substance. Lavender flowers on perfectly proportioned scapes appear in early summer. This small hosta makes a perfect addition to through or other patio containers with a winter drainage.

Hosta 'Minuteman'	Plantain Lily	Full shade	Pale lavender	18"-24" tall
Rich, moist, well-drained soil.		3 to 9	ESU-MSU	30" wide

Rabbit Resistant

This sport of H. 'Francee' is a stunning selection! Dark green leaves with wide, near white margins. Pale lavender flowers.

Hosta 'Patriot'	Plantain Lily	Part to full shade	Lavender	22"-30" tall
Rich, moist, well-drained soil.		3 to 9	MSU	30" wide

Rabbit Resistant

Dark forest green centers with pure white margins; really stands out in a crowd of hosta; absolutely outstanding; 1997 Hosta of the Year!

Hosta 'Prairie Sky'	Plantain Lily	Part to full shade	Pale lavender	14" tall
Rich, moist, well-drained soil.		3 to 9	MSU-LSU	18"-24" wide

Rabbit Resistant

One of the bluest Hostas available! Forms a tight clump of powdery blue, lightly cupped leaves of thick substance. Retains its showy color all season long! Pale lavender flowers in mid to late summer. Try pairing this cool blue hosta with yellow leaved Heucheras for a splashy contrast!

Hosta 'Praying Hands'	Plantain Lily	Full shade	Lavender and purple	16" tall
Rich, moist, well-drained soil.		3 to 9	MSU-LSU	30" wide

Rabbit Resistant

The upright, narrow (7" long x 2" wide) leaves of 'Praying Hands' gives it an unusual look like no other hosta. Each green leaf is rolled and folded into a tube shape, displaying the prominent veins on the back of the leaf. A thin white margin borders the outside edge of the leaf. Narrow, funnel-shaped, lavender and purple flowers on 30" scapes. Outstanding as a container plant, which emphasizes its upright mound habit and narrow, wavy foliage. Certainly a collector's hosta and for anyone in search of something unusual! Fascinating! The American Hosta Grower's Hosta of the Year 2011!

Hosta 'Rainforest Sunrise'	Plantain Lily	Part to full shade	Light lavender	8"-10" foliage/18" flowers tall
Rich, moist, well-drained soil.		3 to 9	ESU	16" wide

Rabbit Resistant

This charming hosta has thick, radiant leaves. The leaves emerge light green, then quickly develop dark green margins and a radiant gold center. As they mature, the leaves become lightly cupped and heavily puckered. Pale lavender flowers top the clumps in early summer. The 2013 Hosta of the Year!

Hosta 'Raspberry Sundae'	Plantain Lily	Part to full shade	Purple	9" tall
NEW Rich, moist, well-drained soil.		3 to 8	MSU	23" wide

This hosta is a release from Terra Nova that has been a real gem in trails. It makes a clump of creamy white leaves edged in glossy green and adorned with burgundy petioles whose color extends into the central portion of the leaves. The clumps are topped with 2' tall burgundy scapes holding purple flowers in midsummer...truly breathtaking!

Perennial Flower/Foliage

Hosta 'Royal Standard'	Plantain Lily	Full sun to Full shade	White	20"-40" tall
Rich, moist, well-drained soil.		3 to 9	LSU	4' wide
Rabbit Resistant				

Rich green foliage; fragrant flowers; grows well in full sun; good drought tolerance in shady sites.

Hosta 'Royal Wedding'	Plantain Lily	Full shade	Snow white	12" tall foliage, 18"-20" tall flowers
Rich, moist, well-drained soil.		3 to 9	MSU	20" wide

This sport of 'Diana Remembered' adds a charming white margin to the large, deeply ruffled foliage. The effect is magnificent in midsummer when the white edging is mirrored by the snow white flowers that arise above the foliage. While most Hostas grow tiny, ornamentally insignificant flowers, 'Royal Wedding' boasts 3" to 4" wide blooms that are almost reminiscent of Magnolia blooms, and which are, fittingly, very fragrant! It is a brilliant choice for any shady spot- brightening up the woodland garden, adding perfume to a shady backyard, or even fitting in a patio pot! The foliage and flower alike are worthy specimens that fit well in cutflower arrangements!

Hosta 'Sum and Substance'	Plantain Lily	Part to full shade	Light lavender	2'-5' tall
Rich, moist, well-drained soil.		3 to 9	MSU	5' wide

Rabbit Resistant

Prairie Bloom

Huge chartreuse-green rounded leaves with very thick substance; good slug resistance; 2004 Hosta of the Year; Prairie Bloom Award Winner.

Hosta undulata 'Albo-Marginata'	Plantain Lily	Part to full shade	Lavender	15"-36" tall
Rich, moist, well-drained soil.		3 to 9	SU	30" wide

Rabbit Resistant

Handsome clumps of large gray-green leaves edged with broad bands of white; has a tendency to temporarily lose its variegation in the heat.

Hosta 'Victory'	Plantain Lily	Full shade	Light lavender	27"-31" tall
Rich, moist, well-drained soil.		3 to 9	MSU	4'-6' wide

Rabbit Resistant

This majestic sport of *H. nigrescens* 'Elatier' features broad green leaves edged with a handsome white margin. The upright, spreading habit and large size lends itself for use as a showcase specimen. Pale lavender flowers on arching scapes. The 2015 Hosta of the Year!

Hypericum androsaemum 'Albury Purple'	St. John's Wort	Part to full sun	Light yellow	18"-36" tall
Well-drained soil.		5 to 8	ESU-LSU	18"-36" wide

Attracts Hummingbirds Rabbit Resistant Deer Resistant

Dark green leaves have rich velvety purple tips. The yellow flowers and attractive dark red fruit contribute to its special appeal. Its mounding habit makes it perfect for mass plantings.

Hypericum calycinum	St. John's Wort	Full sun to Full shade	Gold	12"-18" tall
Well-drained soil.		5 to 9	LSP-ESU	18"-24" wide

Attracts Hummingbirds Rabbit Resistant Deer Resistant

This semi-evergreen ground cover boasts bright yellow flowers throughout the summer. A great choice for planting under trees where many plants cannot survive. A widely used and attractive ground cover with deep green oval leaves and 2" wide golden flowers with a pincushion-like center of clustered stamens. Named a Plant of Merit by the Missouri Botanical Garden.

Perennial Flower/Foliage

Hypericum 'Fiesta'

St. John's Wort

Part to full sun

Yellow

8"-12" tall

Well-drained soil.

5 to 9

SU

2' wide

Cheerful evergreen groundcover with variegated lemon-lime foliage, blushed with pink on the new growth. 3" wide yellow rose-shaped, 5 petalled flowers in summer. Reddish brown woody stems spread from the plant's crown and put on the gorgeous leaves at regular 1/2" to 1" intervals. Its low, slowly spreading habit makes it an excellent groundcover or small hedge- it also works well filling out mixed containers or spilling over hanging baskets. Drought tolerant once established.

Iberis sempervirens 'Whiteout'

Candytuft

Full sun

Deer Resistant

Compact mounds of green foliage with strong silver highlights are topped by yellow flowers in the spring. A superb selection for deep shade, this ground cover slowly spreads to form dense clumps. Brightens any shaded area.

Perennial Flower/Foliage

Lamium maculatum 'Variegatum'	Golden Dead Nettle; Yellow Archangel; False Lamium	Part to full shade	Yellow	1' tall
Well-drained soil.		3 to 9	LSP-ESU	20" wide
Ground cover				Rabbit Resistant Deer Resistant
Silver-spotted dentate leaves; small flowers.				

Lamium maculatum 'Beacon Silver'	Spotted Dead Nettle	Part to full shade	Lavender-pink	1' tall
Moist, well-drained soil.		3 to 8	SP-SU	1' wide
Ground cover			Attracts Hummingbirds	Rabbit Resistant Deer Resistant
Predominantly silver foliage is edged with blue-green; excellent for dark shady areas.				

Lamium maculatum 'Pink Pewter'	Spotted Dead Nettle	Part to full shade	Clear pink	4"-8" tall
Moist, well-drained soil.		3 to 8	SP-SU	1' wide
Ground cover			Attracts Hummingbirds	Rabbit Resistant Deer Resistant
Silver-white foliage with green margins; heat resistant; good in well-drained soils.				

Lamium maculatum 'Purple Dragon'	Spotted Dead Nettle	Part to full shade	Deep purple	4"-8" tall
Moist, well-drained soil.		3 to 8	SP-SU	10"-14" wide
Ground cover			Attracts Hummingbirds	Rabbit Resistant Deer Resistant
Silver leaves with green edges; largest deep purple snapdragon-like flowers of any Lamium.				

Lamium maculatum 'White Nancy'	Spotted Dead Nettle	Part to full shade	White	6" tall
Moist, well-drained soil.		3 to 8	SP-SU	1' wide
Ground cover			Attracts Hummingbirds	Rabbit Resistant Deer Resistant
Showy silver leaves with scalloped blue-green margins; pure white flowers.				

Leptinella 'Platt's Black'	Brass Button	Part to full shade	Yellow	1" tall
Moist, well-drained soil.		5	SP	2' wide
Ground cover		Foot traffic- Moderate foot traffic (1 or 2 times a day)		
Black Brass Buttons; beautiful bronze-black fern-like foliage creeps to form a soft, fuzzy mat; flowers are nearly insignificant; great look for entryways, courtyards, pathways, or as a lawn substitute; withstands foot traffic.				

Leucanthemum superbum 'Alaska'	Shasta Daisy	Part to full sun	White	20"-24" tall
Moist, rich, well-drained soil.		5 to 9	ESU	8'-10' wide in 10 yrs
		Attracts Butterflies		Rabbit Resistant Deer Resistant
Prolific bloomer of large 3" single white daisies; the old fashioned favorite.				

Perennial Flower/Foliage

Leucanthemum superbum 'Becky'	Shasta Daisy	Part to full sun	White	34"-42" tall
Moist, rich, well-drained soil.		5 to 9	ESU-MF	16"-30" wide

Prairie Bloom Attracts Butterflies Rabbit Resistant Deer Resistant
 Large, single flowers are sturdy even after a hard rain; good cutflower; foliage holds up well in heat and humidity; flowers from June to October if deadheaded; PPA Perennial Plant of the Year 2003; Prairie Bloom Award Winner.

Leucanthemum superbum 'Daisy May'	Shasta Daisy	Part to full sun	Pure white	1'-2' tall
Moist, rich, well-drained soil.		5 to 10	SP-F	10"-12" wide

Attracts Butterflies Rabbit Resistant Deer Resistant
 This diminutive Shasta daisy has an upright habit and an incredibly long flowering time. So long as the old flowers are removed soon after flowering, you will be rewarded with pure white flowers produced in mass quantities over the entire growing season. The plants are very easy to grow in most garden soils with average watering requirements. Deadheading will enhance and encourage additional flushes of flowers.

Leucanthemum superbum 'Goldfinch'	Shasta Daisy	Part to full sun	Bright lemon to ivory	19"-24" tall
Moist, rich, well-drained soil.		5 to 8	ESU-LSU	23" wide

Attracts Butterflies Rabbit Resistant Deer Resistant
 The yellowest Shasta ever! Long blooming and compact plants with semidouble flowers. The charming flowers very slowly and gracefully change from bright lemon yellow to ivory.

Leucanthemum superbum 'Luna'	Shasta Daisy	Part to full sun	Yellow to white	19" tall
Moist, rich, well-drained soil.		5 to 9	ESU-LSU	22" wide

The moon is always shining with 'Luna' in your garden! Showy pom-poms of double flowers rest atop a dense, upright mound of foliage. The flowers bloom yellow, then gradually change to a two-toned yellow, and finally finish white. The flowers stay yellow for two weeks or longer, unlike other "yellows" that fade in a matter of days. Vigorous, growing in a rounded mound.

Leucanthemum superbum 'Snowcap'	Shasta Daisy	Part to full sun	White	10"-12" tall
Moist, rich, well-drained soil.		5 to 9	LSP-ESU	15" wide

Attracts Butterflies Rabbit Resistant Deer Resistant
 Single long-lasting white daisies; Blooms of Bressingham introduction.

Leucanthemum superbum 'Whoops-a-Daisy'	Shasta Daisy	Full sun	White	15" tall
Moist, rich, well-drained soil.		5 to 9	MSU	22" wide

Attracts Butterflies Rabbit Resistant Deer Resistant
 An improvement over 'Snowcap', with better flower coverage, fuller blossoms and a more compact, uniform habit. Forms an exceptionally dense, rounded ball-shaped mound of dark green foliage blanketed by large, 3"-4" wide white flowers with gold centers.

Leucanthemum 'White Magic'	Shasta Daisy	Full sun	White	20" to 24" tall
NEW Moist, rich, well-drained soil.		5 to 9	LSP to SU	18" to 24" wide

A standout in the garden for its large, clean white, semi-double flowers and extra-long blooming time - much longer than other leucanthemums. Bred and selected for an extended flowering - late spring to summer. No deadheading is required for reblooming!

Lewisia 'Elise Mix'	Bitter Root	Part sun	Mix	4"-6" tall
Must have loose, well-drained soil.		3 to 8	SU	1' wide

Neat rosette blooms of salmon, white, pink, yellow, cerise, and rose, some with picotee edges. Blooms repeatedly throughout the summer atop low-growing, somewhat succulent blue-green foliage. Its long bloom time, combined with heat and drought resistance, makes it great for beds, containers, rock gardens, and walls. Plant "high" and work fine gravel around crown of plant to help with winter soil drainage.

Perennial Flower/Foliage

Liatris spicata 'Kobold Blue'	Gayfeather; Blazing Star	Full sun	Rosy purple	1'-2' tall
Well-drained soil.		3 to 9	MSU-LSU	15" wide
Attracts Butterflies			Deer Resistant	

Spike Gayfeather; Excellent for cutting; long lasting flowers; compact plants.

Liatris spicata 'White'	Gayfeather; Blazing Star	Full sun	White	3' tall
Well-drained soil.		3 to 9	SU	2' wide
Attracts Butterflies			Deer Resistant	

Excellent cutflower; large flower spikes; long lasting flowers.

Ligularia 'King Kong'	Ragwort; Senecio	Part shade	Deep yellow-orange	3'-4' tall
Rich, consistently moist soil.		4 to 9	MSU	3'-4' wide

Looking to add some height to your part shade garden? Look no further than this Ligularia! Standing 3' to 4' tall in bloom, it features leaves that span over 16" wide! When planted in part shade, the deep burgundy foliage is most prominent. The new leaves start off a glossy burgundy-black, taking on a semi-glossy sheen as they age. In mid summer, clusters of deep yellow-orange daisy-like flowers appear on stems above the foliage. It can be a slow grower, so don't be surprised if it takes a couple years for it to get to its full height.

Lilium, asiatic 'Lily Looks Tiny Rocket'	Asiatic Lily	Part to full sun	Dark red	14"-16" tall
Moist, well-drained soil.		2 to 9	MSU	10"-12" wide

The 'Lily Looks Tiny' series was bred for more blooms, improved color, and stronger stems. You'll appreciate these qualities in this dwarf Asiatic Lily. Large, upward facing, fragrant flowers of rich, dark red, with the center of the petals etched an even darker red.

Lilium, oriental 'Casa Blanca'	Oriental Lily	Part to full sun	White	44" tall
Moist, well-drained soil.		3 to 8	SU	12"-18" wide
			Attracts Hummingbirds	

Pure white flowers.

Lilium, oriental 'Stargazer'	Oriental Lily	Part to full sun	Rose-red	28"-36" tall
Moist, well-drained soil.		3 to 8	SU	12"-18" wide

Attracts Hummingbirds

Rose-red flowers with a lighter edge.

Linum perenne	Flax	Full sun	Blue	2' tall
Well-drained soil; drought tolerant.		4 to 8	SP-ESU	12"-18" wide

Attracts Butterflies

Deer Resistant

Long lived; floriferous- blooms for up to 12 weeks; performs even in the leanest soils.

Liriope muscari 'Majestic'	Lily Turf; Monkey Grass	Full sun to Full shade	Violet-lavender	12"-15" tall
Rich, moist soil.		4 to 10	LSU	12"-30" wide

Ground cover

Rabbit Resistant

Wide dark green leaves; best known for its showy bloom; great for edging walkways and borders.

Perennial Flower/Foliage

Liriope muscari 'Silvery Sunproof'	Lily Turf; Monkey Grass	Part to full shade	Lavender	10"-15" tall
Rich, moist soil.		5 to 10	LSU	15"-18" wide
Ground cover		Rabbit Resistant		

A versatile evergreen valued for its relatively wide dark green, grass-like foliage highlighted by bold yellow to white vertical striping. Spikes of grape hyacinth-like light purple flowers in late summer. Great as a groundcover or edging.

Lobelia fulgens 'Queen Victoria'	Cardinal Flower	Part to full shade	Rich scarlet	3' tall
Rich, moist to boggy soil.		5 to 9	SU	18"-24" wide
Attracts Butterflies		Attracts Hummingbirds		Rabbit Resistant
Bright rich scarlet flowers; an excellent border plant for moist locations; mahogany foliage.		Deer Resistant		

Lupinus 'WestCountry Persian Slipper'	Lupine	Full sun	Periwinkle Blue and white	2' to 3' tall
NEW Moist, well-drained soil.		3 to 9	LSP to MSU	1' to 2' wide
Attracts Butterflies		Attracts Hummingbirds		

The WestCountry varieties, collected by WestCountry Nurseries in the UK have been selected for their unique vibrant colors. Propagated by tissue culture, the distinctive bloom patterns have been preserved through the process, and the overall plant strength has been increased. 'Persian Slipper' presents a mass of sturdy upright flower spikes that reach 24" to 36" tall. These sturdy spikes feature blooms that as they open reveal periwinkle blue and white petals. The bright green daisy looking foliage creates a mounding habit. These are not your traditional Lupine, these colors will amaze you! Planted in part shade locations, bloom LSP to MSU. Lupine prefer to be grown in well drained soil on a slightly acidic side. Enjoy the flutter to butterflies and hummingbirds as they check out your lupine. We recommend deadheading your lupine for extended bloom time.

Lupinus 'WestCountry Red Rum'	Lupine	Full sun	Crimson to Cerise to Lilac	2' to 3' tall
NEW Moist, well-drained soil.		3 to 9	ESU-MSU	1' to 2' wide
Attracts Butterflies				

Fans of the Lupine gather round and witness the intoxicating beauty of 'Red Rum'. This part-sun-loving perennial presents a chorus of colors ranging from crimson to cerise to lilac which draw the eyes to its large bloom heads. These multi-colored spires attract bees and hummingbird and are a great way to dress up borders, beds, and indoor vases. This variety is also drought resistant once established.

Lysimachia atropurpurea 'Beaujolais'	Burgundy Gooseneck	Full sun to Full shade	Dark burgundy-wine	1'-2' tall
Well-drained soil; drought tolerant.		4	LSP-EF	2' wide
Attracts Butterflies		Attracts Hummingbirds		

Wavy blue-gray lanceolate leaves; dark purple florets in terminal spikes bloom for a long time; quite drought tolerant; hummingbirds and butterflies love it; bright fall colors; a winter mulch is recommended.

Lysimachia clethroides	Gooseneck Loosestrife	Full sun to Full shade	White	3' tall
Well-drained to boggy soil.		3 to 8	MSU-EF	30" wide
Attracts Butterflies		Attracts Hummingbirds		Rabbit Resistant
Gooseneck Loosestrife; Graceful curving spikes of small tightly packed flowers; all the flower spikes droop in the same direction, making it appear like a flock of geese; the foliage turns bright orange in the fall; ground cover; optimum growth occurs in full sun in moist, well-drained soil; this species can be quite invasive especially in a loose soil such as a sandy loam; gardeners should be prepared to lift sections of the plant each year to curb the spread; plants can grow in boggy soil as well.		Deer Resistant		

Perennial Flower/Foliage

Lysimachia nummularia (Green)	Moneywort; Creeping Jenny	Part to full shade	Yellow	2" tall
Moist to wet soil.		3 to 8	ESU-MSU	1' wide
	Ground cover	Foot traffic- Moderate foot traffic (1 or 2 times a day)	Attracts Butterflies	Attracts Hummingbirds
Creeping Jenny, Moneywort; rounded ¾" bright green leaves with a trailing, creeping habit; a rather vigorous grower in moist soils; it will even grow in standing water!; fragrant flowers; excellent ground cover; withstands foot traffic.				

Lysimachia nummularia 'Aurea'	Moneywort; Creeping Jenny	Part to full shade	Yellow	2" tall
Moist to wet soil.		3 to 8	ESU-MSU	1' wide
	Ground cover	Foot traffic- Moderate foot traffic (1 or 2 times a day)	Attracts Butterflies	Attracts Hummingbirds
Golden Creeping Jenny, Golden Moneywort; Rounded ¾" bright golden leaves with a trailing, creeping habit; rather vigorous grower in moist soils; it will even grow in standing water; makes a wonderful contrast around taller purple leaved plants; fragrant flowers; excellent ground cover; withstands foot traffic.				

Malva sylvestris 'Zebrina'	Hollyhock Mallow; Tree Mallow	Full sun	White to lavender	3' tall
Well-drained soil; drought tolerant.		3 to 8	MSU-EF	2' wide
			Attracts Butterflies	Rabbit Resistant
Zebra Mallow; A little known garden treasure; ideal for naturalizing; robust stems produce multiple 2" single, saucer-shaped flowers that are variable in color, usually soft lavender striped with raspberry purple; flowers freely; disease-resistant; heat and drought tolerant.				

Monarda bradburiana	Bradbury's Bee Balm	Part to full sun	Light pink-purple	18"-30" tall
Moist, well-drained soil.		5 to 8	MSP-LSP	1'-2' wide
A short, compact form. This species is drought tolerant and prefers average to dry soils, though it will tolerate periods of inundation (withstands being in standing water for a short time). Flowers are light pink-purple and are delicately speckled. Flowers much earlier than other Monarda, generally in April and May for 3 to 4 weeks. Flowers are highly attractive to numerous pollinators. Shiny green foliage.				

Monarda didyma 'Balmy Purple'	Bee Balm; Bergamot; Oswego Tea; Wild Bergamot'	Full sun	Purple	10"-12" tall
Moist, well-drained soil.		4 to 9	LSP-SU	8"-10" wide
			Attracts Butterflies	Attracts Hummingbirds Rabbit Resistant Deer Resistant
Excellent early flowering, compact purple cultivar. Trim spent blooms after blooming is completed. Very reliable and long flowering with a very compact habit. Extremely mildew-resistant.				

Monarda didyma 'Balmy Rose'	Bee Balm; Bergamot; Oswego Tea	Part to full sun	Rose-pink	10"-12" tall
Moist, well-drained soil.		4 to 9	LSP-MF	8"-10" wide
			Attracts Butterflies	Attracts Hummingbirds Rabbit Resistant Deer Resistant
The 'Balmy' series is the most highly mildew resistant Monarda known! It will stand up to mildew with ease, rewarding your gardening efforts and showing its colorful blooms for months each year! The luscious rose-pink blooms are very fragrant! Attractive to hummingbirds, butterflies, bees, and other pollinators.				

Perennial Flower/Foliage

Monarda didyma 'Gardenview Scarlet'	Bee Balm; Bergamot; Oswego Tea	Part to full sun	Red	30"-38" tall
Moist, well-drained soil.		4 to 9	ESU-MSU	18"-24" wide
		Attracts Butterflies	Attracts Hummingbirds	Rabbit Resistant Deer Resistant

An exceptional variety with rich red flowers; and highly mildew resistant foliage.

Monarda didyma 'Jacob Kline'	Bee Balm; Bergamot; Oswego Tea	Part to full sun	Deep red	3'-4' tall
Moist, well-drained soil.		4 to 9	ESU-MSU	18"-24" wide
		Attracts Butterflies	Attracts Hummingbirds	Rabbit Resistant Deer Resistant

Vigorous plants with very large flowers; the most mildew-resistant red variety available.

Monarda didyma 'Marshall's Delight'	Bee Balm; Bergamot; Oswego Tea	Part to full sun	Hot pink	28"-36" tall
Moist, well-drained soil.		4 to 9	ESU-MSU	17"-24" wide
		Attracts Butterflies	Attracts Hummingbirds	Rabbit Resistant Deer Resistant

Prairie Bloom
Mildew resistant; free flowering and long blooming; rust resistant; Prairie Bloom Award Winner.

Monarda didyma 'Pardon My Pink'	Bee Balm; Bergamot; Oswego Tea; Wild Bergamot'	Full sun	Medium pink	10"-12" tall
Moist, well-drained soil.		4 to 9	MSU-LSU	8"-12" wide
		Attracts Butterflies	Attracts Hummingbirds	Rabbit Resistant Deer Resistant

This petite selection grows vigorously to form a bushy, compact clump of attractive, aromatic, glossy deep green foliage that is very mildew resistant! Cheerful, true medium pink flowers sit just atop the foliage. Large, 2 1/2" to 3" wide flowers.

Monarda didyma 'Purple Lace'	Bee Balm; Bergamot; Oswego Tea	Part to full sun	Bright purple	12"-16" tall
Moist, well-drained soil.		4 to 9	MSU-LSU	14"-16" wide
		Attracts Butterflies	Attracts Hummingbirds	Rabbit Resistant Deer Resistant

This exciting Beebalm is characterized by its compact, upright and outwardly spreading, basal branching habit, and freely flowering with purple blossoms. Bright purple blooms are produced atop dark brown to black stems. A favorite of bees, butterflies, and hummingbirds, this flower is a great way to attract pollinators to your garden this summer!

Monarda didyma 'Raspberry Wine'	Bee Balm; Bergamot; Oswego Tea	Part to full sun	Wine-red	36"-40" tall
Moist, well-drained soil.		4 to 9	ESU-MSU	18"-24" wide
		Attracts Butterflies	Attracts Hummingbirds	Rabbit Resistant Deer Resistant

Pure white flowers have a vanilla fragraowers with a touch of violet-blue; the flowers look like raspberries when they are in the bud stage; very mildew resistant.

Monarda didyma 'Sugar Buzz Cherry Pops'	Bee Balm; Bergamot; Oswego Tea	Part to full sun	Red	14" to 16" tall
NEW Moist, well-drained soil.		3 to 9	MSU-LSU	18" wide
		Attracts Butterflies	Attracts Hummingbirds	Deer Resistant

This is a bee balm with a bright red flower that will provide a colorful display in the sunny garden border. The colorful, fragrant flowers attract bees, butterflies and hummingbird, and the foliage can be used for delicious teas. The large 2" to 2.5" flowers are perched on 20" stems that do not require support or staking. This plant can spread to 26" in width at maturity to cover a wide spread with consistent color in mid to late summer. It is a resilient plant that is resistant to deer, and it can adapt to partial shade and poor soils. The flowers can be removed as they fade o encourage additional blooms.

Perennial Flower/Foliage

Monarda 'Leading Lady Plum'

Bee Balm; Bergamot; Oswego Tea

Attracts Hummingbirds

Rabbit Resistant

Deer Resistant

What a magnificent Beebalm for the sunny summer garden! She takes her name from the fact that she begins flowering a full month earlier than other Monardas, blooming with the roses and peonies in early summer, and continuing for about two months! We love her not for her early bloom time, but also for that rich magenta-violet color spotted with black, the ultra-fragrant foliage beneath the blooms, and the two heavy waves of bloom she gives each season! The large blooms flower atop spreading, fragrant foliage. The flowers are packed with nectar that hummingbirds, butterflies, and bees find simply irresistible!

Monardella macrantha 'Marian Sampson'

Hummingbird Trumpet Mint

Part to full sun

Orange-scarlet

3"-6" tall

Moderate to dry, well-drained soil.

5 to 9

SP-LSU

8"-12" wide

Clusters of brilliant, orange-scarlet trumpet flowers on low mounds of semi-evergreen leaves. Intensely aromatic foliage forms low mounds.

Muehlenbeckia axillaris nana

Creeping Wire Vine, Wire Plant

Part to full sun

White

4"-6" tall

Well-drained soil; drought tolerant.

3

SU

1'-2' wide

Ground cover

Foot traffic- Heavy
foot traffic (3 or
more times a day)

Proof positive that beautiful foliage, alone, succeeds! Tiny glossy dark green leaves on wiry stems that contort, curl, and bend; transparent white fruits with black seeds are very attractive; the foliage turns bronze with heat or cold; tolerates drought, wind, and poor soil; perfect in pathways or in the garden; widely used for cute and delicate topiary work, this New Zealand native is also gorgeous cascading out of baskets and mixed containers, providing filler and irresistible texture for your living bouquets; withstands foot traffic.

Mukdenia 'Nova Flame'

Mukdenia x Bergenia

Part to full shade

Dark pink

8" tall foliage, 12"-13" tall flowers

Rich, moist soil.

3 to 9

MSP-ESU

14" wide

Attracts Butterflies

Attracts Hummingbirds

Rabbit Resistant

Deer Resistant

A cool and lovely intergeneric cross! This hybrid is an amazing combination with dark pink flowers from the Bergenia mother and jagged leaf edges and great fall color from the Mukdenia 'Crimson Fans' father. The glossy, leathery leaves have deep red accents in summer and turn even redder in fall. The thick leathery leaves last longer into fall than Mukdenia, before they die down for the winter. Dark pink flowers poke up above the foliage on clustered spikes. Part shade is ideal, but will tolerate full shade. Needs constantly moist, well-drained soil.

Myosotis sylvatica 'Bluesylva'

Forget-Me-Not

		Attracts Butterflies	Attracts Hummingbirds	Rabbit Resistant
				Deer Resistant

Lavender-blue flowers with gray-green foliage. Compact habit and uniform flower canopy. A sterile dwarf form of N. 'Walker's Low'. Extremely floriferous!

Nepeta 'Purrsian Blue'	Catmint; Catnip	Full sun	Periwinkle blue	14"-18" tall
Well-drained soil.		3 to 8	ESU-EF	18"-30" wide
		Attracts Butterflies	Attracts Hummingbirds	Rabbit Resistant
				Deer Resistant

Has an improved tidy habit, and is a bit smaller and more compact in size overall. In its first year, it forms a small, perfectly rounded, densely branched clump of tiny, green leaves. In the 2nd year, it maintains its compact, mounding habit, but nearly doubles its spread to just over 2' across. Very floriferous- its flower power is amplified by having its flowers spaced closely together on the stems. Periwinkle blue flowers are coddled by dark purple calyxes just above the aromatic foliage.

Oenanthe javanica 'Flamingo'	Variegated Water Celery, Rainbow Water Parsley	Part to full sun	White	12"-18" tall
Moist to wet soil.		4 to 10	SU	30" wide

Ground cover

A unique creeping ground cover with white and green foliage suffused with pink; inconspicuous flowers; also may be used in the water garden as a marginal plant.

Oenothera missouriensis	Evening Primrose; Sundrop	Part to full sun	Yellow	10"-12" tall
Well-drained soil; drought tolerant.		3 to 8	SU	20" wide

Deer Resistant

Missouri Primrose, Ozark Sundrop; a low-growing profuse bloomer; large luminous yellow saucer-shaped flowers appear all summer; interesting winged seedpods follow the bloom; not invasive; it is quite tolerant of poor soils and drought conditions; drainage is extremely important; plants grown in poorly drained soils usually die from root rot; plants are late to come up in the spring.

Oenothera pilosella 'Yella Fella'	Evening Primrose	Full sun	Bright golden	15" tall
Well-drained soil; drought tolerant.		4	MSU-LSU	16" wide

Deer Resistant

Bright golden, lightly scented flowers are open during the day and attract bees and butterflies. The orange flower buds add additional interest in combination with the large flowers and deep green foliage. The sturdy stems and the leaf undersides that a

Origanum 'Kirigami'

Ornamental Oregano

Full sun

Red

8" to 10" tall

NEW Well-drained soil; drought tolerant.

5 to 8

LSP to LSU

12" to 14" wide

Such color play, such fragrance, such texture! It is a fabulous Ornamental Oregano, the perfect choice for baskets and flowerpots where long, trailing stems in a wash of brilliant hues is sought. The bracts on this plant are a combination of rich purple and green, while the blooms are a rich rosy shade of deep red. The show begins late spring and continues all summer on plants that stand up to heat and humidity. Breathtaking! Somewhat resembling hops, the bract-and-bloom laden stem are set among small, light green, heart-shaped 3/4" leaves. The blooms are excellent in dried arrangements, their unusual shape adding hard-to-find texture to any display. And this plant is quite low maintenance, thriving even in dry soil to form a bushy, trailing plant. Good drainage is essential to the success of Kirigami. Blooms LSP to LSU.

Origanum laevigatum 'Herrenhausen'

Ornamental Oregano

Full sun

Red-purple

18"-30" tall

Well-drained soil; drought tolerant.

4 to 9

ESU-LSU

2'-3' wide

Ground cover

Attracts Butterflies

Rabbit Resistant

Deer Resistant

A great perennial with an upright, trailing habit. Through summer, the stems grow to about 2' in length and as the red-purple flower clusters appear, they tend to spread out through the garden. The foliage has a light classic oregano fragrance, but this is truly an ornamental variety. Great as a filler/accent plant, around strong upright plants. Attracts butterflies.

Oxalis crassipes 'Rosea' (syn. 'Garden Hardy Pink')

Pink Shamrock; Strawberry Oxalis

Full sun to Full shade

Deep, rich, well-drained soil.		3 to 8	LSP	2'-3' wide
				Rabbit Resistant Deer Resistant

Prairie Bloom

Introduced in 1906, it is still a classic favorite today! 7" to 9" wide fully double flowers of luscious pink petals that are occasionally flecked with raspberry, and are lighter toward the edges. The flowers have an unforgettable fragrance. One of the strongest growing peonies and most reliable bloomers.

Paeonia, Garden Double Pink 'Sorbet'	Garden Peony; Chinese Peony	Part to full sun	Pink and White	3' tall
Deep, rich, well-drained soil.		3 to 8	LSP to ESU	2.5' wide
				Rabbit Resistant Deer Resistant

One of the most beautiful color combinations in the Peony family, 'Sorbet' brings soft, luscious tones to the late spring garden. These blooms are 5 inches wide and tall, with 3 distinct layers of pastel color. Ideal for cutting (they are very long-lasting), they arise heavily on compact plants. Well-branched but never sprawling, the plant is quite hardy, standing up to adverse weather nicely, and its flowers are absolutely show stopping in any setting, from the border to an accent planting. Their phenol content makes them unappetizing to pests. Remarkably disease free as well, they literally need no attention once established.

Paeonia, Garden Double Red 'Kansas'	Garden Peony; Chinese Peony	Part to full sun	Carmine-red	34" tall
Deep, rich, well-drained soil.		3 to 8	LSP	30" wide
				Rabbit Resistant Deer Resistant

Deep carmine-red double flowers; flower color does not fade in the sun; fine form.

Paeonia, Garden Double Red 'Karl Rosenfield'	Garden Peony; Chinese Peony	Part to full sun	Purple-red	35"-38" tall
Deep, rich, well-drained soil.		3 to 8	LSP	30"-34" wide
				Rabbit Resistant Deer Resistant

Prairie Bloom

Dependable bloomer; very large semi-rose type flowers on strong stems; mild fragrance; Prairie Bloom Award Winner.

Paeonia, Garden Double Red 'Many Happy Returns'	Garden Peony; Chinese Peony	Part to full sun	Red	2' to 3' tall
Deep, rich, well-drained soil.		3 to 8	LSP to ESU	2' to 3' wide

This slightly scented, award-winner peony is a spectacular hybrid with medium-sized double, rich cardinal-red flowers, packed with warm red petals. The eye-catching blossoms retain their color in strong sunshine & display nicely rounded guard petals. They are born in profusion on strong stems & are held above handsome, deeply dissected, undulating foliage. Needs full sun, Blooms for 7 to 10 days in LSP to ESU.

Perennial Flower/Foliage

Paeonia, Garden Double Red 'Red Magic'

Garden Peony; Chinese Peony

Part to full sun

Pure red

30" tall

Deep, rich, well-drained soil.

3 to 8

LSP

30" wide

One of the fullest pure red bomb-type peonies.

Paeonia, Garden Double Red 'Red Sarah Bernhardt'

Garden Peony; Chinese Peony

Part to full sun

Purple-red

35" tall

Deep, rich, well-drained soil.

3 to 8

LSP

24" to 30" wide

Full double purple-red flowers. Very healthy, dark green and shiny foliage with very stout stems for a lactiflora-variety. Also because of this, it is not much like 'Sarah Bernhardt' at all. 'Red Sarah Bernhardt' originates from China and is renamed for her pink namesake for obvious commercial ends. Currently this variety is very sought after and desired for by the world's cut flower industry.

Paeonia, Garden Double White 'Duchess de Nemours'

Garden Peony; Chinese Peony

Part to full sun

Pure white

34"-36" tall

Part to full sun

Pastel yellow

30"-36" tall

Deep, rich, well-drained soil.

4 to 9

LSP

2'-3' wide

Rabbit Resistant Deer Resistant

Huge 6" to 9.5" wide, semi-double to double, clear, pastel yellow flowers have a small rose-purple flare in the center and a pronounced slightly spicy, sweet scent. Blossoms are neatly spaced on the top and sides of the sturdy clump of healthy, distinct, dark green, tree peony-like foliage. Intersectional peonies are created by crossing herbaceous and woody tree peonies. They offer the best qualities of both including large flowers in unique colors, robust herbaceous foliage, strong weather resistant stems, longer bloom time, extreme winter hardiness, and increased vigor. Intersectional peonies prefer the same culture as garden and tree peonies. Choose a permanent, sunny or partially shaded site that is not in competition with large tree roots and has rich, well-drained, but heavy, neutral soil. Though they grow best in full sun, the flowers last longer in part shade. They will spend their first year getting established and will not be floriferous but the bud count should increase each year. Do not cut plants all the way back in the fall since the lower part of the stem often carries next year's buds. Buds will also come from underground like herbaceous peonies. The most critical aspect of planting peonies is proper planting depth. For intersectional peonies, the crown should be planted 1 1/2" to 2" below the soil level.

Perennial Flower/Foliage

Paeonia, Intersectional 'Callie's Memory' Intersectional Peony, Itoh Peony Part to full sun Yellow to apricot with maroon 23"-27" tall

NEW Deep, rich, well-drained soil. 4 to 8 LSP-ESU 29"-35" wide

Large, semi-double, sunny flowers appear mid-season and are in shades of cream to yellow to apricot, edged in a deeper russet, with maroon flares and rosy picotee edge. Intersectional peonies are created by crossing herbaceous and woody tree peonies. They offer the best qualities of both including large flowers in unique colors, robust herbaceous foliage, strong weather resistant stems, longer bloom time, extreme winter hardiness, and increased vigor. Intersectional peonies prefer the same culture as garden and tree peonies. Choose a permanent, sunny or partially shaded site that is not in competition with large tree roots and has rich, well-drained, but heavy, neutral soil. Though they grow best in full sun, the flowers last longer in part shade. They will spend their first year getting established and will not be floriferous but the bud count should increase each year. Paeonia, Intersectional 'Julia Rose' Intersectional Peony, Itoh Peony Part to full sun Apricot to reddish purple 25"-30" tall

Deep, rich, well-drained soil. 4 to 9 MSP 3'-4' wide

Large, single to semi-double blooms open a soft creamy apricot, blending to reddish purple at the tips. The flowers have a pleasant, slightly spicy fragrance. Blossoms are neatly spaced on the top and sides of the sturdy clump of healthy, crisp dark green, tree peony-like foliage. Intersectional peonies are created by crossing herbaceous and woody tree peonies. They offer the best qualities of both including large flowers in unique colors, robust herbaceous foliage, strong weather resistant stems, longer bloom time, extreme winter hardiness, and increased vigor. Intersectional peonies prefer the same culture as garden and tree peonies. Choose a permanent, sunny or partially shaded site that is not in competition with large tree roots and has rich, well-drained, but heavy, neutral soil. Though they grow best in full sun, the flowers last longer in part shade. They will spend their first year getting established and will not be floriferous but the bud count should increase each year. Do not cut plants all the way back in the fall since the lower part of the stem often carries next year's buds. Buds will also come from underground like herbaceous peonies. The most critical aspect of planting peonies is proper planting depth. For intersectional peonies, the crown should be planted 1 1/2" to 2" below the soil level.

Perennial Flower/Foliage

Paeonia, Intersectional 'Scarlet Heaven'

Intersectional Peony, Itoh Peony

Part to full sun

Glowing scarlet

28"-30" tall

Deep, rich, well-drained soil.

4 to 9

MSP

3'-4' wide

Rabbit Resistant

Deer Resistant

7" to 8" wide, glowing, brilliantly scarlet single blooms which darken at the petal edges. The flowers have showy yellow stamens and a light spicy fragrance. The showy flowers will not lose their intensity, even when planted in full sun. The flowers are neatly spaced on the top and sides of the sturdy clump of healthy green, tree peony-like foliage. The foliage is attractive through the blooming cycle, and then you may want to cut it back early. Intersectional peonies are created by crossing herbaceous and woody tree peonies. They offer the best qualities of both including large flowers in unique colors, robust herbaceous foliage, strong weather resistant stems, longer bloom time, extreme winter hardiness, and increased vigor. Intersectional peonies prefer the same culture as garden and tree peonies. Choose a permanent, sunny or partially shaded site that is not in competition with large tree roots and has rich, well-drained, but heavy, neutral soil. Though they grow best in full sun, the flowers last longer in part shade. They will spend their first year getting established and will not be floriferous but the bud count should increase each year. Do not cut plants all the way back in the fall since the lower part of the stem often carries next year's buds. Buds will also come from underground like herbaceous peonies. The most critical aspect of planting peonies is proper planting depth. For intersectional peonies, the crown should be planted 1 1/2" to 2" below the soil level.

Intersectional Peony, Itoh Peony

Part to full sun

Apricot

32" to 34" tall

NEW Deep, rich, well-drained soil.

3 to 8

LSP to ESU

32" to 24" wide

It is an eye-catching intersectional hybrid - a cross which marries the exotic looks of tree peonies with the herbaceous growth habit of herbaceous peonies, and often called an Itoh Peony. The sumptuous, gently perfumed blooms are semi-double initially, but become increasingly more double as the plant matures. The unusual blush apricot flowers stand out well against its glossy foliage. A lovely bushy perennial for early summer borders. Needs full sun to part shade; blooms LSP to ESU. Intersectional peonies are created by crossing herbaceous and woody tree peonies. They offer the best qualities of both including large flowers in unique colors, robust herbaceous foliage, strong weather resistant stems, longer bloom time, extreme winter hardiness, and increased vigor. Intersectional peonies prefer the same culture as garden and tree peonies. Paeonia, Tree 'Chojuraku'

Tree Peony; The Emperor Flower

Part to full sun

Lavender

4'-5' tall

Deep, rich, well-drained soil.

5 to 8

LSP

3'-4' wide

Rabbit Resistant

Deer Resistant

Large lavender double flowers with yellow centers. Needs part sun (morning sun preferred), and well-drained soil.

Paeonia, Tree 'Hanakiso' (Pink)

Tree Peony; The Emperor Flower

Part to full sun

Apricot-pink

4'-5' tall

Deep, rich, well-drained soil.

5 to 8

LSP

3'-4' wide

Apricot-pink petals with a soft pink edge make up the semi-double blooms of this variety. Very long-lasting on the shrubby plant, they also make fine cutflowers, remaining beautiful in the vase for more than a week! Needs part sun (morning sun preferred), and well-drained soil.

Paeonia, Tree 'High Noon' (Yellow)

Tree Peony; The Emperor Flower

Part to full sun

Intense yellow

4'-5' tall

Deep, rich, well-drained soil.

5 to 8

MSP-LSP

3'-4' wide

The one tree peony no garden should be without. Introduced more than half a century ago, yet it is still a sensation to all who discover it for the first time. Not only does it deliver the usual very heavy bloom in late spring to early summer, but it also reblooms in late summer, bringing another season of glorious color to the garden! The flowers are a yellow as intense as you might expect from their name with rosy red flames at the base of each petal. Measuring 5" across, they are fully double and softly rounded, resembling a giant rose. Very long-lasting on the shrubby plant, they also make fine cutflowers, remaining beautiful in the vase for more than a week! Needs part sun (morning sun preferred), and well-drained soil.

Paeonia, Tree 'Hoki'

Tree Peony; The Emperor Flower

This selection forms a low clump of green foliage with upright intense, brilliant red, trumpet-shaped blooms appearing in early summer. An excellent low maintenance perennial, especially great in hot, dry sites.

Penstemon 'Twizzle Purple'

Beardtongue

Part to full sun

Purple

35" tall

NEW Very well-drained soil.

5 to 8

MSU to LSU

12" wide

Vibrant purple blooms present a new and unique color in Penstemon! Twizzle Purple was judged as a first-year flowering perennial by judges who were impressed with the upright plant habit and superb flowering performance. This North American native blooms profusely with 1" tubular flowers on long slender stalks that grow up to 35" high, making this beauty a magnet for pollinators from MSU to LSU. Twizzle Purple can be used to add height to combination planters or in landscapes for high-impact color. Needs part to full sun & excellent soil drainage.

Penstemon 'Twizzle Scarlet'

Beardtongue

Part to full sun

Red

27" to 30" tall

NEW Very well-drained soil.

5 to 8

ESU to F

15" to 25" wide

Twizzle's tall, dreamy spikes - spangled with petite, zingy deep-red blooms - bring colorful sizzle to the flowerbed or patio from early summer into autumn. Super-attractive 27" to 31" flower spikes coruscate with small, bell shaped, vivid scarlet flowers. 'Twizzle's taller flower stems add stature to Penstemon's natural allure. Aflutter with winged pollinators, gorgeous foxglove cousin thrives in full sun and well-drained soil. Vigorous plants are low-maintenance. 'Twizzle Scarlet' was awarded the 2017 Fleurselect Gold Medal for striking color, plant habit, and top-notch flowering performance. Needs part to full sun & excellent soil drainage.

The Russian Sage we've been waiting for! Short enough that it won't overpower your garden, yet with stems strong enough to withstand strong winds and heavy rain. The airy, purple-blue blooms, held close together on amethyst calyces, give the wispy flowers a full appearance. With the bright calyces, it maintains interesting color throughout the season. Don't worry about maintenance- it doesn't need much! Drought tolerant, once established it doesn't need watering. Just leave it alone and watch it grow! When the flowers are gone, the seed heads provide sparkling silvery accents to the silver-green, fragrant foliage.

Persicaria microcephala 'Red Dragon'

Sy. Tovar or Polygonum;Fleece or Lace Plant; Virginian Knotweed

Full sun to Full shade

White

2'-3' tall

Prefers rich, moist, well-drained soil.

4

MSU-MF

30" wide

Lots of small white flowers; foliage color is a mix of various reds, mint, silver, and burgundy; red stems; forms an arching vase-shaped clump; likes moist soil, but can tolerate some drought; tolerant of heavy soils; vigorous.

Perennial Flower/Foliage

Persicaria polymorpha	Great White Fleeceflower	Part to full sun	White	3'-5' tall
Moist, sandy to clay soil, tolerant of wet sites.		3 to 8	LSP to LSU	3'-4' wide

This is native to high-elevation gravelly slopes in China and Japan, but has made a superb, care-free garden plant in full sun. the 5' tall x 5' wide deciduous vase-shaped clump of upright fleshy stems is adorned with large, pointed green leaves and topped with terminal panicles of white flowers from late May through August. It has proven to be an absolutely stunning and carefree, non-invasive garden plant! Commonly called, Giant Fleece Flower, it was favorite of a well-known landscaper, Wolfgang Oehme.

Phlox divaricata 'Blue Moon'	Wild Sweet William; Woodland Phlox	Part to full sun	Dark blue	1' tall
Moist, humus-rich soil.		4 to 8	MSP-LSP	12"-18" wide

Ground cover

Loaded with fragrant dark blue flowers. Shear after bloom for a neater habit.

Phlox 'Forever Pink'	Hybrid Phlox	Full sun	Purplish-pink	13" with foliage & 16" in bloom tall
Well-drained soil.		4 to 8	SU-F	18" wide

Hybrid of Phlox glaberrima ssp. triflora and Phlox 'Bill Baker'. Selected by Dr. Jim Ault of the Chicago Botanic Garden. Covers itself with 1" wide purplish pink flowers for 3 weeks in June, and then repeats bloom until the end of October. No energy wasted on seed production (as it is sterile) and there's no bothersome seedlings! The mildew-free, strong growing, yellowish-green foliage is attractive all summer and into autumn.

Phlox paniculata 'Bambini Candy Crush'	Tall Phlox; Garden Phlox	Part to Full Sun	Pink and White	10" to 12" tall
NEW Rich, moist soil.		4 to 8	ESU to EF	10" to 12" wide

Deer Resistant

7 years of breeding went into the selection of such a compact, mildew and deer resistant selection with great natural branching. The compact form and full sized, fragrant pink and white blooms makes Candy Crush a great option for mixed containers and perennial beds adding color from early summer until the fall. Plants bloom earlier and often rebloom if deadheaded. Needs part to full sun. Blooms ESU to EF.

Phlox paniculata 'Common Purple'	Tall Phlox; Garden Phlox	Part to full sun	Rich lilac	3'-4' tall
Rich, moist soil.		4 to 8	ESU-LSU	2' wide

Attracts Butterflies

Attracts Hummingbirds

Deer Resistant

Large clusters of small rich lilac florets atop thick, sturdy stems. Found by Goodness Grows Nursery growing at an old abandoned homesite in Georgia in 1982. When it was found in midsummer, it was in full bloom, with no sign of disease! The owners of Goodness Grows have never seen powdery mildew on it (in nearly 30 years!), even when they have seen mildew nearby on other mildew resistant varieties. It can get blackspot on the lower leaves in cool, wet, low light weather. Phlox prefer rich, loamy, well-drained soils kept evenly moist. Water deeply and provide good air circulation to help prevent powdery mildew on Phlox.

Phlox paniculata 'David'	Tall Phlox; Garden Phlox	Full sun	White	3'-4' tall
Rich, moist soil.		4 to 8	SU	2' wide

Prairie Bloom	Attracts Butterflies	Attracts Hummingbirds	Deer Resistant
----------------------	----------------------	-----------------------	----------------

Enormous heads of very fragrant bright white flowers; very mildew resistant; arguably the best white; PPA -Perennial of the Year 2002; Prairie Bloom Award Winner.

Phlox paniculata 'Fashionably Early Flamingo'	Tall Phlox; Garden Phlox	Part to full sun	Lavender Pink	30" to 36" tall
Rich, moist soil.		4 to 8	MSU	26" to 30" wide

This new Hybrid Phlox blooms earlier than the typical Tall Garden Phlox, starting about 2 to 3 weeks earlier. It is a taller variety of Hybrid Phlox that will work best for the middle to back of the border. In addition to being early blooming, it boasts a long season of color. Perfectly defined panicles of light lavender pink flowers bloom prolifically well into midsummer with some rebloom in fall. Broad, thick, bright green foliage stays beautiful all season. It has exceptional mildew resistance, thick leathery leaves, and a stoloniferous habit, as opposed to the tightly clumping P. paniculata types).

Hybrid Phlox

Part to full sun

Deep purplish pink

3" foliage/8" flower height tall

Well-drained soil.

5 to 8

MSP-ESU

13" wide

An outstanding new trailing phlox from Chicagoland Grows. In spring, masses of large (1 1/4" wide), deep purple-pink flowers with overlapping petals appear over attractive green foliage. The flowers have a conspicuous deep reddish purple eye, surrounded by a white halo. In peak bloom, the flowers completely cover the plant! A real gem for the rock garden, and can be a low edging plant for the border. Useful in alpine troughs, scree gardens, or walls. A cross of P. subulata x P. stolonifera.

Perennial Flower/Foliage

Phlox stolonifera 'Sweet Seduction Blue'	Creeping Phlox	Part to full shade	Blue	8" tall
Moist, rich, well-drained soil; drought tolerant once established		4 to 9	SP	10" to 12" wide

This new series of the shade loving and ground hugging Phlox stolonifera will bring renewed interest in the species. Flowers appear to dance above the attractive foliage on 6" stems in spring, and when in full bloom, will make the foliage disappear. Flowers are sweetly fragrant and last for several weeks. The plants habit is flat and so dense that they'll keep weeds out.

Phlox subulata 'Blue Emerald'	Creeping Phlox; Moss Pinks	Part to full sun	Lavender-blue	4"-6" tall
Well-drained soil.		2 to 9	ESP-MSP	8"-12" wide
	Ground cover		Attracts Butterflies	

Compact emerald green foliage is covered with lavender-blue flowers with a darker eye.

Phlox subulata 'Drummond Pink'	Creeping Phlox; Moss Pink	Part to full sun	Bright pink	6" tall
Well-drained soil.		2 to 9	MSP	1'-2' wide
	Ground cover		Attracts Butterflies	

Quarter-size bright pink flowers cover the lush green, needle-like spreading foliage. The blooms are larger than most other creeping phlox varieties. Evergreen foliage.

Phlox subulata 'Fort Hill'	Creeping Phlox; Moss Pinks	Part to full sun	Deep pink	4"-6" tall
Well-drained soil.		2 to 9	ESP-MSP	18"-24" wide
	Ground cover		Attracts Butterflies	

Fragrant blooms; flowers have deeply cut petals; wonderful bloomer; great growth habit.

Phlox subulata 'Purple Beauty'	Creeping Phlox; Moss Pink	Part to full sun	Deep purple	4" tall
Well-drained soil.		2 to 9	MSP	1' wide
	Ground cover		Attracts Butterflies	

Intense deep purple flowers on lush green, needle-like spreading foliage.

Phlox subulata 'Red Wings'	Creeping Phlox; Moss Pinks	Part to full sun	Deep crimson	4"-6" tall
Well-drained soil.		2 to 9	ESP-MSP	8"-12" wide
	Ground cover		Attracts Butterflies	

Deep crimson blooms with dark red centers.

Phlox subulata 'Snowflake'	Creeping Phlox; Moss Pinks	Part to full sun	White	4"-6" tall
Well-drained soil.		2 to 9	ESP-MSP	16"-24" wide
	Ground cover		Attracts Butterflies	

Pristine white flowers cover the plants; dense, compact foliage.

Phlox 'Violet Pinwheels'	Cushion Phlox, Moss Phlox	Full sun	Vivid violet-purple	4" tall
Well-drained soil.		4 to 8	MSP-LSP	18" wide

The notched, upturned, vivid violet-purple petals look like they could take flight with a good breeze, hence the name 'Violet Pinwheels'! 3/4" wide flowers open to a vivid purple color and age a still vivid violet color. Low, slowly spreading, mounds of dark green, needle-like foliage that is soft to touch. Grow this vibrant selection in the rock garden, on slopes, over a wall or berm, or at the front of a sunny border. A cross of P. bifida and P. kelseyi, selected by Chicagoland Grows!

These stars are wearing masses of fragrant P. subulata-type lavender flowers with purple eyes that completely cover linear deep green, spreading foliage in spring! Shear the plants lightly after the initial blooming to maintain a nice plant shape. The 'Paparazzi' is a series of complex inter-specific hybrids, possibly with P. subulata and P. divaricata parentage, though we can't be for certain.

Phlox x hybrida 'Paparazzi Gaga' (formerly Soft Lavender)

Hybrid Phlox

Part to full sun

Lavender-pink

5"-10" tall

Moist, well-drained soil.

5 to 8

MSP-LSP

18" wide

Prairie Bloom

Long, leafless stalks bear sombrero-shaped flower heads of 3 to 7 drooping petals surrounding a long, red-brown central cone that protruded ½" to 2" above the petals. Long blooming. Leaves on the lower portion of the stem are feathery and deeply cleft. Native to the US. Prairie Bloom Award Winner.

Perennial Flower/Foliage

Rudbeckia fulgida 'American Gold Rush'	Rosmarinus	Full sun	Yellow	16" to 24" tall
NEW Well-drained soil.		4 to 9	SP to F	16" to 24" wide
Repeat-blooming , double yellow flowers bloom from spring through autumn- boast the most blooms out of any Rudbeckia variety. Improved genetics has made this variety tolerant of any Powdery Mildew outbreaks, helping the showy flowers last longer through the autumn. Lush dark green foliage. Excellent choice for the landscape or cut flowers.				
Rudbeckia fulgida 'Early Bird Gold'	Black-eyed Susan	Full sun	Golden yellow	2' tall
Any soil; drought tolerant.		4 to 10	LSP-MF	18"-24" wide
	Attracts Butterflies		Rabbit Resistant	Deer Resistant
Strike gold with this Black Eyed Susan! Begins blooming in the late spring with the onset of warm weather, and continues through fall! This is a day length neutral sport of 'Goldsturm', hence the reason for the long bloom season.				
Rudbeckia fulgida 'Goldsturm'	Black Eyed Susan; Coneflower	Full sun	Bright gold	20"-24" tall
Any soil; drought tolerant.		4 to 10	MSU-EF	16"-24" wide
Prairie Bloom	Attracts Butterflies		Rabbit Resistant	Deer Resistant
Long lasting 3" to 4" daisy-like flowers with black cones; choice selection for sunny locations; no staking needed; very easy to grow and extremely durable; ground cover; PPA Perennial Plant of the Year 1999; Prairie Bloom Award Winner.				
Rudbeckia hirta 'Cherry Brandy'	Black Eyed Susan; Coneflower	Part to full sun	Cherry red shades	20"-24" tall
Any soil; drought tolerant.		5 or 6	MSU-F	18" wide
	Attracts Butterflies		Rabbit Resistant	Deer Resistant
An exciting new color in Rudbeckia! Masses of 3" flowers in unique cherry red shades cover the plants from mid summer to frost. Heat-tolerant plants are excellent in gardens and large containers, and makes a good, sturdy-stemmed cut flower.				
Rudbeckia hirta 'Denver Daisy'	Black-eyed Susan	Full sun	Bright yellow and mahogany	18"-28" tall
Any soil; drought tolerant.		5 or 6	ESU-LSU	15"-18" wide
Prairie Star	Attracts Butterflies		Rabbit Resistant	Deer Resistant
Eye-catching, 6" to 8" wide bright yellow blooms with large mahogany eyes adorn these well-branched plants. Selected by the City and County of Denver to commemorate their 150th anniversary in 2008. Plant Select Award Winner.				
Rudbeckia hirta 'Irish Eyes'	Black Eyed Susan; Coneflower	Full sun	Yellow with green	30" tall
Any soil; drought tolerant.		5 or 6	SU	18" wide
	Attracts Butterflies		Rabbit Resistant	Deer Resistant
Profuse bloomer of attractive 4" to 5" single yellow flowers with clear green cones; often reseeds.				
Rudbeckia nitida 'Herbstsonne'	Greenheaded Coneflower	Full sun	Golden yellow	5'-8' tall
Any soil; drought tolerant.		4 to 10	ESU-LSU	3' wide
	Attracts Butterflies		Rabbit Resistant	Deer Resistant
Single golden yellow daisies with lime green cones. Blooms all summer, needs no staking, and attracts butterflies! Can be cut back in July and kept at 3' to 4' in flower. Syn. 'Autumn Sun'. One of Rita's favorite plants!				
Rudbeckia 'Viette's Little Suzy'	Black Eyed Susan; Coneflower	Part to full sun	Golden yellow	1'-2' tall
Any soil; drought tolerant.		4 to 10	SU	15" wide
	Attracts Butterflies		Rabbit Resistant	Deer Resistant
Darling dwarf Brown-Eyed Susan with masses of small, deep golden yellow blooms. Great for front borders or mass plantings. Blooms of Bressingham introduction.				

Perennial Flower/Foliage							
Rumex sanguineus v. sanguineus	Red Veined Dock; Bloody Dock; Bloodwort; Bloody Wood Dock	Part to full sun	Pale green	15" tall			
Moist to boggy soil.		5 to 9	MSU-LSU	12"-15" wide			
Long, narrow green leaves with prominent mahogany-red veining. Small pale green flowers turn to reddish brown in terminal panicles; cut off the flower head when it starts to form to keep the foliage looking nice. Dynamite with dark foliated Heucheras in a part shade location. Vigorous plants, though they must be grown in perpetually moist soil. The young leaves are edible raw- they taste like spinach or chard and add considerable color to a salad! The older leaves are rather tough, but can still be used in stir-fries.							
Sagina subulata 'Irish Moss'	Corsican Pearlwort	Full shade	White	2" tall			
Must have moist, well-drained soil.		4 to 7	SU	6"-12" wide			
	Ground cover	Foot traffic- Heavy foot traffic (3 or more times a day)					Deer Resistant
Dense tufts of slender stems grow together to form a lush carpet of emerald green; tiny star-shaped white flowers; ideal as a ground cover, terrific between rocks and stones; withstands foot traffic.							
Sagina subulata 'Scotch Moss' (syn. 'Aurea')	Corsican Pearlwort	Full shade	White	2" tall			
Must have moist, well-drained soil.		4 to 7	SU	6"-12" wide			
	Ground cover	Foot traffic- Heavy foot traffic (3 or more times a day)					Deer Resistant
Dense tufts of slender stems grow together to form a lush carpet of yellow-green; tiny star-shaped white flowers; ideal as a ground cover, terrific between rocks and stones; withstands foot traffic.							
Salvia darcyi x microphylla 'Windwalker Royal Red'	Sage	Full sun	Blood red	3'-4' tall			
Well-drained soil; drought tolerant.		5 to 9	SU-F	3' wide			
		Attracts Butterflies	Attracts Hummingbirds	Rabbit Resistant			Deer Resistant
A robust grower with graceful stems. The plants are smothered with blood red flowers, making it a hummingbird magnet from summer to fall! Drought tolerant once established. Plant Select Award Winner.							
Salvia greggii 'Furman's Red'	Autumn Sage	Part to full sun	Dark crimson-scarlet	18"-24" tall			
Prefers moist, well-drained soil; drought tolerant.		5b to 10	SU-F	12"-14" wide			
		Attracts Butterflies	Attracts Hummingbirds	Rabbit Resistant			Deer Resistant
Crimson-scarlet flowers are produced in repeated flushes from summer to fall. This woody perennial blooms best and has the nicest looking foliage if it is cut back to a few inches tall in early spring. Plant Select Award Winner!							
Salvia nemorosa 'Blue Marvel'	Meadow Sage; Perennial Salvia	Full sun	Violet-blue	12"-14" tall			
Prefers moist, well-drained soil; drought tolerant.		4 to 9	EPS-F	10"-12" wide			
		Attracts Butterflies	Attracts Hummingbirds	Rabbit Resistant			Deer Resistant
Truly a marvel to behold! This selection boasts the largest flowers in its class! Ultra large blooms appear atop naturally compact stems. Reblooms reliably until frost. Nearly hand-sized, large, wide flower spikes are a gorgeous violet-blue. Very well-branched plants.							

Perennial Flower/Foliage

Salvia nemorosa 'Caradonna'	Meadow Sage; Perennial Salvia	Full sun	Violet	18"-30" tall
Prefers moist, well-drained soil; drought tolerant.		3 to 8	SU	1' wide
	Attracts Butterflies		Attracts Hummingbirds	Rabbit Resistant Deer Resistant
Striking purple-black flower stems; gray-green foliage.				

Salvia nemorosa 'May Night'	Meadow Sage; Perennial Salvia	Full sun	Deep indigo-purple	16"-18" tall
Prefers moist, well-drained soil; drought tolerant.		3 to 8	LSP-MF	16"-24" wide
	Attracts Butterflies		Attracts Hummingbirds	Rabbit Resistant Deer Resistant
This outstanding cultivar has a compact habit and splendid deep indigo-purple flowers throughout the summer; spectacular with Achillea 'Moonshine'; PPA Perennial Plant of the Year 1997; Prairie Bloom Award Winner.				

Salvia nemorosa 'Rose Marvel'	Meadow Sage; Perennial Salvia	Full sun	Rose	10" to 12" tall
NEW Prefers moist, well-drained soil; drought tolerant.		4 to 9	SP to SU	10" to 12" wide
The largest flowers of any rose or pink Salvia nemorosa on the market. Enjoy the stunning display of color in spring and summer. Brings a rich, deep rose color to the popular 'Marvel' family. Features a long flowering window and reblooms without being cut back. Ultra-large flowers provide more color and impact in the landscape.				

Salvia nemorosa 'Sallyrosa April Night'	Meadow Sage	Full sun	Deep Indigo-purple	18" tall
Prefers moist, well-drained soil; drought tolerant.		4 to 9	LSP-SU	24" wide
	Attracts Butterflies		Attracts Hummingbirds	Rabbit Resistant Deer Resistant
Looks exactly like Salvia 'May Night', but blooms one month earlier! It has an upright plant habit with large blue flowers. Mildew resistant with drought tolerance. Ideal for pots and gardens. Has better branching and fuller appearance than 'May Night'.				

Salvia reptans 'Autumn Sapphire'	Sage	Full sun	Bright blue and white	18"-24" tall
Well-drained soil; drought tolerant.		10-May	EF-MF	15"-18" wide
Selected for its compact and consistent growth habit. Bright green, willowy leaves- unusual for xeriscapes. Bright blue flowers with a white eye appear in early autumn and continue til frost- perfect for pollinators. Plants should be cut back in spring, but otherwise are low maintenance. These will make an excellent plant for xeriscapes, borders, and the late season garden. Has a consistent habit and performance and will adapt to a wide range of garden conditions as long as good winter drainage is provided. Plant Select Award Winner!				

Sanguisorba 'Little Angel'	Burnet	Part to full sun	Rosy Red	8" to 10" tall
Moist, well-drained soil		4 to 9	LSP to F	8" to 12" wide
This compact, variegated plant is the perfect choice for those looking for a container plant or a small scale plant for the front of the border. Tiny, deep green leaves have creamy white margins that form panicles - reminiscent of matchsticks - that pop out the top of the plant. This perennial has been in retail in Japan for a number of years, and is recently making a splash in the European and American markets, thanks to Osco Garden and Luc Klinkhammer of the Netherlands.				

Santolina incana	Lavender Cotton	Full sun	Gold	12"-18" tall
Very well-drained soil.		6 to 10	SU	15" wide
Dense mounds of feathery silver foliage; used for edging and low shrubs.				

Perennial Flower/Foliage

Saponaria ocymoides

Rock Soapwort

Part to full sun

Bright pink

6"-8" tall

Well-drained soil.

3 to 7

LSP-ESU

20" wide

Ground cover

Attracts Butterflies

Attracts Hummingbirds

Rabbit Resistant

Deer Resistant

Semi-evergreen prostrate foliage; good rock garden plant; vigorous; abundant flowers; ground cover.

Scabiosa 'Flutter Blue'

Pincushion Flower

Part to full sun

Deep lavender-blue

12"-14" tall

Rich, well-drained soil.

5 to 9

LSP-MF

10"-12" wide

Shorter, delicate stems hold pincushion flowers above compact, mildew-tolerant plants that are a big improvement over older varieties. Larger blooms of deeper lavender-blue, and a better habit than older cultivars.

Scabiosa 'Flutter Rose Pink'

Pincushion Flower

Part to full sun

Deep pink

12"-14" tall

Rich, well-drained soil.

5 to 9

LSP-MF

10"-12" wide

Shorter, delicate stems hold pincushion flowers above compact, mildew-tolerant plants that are a big improvement over older varieties. Larger blooms of deeper pink, and a better habit than older cultivars.

Scrophularia macrantha

Red Birds in a Tree

Part to full sun

Brilliant crimson-red

3' tall

Well-drained soil; does not like clay; drought-tolerant once established.

5 to 9

LSP-F

18" wide

This rare Penstemon cousin has brilliant cherry red, tubular flowers edged in white that look just like birds! The flowers are produced in generous sprays above the rich green serrated foliage. This plant has a tall, graceful habit and will "lean" on neighboring plants for support. Loved by hummingbirds! Easy to grow and not fussy about the soil.

Sedum album chloroticum 'Baby Tears'

Stonecrop; Ground cover Sedum

Part to full sun

White

1"-2" tall

Must have well-drained soil; drought tolerant.

3 to 9

SU

6"-8" wide

Ground cover

Foot traffic- Light foot traffic (1 or 2 times a week)

Attracts Butterflies

Rabbit Resistant

Low-growing rosettes of teardrop-shaped brilliant green foliage, turning red in the winter; great for rock garden paths, or spilling over banks and rock walls; withstands foot traffic.

Sedum album 'Coral Carpet'

Stonecrop; Ground cover Sedum

Part to full sun

Pale pink

2" tall

Must have well-drained soil; drought tolerant.

3 to 9

SU

1' wide

Ground cover

Foot traffic- Light foot traffic (1 or 2 times a week)

Attracts Butterflies

Rabbit Resistant

Foliage is red nearly all year, turning green in the summer; withstands foot traffic.

Sedum cauticola 'Lidakense'

Stonecrop; Ground cover Sedum

Part to full sun

Deep pink

4" tall

Must have well-drained soil; drought tolerant.

3 to 9

LSU-MF

10" wide

Attracts Butterflies

Rabbit Resistant

Mounds of purplish foliage.

Perennial Flower/Foliage

Sedum globosum 'Old Man Bones'	Stonecrop; Ground cover Sedum	Part to full sun	Yellow	4" tall
Must have well-drained soil; drought tolerant.		3 to 9	SU	1' wide
Attracts Butterflies			Rabbit Resistant	

Interesting deep green to bronze colored, globular, puffed leaves.

Sedum hispanicum 'Purple Form'	Stonecrop; Ground cover Sedum	Part to full sun	Light pink	1" tall
Must have well-drained soil; drought tolerant.		3 to 9	SU	6" wide
Ground cover	Foot traffic- Light foot traffic (1 or 2 times a week)	Attracts Butterflies	Rabbit Resistant	

Tight blue foliage changes to deep blue and then to lovely hues of purple when cold; withstands foot traffic.

Sedum humifusum	Stonecrop; Ground cover Sedum	Full sun	Brilliant yellow	1/2"-1" tall
Must have well-drained soil; drought tolerant.		4 to 9	ESU	4"-10" wide
Ground cover	Foot traffic- Moderate foot traffic (1 or 2 times a day)	Attracts Butterflies	Rabbit Resistant	

Super tiny and tight, deep green foliage in the spring turns bright red in the heat and cold; creeping, branching stems; will reseed and give off many freebies in your garden; star-like flowers; evergreen; withstands moderate foot traffic; fast growing.

Sedum 'Jelly Beans'	Stonecrop; Ground cover Sedum	Part to full sun	White	3" tall
Must have well-drained soil; drought tolerant.		3 to 9	SU	1' wide
Attracts Butterflies			Rabbit Resistant	

Rapid growing ground cover of small succulent foliage resembling a mass of small jelly beans.

Sedum kamtschaticum	Stonecrop; Ground cover Sedum	Part to full sun	Orange-yellow	4"-9" tall
Must have well-drained soil; drought tolerant.		3 to 9	ESU-MSU	1' wide
Foot traffic	Attracts Butterflies	Rabbit Resistant		

Kamtschatka Sedum, Russian Stonecrop; Solid dark green leaves have scalloped edges; clusters of reddish yellow buds open to orange-yellow flowers which are followed by red seed pods; withstands foot traffic.

Sedum 'Lemon Ball'	Stonecrop; Ground cover Sedum	Full sun	Insignificant	4" tall
Must have well-drained soil; drought tolerant.		3 to 10	SU	16"-24" wide
Attracts Butterflies			Rabbit Resistant	

Nifty bright chartreuse mounding/trailing succulent foliage spills nicely from containers or over a raised border edge. Sturdier and less apt to shatter than S. 'Angelina'.

Perennial Flower/Foliage

Sedum lineare 'Golden Teardrop'	Stonecrop; Ground cover Sedum	Part to full sun	Yellow	2"-4" tall
Must have well-drained soil; drought tolerant.		3 to 9	SU	12"-18" wide
	Attracts Butterflies			Rabbit Resistant

Fast growing plants; good trailer for planters or baskets.

Sedum Rock Garden Blend	Stonecrop; Ground cover Sedum	Part to full sun	Red and yellow	2"-5" tall
Must have well-drained soil; drought tolerant.		3 to 9	SU	8" wide
	Attracts Butterflies			Rabbit Resistant

Hardy mixture; prostrate plants.

Sedum 'Rock 'N Grow Superstar'	Stonecrop; Ground cover Sedum	Part to full sun	Rose Pink	6" tall
NEW Must have well-drained soil; drought tolerant.		4 to 9	LSU-EF	12" to 16" wide

This low maintenance, compact Stonecrop will be the star of your late summer garden. Dark turquoise succulent leaves have a smoky gray overlay. Later in the season, rosy pink flowers with hot pink carpels explode over the dome-like habit with great flower coverage. Dark purple seed heads extend the color long have it has finished blooming. Although compact, 'Superstar' is more of an intermediate groundcover, more in line with the height of the popular 'Pure Joy'.

Sedum rupestre 'Angelina'	Stonecrop; Ground cover Sedum	Part to full sun	Yellow	3"-6" tall
Must have well-drained soil; drought tolerant.		3 to 9	ESU-MSU	10"-12" wide
	Attracts Butterflies			Rabbit Resistant

A nice, easy plant that pleases most everyone; a quick spreading ground cover with brilliant golden yellow needle-shaped foliage with a tinge of chartreuse; foliage takes on orange and red hues in the fall; prefers well-drained soil and to be kept on the dry side; trailing habit; great for trailing over the edge of containers and rock walls; from Croatia.

Sedum sediforme	Pale Stonecrop	Full sun	Bright yellow	6"-8" tall
Must have well-drained soil; drought tolerant.		3	MSU-LSU	1'+ wide
	Attracts Butterflies			Rabbit Resistant

Sturdy, upright stems bear attractive, blue-gray, "bony" foliage. Stems are topped with bright yellow flowers. It is an excellent rock garden plant and needs good soil drainage.

Sedum sieboldii	Stonecrop; Ground cover Sedum	Part to full sun	Pink	6" tall
Must have well-drained soil; drought tolerant.		3 to 9	EF-MF	2' wide
	Attracts Butterflies			Rabbit Resistant

October Daphne Sedum; Thick blue-gray leaves with a thin rosy red margin on arching stems.

Sedum spathulifolium 'Cape Blanco'	Stonecrop; Ground cover Sedum	Part to full sun	Yellow	2" tall
Must have well-drained soil; drought tolerant.		3 to 9	SU	8" wide
	Attracts Butterflies			Rabbit Resistant

Silvery foliage forms thick rosettes with a cushion habit; evergreen.

Perennial Flower/Foliage

Sedum spurium 'Dragon's Blood'	Stonecrop; Ground cover Sedum	Part to full sun	Dark red	3"-4" tall
Must have well-drained soil; drought tolerant.		3 to 9	ESU-LSU	1' wide

Attracts Butterflies

Rabbit Resistant

Deep green leaves with a reddish bronze tint and red fall color; evergreen.

Sedum spurium 'Fulda Glow'	Stonecrop; Ground cover Sedum	Part to full sun	Scarlet	2"-6" tall
Must have well-drained soil; drought tolerant.		3 to 9	ESU-LSU	10" wide

Attracts Butterflies

Rabbit Resistant

Foliage stays bronze-red all season; an improved S. 'Dragon's Blood'; tight mat-like growth.

Sedum spurium 'John Creech'	Stonecrop; Ground cover Sedum	Part to full sun	Pink	2"-4" tall
Must have well-drained soil; drought tolerant.		3 to 9	ESU-MSU	1' wide

Ground cover

Foot traffic-
Moderate foot
traffic (1 or 2 times
a day)

Attracts Butterflies

Rabbit Resistant

Neat blue-green overlapping scalloped leaves; foliage turns burgundy in the fall; very rot-resistant; good weed-smothering ground cover is perfect for pathways, patios, and rock gardens; withstands foot traffic.

Sedum spurium 'Ruby Mantle'	Stonecrop; Ground cover Sedum	Part to full sun	Pink to red	4"-6" tall
Must have well-drained soil; drought tolerant.		2 to 6	ESU-MSU	2' wide

Attracts Butterflies

Rabbit Resistant

Dense mat of stunning burgundy-red foliage. Pink-red star-shaped flowers. Deer resistant. Great in rock gardens or on green roofs.

Sedum spurium 'Tricolor'	Stonecrop; Ground cover Sedum	Part to full sun	Pink	4"-5" tall
Must have well-drained soil; drought tolerant.		3 to 9	ESU-MSU	1' wide

Attracts Butterflies

Rabbit Resistant

Bright variety with pink, cream, and green variegation; striking contrast plant.

Sedum 'Sunsparkler Blue Pearl'	Stonecrop; Ground cover Sedum	Part to full sun	Brilliant pink	20" tall
Must have well-drained soil; drought tolerant.		4 to 9	LSU	15"-18" wide

Attracts Butterflies

Rabbit Resistant

Butterflies love the brilliant pink flowers! Nonfading deep blue foliage. Its blue foliage actually intensifies throughout the season, adding vibrant color to beds and borders. Deer resistant. Heat and drought tolerant.

Perennial Flower/Foliage

Sedum 'Sunsparkler Cherry Tart'	Stonecrop; Ground cover Sedum	Part to full sun	Brilliant pink	4"-6" tall
Must have well-drained soil; drought tolerant.		4 to 9	LSU-EF	18" wide

Attracts Butterflies

Rabbit Resistant

Offers never-before-seen cherry red tinted foliage on short, compact, mounding plants. Retains its red foliage color from spring to fall! Large, 5" wide clusters of brilliant pink flowers add to the show! Perfect for the landscape or container garden.

Sedum 'Sunsparkler Dazzleberry' (formerly 'Razzleberry')	Stonecrop; Ground cover Sedum	Part to full sun	Raspberry red	6"-8" tall
Must have well-drained soil; drought tolerant.		3 to 9	LSU-EF	18" wide

Attracts Butterflies

Rabbit Resistant

Giant 9" wide flowerheads of brilliant raspberry red and are visible up to 300 feet away! Ultra compact smokey blue-gray foliage that is disease free, and not affected by Sedum Leaf Scorch. Earlier blooming than other similar Sedums. Over 7 weeks of non-fading flower color! Foliage turns deep purple in autumn.

Sedum 'Sunsparkler Firecracker'	Stonecrop; Ground cover Sedum	Part to full sun	Hot pink	4"-6" tall
Must have well-drained soil; drought tolerant.		3 to 9	LSU-EF	12"-18" wide

A vision in the summer garden with beet red foliage and hot pink flowers that stand up to the heat beautifully, adding their tantalizing color show for 4 weeks or more! This dazzling stonecrop boasts a compact, upright habit, glossy foliage and hot pink, butterfly-attracting flowers held on ruby red stems. Remarkable for its ability to hold its color all summer, and, of course, the drought tolerance that sedums are known for.

Sedum 'Sunsparkler Plum Dazzled'	Stonecrop; Ground cover Sedum	Part to full sun	Magenta	6" to 8" tall
NEW Must have well-drained soil; drought tolerant.		4 to 9	LSU to LF	16" to 18" wide

Add a little dazzle to your garden with Sedum SunSparkler 'Plum Dazzled'. It creates a beautiful mounding habit that stand 8" tall and spreads up to 18" wide. It is a sport of 'Dazzleberry' featuring 40% darker coloration and blooming 2 to 3 weeks later. In the spring, foliage starts off a deep plum color and lasts throughout the season. In the late summer large 8" magenta blooms cover the dark foliage and give over 6 weeks of color. Needs a full sun location with average to dry soil conditions. Enjoy the bright pop of foliage and flower color of 'Plum Dazzled' Sedum in your rock gardens, as a border, or in container gardens. Plant in mass for big impact or plant just one for that perfect garden specimen.

Sedum 'Sunsparkler Wildfire'	Stonecrop; Ground cover Sedum	Part to full sun	Pink	6" tall
Must have well-drained soil; drought tolerant.		3 to 9	LSU-EF	18" wide

Rabbit Resistant

Deer Resistant

This is a dense, compact ground cover, which form nonsplitting clumps of intense bright red foliage with magenta accents. This variegated sport of Sedum 'Firecracker' is covered with rounded, burgundy-red leaves, each circled by a hot pink halo; this wonderful color combination turns orange in the fall! The color is most vibrant in a location with full sun, and holds from spring until a hard frost. A vigorous grower, its habit is rounded and upright, giving it a mounding appearance. An excellent addition to a rock garden or perennial border, where it will provide a blaze of color of all season! In August to September, this sedum forms 3 inch large clumps of deep pink flowers heads that contrast with deep burgundy red foliage. The Sunsparkler series blooms weeks earlier than many other sedum varieties and show color up to 1.5 months. An excellent addition to a rock garden or perennial border, where it will provide a blaze of color all season! The low growing, mounding sedums are a great selection for rock gardens, slopes, borders, and containers. Sedums are a drought tolerant plant and show even more rich colors when they are in full sun and kept on the drier side (once established). 'Wildfire' is an easy to grow variety of Sedum.

Sedum tetractinum 'Coral Reef'	Stonecrop; Ground cover Sedum	Part to full sun	Bright yellow	3" tall
Must have well-drained soil; drought tolerant.		3 to 9	MSU	18" wide

Attracts Butterflies

Rabbit Resistant

Chinese Sedum; Flat leaves are green in summer, turning a rich, red-bronze in fall; very drought tolerant- use in rock gardens, as a ground cover, or in topiaries.

Perennial Flower/Foliage

Sedum, Tall 'Maestro'

Autumn Stonecrop

Full sun

Light pink

18" tall

Must have well-drained soil; drought tolerant.

3 to 9

LSU

18" wide

This sport of S. 'Matrona' has large blue-green leaves on bright purple, upright stems. The 5" to 7" flower heads bear red buds and light pink blossoms. Compact habit.

Sedum, Tall 'Mr. Goodbud'

Live Forever

Full sun

Dark mauve to vibrant purple-pink

15" foliage/17" flowers tall

Must have well-drained soil; drought tolerant.

3 to 9

LSU-F

14" wide

Attracts Butterflies

Rabbit Resistant

Tight foliage and strongly contrasting colors between its light buds and dark mauve to vibrant purple-pink flowers. Richer tones and better foliage than S. 'Brilliant'. In late summer, large 5"-6" clusters of flowers appear on purple-red stems atop the compact, upright clumps of deep blue-green, serrated foliage. The stems are very strong and relatively short, resisting flopping and remaining standing through winter. If left standing, they provide winter interest and feed for birds.

Sedum, Tall spectabile 'Autumn Fire'

Autumn Stonecrop

Full sun

Copper to bronze

18"-24" tall

Must have well-drained soil; drought tolerant.

3 to 9

MSU-EF

15"-20" wide

Prairie Bloom

Attracts Butterflies

Rabbit Resistant

Deer Resistant

Showy Stonecrop; This improved form of S. 'Autumn Joy' has a more consistent flower height, thicker growth habit, and is more attractive looking, as it does not disintegrate at the peak of bloom!; flowers first appear in mid summer and change from green to coppery pink to bronzy red; Prairie Bloom Award Winner.

Sedum, Tall spectabile 'Neon'

Autumn Stonecrop

Full sun

Deep purple-pink

15"-24" tall

Must have well-drained soil; drought tolerant.

3 to 9

LSU

10"-15" wide

Attracts Butterflies

Deer Resistant

Large heads of fairly tight, deep brick red foliage.

Perennial Flower/Foliage

Sempervivum 'Ruby Heart'	Hen & Chicks; Houseleek	Full sun	Pinkish purple	2"-8" tall
Must have well-drained soil; drought tolerant.		3 to 8	MSU	10"-12" wide
Ground cover			Rabbit Resistant	Deer Resistant

Rosettes of sharply pointed, silvery blue to blue-green leaves are flushed rosy red at the base. Color varies by season. The dense rosettes start red, turning green with red margins as they grow larger. Pinkish purple flowers are held aloft on short, leafy stalks.

Sempervivum 'Silverine'	Hen & Chicks; Houseleek	Full sun	Rosy red	3" tall
Must have well-drained soil; drought tolerant.		3 to 8	ESU-MSU	10"-15" wide
Ground cover			Rabbit Resistant	Deer Resistant

Off-green rosettes with red blended in.

Sempervivum tectorum 'Hopewell'	Hen & Chicks; Houseleek	Full sun		4" to 6" tall
Must have well-drained soil; drought tolerant.		2 to 9	MSU	6" to 12' wide

Large rosettes of pointed green leaves flush with rose at the base. Excellent for strawberry jars or other containers, miniature gardens, rock gardens, green roofs, and walls. Attractive at garden's edge or as a small-scale groundcover. Very drought tolerant. Short spikes of pastel flowers appear in summer. Easily increased by just removed the small baby rosettes and replanting in a new location at almost anytime. At flowering, the mother rosette dies to leave room for the chicks: remove by tugging gently at the base of the bloom stem.

Sempervivum tectorum 'Oddity'	Hen & Chicks; Houseleek	Full sun	Pink	2"-6" tall
Must have well-drained soil; drought tolerant.		3 to 8	SU	6"-12" wide
Ground cover			Rabbit Resistant	Deer Resistant

Rosettes of tubular bright green leaves with dark red to black edges- very different!

Silene dioica 'Clifford Moor'	Campion; Catchfly	Part to full sun	Pink	12"-18" tall
Well-drained soil.		6	LSP-MSU	12"-18" wide
Ground cover		Attracts Butterflies		

Deep green leaves have wide creamy gold margins; single pink flowers; does well in hot, dry areas.

Silene uniflora 'Druett's Variegated'	Campion; Catchfly	Part sun	White	3"-4" tall
Moist, well-drained soil.		4	SU	1' wide
Ground cover		Attracts Butterflies		

A fabulous ground cover with cream-edged mint green leaves; large, puffy flowers.

Sisyrinchium bermudianum (syn. 'Lucerne')	Blue-Eyed Grass	Part to full sun	Blue	10" tall
Moist, well-drained soil.		5 to 8	SP-SU	6"-8" wide

Perky blue star-like flowers rise brightly out of mounds of narrow, iris-like dark green leaves; compact; syn. 'Lucerne'.

Perennial Flower/Foliage

Solidago rugosa 'Fireworks'	Goldenrod	Full sun	Gold	3'-4' tall
Well-drained soil.		3 to 8	LSU-F	18" wide

Attracts Butterflies

Compact clump forming plants with a radiating flower form that really looks like fireworks!

Spigelia marilandica	Indian Pink; Woodland Pinkroot; Wormgrass	Part to full shade	Deep red and yellow	12"-18" tall
Rich, moist, well-drained soil.		5 to 9	LSP-ESU	12"-18" wide

Attracts Hummingbirds

Spectacular bushy, compact plants with glossy, medium green lance-shaped leaves are topped with dozens of upward facing deep red firecracker flowers that flare at the top to show off a star-shaped yellow opening; grows best in dappled shade in moist soil; one of the best plants for attracting hummingbirds! A very hardy plant, though it is best planted in the garden by the end of June for reliable success.

Stachys byzantina 'Helen von Stein'	Lamb's Ears	Full sun	Pink	8"-12" tall
Well-drained soil.		4 to 10	SU	8"-10" wide

Ground cover

Rabbit Resistant Deer Resistant

Giant Lamb's Ear; Woolly lamb's ear has huge leaves, twice the size of its little cousin; fine ground cover; strong clumping habit; does excellent in hot weather and humidity; divide every 2 to 3 years; rarely flowers.

Stachys lanata 'Fuzzy Wuzzy'	Lamb's Ears	Part to full sun	Magenta-lavender	12"-18" tall
Well-drained, average sandy to clay soil.		4 to 8	ESU-MSU	12"-23" wide

Rabbit Resistant Deer Resistant

This selection forms a dense carpet of soft and fuzzy silver leaves, bearing upright spikes of magenta-lavender flowers in early summer. Spent blooms may be clipped off to tidy up the clumps for the rest of the summer. Drought tolerant once established.

Stachys 'Lilac Falls'	Stachys x Lamium	Part to full sun	Lilac	8"-16" tall
Well-drained soil.		5 to 9	MSP-LSU	20"-36" wide

A new hybrid cross between Stachys and Lamium. Combines with hardiness of Stachys with the flower power of Lamium! Very long blooming, trailing plants make a beautiful groundcover, as well as trailing out of hanging baskets and containers. Great branching habit with a continuous show of flowers. Very heat tolerant.

Stylophorum diphyllum	Golden Wood Poppy; Celandine Poppy; Flaming Poppy; Yellow Poppy	Full shade	Gold	20" tall
Rich, moist soil.		4 to 9	SP	12"-18" wide

2" flowers atop deeply incised, hairy, green leaves; US native.

Light, well-drained soil; drought tolerant.		4 to 10	LSP	4' wide
			Attracts Hummingbirds	Rabbit Resistant Deer Resistant

A stately exotic specimen plant; evergreen sword-like leaves; dense clusters of pendulous bell-shaped creamy white flowers.

Yucca filamentosa	Adam's Needle; Desert Candle	Full sun	Creamy white	20"/6' tall
Light, well-drained soil; drought tolerant.		4 to 10	LSP	4' wide
			Attracts Hummingbirds	Rabbit Resistant Deer Resistant

A stately exotic specimen plant; evergreen sword-like leaves; dense clusters of pendulous bell-shaped creamy white flowers.

Yucca filamentosa 'Golden Sword'	Adam's Needle; Desert Candle	Full sun	Creamy white	20"-36" tall
Light, well-drained soil; drought tolerant.		4 to 10	LSP	2' wide

Boldly striped green and creamy yellow sword-like leaves are topped by tall, showy spikes of fragrant, ivory white blooms in spring. Forms dramatic clumps with age. Use to create contrasting textures as a garden accent or container plant. Once established, needs only occasional watering.

Perennial Grass

Andropogon 'Black Hawk'

Big Bluestem

Full sun

Burgundy Red

5' to 6' tall

Many soil types.

4 to 9

LSU

2' wide

Black Big Bluestem. This is a native ornamental grass that was selected for its dark green and eventually deep purple, nearly black, fall color. In August, with cool nights the whole plant darkens with the tips and nodes turning purple below burgundy red flowers. As September progresses, almost the entire plant deepens to dark purple, near black. Stands out in the landscape, especially with other tall grasses. The upright clumping plants grow 5'+ tall and prefer a well drained soil in full sun.

Arundo donax

Giant Reed

Full sun

Purple to beige

9'-18' tall

Moist, well-drained soil.

6 to 11

EF

3' wide

Deer Resistant

Bold, dramatic blue-green foliage; huge feather-like purple flowers mature to beige; great winter interest.

Arundo donax 'Golden Chain'

Giant Reed

Part to full sun

Copper

5'-7' tall

Moist, well-drained soil.

6 to 11

MS-EF

5'-10' wide

Deer Resistant

A more compact Arundo for smaller gardens. This mutation of 'Variegata' boasts brighter gold and green striped foliage and a smaller, less aggressive habit. Erect clumps of showy foliage- great for adding a tropical flare to the landscape! Vibrant variegation lasts all season. Showy copper panicles appear in warm climates (most likely will not in Kansas).

Arundo donax 'Peppermint Stick'

Giant Reed

Part to full sun

Beige

7'-12' tall

Moist, well-drained soil.

6 to 11

MF

5' wide

Deer Resistant

An improvement over 'Variegata' in its ability to maintain its variegation all season long. A very large, incredibly showy ornamental grass with vivid cream, sage green, and dark green striped foliage and stalks. The ribbon-like leaves are over 3" wide, adding a prominent splash of color to the landscape.

Calamagrostis acutiflora 'Karl Forester'

Feather Reed Grass

Full sun

Red-bronze

5'-6' tall

Any soil.

5

ESU

20"-24" wide

Prairie Bloom

Upright habit; red-bronze blooms mature to rich beige; foliage turns golden tan in the fall; easy to grow; PPA Perennial of the Year 2001; Prairie Bloom.

12"-18" wide

Ground cover

Elegant, graceful, slender green leaves are bordered in gold; syn. 'Kaga Nishiki'.

Perennial Grass

Cortaderia 'Blue Bayou'	Dwarf Pampas Grass	Full sun	Creamy white	5' foliage/6' to 6 1/2' plumes tall
Very well-drained soil, especially during winter; drought tolerant.		6 to 10	SU-F	6' wide

This dwarf blue foliage version of Pampas Grass is a wonderful surprise of nature. A smaller, more compact form, perfect in perennial beds and borders. Because of its size, blue-tinted foliage, and lavish blooms, it is well suited to large decorative urns. Blooms are great additions to fresh or dried flower arrangements.

Eragrostis elliotii 'Wind Dancer'	Love Grass	Full sun	Tan to straw	3'-4' tall
Prefers consistently moist soil, though it is drought tolerant.		6 to 9	MSU	18"-30" wide

Prairie Bloom

A native grass that has a graceful form with narrow, bluish green foliage. These tall plants produce airy flower plumes in mid summer that mature to a tan color in late summer and then a lighter straw color in Autumn. Continues to maintain interest through

Erianthus ravennae (Hardy Pampas)	Syn. Saccharum ravennae; Hardy Pampas Grass; Plume Grass	Full sun	White	9'-12' tall
Very well-drained soil.		5	LSU-F	5'-6' wide

Prairie Bloom (new add. 2013)

Hardier than Cortaderia and the white flowers are narrower; lovely autumn color.

Festuca glauca 'Beyond Blue'	Fescue Grass	Part to full sun	Beige	10" to 12" tall
Loose, well-drained soil.		4 to 10	LSP-SU	15" to 18" wide

Go above and beyond in the garden with the intense blue foliage of this fantastic fescue! The unique foliage color stays bright through all seasons for year-round interest. Flowers extended above the tidy mounds of fine powder blue blades in late spring and summer. Flowers fade to light brown by late summer and can be cut back if preferred. It is a striking plant as a mass planting in the landscape or as a specimen in mixed containers. This low maintenance gem will thrive despite heat, humidity or poor soils.

Hakonechloa macra 'All Gold'	Hakone Grass	Part sun	Russet	14" tall
Moist, well-drained soil.		3 to 9	LSU-EF	18" tall

Brighten the shade garden naturally with this splendid grass! An upright, vigorous cultivar that grows slowly but surely into a large, magnificent clump. The most spectacular Hakone grass yet, delighting with its exquisite all gold foliage color and its elegant habit. Less cascading and far brighter than H. 'Aureola', this selection adds gleaming yellow tones to the garden. This slow grower shows its best color in partial morning sun, but grows readily in any moist soil, even dense shade (where it will be more chartreuse than golden in color). In late summer to early fall, tiny russet flower spikes top the plants. The flowers may be trimmed or left alone, according to your preference; they are not particularly ornamental. Unpalatable to deer and rabbits, making it a good choice even for open and woodland settings.

Hakonechloa macra 'Aureola'	Hakone Grass	Part sun	Reddish	1'-2' tall
Moist, well-drained soil.		6	MSU-LSU	2' wide

Golden Variegated Hakone Grass; Bright yellow-green variegated foliage turns pinkish red in the fall; PPA Perennial Plant of the Year 2009!

Juncus effusus spiralis	Corkscrew Rush; Bad Hair Day Plant	Part to full sun	Yellow-green to pale brown	14" tall
Prefers moist to boggy soil.		5 to 11	ESU-LSU	12"-18" wide

A small but impressive rush. Humorously nicknamed "Bad Hair Day Plant". Dark green, wire-like foliage grows in a tangle of curious spirals, resembling corkscrews. A warm season, irregular clump forming ornamental grass. Flowers are sparse and insignificant, emerging from the sides of the foliage. Effective as a single plant in a container, or paired with Coleus and other annuals for cool combos! Also makes a great pond or bog plant- preferring very moist to wet conditions (1" to 6" of water over the crown). A great pond or bog plant. Prefers very moist to wet conditions in full sun to part shade. Protect in hot climates by providing shallow water 1-6" over the crown. Refresh the foliage yearly by cutting back the old stems in late winter; bright

Perennial Grass

Juncus 'Twisted Arrows'

Rush

Part to full sun

18"-36" tall

Prefers moist to boggy soil.

5 to 9

12"-18" wide

A cool mix of J. 'Blue Arrows' and J. effusus spiralis. Delivers an intriguing mix of straight and twisted stems, plus the eye-catching blue and green color contrast!

Miscanthus sinensis 'Adagio'

Maiden Grass

This dwarf, fine textured grass has green leaf blades to 15", topped by plumes to 30".

Miscanthus sinensis 'Little Miss'

Maiden Grass

Part to full sun

2' to 3' tall

Moist, well-drained soil.

4 to 10

MSU-MF

2' to 3' wide

This is a stunning variety of from German breeder client Klaus Menzel with more than a few outstanding qualities. Narrow arching foliage emerges green in spring developing carmine and purple tones from early May with strongest coloring in October and November. Clump centers remain fresh and green for a lovely two-tone effect. Reddish flower heads sport buff seed heads from July to October for long season of interest. Vigorous, easy care, drought tolerant once established. Tidy clumping compact habit. Excellent for containers, borders and modern landscape plantings.

Miscanthus sinensis 'Little Zebra'

Maiden Grass

Deer Resistant

Dwarf Zebra Grass; this superior selection holds its green and yellow banding all season; lovely reddish purple plumes; perfect for accent or specimen use; neat, tidy, reliable, and easy to maintain.

Perennial Grass

Miscanthus sinensis 'Morning Light'	Maiden Grass	Part to full sun	Bronzy red	4'-5' tall
Moist, well-drained soil.		5	EF-MF	3'-4' wide
				Rabbit Resistant Deer Resistant

Narrow blades with distinct variegation of green and white stripes give a silvery cast when viewed from a distance; the late season flowers emerge bronzy red in color and turn cream as they age; has a tight yet graceful upright habit; stunning, especially when the late afternoon sun filters through the foliage; a favorite at Arnold's Greenhouse!

Miscanthus sinensis 'Oktoberfest'	Maiden Grass	Part to full sun	Burgundy	6'-7' tall
Moist, well-drained soil.		5 to 9	LSU-EF	3'-4' wide

Wide, deep green leaves with a white midrib form a narrowly upright tower about 4 1/2' tall before blooming. In late summer or early fall, the foliage develops deep purple and red highlights which complement the showy flowers that emerge a rich shade of shimmering burgundy and copper, then mature into fluffy, creamy tan seed heads. Compared with older varieties, it blooms earlier and develops fall color earlier.

Miscanthus sinensis 'Zebrinus'	Zebra Grass	Part to full sun	Pinkish copper	6'-8' tall
Moist, well-drained soil.		5	EF	4' wide
				Rabbit Resistant Deer Resistant

Zebra Grass; Horizontal yellow bands on the foliage; the yellow banding sometimes does not show until early summer; slow to emerge from dormancy in the spring; pinkish copper flowers turn to beige.

Muhlenbergia 'Fast Forward'	Muhly Grass	Part to full sun	Reddish pink to purple	3'-5' tall
Very well-drained soil.		6 to 10	MSU-LSU	2'-3' wide

This Muhly Grass is a standout in August, blooming earlier than other Muhlenbergias. More refined in habit and texture, with clumps of finer, flat blades that are topped with glowing, delicate reddish pink to purple plumes. Use 'Fast Forward' as an accent plant to highlight other fall bloomers like sedums, asters, and mums.

Panicum 'Apache Rose'	Upright Switch Grass	Part to full sun	Rosy red	4' tall
Moist, well-drained soil; drought tolerant.		4 to 9	F	30" wide

Thick and resistant to wind, rain, and other extreme weather elements, 'Apache Rose' provides colorful shelter for birds during the coldest days of winter. Tough enough to stand up to all but the heaviest snow and ice, it is as versatile as it is durable. Perhaps most importantly, it contributes to the beauty and stability of your garden regardless of the season. The dense, upright, columnar habit offers natural hues as well, varying with the season. In fall, rosy red flower panicles develop as a similar hue finds the tips of the gray-green leaves. Adaptable, and tolerant of sweltering heat and humidity. When the wind blows in the fall, the subtle red tones swaying in the breeze and the soothing whistle that accompanies it creates a splendor all its own. Prefers moist soil, though it is drought tolerant once established.

Panicum virgatum 'Dallas Blues'	Blue Switch Grass	Part to full sun	Mauve to gold	5'-7' tall
Moist, well-drained soil; drought tolerant.		5	EF-LF	3'-7' wide

Prairie Bloom (new add. 2013)

Rabbit Resistant Deer Resistant

Blue Switch Grass; Substantive shafts of wide steel blue blades suffused with purple give rise to flowers on 2' stems; lofty pastel mauve flower heads over 22" long have a purple cast; good winter color; a distinctive variety that is sensational in large drifts!

Panicum virgatum 'Northwind'	Upright Switch Grass	Part to full sun	Yellow to beige	4'-6' tall
Moist, well-drained soil; drought tolerant.		4 to 9	LSU-EF	2'-3' wide

Prairie Bloom (new add. 2013)

Rabbit Resistant Deer Resistant

A fast growing variety with beautiful steel blue-green foliage and a strong, upright, clumping habit. Strong growing and drought tolerant, but it will also tolerate boggy soils. Produces a multitude of narrow, open yellow panicles from late summer to early fall. The panicles age from yellow to beige. The unique flower panicles are held in the middle of the clump, rather than arching away from it. The foliage turns a golden yellow color in the fall. Great specimen or background plant for vertical accent. Botanica, The Wichita Gardens, grows this in their children's garden.

Perennial Grass

Pennisetum alopecroides

Fountain Grass

Full sun

Strawberries & Cream Ribbon Grass; green and white striped leaves are blushed with pink; pinkish fall color; rapid spreading habit.

Schizachyrium scoparium 'Prairie Munchkin'

Little Bluestem, Bunchgrass

Part to full sun

Steel-blue edging to honey-wheat

24"-30" tall

Well-drained to dry soil.

3 to 9

LSU-F

20"-24" wide

A wonderful, compact, Little Bluestem, discovered by Don Boehm of Illinois. It could not be more appealing and it is flop-free! Grows in a tight column and remains erect. Begins with celery-green foliage and matures into deep silver-blue with maroon highlights. In autumn, it has deep orange-red hues. Plant in areas of low fertility and well-drained soil. It needs little care!

Schizachyrium scoparium 'Smoke Signal'

Little Bluestem, Bunchgrass

Part to full sun

Tan

3'-4' tall

Well-drained to dry soil.

3 to 9

F

1'-2' wide

Add some vertical interest to your garden or landscape with 'Smoke Signal'! Maintains is strictly upright and tidy habit through fall, without flopping. In the spring and summer, the blue-green blades have a gray sheen over them. As the summer ends, it takes on a deep red color that turns to a deep burgundy-purple in the fall. Contrasting with the fall color, tiny tan seedheads emerge. A great addition to dry, hard to grow areas or erosion control areas, as well as in landscape designs.

Sporobolus heterolepis 'Gone with the Wind' (Prairie Dropseed)

Prairie Dropseed

Full sun

Tan

36" to 40" tall

NEW Well-drained soil.

3 to 9

LS

20" to 24" wide

This is a new seed strain of the native grass known for its hair-like foliage and mass planting appeal. It is shorter than that species, but still maintains many of the characteristics that made this type of grass popular. Its short, green foliage is topped by wispy, airy and aromatic tan flower panicles. The plants, as the names suggests, gently sways with the wind, creating unique movement in the garden. Foliage takes on red overtones in late fall. This grass is very heat and drought tolerant because it is deep rooted. It is often planted en masse as a groundcover or as a specimen. This plant gets its name from the way the tiny mature seeds drop to the ground in the fall. Birds and other wildlife depends on this plant as a nutritious food source.

Bamboo Fargesia dracocephala 'Rufa'

Clump Bamboo

Part to full shade

8'-9' tall

Prefers rich, moist soil.

5

5'-8' wide

Dragons Head Bamboo. Indigenous to the forested mountains of China, "Dragons Head" bamboo grows at elevations from 3,600 to 7,200 feet (in areas inhabited by the giant bamboo, it is one of the bamboos on the pandas' menu). Growing with a weeping habit, it forms a dense clump and can be used to make an almost solid screen if there is sufficient room for a plant with a weeping form. Leaves won't curl in the sun or cold, but protect them from too much hot afternoon sun, or they will burn. This bamboo has beautiful orange-red cane sheaths, which add a glow and warmth that is very appealing. Cane diameter is .5". Its small stature makes this bamboo perfect for a small garden or courtyard planting. Also great as a specimen, screen, hedge, or container planting. Shoot production is truly prolific! Wind tolerant. Plants can suffer damage in extended temperatures of 100 degrees F, and also when humidity levels are above 68% coupled with high temperatures.

Actinidia kolomikta 'Arctic Beauty'

Kiwi Vine, Kolomikta Vine

Part to full sun

Whitish yellow

15'-20' tall

Well-drained

4 to 9

ESU

15'-20' wide

This is a beautiful, restrained, and relatively underutilized woody vine. Its 3" to 5" long, oblong green leaves are boldly splashed with creamy white and flashy pink swaths along the edges. The effect is very pronounced and quite stunning, even from a distance. In early summer, this male vine bears small whitish yellow, fragrant flowers. Give this charmer well-drained soil and watch it ramble up a pergola, fence, or wall. Very fast growing- can grow up to 6' per year. Grant it up to 3 years for the striking variegation to appear.

Akebia quinata

Fiveleaf Akebia; Chocolate Vine

Part to full sun

Brownish purple

30' tall

Well-drained soil.

5 to 9

ESP

3'-4' wide

Spicy scented, brownish purple flowers are borne in pendent racemes in earping spring, followed by fruit that is up to 4" long. Dark green leaves are composed of oblong entire leaflets.

Perennial Vine

Ampelopsis brevipedunculata 'Elegans' Porcelain Vine Part to full sun Creamy white 10'-25' tall

Well-drained soil. 4 to 8 MSU 3'-6' wide

Large grape-leaf shaped green and white speckled foliage. In early fall the ¼" berry fruits mature to a unique porcelain blue color; fruiting is best in full sun; variegation is best in part shade.

Aristolochia durio (macrophylla) Dutchman's Pipe Part to full sun Yellow-green 30' tall

Well-drained soil. 4 to 8 LSP 10'-20' wide

Deciduous woody climber; the 8"-10" wide heart or kidney shaped foliage is attractive and makes a very effective screen for a trellis, arbor, or fence; tube-shaped flowers are yellow-green with maroon veins; rapid grower; syn. A. macrophylla, A. siphon.

Campsis 'Balboa Sunset' Trumpet Vine; Trumpet Creeper Part to full sun Scarlet 25-30 tall

Well-drained soil. 5 to 9 LSP-F 6' wide

Clusters of up to 12 scarlet flowers, each 4" long, are irresistible to hummingbirds; blooms in late spring and off and on through fall; very fast grower.

Campsis radicans Trumpet Vine; Trumpet Creeper Part to full sun Orange 25'-30' tall

Well-drained soil. 5 to 9 SU-EF 3'-4' wide

Fast growing vine with orange trumpet-shaped flowers; syn. Bignonia radicans, Tecoma radicans.

Celastrus scandens (American; poss all female) American Bittersweet Part to full sun Greenish white 15'-20' tall

Moist, well-drained soil. 3 to 8 LSP-ESU 3'-6' wide

American Bittersweet, native to the United States. Not invasive like its Asian counterpart. Our plants are reported to have perfect flowers (possessing both female and male parts for pollination). Grown for its showy orange fruit display in the fall. Vines may be grown on a structure or allowed to ramble along the ground. Avoid growing vines up small trees or through shrubs, as the vines grow rapidly and can girdle trunks and branches. Vines sucker at the roots to form large colonies in the wild.

Celastrus scandens 'Diana' American Bittersweet Part to full sun Yellow-green 36' tall

Moist, well-drained soil. 3 to 8 LSP-ESU 4'-6' wide

Woody, deciduous climber with toothed oval leaves; flowers are borne in racemes, followed by clusters of orange berries with papery orange-yellow husks; must be planted with C. 'Hercules', or it will not bear berries.

Celastrus scandens 'Indian Mix' American Bittersweet Part to full sun Greenish white to 20' tall

Moist, well-drained soil. 4 to 8 LSP-ESU 4'-6' wide

Famous for its colorful orange-red fruits. A vigorous grower that needs a support to grow on. Each container has two plants in it; it could be two males, or two females, or one of each- we don't know. Plant multiple plants to ensure pollination.

Clematis, Bicolor 'Corrine' Vase Vine; Leather Flower; Virgin's Bower Part to full sun White with pink/violet stripe 4'-6' tall

Cool, moist, well-drained soil. 4 to 11 May to Sept 2'-3' wide

Rabbit Resistant Deer Resistant

White petals with ruffly edges and a pink/violet stripe on each petal. This compact, heavy bloomer is great for patio containers as well as in the garden. It flowers from the leaf axils and the ends of the stems, resulting in flowers from ground up! Pruning type II

Perennial Vine

Clematis, Bicolor 'Dr. Ruppel'	Vase Vine; Leather Flower; Virgin's Bower	Full sun to Full shade	Pink	10'-12' tall
Cool, moist, well-drained soil.		4 to 8	May, June, & Sept	2'-3' wide
				Rabbit Resistant Deer Resistant
Pink petals with a deep red center bar; grows well in containers. First flowering comes from last season's ripened stems; watch for swelling leaf buds in spring and cut all dead material above the buds.				

Clematis, Bicolor 'Empress'	Vase Vine; Leather Flower; Virgin's Bower	5-6hr of Sun	Pink and dark pink	6' tall
Cool, moist, well-drained soil.		4 to 8	May, June, August	3'-4' wide
				Rabbit Resistant Deer Resistant
Large, 5" to 6" wide double flowers have pink outer petals that have a darker pink bar. The inner petals produce a spiky pom-pom effect. It is compact and very free-flowering, suitable for containers.				

Clematis, Bicolor 'Josephine'	Vase Vine; Leather Flower; Virgin's Bower	5-6hr of Sun	Blue	7' tall
Cool, moist, well-drained soil.		4 to 8	June to Sept	2'-3' wide
				Rabbit Resistant Deer Resistant
Flowers generally have 8 outer petals which are creamy. First flowering comes from last season's ripened stems; watch for swelling leaf buds in spring and cut all dead material above the buds.				

Clematis, Bicolor 'Kilian Donahue'	Vase Vine; Leather Flower; Virgin's Bower	5-6hr of Sun	Fuchsia and orchid	8'-10' tall
Cool, moist, well-drained soil.		4 to 8	June to September	2'-3' wide
				Rabbit Resistant Deer Resistant
The early flowers open ruby red at the center of the flower, fading to brilliant fuchsia and then orchid color at the edge of a petal. The 5" flowers fade to lavender with a pink bar. An early bloomer that is also a great repeat bloomer throughout the summer.				

Clematis, Bicolor 'Liberation'	Vase Vine; Leather Flower; Virgin's Bower	5-6hr of Sun	Deep pink	8'-10' tall
Cool, moist, well-drained soil.		4 to 8	May, June, Aug, & Sept	2'-3' wide
				Rabbit Resistant Deer Resistant
Deep pink petals with a broad cerise central bar; yellow anthers. First flowering comes from last season's ripened stems; watch for swelling leaf buds in spring and cut all dead material above the buds.				

Clematis, Blue 'Bernadine'	Vase Vine; Leather Flower; Virgin's Bower	5-6hr of Sun	Light lavender-blue	4'-6' tall
Cool, moist, well-drained soil.		4 to 9	LSP-EF	4' wide
The large, silvery light lavender-blue blooms produce a mass of color for compact gardens and landscape. The petals contrast nicely with the magenta stamens. It is amazing how many flowers it puts out in one blooming. Also a great rebloomer, blooming from May to September. Pruning type III.				

Clematis, Blue 'Blue Explosion'	Vase Vine; Leather Flower; Virgin's Bower	5-6hr of Sun	Purple-blue	7 1/2'-9' tall
Cool, moist, well-drained soil.		4 to 9	LSP-EF	4' wide
Creates quite a commotion with an explosion of 5" wide semi-double, purple-blue flowers ignited with pink tips. Lavender-blue single flowers follow on for a totally different enjoyment. A rebloomer that flowers first has double flowers on old wood in May and June, and then single flowers on new wood from July to mid September. Pruning group II.				

Clematis, Blue 'Cezanne'	Vase Vine; Leather Flower; Virgin's Bower	5-6hr of Sun	Blue	3' to 4' tall
Cool, moist, well-drained soil.		4 to 11	LSP to MF	2' to 3' wide
				Attracts Hummingbirds

A Raymond Evison Clematis. Specially bred for containers or patios, Cezanne is an unusual dwarf clematis that boasts of stunning masses of huge over-lapping, powder blue blooms which are 5" to 6" in size, and continue to bloom from May to October. The delicately fragrant lavender flowers look beautiful on the petite vines. It is Type 2 clematis, which means it will bloom primarily on old wood of the previous season, with a second flush later in summer; where necessary, prune it back every second or third year to just above a set of buds about 6 to 8 inches from the ground to allow it to rejuvenate.

Perennial Vine

Clematis, Blue 'Chelsea'

Vase Vine; Leather Flower; Virgin's Bower

5-6hr of Sun

White

2' to 3' tall

NEW Cool, moist, well-drained soil.

4 to 9

MSP to EF

2' to 3' wide

Chelsea is very compact and blooms prolifically from MSP to EF. Named to celebrate the 100th anniversary of the Chelsea Flower Show, it is a crowning achievement of hybridizing. Flowers are white with a bluish or gray tinge (hard to get on camera!) and do best in partial shade. Fantastic for partly shaded patio container. Pruning type 3.

Clematis, Blue 'Crystal Fountain'

Vase Vine; Leather Flower; Virgin's Bower

5-6hr of Sun

Lilac-blue

5'-7' tall

Cool, moist, well-drained soil.

4 to 8

June to Sept

2'-3' wide

Rabbit Resistant

Deer Resistant

An early, large flowered cultivar with lilac-blue flowers with a fountain-like center. Unusual 4" to 5" double flowers. Compact, free flowering and repeat flowering, also suitable for growing in a container, on a trellis, as well as through small shrubs

Clematis, Blue 'Diamantina'

Vase Vine; Leather Flower; Virgin's Bower

Part to full sun

Deep violet blue

8'-10' (compact climber) tall

Cool, moist, well-drained soil.

4 to 9

LSP-EF

3'-4' wide

Rabbit Resistant

Deer Resistant

Lavish 4"-6" flowers are fully double and very long lasting. A repeat performer, blooming throughout the summer, and each gorgeous flower can last up to 4 wks. Makes an excellent cutflower and is stunning arranged with roses. Sport of 'Crystal Fountain'. Can be container grown. Pruning type 2.

Clematis, Blue 'Diana's Delight'

Vase Vine; Leather Flower; Virgin's Bower

5-6hr of Sun

Lilac-blue

4'-8' tall

Cool, moist, well-drained soil.

4 to 8

June to Sept

3' wide

Rabbit Resistant

Deer Resistant

Beautiful rich lilac-blue flowers with a starry cream colored center. The petals form a nicely overlapped bloom. A nice size for patio planters and smaller spaced gardens. Free flowering, with 6" to 7" wide blooms from June through September! Pruning group II.

Clematis, Blue 'Franziska Maria'

Vase Vine; Leather Flower; Virgin's Bower

5-6hr of Sun

Blue-purple

5'-7' tall

Cool, moist, well-drained soil.

4 to 8

June to Sept

3'-5' wide

Rabbit Resistant

Deer Resistant

A very free flowering, compact, double flowering Clematis. Outperforms other double flowering Clematis. It produces the most beautifully shaped double flowers, on both old and new growth. It has numerous flowers per stem. The 4" to 6" blue-purple flowers with yellow anthers are full and follow a repeat flowering pattern, lasting throughout the summer and into early autumn. Great for containers. II

Clematis, Blue 'Lady Northcliffe'

Vase Vine; Leather Flower; Virgin's Bower

5-6hr of Sun

Violet Blue to Lavender Blue

6' to 7' tall

NEW Cool, moist, well-drained soil.

4 to 9

ESU to LSU

2' to 3' wide

A classic hybrid as good today as it was a century ago! Violet-blue flowers open and mature to a lighter, lavender-blue. Blooms in late spring and again at the end of summer with good care. Try growing this with a white rose a for a striking combination! Flower size is 5" to 7". Pruning type 2.

Clematis, Blue 'Rhapsody'

Vase Vine; Leather Flower; Virgin's Bower

5-6hr of Sun

Sapphire blue

8'-10' tall

Cool, moist, well-drained soil.

4 to 8

June to Sept

2'-3' wide

Rabbit Resistant

Deer Resistant

Stunning sapphire blue petals that deepen in color with age. These bloom later & from new growth; prune in Feb-Mar as new leaf buds begin to show—remove all dead material above these buds.

Clematis, Blue 'Roguchi'

Vase Vine; Leather Flower; Virgin's Bower

5-6hr of Sun

Deep blue-purple

6'-9' tall

Cool, moist, well-drained soil.

4 to 8

June to September

2' wide

Rabbit Resistant

Deer Resistant

The 2" bell-shaped flowers are intense deep blue-purple with lighter blue recurved petals. The flowers fade to indigo blue. This lax climber has very fragrant flowers and is very free flowering.

Perennial Vine

Clematis, Pink 'Alaina'

Vase Vine; Leather Flower; Virgin's Bower

5-6hr of Sun

Pink

36" to 40" tall

Cool, moist, well-drained soil.

4 to 11

ESU-MSU and LSU-EF

12" to 16" wide

A Raymond Evison Clematis. Flowering comes in two seasons; first in June and early July, then in August and September and each flower opens a rich and vivid pink, with a dark stripe along the center of each of the six petals. Then, as the flowers mature, they become paler creating a happy harmony of pink shades. Sometimes the petals may be a little twisted creating an appealing sense of movement. They're best planted in at least some shade to help prevent the color fading too much. These clematis flower evenly from the very bottom of the plant, not just at the top. Pruning type 3 - in late winter/early spring simply prune all the stems of the plant to within 6" of the soil level.

Clematis, Pink 'Chantilly'

Vase Vine; Leather Flower; Virgin's Bower

5-6hr of Sun

Soft and deep pink

3'-4' tall

Cool, moist, well-drained soil.

4 to 8

May to August

2' wide

Rabbit Resistant

Deer Resistant

An exciting compact variety from Raymond Evison, that reaches only 3'-4' tall, making it a perfect fit for large containers or shorter trellises. 4" to 6" wide soft pink flowers with deep pink stripes that run through the center bar. As they flowers age, they turn to a bright white with the red antlers accenting the flowers beautifully. Repeat blooms from May through August. Pruning group II.

Clematis, Pink 'Comtesse de Bouchard'

Vase Vine; Leather Flower; Virgin's Bower

Full sun to part shade

Rose pink

8'-12' tall

Cool, moist, well-drained soil.

4 to 9

SU-F

3'-6' wide

Rabbit Resistant

Deer Resistant

This large-flowering hybrid clematis cultivar features profuse, 4"-6" diameter, rose pink flowers with creamy yellow stamens. Bloom comes from the current season's growth and appears in a long continuous summer display. Great for covering fences and arbors. Not suitable for containers. Pruning type 3.

Clematis, Pink montana 'Elizabeth'

Vase Vine; Leather Flower; Virgin's Bower

Full sun to Full shade

Soft pink

12'-20' tall

Cool, moist, well-drained soil.

4 to 8

May & June

2'-3' wide

Rabbit Resistant

Deer Resistant

Soft pink flowers have a vanilla scent; vigorous grower. These produce their flowers directly from old stems; pruning must not be done until right after flowering has been completed.

Clematis, Pink montana 'Rubens'

Vase Vine; Leather Flower; Virgin's Bower

Full sun to Full shade

Light pink- Deep rosy-pink

12'-20' tall

Cool, moist, well-drained soil.

4 to 8

May & June

2'-3' wide

Rabbit Resistant

Deer Resistant

Color varies by season from light pink to deep rosy-pink; vanilla fragrance; purplish leaves. These produce their flowers directly from old stems; pruning must not be done until right after flowering has been completed.

Clematis, Pink 'Neva'

Vase Vine; Leather Flower; Virgin's Bower

Full Sun to Part Shade

Magenta Pink

3' to 4' tall

NEW Cool, moist, well-drained soil.

4 to 11

ESU to EF

1' to 2' wide

Enjoy the compact habit of this clematis! Perfect for containers or patio gardens. Set a small trellis or obelisk in a container and let it wrap its way to the top creating a thrilling upright splash of color. The bright magenta pink blooms are 5" across with a slightly wavy edge. This free flowering clematis offers color from ESU to EF. Planted in full sun to part shade, clematis prefer to have their roots shaded which can be done with a plant near by or with a layer of mulch. Pruning type 2.

Clematis, Pink 'Pink Champagne'

Vase Vine; Leather Flower; Virgin's Bower

Full sun to Full shade

Deep rosy pink

7'-8' tall

Cool, moist, well-drained soil.

4 to 8

May, June, Aug, & Sept

2'-3' wide

Rabbit Resistant

Deer Resistant

Deep rosy pink flowers, free-flowering; syn. 'Kakio'; great for containers. These produce their flowers directly from old stems; pruning must not be done until right after flowering has been completed.

Perennial Vine

Clematis, Pink 'Pink Mink'

Vase Vine; Leather Flower; Virgin's Bower

Part to full sun

Candy pink with magenta stripe

9'-10 tall

Cool, moist, well-drained soil.

4 to 9

June to Sept

6'-6 1/2' wide

Rabbit Resistant

Deer Resistant

Now everyone can grow Clematis! Easy to grow and with lots of flowers, that's the hallmark of Szczepan Marczyński's breeding. Has an abundance of candy pink blooms with a broad stripe of magenta down each petal, from early summer until early fall. The edges of the petals are lightly crimped and just a bit curled-back, creating a rounded, full look. Prune hard to 18" tall in early spring. Pruning type III.

Clematis, Pink 'Rosalie'

Vase Vine; Leather Flower; Virgin's Bower

5-6hr of Sun

Pink

7' tall

Cool, moist, well-drained soil.

5 to 9

June to Sept

1' to 2' wide

A free flowering bloomer, 'Rosalie' Clematis is sure to 'wow' you! Blooming in June through September, 'Rosalie' starts off with deep bi-colored rose blooms. As the flowers keeps coming, 'Rosalie' takes on a vast array of pink shades that as the flowers fade turn a lavender pink shades. The deep burgundy anthers create a stunning contrast to each flower. This new cultivar is Mark Donahue's second clematis introduction and is named after his grandmother, Rosalie. Pruning type 2.

Clematis, Pink texensis 'Princess Diana'

Vase Vine; Leather Flower; Virgin's Bower

Part to full sun

Whitish pink

8'-12' tall

Cool, moist, well-drained soil.

4 to 8

June, July, & Sept

2'-3' wide

2" wide, tulip-like flowers are whitish pink on the outside with a deep pink central bar. Inside petals are rich pink with a deeper pink bar. Grows well in containers. Pruning type 3.

Clematis, Pink 'The Countess of Wessex'

Vase Vine; Leather Flower; Virgin's Bower

5-6hr of Sun

White with Pink stripes

4' to 6' tall

NEW Cool, moist, well-drained soil.

4 to 9

ESU-EF

2' to 3' wide

It has lovely 5" to 7" white flowers with pink stripes on the center bar of the sepals. The color of the bar varies in intensity. A stunning selection chosen by the Countess herself from the Evison/Poulsen breeding program. Very compact and tolerant of shade. Pruning type 2.

Clematis, Purple & Lavender 'Bijou'

Vase Vine; Leather Flower; Virgin's Bower

5-6hr of Sun

Pale violet-mauve and pink

1' tall

Cool, moist, well-drained soil.

4 to 8

May to July

12"-18" wide

Rabbit Resistant

Deer Resistant

An Evison/Poulsen cultivar. Small pointed, ruffled petals in pale violet-mauve with a slight pinkish bar. Pink tipped anthers open to a lovely rosette shape. Very free flowering and the flowers keep their shape well. A nice, low-mounding clematis. 3" to 4" wide flowers. Pruning group II.

Clematis, Purple & Lavender 'Fleuri'

Vase Vine; Leather Flower; Virgin's Bower

Part to full sun

Deep purple

3'-4' tall

Cool, moist, well-drained soil.

4 to 8

May through August

2' wide

Rabbit Resistant

Deer Resistant

An Evison/Poulsen variety with 5" wide deep purple flowers and an attractive contrasting flower center. The beautiful dark flowers are best when offset by a light background. Very compact and does well in containers. Grows well in part shade. Pruning type III.

Clematis, Purple & Lavender 'General Sikorski'

Vase Vine; Leather Flower; Virgin's Bower

5-6hr of Sun

Dark lavender

8'-10' tall

Cool, moist, well-drained soil.

4 to 9

May to June and September

2'-3' wide

Rabbit Resistant

Deer Resistant

6" to 8" wide flowers have huge dark lavender petals with tints of red and prominent creamy yellow stamens. Very hardy plants are extremely floriferous and great in containers! Pruning group II.

Clematis, Purple & Lavender 'Giselle'

Vase Vine; Leather Flower; Virgin's Bower

5-6hr of Sun

Creamy pink

4'-6' tall

Cool, moist, well-drained soil.

4 to 9

LSP-EF

4'-6' wide

Shining by itself or sharing the spotlight with roses in a spectacle of color. 'Giselle' blooms vigorously in spring to fall, slowing down but continuing in warmer weather. The 5" to 6" wide flowers with pointed petals change gradually from deep creamy pink into a pale pink shade, contrasting wonderfully with dark stamens. Fantastic in patio containers and large pots! Highly versatile, it forms a splendid combination with shrubs with purple foliage. Pruning type III.

Perennial Vine

Clematis, Purple & Lavender 'Happy Jack'	Vase Vine; Leather Flower; Virgin's Bower	5-6hr of Sun	Rich violet-blue	6'-8' tall
Cool, moist, well-drained soil.		4 to 9	ESU-EF	4'-5' wide

An improvement on the old favorite C. x jackmanii, this variety produces masses of deep violet-blue, nodding flowers up to 5" across. Plants have a more compact habit, making them well-suited to container growing. Like the classic 'Jackmanii', this clematis is a heavy bloomer for months on end, boasting a profusion of its 4-petaled blooms, each richly colored with deep violet-blue with lighter midribs and yellow stamens. Pruning type III.

Clematis, Purple & Lavender 'Jackmanii'	Vase Vine; Leather Flower; Virgin's Bower	Full sun to Full shade	Dark purple	10'-12' tall
Cool, moist, well-drained soil.		4 to 8	June, July, & Sept	2'-3' wide

Rabbit Resistant Deer Resistant

The most profuse blooming dark purple Clematis; by far our most popular Clematis! These bloom later & from new growth; prune in Feb-Mar as new leaf buds begin to show—remove all dead material above these buds.

Clematis, Purple & Lavender 'Jolly Good'	Vase Vine; Leather Flower; Virgin's Bower	5-6hr of Sun	Lavender-purple	6' to 7' tall
Cool, moist, well-drained soil.		4 to 9	ESU to EF	2' to 3' wide

Clematis don't get much easier than this! 'Jolly Good', a hybrid of the popular 'Jackmanii', is a prolific bloomer of 4" light lavender blooms with undertones of magenta. The creamy white stamens add contrast to create a beautiful eye. It has compact height that is good climbing fences, trellises or arbors. Pruning Type 3 - his group blooms later and from new growth. These should be pruned in February or March as new leaf buds begin to show low on the plant. Also remove all dead material above the buds and clean out any old or mildewed foliage at this time.

Clematis, Purple & Lavender 'Perrin's Pride'	Vase Vine; Leather Flower; Virgin's Bower	5-6hr of Sun	Deep purple	8'-10' tall
Cool, moist, well-drained soil.		4 to 9	ESU-EF	2'-3' wide

Rabbit Resistant Deer Resistant

Shows off beautiful overlapping petals recurving at the tips, giving the 5" to 7" wide flowers an attractive rounded appearance. The deep purple petals even darken towards the edges, having striking bronze anthers. Profuse blooming throughout the summer, the flowers appear on both old and new growth, but are more floriferous on the current season's growth. Pruning type II.

Clematis, Purple & Lavender 'The President'	Vase Vine; Leather Flower; Virgin's Bower	Full sun to part shade	Deep violet blue	8'-10' tall
Cool, moist, well-drained soil.		4 to 9	SP & F	1'-2' wide

Rabbit Resistant Deer Resistant

A very popular cultivar with rich, purple-blue flowers. The large 7" flowers have a somewhat cupped shape, with silvery undersides, and striking dark red anthers. Attractive seed-heads in the fall. Makes a good cut flower. Pruning type 2.

Clematis, Red 'Bourbon'	Vase Vine; Leather Flower; Virgin's Bower	5-6hr of Sun	Vibrant red	4'-6' tall
Cool, moist, well-drained soil.		4 to 8	June to early August	3'-5' wide

Rabbit Resistant Deer Resistant

An Evison/Poulsen cultivar which has stunningly vibrant red 5" to 6" wide flowers. The rounded flowers have contrasting yellow anthers. Its short stature makes it ideal for growing in patio containers. II

Clematis, Red 'Charmaine'	Vase Vine; Leather Flower; Virgin's Bower	5-6hr of Sun	Red	6' to 7' tall
Cool, moist, well-drained soil.		4 to 9	LSP to ESU	2' to 3' wide

This clematis produces 5" to 6" rich red double, semi double flowers in May to June, and single flowers in autumn. This variety transforms your garden into a show-worthy oasis! Scrambling through roses, shrubs or small trees with its flowers peeping out through the foliage is a nice look but superb all their glory, planted in flower beds next to sunny walls. Group 3 pruning type - each early-spring, simply cut all stems down to 6" above soil level and place some well rotted compost around the stump. This keeps your clematis plant tidy, free-flowering and healthy.

Perennial Vine

Clematis, Red 'Ernest Markham' Vase Vine; Leather Flower; Virgin's Bower 5-6hr of Sun Magenta 12'-15' tall

Cool, moist, well-drained soil. 4 to 8 July, Aug, & Sept 2'-3' wide

Rabbit Resistant Deer Resistant

Magenta flowers; gold anthers; a robust grower; great for containers. These bloom later & from new growth; prune in Feb-Mar as new leaf buds begin to show—remove all dead material above these buds.

Clematis, Red paniculata 'Sweet Summer Love' Vase Vine; Leather Flower; Virgin's Bower Part to full sun Cranberry-violet 10'-15' tall

Cool, moist, well-drained soil. 4 to 9 SU-F 2'-3' wide

Rabbit Resistant Deer Resistant

Wouldn't it be great if Sweet Autumn clematis flowered sooner and longer and came in other colors? Now it does! 'Sweet Summer Love' gives you everything you want: the flowers, the fragrance, the ease of growth and cranberry-violet blooms that start over a month earlier than others. This breakthrough vine is from award-winning clematis breeder Szczepan Marczyński of Poland. Clematis 'Sweet Summer Love' is going to be your new Summer Love! Do not worry, 'Sweet Summer Love' is not as aggressive as 'Sweet Autumn', it is a friendly addition to your trellis and fences. 'Sweet Summer Love' is an easy to grow variety of Clematis that produces colorful flowers midsummer that last until the fall. The flowers start off as a beautiful red and as they age turn to purple, giving this plant a bi coloration. The sweet cherry vanilla fragrance is sure to stimulate your senses every time you walk past! Pruning group III.

Clematis, Red 'Rebecca' Vase Vine; Leather Flower; Virgin's Bower 5-6hr of Sun Bright red, almost scarlet 6'-8' tall

Cool, moist, well-drained soil. 4 to 8 May, June, August 3'-4' wide

Rabbit Resistant Deer Resistant

An Evison/Poulsen cultivar with very large, 6" wide flowers that are stunningly bright red (almost scarlet) with creamy yellow anthers. It is exceptionally free-flowering.

Clematis, Red 'Rosemoor' Vase Vine; Leather Flower; Virgin's Bower 5-6hr of Sun Reddish purple 10' tall

Cool, moist, well-drained soil. 4 to 8 May to Sept 3'-5' wide

Rabbit Resistant Deer Resistant

This large flowering clematis is a distinctive reddish purple color with yellow anthers, which contrast spectacularly with the color of the petals. Its flowers are 5" to 6" in diameter and bloom on both the previous season's stems and on current season's growth, giving it a very long flowering period. III

Clematis, Red 'Viva Polonia' Vase Vine; Leather Flower; Virgin's Bower 5-6hr of Sun Red 4' to 6' tall

Cool, moist, well-drained soil. 4 to 9 ESU and MSU 4' to 6' wide

Named because it shares the colors of the Polish flag, 'Viva Polonia' is a cheerful, easy growing, large flowered clematis. 5" to 7" red flowers are accented with a stellar white starry eye. Flowers abundantly in June and July on old wood and blooms continue to appear through the season on new wood. Developed by noted Polish breeder Szczepan Marczyński. Pruning type 2 - prune them lightly above the first pair of new swollen leaf buds, removing about 12' from each shoot and also remove any dead or weak stems at this time.

Clematis, White 'Huldine' Vase Vine; Leather Flower; Virgin's Bower Full sun to Full shade White 12'-20' tall

Cool, moist, well-drained soil. 4 to 8 July to Oct 2'-3' wide

Rabbit Resistant Deer Resistant

Medium-sized white flowers; blooms continuously; very vigorous; grows well in containers. These bloom later & from new growth; prune in Feb-Mar as new leaf buds begin to show—remove all dead material above these buds.

Clematis, White 'Hyde Hall' Vase Vine; Leather Flower; Virgin's Bower 5-6hr of Sun Off white 8' tall

Cool, moist, well-drained soil. 4 to 8 May to June 3'-5' wide

Rabbit Resistant Deer Resistant

This compact clematis is ideal for growing in patio containers. Its 5" to 7" wide, off white flowers sometimes have green or pink tinges. Light chocolate brown anthers. II

Perennial Vine

Clematis, White 'Ninon'	Vase Vine; Leather Flower; Virgin's Bower	5-6hr of Sun	White	3' to 4' tall
NEW Cool, moist, well-drained soil.		4 to 9	LSP to MF	2' to 3' wide
Has a nice white and cream flowers with dark contrasting centers. Flowering from May to October giving you 6 months of flowers! Great in low borders or simply grow it on a pot or planter, with a nice obelisk to climb through. Pruning type 3.				

Clematis, White paniculata (Sweet Autumn Clematis)	Vase Vine; Leather Flower; Virgin's Bower	5-6hr of Sun	White	10'-20' tall
Cool, moist, well-drained soil.		4 to 8	Aug & Sept	2'-3' wide
				Rabbit Resistant Deer Resistant
Sweet Autumn Clematis; Clusters of sm very fragrant white flowers; vigorous. These produce their flowers directly from old stems; pruning must not be done until right after flowering has been completed.				

Clematis, White 'Snow Queen'	Vase Vine; Leather Flower; Virgin's Bower	5-6hr of Sun	Pure white	10'-12' tall
NEW Cool, moist, well-drained soil.		4 to 8	May, June, & Aug	2'-3' wide
				Rabbit Resistant Deer Resistant
Pure white open flowers; very free flowering; grows well in containers.				

Clematis, Yellow tangutica 'Radar Love'	Vase Vine; Leather Flower; Virgin's Bower	5-6hr of Sun	Yellow	10'-20' tall
Cool, moist, well-drained soil.		4 to 8	May to October	2'-3' wide
				Rabbit Resistant Deer Resistant
Golden Clematis; Small yellow bell-shaped flowers; a great fast-growing, hardy vine.				

Hedera helix	Ivy	Part to full shade		1'+ tall
Moist, well-drained soil.		4 to 8		12"-18" wide
Ground cover				
English Ivy; Evergreen ground cover or vine; dark green leaves; forms a dense cover on the ground or on walls.				

Humulus lupulus 'Aureus'	Hops	Part to full sun		20' tall
Moist, well-drained soil.		4 to 8		4' wide
Brilliant chartreuse to gold heart-shaped leaves on a vigorous twining vine; golden foliage will mellow to green by late summer; pale green papery cone-like seed heads add decorative interest.				

Hydrangea anomala petiolaris	Climbing Hydrangea	Part to full shade	White	50' tall
Moist, well-drained soil.		4 to 8	LSP-SU	12' wide
One of the finest hardy vines for shaded sites, this elegant yet durable Hydrangea produces a dense covering of lush, glossy green foliage and large 10" heads of fragrant, lacy white bracts; the peeling, cinnamon-toned bark provides great interest when the plants are not in bloom; very showy scrambling up against a tree or on fencing.				

Hydrangea anomala petiolaris 'Firefly'	Climbing Hydrangea	Part to full shade	White	to 50' tall
Moist, well-drained soil.		4 to 8	LSP-SU	to 12' wide
This climbing Hydrangea has the flat white flowers of its cousins, but the foliage is a lovely combination of serrated yellow margins surrounding irregular green centers. The leaves emerge in shades of bright yellow and green in spring, and gradually mature to chartreuse and green. Blooms from late spring to summer.
